NUMBER 16

Kitty's Korner

by
Kitty Montgomery

News gets pretty hard to come by during the summer months in Ozona, but we managed to fill it up one more time. Everything seems to stop with the end of school. It must be a throw-back to the days when the whole family packed up and headed for the ranch to spend the summer the minute the final bell rang.

In spite of the slow-down in activity, time seems to be passing with speed. Summer arrived last Sunday and this is the last paper in June.

The Fourth of July will be here before we know it and in spite of the fact that we've had a full two weeks of high wind and hot weather, we have many such weeks ahead. Let's hope they are not as dry as the past two weeks have been, also, we could do without the hot wind. A little breeze is fine, but this is ridiculous.

Things seem to be going great on the "home gardening" scene here in Ozona. I've never heard of so many back yard gardens. Much like the victory gardens back during WW II, the high price of produce has made them a necessity.

By the way, the plant at the M. E. Nicholas home which was shown in last week's paper and unidentified, was a carrot. I thought it was a case of "all going to top," but Nick sent word that the underground growth was just as healthy. I'm going to check on that.

We also enjoyed Mr. Cunningham's giant squash, shown this week. We enjoyed it in more ways than one, took it home and ate it.

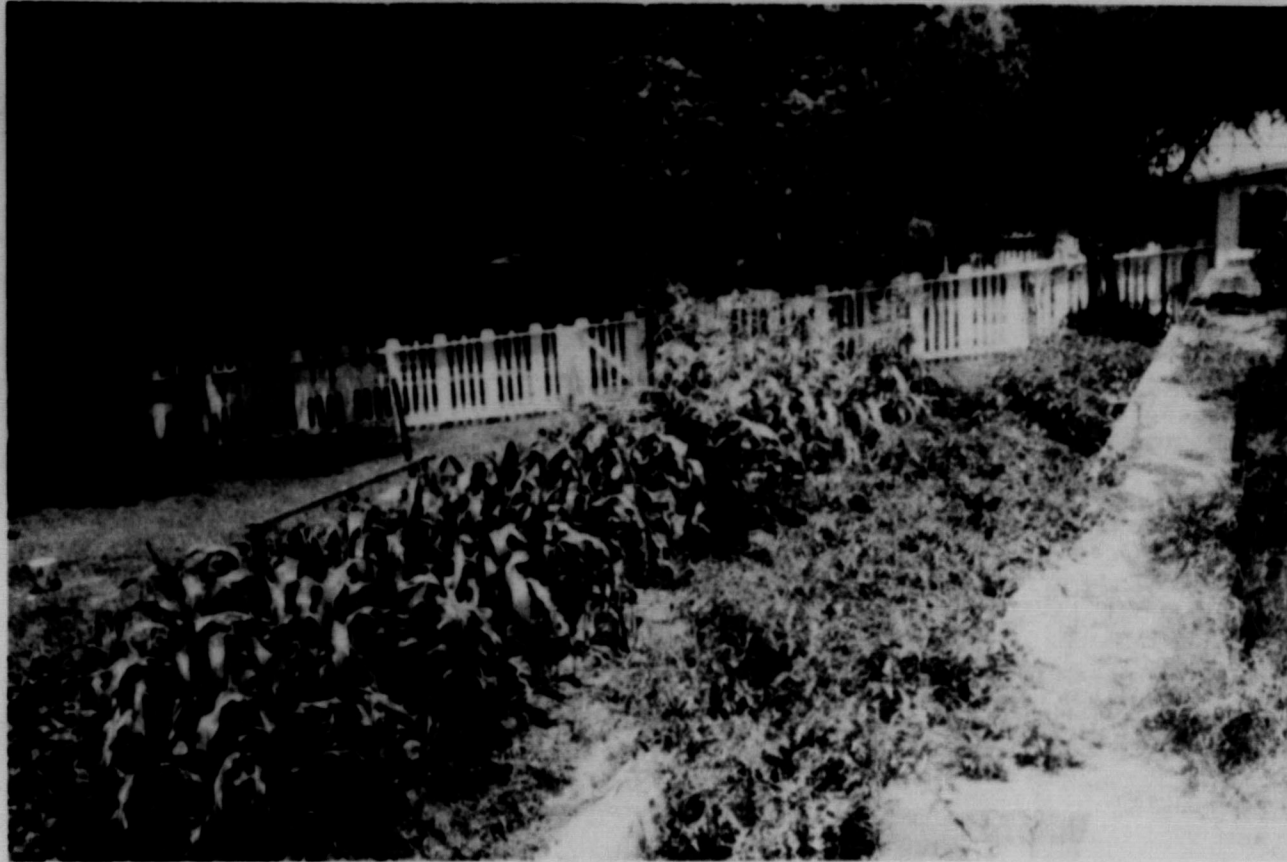

That's the nice thing about this business. All the big juicy items of produce brought in for picture-taking usually wind up on the Montgomery table. It's nearly as good as making a living by making money.

