## Kitty's Korner

Both Boyd didn't realize the 13th last Friday she arrived at her Fashions to discover pouring from the door running like a river the street. Finding the store was ankle in water, she discovered that a water pipe to air-conditioner had broken during the night.

Having a penchant for arriving at the right place the time, I arrived upon the scene shortly after and with Hubert Baker, we grabbed brooms and started mopping water out the front. I could see that the deeper I swept, the deeper I waded in water. Wading over the telephone, I called the water department. Don't know why, just seemed like a good idea at the time. Bill Cooper and crew arrived in no time at all and the situation was soon under control.

However, Mrs. Boyd spent the remainder of the day mopping water out of things she had stored behind the counters on the floor and mopping her head over the fact that her insurance agent cover damage from a roadside flood. She isn't glib by nature, but just bet she will be as apprehensive when she says the 13th rolls around next year, and the next and next.

The teen-age baseball team beat the men's team Monday night at Powell. This should forever be the voices of fathers who think they are still good enough athletes to beat their boys in any sport.

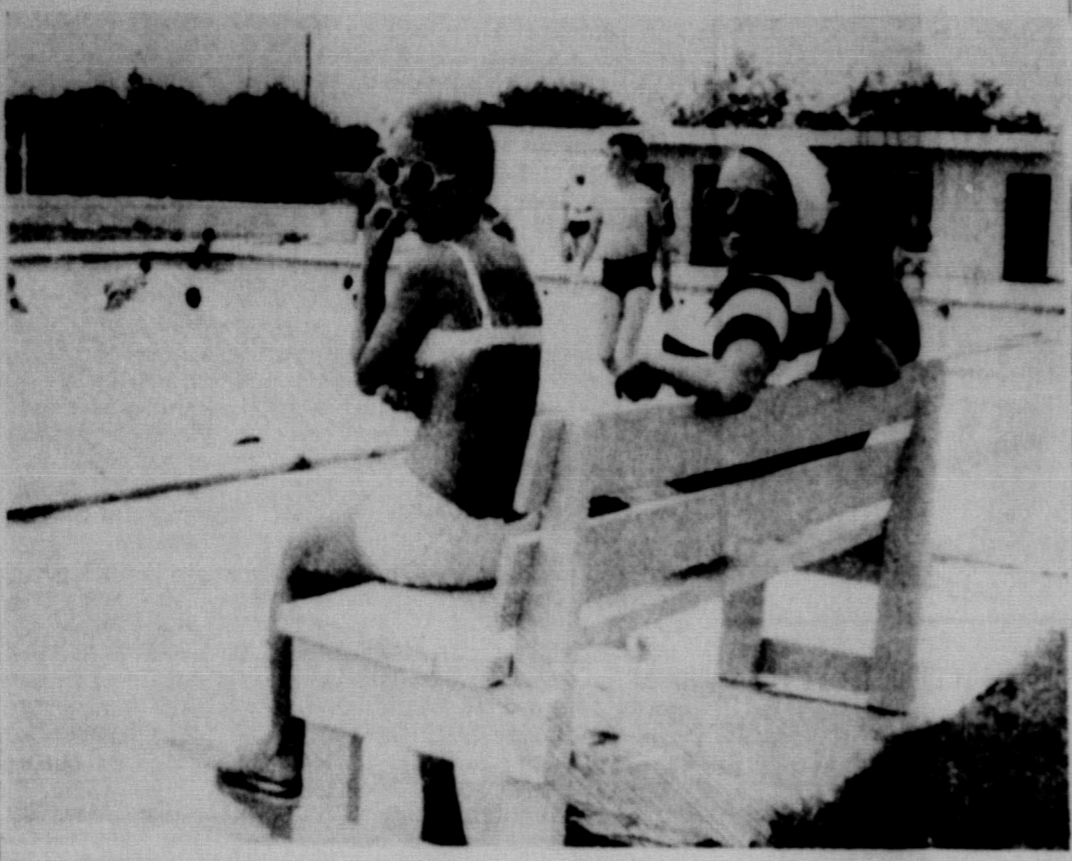

We have a father like that at our house. He was asked to play on the men's team, and he was going to be. He knew in advance that if the kids won, he would have to give up his afternoon coaching sessions and his son and he wasn't about to take that chance.

