Kitty's Korner

by
Kitty Montgomery

I guess summer is pretty dull all over as far as news goes. However, we've never had to go as far as the reporter who stole Henry Kissinger's trash to sift through it to get some news. In fact, we'd leave our columns blank before we would stoop so low. This sort of thing gives all reporters a black eye and robs journalism of whatever dignity left to it.

The next few days will be given completely to the joint venture in space with the USSR. This is the only area of cooperation we seem to be able to reach with the Soviets. I'm quite sure it's because the Russians know that space is useless and they would be happy to let the U.S. be sovereign in space while they reign on earth. More nations are going their way daily, while we fool around with detente, whatever that is.

Mrs. Gutierrez sent me a tomato from her garden that weighed 20 ounces, a pound and four ounces. We'll have a picture next week. Mrs. North sent some big, fat cucumbers from her garden. I would really be in business if one of you ranchers would send me a big fat calf from your herd. If you are really losing all that money on beef, I'd be glad to take one off your hands to help you out a little.

Just a reminder that if you have not paid your subscription for the year, you will be removed from our mailing list July 31. Most subscriptions have come in, and by the end of July, everybody who still wants the paper will probably have paid. Just thought I'd remind you once again. We've got to pay the postage. For some reason, the postmaster insists.

Gas Discovery Completed In County

J. Cleo Thompson, Dallas, completed as an Ellenburger gas discovery his No. 6-A J.R. Bailey "A" Estate, scheduled 1-3/4 mile southwest outpost to the Crockett County portion of the Ozona, northeast (7520 Canyon gas) field, 12 miles east of Ozona, five miles north and slightly west of the depleted Addie (Ellenburger gas) field, seven miles north of the depleted Clayton Ranch (Ellenburger gas field and 7 1/2 miles southeast of the depleted Buckhorn (Ellenburger gas) field. It was finalized for a calculated absolute open flow of 2.03 million cubic feet of gas per day through perforations at 8,667,691 feet.

CAMPER - PICKUP WRECK which took the lives of two young California brothers during a rainstorm 19 miles west of Ozona at mid-afternoon Saturday. The two boys were in the camper when the pickup struck a slick place in the road and overturned.

Young Boys Fatally Injured In Wreck

Two young California boys were fatally injured and three others hospitalized in a pickup-camper wreck 19 miles west of Ozona on Highway 290 Saturday around 4 p.m. The one vehicle rollover occurred during a heavy rainstorm with gusting winds. Another minor wreck was investigated Sunday night in the city limits. Michael Lee Copeland, 8, and William Gregory Copeland, 6, brothers of Southgate, California, were killed instantly when the overhead camper they were riding in was crushed by the cab of the pickup when it overturned. The two boys were pronounced dead at the scene by Peace Justice A. O. Fields.

The other three occupants of the pickup were taken to Crockett County Hospital by ambulance. Injured were the parents of the boys, Betty Carol Copeland, 32, driver of the vehicle, and her husband, William Lively Copeland, 32, and Mrs. Alton Tucker, 59, all of Southgate, California. Copeland was treated for back injuries and released Sunday. The two women were released from the hospital Monday morning. The family accompanied the bodies of the two boys back to California on a flight out of Midland Monday afternoon, where services are pending.

Three other California residents were hospitalized overnight, but were not seriously injured. Several accidents have occurred recently in almost the same location.

Buddy Couch Dies Monday In Austin

Funeral services for Joseph Bert (Buddy) Couch, 24, were held Wednesday afternoon at 6 p.m. in the Ozona United Methodist Church with burial in Cedar Hill Cemetery with Rev. Ben Bohmfalk, pastor, officiating. Buddy died Monday, July 14, in Austin. He was born in Ozona April 2, 1951. He was a graduate of Ozona High School. He attended Texas Tech and Angelo State University. He was in the ranching business here with his father. He was a Simmental Cattle Breeder and a member of the American Simmental Association. He was a representative for American Breeder Service. He was a lifelong resident of Ozona.

Buddy Couch Dies Monday In Austin

Survivors include his father, Joe Couch of Ozona; his mother, Mrs. Louise Couch of Austin, and a sister, Diane Robinson of San Angelo. Pallbearers were Craig Deaton, Paul Perner, Philip Perner, Wesley West, Mark Tillman, and Cuatro Davidson, all of Ozona.

Ozonans Attend Twirling Camp

Ozona High School twirlers, drum major and band director are attending the annual Texas A&I University Twirling and Drum Major Camp this week in Kingsville. OHS band director Lane Scott is assistant camp instructor. The camp, which is among the largest in Texas, is under the supervision of Dr. Joseph L. Bellamah, A&I band director who is camp director. Ozona twirlers attending the camp are Hope Phillips, head twirler, Nancy Womack, Deldyn Cain, Helen Bunker, Karen Kirby, along with drum major Karen Moody and Marsha Kirliden, who is attending drum major school. Scott was drum major of the A&I marching band for three years. Many of his students are now drum majors at leading colleges and universities. A grand finale performance will take place Friday, July 18, at 1:30 in the university gym. Massed performances by camp students in the various twirling categories will take place and faculty members will perform solo twirling exhibitions on the same program.

