PIK Options Exercised On Cotton, Wheat

Producers Reminded Of CUA, Signups

"Farmers who do not have enough upland cotton under government loan to cover the amount they will receive under the payment-in-kind program will be required to obtain loans on their 1983 cotton production," says Bailey County ASCS Executive Director Danny Noble.

According to the Director, facts recently received indicate that producers who did not plant upland cotton in 1983, or who have not planted enough to cover the amount they are scheduled to receive under PIK, will instead receive PIK cotton presently in government inventory.

Under the PIK program, the USDA makes in-kind payments to upland cotton farmers who reduce their plantings to specified levels. Those farmers who agreed to reduce will receive an amount of upland cotton up to 80 percent of the amount they would have produced on the PIK acreage.

Noble says that all producers who signed a contract to participate in the 1983 PIK program agreed to obtain a loan on their 1983 production for PIK purposes to satisfy program needs, if required by CCC. The USDA has decided to exercise this option after determining an insufficient quantity of upland cotton currently available to the USDA's Commodity Credit Corporation to meet PIK needs.

Under the rulings of this announcement, producers will place eligible 1983 crop upland cotton in an approved warehouse and receive a regular price support loan for the cotton. Storage payments will be earned for up to five months beginning on the area's availability date for in-kind cotton. At any time during the five months, the producer may redeem the loan collateral and sell it to the CCC, making him immediately eligible to receive the PIK from the CCC inventory. The loan price on cotton in the program is \$5.55 per pound.

The Director of the Bailey County ASCS told the Journal on Friday that

Turn Row Field Days Continue Here

The Texas Agriculture Extension Service in cooperation with Longhorn Spraying Service is sponsoring a series of "turn-row meetings" or field days in which pest management and scouting will be discussed. These meetings will take place each Tuesday through the growing season.

The field days will be held at 1:30 p.m. approximately 8 1/2 miles north of Muleshoe on Highway 214 at the Davy Engelking farm.

Bailey and surrounding county producers are urged to attend these free sessions to obtain information which will enable them to scout and manage their own fields.

the USDA had also determined that it would be necessary to require wheat producers who do not have sufficient quantities of wheat pledged as price support loan collateral to meet their payment-in-kind requirements to obtain loans on their 1983 crop production.

However, producers who have no 1983 crop wheat planted for harvest, or who do not have sufficient wheat planted for harvest to meet their PIK requirements will receive Payment-in-kind from other wheat in CCC inventory. Advice from the local ASCS Director indicates that all producers who signed a contract to participate in the 1983 PIK program agreed to obtain a loan on their 1983 production for PIK purposes to satisfy program needs if CCC required it. This option has now been exercised due to the insufficient quantity of wheat in PIK.

Noble stated that the CCC had developed special provisions which permit producers to use 1983 wheat production for PIK purposes, though they may not have warehouse or on-farm storage available. "The producer must certify to the local county office of the ASCS that the required quantity was harvested from an eligible farm and has not been sold prior to the certification," Noble explained.

In further explanation Noble said that the producer could obtain the loan, redeem the loan collateral and sell it to CCC, which would then make him eligible to immediately receive the payment-in-kind from the CCC inventory. However, producers will not receive the proceeds of the sale of wheat to CCC until their PIK availability date. Producers with eligible 1983 crop wheat stored in an approved structure on

Local Girl Wins National Honor

Texas students who won a first or second place at the 1983 Texas State History Day Fair in May recently attended the national meet held at the University of Maryland - winning eight of 36 possible awards.

Among these Texas winners was Sue Haire, daughter of Mrs. Vera Haire of Muleshoe. Sue is a Muleshoe Junior High Student and placed third in the junior high papers category with her writing on "Water Makes the Difference."

A total of 1,425 junior and senior high school students from around the country competed in the national competition.

State Competition which is sponsored by the Texas State Historical Association was held for the first time this year in Austin. The University of Texas has been chosen as the site for the 1984 Texas State History Fair. Theme for the 1984 fair is "Family and Community in History."

State Babe Ruth Tourney Slated Here In July

For the first time, the Senior Babe Ruth State Tournament has been scheduled for Muleshoe. The tournament, involving 16-18 year old All-Star Senior Babe Ruth baseball players will be held here July 25-30.

With eight districts in Texas, the teams will be coming into Muleshoe from across the entire state. The districts are District One, North Panhandle; District Two, ALMO (Muleshoe's District); District Three, Lubbock; District Four, South Plains (Lamesa); District Five, Del Rio; District Six, Graham (Dallas Ft. Worth); District Seven, South Texas and District Eight, El Paso.

All-Stars from the top eight teams in the state will be playing nightly during the week at the Babe Ruth Baseball park in Muleshoe. Accompanying the players will be parents and coaches, and probably just a few (baseball fans) who want to see the top baseball action.

Sammy Gonzales, president of the Senior Babe Ruth Baseball League in Muleshoe, said the winner will qualify to go to the Southwest Regional Tournament in Arkadelphia, Ark.

Gonzales said he called Ronald Tellesen, National President of the Babe Ruth Association in Trenton, N.J. Tellesen told Gonzales that in order for Muleshoe to host the tournament, it would be necessary to install a chain link fence for safety measures.

The local president said he talked to the Muleshoe City Manager, Dave Marr, who approved installation of the fence and called Tellesen back.

In the interim, a general face-lifting has been underway at the Babe Ruth Baseball Park here. The dugouts have been re-

roofed, and a lot of re-painting and remodeling has been underway, along with grasswork.

"We owe special thanks to Frank Saldana, Jr.," commented Gonzales. "When we asked for carpenters to help with some of the remodeling, he was the only one who showed up, and he worked from 9 a.m. in the morning until 8 p.m. at night helping us. We surely do appreciate all he did."

Gonzales said they are currently recruiting all the volunteer help they can find to help the tourna-

Johnsongrass Tests Results Checked

Texas Agricultural Extension Service is currently conducting a johnsongrass control demonstration on the farms of Gordon Murrah and James and Jimmy Wedel in Bailey County.

Local county extension agents Spencer Tanksley and Kirby Rankin and area agronomy specialist Dr. James Supak are cooperating with these farmers in an effort to determine effectiveness of various herbicides when applied at different rates, explained Rankin.

He said three herbicides are being tested, Fusilade, Poast and MSMH. Rankin said varying rates of each herbicide were applied on June 6.

Dr. Supak hopes to evaluate the test plots to determine the effects of reducing application rates on the percent of johnsongrass controlled by the herbicides.

Wednesday afternoon, Dr. Supak and Rankin checked the plots on the Murrah farm seven miles west of Muleshoe on FM 1760. They found varying degrees of success with the test plots they checked.

One definite advantage of the new herbicides is that they can be applied after cotton has come up, according to Dr. Supak.

Eight johnsongrass demonstration plots are located across the Texas High Plains according to Dr. Supak. He said that in this

particular area, 1/4 to 1/2 pound of herbicide is recommended because of the high temperatures and low humidity. "We have found, generally, that the higher rate (1/2 pound) works better in this part of the country," he added.

Dr. Supak said that probably the best advantage to the control methods being tested is that they can be applied early. Other control methods have to wait until the crop is in the boot or heading stage. By that time, he commented, the weed had sapped the moisture and shaded the cotton. "Competition for the moisture and shade can be eliminated, allowing the crop to grow and mature better in the field," Dr. Supak said.

Cont. Page 6, Col. 2

Friena Plans July 4 Events

The Friena Chamber of Commerce and Agriculture will sponsor a July 4th celebration at the Friena Community Center beginning at 10 a.m. on Monday. A volleyball tournament will kick-off the day at 10 a.m. and a tennis tourney is also planned.

From 11:30 a.m. until 1:30 p.m. a beef and sausage dinner will be served to the accompaniment of Eva Miller's Stage Band. Dinner festivities will be followed by a cake walk, beginning at 1 p.m. and a turtle race at 1:30 p.m.

Other events scheduled to begin at 1:30 p.m. include a 42 Domino Tournament, a Horse Show Pitching Contest, and a ping-pong tournament.

Beginning at 2 p.m. there will be sack races and a wheel barrow race, as well as a three legged race. At 3 p.m. a softball throw event will be staged.