— k k —  
Mrs. Parker, Velma Lee and Leta Cox and I had a great way to celebrate father's day. We went to Midland to a bridge tournament and played all day. I especially enjoyed it, since it was my first tournament and I was anxious to find out what it was all about.

I can imagine my amazement when my partner, Leonard, came in second in the section that night. Before the results were posted I had already decided to give up the game. Of course, when I found out about the unexpected win, I was ready to play again. I still haven't decided if I should play on the bridge that I contacted the better players.

I couldn't wait to get home with my good news. When I drove in the evening at 12:30 a.m. Monday, Tom was waiting to tell me that he shot a 67 at the course Sunday afternoon. I never do get to be around my house.

— k k —  
I can't tell you how many all cigarette packs I have saved. There is a little old woman in Midland who gets a seeing eye dog from a tobacco company if you collect 10,000 empty cigarette packages. It doesn't matter what brand the sponsor that she send her at least a hundred by next week. So I only have about 200 of these came from the Ozona and Chuy here in the Ozona (Last Page)

**DECORATIVE, TOO!** Acting as life guards at the North pool (their attention to duty momentarily diverted by the camera) are Heler King left, and Debbie Mills, taking it easy on the poolside bench while they watch their charges. Attempting to further divert the attention of the two pretty lifeguards is Jim Montgomery, far right end of the bench.

## Four Ozona Boy Scouts Tapped For Order Of Arrow After Week's Camping Stay At Camp Fawcett

Four Ozona Boy Scouts were tapped for the Order of the Arrow in a recent week's camping excursion to Camp Fawcett. Receiving the award were Stanley Flanagan, Riek Hunnicutt, Steve Wilkins and Larry Netherland. The four, along with assistant Scoutmaster Chick Womack and eleven more Ozona Scouts attended the annual Boy Scout Camp.

The group of boys collected 75 badges, placed in all contests and Scoutmaster Womack won the Scoutmaster Archery Contest.

Boys and badges are as follows: Dan Davidson, reptile study, forestry, scout lifeguard, Indian lore, rowing, and conservation of natural resources.

Stanley Flanagan — reptile study, forestry, scout lifeguard, Indian lore, rowing, and conservation of natural resources.

Gerald Olson — reptile study, forestry, Scout lifeguard, Indian lore, rowing, and conservation of natural resources.

Riek Hunnicutt — reptile study, forestry, scout lifeguard, Indian lore, rowing, and conservation of natural resources.

Steve Wilkins — reptile study, life saving, first aid.

Swimming instructors Helen King, Deborah Mills and Will Collett registered each child and started swimming lessons at 1 o'clock Tuesday afternoon.

The children are divided into age groups with each instructor teaching a small group. This was done in order that more individual attention could be given each child.

Lessons will be held daily Monday through Friday for two weeks.

## Nanette Bailey Suffers Broken Elbow In Fall

Nanette Bailey, daughter of Mr. and Mrs. Bob Bailey, underwent surgery Monday morning in a San Angelo hospital for repair of a shattered elbow received in a fall Friday night at the Ozona Oil Co.

Miss Bailey stopped at the station around 11:30 Friday night to call her parents at their ranch home several miles east of town. She slipped and fell on the rain-slick driveway.

## Ozona's Annual Junior Rodeo Set For August 8-9

Dates for the Annual Junior Rodeo sponsored by the Ozona Lions Club have been set for August 8-9 this year, according to Bill Watson, rodeo chairman. A gain this year, the rodeo will not be affiliated with the American Junior Rodeo Association, in order to encourage more local participation.

Events and entry fees will be much the same as last year with a parade downtown on the opening day of the show.

All events will be divided into three age groups 12 and under, 13 through 15, and 16 through 18 for both boys and girls.

Events for girls in all divisions include barrel race, pole bending and flag race.

