Kitty's Korner

By Kitty Montgomery

Everytime I get something from a wholesale house and find it's been packed so badly half the stuff is broken or bent, or order a file cabinet and it looks like somebody dropped it on its top out of a ten-story window. I envy the old boy in this story.

One large wholesale house had a customer in a small town who received a shipment of goods and rejected it as unsatisfactory.

The wholesale concern prepared to institute suit for collection, and wrote the railroad agent at the village for information concerning financial condition of their customer, to the mayor of the city asking him to recommend a good lawyer to handle their case; and to the merchant himself, threatening suit if he did not make payment at once. He replied:

"I received your letter telling me I had better pay up."

"I am the railroad agent here and received the letter you wrote about the shipment."

"I am the president and sole owner of the local bank and can assure you as to my financial standing."

"As the mayor of the city, I hesitate to refer you to a lawyer, since I am the only member of the bar in this vicinity."

"If I were not the pastor of the only church here, I would tell you to go to hell!"

Had a note from Lena Word, a transplanted Texan who lives in Colorado, this week. She said as she drove to town that morning she saw an Olds 98 parked in front of a grocery store with Colorado license plates and a bumper sticker which read "I'll Take Texas." Said she wished she had one.

I saw a clever bumper sticker on a new Ford at the post office the other day. It said "Upon making the 36th payment, this car will immediately self-destruct."

The Lions really put it on Sonora Friday night, and I think everybody in town is still excited about it. Year before last, I went through all the old papers and for 30 years, Sonora held a decided edge over the Lions, especially the past ten years or so. Perhaps the worm is going to turn in our favor for the next ten.

My other team, The Dallas Cowboys, played just about as bad as the Lions played well. They ruined my entire Sunday afternoon and I think they should be investigated by Ralph Nader. A team couldn't possibly do all those things unless they were trying to lose a game.

THE LIONS MANAGED TO INVADE SONORA BRONCO territory numerous times last Friday night as they pulled a 21-8 upset over the top rated Class A ball club. Here quarterback David Sewell gets plenty of help as he heads for the Sonora end zone. The last

time Sonora suffered defeat was on this same field two years ago and also at the hands of the Ozona Lions. The Broncos went on to win the state championship while the Lions captured their big-district championship. (Don Ingram Photo)

Conservation Dist. To Elect Director Tue.

Qualified voters of subdivision 4 of the Crockett County Soil and Water Conservation District will meet in the S. C. S. office Tuesday, October

Montgomery Gro. Sold To Loudamys

Mr. and Mrs. Tom Loudamy have purchased Montgomery's Grocery Store located across the bridge from downtown Ozona on Hwy 290.

Mr. and Mrs. Tom and Loretta Loudamy will work together in the store, she at the register and he will be behind the meat counter.

They took over the store and opened Monday. Mr. and Mrs. Carl Montgomery, who have owned and operated the store for the past 27 years have retired from the grocery business.

Before purchasing the Montgomery store, Tom worked with his father, Bud Loudamy, at the former B & B Grocery in downtown Ozona. He was there for 17 years, and worked about a month with Jack Ferguson, the new owner, after he purchased B & B several weeks ago and changed the name to Jack's Super Market.

10 at 7:30 p. m. to elect one member to serve on the Board of Directors. The member must be qualified by owning land in the subdivision.

Subdivision #4 consists of all lands in Crockett County lying west of the Ozona-Cornstock road (Divide Route) or Johnson Creek and south of U. S. Highway 290 and east of county road following Howard Creek to the Val Verde county line.

To be eligible to vote in a Soil and Water Conservation District Director's election, a person must own agricultural land within the subdivision where the election is being held, must live in a county, all or part of which is in the Soil and Water Conservation District. The voter must have attained the age of 21 years. No poll tax is required. Under the community property laws of Texas the wife of a landowner also owns land and is entitled to vote and hold office.

Soil and Water Conservation District Directors serve a term of five years, the term beginning the day after he is elected. State law requires that a Soil and Water Conservation District Director take an oath of office and execute a loyalty oath before he is officially a Director.

Mrs. Bill Taylor Dies Here Sunday Services Monday

Funeral services for Mrs. (Jewell Estelle) Taylor, 57, were held at 2:00 p. m. in the Ozona Church of Christ Monday with burial in Cedar Hill Cemetery under the direction of James Funeral Home.

