

Rio Treaty Signed By 19 Nations

RIO DE JANEIRO, Sept. 3. (AP)—The treaty of Rio de Janeiro, an unprecedented pact pledging nations of the Western Hemisphere to act in concert against any aggression in the hemisphere's security zone, was signed in formal ceremony yesterday by 103 delegates of 19 nations.

The treaty, which is subject to ratification by the Congresses of the signing republics, was drafted in 18 days by delegates attending a hemisphere defense conference at the resort of Quitandinha in the mountains 45 miles north of here.

U. S. Support Is Urged For Palestine Plan

LAKE SUCCESS, Sept. 3. (AP)—Pressure was being put on the United States today to back Jewish aspirations for a national home in Palestine in the United Nations Assembly's forthcoming fight on the Holy Land.

The American Jewish Conference, representing 63 major Jewish organizations, demanded that the United States take the leadership in the proposed Palestine partition plan and warned that the "dare not shirk" previous commitments regarding the future of the Holy Land.

This development came after an authoritative source had already hinted that Britain may ask the United States to assist materially in the interim administration of Palestine if the United Nations agrees to divide the Holy Land into Arab and Jewish states, as recommended by a majority of a United Nations special commission.

In an official statement, the Jewish conference declared: "A great moral responsibility rests upon the United States, arising out of its previous commitments, which it dare not shirk. It must take the lead consistent with past American policy for only in this way can it insure an immediate and affirmative solution for the general assembly of the United Nations."

The commitments to which the conference referred included President Truman's recommendation for prompt admission of 100,000 Jews to Palestine—a suggestion disregarded by the British mandate for power—and a Jewish state in an "adequate area" of Palestine.

Apparently believing the assembly will approve the U. N. commission's partitioning plan, the Jewish group said that "whatever position the assembly takes, we have no doubt, it will have the support of the overwhelming majority of American Jews."

President Truman eluded his guard for a while today and went orchid hunting on Corcovado mountain behind the U. S. embassy residence.

The President and his physician, Brig. Gen. Wallace H. Graham, climbed more than 1,000 feet up from the base of the cliff on which stands the famous Statue of Christ overlooking Rio de Janeiro.

The President moved briskly along, inspecting orchids dotting the mountainside. Graham was able to identify most of them. They dug up a few plants and carried them back.

Brazilian sentries challenged them near the residence. The President was amused when Graham spoke sharply to them in German. Something in Graham's tone, or recognition of the President persuaded the sentries to let Mr. Truman and Graham through.

The President found time during the day to work on a special address he will deliver Friday to a joint session of the Brazilian Congress.

AUSTIN, Sept. 3. (AP)—Some loss of matured Texas crops and delays in harvesting operations resulted from the recent tropical storm, the United States department of agriculture reported today.

Benefits to growing crops and pastures probably more than offset the losses, however, USDA said. Some loss of cotton lint was said to have resulted from the high winds and beating rains in upper coastal and southeastern counties, but these losses probably were offset by improved condition of late cotton in more northeastern areas affected by the storm, USDA noted.

HOPES REVIVED — Jose Maria Ibarra (above), deposed president of Ecuador, rushed back to his country as a counter-revolt succeeded in ousting Col. Carlos Mancheno, the man who recently forced him into exile. (AP Wirephoto).

Counter Revolt Ousts Mancheno From Ecuador

QUITO, Ecuador, Sept. 3. (AP)—The nine-day-old regime of Col. Carlos Mancheno lay in tattered ruins today and Mariano Suarez Veintimilla, the reputed leader of a counter-revolt which caused Mancheno's downfall, assumed temporary power over Ecuador.

Mancheno resigned last night as counter-revolutionary forces bore down on Quito without opposition. Diplomatic informants said he had taken asylum in the Venezuelan embassy and intended to leave the country as soon as possible. Other sources said he had simply disappeared.

Mancheno's resignation was followed by an immediate cessation of fire on all fronts and marked the apparently successful conclusion of a counter-revolt which began last Saturday night.

The vanguard of the counter-revolutionary forces entered Quito from the north soon after Mancheno quit.

At 11:15 p. m. Suarez, accompanied by colleagues of his conservative party, entered the government palace and assumed authority as vice president. The office he held under the regime of President Jose Marie Vlasco Ibarra, who was forced into exile by Mancheno's bloodless, one-shot coup on Aug. 24.

