## Kitty's Korner

By Kitty Montgomery

Everybody seems to get around to the subject of city beautification if the conversation holds out long enough. Some think the web worms have ruined the looks of the town, some complain about the wrecked autos strewn about, which are not only an eyesore, but a safety hazard; others complain about weeds and brush grown up in vacant lots and in the crevices of the streets, while others wonder what ever happened to the street cleaner which made the town at least once a week.

I am in the latter category. Living on a corner lot seems to invite rubbish, and I have dead weeds, live weeds, trash and a broken bottle in my curb gutters, and have had for some time. So, I especially miss the sweeper. It's all I can do to find a yard man once a week to do the yard and I seriously doubt you could ever find a street man (one to sweep your street once a week).

Anyway, I asked one of the commissioners what had happened to the sweeper. He said the sweeper and the mower were run by the same operator and right now he was mowing. I, of course, suggested training another operator. In fact, I would be happy to run the sweeper in my off hours (between 2 and 4 o'clock each morning). It couldn't be such a chore for one who has run a vacuum cleaner for so many years, and I'm sure being able to ride instead of push would be an asset.

Anyway, most agree that the town just doesn't look as spick and span as it has in years past, and we are all willing to do all we can to clean it up.

I think we still have as many county employees as we have ever had, probably more, and maybe we need to get behind the county fathers, and push a little.

There is surely no reason for Ozona to look shabby. We have always taken such pride in our sparkling little city, and there is no reason we should not be able to continue to do so. If there is a reason, we should know about it. Right fellow Ozonans?

kk  
By the way, if you don't want to cook tomorrow, you can take the whole family to the civic center for a good home-cooked meal at \$1.75 a head.

The local 4-H Club is host to the district dress revue and the luncheon will be served before the style show. For reservations, you may call the county agent's office. You don't even have to stay for the revue if you need to get back to work or go home for a nap. Of course, you will miss seeing some very talented young ladies model their own creations, but you are free to eat and run if you like.

kk  
We certainly had an exciting Sunday morning around our house. Our son, Jim, left with neighbors for the lake at Del Rio Saturday afternoon to be gone the night, leaving his little hot-rod in the driveway. Sunday morning dawned bright and clear, and we found Jim's car missing. Naturally, we assumed the worst and reported it to the police. This necessitated getting poor Sheriff Billy Mills out of a bed he had been up all night the night before, sent me on a frantic search for insurance papers, and Tom moaning the fact that the thief was probably in the interior of Mexico by then.

We were certain it had been stolen, and probably early the night before. Tom found his car keys in the seat of his car and immediately jumped to the conclusion that the car thief had started to take his car and changed his mind for the newer and more flashy model. My car was parked between the two, so I was in very little danger of losing the old bus. By the time a couple of hours had passed we were sure the car was long gone and didn't know how we were going (Continued on last page)

THE INOCULATION CLINIC AT OZONA PRIMARY SCHOOL was a busy place Tuesday afternoon as state health officials along with Ozona volunteers gave vaccine for measles, D.P.T., and polio. Above, little Teresa Gorman doesn't seem to care much for all the attention she is getting as Mrs. Ann Fowler, local nurse, administers the vaccination. Teresa's mother, Mrs. Ercilia Gorman holds her as brothers, Phillip and Tim look on. Numbers of children and adults took advantage of the free clinic which is sponsored by the Study and Action Club. The next clinic will be August 29.

## Ozona To Host Dist. Dress Revue Friday

The public is cordially invited, and indeed urged, according to county HD agent Debra Gentry, to attend the Revue.

Anyone wishing reservations for the luncheon may call Miss Gentry at 2-2721. Tickets are \$1.75 and the luncheon will be catered by the Ozona Home Demonstration Club, 4-H members and adult leaders.

Miss Gentry urged that everybody make plans to attend and bring a friend. All proceeds will be used for Crockett County 4-H events.

Douglas Bean received a second place in the breakaway roping, and Ozona cowgirls Christy Davidson and Kay McMullan placed third and fourth respectively in the senior girls pole race.

Other Ozona contestants placing in various events were Sally Bailey, Debra Clayton, Anne Tillman and David Bean.

In Thursday's game the Sonora Stars jumped out to a 5-0 lead in the first inning and from that time on it was an uphill battle for Ozona.

Ozona's only runs were scored in the top of the sixth inning when Steve Pagan got a base hit and Felipe Castro hit a home run to get the scores.

## Burglars Net Little In Theatre Break-In

The concession at the Big "O" Theatre was broken into between 3:30 and 7:00 p.m., Friday afternoon. The burglar or burglars gained entry to the building by breaking a large plate glass on the east side of the building above a row of booths. They tried to enter through the exit door which opens out of the auditorium, but didn't manage to get it open. However, the door was heavily damaged.