The "no news to speak of" syndrome has even filtered down to the coffee groups (one at the drug store mornings and another at the cafe afternoons).

However, a morning conversation on how people pronounce or mis-pronounce various words last week held some interest for word buffs.

Leota Cox brought it on when mentioned that subtle is a funny way to spell subtle, subtle or whatever, anyway the "b" is silent. Dilly D. said that she was amazed at how many people mis-pronounce album, saying instead "abum." I mentioned that I had trouble with my tongue when I tried to pronounce "statistics." I went home that night and heard a local newsmen giving a report on library. If he said library once, he said it a dozen times.

Tom says "smooove" for smooth, Beecher says "heel" for hill. We all say yall for you all. This could go on forever. I'll hush now, see yall.

GARDENER'S DREAM COME TRUE -- All the sweat and toil of the early spring seems well worth it when you see the many home gardens around Ozona this year. This lush vegetable garden is producing in the back yard of the Pete North home. It

has already produced vegetables galore and it's just getting started. Here you see onions, tomatoes, corn, beans, cucumbers, and squash to name a few. The freezer at the North home should be well-stocked through the winter months.

Ozona Roping Draws Good Attendance Sat

A large crowd of contestants and spectators was on hand Saturday for the Ozona Roping Club's second summer roping events. Adults and youngsters from around the area were entered in the various events.

There were fourteen entries in the 12 and under flag race. Winner was Houston Powers. Rick Powers came in second, Darlene Stegall was third and Eppy Whitehead was fourth.

In the 13 to 16 flag race, Lisa Mitchell won first place with Deldyn Cain second and Marsha Kirken third.

Houston Powers took first place again in the 12 and under barrel race. Melinda Holdt came in second and Rick

Powers was third. Fourth place went to Eppy Whitehead. Deldyn Cain won the 13 to 16 barrel race with Lisa Mitchell second and Marsha Kirken third.

The open barrel race was won by Leann McMullan. Allison Powers was second, Glenda McMullan, third and Brenda Lemond, fourth.

Louie Burger won the 15 and under breakaway roping event. Cliff McMullan placed second, Douglas Bean was third and Will M. Black, fourth.

Wildcat Set For Crockett

V. I. Pierce, Ozona, will drill the No. 1 Fee, a 6,800-foot wildcat in Crockett County, 25 miles southwest of Ozona, one mile northeast of Canyon sand production in the Ozona sandplay field.

Location is 660 feet from the south and west lines of 9-BBB-HE & WT, Abt. 3369. Ground elevation is 2,233 feet.

Canyon sand production in the vicinity is at approximately 6,476 feet.

Shamrock Station Scene Of Break In

Local law enforcement officials were investigating a break-in at the Shamrock Service Station here early this week. The burglary occurred late Saturday night or early Sunday morning. It was discovered by an employee when he reported for work Sunday morning.

Several items were taken from the inventory in the building, including the wall telephone. The thief or thieves apparently broke in from the front door of the station with the help of a screwdriver. No money was taken.

Services In Fredricksburg For Bartholmae

Funeral services for Elbert Bartholmae, 86, were held at 2 p. m. Thursday in Fredricksburg. Mr. Bartholmae died Tuesday in a San Angelo hospital.

He was born August 3, 1889 in Seguin. He was a former Ozona resident.

Survivors include two sons, Varnell Bartholmae of Fredricksburg and Al Bartholmae of Ruidoso, N.M. and five grandchildren.

Services In Crane For D. B. Petit

Funeral services for Durward Belmont Petit, 77, were held at 10 a. m. Thursday in Sheppard Funeral Home in Crane with burial at 10 a. m. Friday in Peasall Cemetery.