Commissioners Court In Regular Routine Meeting

Crockett County Commissioners Court met Monday and for the most part attended to routine business. Von Parker, County Road Superintendent, appeared and asked for permission to remove junker cars from the streets of Ozona. After a discussion, it was agreed that he could tow old junker cars to the dump ground south of Lima. Twille Maney, Cemetery Maintenance Foreman, appeared requesting a new edger. His request was granted and his pickup allowance was raised from \$75.00 to \$100.00 per month. Jack Baggett appeared to talk about Workmen's Compensation Insurance for the coming year. He proposed setting aside 60% of premiums in a reserve and all of this sum which is not spent during the year will be refunded. This proposal was accepted by the Court. Pick Kirby, County Auditor, presented statements to the commissioners showing that the road department funds will be exhausted before the year is out unless substantial cuts in spending are made. The commissioners agreed to put up for bids several used tractors and graders which are no longer in service. Keith Peters reported on the hospital and nursing home. As of Monday he had 8 patients in the nursing home with others due to transfer as soon as Medicaid payment is approved. Numerous small corrections are being made at the nursing home. In other business, election

Garland Young appeared to report on youth activities and stated the Auditorium-Golf-tennis summer helpers are re-doing the floors. Young presented a bid from Baker Jewelers for \$395.00 to replace silverware at the coliseum. This being the low bid, it was accepted. Dudley McCary was granted permission to install a water outlet at the fairground for the use of carnivals, etc. Jack Baggett appeared to request a new edger. His request was granted and his pickup allowance was raised from \$75.00 to \$100.00 per month. Jack Baggett appeared to talk about Workmen's Compensation Insurance for the coming year. He proposed setting aside 60% of premiums in a reserve and all of this sum which is not spent during the year will be refunded. This proposal was accepted by the Court. Pick Kirby, County Auditor, presented statements to the commissioners showing that the road department funds will be exhausted before the year is out unless substantial cuts in spending are made. As of Monday he had 8 patients in the nursing home with others due to transfer as soon as Medicaid payment is approved. Numerous small corrections are being made at the nursing home. In other business, election

judges were selected for different voting boxes with Erby Chandler, Judge, voting box 1; Steve Kenley, Judge, voting box 2; and Mrs. Matt Gutierrez, Judge, voting box 4. Other judges were selected and names will be released as soon as they have accepted. Sheriff Billy Mills and Tommy Loudamy appeared to discuss the loose dog situation in Ozona. It was pointed out that Ozona and Crockett County voted an annual registration act in 1944, but this law has not been enforced for a number of years. Article 192-3, Section 1, Section 2, are authority that no dog shall run at large unregistered. Further, even registered dogs shall not run at large between sunset and sunrise unless wearing a muzzle. The Court directed Sheriff Mills to determine policies in neighboring towns directed toward the operation of a dog pound and having a dog catcher.

Little League All Stars Fall To Sonora 20-12

The Ozona Little League All Stars fell to the Sonora Stars 20-12 in a high scoring match at the Little League field here Monday night. The outcome ended the season for the Ozona Stars, but Sonora will host a San Angelo team Saturday night. Winning pitcher was David Fairla and losing pitcher was Hector Leal. The two teams were tied 3 all at the end of the first inning and then the Sonora team began to pull away. Both teams hit four home runs each, and there was plenty of hitting on both sides. Getting hits for Ozona were Vadyln Aldridge, Hector Leal, Roy DeHoyos, Rudy Enriquez, Delbert Brown, Harvey Huereca, Kim Tambunga, Randy Ramos and Felix Flores.

Gary Sutton To Coach In Abilene

Gary Sutton, son of Mr. and Mrs. Glenn Sutton, and all-state football player for Ozona High School in 1967, has accepted a position as head defensive line coach at Abilene Cooper High School. Sutton has been an assistant line coach at Central High School in San Angelo for the past two years. He was also assistant track coach. Sutton played in the Texas High School Coaches Association All-Star game in 1967 and was also all-state as a discus man. He was a three year starter at Baylor and made the All-Southwest Conference team in 1968. He was named to the all-academic team as a freshman at Baylor and again as a senior. He played in the East-West Shrine game his senior year and was defensive captain that season.

Gary Sutton To Coach In Abilene

Sutton played in the Texas High School Coaches Association All-Star game in 1967 and was also all-state as a discus man. He was a three year starter at Baylor and made the All-Southwest Conference team in 1968. He was named to the all-academic team as a freshman at Baylor and again as a senior. He played in the East-West Shrine game his senior year and was defensive captain that season.

Gas Wells To Be Drilled In Crockett Co.

George J. McLernon, Jr., President of Kathol Petroleum, Inc. Wichita, Kansas, announces that Kathol has concluded arrangements whereby an investor will drill a minimum of six and possibly ten wells in the Ozona Southwest Field, Crockett County, Texas, to test the Canyon sand formation. Drilling activity will be commenced on or about November 1, 1975 and should be completed by year end. Operations will be conducted by Indian Wells Operating Co., Inc., a joint venture of Kathol and Tomlinson Oil Company, Inc. The objective is gas production from the Canyon sand at approximately 7,000 feet. Production will be gathered and transported through the Southwest Ozona Field gas gathering system and processed in the gas processing plant owned by Kathol and Tomlinson and operated by Indian Wells Operating Co., Inc.

County History Appreciation Week Set

Annual County History Appreciation Week will be held during the week of July 27 this year, according to Mrs. Pleas Childress. The celebration has been scheduled to close out with the annual junior rodeo, which will be held August 1 and 2. A schedule of events will be announced next week.

CRACK! AND IT'S A HOME RUN for Ozona by Kim Tambunga. The Ozona Stars hit four home runs in the first play off game with Sonora here Monday night, but the score was 20-12 Sonora, and that wound up Little League Play for Ozona this season. Sonora will meet a San Angelo Little League team in Sonora Saturday night.

BULGARIAN TECHNICIANS VISIT CROCKETT COUNTY OIL FIELD - The five young men prepare to fly back to Houston after visiting a Crockett County ranch where an oil exploration crew is at work with the new Vibrosis system recently developed by Conoco as an aid in gas and oil discovery. They were here on behalf of their government and as guests of Continental Oil Co. to learn about the new system. From left to right they are (last names only) Ivanov, Bogorov, Tonov, Neinov and Mihailov.

CLASSIFIED RATES - 10 cents per word. Minimum charge \$1.00 per insertion.

Independence Day + 199

As we celebrated the Fourth of July, we were reminded of what happened 199 years ago on that day, in the City of Philadelphia. Fifty-six Americans from 13 British colonies gathered together and signed a Declaration of Independence.

Today, also a time of deep and pervading troubles for us Americans, we might pause and reflect on the manner of men who gave birth to our country on that July 4, 1776.