Also included in the festivities is a triathlon, which includes swimming 2 miles, cycling 4 miles and running 6 miles. This will begin at 7 a.m. and is sponsored by the Friena Parks and Recreation Department.

There will also be a free fireworks display sponsored

Cont. Page 6, Col. 2

AGRONOMIST CHECKING RESULTS--Dr. James Supak from the Texas Agricultural Extension Service in Lubbock, carefully checks results on a test demonstration plot of johnsongrass control. The demonstration plot is on the Gordon Murrah farm seven miles west of Muleshoe. Looking on is Assistant Bailey County Agent Kirby Rankin.

AN UNTREATED JOHNSONGRASS FIELD--Adjacent to test plots for johnsongrass control on the Gordon Murrah farm, Kirby Rankin, assistant Bailey County Extension Agent, left and Dr. James Supak note the heavy growth of the johnsongrass on the untreated portion of the field. The treated field is shown in the background.

Rep. Pete Laney Lion's Club Speaker

Rep. Pete Laney was guest speaker for the Muleshoe Lions Club on Wednesday, and gave a report on both the regular legislative session and the special session which was just concluded last week.

The legislator said the regular session started in January and concluded during the last of May. He emphasized that the major

accomplishment during the regular session was the passage of a budget that did not mandate or create an additional tax bill.

He said that with state funds down from the decrease in oil and gas revenues, the legislators were still able to cut back on some requirements -- with no tax bill -- at the present time.

Four major pieces of legislation were handled during the special session in June. The first was to pass a Brucellosis bill which kept Texas from being quarantined with their cattle by the federal government.

Also considered was the Texas Employment Commission which was scheduled

Cont. Page 6, Col. 6

The spring 1983 Dean's Honor Roll at Wayland Baptist University here includes one student from Muleshoe.

Named to the list for the recently completed term was Joel Bratcher, who posted a 4.00 grade point average on a 4.00 scale.

Jimmy L. Gleason from Muleshoe has earned Distinguished Student status at Texas A&M University. Recipients of the Distinguished Student honor must earn at least a 3.25 grade point ratio, out of a possible 4.0 during the most recent grading period. The students must also be registered for 15 semester hours. Gleason is a junior majoring in biomedical science.

Area FFA Members Head For State Meet

Several Muleshoe and Lazbuddie FFA Chapter members will be among the six thousand Texas FFA members and guests expected to attend the 55th Annual Convention of the Texas Association of Future Farmers of America, July 13-15, 1983, at the San Antonio Convention Center.

The FFA is composed of students who are studying vocational agriculture in the public schools in preparation for a variety of careers in Agriculture and Agribusiness. Vocational Agriculture is well known for

"Educating Through Experience" - a "Learning By Doing" process which uses the FFA to give students experience. The ultimate objective is to produce future leaders for American agriculture with its vital role of producing food and fiber. Texas now has more than 900 FFA chapters with over 60,000 active members and more than 500,000 former members.

During the convention, over 2,000 award winners including area students will be recognized with more

MR. AND MRS. GARY LYNN MCDANIEL
[nee Jennifer Louise Ziegenfuss]

Miss Ziegenfuss, McDaniel United In Marriage

Miss Jennifer Louise Ziegenfuss and Gary Lynn McDaniel were united in marriage Friday, June 10 at 7 p.m. in the First Baptist Church of Amherst. Rev. Larry Sanders read the double ring vows.

Parents of the couple are

Mr. and Mrs. Ed Ziegenfuss of Muleshoe and Mr. and Mrs. Lynn McDaniel of Amherst.

Vows were repeated before an arched candelabra accented with greenery and pink bows. Four additional candelabras decorated the front of the church.

The ushers lit the candles while the mothers were being seated and Brenda and Becky Hoeltzing of Nazareth played guitars and sang the "Wedding Song." Other special musical selections included "Surround Me With Love," "Boundless Love," and "Whither Thou Goest." Gayla Cowan also played the "Wedding March" on the organ.

Given in marriage by her father, the bride wore a formal length gown featuring an oval neckline with lace flowing off the shoulders. The flowing train featured Chantilly lace over organza.

To complete her ensemble the bride wore a three

quarter length veil of silk illusion with Chantilly lace and a beaded caplet.

She carried a cascading bouquet of pink rose buds and white gardenias with white satin streamers and white beaded hearts.

Following tradition, something old was her dress; something new and blue was her garter and something borrowed was her veil, string of pearls and pearl ear studs.

Betty Claybrook, sister of the bride, served as matron of honor. She wore a long pink off the shoulder dress made of eyelet, and carried a nosegay of pink and white carnations.

Flower girl was Amanda Claybrook, niece of the bride. She wore a long pink eyelet dress and carried a white straw basket containing rose petals.

Kenny Thompson of Amherst served as best man. Ushers were Johnny Ziegenfuss, brother of the bride of Muleshoe and Mike McDaniel, brother of

the groom, of Amherst.

Following the ceremony a reception was held in the fellowship hall of the church. Servers at the bride's table were Mary Wauson, sister of the bride, and Melinda Ziegenfuss, sister in law of the bride.

Serving at the groom's table were Tonya Roberson and Terri Coleman. Marsha Williams registered the guests.

Special guests included Wallace Lee of Littlefield, Mr. and Mrs. Dale McDaniel and Billy of Abilene, Mr. and Mrs. Fred Ziegenfuss, Mr. and Mrs. Walter Luttmr of Canute, Ok.

Following a wedding trip to Ruidoso, N.M. the couple are making their home in Muleshoe where the groom is employed by Bailey County Electric.

A rehearsal dinner was

given by the groom's parents, June 9 at K-Bobs in Littlefield.

BIBLE VERSE

"Woe unto him that giveth his neighbor drink."

1. Where is this verse to be found?
2. Who was the author?
3. What does the word "woe" infer?
4. What New Testament verse does this remind you of?

Answers to Bible Verse

1. Habakkuk 2:15.
2. One of the Old Testament prophets.
3. Sorrow or grief will come to him that tempts another to drink.
4. Romans 14:21.

Muleshoe Singing Group

The Muleshoe Singing Group met Saturday, June 25 at the Trinity Baptist Church with 26 present, including two from Olton, one from Lubbock and five from Clovis, N.M.

Cecil Rundell was in charge and lead the first two hymns. Invocation was given by J.M. Crawford.

Clara Coffman said "everyone who likes to sing or play an instrument is welcome to come and join in the singing."

Rodeo Roundup Reading Club Reading Lists Due

By Anne Camp

Boys and girls in the Rodeo Roundup Reading Club are reminded that all reading lists must be turned into the library on or before Saturday, July 9th, to count on their awards.

Wednesday, July 13, the awards and recognition program will be held at 10:30 a.m. for all who joined the Summer Reading Club. At this time the Top-Cowboy and Top-Cowgirl will be named and all certificates, ribbons and other awards they have earned will be given.

Hopefully everyone who has participated will come. One movie will be shown and refreshments will be served. So all you cowhands, dress up in your cowboy clothes or come as you are. But come to this last day of Summer Reading Club.

Wednesday morning about 40 boys and girls were present to hear a Rodeo Calf roping tell about the exciting sport of calf roping. Ben Harmon, son of Mr. and Mrs. Bill Harmon, brought his lasso and showed the kids how to make a lasso and how this event goes in a rodeo.

He told the kids that -- Almost more important than the cowboy's skill in this event, is the ability of his horse. Calf roping is just what the name implies: A Cowboy must rope and throw a calf and securely tie three of its legs together.

Rebekah President Visits Local Lodge

Jesselee Velie, President of the Rebekah Assembly of Texas, made her official visit to Muleshoe, Tuesday night June 28th. Mrs. Velie is from Baytown, and was accompanied by Muleshoe by her husband, Jimmy.

A money corsage was presented to the President by District 5 Lodges consisting of Friona, Hereford, Dimmitt and Muleshoe.

Sister Velie made an interesting speech, stressing the need for new members and building up our lodges. Her project for the year is to supply quilts for the Childrens and Old Folks Homes that are sponsored by the Odd Fellows and Rebekahs of Texas. Muleshoe lodge presented her with a quilt to be given to one of the homes.