Mr. Petit, a retired rancher in the Crockett County area, died Wednesday in a Crane Nursing home.

He was born June 4, 1898 in Brady and was married to Leta DeVilbiss September 18, 1924 in Olton. She died two weeks ago in Crane.

Babbitt Up For DPS Promotion

R. B. Babbitt, Supervisor of the Police Communications Facility, DPS, in Ozona, appeared before the Civil Interview Board in Austin Wednesday for the final interview for the position of Regional Communications Supervisor.

Babbitt passed the written examination taken earlier this month in Midland to qualify for the interview. Babbitt was one of only two supervisors to qualify from this region for the interview board.

Contract Let For I-10 Construction

The contract for the base and pavement on Interstate Highway 10 west of Ozona was awarded in June to Allan Construction Co., Inc. of San Antonio. Low bid was \$3,483,063.07. The project, which will require an estimated 450 working days, will be under Department Engineer William F. Dixon.

The contract was among several let in June by the State Highway and Public Transportation Commission. Work will be supervised by District Engineer D.R. Watson. No date was given for starting the work.

The contract calls for flexible base, two-course surface treatment, signing, delineation and pavement marking on Interstate Highway 10 from 17.4 miles west of Ozona to 0.8 mile west of State Highway 163, a distance of 16.2 miles.

James Payne Named To Principal Post

James I. Payne, high school principal at Sanderson for the past two years, has been hired as Ozona High School principal, Superintendent of Schools Foy Moody announced last week.

Payne received his BS degree from S.M.U. and his master's in education from East Texas State University. He was head football coach at Ector High School in Odessa from 1959 to 1968. He moved to Corsicana where he was athletic director and head football coach until 1973.

He began his administrative career at Sanderson in 1974.

He is married to the former Lavaglin Stibwell. The couple has three children, two grown and one child in school. They will move to Ozona prior to July 28 when Payne is to report for the fall term.

VFW To Hold Pool Tournaments

The Ozona Post of the Veterans of Foreign Wars will sponsor a pool tournament on Friday and Monday nights throughout the summer.

To be eligible, a contestant must be over 18 years of age and be a member or a guest of a member of the post. Entry fee is \$1 and those wishing to enter may sign up at the VFW post daily after 4

Crockett County Care Center To Open For Residents July 1

All systems are ready for the opening of the Crockett County Care Center July 1, with the exception of a few minor details which should be cleared up within the next few days, according to Keith Peters, hospital administrator. The painters were in the building Monday doing some minor touch-up work. Following completion of the work, the facility will be cleaned and should be ready for residents by July 1.

Although furniture has been moved into all the rooms, there are still seven semi-private rooms not pledged with funds. The cost of furnishing a semi-private room is \$1450. Peters suggested that those wishing to make a donation to the center, in the form of a memorial or other means, might like to pledge funds for one bed or one-half of a semi-private room, which would cost a total of \$750.

Patients will be moved into the center after July 1, but Peters said it would probably be August 1, before the formal opening for the public. Plaques for the doors and other pieces of furniture remain to be ordered. Due to the most part on decisions by donors as to wording, etc. Also, pictures remain to be hung and some furniture acquired.

Peters reported that the staff is ready for the opening. Mrs. Ed Cranfill will be head nurse. Mary Barrow of Sonora will be Registered Nurse Con-

Head On Crash Averted, But Damage Heavy

Quick thinking on the part of a Nebraska motorist averted a head on collision a mile west of Ozona late Tuesday night. Even at that, there was heavy damage to the two vehicles involved and a trailer home was demolished. One man was transferred to the Veteran's Administration Hospital in Kerrville.

Mr. and Mrs. Donald R. Webster of Crawford, Neb. were traveling west, pulling a mobile home in their late model Ford pickup on Hwy. 290 leaving Ozona. Carl E. Connally of Carlisle, Iowa, driving a 1974 Ford pickup and traveling east attempted to pass a van in a no-passing zone on the curve a mile out and veered directly in front of the Webster vehicle.

Webster pulled the pickup toward the barrow ditch, but the Connally vehicle hit the Webster pickup on the right side and crashed head on into the mobile home. Connally was in good condition in the Kerrville hospital late last week. The Websters were not injured.