We know that their average age was 44, that 19 were lawyers, nine planters, nine merchants, four physicians, and two each were farmers, public servants, and landowners.

Of the 56 signers, all but seven were born in the colonies.

Although they came from widely diverse backgrounds, these 56 men had one important quality in common. All believed strongly enough in freedom and independence to be willing to die for it.

Such, then, were the men who, 199 years ago, in a place known now as Independence Hall, struck the first blow for freedom and independence in these now United States.

National Mismanagement

Recently the Chairman of the Board of the U.S. Steel Corporation, Mr. E. R. Speer, told newsmen that "I think we have reached a point in our national development when our American idealism has to be tempered with more economic realism.

"We don't know Mr. Speer personally, but if we are to judge by his words, he must be one of the most mild-mannered men in America. What he could have said was that if his or any other industry were not the same way as the government in Washington, that firm would be bankrupt within 30 days, if it managed to survive that long.

Washington newsmen Henry J. Taylor reports that government correspondence now amounts to more than one billion letters a year. That, he points out, comes to 2,793,726 letters a day, 365 days a year - including Sundays and holidays. The cost to you, fellow taxpayer, is \$3.00 a letter.

But that doesn't take into account what to do about all of those carbon copies. That's where the real rub comes.

"About 250,000 (yes, 250,000) government employees," explains Taylor, "are chiefly involved with filing the paper into cabinets. These cabinets cover 25 million square feet of floor space. That's more than 12 times the entire rentable floor space in New York's vast 102-story Empire State Building."

The non-elected bureaucrats are not the only mismanagers in Washington. Consider the United States Congress. Earlier this year the President, in a move designed to stimulate the sagging economy, initiated a "tax rebate" of up to \$200 per taxpayer. But within weeks the Congress increased the national debt by \$46,000,000,000. That figures out to \$511 for each and every one of the 90 million wage-earners in the United States.

Add to this the fact that when it comes to the one most important and legitimate end of government - that of our national defense - some members of Congress are miraculously transformed from wild-eyed spenders into penny-pinching misers.

Clearly, the people of the United States need to carefully consider those they will elect to public office in 1976. It's not too early to start thinking about it.

STATE CAPITAL Highlights AND Sidelights

By Lynell Williams

Courts Speak

AUSTIN - The House of Representatives may be returning to Austin before September 1 to consider the first impeachment proceedings in more than 40 years.

A select House committee already has directed its staff to draft several articles of impeachment against 22nd District Judge O.P. Carrillo of Duval County.

Committee members rounded out their examination of the record in their inquiry into allegations against Carrillo last week in closed-door session.

They will vote in open session on the proposed articles.

If a majority of the 11-member panel vote to press any of the articles, the House must be called into session to consider them on the third Monday following the committee report.

The constitution further provides that the Senate must try impeachment charges brought by the House against certain state officials, including district judges.

A two-thirds vote in the Senate is required to convict.

Fewer than a dozen serious impeachment proceedings have been brought in a century. Only one of these - the 1917 case against then Gov. James E. Ferguson - actually resulted in a removal from office.

Raids Continue

Comptroller Bob Bullock led more raids against sales tax delinquent firms in the Dallas area which, he said, owe more than \$300,000 to the state and city.

The Comptroller's agents locked a restaurant, closed a concrete manufacturer, took inventories and equipment from a photo shop, appliance shop, air conditioning firm and microfilm service company.

Property seized will be sold at public auction to satisfy tax claims unless owners pay up, Bullock said.

He scheduled an auction July 21 in San Antonio for nearly 15,000 cases of whiskey, wine and beer taken from three discount liquor houses whose owner owed \$405,000 in delinquent sales taxes.

Highways in Trouble

Texas Highways and Public Transportation Department announced August contract lettings because of inflated costs and declining gasoline taxes.

Both T.H.P.T.D. Engineer-Director B.L. DeBerry and Gov. Dolph Briscoe, meanwhile, expressed concern over President Ford's federal highway program.

DeBerry said reducing the federal highway trust fund would impose a heavier tax load on the states and further reduce construction.

Briscoe said the administration's offer to return one cent of the gasoline tax to the states "covers up an attempt to move two cents into the federal treasury and away from needs of the states."

Letters To The Editor

Dear Kitty, To continue to enjoy your delightful paper I've enclosed my payment. We especially like the pictures each time.

We noticed with great pleasure the excellent selection of Mr. Ed Crawford, better known by many as "Blondie", as head nurse of the new nursing wing.

Sincerely yours, A/Min. Gaston Wylie

CARD OF THANKS

Thanks to all local citizens and organizations who helped make our part of the Girl Scout National Event a great success.

Girl Scout Troop #189

Appointments

John H. Poerner of Honda has been named director of the new Commission on Education Resources to assess school district finance capabilities.

Short Snorts

Governor and Mrs. Briscoe and their two daughters are on an 18-day European vacation.

State government will have a \$27 million balance after spending \$12 billion during the next two years, according to Comptroller Bullock's latest calculations.

Texas labor's new legislative goals will be drafted at the AFL-CIO's state convention in Dallas July 23-26. An agency shop or right to contract bill is expected to be among them.

A court hearing on the State Insurance Board's medical malpractice insurance rate freeze was postponed until July 17.

Texas economy will soon "ascend more prosperous heights," according to a University of Texas Bureau of Business Research writer's prediction.

Michael Garmon original sculptor at BROWN Furniture Company.

THE NEWS REEL

A re-run of "The Ozona Story" as gleaned from the files of THE OZONA STOCKMAN

July 18, 1946 A net raise of 55c on the \$100 valuation in the combined county and school tax rate for 1946 will be reflected in the tax bills of Crockett County property owners at tax paying time next fall.

29 years ago Mr. and Mrs. L. B. T. Sikes and sons have returned from Camp Stewart near Kerrville when Mr. Sikes was counsellor during the past six weeks camp session ending last week.

