Lions To Host Big Lake Friday For Homecoming

Ozona High School is observing homecoming this week and students are busy with plans for the homecoming activities which get underway Thursday with a snake dance and the traditional bonfire. Friday night the Lions will host the Big Lake Owls for the homecoming game and crown the 1969 football sweetheart. The homecoming dance will be held Saturday night.

Students will meet at the band hall Thursday night following the game between the Ozona and Big Lake B teams. The snake dance will form there, travel through town and end at the south end of the football field. A pep rally will be held to get the Lions up for the game Friday night with the defending district champions, Big Lake.

Students have been collecting boxes for the bonfire by classes for several weeks. Before making a gigantic fire with the boxes from various classes, the cheerleaders will count boxes brought by each class and present a cash award to the class with the most tinders.

Gametime Friday night is 7:30 p. m. The football queen for 1969 will be crowned during half-time activities. Her identity will remain secret until half time. Each year the queen is selected by vote of the team.

Saturday night the student council of Ozona High School will sponsor the homecoming dance at the Civic Center from 8:30 until 12 midnight. The dance is for all high school students and former graduates of Ozona High School. Music will be furnished by The Links of Alpine. The dance is semi-formal.

Junior Varsity To Host Big Lake On Home Grid Tonight

The Lion Junior Varsity will host the Big Lake team here tonight while the junior high Cubs have an off week.

The Cubs and Junior Lions dropped three games in Junction last week. The seventh grade score was 26-0, eighth grade 36-0 and the Junior Varsity 20-6.

The Lions one touchdown came on a pass from Gerald Huff to Cheo Vargas from 30 yards out. Intermittent rain fell through the games.

Historical Committee Gets Statewide Honor

At the Annual Meeting of the Texas State Historical Survey Committee, held in Waco last weekend, the Crockett County Committee was named to receive the Distinguished Service Award for 1969. Crockett County was one of the 39 County Historical Survey Committees receiving the award. There are 254 Committees in the state.

Charles R. Woodburn, president of the state Survey Committee remarked that these awards are given to County Committees which have consistently presented a high-level program in each of the five phases of committee activity, in the recording, appreciation, marking, preservation and surveying of Texas history.

A FREAK HAIL STORM which struck a narrow strip of country about seven miles south of Ozona early Saturday morning left an almost unbelievable deposit of ice on roads and low places. Highway 163 was a sheet of ice estimated at 18 inches to two feet and the bar ditches contained drifts five feet and more thick. The pictures above were taken after daylight and show the bizarre result of the freakish fall. Heavy rains following the hail sent torrents of water which cut a swath through the thick ice to leave a glacier lock to the terrain (bottom picture.) The State Highway Department maintenance crew rushed heavy machinery to the area to scrape off the heavy coating of ice. The road was closed several hours until the highway workers could clear the ice. Trash laden layers of ice still remained in the bar ditches a day after the storm.

Experiment Station Tour Cut By Rain & Chill

Soggy ground and continued rainfall and chill prevented the Barnhart Experiment Station tour from being held as scheduled Tuesday, but the large group of ranchmen and conservation workers gathered at the courthouse where an interesting program was held.

Several speakers discussed range programs, brush control, and other conservation measures before an interested group of ranchmen. A barbecue lunch was served by the local committee following the meeting.

The extension service was represented by Dr. Leo Merrill of the Sonora Experiment Station; Ray D. Siegmund of Fort Stockton, district agent, and Pete Jacoby, Crockett County agent. Representing the Soil Conservation Service were Sam Fitzhugh of Ozona, district conservationist, and J. L. (Cy) Richmond, area conservationist, and Rudy Pederson of San Angelo, range specialist, and the Crockett County Soil Conservation District, R. A. Harrell, chairman.

Dr. Merrill described some of the conservation practices at the stations, including brush control and management programs. Bill Carr of Midland, in charge of University land leases, outlined proposed new policies of the University regarding leases and conservation practices.

Those wishing to order in advance may call 392-2259 or 392-2376. Halloween candy may also be purchased all day Friday.

Freak Storm Dumps Four Feet of Hail On Area South Of Ozona

Up to four feet of hail covered the highway and rangelands south of Ozona early Monday morning when a cold front moved into the area bringing turbulent weather. The hail covered a

strip of country from the east side of Hwy 163 west to the Pandale road.

The heaviest hail covered a four-mile strip, breaking fences and making all roads in the area impassable. The pea-sized hail began falling just south of the Ozona Gas Processing Plant and tapered off south of the Frank McMullan ranch seven miles south of Ozona.

