W. EVART WHITE, Editor and Publisher

Entered at the Post Office at Ozona, Texas, as Second Class Mail Matter Under Act of Congress, March 3, 1879.

SUBSCRIPTION RATES:

Table with 2 columns: Subscription Type and Rate. One Year \$2.00, Six Months \$1.25, Outside of the State \$2.50.

Notices of church entertainments where admission is charged, cards of thanks, resolutions of respect and all matter not news, will be charged for at regular advertising rates.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected up on calling the attention of the management to the article in question.

THURSDAY, FEB. 26, 1942

THERE'LL BE SOME CHANGES MADE...

What does the war mean to you? How will it change your life? No one can look into a crystal ball and see reflected there the days and months ahead.

Rubber and sugar are being rationed now; tin cans are getting scarce. Industry has stopped turning out automobiles to speed up plane production.

Now that the war years are upon us, the dreamland is bound to change. Civilian sacrifices are just beginning to march toward us over the horizon.

The majority of Americans already realize this. A recent public opinion poll indicates that more than three-quarters of them favor a 50 hour work week to help industry speed up its output of weapons beyond its present high levels.

And that's only one field where changes may be made. We're in for difficult days ahead. We're going to have to give up many luxuries until the war is over.

TIME TO ACT...

Two reports of the most pressing importance to the people of this country have recently appeared. One, made by the Senate Economy Committee, of which Senator Byrd is chairman, shows specifically where reductions in non-defense expenditures in excess of \$1,700,000,000 can immediately be effected.

advocates cuts totaling about \$2,000,000,000. And both of these reports are of a preliminary nature. Additional recommendations, involving further reductions in spending, will be made.

The failure of Congress up to the present time, to make a single important cut in non-defense spending of any kind, is a national disgrace. It places the national economy in jeopardy.

Will those who make our laws, act—or will military victory be lost in bankruptcy?

PLANES AND GUNS WHERE?

How many planes and guns are being distributed in various parts of the United States for purely protective purposes we do not know, have no means of finding out, and since it is a military secret could not print it if we had the information.

MAKING HEROES...

This is an era in which heroes are made. Some of them we can distinguish clearly. Gen. MacArthur, for instance. But reading the war news the Diarist frequently finds himself wondering about those shadowy figures in the background.

NO INTERRUPTIONS, PLEASE

THIS IS DEMOCRACY...

"Democracy," said President Henry M. Wriston of Brown University, recently, "is simply the political aspect of an assertion of the supreme values in individual life. It was predicated upon the right to self-development, physical, mental and spiritual.

The individual has been the root cause of this country's progress and greatness. The Constitution was written to protect and preserve the individual from oppression by the state.

This war marks the inevitable conflict between those irreconcilable philosophies of life.

This country is a vast and growing monument to the individual. Individuals started and built our industries—the agencies of transport, the mines which produce our coal and oil and metals, the power systems which turn our factory wheels, the thousand and one enterprises which gave us unprecedented luxuries in times of peace.

We are fighting to maintain a nation and a world in which the individual will be supreme. It is true that we must invest government with great power in time of war—but we must never forget the equal truth that these powers are a loan from the people, not a gift in perpetuity.

THIS BUSINESS OF Living

The Normandie and My Kitchen

The French liner, Normandie, one of the greatest ships any nation has ever built, lies prostrate on her side in the harbor of New York and all America is concerned about it.

I am doing my every-day housework more thoroughly and conscientiously than ever before since I read the details of this disgraceful disaster. And what connection is there between a great Atlantic liner and my little house so far inland?

The Normandie burned and then capsized, they tell us, not because of sabotage, but because of carelessness. Because the men at work transforming her from a luxury liner to a great troop ship were not doing their level best in the most work-man-like way they knew, and because proper precautions were not taken.

Had this catastrophe been the result of enemy activity, it would be bad enough and the whole country would mourn the loss. But to have it happen because of inefficiency and a spirit of "this'll do—this'll get by" is something infinitely worse. It points a ruthless finger at a soft spot in our national life.

It isn't much—my own conversion to hard, conscientious work.

It isn't going to make the country over. But, if every woman in the United States who was shocked by the fate of the Normandie were to take herself and her family in hand, the whole country would change—and quickly, too!

We've been an easy going, pleasure loving people. Things have come to this generation with very little effort. Even in recent months, we've laughed at the idea of real danger.

But will we—if we continue to let things like the burning of the Normandie happen? Will we if every one of us does not buckle down now to do his very best? This is a war of production and every workman in every factory needs to feel his responsibility and to do his job, no matter how small it is, with care and skill and pride.

Too many of us have lost the sense of responsibility and hard work that enabled our forefathers to carve a great nation out of a wilderness. We've relied on the other fellow—or on the government.

We're all in this war together—you and I in our homes, the men in the factories and offices, as well as the boys in uniform. We expect them to do their best no matter how difficult or unpleasant. Isn't it their right to expect us back home to do the same?

THIS SCRAP ON OUR HANDS...