Boys' events in various divisions include pole bending, breakaway roping, flag race, steer riding, calf tie-down, hair pulling, and ribbon roping.

Trophies will be given winners in all events, along with a trophy for best all-around performance in each age group.

## Thunderstorms Bring Moisture To Ozona Area

Two thunderstorms the past week dumped 1.36 inches of moisture on Ozona, according to the official gauge at the water district office, and amounts of from one inch to one and a quarter inch were recorded in other gauges around the town for each storm.

Saturday night a dazzling electrical storm wreaked havoc on rangeland and property west and slightly south of Ozona. Lashing winds and hail stripped a wide swath of country from the south-central to the western edge of the county. Houses and barns were extensively damaged and vehicles suffered severe damage from the hard hailstones. Trees and plants in the path of the hail were stripped of foliage. The stones were extremely hard and varied in size from golf ball to lemon size and slabs the size of a slice of bread.

In town the official gauge recorded .70 of an inch. There were isolated hail stones, but no damage.

Reports of a small twister at the Frank McMullan ranch south of town were not confirmed, but it was reported that the twister touched down near the house and wrenched a mesquite tree from its moorings.

Tuesday morning early, lightning and loud claps of thunder announced another rain storm. The official gauge recorded .66 of an inch, while other gauges recorded up to an inch around town.

Both rains were general through the county with all sections receiving an inch or more of the beneficial moisture. The storm left more rain in the north part of the county Tuesday morning.

The two rains brought the official rainfall for June to 3.04 inches.

## Agri-Tour Mobil Unit On Display Mon. Afternoon

Monday afternoon Ozonians will have an opportunity to visit the Texas Department of Agriculture's popular Agri-Tour mobile unit. The 56-foot long traveling show will be open to the public in the parking lot in the village shopping center.

An interesting collection of slides will be shown to familiarize Texans with the high quality of Texas Agricultural Products. The exhibit features a narrated color slide program that tells the story of Texas fibers, along with the style show showing the 1969 Miss Wool and Mohair Pageant at the Apparel Mart in Dallas May 26.

The trailer's appearance is made possible through the cooperative effort of the Texas Sheep and Goat Raisers Assn., the Mohair Council of America and the Texas Department of Agriculture.

## Ozona Area Available Labor Supply Surveyed

As an attraction to industry looking for a place to locate with a comfortable labor force potential, Ozona has a labor force supply consisting of a comparatively small number of unemployed males but a possible force of some 200 female workers, plus a potentially available group of 50 to 100 from secondary sources (surrounding communities).

## Ozona Oil Leads Second Half LL Champion Chase

Ozona Oil led the pack for the second half championship after Little League play this week, being undefeated for the three games into the half. Flying W is in second place, followed by Moore Oil and B&B is the cellar dweller, having yet to pick up a win in the second half.

Thursday's games were short and sweet, as Moore Oil defeated B&B 11-1, in four innings and Ozona Oil beat Flying W 16-3 in the fourth inning. Both games were called in the fifth due to the ten-run rule.

Hector DeHoyos and Donald Higginbottom homered for the Oilers and H. Huereca and Ronald Shaw led the Oilers attack with three hits each. Harvey Vargas had two hits for the Grocers and was the losing pitcher. Ronald Perry picked up the win for the Oilers.

The second game was an upset, as the Ranchers were leading 3-0 going into the fourth inning. The Oilers picked up 9 runs in the fourth and 7 more in the fifth to win going away. Pete Martinez and Doak Field led the Oiler attack with 2 hits each while Gene Castro had 2 hits for the Ranchers. Martinez picked up the win and Eric Fitzhugh the loss.

Play Monday night was highlighted by a 5-inning no hitter by Pete Martinez of the winning Ozona Oilers. They defeated Moore Oil 10-0. Martinez gave up three (Continued on Last Page)

**FILLING THE ABM "INFORMATION GAP"**

Very soon Congress will be facing a momentous decision affecting the peace and security of the American people.