Mrs. Taylor died at 5 a. m. Sunday in Crockett County Hospital. She had been in ill health for several years. She was born Dec. 30, 1914 in Jacksboro and was married September 24, 1934 to Bill Taylor in Wichita Falls. She had lived in Ozona since 1933.

Survivors include her husband, a son, Donald Taylor of Dallas; her father, Joe Webb of Amarillo; a brother, Richard Webb of Augusta, Ga., and two grandsons.

Services Monday For Former Ozona Resident

Funeral services for Roland Allard, 53, former Ozonan, were held in Sweetwater Monday afternoon.

Mr. Allard died Saturday afternoon in a Fort Worth Hospital after suffering an apparent heart attack.

Mr. Allard was an employee of a lumber company when he lived in Ozona. His wife was a teacher in Ozona High School. Survivors include his wife, a son and a daughter, plus several brothers and sisters.

Lion JV Downed By Big Lake, Cubs Win 1, Tie 1 With Humble Oil

C. M. (Slim) Cunningham, a former Ozonan and a graduate of Ozona High School, has observed his 20 year service anniversary with Humble Oil & Refining Company. Mr. Cunningham is assigned as a senior administrator in the General Accounting Section, Midcontinent Production Division in Midland, Texas.

In 1952 Cunningham joined the Humble Company as a roost about in the Drilling Group at Ft. Stockton.

Cunningham and his wife, the former Daphne Palmer, are the parents of a son, Kenneth Ray, and a daughter, Rhonda.

Mrs. Stephen Perner returned to her home here last weekend from Friendswood, where she had been visiting her son and his family, the Chris Perners,

Ozona Lions Smash Top Rated Sonora In Stunning 21-8 Upset

The Ozona Lions waxed the Sonora Broncos 21-8 in their first out of town game last Friday night.

Although the Broncos were rated number 1 in state in Class A football polls, and were picked to win by most area sports writers, Ozona fans didn't see it that way and neither did the Lions.

It was the first defeat for the Sonora crew since the 1970 Lions beat the Broncos on their own home field, and to most Ozona fans the season can be counted a success regardless of what comes afterward.

The Lions were impressive even in the scoreless first quarter, and managed to rack up lots of yards against the Bronco defenders.

Exploding in the second quarter, the Lions got on the scoreboard for 14 points while holding Sonora scoreless. The second quarter saw the Lions move from their own 45 yard line in six plays to score. Ru-

ben Tambunga broke loose from the 20 for the first score of the night and David Sewell's toe was good for the extra point.

The Lions dominated the ground game with running backs Tambunga, Gerald Huff and Sewell making impressive gains. The Lions rushed for 225 yards against the Broncos and Huff emerged as the leading ground gainer with 100 yards to his credit. He also caught the only Lion pass of the night tossed from Sewell. The play was good for 44 yards and set up the final Lion score.

The Lions defense proved a powerhouse and was headed up by Gary Don Whitley, Gary Mitchell, Randy Crawford, George Gries, Freddy Vela and Tambunga. The Lions' offensive deserves a bit of the credit also, opening up the Sonora line for the big gain by the running backs.

The Lions second score saw Sewell getting the honors from five yards out. The big play in the drive was a 31 yard run by Huff on a double reverse. Sewell hit the uprights with 40 seconds to go in the first half, and the Lions led a commanding 14-0 lead going into the dressing room.

The third quarter was scoreless, but Sewell scored on a keeper from 30 yards out in the fourth and converted, to give the Lions a 21-0 lead.

Sonora's only score of the night came in the middle of the fourth quarter when a 63 yard drive was capped with a one-yard sneak by quarterback Mark Rousselot. Hit toss

to Mata in the end zone for two points was good and that accounted for Sonora's eight points.

Potent linebacker Gary Mitchell was injured late in the second half and had to leave the field. This was also a contributing factor to the Sonora score. Mitchell suffered a knee injury and will be out for the next game or two.

Bond Sales In County 33% Of The 1972 Goal

United States Savings Bond sales in Crockett County during the month of August totaled \$1,189, according to County Bond Chairman Lowell Littleton. Sales for the eight-month period were \$9,887 for 33% of the 1972 goal of \$30,000.

Texas sales during the month amounted to \$17,819, -733, while the January-August sales totaled \$142,833,527 for 72% of the 1972 goal of \$197,5 million.