Highway Patrolman Manuel Hartnett was the investigating officer.

sultant and will spend four hours per week at the facility here. This is a Medicare requirement. Mrs. Mike Jeffreys has been employed as activity director. She moved here recently with her husband, who is Music and Youth Director, at First Baptist Church. She has a degree in social work from Hardin-Simmons University.

There are nineteen persons waiting to take up residency in the center. The center was designed to care for 36 residents. Landscaping of the grounds has been finished and already the grassy areas are flourishing. A fence will be built around the area in the back, and outside construction

L. L. Championship Decided In Finals

The second half Little League Championship will be decided tonight. Moore Oilers, first half champs, must win tonight to take the season championship without a play-off game, and Crockett Automotive must lose. This would throw the two teams into a tie for the second half and Moore Oil would be declared champions by virtue of their first half win.

Crockett Automotive, 4-1 in the second half, will play Ozona National, and Moore Oil will go up against Ozona Oil. The first half champs, Moore Oil are 3-2 in the second half and they must win tonight for a tie. However, a win tonight by Crockett Automotive would put the second half championship in their hands and a play-off with the first half champs would be scheduled. Ozona Oil is 2-3 and Ozona

National 1-4 in second half play.

Fire Dept. Elects New Officers

Officers for 1975-76 were elected at the Wednesday night meeting of the Ozona Volunteer Fire Department. Weldon Mansen was elected president; Doyle Lovell, vice president; Bob Tallner, secretary; and Jerry Cain, pastor of Calvary Baptist Church, chaplain.

Elected to the post of fire chief was Royce Hightower. Dick Kirby and Jim Maris were elected assistant chiefs. Steve Kenley was elected training chief and Glenn Sutton was elected fire marshal.

Statistics showed that the department has answered 21 fire alarms. This number includes house, building and grass fires, along with false alarms. The crew has used 158.30 man hours and 10,733 gallons of water.

The auxiliary, a group of volunteers for assisting at the center, has been formed and attendance at two meetings has indicated a great deal of interest in volunteer work. The Ozona Woman's Forum was responsible for organizing the auxiliary, and the club will continue to assist and oversee the organization for the next few months. After the center opens and activities get under way, areas where volunteers are needed will become more definite, and officers for the auxiliary will be elected. Following this, the auxiliary will operate on its own and work closely with the Activity Director.

Maldonado On Dean's List

Pete Maldonado, son of Mr. and Mrs. Ramon Maldonado, was on the Dean's Honor List for the spring semester at Sul Ross State University.

Maldonado, a 1974 Ozona High School graduate, was listed in the top 15% of undergraduates in the College of Liberal Arts.

Ozona Oil beat Ozona National in the second game 9-7. Hector Leal was the winning pitcher and Dennis DeHoyos the loser. Richard Wallace and Delbert Brown led the hitting with a double and a single each.

Monday night, Crockett Automotive downed Ozona Oil 6-3 in the first game. Rudy Enriquez was the winning pitcher and Delbert Brown the loser. Harvey Huerca and Catarino Villarreal led the hitting for Crockett with 2 hits each. Hector Leal hit a single and a double for Ozona Oil.

In the second game Moore Oil beat Ozona National in a squeaker, 9-8. Wimming pitcher was Blake Simpson and losing pitcher was Robert Tambunga. Vadyln Aldridge led the hitting for Moore Oil with a single and a double. Kim Tambunga and Robert Tambunga led the hitting for Ozona National.

PIPE DREAM ANYONE? Not as strange as it seems. The extravagant contraption with the colorful glitter sprinkled hoses offers "pot for four." The four mouthpieces, also in color, are in the lower part of the picture. This collection of drug paraphernalia was seized at the Stockman office on its way to the D. P. S. Center where it will take its place with other items of like nature which local law enforcement officers have relieved their owners of. Jeannie Finley studies the unusual pot pipe.

GIANT SQUASH -- Grown by Pete Cunningham in his garden on the Tom Mitchell hill in the west part of Ozona. The squash weighed about three pounds and measured approximately eight inches around the heaviest end. Its size may be noted by the Bic pen at right.

World Revolution No Myth

The U.S. defense budget for major new weapons and for research and development has survived the ax which its opponents in the Senate sought to bring down upon it. The \$25 billion authorization bill for fiscal 1976, which includes the B-1 bomber program, has passed intact.