Suarez immediately disclaimed personal ambitions and said he would remain in power only so long as necessary to convolve an extraordinary session of Congress to designate a president for the period until the next elections in May, 1948. He said the Congress would be composed of members elected last June.

HITS PRICES — LOS ANGELES, Sept. 3. (AP)—Rep. Helen Gahagan Douglas (D-Calif.) says that since price controls were lifted "prices not only haven't adjusted themselves to what consumers are willing to pay but production has actually fallen below the wartime peak."

LAWMEN REGISTER FOR FBI SCHOOL — Twenty-five law enforcement officers, representing local agencies and two neighboring counties, registered Tuesday afternoon for the first session of a 10-day school being conducted here by agents of the Federal Bureau of Investigation.

On the opening day, two registered from Colorado City, one from Lamesa, two from the Howard County Sheriff's department. All members of the Big Spring police department are taking the course.

Public relations and patrol work were studied at the first session. The class meets at 5 p. m. each day and concludes at 7 p. m. Dwight Brightman of the FBI office in Dallas, is in charge of instruction during the first two days of the school.

TROOPS MOVE TO ROUND UP RIOTING FARMERS IN MEXICO — MEXICO CITY, Sept. 3. (AP)—Strong troop detachments moved on the village of Ciudad Hidalgo today with orders to round up farmers who killed a veterinarian and six Mexican soldiers yesterday when they arrived to inspect cattle for hoof and mouth disease.

The lone survivor of the eight-man party, a soldier who made his way, although badly wounded, to a military post at Zitacuaro, said the crowd of angry farmers numbered in the "thousands" and apparently acted in fear that some of their animals would be found infected and slain.

The Mexican veterinarian, Augusto Suarez Medina, had held a meeting Monday during which he explained the nation's current drive to wipe out the dread cattle disease and told the farmers the government would pay on the spot for any animals slaughtered. Ciudad Hidalgo is in mountainous western Michoacan state.

The soldier who escaped said the crowd lay in ambush, rushed on the party, disarmed the soldiers and stabbed the veterinarian, a captain and five of the six soldiers.

Believes Building Is Key To Problem — Solon Says Rent Control Law Depends On Housing Setup

WASHINGTON, Sept. 3. (AP)—\$100,000 Housing investigation being organized by a Senate-House committee headed by Rep. Gamble (R-N.Y.). Senator McCarthy (R-Wis.), vice-chairman of the joint committee, said that if the 14 members can't find an answer to the housing shortage, "We should resign our jobs and go home."

Lovett Says Europe Must Have Aid Soon

Leader Sees Special Action By America

WASHINGTON, Sept. 3. (AP)—Undersecretary of State Lovett said today that the economic crisis in Europe is developing much faster than expected and some kind of American action to meet it apparently will be necessary before the end of the year.

In making the grimmest presentation of the European picture since Secretary Marshall put forward his self-help recovery plan, Lovett repeatedly refused to say flatly that a special session of Congress later this year would be necessary.

But he strongly indicated to a news conference that a special session might be needed.

The view that a special session probably would be necessary had been expressed to reporters earlier by Rep. Hays (D-Ark.), just returned from a seven weeks tour of Europe.

Hays declared: "If Congress meets its full responsibility with respect to stabilizing conditions in Europe," Hays told a news conference, "it will in all probability be necessary for us to be in session before January, x x x assuming that the Marshall Plan will take shape by that time and that we will have something definite and substantial to work on."

Lovett told reporters it is now apparent that the deterioration in Europe's condition means that the problem will be upon the United States sooner rather than later.

He said that appropriate steps evidently will have to be taken in a matter of months rather than some time next year. He declared such steps might cover either temporary devices, such as extension of financial assistance by the World Bank where possible, or might embrace what he called permanent measures.

Gestapo Agents Are Sentenced

HAMBURG, Germany, Sept. 3. (AP)—A British military court sentenced 14 operatives of the dread Gestapo to death today on conviction of killing 50 allied flying officers on personal orders from Adolf Hitler.

Two others were sentenced to life imprisonment and two received 10 year terms.

All the secret police stepped one by one with stiff, military bearing before the dock to hear their fate. The men they had killed had escaped from a prison camp at Sagan, Silesia in 1944. After recapture, they were taken to a lonely road and shot.

If the sentences are confirmed by the British commander in chief, Air Marshall Sir Sholto Douglas, those to die will be hanged in the ancient town of Hameln.

Review Demanded On Petkov Case

WASHINGTON, Sept. 3. (AP)—The United States has demanded that Russia join with America and Britain in a review of the "repressive campaign" by the Bulgarian government against Bulgaria's agrarian union and its leader, Nikola Petkov.