After her talk, Mrs. Velie, held a School of Instructions and everyone who wished participated in this. She also reminded everyone to attend Pilgrimage Day to our Homes in Corsicana and Ennis if at all possible.

A salad supper was served to forty-nine members. Their was eight from Hereford, nine from Friona, five from Dimmitt, twenty-five from Muleshoe and two from the Goosecreek Lodge which is the home lodge for the Velies.

er. One end of a lariat is tied to the rider's saddle before the start, the other end is thrown over the calf's head after it has left the chute.

Once the calf is roped, three of the calf's legs are tied together with pigging string. During and after the time this is done the horse keeps backing up so the rope is held tight and the calf cannot break free. There is a 10 second penalty added to the cowboy's time if he leaves the box too soon and does not allow the calf enough of a head start. The cowboy does not receive a time if the calf breaks free of his restraints before 10 seconds has elapsed.

TOPS Club

TOPS Club chapter Tx. No. 34 met Thursday, June 30 at 6:30 p.m. in the meeting room of Bailey County Electric with 18 members present.

Clara Lou Jones, leader, called the meeting to order. The TOPS pledge was recited and the fellowship song sung. Rose Sain, secretary, read the minutes of the previous meeting and they were approved.

Everyone was reminded that Thursday, July 7 will be the crowning of the six month best loser. Also the monthly best loser will be crowned.

Evelyn Moore received a check for a hair set for losing six consecutive weeks.

Best loser for the week was Aurora Mata. Johnnie Ivy was first runner up and second runner up was Clara Lou Jones.

The meeting was dismissed with the singing of the goodnight song.

Before you start feeling too sorry for the poor little helpless calf, Did you know -- that all calves used for this roping event must weigh 200 pounds?

Calf roping was originally begun as a means of catching and branding calves.

Ben has entered many, many rodeos, and won many awards for his roping ability.

We appreciate so much these young people who have taken the time to bring first hand to the kids about horses; roundup and breeding; bull-riding, and calf roping. Their programs have been great.

Hobby Club

The Hobby Club met Thursday, June 30 in the community room of the Muleshoe State Bank for an all-day meeting.

Some worked at needlepoint, crochet, cutting out patterns and various needlework. Seventeen members were present for the noon-day meal.

Those attending were: Ola Epperley, Myrtle Chambliss, Elsie Allen, Janie Williams, Ethel Julian, Francis Bruns, Sammie Etheridge, Myrtle Creamer, Bernice Amerson, Mae Loyd, Opal Robison, Mabel Caldwell, Myrtle Wells, Edith Fox, Mae Provence, Nan Gatlin and Vickie Hendricks.

The next meeting will be Thursday, July 7 with Nan Gatlin as hostess.

Don't pay much attention to the person who knows what he says is right. ****

Young people do not have to copy the examples of their parents, fortunately. ****

People who object to the price of vegetables should try growing their own.

DARLA MCGUIRE

Bridal Shower Honors Miss Darla McGuire

Miss Darla McGuire, bride elect of Brad Poynor, was the honoree at a bridal shower Sunday, June 26 in the home of Mrs. Lynne Box. Guests were greeted between the hours of 3 and 4 p.m. by Miss McGuire, her mother, Mrs. Frances McGuire; the prospective groom's mother, Mrs. Patsy Poynor and Mrs. Box.

Other special guests included the bride's grandmother, Mrs. Audrey McGuire of County Line; her aunts, Mrs. Carolyn

Woods of County Line and Mrs. Jo Ann McGuire of Muleshoe; and Miss Cindy Stillwell of Abernathy. Also attending as special guests were Mrs. Faye Poynor of Muleshoe, aunt of the prospective groom; his cousins, Mrs. Perri Lee of Lubbock and Mrs. Patti Robinson of Muleshoe; Miss Kelly Bayless and Miss Kayla Bayless.

The serving table featured a heirloom cloth of ecru crocheted over blue and was enhanced by brass appointments. The bride's chosen

colors were carried out in a silk arrangement of royal blue and light blue and in her corsage of blue silk

flowers. Punch and decorated cookies were served by Mrs. Marilyn Young.

The hostesses gift was a microwave oven. Assisting in the hospitalities for the occasion were Sandy Turner, Marilyn Young, Karen Tunnell, Lynne Box, Dean Gunstream, Flo Lynk, Jeanetta Precure, Gladys Myers, Sherri Shipman, Pat Watson, Marilyn Cox, Wanda Griffin, Evelyn Northcutt, Sue Bessire, Elaine Burgess, Clara Sudduth, Margaret Gleason, Liz Morris, Tammy Black, Bobby Nell Dunham, Sue Holt, Pat King and Sharon Agee.

Tabitha Star Gore

Mr. and Mrs. Russell Gore are the proud parents of a daughter born at 10:09 a.m. June 30 in West Plains Medical Center.

The young lady weighed six pounds 12 ounces and has been named Tabitha Star. She is the couple's first child.

Grandparents are U.J.

and Derotha King, Billy and June Gore, all of Sudan.

Great grandparents are Hugh and Alta Gore of Sudan and Mrs. U.J. King of San Antonio.

Bethany Dawn Chaffin

Mr. and Mrs. Lon Chaffin of Shallowater are the proud parents of a daughter, Bethany Dawn, born on Friday, June 17 in the Methodist Hospital in Lubbock.

She weighed five pounds and four ounces.

The politicians have convinced us that some of them have to be liars.

Mental strain exacts a more deadly toll than physical strain and in a more disguised manner.

Love increases with time among those who avoid the fate of selfishness.

People who enforce laws should set the example in obeying the laws.

Button Batteries

A Hazard To Children

Progress is not without its hazards -- especially to small children.

The so-called "button" batteries, which power everything from electronic wrist watches to hand calculators and toys, are being swallowed accidentally by an increasing number of small children says Dr. Mary Ann Shirer, a health education specialist with the Texas Agricultural Extension Service, Texas A&M University System.

"Each year, between 500 and 800 button batteries are swallowed because of improper handling. In the case of toddlers, sheer fascination with something so small makes it a candidate for a taste test," she adds.

Many batteries make it non-stop through the body's digestive system and little harm results. But those which aren't passed and remain in the body are a threat to health and even life, Shirer says.

Leakage of alkaline electrolytes from a battery can cause chemical burns and internal bleeding.

SUE HAIRE

Muleshoe Girl Wins In National Competition

Sue Haire, daughter of Vera Haire of Muleshoe and an eighth-grade student at Muleshoe Junior High School, won third place at the fourth annual National History Day competition at the University of Maryland at College Park on June 18th.

National History Day is a series of competitions held at local, regional, state, and national levels for students in grades six through twelve. It is largely supported by the National Endowment for the Humanities.

Over 1300 winning students from 39 states and the District of Columbia took part in the 1983 program at the national level of competition. They entered papers, projects, performances, and media presentations related to the theme, "Turning Points in History: People, Ideas, Events."

Miss Haire's entry was a paper entitled "Agricultural Irrigation: A Turning Point in the History of the Texas High Plains." She spent four days on the University of Maryland campus. Registration and preparation took place Wednesday, June 15th. On Thursday, entries were judged by groups of college and university faculty, secondary school teachers, and historians from government agencies and the Smithsonian Institution. Paper writers also participated in a specially planned tour of the National Archives. Winners were announced on Saturday. Sue was presented a medallion and a cash award by the National Coordinator of the competition.

Sue's winning paper included numerous photographs depicting early irrigation on the Texas High Plains and was dedicated to her father, the late Lloyd F. Haire, a long-time irrigation farmer in the Muleshoe area.

Sue won the honor of participating at the national level by winning first place at the local history fair in Muleshoe, winning first place at the regional level competition held at Wayland Baptist University, and winning second place at the state competition at the University of Texas at Austin. She is the first student from Muleshoe to advance to the national competition.

Coaches and other gymnasts that attended were Coach Bob Cowley and Renee Martin.

The Twisters will be attending another meet on July 9th, in Plainview.

Pope John Paul II, Pontiff, speaking at Poland's holiest shrine: "As children of God we cannot be slaves, our divine adoption brings with it the heritage of freedom."