It may only be a reprieve. The solid majorities against emasculating amendments are credited to an unwillingness by many Senate Members to make substantial cuts so soon after the fall of Cambodia and Vietnam, or because our high unemployment would be further aggravated by such reductions.

If this is why the advocates of reduced military spending were defeated, then it was for the wrong reason. We need a strong military establishment above all because the Soviet Union will otherwise capitalize on its growing military strength to further accelerate the shift of world power in its favor. And this, the Soviet leaders repeatedly emphasize, is the factor upon which the ongoing "world revolution" will finally culminate in total victory for the camp of socialism/communism.

A principal argument of the proponents of reduced defense spending is that the "hardline" view of Soviet objectives is out of date — made irrelevant by detente. Talk of "world revolution" by communists is, these days, only a weary lip service which they no longer believe in. In any case, the argument runs, the breakdown of the Soviet "monolith" of the 50's into dependent communist states makes them no longer dangerous. U.S. fears of communist takeovers are therefore "overreactions."

Such a view, we would submit, is tragically, grotesquely wrong. When Soviet party journals discuss the "crisis of capitalism" and how best to exploit it from now on, this is no idle rhetoric but a shrewd analysis of a world situation which they confidently perceive as moving steadily in their favor. It is difficult for us to challenge their conclusion.

We're glad the defense bill came through only slightly damaged. Whatever the reason, that is a plus. But we urge the Congress and the leaders of this country not to ignore for a moment the reality of the military and political trends in the world. The peril to our society has not lifted or diminished one iota. The danger is far greater now than at any previous time in our history.

Americans Want a Hand-Up— Not a Hand-Out!

Perhaps you have seen the tabloid-size advertisement featured recently in some newspapers bearing the headline: "How to Save \$120 to \$2400 a Year by Participating in the U.S. Food Stamp Program." The paid advertisement goes on to announce that "a government ruling" last year extended food stamp coverage to "twenty million Americans."

"But," the message continues, "to date more than 15,000 of these newly eligible citizens have not claimed their benefits. Why?"

Reasons given are that most of these people are not aware of the law, others think that eligibility is based on gross income, and others are "too embarrassed" to apply for the dole.

We believe that the real reason some "15,000,000 Americans" (if, indeed, that is an accurate figure) have not asked for food stamps is that they prefer to earn money for their food and other necessities, and not ask for a government hand-out. Americans have never been afraid to work, and work hard, for their homes and families. They are ready and willing to do so now. "A decent day's pay for a decent day's work" is not an old-fashioned slogan; it reflects the attitude of most Americans today.

In addition, Average Joe Citizen is not so dumb that he thinks the government is giving him something for nothing. Every dollar handed out by the bureaucracy costs many more dollars in government overhead and costs. You can bet that the philanthropic distributors of food stamps are not contributing their time and efforts for the cause they so nobly espouse, on the contrary, they expect to get paid and paid well for their generous distribution of taxpayer money.