POW! BOTH ARMS GET SHOT AT ONCE. However, the unidentified school-age youngster seems pretty brave about the whole thing as the final immunization clinic was held Monday at Ozona Primary School. The two doctors are from the Texas State Health Department, Mrs. Richard Vargas, a member of the Study and Action Club which sponsored the clinics, is assisting in the background. Hundreds of children received their final series of shots Monday and there will be no need to set up immunization clinics again in Ozona until next summer. (Don Ingram Photo)

Crockett County Gains Producers And Location Set

The Midway Lane multipay field of Crockett County gained its fifth Ellenburger gas producer and a 1/2 mile northwest extension to that pay with recompletion of Coquina Oil Corp., Midland, No. 1-62 University, a former oil producer, 15 miles north of Ozona.

It was finalized for a calculated, absolute open flow of 5 million cubic feet of gas per day, with gas-liquid ratio of 108,500-1. Gravity of the liquid was 57 degrees.

Production was natural through perforations at 7,340-80 feet ground elevation is 2,656 feet.

Original completion was in 1948 by Sinclair Prairie Oil Co., now Atlantic Richfield Co., It was temporarily abandoned in 1960.

Location is 660 feet from the south and 1,980 feet from the east lines of 21-46-University. The Ozona multipay oil (Continued on last page)

DOOM PURVEYORS DEBUNKED

Since awareness of our surroundings became widespread in the 1960s, people have looked hopefully forward to an overpopulated, polluted and starving world. While their concern is to be applauded, the threat to the earth is exaggerated.

The DDT furor is a good example. It was thought that banning this insecticide would purify the earth. DDT, however, was effective against insects that spread malaria and destroyed crops.

Now, with DDT spraying prohibited, people no longer have to fear chemical poisoning, just disease and starvation. A United Nations food report recently stated that this is happening in backward parts of the globe.

More people and less food is another concern. Food scarcity, too, is exaggerated. Millions of acres lie unused in Brazil, Ethiopia and elsewhere. The U.S. has to worry about surpluses, not shortages.

Research has developed new strains of wheat that greatly increase yields. A century ago, it took 50 hours of work to produce one acre of corn. Today, mechanized farming can do it in two hours.

Pollution and population fears are likewise overstated. There has been no change in the atmosphere's oxygen content for a half-century. Some noxious gases, such as sulphur dioxide, have actually declined.

Charging that the United States will be overpopulated by the year 2000 is a little silly. If the present birth rate continues to decline, we will be underpopulated by the year 4000.

Today's doomsayers are rather like those who doubted Columbus, pessimists whose only joy is spreading their anxiety.

CULTURE AND THE COMMON MAN

Surely no one would deny that Washington, D.C., our nation's capital and show place, should have a center for arts and culture. That was the thought behind the magnificent Kennedy Culture Center. The marble structure rivals any in Europe. Patrons of the performing arts attend functions in elegant surroundings.

Almost a decade ago, a privately financed center was proposed. When private donations failed to yield enough money, the government took over. Reaction to the building's \$50 million price tag was fairly mild. After all, we had to show off our civilization and make it available to the American public. But if the center continues present operations, hefty infusions of Federal funds will be necessary to prevent bankruptcy. And this was originally a voluntary project.

What have Americans gotten for their money? Well, the average working man can get a chateaubriand dinner for two at \$20; caviar, roast wild boar or silk-covered matchbooks. French hamburgers are also on the menu; American ones are so unfashionable, you know.

Clearly, the Kennedy Culture Center is not designed for the people who paid for it. The center has soaked the taxpayer for huge amounts and given him little in return. With spending policies, the center is soaking him more and giving him even less.

Highlights and Sidelights From Your State Capital

By Bill Boykin
Texas Press Association

Senate rejection of Secretary of State Bob Bullock to the State Insurance Board amid the special session's bitterest infighting opened new speculation as to who may get the job.

Sources close to Gov. Preston Smith appeared to be deliberately encouraging rumors that former U. S. Sen. Ralph W. Yarborough would be the Governor's next choice for the Insurance Board.

Yarborough himself said he had never been offered the post by the Governor or even felt out on his availability by intermediaries. AFL-CIO President Roy Evans and State Sen. Oscar Mauzy formally urged Smith to designate Yarborough, and Mauzy predicted the former senator could get state senate confirmation where Bullock and Larry Teaver failed.

Would he take the job if offered? Said Yarborough: "That's entirely too 'iffy' a question."

Senators voted 19-11 (with one abstaining) for the Bullock confirmation. Eleven opposition votes can block any appointment.