29 years ago Miss Sue Beasley, daughter of Mr. and Mrs. Sam Beasley, became the bride of Kelly Amthor Sunday morning at 8 o'clock in the home of the bride's parents. Mr. Amthor is the son of Mrs. Clara K. Amthor of San Saba.

29 years ago Charlie Boy Davidson, who suffered a knee injury while roping calves at the Joe Davidson ranch recently, is still confined to a San Angelo hospital. The knee has been placed in a cast for the repair of torn ligaments and cartilage in the knee joint.

29 years ago Possibilities of installation of a dial telephone system to serve Ozona is under study of a committee from the Ozona Community Council and all data concerning such installation is being gathered by the group for presentation to the Council at an early meeting.

29 years ago Sheriff Frank James this week issued a warning to Ozona business firms to exercise caution in cashing checks for strangers. Although the sheriff's department is willing to make an effort to apprehend such swindlers, it is sometimes difficult to find them once they are out of town, and the sheriff urges all business firms to require positive identification before cashing checks for strangers.

29 years ago Lambs from Crockett County topped the Fort Worth market at a new high for the season Monday.

WINNING CHICKEN RECIPE - Stuffed "Calico" Chicken Thighs took first place in the 1975 Texas Chicken Cooking Contest held recently in Austin. Cheddar cheese, dried beef and pimiento strips are stuffed into boned chicken thighs which are then wrapped in bacon. The Texas Department of Agriculture and the Texas Broiler Council sponsored the cook-off.

STUFFED "CALICO" CHICKEN THIGHS
12 broiler-fryer chicken thighs, boned, skinned and flattened
5 Tbsp. lemon juice, divided
1 2 1/2-ounce jar dried beef, finely chopped
12 Tbsp. shredded cheddar cheese
6 strips pimiento, halved
12 strips bacon
2 eggs slightly beaten
1 cup fine dry bread crumbs
2 Tbsp. lemon-pepper seasoning
1 Tbsp. salt
1 Tbsp. MSG
1 1/2 cup corn oil
Place chicken on surface smooth side down. Place 1 Tbsp. dried beef, 1 Tbsp. cheese and 1 piece pimiento on each thigh. Fold sides and secure with wooden picks. Wrap bacon around open end and secure with picks. In one bowl mix egg and 2 Tbsp. lemon juice. In second bowl mix bread crumbs, lemon-pepper seasoning, salt and MSG. Dip chicken in egg mixture, then in bread crumb mixture. Heat corn oil in fry pan over medium heat. Add chicken and brown on all sides. Place in single layer in large shallow baking pan, sprinkle with remaining lemon juice. Bake, uncovered, in 350 oven about 45 minutes or until fork can be inserted with ease. Yield: 6 servings.
For additional recipes write Commissioner John C. White, Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711.

Texas Taxes

By BOB BULLOCK, State Comptroller

Austin - Little leagues and other youth sports organizations across Texas will get a couple of tax breaks starting September 1.

This tax relief comes as the result of a small tax reduction bill passed by the Legislature.

The sales tax division of my office will prepare rules and regulations for provisions in the new law which will exempt little league sporting groups from having to pay sales tax on the uniforms and equipment they use.

But let me point out that the legislation is very specific in stating that the new exemptions applies only to a league organization itself and does not apply to individuals who play in that league.

This means that league officers can go to the sporting goods store and buy uniforms and equipment for everyone playing in the league and that purchase won't be subject to the sales tax. But Johnny or Johnny's dad will still have to pay the sales tax when they make purchases individually.

Another very important part of the new law specifies that this exemption applies only to organizations in which all participants are less than 19 years old.

Between now and September 1 when the new law takes effect, any and all items purchased by these young sports groups will continue to be subject to the sales tax.

As the date of the new law's effectiveness nears my office will be contacting as many sporting stores as possible and explain the new law. We want to give them as much information as possible so they will know for certain when the exemption applies and when it doesn't.

Little League groups also will receive property tax relief from the new tax bill effective September 1. Under this provision all property owned by any non-profit organization which uses that property for youth sports programs will be exempt from all ad valorem property taxes.

I expect that the state will lose very little revenue because of these new exemptions. On the other hand, these exemptions can mean a lot to the groups involved in making ends meet.

There tax breaks were, of course, an attempt by the Legislature to encourage and assist more widespread development of youth sporting programs as a means of giving our young people healthy outlets for their energy and spare time.

TIPS FOR OUTDOORSMEN

by Vern Sanford

When it comes to enthusiastic angling by fishermen of all ages and all ranks of life, crappie seekers undoubtedly head the list.

You'll find these anglers active day and night, sometimes seven days a week. Not just one or two boats at a time either—but dozens. Often they are huddled, two, three or four persons in the boat, in the same area. There's nothing clammy about crappie fishermen. They really stick together.

They're sometimes called brush fishermen. Once they locate a "hot spot", whether it be among a forest of trees or in the center of a clear lake, that's where they like to entangle.

You'll find these anglers sitting in a boat, almost hidden by shrubs and tree tops that protrude from the water.

You'll find them nestled far out in the clear, wide waters. Or so it seems. But far below there's plenty of brush. They just may have anchored over an island. In fact, if brush wasn't there, the crappie wouldn't be — for crappie are seldom found elsewhere.

Crappie are fidgety fish, dashing here, there and everywhere that they can find safety from marauders. Which brings us back again to brush.

Crappie are popular, perhaps for many reasons. In the first place they are plentiful. When you find their hideout you'll find plenty of these fish. They are always hungry, or so it seems. A good crappie fisherman can quite often bring in 10 or 15 or more of them at a time. Because these fish are so plentiful there is no catch limits set by law.

Until you learn their wily ways, crappie are difficult to catch. Really it's an art in itself. Crappie are so crafty that they can take a minnow off a hook without the line showing the least motion. This they do by attacking from below the bait, rising when they strike.

Also they are great nibblers. Crappie anglers know that the slightest movement of the line is the signal to set the hook. Then "all hell breaks loose" for these little buggers are full of fight.