Petkov, whose party is anti-communist, is under sentence of death for allegedly plotting against the communist-controlled government of his country. The United States has branded Petkov's conviction a miscarriage of justice and has sought by various moves to save him from execution.

Undersecretary of State Lovett announced at a news conference today that the new American protest against the situation in Bulgaria was delivered by Ambassador Bedell Smith to the Soviet foreign ministry on Saturday.

Wichita Falls Phones Are Cut Off

WICHITA FALLS, Sept. 3. (AP)—An estimated 2,000 residences and most of the downtown area here was without telephone service for a short while yesterday after a pipe-laying machine severed a telephone cable.

Telephone silence covered police and fire departments, the Wichita general hospital and newspapers and radio offices.

Service was restored in the business district in a short time. However, most of the residential telephones were still out of order late last night and crews were assigned to all night duty in an effort to restore the service.

Prison Head Admits Hiring Of Sadists

ENGINEER PINNED IN LOCOMOTIVE — A rescue worker climbs to the wrecked cab of a Canadian National Railway vacation special to try and free the body of Engineer G. W. Lewis of Transcona, Man., whose train collided at Dugald, Man., with a transcontinental train, killing at least 35 persons. The tender was jammed into the locomotive's interior. (AP Wirephoto).

Charges Low Pay 'Forces' Move

HOUSTON, Sept. 3. (AP)—The Texas prison system has been "forced" to hire some illiterate and even some sadist guards because of the low salaries being paid guards, Maj. D. W. Stakes, general manager of the prison system, said in his annual report to the prison board.

Maj. Stakes hastened to add that not all of the prison guards are this type. There are some fine, intelligent and efficient guards working for a very low wage, he explained, but the low salaries and other factors make it difficult for the prison system to attract and keep such men.

Copies of the report were given to members of the prison board at their regular meeting this week in Houston, it was learned. The report, while covering the year 1946, is just being released.

"In times such as these no one can expect to be able to employ men qualified for custodial work for \$115 per month," the report read. (These salaries have since been raised to \$120, but prison authorities set a minimum of at least \$150 for such work.) As a matter of fact the turn-over has been great among our guards and we have had to take men who were capable of doing little more than sitting astride a horse and holding a gun," Maj. Stakes continued.

"In many cases they were aged and infirm; nevertheless our need was such that we were forced to employ them as a consequence, suffer escapes and other unnecessary reverses."

Some of these men were found to be illiterate; others sadist; others so unintelligent and incapable that they were a distinct menace to safety of society at large. While we weeded such from the ranks where possible, those who followed were little better," Maj. Stakes told the board.

"Our critics apparently are unwilling to recognize and assist us in correcting the cause—low salaries."

In summarizing his report, Maj. Stakes said three of the most important needs of the prison system are:

- 1. Increased salaries, especially for the lower bracket personnel.
2. Expanded and better adapted housing facilities both for the inmates and the guards.
3. Enlargement of the prison system industries.

Bevin Asks U. S. To Re-Distribute Gold

SOUTHPORT, England, Sept. 3. (AP)—Foreign Secretary Ernest Bevin called upon the United States today to redistribute "the Fort Knox gold" to eliminate constant chaos in world trade payments.

"I am quite sure that is one of the readiest ways to assist in increasing the purchasing power of the devastated areas of the world," he declared in a speech to the powerful British Trade Union Congress.

Bevin did not explain whether he was speaking literally or symbolically in proposing redistribution of the gold. Nor did he indicate whether he believed the idea could be integrated with the Marshall rehabilitation.

(The United States now owns over \$21,765,827,000 worth of gold, about three fifths of the known world holdings of gold for monetary purposes. Approximately \$12,500,000,000 is kept at Fort Knox, Army stronghold in Ky. These figures do not include commercial gold such as that used in jewelry.)

Bevin asked for a pledge from the army workers to fight a battle of production against starvation as the government's method of combatting Britain's economic crisis.

He announced a personal decision to seek a customs union for the British Empire and Commonwealth. He said the cabinet had not reached a decision.

"I do not think we can avoid any long common defense and the acceptance of certain common economic principles if we are to avoid these constant recurring crises."

"We have got to settle this balance-of-payments business in the world or it will be constant chaos," Bevin said.

Schools May Enroll 2,800

Enrollment pointed toward 2,800 the first day of school here Tuesday and forecast the possibility of two or more sections for nearly half of the classes in the first through the sixth grades.

