Justice Will

Take Case To

(AP) - Justice Hugo L. Black, employing strategy like that sometimes used by President Roosevelt, will bring to an unprecedented climax tonight the nationwide dispute over his appointment to the supreme court.

First Time In History He will reply in a radio address at 8:30 p. m., central standard time, to those who have challenged his fitness to serve on the tribunal because of what they allege to be his affiliation with the Ku Klux Klub. Never in the history of the court has a justicecthus carried his case directly to the people.

Three national radio chains will carry Justice Black's speech, making it available to approximately. 286 stations. The content of the address remained a closely guarded secret, known only to Black and a few of his close associates. It was considered highly possible

that he would discuss directly the allegations of Klan membership. The question remained, however whether he might make a complete denial or whether he might say that he once had been a Klansman but long since has renounced his membership. The principal accusation, made in

a series of newspaper articles, is that Black is a life member of the order. The articles alleged he joined the Klan in Alabama in cratic senator from that state. There was no evidence that Black