Another reason anglers go for crappie is they are delicious food and can be filleted with little or no bones. Size isn't a big factor in their popularity since most are "pan size", but some two pounders and upwards are caught. Ever so often there is a surprise catch among the crappie, in the form of a three or four pound black bass.

All of which makes crappie fishing the favorite pastime of anglers of all ages and both genders.

Tips For Gardeners
From the Ozona Garden Club by Mrs. Bailey Post

Now that we are in mid-summer in our area, there may be both a plus and minus side to having a successful and enjoyable time of the year. On the plus side, many flowers are at their peak of bloom, it is a great time for outdoor living in the early morning and late evening, and the fun of harvesting all kinds of garden vegetables. And there are so many beautiful and well-groomed gardens in our city, you will have a delightful treat to drive around and see all of them. There is always a minus side too it seems. The first problem is that weeds grow so prolifically to make our streets, vacant lots, business fronts and alleys untidy. Will you help prevent this by doing your share to beautify and keep Ozona clean? The control of insects and diseases seems to be a must also. And the constant chore of watering becomes dull, but does refresh and give beauty and new life to your plants and trees.

Three tips to help you get the most from your geraniums: The foremost requirement for profusely flowering geraniums is plenty of sunshine, but they do very well without the hot afternoon sun. Second, they bloom better if kept somewhat on the dry side, as over watering causes dark spots on the foliage. Potted plants may need to be watered more often than if in a flower bed. Third, geraniums grow reasonably well in almost any good soil that is low in nitrogen. An excess of nitrogen in the soil causes rank foliage growth rather than developing flowers.

There are several varieties of artemisia (Dusty Miller) that gives a quick edging to flower beds and borders and is an ideal contrast plant where brilliantly colored flowers bloom. The plants should not be watered too liberally, and given a spot in the sun. It dried beautifully for winter arrangements.

COUNTRY CLUB BRIDGE

Mrs. Billy Carson was hostess for bridge at the Country Club last week. High score went to Mrs. Jake Short with Mrs. Sherman Taylor winning second high. Low went to Mrs. Billy Carson and bingo winner was Mrs. Gene Perry.

Others attending were Mrs. Clay Adams, Mrs. Bob Bailey, Mrs. John Childress, Mrs. Hugh Childress, Mrs. Dave Matney, Mrs. Kirby Moore, Mrs. Buddy Phillips, Mrs. Evert White, Mrs. Gene Williams, Mrs. Jack Williams, Mrs. Tommy Wilson and Mrs. Dick Kirby.

CALLING ALL HOMEMAKERS

Brought to you by Lillian Brown

FOUR DECORATING THOUGHTS FOR THIS WEEK

1. Why not think of new uses for wall decorations in your home--for instance, how about a wall decoration for that plain kitchen wall or for that dull untiled space around the bathtub.

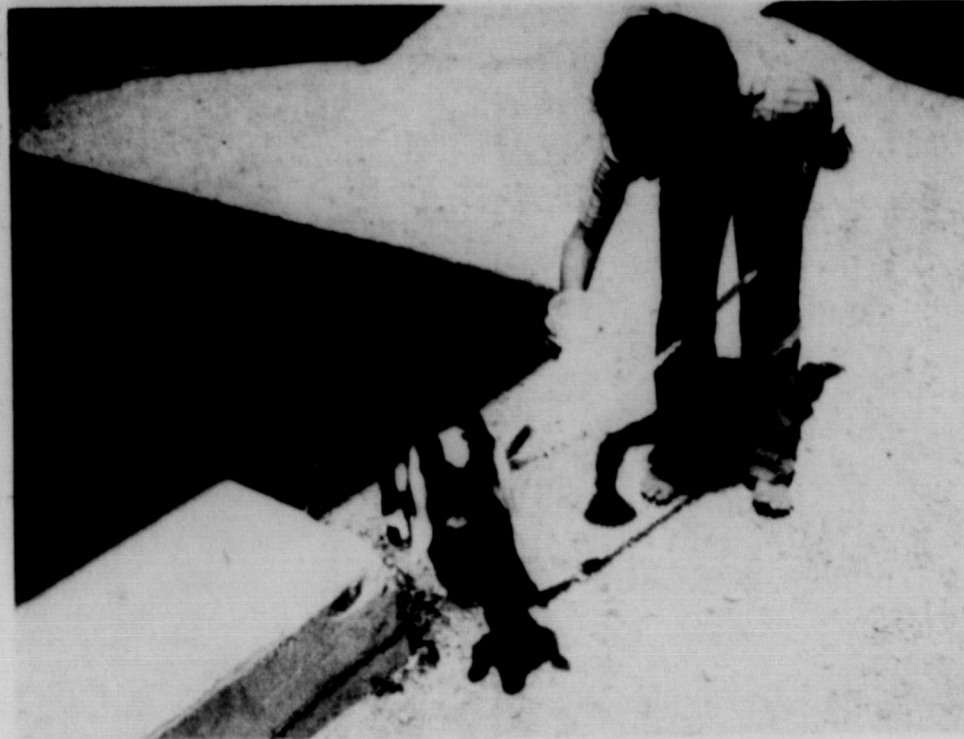

2. If possible, don't allow the back of a sofa, or the backs of chairs to be the first thing a person sees upon entering a room. Remember that the front or sides of a sofa or chairs are more inviting. But, if a sofa back must be seen, put something behind it like a long table with a lamp on it, and it will be more attractive.

3. When furnishing a room, you might want to remember a little poem of advice written years ago by a famous decorator. He said to use "something dark, something light, something dull and something bright" in a room to give it interest and contrast.

4. While both clocks and mirrors are necessary in your home for their basic functions, as long as you're going to use them, they might as well add something decorator-wise to your home. So, shop for mirrors and clocks that have a decorator touch.

And, here's a fifth decorating thought: To see lots of ideas, and to talk over your decorating and furnishing needs, stop in here and browse. We extend you a cordial invitation.

