Sometimes I go back and read something I have read and heard elsewhere describe. This case last week with editorial about the hospital. I read so many different articles that I carefully read and found exactly what I said when I read it first place. I do not endorse without verification the present content of the hospital. I suggest that those who give answers to their were out of line. In my opinion, the moral editorial was simply "Don't listen to rumor, facts." It is good advice in my opinion, and I might say it would always be an idea for our readers to read and digest our copy and passing judgement on content.

kk
Every year about this time I think perhaps I'm wrong racket. Sometimes I think of my thinking and suddenly, I can't know what I want and wanders with every license plate I see.

It is usually when I think that I need to go with or without a guide.

My needs the renewal few days or a week away from their profession, whether it be a writer or the iron-when club yearbooks come in, people to ask when school and speculate about the football season, I know well that I need to look before I look up some journalism student bringing the "Lions Roar"

There has a way of seeming to stand still during the summer. It's as if each day were in every way. I know to be taken in by this more than anyone I know for I am invariably when the first cold comes along. It seems to have passed through the summer in some of suspended animation. I put up a struggle to beat the heat. However, I seem to be in a daze and on where I left off the first norther hits. I was busy putting winter clothes when it began. It's sort of to know that I've started the job I won't need

kk
Ozona youngsters are getting ready for the annual and from their elsewhere in the we can look for many winners this year.

We will probably have the of local talent and in many years, we will make plans to be for both performances. Let's also say for the members and Lions Club, who show possible each

FUN IN THE SUN is the obvious title of this attractive array of poolside pulchritude at the country club pool. Prettily kicking up a boil of bubbles while they enjoy a bit of

warming sun are, left to right, Denise Deaton, Sharron Barbee, lifeguard at the pool, and Kay McMullan. The girls can be found at pool side soaking up the sun almost daily.

Dry Pastures Pose Grass Fire Threat

Heat and drought continue to plague Ozona and most of the county and the sound of the fire alarm has been an almost daily occurrence. Rainfall in the earlier months of the year created a heavy growth of weeds which are now tinder dry and grass fires have become numerous. Some portions of the south part of the county have received good rains, but the remainder of the county and the area around Ozona is dangerously dry. Fire Chief Jim Marks warned residents to be careful when

Ozona scored 2 in the third and 1 in the sixth to tie it up and the game went 9 innings before Ozona scored 2 in the bottom of the ninth to win. ---000---

CALDWELL, THE COON - keeps Judd Montgomery entertained as he recuperates from surgery which will keep him on crutches for several weeks. Caldwell must be handled with "kid gloves" as you will note. He is about a month old and Judd hopes that his disposition will improve with age. Occasionally he will lie still for a scratch under the chin, but prefers to be left alone in his specially built cage and dine on grapes and melon. It is also reported that he likes chicken, but as yet that has been missing from his menu.

Bean found the body in an open pasture as he was working sheep Monday morning and notified authorities. ---000---

WHAT SPEECH IS FREE SPEECH?

A Federal district court recently ruled that the postmaster general cannot refuse to deliver foreign produced communist literature advocating violence, sabotage, and other crimes against the people. The case in point involved "The Crusader," a vicious hate-sheet which bore the name of Robert Franklin Williams (an American). It was printed, produced, said for and distributed by Red China. The art work for the material was communist-produced, and there is reason to believe that some of the hate material was actually written by the Reds, using the name of Williams.

Is that what the founding fathers had in mind when they guaranteed the right of Americans to free speech?

We wonder—because the Constitution also guarantees (in the Preamble) that the entire purpose of the Constitution is "to form a more perfect Union, establish Justice, insure domestic Tranquility . . . and secure the Blessings of Liberty to ourselves and our Posterity."

Further, the Fourth Amendment guarantees "The right of the people to be secure in their persons, homes, papers, and effects (property) . . ."

Does allowing a criminal psychopath (as Williams has been described) to teach and advocate violence "insure domestic Tranquility"? Does such permissiveness under the rule of "free speech" do anything to "secure the Blessings of Liberty to ourselves and our Posterity"? Does it not, in fact, gravely endanger our blessing of liberty?

When a member of an extremist group, whatever the label, shoots you and kills you, or burns down your home as a direct result of the teaching and advocacy of such acts, have you not lost your guarantee to be "secure" in your person and your home? Was the Constitution, in the long run, meant to protect the rights of would-be criminals and foreign enemies, or the rights of law-abiding citizens?