President Nixon has asked Congress to authorize our deployment of the Safeguard Anti-Ballistic (ABM) missile system, to defend the missile sites and bomber bases that guard the United States against missile attacks. The ABM defense system, as President has said, is a "minimum program essential for our security." He has stated, "It is my duty, as President, to make certain that we do no less."

Since the ABM policy was announced, more than 40 organizations have launched campaigns opposing the Safeguard system. These campaigns have stimulated anti-ABM mail to congressmen and senators, tending to create the mistaken impression that most Americans are against development of an ABM system.

However, a recent poll by Opinion Research Corporation indicates that 84 per cent of those polled believe this country NEEDS an anti-ballistic-missile defense system and that 73 per cent believe Congress should approve the Safeguard ABM system proposed by President Nixon. Only 8 per cent are opposed to an ABM program!

So it is clear that a grave "information gap" exists on this vital ABM question. While the majority of the American people indicate they support the Safeguard system, they have not conveyed their opinions and their wishes to their elected representatives in Congress and the United States Senate, who must make the final decision soon.

There is still time for the great silent majority of the American people to convey their wishes to their congressmen and senators. The majority cannot remain silent on this vital issue affecting national security.

**DOUBLE STANDARDS**

The State Department despite the change of administration, continues to operate under a double standard. Some who are friendly to our government are refused entry on travel visa. Others who contest everything this nation stands for get red carpet treatment.

When Indonesia's Sukarno toured the U. S. as the head of that nation, he was supplied with a bevy of women to accompany him. This was exposed by one of the large metropolitan newspapers, to the embarrassment of the State Department. Not long afterward, the Indonesians ousted Sukarno for attempting to sell out his country to Red China.

But when pro-American

**ALSO THEIR GRANDCHILDREN!**

Moise Tshombe was invited to our shores to receive an award from the Young Americans for Freedom in 1962 for his resistance to communism, the State Department refused the application. This was after the "state" visits by Khrushchev and Castro. The awards were not a right-wing reactionary plot. Others who received Y. A. F. awards were Pres. Hoover, former N. J. Gov. Edison, several prominent senators, congressmen and other public figures. Tshombe is currently being held prisoner by the pro-Soviet Algerian government. He was skyjacked while aboard a chartered plane. He has been imprisoned, without trial, for two years.

Another undesirable admitted to the nation, in March 1969, was the young radical, Karl Dietrich Wolff. One of the leaders of the West German equivalent of the SDS, he spoke on 14 college campuses, called the leaders of the U. S. racists and imperialists, the Los Angeles police he termed "pigs", used obscene language at a Senate subcommittee meeting, called the senators bandits, advocated draft dodging and preached nothing but hate for the U. S.

It seems to us high time the State Department took a look at its policy and rid itself of this irrational double standard.

**HIGHLIGHTS AND SIDELIGHTS**

**From Your State Capital**  
By Vern Sanford  
Manager, Texas Press Assn.

Austin, Texas—Gov. Preston Smith plans to answer the state's big money question Friday (June 20).

He is expected to announce on a statewide television hookup whether he will veto the Legislature's one-year budget bill and if so, when the special session to mop-up the unfinished finance job will be scheduled.

At noon the following day, the Governor will present further views on the subject when he addresses the 90th Annual Summer

Convention of the Texas Press Association at Saturday's luncheon at the Inn of Six Flags in Arlington.

Fate of the \$60.4 million teacher pay raise hangs delicately in the financial balance which Smith can tip in several directions with a flick of his veto pen.

State officials are having a hard time agreeing on just how much money is coming in during the next year — and whether there will be enough for both the salary hike and the \$2.8 billion one-year budget.

As though the situation were not complicated enough already, Smith could throw it out of balance by vetoing any one — or more — of five revenue-raising bills before him. Or he could square it up again by line-item - vetoing of spending proposals.

He can, of course, veto the entire one-year bill and call legislators back to work promptly on a two-year budget. Many expect him to do just that.

**BILLS CHALLENGED** — Governor Smith left up in the air the fate of 41 bills and 13 concurrent resolutions passed at the last minute by the recent Legislature. He challenged their validity on two counts.