Hail stones approximately the size of a small pea and irregular in shape created a sea of ice, but did not damage livestock or plant life. Heavy rain followed the hail storm and cut through the ice making fissures up to four feet deep in places.

The road was closed to traffic until noon while highway equipment scraped ice from the highway. Flooding washed trees and brush across the road, stopping up culverts and closing the highway in Val Verde county all day.

The Frank McMullan ranch, 7 miles south of Ozona, was the hardest hit by the freak hail storm. The icy deluge stripped trees of foliage and torrential rain and massive piles of ice combined to push over fences in many places on the ranch. Winds of almost tornado strength ripped the roof from the McMullan barn at headquarters and flattened one small residential structure and damaged others. Livestock losses however were believed light.

Ozona escaped the ice storm, but the front hit the town with high winds and fantastic electrical displays while the official gauge at the Water District office recorded 83 of an inch of rain. Tree limbs and leaves littered the streets Monday as temperatures dipped to near freezing and light rain fell through Monday, adding another 22 of an inch of moisture, and continuing Tuesday.

Rain was general throughout the county with up to 2 1/2 inches reported south of town and up to an inch of rain in other sections.

By noon Wednesday, the total rainfall in town came to 1.96 inches. Reports of up to 5 1/2 inches came in from the south part of the county.

Silver Spur Motel Changes Hands Nov. 1

Sale of Ozona's Best Western Motel, the Silver Spur Motel, was announced this week by the owners, Mr. and Mrs. Sherman Taylor.

The popular hostelry will change hands November 1. New owners will be Mr. and Mrs. J. B. Parker. Consideration was not made public. Mr. and Mrs. Taylor have operated the motel since purchasing it from Jack Holt in 1952. The motel enjoys a wide reputation for its hospitality and inviting atmosphere.

The motel was built by a Mr. Stewart, who sold to Holt and moved to Junction where he built the Sunland Motel. The Taylors almost doubled the capacity of the motel by the addition of units during the period of ownership.

Mr. Parker said that there will be no change in personnel at the hostelry. Mr. Taylor said that he had no immediate plans for the future.

ICY DRIFTS piled up fence post high in the center of the freak hailstorm south of Ozona Monday morning. Torrential rains following sent water sluicing into the drifts to push over pasture fences.

THE DUES OF ANARCHY

There are a number of side effects of the college campus upheavals over the past several years that are not immediately apparent.

A recent graduate of the University of California at Berkeley ran into an example of one of these side effects. Berkeley has been branded by the actions on its campus as a school full of extremists and militants.

Berkeley is a large campus. The enrollment is well over 27,000 and the number of radicals is nowhere near a majority of the student body.

Now he is trying to put to use the lessons he learned, but he is having trouble convincing potential employers that he is not an infiltrator.

There is a lesson in this for citizens in every state in the Union. Radicals are ready to destroy the very foundations of learning.

Mrs. John E. Bohannon is in Room 320, Clinic Hospital in San Angelo where she was taken off the critical list Monday.

Property Loss Heavy In Rash Of Accidents

A rash of automobile accidents were investigated by local highway patrolmen this week, most of them were due to rain and wet pavement.

About an hour and a half later the same morning, rain and wet pavement caused a one-vehicle accident north of town at the intersection of Hwy. 163 and Hwy. 137.

A freak accident Saturday occurred in the driveway at Davis Enco Station. Mrs. Elizabeth Boatright of Austin was waiting to pull out onto the highway in a 1962 Chrysler.

Patrolman John Harris, DPS, investigated three accidents Monday. The first occurred shortly after midnight 33 miles northwest of Ozona on the Big Lake highway.

Monday night around 9 o'clock Robert A. Blackmon of Sonora lost control of the 1957 Ford he was driving on a rain-soaked bridge just east of Ozona on Hwy 290.

At 7 a. m. 1.8 miles west of Ozona on Hwy 290 Mrs. Lea Gillispie of Dallas dozed at the wheel of her late model Cadillac and hit a concrete culvert.

WHY YOU SHOULD GO TO COLLEGE

By Ana Mae Payne
 Students should go to college after graduating because they need to develop their minds and become more educated in their chosen field.
 College is a special place for people with special abilities. Many students go to college to find a mate. At college, one can make lasting friendships.
 At college, one discovers the joy of learning. You may also prepare a career in college. College is the best place to find out what one wants to be. At college, one grows up and learns to plan one's own life.