Four Muleshoe Gymnasts Attend Pampa Meet

Four gymnasts from Hawkins and Purdy School of Dance and Gymnastics attended a class 3 and 4 gymnastic meet in Pampa recently, hosted by the Pampa Dust Devils and the M.G. Flyers. Abilene Blue Bonnets and Muleshoe Twisters were also represented.

Brenna Matthews competed in the nine to 11 year old class 3 division. She placed fifth on the beam, third on the bars, second on the floor exercises and first on the vault. She was fourth in the all around category.

In the nine to 11 year old class 4A division, Holley Morris placed fifth on bars, beam, floor exercise and the all around division. She brought home a fourth on the vault.

Lashelle Scoggin was also in the nine to 11 year old division, class 4B. She placed third on the bars, second on the beam and the vault. Lashelle brought home a blue ribbon on the floor exercise and the all around.

Christy Cook competed in the seven to eight year old class 4 division. She placed fourth on the vault, the beam, the floor exercise and the all around. Christy brought a third place home on the bars.

Malnutrition hinders effectiveness of tuberculosis vaccine

COLLEGE STATION — Malnutrition apparently hinders the effectiveness of the world's only vaccine against tuberculosis and may decrease protection among the poor and underfed who need it most, say Texas A&M University medical researchers.

Tuberculosis, though not spreading rapidly, remains a persistent public health problem. It infects another 20 million people worldwide each year and causes up to 5 million deaths annually, many of them young children. In the United States, said McMurray, about 30,000 new cases of TB are reported a year, with 7 to 10 percent of them in Texas.

Recent tests at Texas A&M indicate malnutrition — especially lack of zinc and protein from red meat in the diet — significantly impairs the ability of the vaccine BCG to give protection.

 State Comptroller Bob Bullock has announced that Virgil Rogers from his Lubbock Field Office will be at the Bailey County Courthouse in the County Commissioner Courtroom on Tuesday, July 12, 1983 from 2:00 p.m. to 4:00 p.m. A Comptroller's Representative is available to assist local residents at the courthouse the second Tuesday of each month.

Now in its 50th year, Texas Employment Commission has worked to keep Texas working, with referral, testing, recruiting and filling of job openings. If a job opening is available, contact the Texas Employment Commission.

FFA Members

than 1,700 members receiving the Lone Star Farmer Degree, the highest level of recognition by the state association. Educational scholarships totalling more than \$450,000 will be presented to many of the members in attendance. Durwin Hill, Executive Secretary, reports that deserving adults who have supported the FFA and its activities will be recognized by the presentation of Honorary State Farmer Degrees, Distinguished Service Awards, and VIP Awards.

Outstanding speakers scheduled during the three-day convention include Michael Broome, nationally renowned speaker and humorist, Charlotte, North Carolina; Grant Teaff, head football coach, Baylor University, Waco, Texas; and Jan Eberly, National FFA President, Fallbrook, California.

Randy Brady, state president from Humble, Texas, will preside at the general sessions. These sessions will include the election of the 1983-84 state president from the state officer candidates nominated by the 10 area associations. From 10 area nominees, voting delegates will also select the state FFA sweetheart to represent the state association during 1983-84. Those in attendance will hear and recognize the Outstanding

DPS Estimates 49 Deaths

The Texas Department of Public Safety has estimated that as many as 49 persons could die in traffic accidents across the state during the Fourth of July holiday period.

Colonel Jim Adams, DPS director, said the estimate is based on the anticipated volume of traffic and the previous holiday deaths. "Independence Day can bring more motorists to our streets and highways compared to a regular weekend. We are estimating fewer deaths than we had during the Fourth of July holiday last year because thus far this year we have experienced a decline in traffic fatalities," Adams said.

Last year, 55 fatalities were recorded during the 78-hour period, but subsequent deaths from serious injuries brought the final count to 64 for the three-day holiday. Adams said if drivers would stay sober, slow down and use seat belts, their chances for survival would increase.

Adams encouraged motorists who observe drunken drivers to report them to the nearest police agency or Highway Patrol.

 by various Friena organizations and clubs along with concession stands throughout the day's activities.

LIONS CLUB SPEAKER--Rep. Pete Laney, left, of Hale Center, was guest speaker for the Muleshoe Lions Club on Wednesday. He was greeted by Lions President Roland McCormick, right. Rep. Laney gave the Lions Club members a report on both the regular and special sessions of the legislature this year.

Pik Options

Cont. From Page 1
 measurements on your crop lands," Noble stated. "If you are in doubt, request the measurement service. It will save you money in the long run," the director said.

Conservation Use Acreage or CUA acres MUST be incorporated into the soil, cleaned-up, shredded or plowed under by July 15. The ASCS Director advised that spot checks would begin on that day and any CUA land not meeting the requirements

of the contract would become subject to liquidated damage assessments. "While we realize that many of the farmers have been extremely busy, planting, replanting and such; the time has come that this acreage needs to be taken care of in order to prevent permanent damages to yours and perhaps your neighbor's land," Noble explained.

Although USDA PIK contracts state that the issuance date of the PIK certificates is July 1, Noble told the Journal Friday that no loading order had yet been received in the ASCS

office from Kansas City. As soon as the proper papers and information is received in the local office, about a week will be required to get the certificates out to producers. "We ask that you be patient with us on this matter and we will do our best to process things as quickly as we can." One other item was brought to attention on ASCS information which had to do with ACP Sign-up. This sign-up is for pipelines only and the sign up period will run from July 11 to July 15, one week only. Producers who are in need of this particular assistance should keep this date in mind and make the needed applications to the ASCS office.

Laney At Lions

Cont. From Page 1
 we will ever solve all the problems in education. The new budget included over half of it for education. That is a problem we cannot solve overnight."

Although a 24 percent increase in teacher salaries was sought, Laney said such an increase would put too large a burden on local taxpayers, as a large amount of the increase would come from local taxes.

"We don't believe local taxpayers would stand still for such a large increase," he emphasized.

Although Laney said the Senate might possibly look to "die" the first of September. However, it was determined to fund the TEC.

Not faring so well was the proposed Workman's Compensation bill for farm hands. That particular bill died without passing, according to Rep. Laney.

Another bill passed, following the recent motel fire in Fort Worth was a bill mandating that smoke detectors be placed in all hotel and motel rooms in the state.

Although discussed at length during both the regular and special session, the Representative said no increase for teacher salaries was approved. Laney said Governor Mark White said he would rather see an increase for all education and Laney commented, "I don't foresee a tax bill for awhile for salary increase on the state level."

He added, "I don't think Rev. Jesse Jackson, civil rights activists: "The black vote has proven to be disciplined and loyal to the Democratic Party..."

office from Kansas City. As soon as the proper papers and information is received in the local office, about a week will be required to get the certificates out to producers. "We ask that you be patient with us on this matter and we will do our best to process things as quickly as we can."

One other item was brought to attention on ASCS information which had to do with ACP Sign-up. This sign-up is for pipelines only and the sign up period will run from July 11 to July 15, one week only. Producers who are in need of this particular assistance should keep this date in mind and make the needed applications to the ASCS office.

at a larger tax bill, "I do not believe the House of Representatives will look favorable toward any tax bill until the economy turns around," concluded the representative.

More than a dozen guests were recognized during the Lions Club meeting and several announcements were made.

It was announced that the annual Lions Club Broom Sale would be held on August 24 and the Lions Club are already planning their fish fry or the first home game for the Muleshoe Mules on September 9.

Babe Ruth

Cont. From Page 1
 ment. Persons will be needed in the concession stands, to sell tickets, to help with parking and control of traffic coming in and out of the baseball field area, he said.

If you can help, and are willing to help, and are asking that he be contacted as soon as possible so schedules for working hours can be made out.

JUNIOR BABE RUTH DISTRICT TOURNEY
 Another Babe Ruth Tournament is scheduled in Muleshoe prior to the state tournament, added Gonzales.

The District Tournament for 13-year old Babe Ruth Players will be held here

July 11-16 at the Muleshoe Babe Ruth Park.

Games will be getting underway around 6 p.m. with two games to be played each night.

Teams involved in the tournament will be from Friona, Hereford, Dimmitt, Olton, Plainview, Bovina and Muleshoe.

A local Babe Ruth tournament got underway Thursday night, with All-Stars to be chosen from the 14-15 year old Babe Ruth players on Friday night.