Brown FURNITURE

ON A HOT DAY LAST WEEK little Kim Carver of Odessa stops on the parking lot of the Dairy King to offer her pet goat a drink of ice water. Kim, her brother and father were on their way to Phoenix to a rodeo.

Debra Says
by Debra Price H. D. Agent

Nonfat dry milk has all the qualifications to place it high on the list of convenience foods. It has multiple uses, requires little storage space, has long shelf life, and instant availability. One added advantage--it's inexpensive. Right now it's also plentiful. The U.S. Department of Agriculture (USDA) reports that commercial stocks are more than double those of a year earlier. In total volume it represents nearly 115 million pounds.

Nonfat dry milk is defined as "milk from which only the fat and water have been removed." As to its nutritive importance, it contains all the proteins, minerals, and water soluble vitamins of the nonfat portion of milk.

As a result it works well for weight watchers looking for high nutrition and low calorie count, and for those requiring protein or other nutritive boosts. It can be added to fluid milk and other foods to increase protein, mineral, and vitamin count.

You can buy it by the box, mix it by the quart or gallon, drink it by the quart or gallon, drink it by the glass, whatever your family milk requirements are. You mix only what you need, when you need it. Once it has been reconstituted, freezing is not recommended. However, once reconstituted, it should be refrigerated.

These nutritious and appetizing recipes are made with nonfat dry milk. . . . CRUNCH APPLE MUFFINS 2 c. sifted all-purpose flour 1/3 c. instant nonfat dry milk 1/3 c. granulated sugar

4 t. double-action baking powder
1 t. salt
1 t. cinnamon
1 c. finely chopped peeled apples
3/4 c. water
1 egg
1/2 c. vegetable oil

Sift flour, add nonfat dry milk, sugar, baking powder, salt and cinnamon in bowl. Mix in apple. Combine water, oil and egg. Stir into flour mixture. Do not over mix. Spoon into 12 well greased muffin cups. Combine ingredients for topping.

Sprinkle topping over batter in each cup. Bake in preheated 400 degree oven 18 to 20 minutes. Serve warm. BROCCOLI IN CHEESE CUSTARD 1 (10 oz.) pig, frozen chopped broccoli

3/4 c. instant nonfat dry milk
1/2 c. shredded Swiss cheese
2 eggs
2 T. lemon juice
1/8 t. pepper
1/2 c. hot water

Cook broccoli according to package directions. Drain well. Meanwhile, in a large bowl beat remaining ingredients until combined. Place broccoli in a 1 1/2 quart casserole. Bake in preheated 350-degree oven 40 to 45 minutes or until knife inserted in center comes out clean and top is browned. Yield: 6 servings.

MOCHA MILK SHAKE
2 T. instant coffee
1/2 c. warm water
1 c. instant nonfat dry milk
1 quart cold milk
1 quart chocolate ice cream, softened

Dissolve instant coffee in warm water. Put nonfat dry milk and cold milk into bowl or jar. Add dissolved coffee. Mix well. Add softened ice cream, and beat or shake just enough to blend ingredients. Pour into tall glasses and serve immediately. Yield: 6 servings.

Corporation To Try To Reopen Gas Field Multipay Field

Texas Oil & Gas Corp., Midland, will attempt to re-open the M.P. 1 (Ellenburger gas) field of Crockett County with the staking of its No. 1-7 Arco, an 8,300-foot test 5/8 mile northwest of the depleted opener of the four-well field surrounded by shallow oil production and 1 1/4 miles south-southwest of the Ellenburger re-opener of the World field and 11 miles southwest of Big Lake.

Location, exception to Rule No. 37, is 1,900 feet from the south and 2,300 feet from the west lines of 7-A-BS&F.

The M.P. 1 opener, Mallard Petroleum Inc. No. 2 Conoco-Enco was finished June 22, 1968 for a calculated absolute open flow of 2.9 million cubic feet of gas per day with gas-liquid ratio of 4,170-1 through perforations at 8,100-182 feet. Gravity of the liquid was 52.4 degrees.

The World re-opener, Texas Oil & Gas No. 1-34 University was finished June 10, 1974 for 102 barrels of 50 gravity oil, plus 30 barrels of water, with gas-oil ratio of 950-1, through a 20-64-inch choke and perforations at 8,094-107 feet.

Resources Investment Corp., Denver, No. 1 J. S. Todd, et al, in 1-WX-GG&SF, scheduled wildcat, 1/4 mile north of the two-well Strawn oil area of the Todd multipay field of Crockett County, 21 miles northwest of Ozona, swabbed and flowed 7 1/2 hour from the Strawn lime making 65 barrels of fluid, 50 per cent oil and 50 per cent salt water.

Recovery was natural through perforations at 6,372-384 feet. Operator was preparing to install a pumping unit.

It recovered 155 feet of slightly gas-out drilling mud on a drillstem test in the Ellenburger at 6,309-992 feet.

V. I. Pierce, Ozona, will drill the No. 2 Fee, a 6,800-foot wildcat in Crockett County, 25 miles southwest of Ozona, 1-5/8 miles northeast of Canyon gas production in the Ozona multipay field, 1 1/4 miles north of the V.I.P. (multipay Clearfork oil and gas) field and 5/8 mile east-northeast of his No. 1 Fee, active wildcat.

Location is 1,961 feet from the south and 1,242 feet from the east lines of 9-BB8-HE&WT, Abst. 3369. Ground elevation is 2,406 feet.

The No. 1 Fee, in the same section, also scheduled to 6,800 feet is being drilled "tight." Tucker Drilling Co., Inc., San Angelo, is the drilling contractor.

In spite of a downpour of rain and thunderstorm Saturday afternoon while VFW members were preparing barbecue on the patio at the VFW Club, the affair went on as scheduled.

Over 90 persons were served barbecue beef brisket, sausage, potato salad, beans and all the trimmings, all prepared by members of the post.