Five hundred pounds of scrap rubber are needed for every medium tank. A battleship may contain as much as 9,000 tons of scrap metal. Ten thousand tons of waste paper will be needed this year to make ammunition containers alone.

Facts like these make it clear why we Americans must begin to save materials as we never have before. Government officials say that salvage operations will play an important part in winning the war.

Salvage campaigns are being organized throughout the country to gather material of this kind. Every one of us has scrap of some sort that he can contribute. If you've been saying things just in case they might come in handy, they might come in handy now for Uncle Sam.

SOLDIERS CAN SELL CARS...

Automobile "freeze" regulations have been modified to permit men in the armed services, or who have received induction orders, to dispose of their cars, according to advice received by the Dallas region office of the Office of Price Administration.

According to this amendment to the auto rationing order, on or before March 9, any person serving or called for active duty with any branch of the armed service, or who has received orders for induction into service, or who has volunteered and taken oath of service, may apply to his local rationing board and obtain permission to transfer an automobile to any designated person.

SPEED AS USUAL...

Business as usual—that's what some people are saying about American industrial production in 1941. According to them, industry didn't change quickly from making consumer goods to making weapons.

Such criticism indicates a lack of understanding of the facts,

however. Business was anything but usual during that year. America had no armament industry. Before it could begin making weapons in quantity, it had to build new factories, new tools, develop new skills. It had to start from scratch. But it did start and quickly to meet defense requirements.

The record of the past year shows that progress on war orders has been fast. New plants have gone up in record time. Many specific orders have been finished ahead of schedule.

NOT TOO BIG...

An airplane every four minutes... two ships a day... a tank every seven minutes. That's the war work schedule that President Roosevelt has set for American industry. That's what 125,000 planes, 75,000 tanks and 10,000,000 tons of shipping mean in terms of actual production.

Even though it's a big job, industry's past record indicates that it's not too big to handle. It will take hard work, of course, and long hours. We'll all have to get along with fewer of the comforts and conveniences we accepted so casually in peace time.

And it shall be done. That is the important fact. The industrial system that in former years gave us the highest standard of living in the world can now give us the most weapons. In peace time that system was the envy of our enemies. Now in war time it will be their final destruction.

### Texas Registers 426,434 Men In Feb. 16 Sign-Up

#### Enlistments Cause Drop From Anticipated Total Registration

General J. Watt Page, State Selective Service Director, Friday, sent the following wire to the National Director in Washington: "Total registration State of Texas February sixteenth 426,434."

Based on the 1940 and 1941 Selective Service registrations, which in Texas totaled more than 360,000, it had been anticipated that Monday's enrollment would reach the 500,000 mark. The difference can well be accounted for, General Page explained, by the fact that since the President's proclamation soon after Pearl Harbor, designating February 16 as Third Registration Day, many thousands of young Texans have not waited for the Selective Service processes but have volunteered in one of the branches of the Nation's armed forces.

Harris County, where 42,570 men were registered, topped the State, while Dallas County came in second with 31,459 men signing up, it was officially reported at State Headquarters.

The third national lottery, which will be held in Washington March 17, General Pages said, will determine the order in which registrants coming within the purview of the February 16 registration will be called for military service.

General Page paid high tribute to the Selective Service personnel throughout the State, to the State Department of Education in making the school buildings and services of teachers available, and to the thousands of other patriotic citizens who volunteered their ser-

### Biggest Printing Job Encountered In Sugar Rationing

America's great sugar rationing program will begin within a few weeks. Like other tasks in the vast world-wide fight to preserve freedom, this program began as a job of printing. It is the greatest single job of printing ever tackled, though, by the Government Printing Office. It is a job which called for more than 700,000,000 forms and cards and booklets. These required between 11 and 12 million pounds of paper!

These little booklets and cards and forms are the tools with which Americans are to build a monumental structure of self-sacrifice. There will be 190,000,000 copies of the War Ration Book itself, besides consumer application forms, trade registration forms, cards upon which retailers are to mount ration stamps taken in exchange for sugar. There also will be printed instructions to local boards, instructions to consumers and registrants.

The amounts of these booklets and forms exceed the country's population, of course, since it is necessary to allow replacements for books that may be lost or destroyed, for births during the next six months and also for demand in certain communities greater than has been expected.

"I cannot too highly praise and commend these patriotic Texans for a tremendous job well done."

"Also, for their valuable services in informing our citizenry on the essentials of the registration and for their uniform wholehearted cooperation since the beginning of the administration of Selective Service in Texas, I want to express my deep gratitude to the daily and weekly newspapers, radio stations, and the theatres throughout the State. All have played a very important role in the successful performance of a grave responsibility to our nation."

### BUY A SHARE IN AMERICA

and forms exceed the country's population, of course, since it is necessary to allow replacements for books that may be lost or destroyed, for births during the next six months and also for demand in certain communities greater than has been expected.

This printing job was no small affair. The army headquarters staff consulted maps. Other officials pored over population charts. Every possible approach to this unprecedented assignment was considered, tested, eliminated.