South, East and North Ward may escape most of the double-day sessions, but this may not be without exception and may involve transfers of some students out of their districts.

Figures were not complete on enrollment, for totals on the second, third, fourth and sixth grades—the latter a particularly heavy one—at Central Ward were lacking. However, it was estimated that the total white elementary school enrollment on the opening day approached 1,800. The Lakeview school for Negro children had a total of 87 on the first day.

West Ward school almost had youngsters bulging from the windows with a first day enrollment of 487. Central Ward had an estimated 300. College Heights 259. South Ward 1844. Kate Morrison 200. East Ward 163. North Ward 183.

There were 133 eighth graders who showed up the opening day and 718 who entered senior high school. Walter Reed, high school principal, said that more than two score new students were noted and there were a large number

August Weather Was Cool, Dry

Dry and comparatively cool weather featured the August weather menu, regular monthly summary by the U. S. Weather Bureau showed here Wednesday.

While the mean temperature of 81.3 degrees was 1.2 degrees under the average since 1900, the precipitation was only .75 of an inch, or 1.32 below normal.

The fact that the moisture was contained principally in a .73 of an inch shower which fell at the weather bureau at the airport but never so much as got into Big Spring further reflected the acuteness of drought conditions.

Only one day, Aug. 10, produced a reading of as much as 100 degrees with the day before and high readings. Minimum temperature was 65, far under the 47 record in 1916, while the maximum fell far short of the top August temperature of 108 in 1911.

Total precipitation since Jan. 1 was pegged at 9.40 inches, or 3.01 was only slightly off the August total of 99 of an inch last year, and August was the driest since 1943.

Thousands Of Texas Veterans Cash In Bonds

Additional Texas war veterans by the thousands cashed their terminal leave bonds today but banks reported crowds not near so large as yesterday's which caused a number of banks to stay open after regular closing time.

Millions of dollars in bonds were cashed yesterday by veterans who jammed virtually every bank in the state. In instances the rush was so great that bank officials asked some to come back today.

An estimated \$1,659,000 was passed out by Dallas banks to an estimated 7,000 veterans in a five-hour period. Many veterans were lined up even before the doors opened.

The story was much the same in other state cities. Various reasons were given by the veterans for cashing the bonds. Payment of debts was the most common explanation. In Waco, many said they intended to purchase homes.

Rio Grande banks from Mission to Brownsville reported a rush by hundreds of former GI's, with the average veteran receiving \$250.

Houston prepared to take care of possibly 52,000 bonds. The figure was estimated by the Harris county veterans' service center on the basis of 60,000 ex-servicemen in that area.

Jammed El Paso banks issued \$566,810 to 2,371 bond holders the first day.

All of San Antonio's banks were crowded. Waco's three banks were packed. In fact, at practically every banking institution in the state—at Abilene, Borger, Denton, Austin and San Angelo—the scenes were virtually a carbon copy of each other, scores of GI's lined up; harried bank clerks passing out money.

Bond Cashing Is Brisk Here

Cashing of terminal leave bonds by GI's tapered off here Wednesday but continued at a brisk pace at both Big Spring banks.

Tuesday's initial rush on the redemption of the certificates given GI's in lieu of terminal leave accounted for approximately 460 bonds for about \$103,000 here. This was roughly \$225 per veteran, in line with state averages.

Early pressure Tuesday kept bank lobbies jammed but weary clerks thinned lines perceptibly before closing time. At that, however, the volume was in rush-like proportions at closing.

Wednesday morning brought further relief to harried clerks, but there was still a substantial number of GI's in line with bond certificates in hand.

While there was no means of accurately determining the number of such bonds held by GI's in Howard county, it was probably that the first day's cashings ranged somewhere between 20 and 25 per cent of the total.

It was too early to ascertain the effect on retail sales, although several establishments noted some increase in heavy consumer goods going to veterans Tuesday. Most houses experienced stimulated business, but part of that was the normal post-holiday rush.

Some local men expressed belief the full effects would register on the retail market, and some thought the prospects might stimulate any trends toward price reductions for at least a temporary period.

Labor Board May Be By-Passed By CIO

WASHINGTON, Sept. 3. (AP)—Strong prospects arose today that CIO unions will by-pass the National Labor Relations Board for the time being without announcing a clear-cut decision on the issue of non-communist affidavits.