Once inside the thieves escaped with a jar of pickles, candy and cigarettes. Damage to the door and glass was by far the biggest loss.

Although the sheriff's department has very slender clues to track down the vandals, Sheriff Billy Mills said he felt that the same person or group robbed the theatre, who had earlier burglarized the United Store, Brown Furniture and Pioneer Gas Co., in May, and the Water District Office, and the Ozona Stockman late the night of the Fourth of July.

Officers are working around the clock to try to catch the culprits, but they have asked that anyone out late and seeing anything or anyone suspicious to please call the sheriff's office, Ph 392-2661, or notify officers at the D.P.S. Building.

Brown, chairman of the city beautification committee, reported that he had met with the commissioners court concerning the cleaning of vacant lots and removal of wrecked cars from city streets, and had been advised that the mowing of lots would be done, but that the court had no authority to order the removal of wrecked vehicles from the city streets and highways.

The replacement of signs put up by the Chamber was discussed. Under a new state law, the signs must be relocated to comply with regulations concerning distance from highway, size, etc.

Tony Allen, chairman of the Ranchman and Hunting committee, reported good progress on the fall hunting program, which he and his committee is involved in at present.

PRIVATE PROPERTY

We have now passed through seventy years of a century in which the rights of private property owners have been under almost constant attack.

The passionate emotional and ideological tone of much of the debate on the rights of property owners has blinded many people to one very simple and basic truth: that all property in use is owned by someone.

Once we realize this, the sound and fury about "public property" versus private property falls into proper perspective.

We can well imagine the roar of indignant and well-justified protest that would go up if a law should be passed allowing huge private business corporations to take the property of individuals or control their use of it.

We should stop kidding ourselves that when government takes over property, we all - as members of the great anonymous public - become part owners of it.

SOCIETY AND THE ACCUSED

Senator James L. Buckley (C-NY) told the Americans for Effective Law Enforcement in Chicago that he wants to "enjoy the blessings of liberty unmolested."

"I want to have a reasonable basis for believing that the criminal will be apprehended, tried and punished," Buckley continued.

America cannot wait until utopian visionaries build the perfect, crime-free society, Buckley said.

Strong, vigorously enforced laws were called for by the Senator. Buckley said his approach may be "hard-headed" but it is not "harsh."

Washington News Letter

By Congressman O. C. Fisher

Aide from his radicalism--including amnesty for draft dodgers, forces busing for school children, \$1,000 annual gift to every man, woman and child and repeal of the Texas and all other right-to-work laws -- George McGovern's attitude toward national defense looms as a major concern.

"It's the voice of Esau but the hand of Jacob," commented one analyst after reviewing McGovern's past record and his firm campaign promise to slash \$33 billion, over 3 years, from the defense budget -- which the Senator blandly insists would make the U. S. stronger militarily!

It is impossible to conceive how such rhetoric could offset or overcome the following actions which Senator McGovern has promised:

- (1) Scrapping completely the B-1 bomber program -- an aircraft to succeed the aging B-52's, and reducing the bomber force by 60%. (2) Eliminating all Safeguard ABM effort, to be replaced by ABM studies and research. (3) Unilaterally stopping and walking back both Minuteman III and the Poseidon missile improvements -- marking a sharp retreat in our qualitative long-range missile development. (4) Denying any effort, except for submarines, to update our lagging Naval forces, and concurrently halting practically all Naval force levels. (5) Reducing our aircraft carrier force from 15 to 6, and our tactical air wings from 37 to 26. (6) Stripping from the National Guard its national defense mission and molding it into a domestic militia. (7) Cancelling the essential F-14 and F-15 tactical aircraft development and procurement programs to replace them with studies. (8) Reducing our active land

strength forces by 4 divisions. Although Soviet military research and development is already above ours, Senator McGovern would slash our R&D by an additional 35-40% -- a backward step too shocking to contemplate, and certainly no way to achieve a lead in military technology.

To achieve the McGovern defense budget cut would require an estimated 30% firing of all civilian service workers on military installations.

(During primary campaign McGovern told Californians he didn't plan any base closures there. This would probably mean even more cut-backs in other military training centers -- like Texas.)

The above concrete proposals, and many others advocated by Senator McGovern, are in my view certainly not the way to maintain military superiority, which he promises will be achieved. Furthermore, he bases his military concept on a choice between all-out retaliation (nuclear) against population and industry -- or no response at all.

It is my considered judgment the Senator's plan would definitely -- I mean definitely -- make of the U. S. a second rate military power, and eventually probably a third or fourth rate power.

It should be kept in mind that while only the Congress can change laws on taxes, trade, welfare, etc., a President has power singlehandedly to cut the military as he may choose. He can simply refuse to spend any money appropriated for defense purposes.

In short, it is inconceivable that Senator McGovern's defense proposals, if adopted, would be anything but a disaster for the United States and the cause of peace.