The job required 300 carloads of paper. Specifications were prepared, contracts were awarded. Six mills had to get to work on full-time production to turn out paper stock for the ration books alone. This was a very particular task, for a special paper had to be prepared to give protection against counterfeiting. Ordinary newspaper is to be used for the consumer application forms.

### Angelo Fat Stock Show And Rodeo To Open Next Week-End

SAN ANGELO — Plans were nearing completion this week for the formal opening of the 11th annual San Angelo Fat Stock Show and Rodeo next Thursday morning with first judging to get under way at 9 a. m. and the first rodeo performance at 2 p. m. Friday, March 6. The judging is to be completed Friday afternoon.

The parade, held each year the morning of the first rodeo performance, is to be at 11 a. m. Friday. Around 200 performers are to participate in the rodeo on Friday, Saturday and Sunday afternoons in contests carrying more than \$5,000 in cash awards for the winners. The parade is to have around 1,000 men and women on horseback.

Tickets for the rodeo are now available at the St. Angelus Hotel

### Nazi Agent

Aviatrice Laura Ingalls leaves the federal court in Washington, D. C., where a jury of ten men and two women found her guilty on charges of being an unlisted Nazi agent. The famous flier faces two years' imprisonment or \$2,000 fine, or both.

ed more than 700 men and boys as exhibitors who have entered around 1,800 animals in the sheep, cattle, horse and goat divisions.

Two auction sales are scheduled for Monday, the first being for club boys and FFA members at 9 a. m. and the other being for registered Hereford breeders at 1 p. m. It is expected that 1,000 fattened lambs and calves will be sold in the morning while breeders from the area have consigned 30 bulls and four heifers to the afternoon auction sale.

### MORE BURLAP FOR CROPS

To permit moving of peanut seed and seed potatoes, now in the shipping stage, and wool, which is now being sheared, the War Production Board in Washington has amended the burlap conservation order to

make additional supplies of burlap bags available. The original burlap order made available to wool growers only 2,500,000 yards of bags, as against estimated needs of 5,000,000 yards, and the quantity made available for peanut seed and potatoes also was short of needs.

## Spring Conditioning that's TAILORED TO YOUR CAR!

Come in Now for a FREE Inspection by Authorized Factory-Trained Mechanics that Will Show Exactly what Attention YOUR Car Needs.

WANT LONGER TIRE LIFE? When switching tires, do you remember the spare? If you'll let us switch your tires, working the spare in where it can best be used, each tire out of the five you have will be on the road only four-fifths as much as usual. Net result: Longer life from the same full set.

GOOD BRAKES MEAN SAFETY PLUS. Brakes ought to be kept in proper adjustment for safety reasons alone. Beyond that, brakes that are "out" can also result in unnecessarily increased tire wear. For best results, let Buick men adjust your Buick brakes to Buick factory specifications.

LICK-AND-A-PROMISE spring conditioning won't do this year, mister!

You've got something more important to think about than just changing oil and grease — you've got a whole car that will have to see you through the duration, and you can't afford to overlook any part of it.

That's why Buick spring service is tailored to your own particular car.

We change oil and grease in the regular way, of course — we check batteries, cooling systems, wheel alignment and other routine matters.

Your whole car lasts longer when it is conditioned as a unit — especially when trained Buick specialists do the job.

So we write your spring conditioning ticket to fit your car's needs — not to make up a ready-made "package" according to average requirements.

The cost is no higher than for a comparably good job anywhere else. It's actually lower in the long run, because it pays to have a job done right.

Drop in for a FREE check-up by our authorized factory-trained mechanics and let us detail the service your car should have this spring.

**Saturday Last Day For Victory Book Campaign In Ozona**

Crockett County will make a good showing in the Victory Book Drive as Ozonans respond as liberally in the closing few days of the drive as they have since its opening, Mrs. Carl Colwick, chairman of the drive in this county, announced this week.

Mrs. Colwick has set Saturday, February 28, for the closing day of the drive in this county. Baker's Food Store has been designated as the receiving station for books which Ozonans wish to donate for use of the nation's armed forces, to be placed in army camp libraries, USO and other recreation centers. The drive is being sponsored by the American Library Association in cooperation with other organizations.

All kinds of wholesome reading material, educational and entertaining, is being sought for this purpose. Magazines are not included in this drive, Mrs. Colwick pointed out.

**FIRST BAPTIST CHURCH**  
Clyde Childers, Pastor

Schedule of services:  
9:40 Sunday School.  
10:50 Morning Worship.  
2:00 Deacons Meet.  
3:00 Monthly Conference.  
8:00 Evening Worship.  
Tuesday—  
8:15 Brotherhood Meeting.  
Wednesday—  
3:00 WMS meets for Bible study.  
7:50 Mid-week service.  
8:30 Choir practice and group leaders meeting.

Next week we are entering the fifth week of our Loyalty Crusade which is the half way mark for us in this special effort. We would like to urge all the members of our church to make their plans to be with us. The campaign will be no more of a success than each of us is willing to make it.