These All-Stars will be competing in the Babe Ruth Tournament at Hereford July 18-23.

WT Speech Camp Scheduled

Students attending the annual Summer Speech and Theatre Camp at West Texas State University July 24 to Aug. 6 will receive training and experience in seven areas.

The WTSU Department of Speech Communication and Theatre hosts the camp for high school students. In conjunction with the camp will be a workshop on coaching speech activities to help sponsors and instructors observe and work with students after spending one week in classroom instruction on theories of forensics.

The workshop will be directed by Guy Yates, assistant professor of speech and forensics director at WTSU, July 18 to Aug. 6.

Enrollment deadline for the Speech and Theatre Camp is July 1. The tuition cost is \$100 which includes social activities, tickets to the musical drama "Texas" in Palo Duro Canyon, make-up, scripts and a debate source book. At a cost of \$135, students will eat in the East Dining Hall. Male students will be housed in Guenther Hall while female students will reside at Hudspeth Hall.

A \$40 deposit must accompany the application.

Yates is camp director and he will be assisted by Robert A. Busch, a teaching assistant in speech

communication and a graduate assistant in forensics.

Camp sections and instructors will feature novice debate, Lois Hintze, debate coach and teacher at Oklahoma City Heritage Hall; advanced debate, Stuart Baker, debate and speech coach at Midland High School; Lincoln-Douglas debate, Debbie Dehlinger, debate coach at Thomas Jefferson High School at San Antonio and president of the Texas Forensic Association; extemporaneous speaking and oratory, Jackie Jarrett, head of the speech department at Lubbock Coronado High School; oral interpretation, Virginia Myers, assistant professor of speech communication and theatre at WTSU; and drama, James Buchanan, speech and drama teacher at Sonora High School.

An enrollment limit has been placed on workshop sessions. The limit in novice and advanced debate, beginning and advanced drama is 40 students in each section and 30 students will be accepted in the sections on Lincoln-Douglas debate, extemporaneous speaking, oratory and oral interpretation.

Students participating in the debate and public speaking sections will compete in a workshop tournament at the end of the two-week camp. Drama

students will be cast in one of four one-act plays while oral interpretation students will participate in a festival with public performances.

Directors for the one-act plays are Judy Carter, Amarillo High School theatre director; Lou Lindsey, speech and drama teacher at Brownfield High School; Terry Marrs, theatre director at Odessa High School; and Marion Sweatman, theatre director at Marshall High School, San Antonio.

Persons interested in obtaining undergraduate or graduate credit during the coaching workshop may register for the workshop and other WTSU second summer session courses on July 7. Students interested in enrolling only in the workshop may register at the first class meeting.

COOKING CORNER
Use up that leftover holiday ham with this quick and simple recipe for Pineapple Curry Ham. It makes a perfect weeknight supper meal. The recipe calls for a half teaspoon of curry powder, but curry lovers will want to season to taste.

RECIPE

By Sarah Anne Sheridan
Eggplant Casserole

- 1 eggplant.
- 1 c shrimp, fresh or frozen
- 2 medium sized tomatoes
- 2 T butter
- 1 c bread crumbs
- 1 small onion
- 1/2 c chopped celery
- Worcestershire sauce
- Salt and pepper
- 3 eggs

Crushed potato chips

Boil peeled eggplant until done; drain. Chop fine all other ingredients, season with salt, pepper, and Worcestershire sauce to taste. Mix in beaten eggs, add eggplant which has been mashed.

Bake in greased casserole at 400 degrees for 20 minutes. Sprinkle crushed potato chips over the top and brown.

Corn Omelet

- 1/2 c fresh or canned corn
- 1 egg
- 1/4 t salt-pepper
- 2 T cream
- 2 T butter

Add well beaten egg yolk to chopped corn. Add salt, pepper, and cream. Fold in stiffly beaten egg white. Heat omelet pan, and add butter. Pour in corn mixture and cook until set and well browned. Serve at once.

Hightower Says Federal Aid Needed For Drought-Stricken West Texas

AUSTIN—Texas Agriculture Commissioner Jim Hightower has asked Gov. Mark White to seek federal disaster relief for a drought-stricken 27-county area of West Texas that Hightower says is larger than the state of Pennsylvania.

"We've got the makings of a new Dust Bowl out there," Hightower said at a Capitol news conference. "It's an economic and ecological disaster that can no longer be ignored. Overall, the area is in the fourth year of below-normal rainfall, and this year it's powder dry out there.

Winkler County, for example, can count only a half-inch of snow as their precipitation for the last nine months.

"This is no little, isolated problem," he said. "These counties produce agricultural sales of a half-billion dollars in a normal year, and this year they'll do well to recoup half that sum. Even more importantly, the ecology of this area is literally being cooked, eroding all the soil conservation progress they've made in the last few decades.

"The ranchers are having to haul water and feed to their livestock—or they're moving them at great expense or, in

some cases, just selling them off—because there's no grass left on the range. Many farmers can't plant because the ground's too dry, and others are dry-planting with no hope of making a crop simply because the 1981 Farm Bill requires them to plant a crop to qualify for deficiency payment under the price support loan program. They don't want to plant, because they know as soon as they loosen up the soil, it's going to blow away, but they're

desperate—those deficiency payments may be the only income many of them have this year.

"We need to amend the law so those farmers can afford to protect their land," Hightower said. "and the federal government needs to help the ranchers pay for

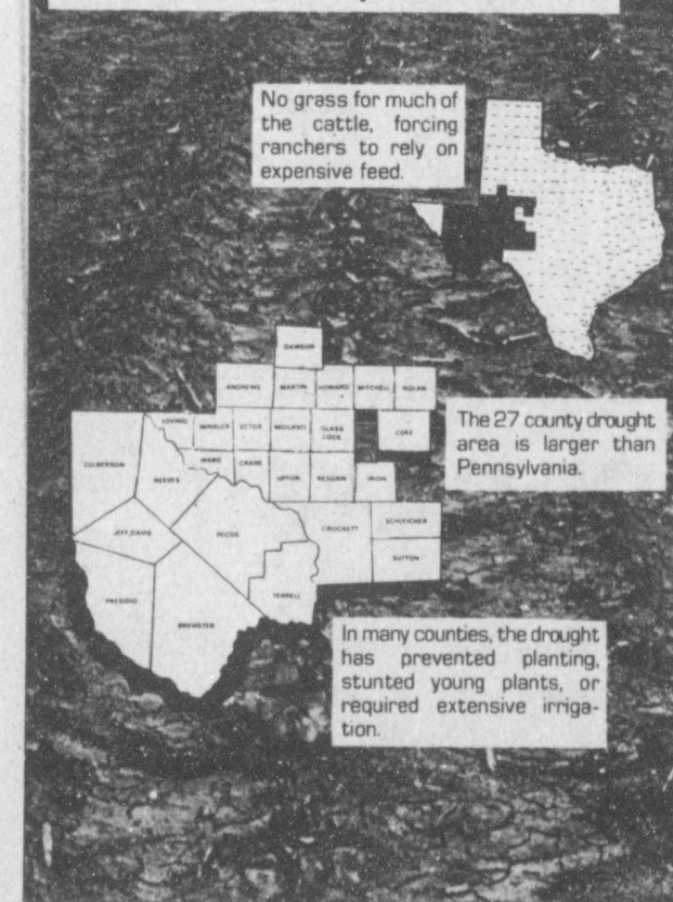

some feed for their cattle and sheep so they can hold onto at least some of their herds until the situation improves. If we don't, a bunch of them are going to go broke, and the damage to the land could take years to repair."

Hightower also said he hopes low-interest Farmers Home Administration and Small Business Administration emergency loans can be made available to farmers and ranchers in the drought area.

The dry counties include Andrews, Brewster, Coke, Crane, Crockett, Culberson, Dawson, Ector, Glasscock, Howard, Irion, Jeff Davis, Loving and Martin Counties. Also included are Midland, Mitchell, Nolan, Pecos, Presidio, Reagan, Reeves, Schleicher, Sutton, Terrell, Upton, Ward and Winkler Counties.