Sept. Draft Call To Take Only 1 Man From Area

Austin--Colonel Melvin N. Glantz, the State Director of Selective Service for Texas, today announced the top lottery number for the September Draft Call. The number is 75, which is the same as the number for August.

Glantz explained that enough men with lottery numbers of 75 or under have been added to the available manpower pool during the last month, and that these men will fill the induction needs of the Department of Defense for September. These men have lost deferments by reason of graduation from high school or college, or have reached the end of their procedural delays.

G. W. Stewart, Chairman of Local Board No. 110, in Sonora said that one man is expected to be inducted in the area of this local board in September as a result of this call. In addition, seven men will be issued orders for their Armed Forces Physical Examination.

Under the Uniform National Call procedure, induction orders are issued simultaneously in each state to men with the same lottery numbers. For September, the Department of Defense has requested 4,800 inductions nationally. It is expected that the lottery number limitation of .5 for September will produce the needed number of inductions. There is not a quota for any state; however, Colonel Glantz said he expects the September Call to result in approximately 350 inductions in Texas.

Induction orders will be issued only to men in the 1972 First Priority Selection Group.

Orders for Armed Forces Physical and Mental Examinations will be issued in September for men in the 1972 First Priority Selection Group with lottery numbers of 100 and below, and to men in the 1973 First Priority Selection Group, born in 1953, with lottery numbers of 50 and below.

# Crockett Census Figures Put Income Below Average

Final reports on the 1970 census were received by The Ozona Stockman this week and will be of interest to most residents of Crockett County. Surprisingly, the report shows the average family income for Crockett County to be below that of the average for the state.

The average family income was \$7,414 in Crockett County, Texas in 1969, compared with \$8,490 for the state, according to the report on the 1970 census by the Bureau of the Census, U. S. Department of Commerce. Per capita income for the county amounted to \$2,611, the report shows.

The 1970 census counted 3,885 residents in the county; 3.9 percent were foreign born and 11.2 percent native born with one or both parents of foreign birth.

Among the county's 3,519 inhabitants age 5 and over in 1970, 658 were living in a different county within the state in 1965, and 125 in a different state.

In the population age 16 and over, 76.3 percent of the men and 30.9 percent of the women were in the labor force. Among the employed, 35.6 percent were holding white collar jobs, and 19.8 percent were government workers.

About 26.0 percent of the married women with husband present were in the labor force, and 11.2 percent of these wives had children under six.

There were 1,116 persons 3 to 34 years old enrolled in school, in the 25-and-older population, 50.9 percent of

the men and 44.8 percent of the women were high school graduates.

The 1970 Census of Housing counted 1,743 housing units in Crockett County and television was the major appliance. A total of 1,037 households had at least one television set. The figures are from the first report for Texas which presents detailed statistics on housing for each county.

There were 301 housing units with air conditioning, 90 with room units and 211 with a central system; 983 units with a clothes washing machine, 582 with a clothes dryer, and 185 with a dishwasher.

The 1970 population was 3,885, with an average of 3.2 persons per housing unit.

A total of 914 housing units were built before 1949, 398 during the 1950's, 188 during 1960-64, and 182 within the five years preceding the April 1970 census.

Utility gas was used to cook the meals in 663 households, electricity in another 396, and bottled, tank, or LP gas in yet another 152.

There were 1,562 housing units with complete kitchen facilities and 1,594 with complete bathrooms, both for the exclusive use of the households. The number of bedrooms in all housing units, houses or apartments, ranged from none in 43 units and one in 211 units to four or more in 188 units.

Owners occupied 787 units, renters 433 units, and a total of 457 units were vacant year round with 30 for sale and 138 for rent.

#### Rx For Debtors in Distress

Each year, millions of people skate uncomfortably close to the brink of bankruptcy. Unwise spending, serious illness, loss of a job, setbacks in business—all these may bring on a fiscal crisis. But in increasing numbers, debtors in distress are rescuing themselves by a technique known as the Wage Earner Plan. Although administered by the bankruptcy court, it is distinctly different from bankruptcy.

Under the Wage Earner Plan, the debtor agrees to pay off his debts out of future earnings instead of having them cancelled by bankruptcy. Under court supervision, he works out a payment schedule that may extend for three years or longer. In return, he gets immediate relief from his financial pressures. By court order, creditors are forbidden to garnish his wages, repossess his belongings, or harass him with threatening letters and telephone calls.

True, not every debtor can qualify for the Wage Earner Plan. The court will approve a debtor's application only if he is earning enough to make the payment plan feasible—and if enough of his creditors agree. Furthermore, he must have the moral commitment to stay within a frugal budget during the payoff period. But the benefits of the Plan are notable. It offers the distressed debtor a chance to "get out from under" with comparatively little damage to his credit record. Also, it may play a major role in preserving his self-respect.