Bullock promptly blamed Lt. Gov. Ben Barnes and the insurance industry lobby for his defeat.

Smith chastised the Senate, charging the body "apparently will not permit a person who is committed to protection of the insurance consumer serve on the State Board of Insurance."

Bullock foes claimed the Governor had used some persuasive tactics of his own, dangling the prospect of submitting pet home district projects to the Legislature for senators who would support Bullock.

The Secretary of State said he now intends to remain in his present job through the Smith administration.

Session success doubted--some legislators are doubting if the special legislative session really is going to come up with a competitive rating bill, the subject Smith called them to work on.

Senator Mauzy of Dallas, one of the bill sponsors in the Senate, says he doesn't think a competitive rate bill can be agreed on because of House opposition. Mauzy charged the House committee bearing the rate measure is lobby dominated.

Conflicting testimony was heard on advantages vs. disadvantages of free competition in rating during week-long testimony by out-of-state experts.

At the end of the period, Lt. Gov. Ben Barnes acknowledged:

"I have never been so much in the dark on legislation. People want to vote for a bill, but proponents have not done a good enough job convincing people competitive rates would be beneficial."

Agenda broadened--a special session that started off confined to insurance and broadening the governor's fiscal powers has three times been expanded.

Smith earlier submitted trailer-brake-light exemptions, school disannexation, exempting aviation schools from the proprietary school act, and reimbursement of medical schools for \$13.5 million in funds "borrowed" to avert a 1970 welfare crisis.

Washington News Letter

By Congressman O. C. Fisher

The heavy hand of Federal control over one's business operations is being felt as a result of a new law known as Occupational Safety and Health Act (OSHA), which went into effect 9th April of 1971.

Under this law every business, large and small, and every farm, must comply with a vast number of federally-imposed standards, including some that are utterly ridiculous. For example, an Atlanta firm was fined by an OSHA inspector for having ice in ice water. Another regulation requires split toilet seats rather than round toilet seats, two bath facilities in each business where men and women are employed, including the mom and pop establishments.

Stairways, electric connections, and practically every component of a building, must conform with a new standard imposed from Washington. Many small businesses have already been fined by inspector. In view of the hundreds of regulations that could apply, it would take a Philadelphia lawyer to determine whether one is in compliance.

Thousands of small businessmen are affected, all subject to penalties if an OSHA inspector should happen to drop in. In that event the government man becomes the investigator, the policeman, and the judge--and fines can range into the thousands of dollars.

It happens that I was one of those who voted against the enactment of this law in 1970. Texas has its own safety and health laws, and they meet all reasonable safety standards. Last December I introduced H. R. 12068, to amend OSHA by exempting all businesses with 25 or fewer employees and exempting all non-manufacturing firms--in those States which have safety and health laws.

Recently we were able to obtain approval of a rider to an appropriation bill which denies any funds for inspections by

OSHA of small businesses with 25 or fewer workers. The Senate changed the figure to 15. Final action has not yet been taken.

Tips for Gardeners

From the Ozona Garden Club By Mrs. Bailey Post

With October's cool nights and bright crisp days you know autumn has arrived. Too, with the soil still warm from summer you will find this the ideal time for gardening activities.

To be ready for peony tubers which will arrive soon, holes should be prepared in advance of planting time. When selecting the location, remember peonies are forever, are almost forever, as they may never need to be transplanted.

Set the clump (right side up) so that the uppermost pink bud is exactly two inches below the ground level. Peonies won't bloom if planted too deep, so measure carefully.

Compost recipe - There are many things suitable for compost such as leaves free of disease or insects, grass, tender hedge clippings, fruit peels, vegetable waste, certain kinds of weeds, cleanings from barnyards, hay and other materials.

FOR SALE: Three bedroom two bath split-level house made from rice.

Sound weird? For Americans - yes... but in the Orient and South Pacific, rice was once used to build homes. Today, Rice is still worn as a cosmetic, drunk as a wine or beer and treasured as a medicine in many Far East countries.

However, if you are planning on building a house with rice, this might be the month to start construction. The U. S. Department of Agriculture's Agricultural Marketing Service reports rice production this year is estimated at 85,888,000 hundredweight.

Cattle Raisers Air Problems And Solutions

Texas ranchers, besieged by outbreaks of screwworms, fire ants, fever ticks and scabies, met in Midland, Texas Sept. 22-23, at the quarterly directors meeting of the Texas and Southwestern Cattle Raisers Association (TSCRA) to discuss their plight and work toward solutions.