WEST TEXAS DROUGHT

Rainfall declines up to two-thirds

TTI researchers study break-away wooden utility poles

COLLEGE STATION — Transportation researchers with the Texas A&M University System are working to rid the nation's roadways of a menace that most drivers probably never notice — wooden utility poles.

Under a contract with the Federal Highway Administration, Dr. Don Ivey and a team of researchers from the Texas Transportation Institute are developing ways to make the pole break away under impact by vehicles.

"More than 4,000 fatalities per year on our roads, streets and highways involve wooden utility poles," Ivey said. "This project has a potential to gradually reduce traffic fatalities by up to 4 percent in the United States."

TTI is a research agency of the Texas A&M University System.

Death takes no holidays—so watch your driving at all times, especially during your vacation.

Public Notice

Southwestern Bell, in accordance with the rules of the Public Utility Commission of Texas, hereby gives notice of the company's intent to implement a new schedule of telephone rates in Texas, effective August 1, 1983, unless otherwise determined by the Commission.

A complete copy of the new rate schedule is on file with the Texas Public Utility Commission (PUC) at Austin, Texas, and with each affected municipality served by Southwestern Bell, and is available for inspection in each of the company's public business offices in Texas. The Commission staff has contended in the past that all rates are subject to change as a result of Southwestern Bell's rate application.

As a result of the settlement of a lawsuit brought by the U.S. Department of Justice against AT&T, Southwestern Bell, on January 1, 1984, (or as otherwise ordered by the United States District Court) will no longer be a part of the Bell System, but will be owned by public shareholders. Under the terms of the settlement, Southwestern Bell has identified 15 areas in the state within which it may provide service, and the federal court with jurisdiction of the settlement has tentatively approved these areas, called LATAs (Local Access and Transport Area). On or about January 1, 1984, Southwestern Bell can not provide service between these LATAs, and in addition, must transfer to AT&T customer premises equipment that it leases to customers.

Southwestern Bell has filed a proposed revised rate schedule with the PUC reflecting these changes. These rates would become effective August 1, 1983, if they are not suspended by the PUC; however, it is expected that they will be suspended and that the rates ultimately set by the PUC will become effective on or about January 1, 1984. If the rates were to become effective as filed, they would produce a 48.2% increase in Southwestern Bell's unadjusted test year revenues (or a 76.36% increase in Southwestern Bell's test year revenues adjusted to reflect the effect of Southwestern Bell's divestiture from AT&T). Any change in the rates for any interLATA services offered by AT&T or a subsidiary after January 1, 1984, could affect customers of Southwestern Bell Telephone Company.

Notice to Customers of Other Telephone Companies

While Southwestern Bell has proposed no increase in rates for intraLATA interexchange toll services, any change in those rates could also affect customers of other telephone companies. Southwestern Bell is proposing changes in the structure of the present private line and foreign exchange services. Changes in these rates may affect customers of other telephone companies. Any change in the rates for any interLATA services offered by AT&T or a subsidiary after January 1, 1984, could affect customers of other telephone companies.

Dallas Playwright To Head Workshop

Award-winning actress playwright Rose Mary Rumbley of Dallas headlines a list of eight guest writers who will speak during the sixth edition of the Panhandle-Plains Writers Workshop July 14-15 at Wayland Baptist University.

Dr. Rumbley, whose film credits include appearances in "Paper Moon," "McIntosh and T.J.," and "Broken Promise," will speak three times during the two-day event including the Thursday evening banquet. Earlier that day she will address workshop participants on writing for stage and screen, and will bring the closing remarks in the final session Friday afternoon.

An impressive list of panelists has been gathered for this year's workshop, which annually brings together aspiring writers from across the Southwest. Others taking part in the sessions are Mel Marshall of Borger, a veteran of more than 60 years in writing and broadcasting; Rev. John Claypool, co-pastor of Lubbock's Second Baptist Church; Dr. Jerry Craven of Canyon, professor of English at West

Texas State University; Linda Craven of Canyon, freelance writer/photographer; Pauline Lesley Tucker of Melbourne, Arkansas, freelance writer for numerous religious publications; and Carroll Wilson, reporter for KFDD-TV in Amarillo.

Also scheduled to be on hand is Tom Zigel of the "Paw Review" in Austin, who will be available for individual consultation during the workshop.

"We feel we have the finest group of workshop participants this year that we've ever had, and their expertise covers the gamut of writing," said workshop director Arch Mayfield. "We're very fortunate to have them together at one time."

General sessions are on the agenda at the opening of the workshop Thursday morning and at the close Friday afternoon, in addition to the banquet Thursday evening. Concurrent small group sessions, during which time each of the visiting panelists will speak, are on tap in the morning and afternoon both days. The workshop is scheduled to conclude Friday at 4 p.m.

Registration for the workshop is open at a cost of \$40 per person and covers the cost of the banquet. Guests may also attend the banquet at \$6.50 per ticket.

Dormitory space is also available for Thursday night at a cost of \$8 per person, but reservations are needed by July 8.

Writers are encouraged to submit original compositions for the writing competition being held in conjunction with the workshop.

Senior Citizens Tour Planned

Hockley County Senior Citizens Association, Inc. in Levelland, Tx. will sponsor a charter bus tour to the Northwest and Pacific Coast beginning Sept. 19 through Oct. 7, 1983. A deposit of \$200 will hold your reservation until the balance is due on July 20.

The route will be through New Mexico, Colorado, to Salt Lake City, Utah, through Yellowstone National Park, Seattle Washington, ferrying across to Victoria, B.C., Canada and back down the coasts of Washington, Oregon and California, Hwy. 101 to San Francisco and inland to Las Vegas, Nevada, Grand Canyon and Albuquerque, N.M.

Those interested should book reservations as soon as possible to insure space.

The cost is \$895 which covers everything except meals. For more information call 806-894-2228 and ask for Ruth Warren Tour Coordinator, or write to Hockley County Senior Center 1202 Houston Street 79336.

West Plains Medical Center

- ADMITTED**
 June 27-Elva Teague, Juanita Hadley, Francis King, Kent Jackoski and Lucia Varegas
 June 28-Arthur Landers
 June 29-Elva Teague and Betty Johnson
 June 30-Gwenna Gore, Elizabeth Watson and Eddie Beene
- DISMISSED**
 June 27-Shanice Goff and Flois Toten
 June 28-Elva Teague
 June 29-Juanita Hadley, Elizabeth Watson, Bill Pennington, Clarence E. Briscoe and Elva Teague

Competition is open in the categories of fiction, non-fiction and poetry, with a 3,500-word limit in the former two categories and a 50-line maximum in the latter.

Entry fee is \$3 per prose entry and \$2 per poem, with multiple entries accepted. Entries will be submitted to an experienced judge, with a \$20 first prize and \$10 second prize in each category being awarded at the conclusion of the workshop on Friday.

Persons wishing to make reservations or submit writing competition entries should contact Mayfield at Wayland Baptist University, Plainview, Texas 79072-6998, or call (806) 296-5521, extension 283.

Gas Taxes Go Higher, Have Impact

Although inflation has come down markedly in the last year -- and may be held as low as 3.3 percent in 1983 -- a recent report reflecting higher gasoline taxes serves to illustrate its explosive impact.

The public was hit first by higher prices at the gasoline pumps, in this instance, and later on taxpayers will be hit in their pocketbooks.

According to the U.S. Chamber of Commerce, roughly a third of the 0.6 percent rise in consumer prices in April was due to the five-cent-a-gallon increase in gasoline prices which went into effect April 1.

In its analysis, the Chamber found that the tax increase -- and rise in prices -- will raise the cost of federal entitlement programs by an estimated \$500 million a year, as a result of automatic indexing provisions. These major spending programs, including Social Security and federal pensions, are indexed to rise with the rate of inflation, or the increases in the Consumer Price Index (CPI).

Thus, the ripple effect of the gasoline tax increase led to higher inflation, higher government expenditures and to a higher deficit. The higher deficit, in turn, has resulted in persistent calls in Congress for even higher taxes to lower the deficit.

LUBBOCK, Friday, June 24, 1983

Without a sudden and drastic change in the rainfall patterns over southern portions of the High Plains, cotton producers in that area, by the futile stirring of dry soil with planters, will soon have almost ideally prepared their lands for hundreds of tons of unnecessary topsoil losses, according to Donald Johnson, Executive Vice President of Lubbock-based Plains Cotton Growers, Inc.