TV-HARM OR HELP

By Cathy Williams
 Is TV harmful or helpful to teens? Some believe that it is helpful, some believe that it is harmful, and still others believe that it is both.
 TV is harmful to teens because instead of studying for that test tomorrow, they sit in an easy chair with their eyes glued to the set. This is especially tempting, since there are so many programs on TV nowadays that are much more interesting than that old dull, boring homework that has to be done every night.
 TV is helpful, too. How else could the entire nation have seen the recent moon landing? We watch the news, weather forecasts, and special reports. We can both see and hear what is happening in countries all over the world. TV makes all this possible. Indeed, many of us couldn't live without it.

EUROPEAN TRIP

By Karen Sewell
 Would anyone like to go to Europe? If so, contact Miss Moeller, head of the English department. She is chaperoning a 5-week tour through 7 European countries next summer from July 4 to August 8.
 The countries visited will be: England, Germany, Austria, Italy, Switzerland, Spain, and France. The tour gives 3 semester credits toward college credit.
 The cost will be \$840, which includes the trip to Europe, room and board at dorms on university campuses, all meals, and transportation from New York. The money is to be paid in three installments. Extra expenses are laundry, tips, any drinks, fare to the New York airport, and souvenirs.

IMPORTANCE OF HISTORY TO TEENS

 Many teenagers wonder what bearing history has on every day life and why they must study it in school.
 From a history course, students can learn what circumstances previous generations grew up in, what problems these people faced, and how these problems were solved. The history of

past governments (Romans, Greeks, and Egyptians) and their cultures help the teenagers understand what led to the downfall of these civilizations. An understanding of these cultures helps one learn of the mistakes these people made, and how all Americans can prevent the United States from making the same mistakes.

In the last 13 to 19 years (a teenager's life span), many significant things have happened. The first unmanned space (NASA) rocket blasted off from Florida in 1969, and in 1969 men landed on the moon. Numerous scientific and technical advances such as color TV, and complex computers have come into their own in a Teenager's life time.

ON PAYING ATTENTION

By Sadie Tillman
 A student should have an interesting reason to pay attention in class.
 Most students walk into a classroom with every intention of learning something they didn't know before. They sit in their desk and listen to what the teacher has to say. Most teachers just say "Open your book to page so-and-so and read to page so-and-so." After the student has read the assignment the teacher starts a lecture on it. The trouble is that they read over the exact same thing the student has just read, so, of course, the student starts doing something else. This doesn't take place in all classes, but it does in a lot of them.

DEBATE WORKSHOP

By Netta Pearl
 This year the debate is made up of David P. Charlene Strickland, Montgomery, and Pat Hugh. Mr. Guntherberg, the teacher of the team. October 11th, Guntherberg and his team went to Odessa to attend a workshop.
 Two men demonstrated how to debate correctly. Mr. Guntherberg hopes that the students learned and will benefit from the program.

QUESTION OF THE WEEK

By Georganne Jones
 Would you like to be a hippie? Why?
 Greg Sturat — Hippie is my bag, like man I blew my mind if I was hippie.
 Jim Montgomery — the bad bag.
 Karen Deee — I would like to be a hippie, but I can't.
 Debbie Kerby — I would like to be a hippie, but I don't want to go without a Dana Collett — I'm a hippie, but I don't want to handle it.
 Phyllis Kerby — I would like to be a hippie, but I don't want to take drugs or go to a bath.
 Connie E. — I'd just be like it, it's the epitome of iness.
 Patti S. — I don't want to be a hippie.
 Billy Joe Pierce — I would like to be a hippie, but I don't want to be the right group.

MRS. PERRY

By Georganne Janes

"I really like working, and I love the kids," said Mrs. Willa Perry, that lady that works in the office.

Mrs. Perry was born in Oklahoma. She graduated from high school in Eldorado. She moved to Ozona from Eldorado and has lived in Ozona for 13 years.

Mrs. Perry's husband works for Southwest Texas Electric Coop. for which he is a lineman. They have three children, a 6th grader, a 4th grader, and one in kindergarten.

This is her second job, the first being with the Abstract Company several years ago.

Mrs. Perry is a member of Beta Sigma Phi Sorority, and is a Baptist. Her hobbies are playing bridge and drinking coffee. In the summer she and her family spend a lot of time water skiing.

"I think all the kids on Ozona High School are good kids. Mr. Moody is a real good guy, and he's good with the kids too," said Mrs. Perry.