If you do not have a church home you will find a cordial welcome to all the services of this church.

**CHURCH OF CHRIST**

Inset: The Varanger sliding beneath the waves following the attack.

**The Stockman Pulpit**

By J. D. MOSS  
Minister Church of Christ

The question is often asked, "What kind of world will we have after the war? Or, what shall be our system of government? And we hear so much about change that indeed we do wonder just what it will be like. We do not know what it will be like but we would do well to stop and ask the question, "What kind of a world would I like to live in, or, what kind of a world would I make if it were within my power?"

I heard a number of themes read a few years ago. They were written by a class of university students. To say the least I was amazed, and rather shocked by some of the answers given to the questions. We heard every thing from a social order so strict, that the people were decapitated when they failed to go to church, to a Cockaigne of "wine, women and song." The answers throughout this country would be varied. In some sections we would possibly agree on some underlying principles. But what about the other countries of the earth? What kind of world do they want? We of course could never answer for them. But if we are going to answer for ourselves we must have a starting point.

I do not know a better beginning place than with the Bible. Here we find God's laws set forth to govern individuals, families, and nations. We have always been proud that our constitution was framed by men who respected the laws of the Bible. We certainly have had the best system of government in general. If we have failed in some ways it is not because the ways of God have failed but because we have been slow to recognize them or we have not put these laws into practice as we should. This writing might to some seem a little

**THE BAPTIST HOUR**

Continuing the series of worship services conducted each Sunday morning at 7:30 over WFAA will be Senator Josh Lee of Oklahoma speaking next Sunday from Washington. Senator Lee's subject will be "Christian Citizenship" and all the people of our community are invited to hear this outstanding Christian layman.

premature but certainly we should begin to plan something better for ourselves and for the whole world. We do believe that we will be one of the winning nations. Yet we must be careful not to lose the peace as we did before. Then if we are to make a better country, and a better world, we must begin now. We must begin to study the questions carefully because we expect to keep our right to vote and people cannot vote intelligently unless they are instructed.

Let us give much time to study and prayer. A study of God's ways that are found in His Holy Word. Then when the time comes we may serve God and humanity with a few marks of our pencils.

**A Week of the War**

A Summary of the Week's Events on the Home Front and the War Fronts Abroad

Secretary of War Stimson told his press conference this nation is confronted with a situation in which we cannot "buy our way out or produce our way out," and the only way left is to "fight our way out by intelligent offensive action." Every effort is being made to build powerful armed forces, he said, and when conditions warrant, they will "seize every opportunity" to strike at the enemy. In the meantime, the U. S. must be prepared to take sporadic attacks along its coasts, Mr. Stimson said, because "if we scatter our forces for the defensive, it is the surest way to defeat."

Assistant Secretary of State

Berle, speaking in Des Moines, Iowa, said the U. S. is determined to fight an aggressive war, rather than a defensive one, and "the fruits of victory will be available to every free people throughout the world." Mr. Berle said "We can no longer think of ourselves as a supply base. . . . Our work is more than that of making guns and planes and tanks. Winning the war is now America's job." He said all signs point to big offensives this spring against the United States.

**Production and Conversion**

The War Production Board announced war production of the "big three" automobile companies—General Motors, Chrysler and Ford—will be running at a rate of almost \$11 billion when they reach peak production on present orders. The companies will need 900,000 to 1,000,000 workers as compared with a peacetime peak of 550,000. The Board said war expenditures authorized by Congress, including pending bills and Lend-Lease, totaled \$145 billion on February 15, Army.

The House passed and sent to the Senate the new \$32 billion War Appropriation Bill which provides \$23 billion for the Army and more than \$5 billion for Lend-Lease. The Senate passed a bill to authorize payment of allotments for one year to dependents of military personnel captured or listed as missing. Voluntary enlistments in January totaled 90,000—double the

highest World War I figures. The Army announced formation of the 1st Filipino Infantry Battalion at Camp San Luis Obispo, Calif., to provide loyal Filipinos a means of serving in the U. S. armed forces and the eventual opportunity of fighting in their homeland. The War Department reported American pilots in the Chinese Air Forces "are giving Japanese airmen their worst licking of the war. . . . knocking down more than 10 Jap planes for every loss" of their own. The Army Signal Corps is seeking civilian engineers to fill radio and telephone position in Civil Service jobs paying \$2,600 to \$3,800 annually.

Selective Service Headquarters announced new Army physical standards for inductees will permit reclassification as Class I-A of thousands of men now deferred due to teeth and eye defects. Men registered February 16 will be called for induction only after local boards have exhausted their existing lists, he said.

**The War Front**

Gen. MacArthur reported continuous fighting on the Bataan Peninsula and battery attacks on the fortifications throughout the week. The Navy announced the destroyer Shaw, previously reported lost at Pearl Harbor Dec. 7, arrived at a U. S. West coast port, is being repaired and within a few weeks will be in service again on the high seas. A U. S. tanker was torpedoed in the Atlantic area, while U. S. forces inflicted enemy losses which included: 10 planes, one large and one small enemy transport and one 5,000-ton cargo ship sunk, and two enemy barges destroyed.