The meeting, attended by several hundred ranchers across Texas, listened to health experts from the Texas Animal Health Commission and the U. S. Department of Agriculture explain what actions as individuals and as an association they could take to stem the costly tide of diseases sweeping the cattle industry.

William C. Donnell, TSCRA president from Marathon, presided over the general session Sept. 23, and along with Don C. King, TSCRA secretary-general manager, reported upon association activities.

Giving committee and special reports to the assembly during the general session were TSCRA First Vice-President H. I. Moore, John Armstrong, R. E. Samuel Jr., Gardner Duncan, Gage Holland, John Matthews, John Cargile, Billie B. Davis, Tobin Armstrong, and Fred Wolff, Chairman of the National Live Stock Tax Committee.

State Rep. Joe Hubenek of Rosenberg presented a graphic report on the imported fire ant epidemic now plaguing the Texas Gulf Coast.

The screwworm outbreak, so bad this year that it has gained national attention, was reviewed by John Armstrong, chairman of the animal health committee. Armstrong told the cattlemen that USDA Assistant Secretary Richard E. Lying personally assured him that some \$2 million in additional funds will be made available so that the Screwworm Eradication Project at Mission, Texas, can continue to operate. The Mission plant was forced to cutback production of sterile flies earlier this year due to limited funds.

The cattlemen were also told that the TAHC, with help from the USDA, will be dipping more than 100,000 head of cattle a week at the height of the shipping season, in order to control the scabies problem. A large area in the Texas Panhandle is now under a quarantine restricting cattle movements because of the scabies infestations.

Regarding brucellosis, the ranchers were told that Texas is on the verge of becoming "modified-certified." In order to achieve certified free sta-

tus, all cattle that are shipped from the state must be tested brucellosis-free for one year. Adjacent states are now working toward this "certified-free" status, indicating an infection rate of less than 1/10 of one per cent.

With mixed emotions the directors heard that while experts feel the Texas fever tick outbreak, which brought a quarantine in four South Texas counties, is under control, they can expect the quarantine to be in effect from two to five years. Tick-infested cattle have been traced to far away as California.

4-H Club Plans Halloween Party

The Cloverleaf 4-H club met Monday night, October 2, to discuss plans for the Halloween party. The meeting was held at the home of adult leader, Mrs. Tom Mitchell. Hunt Is Allowed On State Lands For '72

Over 2,000 deer, turkey and quail hunters will have a chance to hunt on the Texas Parks and Wildlife Department's wildlife management areas this year.

Prospective hunters have until 5 p.m. Oct. 24, to return completed public hunt application forms to the department's Austin offices.

A public drawing will be held at 10 a.m. Oct. 27 in the John H. Reagan Building, Austin.

The permits will be necessary to hunt quail, deer and turkey on the Gene Howe Area; quail on the Matador Area; deer on the Kerr, Sierra Diablo,

Engeling and Stephen F. Austin Areas; and deer and Javelina on the Chaparral Area.

Quail may be hunted on the Chaparral and Black Gap Areas by simply checking in at the area headquarters on the days of the hunts.

The Black Gap Area will be open to quail hunting Nov. 15-22 and the Chaparral will be open Nov. 18-19, Dec. 2-3, 1972, Jan. 6-7 and Feb. 27-28, 1973.

Hunters whose names were drawn last year will not be eligible this year unless permit quotas go unfilled.

One of the last year's more popular areas, the Black Gap Area, will be closed to deer hunting this fall.

Hunters selected in the Oct. 27 drawing will be notified by the department during the first week of November.

EGGS AND POULTRY ARE FOR ECONOMICAL SHOPPING
College Station---Egg prices are slightly higher this week but still continue to be an economical dietary source of protein.

According to Mrs. Gwendolyn Glyatt, consumer marketing specialist with the Texas Agricultural Extension Service, egg prices are expected to remain about the same for the next few weeks. Grade A Large eggs offer the best combination of quality and economy for the money.

"Fried egg sandwiches are mighty appealing," she added. "Team a fried egg with cooked bacon strips in a hot buttered bun."

Adaptable turkey is delicious served hot or cold. There should be a ready supply of these birds as the new turkey crop is estimated to be nine per cent greater than last year.

"Fryer chickens continue to be an economical choice in most meat departments," the Texas A&M University specialist pointed out. Serve them often and take advantage of their versatility and economical prices.