Creditors benefit too. The Plan offers them a reasonable prospect of collecting their debts, whereas in the bankruptcy situation they usually collect nothing at all. Not long ago a man living on Social Security, overwhelmed by debts, turned to the Wage Earner Plan for relief. Two disgruntled creditors objected that he could not qualify because he was not a "wage earner."

But the court, pointing out that Social Security income is based on past wages, decided to accept the man's application. The court said that in dealing with the problems of debt, any solution that is so good for all concerned ought to be encouraged.

**Tips For Gardeners**

From the Ozona Garden Club  
By Mrs. Bailey Post

The pleasant weather of late gives everyone a little more time to relax and enjoy the early morning and late evenings on the patio or lawn. At least it breaks the monotony of constant every-day watering.

A good way to conserve moisture is by deep watering once or twice a week rather than light sprinkling of the lawn, shrubs and trees.

Crepe Myrtle and senisia are coming into bloom all over the city to give color among the plants. As soon as the petals shed, remove lower clusters to encourage new seed heads to form on the crepe Myrtle. Also, give them plenty of water for continued blooming.

If you are growing mums or fall color, continue to feed and pinch growth tips until last of this month. Cut the tops off of early blooming border mums and they will set new buds for fall.

You may still plant quick growing annuals (like zinnias) and ornamental peppers, if you get them planted immediately. They furnish purple, green and red pods to add much color for autumn.

If your garden plans for fall include new roses, you may want some of the All-American Rose selections for 1972-1973:

Appollo which is a soft yellow hybrid tea, infused with shades of crimson at the base. Buds are slender and long pointed on long stems free of many thorns.

Portrait, hybrid tea, has urn-shaped, deep pink buds that open to a full double flower of creamy white edged with pink. It has a delicate old-fashioned fragrance.

For 1973 the three new award winners are The Electron, hybrid tea, of sparkling rose-pink with pointed buds that open to large, high-centered blooms with long-lasting fragrance.

Gypsy, another hybrid-tea, is a slightly cup-shaped rose with large petals of brilliant orange-red that keep their color until the last petal falls.

Medallion, a mass-flowering, light apricot-pink. This plant grows 4 to 6 feet in height with an erect, well-balanced habit. It produces massive quantities of flowers throughout the normal flowering period. The delicate pastel coloring of Medallion will vary in intensity with the weather. The buds open into huge 7 or 8 inch blooms formed by about 35 broad petals.

Is now the time to buy land?

Acquiring that farm might seem more practical with financing through the Federal Land Bank. Land is easier to pay off when costs are amortized over extra years with a long-term Land Bank Loan. Your total cost of borrowing, too, can be less. Ask us for help: We know land values; we will inspect the property. We will then try to make a loan that meets your exact needs.

THAT FINISHING TOUCH

Have you ever visited a home where they have nice furniture with an attractive living room, dining room and bedroom -- yet there was still something lacking? It may have lacked that certain something which decorators call "the finishing touch."

It's exactly at this point where imagination and ingenuity are most needed; where a little "flair" goes a long way. This is often the difference between ordinary furnishing and beautiful decorating.

There are many ways to accomplish the "finishing touch." Here are just a few: Where you have both white walls and white draperies, a valance or cornice in a contrasting color may add life to your room.

When most of your living room has neutral colors, try replacing your pictures with some containing daring and bright colors.

Place a mirror in your room where it will reflect the outdoors and add color and size to your room.

If the width of your room permits, place your sofa a foot or two away from the wall and put a decorative, eye-catching screen against the wall.

Those are just a few ideas. For more ideas for your home, we invite you to stop in and visit us. Or, just come in and browse. There's no obligation.

**UPTIGHT**

The doctor tells you your blood pressure is up. Slow down, he says. Relax. Let's face it. If you're "uptight" there ARE things to do about it. Follow your doctor's orders, yes. Take a deep breath, and look at the beauty of the world around you. Help other people with their problems.

But add one extra little prescription. Go to church. Just sit there and let God's peace engulf your anxiety.

Chances are that when you walk out the door something new will have been added to your dimension in living.

(Continued from page 1) to break the news to Jim when he arrived home.

We got out to get the mail and on a hunch I drove by a friend's house. Lo and behold, there was the car in the driveway. Was our face red as we drove to the DPS building to confess that the car was not stolen and all was well. We had barely arrived home when the phone rang and it was Jim to tell us he decided to come back to Ozona with his friend

and when he arrived we were asleep and the doors were locked, and when he couldn't find a house key on his Dad's key chain, he just decided to bunk at his friend's house. He was, using his own words "just trying to be considerate," and it never entered his mind that we might think his car had been stolen.

We all felt pretty silly, but all cars were parked, locked and had the keys removed that night and nights since, and we issued everybody in the family a house key. Don't know what our next crisis will be, but it won't be that one again.