**Navy**

Navy Secretary Knox said the Navy, operating over three-fourths of the globe under the heaviest burden in its history, must now protect U. S. shores and coastal commerce, strategic areas vital to our defense, the American Republics, and the flow of supplies to Great Britain. It must check Ja-

panese aggression until "we can muster our forces and send it hurtling back whence it came." The Navy announced launching of a battleship, four destroyers and a submarine chaser. The Navy said 1,000 Naval and Marine Corps officers and enlisted men and 1,200 civilians in the Pacific war area presumably were taken prisoners of war by the Japanese after December 7. The Portland, Ore., recruiting office topped all others in January with 114 enlistments for each 100,000 persons in its area. The nation's schools started work on a program to make 500,000 accurate scale models of United Nations' and enemy warplanes for U. S. naval, military and civilian defense forces.

Mrs. Jack Baggett is entertaining her bridge club this afternoon. The guests are Mrs. James Childers, Mrs. Bill Friend, Mrs. Billy Baggett, Miss Mary Alice Smith, Miss Catherine Childers, Mrs. Earle Chandler and Miss Posey Baggett.

## Woman's Society Gets Reports Of Oklahoma Meeting

A report by Miss Mary Riddle, secretary of the Community Center here, on the first annual meeting of the South-Central Jurisdiction of the Woman's Society of Christian Service, held in Oklahoma City, February 17 to 19, featured the regular meeting of the local society at the Methodist church Wednesday afternoon.

Mrs. B. B. Ingham presided at the meeting and introduced the speakers of the afternoon. Miss Riddle reported that the theme of the meeting was "Love," and that a number of outstanding speakers were heard. Among these was Mrs. J. D. Bragg, president of the National Jurisdiction of the Society, who said that the great need of today is a spiritual strengthening of all mankind. Miss Riddle reported, Mrs. Bragg declared that China was able to wage war on the Japanese without hate, and that all her concentration camps are under Christian leadership.

Another interesting speaker was Mrs. W. M. Alexander, whose husband is President Roosevelt's special envoy to study the condition of the negro in the South. She was worship leader of the meeting and the theme of her talk was "We Leap What We Sow In The International Situation." Racial attitudes are created in the home, Mrs. Ruby Van Hoosier, secretary of Children's Work and former teacher of religious education in Ward Belmont, told the assembly. Miss Helen Johnson, secretary of Young People, stated that the greatest success of United Methodism is the creation of a world consciousness of youth.

Miss Riddle said that the thought of the great Oklahoma meeting was the same as that made prominent in Ozona this month through the society's studies and the Rotary institute of International Understanding lecture series.

Mrs. Jenny Riddle, who also attended the meeting, gave an account of the trip and the entertainment.

A regular business session will be held by the local society at its next meeting, Wednesday of next week. Mrs. John Bailey will be leader for the worship, with meditation by Mrs. E. B. Baggett and prayer by Mrs. Mary Flowers. The year books are completed and will be distributed at this meeting. All members are urged to be present.

Present for this week's meeting were Mrs. B. B. Ingham, Mrs. W. B. Baggett, Mrs. Charles Williams, Mrs. Floyd Henderson, Mrs. Mary Flowers, Mrs. Jennie Riddle, Mrs. Scott Peters, Mrs. Madden Read, Mrs. W. R. Cabaness, and Miss Mary Riddle.

## Booster Band Formed By Juniors

Junior girls of the Baptist Sunday School met at the home of Mrs. J. S. Whatley Tuesday afternoon for the purpose of organizing a booster band.

Jimmy Choate was elected president of the band, and Loraine Mears and Marian Dryden group captains.

At the close of the business session, Emily Wise and Ruth Allen Carpenter, whose families are soon to leave Ozona, were presented with gifts. Punch and home-made cookies were served to Marian Dryden Neva Trull, Barbara Ann Spears, Ruth Allen Carpenter, Sally Ann Laxson, Emily Wise, Juanita Oathout, Loraine Mears and Jimmy Choate.

## 20th Century Guest Of Mrs. Childress

Mrs. Pleas Childress, Jr., entertained members of the Twentieth Century Club and guests Saturday afternoon in the Childress home. Garden tools and seeds given as prizes aided in carrying out the defense program. Each guest was presented a package of seeds as a going award. High score prize was received by Mrs. Jack Wilkins. Mrs. Phillip Lee Childress won second high award, and Mrs. Boyd Clayton, low.

Yellow jonquill decorated the house and cherry pie, ice cream, and coffee, were served to Miss Wayne Augustine, Mrs. Joe Clayton, Mrs. Jack Wilkins, Mrs. Doug Kirby, Mrs. Phillip Lee Childress, Mrs. Jesse Marley, and Mrs. Boyd Clayton.