The affidavits are required by the Taft-Hartley Act as a condition to using any facilities of the NLRB. The CIO's nine vice-presidents, President Philip Murray and Secretary-Treasurer James B. Carey will meet in Pittsburgh tomorrow to consider the question. They are the key figures in the controversy stirred by a ruling of NLRB General Counsel Robert N. Denham that no CIO union can come before the board unless all the top CIO

officers sign the affidavit. In that document, they must swear they are not members of the communist party and do not support any organization that believes in overthrow of the government by unconstitutional methods.

**The CHIROPRACTOR-and You**

No. 12 Of A Series Of Articles Published In The Public Interest To Explain And Illustrate The Practice Of Chiropractic.

**CASE HISTORY No. 206.** This patient had developed fainting spells which grew in numbers and severity as time went on. During one of these spells she struck her head on the floor and on trying to rise discovered that all use had gone from her legs. Despite costly advice and treatment the condition gradually became worse. Sensation as well as movement was lost in the limbs. Eventually she was carried into a Chiropractor's office where analysis revealed the nerve pressure that was the cause of her trouble. The first simple adjustment enabled her to move her toes. In three weeks' time, leg movement returned, and a week later she was able to walk again. There has been no recurrence of the fainting spells since Chiropractic adjustments were given.

There have been no headaches since.

**CASE HISTORY No. 421.** A baby girl who had been subject to eczema since she was six months old. Scores of remedies were tried without success. Her mother, who had begun taking Chiropractic adjustments herself, suggested that Chiropractic might help the child. Analysis indicated nerve pressure and a series of adjustments were given. The eczema completely cleared up and has not reappeared at any time since.

**WHAT IS CHIROPRACTIC?** The Chiropractor teaches that the brain and nervous system are the root of health. From the brain, nerve energy is distributed through the nervous system to control all parts of the body. When this nerve energy is shut off even slightly between brain and body by bone displacement in the spine, one or more body functions are interfered with and ill health results. By x-ray, analysis and spinal adjustment the Chiropractor is able to relieve nerve interference and restore normality to the affected part. No drugs. No surgery. Nature is the healer.

Mr. Driver, this is the time of the year when the sign, "School—20 M.P.H. Zone," becomes the most important traffic sign on the street.

This week and next, schools are opening for the 1947-48 season.

For the next nine months—five days a week and as often as four times a day—school children will place their fates in the hands of motor vehicle drivers on our streets and highways.

Teachers do everything in their power to instill safety habits in our boys and girls, but sometimes,

in the excitement of play, little folks forget the dangers of heavy traffic.

Mr. Driver, let's all cooperate with the teachers. Let's all help bring our children safely to and from school. Let's all remember that every street crossing is a place where some child may forget to stop, look and listen.

One of the most important rules observed by Texas Electric Service Company drivers is that even in an extreme emergency all "School—20 M.P.H. Zone" signs are carefully heeded.

**New State Traffic Laws**

**Bangum N. Bluff Is In For A Big Surprise This Fall**

(Editor's note: This is the first in a series of four articles explaining in the language of the motorist the principal effect upon him of the 50th legislature's newly-enacted uniform traffic code which becomes effective Sept. 5. The following article instructs in the duties of a driver involved in an accident.)  
 AUSTIN, Sept. 3. (U.P.)—Bangum N. Bluff, eminent master in banging up other people's cars and bluffing his way out before even giving his name, is in for a big

surprise this fall. The 50th legislature's newly-enacted uniform traffic code prescribes that Mr. Bluff—and all other drivers involved in accidents—have certain responsibilities which they must perform. Otherwise, they are subject to being housed rent-free at any local jail or assessed a not-so-nominal fine.  
 The uniform traffic code is part of a nationwide plan to provide drivers with the same driving rules in El Paso or Texarkana, on farm highway 36 of U. S.

highway 81, in Texas or Maine—altered locally only when local driving conditions so require. When drivers follow the same rules wherever they go, sponsoring agencies believe there will be fewer traffic injuries and deaths, less property damage, less embarrassment both for drivers and law enforcement officials over conflicting laws from place to place, and an easier way provided for all to learn and understand traffic rules.  
 The new Texas law, effective everywhere an automobile can go in Texas after Sept. 5, sets up important specific rules which apply to every motorist involved in an accident, big or small. If you drive a car, you should commit this law-required procedure to memory—if you entertain no desire to be a cellmate of Mr. Bluff's.