Smith said the measures — one of which created 28 new district courts — were not signed in the presence of the House and the Senate by the lieutenant governor and the speaker as required by the constitution. He contended that they were signed after the Legislature already had gone home. In addition, they reached him seven days later than they should.

**EDUCATION** — Twenty-three college and university educators from around the state have sent Governor Smith a letter asking that he not veto the bill that will increase the cost of education to students by \$10 a semester. They are the president

ents and chancellors of the various state supported schools. They point out that vetoing the bill will cost the state \$4 million a year.

**LCB RULES ATTACKED** — New Liquor Control Board rules for operation of private drinking clubs face a court attack.

Suit was filed in district court here by two Dallas club operators. They protested in particular prohibitions on cash sales and strict limitations on guest card provisions. Rules, they argued, would close about 75 per cent of clubs now operating.

Prospects for opening of another important oil pool on the A. C. Hoover ranch in western Crockett county were bright this week with reports of a new well with a flow of 200 barrels of oil in a 3 1/2 hour test.

Surrounded by more than sixty of her relatives, Mrs. Laura Hoover, the first white woman to set foot on soil of the Pecos river country, celebrated her 78th birthday, at the Hoover

WASHINGTON AND SMALL BUSINESS

Is New York Necessary?

At one time beside the Tiber there was a mighty city.

And to this city there flocked all the dispossessed, the no-credit-wells of the world plus those just down on their luck.

But along with this group this great city displayed an opulence that far exceeded anything the world had known up to that time, and in this city there was a constant construction of dazzling new edifices.

Needless to say, those who had not looked with envy on those who had, and this created considerable unrest.

Now the political system was somewhat topsy turvy at times. At times there were senators, at times consuls, and at times emperors, all anxious to keep their jobs.

So they felt very strongly about the unrest of the masses, and after considerable thinking about the situation, came up with the viewpoint that the unrest in the streets of the city was not a local problem, but an empire problem.

So it was decreed that the whole world should pay tribute to Rome and from all the far corners taxes poured into Rome.

Of course, a great deal of this largesse was siphoned off by graft, corruption, and incompetence, but a substantial part was passed out to the great city's dispossessed which in those days was crudely referred

to as the rabble. But the more that was given the discontented the more discontented they became, and the day came when lots in the city were useless as prizes at bingo games. Around this time the Christ era began, thus it is presumed there was bingo.

There is perhaps no parallel to be drawn, but it is interesting that New York's Governor Nelson Rockefeller has made a strong plea for the Congress to continue the ten per cent surtax as a permanent feature of the income tax, with funds diverted to the big city which usually means New York.

In short, he proposes that residents of Iowa be taxed to support New York in style which it would like to be accustomed.

In other words, 192 million should pay tribute to maintain a city of some 8 million.

Obviously, if such a move necessary to keep New York City in a reasonably viable condition, then it is reasonable to ask if New York City is necessary. The city is of course, a magnificent thing to behold, but it is also too expensive to maintain a reasonable degree of living for all who want to flock into its limits is probably a luxury far too great for the rest of the nation. Thus, instead of thinking of a greater New York City, it is perhaps time to consider a lesser New York City.

Mrs. Irene Wright returned to her home in Portales, N. M. Sunday after visiting here with her daughter, Mrs. Jack Tankersley, and family.

Mr. and Mrs. Charlie Applewhite spent the weekend

#### Welfare Mothers In Action

Some of the ugliness and  
bitterness on the national  
scene these days is al-  
most beyond belief. Certain-  
ly it is hard to believe what  
happened at the recent Na-  
tional Conference of Social  
Welfare in Washington. Yet  
it did happen.

The Washington Post was  
disappointed in its reporting  
of the shocking events at  
the conference, for much of  
what was said could not be  
repeated in a family newspa-  
per.