## Baptist Society Has Bible Study

Mrs. Ben Williams and Mrs. Clyde Childers led the Bible study when the Woman's Missionary Society of the Baptist Church met Wednesday afternoon. Present were Mrs. Charles Powell, Mrs. Ben Williams, Mrs. R. K. James, Mrs. Ernest Dunlap, Mrs. Will Miller, Mrs. George Bean, Mrs. Clyde Childers, Miss Maybelle Taylor, Mrs. J. T. Keeton and Mrs. J. S. Whatley.

Next week's session of the society at the church will be a regular business session.

## Mrs. Flowers Las Amigas Hostess

Mrs. Richard Flowers entertained members of the Las Amigas Club at her home Friday afternoon.

Mrs. Heyward White and Miss Zelma Scott received table high awards and the bingo prize was won by Mrs. L. E. T. Sikes.

Those attending were Mrs. Bill Baggett, Mrs. Arthur Kyle, Mrs. Dan Patterson, Mrs. L. B. T. Sikes, Mrs. Rex Russell, Miss Zelma Scott, and Mrs. Heyward White.

## Dance Honors Chappo Morrison

Honoring her son, Chappo, Mrs. Marbury Morrison gave a dinner and dance Saturday evening at Rendall's Drive Inn.

Present for the occasion were Joy Coates, Gem Ella Dudley, Joy Hubbard, Rosalie Lemmons, Louise McLaughlin, Ethel Mayes, Daphne Meinecke, Lottie Jo Owens, Mary Louise Perner, Margaret Russell, Nan Tandy, Ruth Townsend, Joyce West, James Chapman, Joe Corbell, Lloyd Coates, Bill Carson, L. B. Cox, Jimmy Pharr, Jim Ad Harvick, Dick Henderson, Perry Hubbard, Tom Ed Montgomery, Charles McDonald, Billy McWilliams, Arthur Byrd Phillips, Bland Tandy.

## Latin America Is Study Topic For Woman's Club

The Ozona Woman's Club met with Mrs. W. E. West Tuesday afternoon for a study on Latin-America in North America.

Mrs. George Bean told of the Land of the Aztec. The Aztec were very similar to the ancient Egyptians. They had a king, also a God of War who protected the country. The Maguery plant was used extensively for food, clothing, rafters, wire, vinegar, medicine, etc. They carried on this trade by bartering and had five different kinds of money—the cocoa bean, small pieces of cotton, T-shaped copper and thin pieces of tin.

Miss Elizabeth Fussell talked on the Resurgence of a Nation or the resurrection of Mexico. The early history of Mexico was revolutions—civil wars—assassinations to get into power, etc. But a new stage was begun when Cardenas was elected president. He had the slogan of Mexico for the Mexicans—confiscated the oil property of outside owners, built new roads, new schools, promoted education for the masses. The present President Camachio is still progressive and has lined up whole-heartedly with the United States.

Status of women in Latin-America was given by Mrs. W. R. Baggett. The inter-American Commission of Women was established at the 8th Pan-American conference at Lima in 1938. They advocated true democracy be taught to women, good neighbor policy and better the conditions of prisons for women and children. She then told of the outstanding women of Cuba—Marta Abren, who was a great benefactor. She founded boarding schools for boys and for girls, founded asylums and built a theatre to support the asylum, gave a school to the colored children and established public laundries. She later was a great help in Cuba's getting her freedom.

Those present were Mrs. Stephen Perner, Mrs. Carl Colwick, Mrs. W. R. Baggett, Mrs. George Bean, Mrs. Joe Pierce, Mrs. Max Schneemann, Mrs. N. W. Graham, Mrs. M. Johnson, Mrs. B. B. Ingham, Mrs. Evert White, Miss Elizabeth Fussell, Mrs. W. E. Smith, Mrs. Ira Carson, Mrs. W. E. West.

The president urged all members to attend the District Convention at Midland on March 5 and 6. Mrs. George Bean was elected delegate.

## For a Raidy Day

Philadelphia is going right ahead with its air raid precautions, and the latest innovation is the fire-fighting suit for women wardens, made of chemically processed fire-proof cloth. Above is shown the suit with helmet as worn in action.

## Lubbock Recruiting Station To Receive War Service Offers

A new personnel office is opened in Lubbock to handle applications of men—and in some cases of women—who desire to volunteer their services to the War Department.

Many men of some military experience can be used in civilian jobs in the Army. And, in this connection, some women can be used in administrative duties. To date, nothing has been announced from Washington on the status of the Army's plans for a women's auxiliary organization.

Men—and women—who feel they have special qualification which can be utilized by the War Department, and especially men who are not in the "Class I" classification by their local draft boards can write to or call at Headquarters, West Texas Recruiting District, Post Office Bldg., Lubbock, Texas. There qualifications will be analyzed, and if it is thought they can be used by the War Department, a detailed "Questionnaire" will be given to or mailed to the individual concerned.

When this Questionnaire is returned, it will be forwarded to the War Department, and there it will be carefully analyzed, and if there is a place for the applicant, he will be notified at once.