"Things are never the same," she said, "there's always something new happening." Mrs. Perry said that there is quite a bit of paper work. She does about half and Mr. Moody does the other half. She said, just when we think we're caught up, a bunch more work piles up!

She loves her office and said she feels like she has a little bit of privacy with her desk behind the counter as it is.

Even with all her other duties, she spends most of each day making change for the coke and candy machine.

HI SCHOOL HOROSCOPE

By Elizabeth Jones

The week of October 30 to November 5 could be very strange and mysterious because it's the week of Halloween. On Thursday things will be fairly calm, but don't forget to buy your trick or treat candy if you want to spend a restful Halloween without worry or tricks.

Friday will have the usual mysterious, eerie feeling as everyone prepares for "the witching hour." But don't worry, the citizens of Ozona may be spared, because you all know, the Lions have a football game and most of the little spooks will be watching it. Beware of Big Spooks on the prowl afterward.

These born Halloween may look forward to another year of being teased about your birth date and being called Spooky, Casper, and other such names.

Saturday promises to be a busy day. Everybody get ready to get the soap off your window, screens, and cars, and you better have a little paint remover handy, just in case. Just as an extra precaution it would be wise

to have a little extra trick or treat candy for all those late spooks who missed it last night.

Lots of willing help will also be needed on Saturday to remove the toilet paper from your yard. An expert tree climber could be of service.

Sunday will have to be a day of rest for all home owners after working so hard yesterday.

Monday means back to school. Just remember this is six weeks so study early.

Tuesday will be a trying day. Everyone will try to get the notes they missed that day when they slept, or will try to read the ones they did take but wrote other things in the margins so the notes are not visible.

Wednesday is test day. Six weeks tests start seventh

METHODIST WSCS

The Women's Society of Christian Service met Wednesday morning in the church sanctuary for observance of the Call to Prayer and Self-Denial.

Mrs. Douglass Fisk was program leader. Discussing community centers, workers and rural life training ministries were Mrs. Richard Armstead, Mrs. Joe Pierce and Mrs. Jorene Rickey.

Following the benediction, the members adjourned to the Fellowship Hall for the sacrificial meal featuring a menu of Biblical foods.

Others present included Mrs. Jim Williams, Mrs. W. D. Cooper, Mrs. M. C. Couch, Mrs. R. A. Harrell, Mrs. Fred Chandler, Mrs. Bailey Post, Mrs. B. B. Ingham, Mrs. James Lively, Mrs. John Berkley, Mrs. Joe Tom Davidson, Mrs. A. S. Lock, Mrs. V. I. Pierce, Mrs. J. A. Fussell, Mrs. L. B. Cox, III, Mrs. W. O. Reeves, Mrs. L. B. Cox, Jr., Mrs. O. D. Tommy Connors — No, because I can't grow any sideburns.

David Pagan — They have some good ideas, but the majority of their habit just aren't my bag.

Alton Everett — I think it would be bueno, that is if you didn't have anything else better to do.

Betsy S — to a certain extent.

Rusty — Sure, it would be fun for a while. It would be better than sitting around here with nothing to do.

TEACHER'S PET GRIPES

By Diane Deaton

It seems like everytime we turn around we hear of a teacher griping at us poor little innocent students. Some of their pet gripes are that we chew our gum too loud, we don't do our homework, we talk too much and too loud, and we don't pay attention in class.

Maybe we do chew our gum a little loud, but it is hard to chew eight pieces of gum and not make a little noise.

So what if we don't always get our homework in? The teachers should be happy to get it even once a week. There are so many other things going on and we just can't find the time for homework.

We don't mean to talk so much and so loud, but everyone has to say his share and each time someone says his share, he says it louder than the person before him so

Sue and Lee were only names to me when I first saw their picture. Incredible — that the children I now mother tenderly, once were strangers!

It seems only yesterday Dan wrote he was bringing them home. How frantic I was with worry and self-doubt. Could I love, as my own, children with slanted eyes and tinted skins? Would I fail them? Could I fulfill Dan's faith in me? We had been longing for pastor, true — but not foreigners!

In desperation, I called my pastor. Calmly and with understanding, he spoke to me of God's love as the common denominator of all nationalities.

And so from the moment I saw them, Sue and Lee have been our own, bringing laughter and joy without measure.

How grateful I am for God and His Church and the wisdom they teach — in Christ there is no East nor West. Without this truth my arms might still be empty.