The 5,000 social workers  
gathered in the capital  
for their annual meeting  
were subjected to a stream  
of four-letter obscenities.  
Members of welfare "rights"  
organizations jumped on the  
stage and took over the mi-  
crophones. They shouted vile  
words at the audience of so-  
cial workers. These workers  
were called "racist pigs" and  
members of the "white im-  
perialist oppressive soci-  
ety." Such terms were mild  
compared to other words  
and phrases employed. The  
Washington Post referred to  
"obscene" demands made by  
the welfare mothers.

But that wasn't all. When  
one of the captive audience  
attempted to lead a mass  
walkout from the confer-  
ence room, a human chain  
of welfare mothers blocked  
the exits. Dr. George A. Wil-  
son, head of the welfare pro-  
gram, declared nobody was  
going to leave until thou-  
sands of dollars were anted  
up for more of the poor to  
attend conference meetings.  
When that, plastic ice buck-  
ets were passed around for  
financial contributions.

The Post reported that it  
was necessary for the tem-  
orary ballroom dividing  
hall to be removed in order  
for the delegates to the con-

ference to escape.  
This unspeakably crude  
and insulting session was  
not the last, however. Wiley  
and his welfare mothers car-  
ried out other interruptions  
of the proceeding during the  
remaining days of the confer-  
ence. Unscheduled speak-  
ers, who broke into the  
meeting, included black so-  
cial workers, Puerto Ricans,  
an Indian and a young wo-  
man who shrieked that she  
was a former mental patient  
and an ex-drug addict.

The social workers appar-  
ently were stunned by the  
experience. One of them told  
a reporter: "I said to myself  
this couldn't be happening  
to us."

As shocking as the behav-  
ior of the welfare mothers,  
was the craven attitude of  
the outgoing president, Dr.  
Arthur S. Flemming, who al-  
so is president of the Na-  
tional Council of Churches.  
He didn't order the silencing,  
or removal of the welfare  
mothers who shouted obscen-  
ities at the delegates. On  
the contrary, against the  
advice of some of his board  
members, he refused to stop  
anyone from speaking.  
When the time came to turn  
over the presidential gavel  
to the incoming president,  
Dr. Flemming bragged "I did  
not use this gavel once this  
week — I didn't think it was  
appropriate."

The public has no idea  
what the delegates thought  
of Dr. Flemming's toleration  
of obscenity-shouting dis-  
ruptionists. But many A-  
mericans familiar with the  
story of these shocking ev-  
ents in Washington must be

sickened by Dr. Flemming's  
attitude. The country simply  
cannot afford mental con-  
fusion or moral leniency in  
confrontations with barbar-  
ians. This is what America  
really faces today, and which  
was manifested at the social  
workers conference in Wash-  
ington — barbarism.

Educated men and women  
who refuse to apply the re-  
medies of law and order  
when confronted by savage  
behavior, as in the case of  
the welfare mothers at  
Washington, are exposing  
the nation to rule by bar-  
barians.

It is a mistake to think of  
barbarism and savagery as  
features of the ancient past  
or remote jungle areas. Ev-  
en the most advanced soci-  
eties can be exposed to pri-  
mitivism within. The meth-  
ods used by the welfare  
"rights" organizations are  
manifestations of this pri-  
mitivism.

In New York City, mem-  
bers of welfare "rights" have  
attacked city welfare offi-  
cers, broken furniture and  
upset files—all because they  
weren't getting the size re-  
lief payments they demand-  
ed. Toleration of this kind  
of violent behavior is im-  
possible if America is to re-  
main a civilized country.  
Some people, like Dr. Flem-  
ming, apparently regard to-  
leration as the ultimate vir-  
tue, but it is obvious from  
the ugly events of our time  
that excessive toleration is  
a major evil. It opens the  
door to the worst excesses in  
human behavior.

It is time for all Ameri-  
cans to view toleration in  
perspective and to insist that  
the organizations to which  
they belong adopt a get-  
tough policy with respect to  
disruptionists.

### TIPS For Gardeners

From The Ozona Garden Club

During my recent trip to Galveston, the city I have always thought of as the Oleander City of Texas, I found the lovely plants in full bloom in the parks, along the boulevards and in home landscapes.