People writing to Headquarters, West Texas Recruiting District, Lubbock, Texas, are urged to give complete details, such as name, address, age, classification by local Selective Service Board, education, business and technical experience, and military experience, if any.

## Knitting Lessons Given To Girls Of Homemaking Class

Some 36 girls of the Homemaking classes of Ozona High School are learning to knit this week under instructions being given them by Mrs. Jimmy Blaylock, who is general chairman of the local Red Cross war production program and who has organized local women in knitting and sewing for Red Cross production of garments for war relief purposes.

Mrs. Blaylock is substituting this week as instructor in the homemaking classes for Mrs. Mart Westerman, who is spending the week in Brownwood with her husband, Lieut. Westerman, stationed at Camp Bowie. Lieut. Westerman has been ordered from Camp Bowie to an unannounced destination and Mrs. Westerman received leave of absence to visit him during his last week's stay there.

Mr. and Mrs. B. B. Ingham have been among the sufferers from the measles epidemic.

## Youth Problems Discussion Topic At Brotherhood Meet

Current youth problems was the topic on which C. S. Denham spoke to men of the Baptist Brotherhood when the organization met Tuesday night in the First Baptist Church for its regular meeting. A round table discussion followed the talk by Mr. Denham.

All men of Ozona are invited to the Brotherhood programs. The next meeting of the group will be next Tuesday night, starting at 8:15 with the following program: Sing-song, M. E. Corbell; invocation, Ben Williams; Scripture reading, Griffen Miller; business; "The Christian Attitude Toward the War," by Joe Ripple; Bible study, Dr. J. A. Sherburne; benediction, Jim Patrick.

## MRS. NEWKIRK HOSTESS

Mrs. J. E. Newkirk entertained the Friendship Club and guests Tuesday afternoon in her home. The George Washington Motif was used. High score prize was awarded to Mrs. Byron Stuart. Mrs. Alvin Scheel received second high. Those attending were Mrs. Dewey Waggoner, Mrs. Slick Miller, Mrs. R. C. Wilcox, Mrs. Alvin Scheel, Mrs. O. Z. Fenner, Mrs. Byron Stuart, Mrs. Cleophus Cook.

## FRIENDSHIP CLUB

Members of the Friendship Club met Wednesday night in the home of Mrs. O. Z. Fenner. High score prize was awarded to Mrs. J. E. Newkirk, and Mrs. R. J. Adams second high. Cakes and cookies were served to Mrs. Alvin Scheel. Mrs. J. E. Newkirk, Mrs. R. J. Adams, Mrs. Byron Stuart, Mrs. H. C. Townley, Mrs. Cleophus Cooke, and Mrs. Dee Lyles.

## Be Good to your Electric Appliances and they'll be good to you!

We're ALL soldiers and in the army NOW. And that means new responsibilities.

For us, our salesmen no longer blithely offer you this or that appliance. We must advise that you take good care of your electric refrigerator, your washing machine, your sweeper, radio, food mixer, and every other appliance. The factories that make these marvelous time and labor-saving servants are being turned to the manufacture of war materials. Be good to these appliances—and they'll be good to you.

It is true that meats shrink less and vegetables lose less of their vitamins with electric cooking. It is true that there is less food spoilage with electric refrigeration. It is true that the electric washing machine, the sweeper, and the food mixer all have greatly relieved women of tiresome, unnecessary household drudgery and save time and energy for wartime work. And it is true that both workers' and children's eyes show less strain when the lighting is good.

So, as soldiers fighting for our American way of living, it is our duty to provide electric service for all these things which are normal in peacetime and imperative in wartime.

Hence, it is proper also to urge that you keep your electric appliances in good condition... get longer wear out of them.

Whenever needed, ask the advice of our servicemen. They, too, are in the war... rendering an essential service.

**Sugar For Canning Promised Housewives**

Housewives are going to have plenty of sugar for home canning this summer and every effort is being made to have it available. That is the assurance of J. B. Joyce, acting manager of the War Production Board's Southwest district field office in Dallas.

Mr. Joyce emphasizes that monthly allocations of refined sugar are taking into account the sugar that will be needed this summer for home canning.

"The supply may be somewhat limited," he explained, "just as the supply for daily consumption is limited; but it will be sufficient for enable housewives to can what they need."

He added that reports have come to his office that some housewives are buying more sugar than they need for normal use, and are expressing that they want to be sure having enough sugar for home canning this summer.

That sort of buying is unnecessary and it is also unwise," Mr. Joyce warns. "It aggravates a situation that already is difficult. We are making every effort to see that sugar is made available for home canning next summer and Washington advises us that the Office of Price Administration will handle its distribution."

**History of Hush Puppies**

Hush puppies originated somewhere in the southern mountain regions. As usual around these regions there were always a lot of dogs and where there are dogs there are always puppies. While the folks ate, puppies whined and in order to quiet this, an extra pone of cornmeal was made for the puppies—hence the name "hush puppies." Use the following ingredients: 1 cup of corn meal, 1/2 cup of flour, 2 tps. baking powder, 1/2 tsp. salt. Mix at home; put in jar for convenience sake, and just before trying your fish, add enough water to this mixture to make pasty. Add egg to this and beat well. Drop spoonful at a time in the hot grease with the fish as they fry. Dropped onion can be added if desired. This recipe makes enough for two hungry campers.