Howard Graves of Bandera was in Ozona on business this week.

V. I. Pierce To Drill In Multipay Field

Oil & Gas No. 1-34 University was finished June 10, 1974 for 102 barrels of 50 gravity oil, plus 30 barrels of water, with gas-oil ratio of 950-1, through a 20-64-inch choke and perforations at 8,094-107 feet.

Resources Investment Corp., Denver, No. 1 J. S. Todd, et al, in 1-WX-GG&SF, scheduled wildcat, 1/4 mile north of the two-well Strawn oil area of the Todd multipay field of Crockett County, 21 miles northwest of Ozona, swabbed and flowed 7 1/2 hour from the Strawn lime making 65 barrels of fluid, 50 per cent oil and 50 per cent salt water.

Recovery was natural through perforations at 6,372-384 feet. Operator was preparing to install a pumping unit.

It recovered 155 feet of slightly gas-out drilling mud on a drillstem test in the Ellenburger at 6,309-992 feet.

VFW Barbecue Is Success

Over 90 persons were served barbecue beef brisket, sausage, potato salad, beans and all the trimmings, all prepared by members of the post.

Howard Graves of Bandera was in Ozona on business this week.

The Conservation Party. Join In.

Do your bit for conservation while you do your thing. A gas grill lets you cook outside and take the heat with you. You don't put an added tax on your air conditioner with cooking heat. A gas grill is so convenient (no charcoal mess or bother) eating 'out' will become an everyday affair. And, it will add a charisma to your outdoor living that will last all year long. Get the voters 'out' and that wonderful charcoal taste will earn you a vote of confidence from family and friends. You'll receive a mandate for more gas grill cooking. Ask any Pioneer employee.

Buy now and receive FREE this aluminum shelf... Offer expires July 31, 1975. PIONEER NATURAL GAS COMPANY

Many of us grew up with pictures of caravans crossing the sands of the Sahara. Those in the West know that the desert has many faces. One of our common mistakes in life is to assume that trees make a forest, flowers a garden, clothes a man... that appearances promise reality. One of the invaluable influences of Christianity upon society has been its distinction between the facade and the truth. Christ taught that men must be known by their faith. Lack of spiritual concern is the surest way to make the world a desert of trees... a society of people without a sense of responsibility. Wastelands cry out for reclamation. The Church Christ founded is reclaiming our society for Him. You need its Message.

Introducing Dimension 2000, The Super Coating

JUST WHAT IS DIMENSION 2000?

Dimension 2000 is a phenolic epoxy coating-not a paint-created in laboratories of today's super-scientists. Technically speaking, it's a bis-phenol reacted epoxy ester which means, simply, that it has the unique adhesion and hardness of epoxy-the magic word in a whole line of products a few years ago-combined with the durability, toughness and resistance of phenolic resins.

Unlike ordinary paints or other epoxy coatings, it needs no baking or catalytic action to acquire its tough film. This means no mixing and measuring of two part components, no messy clean-up, no spills and more important-nothing to go wrong when you use it.

WHAT DOES THIS MEAN TO THE ORDINARY HOUSEWIFE?

Dimension 2000 means truly remarkable resistance to dropped oils, grease, dirt, scuff marks, even acids and alkalis. It withstands boiling water and strong solvents or detergents so it's ideal in kitchens and bathrooms, laundry rooms, garages and rumpus rooms. Because it is so abrasion resistant and scrubable, you can use it on

surfaces that get the toughest wear, knowing that a simple wipe off will restore its deep luster and polish.

WHAT DOES THIS MEAN TO THE HOMEOWNER?

Whether you're a handyman or not, Dimension 2000 is a quick, simple solution to a number of "protecting" problems around the house and home. Damp in the basement? A couple of quick coats of Dimension 2000 will provide an effective seal. Afraid of dry rot in structural timbers?

This new supercoating does the trick. Concrete floors in garages, basements and patios are protected and brought to life with this space-age treatment. Have aluminum siding that needs cleaning up? Dimension 2000 will do that too.

But don't just think Dimension 2000 is for protective purposes only. Oh, no. It comes in a range of 8 decorator colors in addition to 2 clear finishes. For a superior decorative finish of extended durability, it gives added beauty to a multitude of exterior and interior surfaces. Use it where you would any other paint. It flows on smoothly and evenly, shows no brush marks and gives an attractive lustrous finish that keeps its fresh appearance for years to come. What's more, it contains no lead pigments so it is

completely safe in the nursery or playroom. No awful painty odor, either.

IF IT'S SO GOOD, WHY HAVEN'T I HEARD OF IT BEFORE?

A good question with a simple answer. Dimension 2000 is a new development out of the laboratories of today's super-scientists. Breakthroughs in coatings technology like this just don't happen overnight. And then there are the months and months of testing before we deem it absolutely all we say it is before placing it on the market. There are atmospheric exposure tests, salt water spray tests, Barcol hardness tests, scuff and abrasion tests, weathering tests, tests for gloss, color retention, hiding, brushability, we could go on for pages.

But perhaps the real answer is that Dimension 2000 has been, up until now, a product for the military. A military secret, you might say. Formulated to more than meet U.S. Government specifications, it is presently in use on aircraft radar domes of the Royal Canadian Air Force, military installations and industrial structures and commercial buildings throughout the country. A product designed for the exacting requirements of government and industry, we are now making it available to everyone.

WHERE CAN YOU USE DIMENSION 2000 COATINGS?

Where can't you! Any kind of surface you can think of can benefit from the protection that Dimension 2000 gives. Wood, steel, aluminum, concrete, fiberglass, masonry-you name it. Got a boat? It's perfect for marine applications above and below the water line, especially if you dry sail it. Plank or plywood, Dimension 2000 will keep it shipshape and Bristol fashion through seasons of harsh, salt water and corrosive exposures.

Aluminum doors and screens, concrete floors, wood doors and trim, swimming pools, machinery for industry and agriculture, bridges, tunnels and factories, barns, boats and docks, sheds, pet houses and anything you can name, all, repeat, all can benefit from the long lasting beauty and protection of Dimension 2000.