**Solon Will Resign**

CHILDRESS, Sept. 3. (U.P.)—The 121st legislative district is expected to be without a representative in the next few days. Sheffy Mahan, who was elected to the post last year by an overwhelming majority to represent Childress, Hall, Cottle and Motley counties, has announced his intention to resign. He said he is

moving to Santa Fe, N. M., to enter the insurance business, and would send his resignation as representative to Gov. Beauford H. Jester in the next few days.

**VA Sees More Than Million Vets In School**

WASHINGTON, Sept. 3. (U.P.)—The Veterans Administration said today it expects 1,325,000 World War II veterans to go to college this fall—a 10 percent increase over the previous high enrollment of last April.

The agency, basing its forecast upon advance registrations, advised student-veteran candidates for subsistence allowances to take along enough money to meet their personal financial needs for at least the first six weeks of the autumn term. Since veterans are not entitled to subsistence allowances until they have been in training a month, students enrolling late in September normally will not receive their first checks until November 1 or later.

More than 75,000 Texas war veterans are expected to enroll in colleges and universities this month at the opening of fall semesters.

The Texas estimate was placed at 75,370, the largest figure for the three-state region under the VA's Dallas southwestern area office. Louisiana's estimate was 20,608 and Mississippi's 9,267.

**AAF Initiates Career Plan**

Air-minded young men, for the first time, have an opportunity to chart their future in aviation under a new AAF Aviation Career Plan, it was stated today by Capt. Roy W. Gedeberg, commanding officer of the local recruiting station.

Training in AAF schools, he stated, will equip them for well-paid, responsible jobs in the service—or later in civilian life—in such work as airplane engine repairman, control tower operator, radio equipment maintenance, radar, telephone and telegraph equipment repair, weather observer, photographer, construction equipment, machinist and other lines.

The most important thing in the new program, according to Gedeberg, is that the Army is now able to offer an enlistment candidate the opportunity of selecting the school he wishes to attend before he enlists.

When applying for enlistment, the candidate submits a transcript of his high school grades and the name of three AAF Technical schools he desires to attend, in order of preference. When his qualifications are determined by the Air Training Command, he is advised of the school he will attend.

**Tobacco Tar May Cause Cancer**

ST. LOUIS, Sept. 3. (U.P.)—In 10 years a person who smokes a pack of cigarettes a day inhales eight quarts of tar substances able to produce cancer, Dr. A. C. Ivy, vice-president of the University of Illinois, said today.

But, he added in an interview at the fourth international cancer research congress, no evidence has definitely been found yet that smokers get more cancer of the lungs than non-smokers. Many chemical substances are known which even in small amounts will produce cancer in animals, and sometimes in humans. These are called carcinogens. The pack-a-day smoker gets eight quarts of carcinogenic tar in a decade, Dr. Ivy said.

Perhaps, he added, this demonstrates amazing resistance to cancer.

**FATALLY HURT**  
 GIDDINGS, Sept. 3. (U.P.)—W. F. Dunn of Hallettsville, was hurt fatally yesterday when his car plunged 25 feet over an embankment at an overpass on highway 77 near here.

**Jester's Wife Tells Secret Of Success**

NEW ORLEANS, Sept. 3. (U.P.)—The wife of Texas Governor Beauford Jester says her job requires a strong right hand and the personality of a boxing referee.

Mrs. Jester said in an interview today that one of her principal tasks is to keep groups with opposing views apart at dinners and parties. About the strong right hand: Sunday she shook hands with more than 700 persons at a reception given for General Jonathan M. Wainwright. She is in New Orleans with her husband who is to be a guest of the city at international house today and tomorrow.

**Wolf Hunters Meet**

LAMESA, Sept. 3. (U.P.)—The annual meeting of the Texas-New Mexico Wolf Hunters Association opened here at noon today with several hundred hunters from six states in attendance.

Following a business meeting, a bench show for several hundred dogs will be held tomorrow afternoon, with field trials to follow Thursday and Friday.

Lewis Akers of Abilene will judge the trials.

**HARD CASE FOR DOCTORS**

BOSTON, Sept. 3. (U.P.)—Five-year-old Jimmy Cinney is saving nickels at a furious pace for a bicycle he is unaware he will never ride. City hospital physicians said he won't be able to ride because he's suffering from a rare heart malady known to the profession as Paroxysmal Auricular Tachycardia, which makes the heart pump three times faster than normal.

Any strenuous exercise would be sure death for Jimmy. But the doctors aren't telling Jimmy because that might kill him, too. They're hoping his fancy will turn to something calling for less strain on his heart by the time he fills his enormous piggy bank.