Send the whole team to the showers!

And have enough hot water to do the uniforms.

A GAS WATER HEATER does it and does it better, because there's always plenty of hot water when you need it . . . at the cost you want.

Here are seven reasons why a gas water heater is best:

1. Fast recovery keeps your gas heater way ahead of every electric heater.
2. The thermostat on your gas heater automatically maintains constant temperature, even when you use large amounts of hot water.
3. Gas is efficient. Gas burners heat up instantly, deliver more hot water. And gas is clean too.
4. Nothing is more dependable than gas.
5. Automatic gas water heaters are less to buy and install.
6. Gas burners last longer and years of trouble-free use. It's another saving.
7. Gas costs so little to operate you can afford to use all the hot water you want.

So, if it's hot water you need, plenty of it, you need an automatic gas water heater. Call your plumbing gas appliance dealer soon.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

“Those who expect to reap the blessings of freedom must undergo the fatigue of supporting it.”

Thomas Paine Sept. 12, 1777

CONCERNED

The expression on this business man's face portrays concern. It may be about the direction his business is taking. Or it could be about our country, its problems and its future.

Our nation was founded by men concerned about freedom for themselves, their families and future generations. Through the efforts of these men the guidelines were established for the development of our nation. By the efforts of concerned individuals and groups over the years our freedoms have been preserved. It will take the concerned efforts of all responsible individuals to maintain our way of life and preserve it for yet future generations.

Be Concerned! Write To Your Elected Representatives! Vote!

Our priceless heritage embodied in the flag of the United States, is as alive today as it was when written for the ages in the Declaration of Independence and the Constitution. It stands for all the world to see and for all Americans to cherish. And in the tradition of Washington, Jefferson, and Hamilton, we, too, have a privilege, a right, and a duty. While we may disagree as to the methods, we should not disagree as to the goal—that of preserving the greatest democratic society the world has ever known.

Our flag is a symbol, not of sentiment, but of history, the history of men and women willing to live and die for it. Surely this willingness is with us still, because daily we experience more of the blessings that are ours—ours because we are Americans.

Tips For Gardeners

From The Ozona Garden Club
By Mrs. Bailey Post

The extended drought reminds us everyday of the old saying "hot and dry as a firecracker." Everyone is kept busy with gardening activities such as weeding, watering, mowing, and spraying for insects to keep yards from looking neglected.

We are not the only busy bodies about the place these days, especially if you have noticed the birds. Cardinals, wrens, mocking birds and quail have been kept busy feeding and raising their young and have provided entertainment for us. Other birds we see occasionally are the oriole, rain crow, purple martin, towhee, Mexican canary, road-runner and Western bluebird.

The first requisite for attracting birds to your garden is water, so invest in a birdbath. Place it near a shrub or a tree where the birds can light and survey the territory before flying down for a drink or bath. A large flat or shallow container of some sort may be placed on the ground for the quail.

July and August are the months to plant Oriental poppies if you have a good place or room for them. They will thrive in most any good garden soil with sufficient drainage. Once established in the garden, they need little but clean cultivation. No strong fertilizer is required, their favorite food being leaf mold. Since they are deep rooted, they rarely suffer from lack of water after the first year or they are well-established.

Clumps increase in size with age and may be left in the same place for years. Mulch new plants under the leaves the first winter. The poppy season may be extended over a period of nearly six weeks with different varieties. Seed pods should be removed as soon as the petals have fallen and the entire top cut back as soon as it has turned brown. The pods are quite often used as dried arrangements. There are a number of poppies that will harmonize with other garden flowers and make a beauty spot in front of evergreens.

The summer flowering hibiscus are bearing beautiful single blooms at this time. The blooms only last one day but are well worth the space they require. They bloom on new growth, so keep them growing with water and a light feeding of plant food. There is an exotic display of them each morning at the Cecil Hubbard home.

Fall gardens may be planned now or next month if you are optimistic and want to wait for rain.

Cut hollyhocks off at ground level, fertilize and water. Keep verbenas clipped.

Shrubs, especially evergreens will benefit from a strong spray to wash off the dust and perhaps prevent red spider and aphids.