Dudley Family History Is Recounted In Paper Read At Historical Society Meeting

At the regular meeting of the Crockett County Historical Society Monday evening, President Ted M. White announced the appointment of Mrs. Max Schneemann to the vice-presidency. Mrs. Schneemann will finish out the unexpired term of Mrs. Stephen Pernier who had resigned due to illness in her family. He also appointed a nomination committee composed of R. L. Flowers and Mrs. W. D. Cooper which will report at the Annual Meeting in January, 1970.

Mrs. Schneemann began the program with the reading of a poem on "Growing Older" and presented Mrs. B. H. Ingham (nee Frankie Dudley) and the Rev. Forest E. Dudley of Dallas who told of the Dudley family's part in the early settlement of Crockett County.

In 1913, Rev. Dudley graduated from the newly accredited Ozona High School along with Nan and Joe Davidson. These three were the total class. He said the Dudleys came originally from England and Scotland to Georgia, and moved from there to Houston where E. Ham Dudley was born in Dec. 1859.

Mr. Dudley first came to Crockett County from Coleman, Texas, in early 1897 and filed on one section of school land eight miles east of the present site of Ozona. In reply to questions of a granddaughter in 1940 Mr. Dudley wrote:

"Our object in moving to Crockett County was to acquire land. I had the cattle and I had seen the price of land near Coleman advance from 50c to \$1.00 per acre to \$10.00 to \$20.00 per acre. The State School Land was being sold, four sections to one individual, for \$1.00 per acre on 40 years time with 3% interest. I brought with me 400 head of cattle of my own and 100 belonging to a Mr. Collier who let me have five years on the shares. I had 175 head of extra good Hereford yearling heifers and the rest were just good range cattle. J. B. Reilly, whose land joined mine for a mile, and I fenced our land with two strands of barbed wire at the same time. He completed his first and so far as I know these were the first two ranches to be fenced in Crockett County."

The cattle were turned in to the pastures in May, 1897. Mr. Dudley returned to Coleman and returned with his family of eight in June, 1897. The trip took eleven days by wagon and buggy in rain the whole time. Mrs. Ingham told of bogging down and having to stay in the wait-

ing room of the Railroad Depot at Talpa, cooking their meals over a camp fire out of doors, for several days before the trip could be resumed. Members of the family besides the parents were: Blake, Roger, Frankie (Mrs. Ingham), Morris, Forest and Linora. (Mrs. King) Nearest neighbors on the ranch were the Augustines, the Bucks, and the Weavers, as well as Mr. Reilly.

Wanting their children to go to school Mr. Dudley proposed to Mr. Buck, John Bailey, and Homer Smith that they chip in and buy lumber to build a building. This they did, hauling the lumber from San Angelo and at the well on the last land that Mr. Dudley had acquired and "Dad" Rochelle, father-in-law of Homer Smith, built what came to be called the Turkey Roost School. First teachers were: Miss Dora Durlap, later Mrs. A. C. Hoover, Miss Mary Clibourne, later Mrs. Claude B. Hudspeth, and Miss Belle Smith.

From A&M College Mr. Dudley got the idea that sheep and cattle could be ran together successfully in the same pastures so he acquired a small bunch and ran the stock together. This was certainly not a popular move but the hard feelings that developed were lost as time passed.

In 1905 the school question became so serious that Mr. Dudley sold his ranching interests and moved into Ozona where he bought the water works. Mr. Reilly had also sold out and in 1905 organized the Ozona National Bank. He was elected cashier, J. W. Henderson, president, L. B. Cox director among others and Mr. Reilly offered Mr. Dudley the position of bookkeeper which he accepted after going to San Angelo and working in the San Angelo National Bank briefly in order to learn the system. In 1908 Mr. Dudley was elected cashier and held that position for fourteen years.

In later life Mr. Dudley wrote: "I made the mistake of my life from a financial

viewpoint when I sold my ranch but it seemed that I owed it to my children to give them a chance for an education. But it was only a year or two until the automobiles came and they could have driven from the ranch."

Mr. and Mrs. Dudley were devoted workers in the Ozona Methodist church. He served for many years as Sunday School Superintendent and on the Official Board and always felt deep roots in the community. After spending some years in Fort Worth as president of a loan company, and following Mrs. Dudley's death there in 1936, Mr. Dudley returned to Ozona to live first with his son, Morris, on the ranch and later with his daughter, Mrs. Ingham, at whose home he died in 1949.

requirements for the Distinguished Service Award are that the County Survey Committee sponsor at least four official markers or spend at least \$600 on markers during the year, present at least six programs to civic groups on the various aspects of Survey Committee work and sponsor or help plan at least three tours of local historic sites.