Even though we are much higher, these evergreen shrubs or small trees can be grown in our area with ease. The plants are becoming a favorite here and are planted for their summer blooms. Drive over town and out by the State Highway Building and notice the beautiful colors and well groomed shrubs.

Oleanders grow rapidly and may be pruned into any height or shape. They prefer a sandy soil and sunny location, but will bloom and live through neglect. Usually they come into bloom in May and June and flower off and on until late October. With cultivation, old organic or commercial fertilizer, and thorough watering they respond with an abundance of flowers. No plant makes a better informal hedge or sidewalk planting. No garden should be without these graceful decorative shrubs.

For outdoor culture, the favorite rose-colored double hardy Oleander is most used for southern boulevard planting, for it is the most persistent bloomer of all. There are newer varieties, but ask your nursery man for the best type to use for this area. They are well adapted to town planting and make a fresh appearance during hot, dry, windy and dusty weather when other shrubs wilt and droop.

Oleanders are popular as tubbed plants for the patio or for indoor plants in the winter. If not the hardy type, they should be moved outdoors from May to October in full sun.

I have talked with several who grow oleanders in Ozona and all say the plants

here are free of insects. In damper climate they are subject to scale and mealy bugs.

Caution should be observed if small children are around, for all of the oleanders contain a poisonous juice if eaten.

The oleander is easily grown from cuttings placed in water until tiny rootlets are formed. Then they should be set out in pots or the garden. Cuttings from mature plants may be placed in sandy soil from December to March and kept moist.

### Washington News Letter

Congressman O. C. Fisher

There'll be no repetition of the Poor People's "Insurrection City" in Washington. A bill approved by the House last week is finally being put into law. It prohibits the granting of permits for such purpose.

It will be recalled that Secretary of Interior Stewart Udell gave the Rev. Abernathy a permit to camp 3 miles from the heart of Washington last May. They remained for more than six weeks. It has now been determined that the cost of the permit by Udell resulted in damages to the park of \$220,119, and \$1 million. None of the costs has been paid by the government and their sponsors.

Paul Thompson, the columnist, blew his top and lost his cool when he read my newsletter in which I mentioned the propriety of interracial marriages between blacks and whites. He wrote those who feel that way as "bigots" and as "anti-Negro."

Apparently what Thompson does not know is that many Negroes oppose inter-marriage with whites, just as many whites oppose inter-marriage with Negroes. Thompson lumps all of these together — black and white — and puts the "bigot" label on all who even question the propriety of interracial marriages. Shame on him!

As to Thompson's anti-Negro charge, as applied to me, it is simply not true. I am not and have never in my life been anti-Negro, any more than Mr. Thompson is favoring racial inter-marriages, been anti-Negro. The same logic applies to both. Unfortunately, there are these days who will

will grab at straws in an effort to stir up a big racial issue out of anything. I would hope that Thompson, after he regains his composure, will recognize his error and in the future refrain from injecting racism into a subject which should be a matter of open, sensible discussion by both blacks and whites. You find a conflict of thinking on this subject among both races.

A trip to the Baptist Student Union at Sul Ross is scheduled for this afternoon for the intermediate girls. Ozona girls making the trip will be Miss Glynn and Miss Graves.

The group will return to Ozona late Friday.

### WASHINGTON AND SMALL BUSINESS

Unless Congress intervenes soon, the Bureau of Census will be a lot more nosy than ever before when the 1970 Census is held. Much too nosy, many people say.

The Census questionnaire which has been prepared asks a lot more than how many people are in each household. That was the original Constitutional reason for the census—so that the House of Representatives could be apportioned according to the distribution of population in the states. To assure compliance by every citizen, a penalty was established.

But now, look what the government plans to ask. Questions like "Do you have a flush toilet?" and "Do you have complete kitchen facilities?" The latter is defined by the Census Bureau as "a sink with piped water, a range or cook stove and a refrigerator." That's complete! No housewife would agree with this definition.