"Retail beef prices are about the same as for the past few weeks," she reported. In general, chuck roasts and steaks, ground beef and round steaks and roasts are the best beef values. But most markets are featuring mature beef cuts at special prices, so consider family preferences before making selections.

In the pork section of the meat department, the prices are unchanged from a week ago. "But look for best values on hams, picnics, shoulder roasts and steaks and end cut loin roasts and chops," Mrs. Glyatt said.

An excellent choice for the budget-minded shopper is nutritious dry beans—peas and pinto beans are in greatest supply.

The most economically priced fresh fruits are those in good supply apples, bananas.

"Bad Guy" on Trial

Investigating the forgery of several checks, police uncovered enough evidence to bring a corporation official to trial. But they also discovered something else: he had been living with another man's wife.

Could this evidence be used against him in court? The judge said no, because it could easily turn the defendant into a "bad guy" in the minds of the jurors.

"The deep tendency of human nature," warned the judge, "is to punish not because (the defendant) is guilty but because he is a bad man and may as well be condemned now that he is caught."

This is why evidence of bad character usually cannot be used against the defendant in a criminal trial. Unless it has a direct bearing on the issues in the case, it is considered too inflammatory to be trusted.

On the other hand, if the defendant tries to prove that his character is good, that "opens the door" to rebuttal by the prosecution. For example:

A woman was accused of the fatal shooting of her husband. During the trial, she took the witness stand and swore she had always been a loyal wife to the deceased.

But two men were promptly summoned by the prosecution to give testimony about her extramarital escapades. The court held that their evidence was admissible, since she had already opened the subject by claiming to be virtuous.

What about proof by the defendant that his victim was a "bad guy"? In a murder case, the defendant tried to bring in evidence that the man he had allegedly killed was a rogue and a troublemaker. He said he wanted to prove that the man's death was no great loss.

But the court refused to allow this evidence, because it had nothing to do with the question of guilt or innocence.

"It is just as serious in the eyes of the law," said the court, "to murder a bad man as a good man."

FAMILY HEALTH

THE ZINC IN YOUR DIET

To a nutritionist, zinc is truly a baffling element. While there is no doubt that small amounts of zinc are vital to tissue growth and repair, no one really knows for sure just how it works in our bodies.

It is also known that diets containing green leafy vegetables, fruit, whole grains, organ meats and lean meats generally supply enough zinc to meet most adult needs.

There is, however, increasingly persuasive medical evidence linking depressed blood zinc levels with oral contraceptives. Recent tests indicate that women who use birth control pills develop a much greater need for zinc than women who do not use them.

As a result of these findings, a special dietary supplement has been developed that not only contains 10 milligrams of zinc, but also all of the other vitamins and minerals women who use oral contraceptives are known to need each day. The new supplement is now available at drug counters everywhere.

If you are using birth control pills, should you also use a special vitamin and mineral supplement?

Maybe yes, and maybe no. Only your doctor knows for sure, so don't be reluctant about asking him. It could make the difference.

RECIPE OF THE WEEK

from Kitty's Kitchen

This is a seafood dish fit for king, and so handy with the frozen scallops that can be purchased in the frozen foods section of any grocery store these days.

Scallops en Casserole
2 cups uncooked shell macaroni
1 pound sea scallops, fresh or frozen, thawed
1/2 cup margarine
1 clove garlic, crushed
3 tbs. corn starch
2 tbs. salt
1/2 tea pepper
2-2/3 cups milk
1 cup dry sherry, vermouth or dry white wine
2 cups cheddar mild Cheddar cheese

Cook macaroni according to package directions; drain. If scallops are large, cut in half. Melt margarine in 3-quart saucepan over low heat. Add garlic and saute about 5 minutes. Add corn starch, salt and pepper; stir until blended. Gradually add milk, stirring until smooth, cook over medium heat, stirring constantly until mixture thickens and boils 2 minutes. Stir in wine and 1/4 cups of cheese. Add Macaroni and scallops and turn into 2 1/2 quart casserole. Sprinkle remaining 1/4 cup cheese over top. Bake in a 350 degree oven 30 minutes. Makes 4 to 6 servings.

TAKING PROPER CARE OF WOOD SURFACES

The National Association of Furniture Manufacturers makes the following suggestions in order to take proper care of wood surfaces on furniture, and we pass them along to you as a public service.