WHERE CAN YOU BUY DIMENSION 2000?

Call or see Max Morris at Maxine's Flowers, 701 First Street, 392-2648.

- Adv. -

Handcraft Program Keeps 4-Hers Busy

4-H members are keeping busy this summer with a handcraft program. 4-H summer projects include decoupage, embroidery, plastic weaving, terrariums, felt flowers, decorated boxes, knitting, crocheting, wood stick art, macrame and seed art.

Young people with a desire to learn more about their world have the opportunity to participate in a fast-growing organization--4-H.

"The 4-H program offers a variety of activities for youth between the ages of 9 and 19," says Debra Price and Billy Reagor, County Extension Agents for the Texas Agricultural Extension Service.

"Young people can get involved in project groups, special interest groups or service groups that appeal to their interests."

While 4-H meetings cover a variety of subjects and activities and are held periodically, project groups work on one specific subject and last only as long as the project endures.

"Project subjects may include gardening, auto repair, raising and caring for an animal, safety and clothing, to name only a few." These project groups are directed by volunteer leaders.

Special interest groups are a vital part of the 4-H program and may deal with such subjects as drugs, dating, etiquette and ecology. These

group studies help youth learn more about the world in which they live and help them to better adapt to the changing environment.

Service groups work to help improve the community and may engage in fund raising projects for the needy and disadvantaged or work on neighborhood beautification or with underprivileged youth. The 4-H and youth program is a good way to get involved in today's world.

CARD OF THANKS

May we take this opportunity to thank all our friends for the many acts of sympathy on the loss of our loved one. We are deeply grateful for all the food, the lovely floral offerings and other condolences.

The family of Allen McKinney

State 4-H Horse Show Is July 23-26 In Ft. Worth

More than 600 Texas 4-H and other youth will be on hand for the 1975 State 4-H Horse Show at the Will Rogers Coliseum in Ft. Worth July 23-26.

The show will feature open invitational competition as well as the regular show for qualifying 4-H youth, announced B. F. Yeates, horse specialist for the Texas Agricultural Extension Service.

Some 200 4-H boys and girls who have qualified through competition at the county and district shows will participate in the regular show classes which will feature horses at halter, showmanship and the performance classes of Western pleasure, Western horsemanship, reining, pole bending and barrel racing.

Drill team competition will be held at 7:30 a.m. the following morning. Finals in all the open classes will be held Thursday afternoon. The regular show begins with preliminaries in showmanship at 5 p.m. Thursday. Horses will be judged at halter beginning at 8 a.m. Friday. Preliminary competition in Western pleasure, reining and pole bending will continue throughout the day and evening.

Preliminaries in Western horsemanship and barrel racing will be conducted Saturday morning, and final competition in all classes of the regular

show will begin at 2 p.m. An awards program will conclude the state show.

Honorary show chairman is Tarrant County Judge Mike Montcrief, with Gene L. Dumbbar, vice president and trust officer, Ft. Worth National Bank, serving as show chairman.

Among show judges will be Dale Wilkinson of Findlay, Ohio, George Cheatham of Tulsa, Okla., Jim Heird of Wilkesboro, N.C., and Elvin Blackwell of Dallas.

According to Yeates, a horseman's handicrafts show will also be a part of the total show program.

Ozona Girl Scouts Host National Tour

Ninety Girl Scouts from all over the United States were entertained in Ozona Monday. Ozona was the first stop on the tour which left San Angelo Monday and travel around the ranch country, to Mexico and back to San Angelo. The tour is a national event entitled "Ranching Southwestern Style."

The group and their adult supervisors were met at the Big "O" Theatre by Ozona Troop 189. They were brought to town Hayride Style on a large truck filled with hay, furnished by Lilly Welding and Ranch Feed & Supply. They were divided in two groups and toured both wool houses.

They enjoyed dinner in the city park. The meal was prepared by Ozona Girl Scouts and their mothers.

New Warranty Law For Clothing In Effect

Consumers can look forward to more explicit warranties from fiber manufacturers who offer warranty programs on their products. Claudia Mittel, consumer information-clothing and textiles specialist, reported this week.

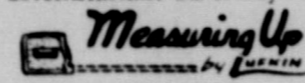

The new law--effective July 4, 1975--does not make warranties mandatory. It does set standards that manufacturers must follow if they offer warranties, the specialist with the Texas Agricultural Extension Service, The Texas A&M University System, said.

"For the consumer, clothing warranties are an excellent way of insuring a high standard of materials and workmanship. Warranties are found on many types of clothing and some household furnishings.

"If durability is important to the consumer, he should look for those items which carry warranties."

The specialist noted that one major provision of the new law is to distinguish between "limited" and "full" warranties. A full warranty will cover all aspects of fiber, fabric and apparel performance whereas a limited warranty will not.

"Another requirement the law will effect is the use of the word 'guarantee.' This word will no longer appear by itself on any hangtags or advertisements. But it may

Robert Wadlow was the tallest known man. He reached the height of 8 feet 11.1 inches.

"Princess Pauline" of Holland was only 23.2" tall at

the age of 19, and weighed only 9 lbs. at her heaviest.

However large or small a person is, there's a ruler, tape measure, yard or metre stick made by Larklin to measure him.

The tallest woman in history was Jane Bunford of 18th century England, who grew to 7'7".

History Book Group Meets

A group of Ozonans met Sunday afternoon at the courthouse to work on the proposed "History of Crockett County." The history, a project of the Bicentennial Steering Committee, will feature the histories of families and businesses in the county.

Once again, the committee reminded those interested that September 1 is the deadline for getting stories in and getting the book to the publisher.

Three high school girls, Karen Moody, Luann Perner and Lynn Manes, have volunteered to assist with getting the book together.

Mrs. Joe Friend returned this week from McAllen where she visited her son and his family, Mr. and Mrs. Joe W. Friend and children.