Other requirements include publishing an historical pamphlet or the equivalent, sponsoring at least one history appreciation observance, and making significant progress in the organization of an historical museum, the restoration of an old structure, the compilation of written or living history, or the establishment of an archives.

The Crockett County Committee, under the leadership of Mrs. R. A. Harrell, has more than fulfilled the requirements for the DSA.

Ozona Student Nominated For Honors At SWSU

Robert E. Nations, son of Mr. and Mrs. Eddy Nations, is one of 115 Southwest Texas State University students nominated for 1969 Gaillardian honors.

Twelve Gaillardians, all college favorites, will be chosen in campus elections and will be revealed in formal presentation ceremonies Nov. 1, during the Southwest Texas Homecoming celebration. The formal ceremonies are scheduled for 8:30 p. m. in Evans Auditorium, at the climatic point in homecoming activities.

Mr. and Mrs. Nations and Mickie will go to San Marcos for the presentation ceremony.

Duplicate Clubs Change Schedule

Mrs. Robert Cox, Duplicate Bridge Club director, announced a change in schedule this week for both the Tuesday night and Saturday afternoon clubs.

Both clubs will meet once a month instead of weekly until the first of next year. The Tuesday night club will meet November 11 and December 8 and the Saturday afternoon club will meet November 15 and December 13.

Mrs. Cox said the new schedule would not affect any special events the clubs may want to have. Due to lack of attendance and the holidays the new schedule was necessary. The 1970 schedule will be announced after a meeting of club members.

Lynn Cox Named to Who's Who at Tech

Lubbock — Mary Lynn Cox of Ozona was among the 37 selected from the 19,490 enrolled at Texas Tech to be named in the 1969-70 edition of Who's Who among Students in American Universities and Colleges.

The annual directory of distinguished students at colleges and universities throughout the United States and several other Western Hemisphere nations accepts nominations from the juniors, seniors and graduate students enrolled in four-year undergraduate institutions or graduate schools.

Selection is made on a basis of academic standing, service to the community, leadership in extracurricular activities and future potential.

Miss Cox is the daughter of Mr. and Mrs. L. B. Cox, III, Ozona.

COUNTRY CLUB TO SPONSOR DANCE SAT.

The Ozona Country Club will sponsor a dance for club members and their guests Saturday night at the club from 9 o'clock until 1:00 a. m.

Tickets are \$5 per couple. Music will be furnished by the Border Beats from Comstock.

Miss Mildred North is in St. Paul's Hospital in Dallas receiving medical treatment. She flew from San Angelo Tuesday accompanied by her niece, Mrs. Larry Albers.

CHILDREN HAVE GUESTS

Mr. and Mrs. Pleas Childress entertained their daughter and her family, Mr. and Mrs. Ron Berry, Cynthia and Catherine, of Dickinson and their friends Mr. and Mrs. Joe Mares, also of Dickinson over the weekend. Mrs. Mares is the author

of the book "An American Boyhood," which former President Johnson had printed in 20 languages and distributed throughout the world. The book gives a picture of a typical American home. Mrs. Mares is also the author of "Know Your Enemy," an in depth study of communism.

TOTAL COMFORT SYSTEM

1 HEAVENLY WARMTH when you want it, as you want it. Gas, electric, oil or heat pump as a heat source. Steady, dependable, even... never harsh. Precise thermostatic control.

2 DELIGHTFUL COOLING (and dehumidification) is a part of your Lennox central Total Comfort System. It will make a wonderful change in your summertime living. Quiet, too.

3 CLEAN AIR will surround you. The Lennox electronic air cleaner even removes pollen, tobacco smoke and odor. Less cleaning, less decorating are a bonus of Total Comfort.

4 FRESH AIR will brighten your living. The Lennox Total Comfort System brings in fresh outdoor air, cleans it, tempers it and mixes it with the circulating air.

5 NO MORE PARCHED AIR. A power humidifier restores moisture to heated air. Helps protect you from irritating dryness of nose, throat, eyes, skin and hair. Ends the dry air that often damages furnishings.

6 GENTLY CIRCULATING AIR prevents stagnation, drafts and cold floors. Air is softly flowing, always being cleaned and conditioned for your total comfort. Possible only with a Lennox ducted system.