**Behind The Scenes in American Business**

By John Craddock

NEW YORK, Feb. 23—SHARP RISES CURBS—Both in production and prices, control measures that have been in the air for weeks are getting much more definite, and are insistent. Mechanical regulators and civilian radios now have absolute deadlines for stoppage, as of April 30 and 22, respectively—the industries then being over 100 per cent to war production. Meanwhile, WPA "frozen" all stocks of mechanical ice-boxes for home use except those already in dealers' hands or in transit; and retailers will be allowed to sell one-twelfth the number they sold in all of 1941 (or 100 regulators, whichever number is larger), and thereafter the "freeze" applies to their stocks. Tightening of screws on tires is seen in OPA's sternness to see that radio and phonograph wholesalers and retailers feel their recent price increases, though actual OPA mandates a month ago applied only to manufacturers' prices.

BITS O' BUSINESS—A typical one of the times is the fact that Sam received two and a half times as much money from Chrysler corporation earnings in 1941 as all its stockholders; and the quarterly dividend was cut from \$5 to \$1 to conserve cash for work outlays. Similar action has been taken by General Motors and Du Pont . . . United Air Lines

**Seized From Enemy Aliens by FBI**

Shown here is some of the material seized by Federal Bureau of Investigation agents in Newark, N. J. The FBI men co-operating with local police seized many enemy aliens in Newark and vicinity. The material includes fire arms, short wave radio sets, photographic equipment and other contraband which should have been turned over to the police. Photographs of Hitler, swastika banners and other pro-Axis items—not exactly contraband—were included in the haul.

wins the National Safety Council award for safe airline operation in Group A, flying more than 300 million passenger miles in 1941 without a fatality . . . No soap shortage is expected in this war, it being largely a by-product of glycerine, a vital war need; but future soap may be less slippery, because there'll be less glycerine left in it . . . "Scrap" problem may beset phonograph record industry because ingredients include a resinous secretion of a little bug (not jitterbug) of northern India. RCA-Victor is running a modest experiment in the Philadelphia area, paying two cents a piece for old platters, no matter in what condition.

COULD BE WORSE — In spite of inescapable rises in food costs—about 15 per cent in the past year—grocery bills are taking a smaller cut out of the average pocketbook now than in 1917. The Department of Agriculture reports that the typical working man's family now hands the food merchant about 13 cents per payroll dollar than he did during the year America entered World War I—the figures being 23 cents per income dollar now, against 36, then. Incidentally, that typical family was earning \$1888 last year, compared to \$1,331 in 1917.

SHORTAGE SHORTS—A sour note on sweet stuff: some hotels that removed sugar bowls and doled out two lumps per patron found sugar consumption going up by as much as 40 per cent (one-lumpers and non-users, reminded of the preciousness of the article, began pocketing lumps) . . . Musical instrument makers, starting March 1, may use only 50 per cent as much of certain critical materials as in 1940 . . . Restrictions have been extended on cellophane and its ilk, because new military needs are being found for them; also it may be needed for laminating with paperboard to create substitutes for metal containers . . . Renewed and sterner threats of gasoline shortage impel some filling station operators associations to ask that last summer's 7-to-7 "curfew" be reinstated on a compulsory basis, hoping that resultant savings in electricity and wages would help offset declining sales revenue.

MAJOR OPUS—One clue to the enormity of the all-out victory effort may be seen in the fact that the two billion pounds of aluminum the United States is booked to produce annually at the peak of its war effort vastly exceeds total world output for any year before the war. Besides, for every pound

of aluminum produced, nine pounds of other materials are consumed—bauxite, carbons, cryolite and other things, including enough electric power to keep a 100-watt bulb burning 100 hours. The plants the Aluminum Company of America is building for Defense Plant Corporation will have capacity far in excess of the highest annual production the peacetime industry of the United States attained in its first 50 years, yet all

these plants will be in operation less than a year from the date contracts were let! Each of the two largest of them will produce more of this light metal, so essential for airplanes, than the entire nation produced in 1918, final year of World War I.

THINGS TO WATCH FOR—A photoflash bulb made of transparent plastic instead of glass, practically shatterproof . . . A new plastic mending substance, called Nuplastic, for filling cracks and holes, needs only finger-tip pressure, has self-smoothing finish which gets stronger with age . . . Office filing cabinets made of wood, but finished like the metal ones (though for years they've been trying to make metal office furniture look like wood) . . . A gadget for attaching a tiny fan to a sewing machine motor (keep cool while "sewing shirts for soldiers," etc.).

"Our tastes change as we mature. Little girls like painted dolls, little boys like soldiers. When they grow up the girls like the soldiers and the boys like the painted dolls."