# Positive Combat Of Holiday Carnage

One of our national disgraces—the holiday carnage—has exceeded expectations over the Labor Day season. As of Tuesday, the toll approximated 430, with about 270 of this number killed on highways.

statistics have been employed in an attempt to scare the population into being safe. It isn't working too well. There have been some recent steps to place emphasis on the positive, that is in appealing for co-operation on the grounds that any deaths through so-called accidents are needless.

# Saving The Cushion For Rainy Days

Long lines and crowded bank lobbies here were by no means the exception Tuesday as veterans flocked to cash in terminal leave bonds, awarded originally by Congress with a minimum redeemable date of five years.

Although there has been a big rush, the major percentage of the bonds still is in veterans' hands. It is to be hoped that most of this will remain there. In four more years it is entirely possible that prices will have declined.

Despite their disdain of "polliticians," some of the hottest politics to be found anywhere is played in inner army circles. Note: Under the new law, the Army will have four 4-star generals; the AAF three; the Marine Corps one; the Navy three 4-star admirals.

The President made this sharply clear at a White House conference on the appointment question. Present at the meeting were defense Secretary James Forrestal, General Eisenhower, Admiral Nimitz, Presidential Assistant John R. Steelman, and several other high defense officials.

Truman spoke very critically of Bush as head of wartime research operations. In restrained but emphatic terms, the President charged Bush with being largely responsible for the passage of the hedgehog science foundation bill, under which government research would have been lumped in a military-dominated agency over which the government would have had practically no control.

When Peter Maguire, son of the Chief Justice of Ireland called at the White House, President Truman remarked that there are "more Irishmen in the United States than in Ireland."

The President told his defense chiefs he was still undecided whether he would appoint Bush. "I want to think that over a while longer," the President declared. "I'm still very much undecided what to do about it, but if I should decide to give Dr. Bush this job, I can tell you that we're going to keep a very close eye on him."

# Cindan To Face Zamora In First Playoff Contest At Sweetwater

## LOOKING 'EM OVER

With TOMMY HART

Of all the teams in the Longhorn baseball league, the Big Spring Bronces enjoyed the most success against the Vernon Dusters during the season just completed.

In 26 starts against the North Texans, Pat Stasey's contingent copped 20 decisions. Half the games won by the Dusters were behind the hurling of Gerald Fahr, the elongated hurler Manager Bob Huntley said was valued at \$7,500 on the baseball market. Fahr scored all those wins in the early part of the season. Toward season's end, Fahr could not fool the Hoss batsmen.

Toughest club for the locals to beat was Midland, which took 13 decisions in 25 starts against Our Town. The Indians were the only team in the circuit to hold the edge in season's play against the Cayuses.

Stasey's troops shelled Ballinger 16 times in 26 tries, thumped Sweetwater on 15 of 26 occasions and dumped Odessa no less than 18 times while suffering eight defeats.

Of all the hurlers in the circuit, the Big Springers perhaps found Ossie Kolwe of the Midlands the hardest to solve. They never succeeded in beating the tall right-hander.

On the other hand, the Tribe could do nothing with the

## Outfits Come Here Friday

Their star hurler, Jose Cindan, primed and ready, the Big Spring Bronces advance on Sweetwater tonight to open their campaign in the Shaughnessy playoffs in a contest scheduled to begin at 8 p. m.

Pat Stasey, skipper of the Hosses, had the option of opening at home or on the road and chose to gamble on scoring at least one victory in the Sweetwater park in the two games to be played there before the scene of operations is switched to Big Spring on Friday night.

Cindan, who boasts a record of 24 wins as against five defeats, will oppose Le Zamora, whose record shows two victories and four reversals. One of Zamora's wins was against Big Spring.

Cindan has beaten Sweetwater four times in five attempts. In his last appearance against the Sports, dapper Jose won a narrow 3-2 decision, outpitching Chester Zera to turn the trick.

Stasey is expected to come back with Lefty Jim Perez Thursday night while Joe Dotlich, Sweetwater skipper, is due to counter either with Lefty Jones or Zera.

In 26 collisions between the two nines this year, the Hosses succeeded in getting away with 15 decisions.

The Sweetwater park, boasting short fences, is built for Pepper Martin and Orlie Moreno, Big Spring players, but the barriers also prove as an attractive target for such Sweetwater standouts as Bob Cowzar, Mac Dunlap and Dotlich.