"If I didn't know better," Johnson says, "I'd think they were crazy." But the truth is, he adds, "they have no choice. They are being forced to plant by a few innocent-looking words in the 1981 farm law."

The words, stuck between parentheses in the middle of a sentence specifying the acreage on which target price deficiency payments are to be made, are "but in no event on a greater acreage than the acreage actually planted to cotton for harvest."

Therefore producers, even those without hopes of getting a stand, must either plant or lose eligibility for deficiency payments that in the absence of production will constitute their only source of income from acreage on which they intended to produce a crop in 1983.

Deficiency payments will be made at a per-pound rate equal to the difference between the 76-cent target price and the actual price paid to all farmers for all U. S. cotton in the 1983 calendar year.

The maximum payment for this year is 21 cents per pound, the difference between the 55-cent loan rate and the target price. Recent market movement, however, indicates the probability of a payment somewhat less than the maximum.

But producers, already in financial straits, cannot afford to risk losing eligibility for whatever payment is due, even when it may mean the depletion of precious topsoil and wasteful expenditures for planting seed, fuel and labor.

"This planting requirement is an inequity we are trying to get corrected for future years," Johnson says, "along with a similar requirement that applies to Federal crop insurance."

Soil conservation records indicate that under good conservation practices annual soil movement may be from 15 to 20 tons per acre while poor soil management, of which the stirring of dry soil is a glaring example, raises the potential loss to 60 tons per acre or more, depending on soil type.

And almost all of the drought-stricken area, covering an estimated 500,000 acres, is of the sandier soil types most susceptible to wind erosion.

The cost of the farm program would not be increased by removing the planting requirement, PCG is pointing out to legislators and USDA officials, since producers will continue to do whatever is necessary to retain payment eligibility.

Scientists manipulate crop plants to produce own nitrogen

COLLEGE STATION — Soil and crop scientists at Texas A&M University are investigating methods of stimulating bacteria living among plant roots to supply extra nitrogen in soil and ultimately reduce the farmer's need for costly fertilizers.

Dr. David Zuberer of Texas A&M's College of Agriculture and other researchers here are

exploring a biological process that may eventually allow food crops such as corn and wheat to produce more of their own nitrogen. Such research could one day save the natural gas needed to produce fertilizer, Zuberer said.

"Nitrogen is the plant nutrient required in greatest quantity and it is lacking in the soil of many Third World nations that can't afford fertilizer."

Save Energy On Appliances

As the summer heats up, utility bills start inching toward their peak. Now is the time for consumers to focus on energy thriftiness to save money on those bills, says Bonnie Piernot, a home economist with the Texas Agricultural Extension Service, Texas A&M University System.

Although the "energy crisis" is behind us, says Piernot, residential energy use will not be getting any cheaper.

The Data Resource Energy Forecasting Service Inc., estimates that residential electric rates will rise an average of seven percent in the next year.

Careful use and purchase of household appliances can help consumers cope with increases.

According to Piernot, a family resource management specialist, work habits of the cook have a major influence on the energy use for food preparation. Research shows that energy usage varies by as much as 50 percent among people doing identical meal preparation tasks with the same kitchen range.

With surface units on an electric range, for instance, about 70 percent of the heat produced goes into the food if the utensil fits the unit properly. Ten percent of the energy goes to heat the element, and the remaining 20 percent is lost to room air.

But additional losses of energy will occur if the utensils are too small to cover the heated area of the element, notes the home economist.

Heat settings also affect energy consumption on an electric range. For example, you can bring a pot of potatoes to a quick boil on a 6 inch unit at the high setting. Once boiling has begun, the cooking temperature could be maintained at a low setting for about 20 minutes. But if medium-low heat is used instead, 100 percent more energy will be used than is actually needed.

Even the use of a utensil with a fitted cover when cooking with water is an energy-saver. The lid prevents the loss of heat from the pan by evaporation. Six times more energy is required to change water to steam than to bring it to a boil.

In addition, small amounts of cooking liquid in a covered pan will shorten cooking time, improve uniformity of cooking and conserve nutrients and

flavor, states the specialist. Consumers can also avoid heavy usage of high wattage electric equipment such as dishwashers and washing machines at times of the day when the demand for power is highest, since utility companies may charge more for power during these peak times.

So use of appliances at night when air conditioning use is reduced can produce energy savings.

Many consumers believe that replacing their old appliances with more energy-efficient appliances will reduce utility bills. "Although their direct utility costs may go down, the purchase itself may not be especially cost-effective," states Piernot.

There is little point in buying a new cooking appliance simply because it promises energy thriftiness, she says, since the purchase price might not be worked off for years. For example, it would take 13 1/2 years to earn back the cost of a \$500 microwave oven that reduced your electric bill by a maximum of \$27 annually.

Unless consumers must replace old equipment that is in poor condition, they would be better off concentrating on the efficient use of what they presently own, suggests Piernot.

Texas A&M receives over \$2.7 million from former students

COLLEGE STATION — A record \$2.7 million was given to Texas A&M University by its Association of Former Students last year in annual fund gifts from more than 30,000 contributors, announced Jack G. Fritts, who headed the Texas A&M alumni association in 1982.

Fritts said unrestricted funds totaling \$2,620,000 represent a new all-time record for giving through the alumni organization. The remaining \$123,267 was restricted to specific Texas A&M programs and wishes of the donors, he explained.

"Texas A&M is the envy of my colleagues throughout the nation and it is precisely for this reason," said University President Dr. Frank E. Vandiver. "The substantial support of our former students enables us to become involved in projects that other institutions only dream about. It is this support that has always placed Texas A&M a cut above the rest." Texas A&M's 110,000 member alumni association has in recent years ranked among the leaders nationally in both per-capita and total giving.

CAPITOL UPDATE

John Tower
 U.S. SENATOR FOR TEXAS
 WASHINGTON, D.C. 20510

As the task of defending our national security has grown in complexity during the years since World War II, so has the Department of Defense. During both Republican and Democratic Administrations, its size and the complexity of its bureaucracy have grown dramatically. A number of issues have been raised repeatedly in recent years that make it necessary for us to question whether changes need to be made to improve the decision-making process.

The Senate Armed Services Committee, on which I serve as chairman, soon will begin a comprehensive study into these issues.

We will examine the organization of the Office of the Secretary of Defense to determine whether decisionmaking has become overcentralized, staffs are too large, duplicative work is being done or military judgment and innovation are being stifled.

Secondly, we will look at the organization of the Joint Chiefs of Staff to see if it is organized in such a way as to be effective in performing its missions.

Additionally, we will look at the way in which the unified military commands function to see if interservice cooperation and planning are adequate. We also are interested in examining the way in which decisions are made in areas such as budget formulation, procurement of weapons systems and testing and evaluation of these systems. I am concerned about the amount of time these decisions take, with the process often stretching into years between the time a need is identified and the time a system to meet the need is operational.

Finally, the Committee intends to examine the relationship between the Department of Defense and other parts of the federal government which become involved in national security planning, such as the National Security Council, the State Department and the Central Intelligence Agency, to see if the structure lends itself to formulation of a comprehensive national security strategy.

Let me emphasize that in beginning this inquiry I am not criticizing Secretary of Defense Casper Weinberger. In fact, I believe Secretary Weinberger has done an outstanding job considering the bureaucracy he inherited.

Further, I suspect that any weaknesses we may find in the Department of Defense organization also exist in other federal agencies, but as Chairman of the Armed Services Committee, my responsibilities lie in looking into the Department of Defense.

I plan for the committee to hear from a large number of witnesses who currently hold government office as well as many persons who have previously served in government or are otherwise knowledgeable about this subject.

It is essential that we determine what, if any, problems in the organization and structure of the Department of Defense keep the decision-making process from operating as smoothly as it could. Failure to do this leaves us with the possibility of incurring unnecessary costs or being unable to respond quickly to a potential crisis.

Registration Urged For New Tire Buyers

A tire safety group today reminded new tire buyers to make sure that a registration form is filled out when they buy replacement tires so they can be contacted in event of a recall. "The manufacturer can't get in touch with you directly unless he has your name and address on file,"

The Muleshoe Church of Christ came to sing to the residents Sun. afternoon.