Under present plans for the 1970 Census, three out of four families will receive a "short form" of 22 questions to be mailed back. One in four will get a "long form," a Census booklet (it can hardly be called a form) which could require 150 or more responses and several hours of work, depending on one's circumstances.

The booklet includes questions about work and unemployment, sources of income, education, immigration, language ("What language, other than English, was usually spoken in

this person's home when he was a child?") military service, rent, value of property, disability, and whether one has such things as a television set, dishwasher and clothes dryer.

Besides the nuisance and the intrusion into privacy, a number of Congressmen are complaining because all this will be asked under threat of a \$100 fine and 60 days in jail. Many Congressmen think it's time to draw the line on government invasion of privacy under such a threat.

Congressman Jackson E. Betts of Ohio is leading a Capital Hill fight to limit this penalty to seven basic questions. Others would be answered on a voluntary basis.

The Census Bureau promises to keep everything confidential and argues that all these statistics are needed for government planning and to set national standards. For instance, the bureau wants to know how many cars each family owns so that highways can be planned.

That's ridiculous. State car registration figures could provide this information on a continuing basis.

The nation's businessmen are acutely aware of this increasing intrusion; they are required to fill out an extensive business census every couple of years. On official Census Day, 1970, millions of other Americans will find out just how nosy a bureaucracy can become.

### Former Ozonan, Bright Baggett, Subject Of News Article On The Occasion Of His 89th Birthday

Bright Baggett, longtime resident of Ozona, was the subject of an interesting article by Dean Chenoweth, editor emeritus of the San Angelo Standard Times, in the Tuesday morning edition. Occasion for the interview was the celebration of Mr. Baggett's 89th birthday Monday in his retirement home, the Cactus Hotel in San Angelo.

Mr. and Mrs. Jack Baggett, a son and daughter-in-law, spent Sunday with Mr. Baggett in a pre-birthday celebration. Another son, E. B. III, operates an insurance agency in Lufkin. His two daughters, Mrs. Massie West of Del Rio and Mrs. Boyd Clayton of Ozona are also frequent visitors.

A resident of Ozona since 1989, Mr. Baggett moved to Hotel Cactus two and a half years ago.

The article traces Mr. Baggett's life from the time he roped a lobo wolf, one of the most exciting incidents in his life, when a boy riding the range on his father's ranch to the time he retired from his insurance agency here.

Except for three years as cashier at the First State Bank in Barnhart, Mr. Baggett spent his years in business in Ozona. He was in the ranching business before

moving to Barnhart to become a banker and insurance man. His brother, Early Baggett, is a long time Ozona ranchman.

Baggett came here as a young man when his parents, Mr. and Mrs. E. B. Baggett, Sr., bought 45 sections of school land and moved to Crockett county from near Temple.

Mr. Baggett served a term as county clerk in Crockett, was a member of the Texas Sheep and Goat Raisers association for many years and served as secretary of the organization at one time. He founded the Baggett Agency here and still owns a half interest. His son, Jack, owns the other half interest and operates the business.

His wife, the former Alyce Odom, died in February, 1968 after a long illness. They were both active members of the Methodist Church here for many years.

Mrs. W. R. Veale, cousin of Mrs. Lloyd H. Sherrill of Ozona, who suffered a heart attack June 1 while visiting here in the Sherrill home, is reported doing well in Crockett County Hospital where she is under treatment.

**ENGAGEMENT ANNOUNCED**—Mr. and Mrs. E. H. Chandler of Ozona announce the engagement of their daughter, Grace, to Don McFarland, son of Mr. and Mrs. H. H. McFarland of Sutherland Springs, Texas. The couple plan to be married July 19 in the Ozona United Methodist Church.

marized. "While much of the undeveloped labor force potential would lack industrial job experience, this group affords some excellent training material of various types for industrial plants."

The Commission's labor force survey is bound in a booklet whose cover is headed OZONA, a Dynamic Community With an Eye for Industry. A Texas map and and Crockett county map center the cover space. The booklets have been made available to the local Chamber of Commerce for use of its industrial committee.