Immediately remove any liquids spilled on surfaces and always use a blotting rather than a wiping action.

Pre-test cleaning and polishing methods on an inconspicuous part of the furniture before applying to more exposed parts.

Avoid exposing indoor furniture to strong sunlight. Some rubber and vinyl products stain or soften furniture finishes. A protective pad, or piece of felt, should be used between them and the furniture finish.

Lift objects to move them; never drag them across the finished surface.

Avoid exposing wood surfaces to extreme heat or cold.

Avoid burning surfaces by using pads under hot dishes. Although the finish itself may be highly burn resistant, the wood underneath the finish can be charred by a burning cigarette.

Use only polishes recommended for furniture. A self-polishing floor wax, for instance, would soften the finish on furniture.

When dusting or waxing always work with the grain of the wood.

Good quality furniture always lasts longer. That's why it pays to visit our showrooms.

The Ozona Lions beat the Sonora Broncos last Friday night to the cheers of the largest Ozona crowd yet. The stands were overflowing and the fences were lined with fans. There was lots of spirit as the Lions went on to beat the Sonora team for the first time since 1970.

Jeffery Stuart, Gerald Olson, Jack Welch and Mike Williams got the victory bell safely to Sonora for us. Dana Collett and I hope to ring that bell many, many times before this football season ends.

Well, the first six weeks of school is over and report cards went out yesterday. Everyone wants to get an early start for better grades this session.

I hear that someone forgot their band uniform last Friday night. Wonder who it was?

Everyone needs to dress up in their brightest, prettiest clothes and have their fanciest hairdos this next week for school pictures. Monday morning the photographer will be at the Primary School. Monday afternoon at the Intermediate school and Tuesday morning he will take junior high pictures. High school pictures will be taken Tuesday afternoon.

Senior Portraits will be made on Wednesday.

For the first time this year, D letter grades will be given. This will give some students an opportunity to pass after all.

All of us at O. H. S. hope Gary Mitchell will soon be up and around again. Gary suffered a knee injury in the Sonora game and will be out of commission for awhile.

The junior varsity plays Sonora there today at 8:30, while the junior high Cubs play Sonora here, game time at 5 p.m. and 6 p.m. The Purple Gang will be traveling to Iraan tomorrow night, and that game starts at 8 p.m. There will be a pep rally in the gym at 3:15 tomorrow afternoon.

HOW CAN WE EVER THANK YOU For Our 10 Years Of Good Business

Ten years ago this week we ran an ad in the Stockman introducing the Bill Watson family and announcing the opening of a new department store for Ozona. We expressed a commitment to supply Ozona with fine quality merchandise at a fair price for cash. In turn we ask for your patronage, suggestions, comments, but most of all your friendship because we wanted Ozona to be our Home.

You have done your part! We only hope we have done ours. You have caused our business to triple, our inventory selections to quadruple and made our stay here a rare delight. We hope we have the opportunity to be your friends and serve you for many more years.

Boy Scout Troop 153 Organizes

Boy Scout Troop 153 got the Scout year underway at the Boy Scout house Monday night and elected officers for the coming year.

Scoutmaster Garland Young says there is plenty of room for more scouts in the troop and any boy between the ages of 11 and 18 who is interested in scouting should contact him.

Douglas Bean was elected senior patrol leader; Randy Allen, scribe, and Danny Weant, quartermaster.

The troop has been divided into three patrols. The Owls, under patrol leader Ray Hill, are Trazell Hayes, Jeffery Young and P. L. Fikes.

The Hawks patrol leader is Judd Montgomery. Other members are Travis Kimble, Cliff Babbitt and David Ivy.

The Lions, patrol leader Wilson Hill, are Randy Allen, Danny Weant, Cody Cain and Cliff McMullan.

Fall Arrives On Heels Of Front

Fall made its entrance in the Ozona area Friday night on the heels of a windy and dry cold front.

Temperatures dropped below 50 degrees for the low for three days after the arrival of the front.

The weather has been quite cool at night and early mornings with an upswep in the mercury coming at mid-afternoon, when the high for the day has been hitting the low 80's.

Mr. and Mrs. J. O. Whitley of Beaumont are here visiting relatives.

Sharon Barbee, former Ozonan and at present a student at Sul Ross University in Alpine, was an Ozona visitor over the weekend. She is employed at the Alpine Avalanche, the weekly newspaper. Sharon is a former employe of the Stockman.