After finishing up in Sweetwater Thursday night, the teams will play three games—if needed—in Big Spring. If the series has not been decided by then, the brigades will move to Sweetwater again Monday to decide which troupe will face the winner of the Ballinger-Midland playoff in the finals.

JOSE CINDAN, boasting 24 victories this season, is set to go to the hill for the Big Spring Bronces tonight in their opening round game of the Longhorn league's playoff series with the Sweetwater Sports in Sweetwater.

## Mr. Outside And Mr. Inside Pace Grid All-Stars

NEW YORK, Sept. 3. (AP)—Anguished opponents who wondered the last three football seasons whether anything short of graduation could stop Army's incomparable Doc Blanchard and Glenn Davis may have the answer after tonight's All-Star game at the Polo Grounds.

The whirling Mr. Outside and the line-smashing Mr. Inside, along with six other members of the unbeaten Cadet team, dominate the squad of Eastern college grid greats meeting the New York Giants of the National Football league in the Tribune Fresh Air Fund's ninth annual contest.

Blanchard and Davis, held out of scrimmage to be at top physical condition, will have two other former Army players with them in the starting lineup. Arnold (Mr. In-Between) Tucker will be at quarterback and Shelton Biles at tackle. Also on the squad are center Jim Enos, tackle Harold Taylor, end Tom Hayes and fullback Bill West.

Completing the All-Star dream backfield is Eddie Allen of Penn. elected captain by his teammates. This combination has speed, power and in Tucker a topnotch field general and passer.

The Collegians' mentor, Tuss McLaughry, the old Dartmouth T master, believes they rate an edge in the backfield department, and the All-Stars certainly should be able to move the ball if they can dent Stout Steve Owen's formidable Giant line. The Pros' forward wall includes such stalwarts as Jim White, Tex Coulter, Len Younce, Bob Bobelstein and Chet Gladchuck.

The Giants have a terrific edge in beef and experience over the All-Star line.

A revamped Giants' backfield has Chris Iverson, a newcomer from Oregon, at quarterback; Emery Nix of Texas Christian and George Franck of Minnesota at halfback and Bill Paschal of Georgia Tech at fullback.

## Oilers Clinch Tie For Fourth Place In Loop

By The Associated Press

The pressure was off every Texas league club save Tulsa and Shreveport today as the finish neared.

Tulsa's Oilers clinched at least a tie for fourth place on a 7-5 decision over Dallas last night while Shreveport kept alive its chance for a share in this position on a 2-1, ten inning victory over Beaumont.

The Oilers now hold a five-game lead over the Sports with five games remaining for each.

Houston, Fort Worth and Dallas have already clinched spots in the Shaughnessy playoff starting Sept. 9 but their positions in the first division were none too secure.

League leading Houston kept its two-game lead over Fort Worth by nudging San Antonio, 2-1, in 13 innings and Fort Worth downed Oklahoma City, 7-5.

Felix Penso stopped a Dallas rally in the ninth inning after three runs had scored and the tying tally was on third base. The win put the Oilers within one and one-half games of the Rebels' third place position.

Ralph Hamner celebrated his sale to the Chicago Cubs by scattering eight Beaumont hits. Nick Gregory's single scored Al Mazur with the winning run.

San Antonio's Sid Peterson weakened in the 13th, walked three straight men and then served Vaughn Hazen a pitch he parked for a single that broke up the tight game.

A pair of home runs in the eighth inning that brought home four runs enabled Fort Worth to defeat Oklahoma City.

Trailing by three runs going into the eighth, Ferrell Anderson and Les Burge came through with circuit clouts. A runner was on base when each connected.

GEE, ZERO-- I GUESS I'M A TERRIBLE SCAREDY-CAT-- THE WAY THAT WIND KEEPS HOWLIN', IT GIVES ME THE WIMWAMS--  
LISTEN TO ALL THE CREEPY, SNEAKIN' NOISES INSIDE THE HOUSE-- SOUNDS KINDA LIKE THE OLD HOUSE WAS FULL OF TROUBLE!  
IT KEEPS MOANIN' AN' GROANIN' LIKE SOMEONE WAS HURTIN' IT-- MAYBE IT'S GHOSTS-- BUT WHATEVER IT IS--  
I'M SCARED ALL OVER-- I WANNA RUN-- BUT IF THE GHOSTS SEE ME RUNNIN', THEY MIGHT COME OUT AN' CHASE ME-- AN' IF GHOSTS START CHASIN' ME-- I'D JUST DIE.