Sharon Williams came for a Devotional Thurs. morning. Glenda Jenning and Jackie Johnson of Laz-buddie came for our weekly Sing-A-Long Wed. The Hospital and Nursing Home Aux. came Tues. to fix our ladies hair. J.C. Shanks came Sat. to cut our men's hair and give the shaves. E.B. Wilson came for Bible Study Sun. morning.

Ethel Whisenhunt was visited by her daughter in law Lucy Wed. She received a new dress for her birthday from her son in Amarillo.

Abraham Garcia was visited by his family Wed.

Cleo Bellar went out with her family Wed. morning.

Alma Henley was visited by her daughter and son in law, Cleo and Stanley Wed.

Cordelia Cochran was visited by Marilyn Wilson, Jewel Strong. Jewel brought her a beautiful bouquet of flowers out of her yard.

Ethel Askew's sisters were here visiting with her Tues. Mr. McCormick and Jewel Strong also visited her.

Effie Smith spent the weekend in Clovis with Dorothy Joyner. Her friends from Sundown visited her Mon.

Mon. Cordelia Cochran, Ruby McCamish, Alma Henley, Clara Rickert, Cleo Bellar attended the Sr. Citizens luncheon at the Methodist Church. Our thanks to Helen Free for helping us.

Marie Engram was visited by Mrs. E.E. Holland, Maud Kersey, Wilma Waddle, Bethaline Harper, Jerry Hutton, Sonia Florace.

Aunt Dot Wilterding was brought to the Sing-A-Long Wed. by Mr. and Mrs. D. B. Head.

Jerry Muggett was visited by his son Wiley, Wed.

Annie Dunn was taken to her daughters Benny Weidebush for lunch Wed. by Josie Flowers. They brought back Barbara Case a nice plate of food for her lunch.

Among those visiting the Nursing Home this week were, Marilyn Wilson, Jerry Hutton, Mr. and Mrs. Odom, Maud Kersey.

Edith Bruns had friends visiting her Wed. from Muleshoe.

said Donald G. Brotzman, Chairman of the Tire Industry Safety Council. "While a recall is not likely, it is important to make sure your tires are properly registered just in case."

Brotzman issued the reminder as a new voluntary tire registration form for independent tire dealers proposed by the National Highway Traffic Safety Administration became effective June 20, 1983.

Under a recent change in federal law, independent tire dealers and distributors are no longer required to register tires for you. They are only required to give you a registration form containing the tire identification number from the sidewall of the tire.

It is up to the customer to complete that form, by simply writing in his own name and address, and then mail it back to the tire manufacturer with a first class stamp on it.

Tire outlets owned by manufacturers and certain brand name marketers must continue to fill out the registration form for customers and return them to the manufacturer as in earlier years.

The new law requires manufacturers to provide independent dealers with the new standardized form established by NHTSA.

The tire identification number is a group of letters and numbers molded on the sidewall of each tire in accordance with regulations of the U.S. Department of Transportation. It identifies the plant in which the tire was made and the week and year of manufacture.

The National Traffic and Motor Vehicle Safety Act provides for replacement of tires recalled because of safety defects or non-compliance with government regulations. The replacement is at no charge if the owner returns the tire within 60 days of notification by the manufacturer.

Local Man's Sister Dies At Seminole

Services for Jo Hazel Loveless, 85, of Seminole were held at 3 p.m. Friday, July 1 in the First Christian Church of Seminole with Don and Buster Crossland officiating.

Interment was in the Seminole Cemetery under the direction of Singleton Funeral Home of Seminole. Mrs. Loveless died at 8:45 a.m. Thursday in Memorial Hospital in Seminole following a lengthy illness.

A native of Dublin, Mrs. Loveless has been a Seminole resident for five years, moving there from Fort Worth. She married William Hudson Loveless Nov. 23, 1915 in Stephenville. She had been a church pianist for many years before moving to Seminole.

Survivors include one daughter, Dorothy Crossland of Seminole; two sons, Royce of Lubbock and Erwin of Laguna Beach, Calif.; one sister, Pearl Smith of Lubbock; one brother, Bill Lancaster of Muleshoe; eight grandchildren; 24 great grandchildren; and 10 great great grandchildren.

Winner Of Stamps This Week.

Senator Bill Sarpalius Reports

SPECIAL SESSION

AUSTIN - The Governor has called lawmakers back to Austin for a special session. The purpose of the special session is to decide the future of the Texas Employment Commission, to act on a statewide brucellosis control program and to consider appropriations for Texas Southern University.

The TEC is an agency which gives out unemployment benefits and finds work for the jobless. More than one hundred men and women are employed on a permanent basis by the TEC in the Amarillo area alone. Lawmakers must pass a bill extending the life of the program for another 12 years, or the agency will be phased out of existence this fall.

The TEC bill failed to pass during the regular session because some legislators opposed a Senate amendment which would have created a human rights commission within the Texas Employment Commission.

The TEC must be renewed under the state's sunset review process.

Another critical issue which must be resolved during the special session deals with the problem of brucellosis.

Brucellosis is a contagious bacterial disease found in livestock. The disease causes abortions, reduced or delayed calving and weak calves. In humans, brucellosis can cause undulant fever which is an intermittent fever accompanied by an infection.

Federal officials have threatened a quarantine on the Texas cattle industry because our state presently has no valid statewide brucellosis control program, and is therefore in violation of federal disease control standards.

An updated statewide brucellosis control program was introduced during the regular session; however, not enough legislators were in favor of the program and it was defeated. We believe that the lawmakers who opposed the program and who ignored the threat of a quarantine have had time to further analyze the situation. We're confident those legislators will agree to an acceptable program to control the highly contagious disease.

The Texas cattle industry will lose millions of dollars if a statewide plan is not adopted, and if a federal quarantine is imposed.

Although ranchers in West Texas don't have the problems associated with brucellosis to the degree ranchers experience in other parts of the state, West Texas ranchers would be badly affected by a quarantine. A quarantine would threaten the industry in our area because we have a large movement of cattle across state lines.

The Governor has also included on the special session agenda an appropriations measure for Texas Southern University. The Governor believes lawmakers should approve appropriations for the University which will provide for a new library and gymnasium.

Although only three items have been placed on the agenda for the special session, other issues could surface. The Governor has

the power to add to the agenda once the lawmakers are in session. The session which began June 22nd is expected to last approximately two weeks. Under the Texas Constitution the special session cannot exceed 30 days.

If you have any comments about the special session agenda items, please let us know by writing Senator Bill Sarpalius, P.O. Box 12068, Austin, Texas 78711.

SOCIAL SECURITY

Many farmers in the South Plains area are apparently confused as to how the 1983 Payment-in-Kind (PIK) program relates to Social Security.

Under the PIK program, a farmer agrees to set aside part or all of his land previously used to produce a crop in exchange for receiving surplus Federal commodities of the same crop at the usual harvest time. Commodities involved are wheat, corn, grain, sorghum, rice and upland cotton.

In general, payments under the PIK program are treated the same as other Federal agricultural programs payments. They are included in the farmer's gross income. Since the PIK payments are in the form of certificates of ownership, they are not includable in gross income for 1983 until they are converted to cash for purposes of Federal Income tax and the Social Security self-employment tax.

How the PIK payments affect receipt of Social Security benefits depends on when the farmer became entitled to those benefits.

If the farmer started getting Social Security benefits before 1983, PIK income can be excluded from gross income for purposes of the annual earnings test because it is income not attributable to significant services performed after the year in which benefits began. In this case, PIK income would have no effect on the receipt of Social Security benefits.

However, if the farmer starts getting Social Security benefits in 1983, PIK income is included in the farmer's net earnings for purposes of the annual earnings test. But in this first year of retirement, a self-employed person can receive a benefit for any month he or she does not perform substantial services in self-employment regardless of total income for the year. Generally, a farmer is not considered to be engaging in substantial services if he or she works 45 hours or less a month in the farming operation.

More information about how income under the PIK Program affects Social Security benefits can be obtained in the Lubbock Social Security office, located at 1611-10th. Street, Lubbock, Texas 79401. The telephone number is 743-7381.