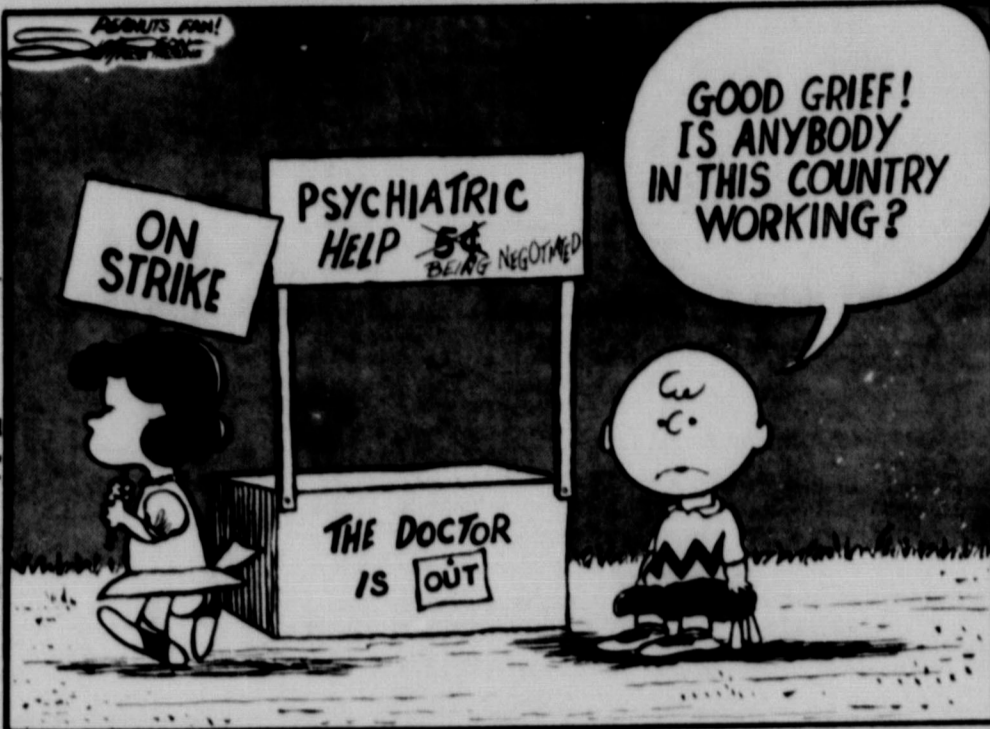

The strangest thing about the advertisement is that the readers are solicited to send \$3.50 for a booklet to tell about the food stamp program. In fact, the government itself will provide the information, through the Government Printing Office, for a few pennies. Of course, the real cost is probably much higher, but don't worry, you'll pay for the rest of the cost when the IRS comes around to collect your money next April, 1976.

Let's Get Started!

Natural gas is nearly a thing of the past. By the year 2000 oil will be in that situation. The USA has over half of the world's coal reserves, but over-dependence on coal will mean either excessive air pollution or high cost gasification on a large scale.

Ideal energy sources would be fusion and solar. But we don't have nuclear fusion yet, and solar energy is so attenuated by the earth's atmosphere that it is doubtful if we can generate enough electrical power from it to meet commercial needs. Fusion energy may be readily available early in the next century, with solar energy many years later. But how do we get from here to there?

Nuclear fusion energy is our best option. As the fissionable isotope uranium 235 is less than one percent of natural uranium, we will have to use breeder reactors which will transmute nonfissionable plutonium 239, thus producing more fuel than the breeder consumes. But, construction of the USA breeder reactor on the Clinch River in Tennessee has not yet been funded by Congress.

STATE CAPITAL Highlights AND Sidelights

by Lyndell Williams

Bill's Scribblings

By Bill Morrison, Minister Ozona Church of Christ

AUSTIN — Texas may run out of money for new highways, according to State Highway Commissioner Reagan Houston.

Houston said the financing picture for road building is critical.

"Costs are rising and available financing is not adequate," the Chairman told Texas Good Roads and Transportation Association.

The time may come, he warned, when the state can afford outlays only for maintenance and operation of its highways.

A new study, Houston said, will examine the widening gap between needed construction and available revenue, the desire for higher levels of transportation service, as well as the need to demonstrate to the public benefits of proposed projects.

New legislation signed by Gov. Dolph Briscoe merged the Highway Department and Mass Transportation Commission into the State Department of Highways and Public Transportation.

Park Enlarged

The state completed purchase of land, nearly tripling size of Lyndon B. Johnson State Park near Stonewall.

A couple accepted \$336,339 for the 133.9 acres of land across the Pederals River from the late President's ranch. Cost of enlarging the park from its original 269 acres to 717.8 acres will total more than \$1 million.

Allowable Set

For the 40th straight month, the Texas Railroad Commission extended the wide-open, 100 per cent oil allowable for July.

However, the East Texas field was again restricted to an 86 per cent allowable. Nominations of major purchasers decreased 2,821 barrels—to 4,018, 347 barrels daily.

Pool Organized

A risk-sharing pool, authorized by the legislature, was organized last week to help provide a temporary solution to the medical malpractice insurance crisis.

The pool will not begin issuing policies until a plan of operation is approved by the State Insurance Board.

The Joint Underwriting Association was instructed to have the operating plan ready by July 7. August 3 is the target date assigned by Insurance Board Chairman Joe Christie to place the pool in full operation. The new law directs that it actually be provided insurance

to doctors and hospitals by September 1.

Courts Speak

Asking the State Supreme Court to restore an injunction prohibiting a Bell Telephone Texas long distance rate increase, Atty. Gen. John Hill said the company openly claims "unlimited power" to set any rate it wants on such calls.

Third Court of Civil Appeals struck down a district court order that Oak Cliff Savings and Loan Association cannot change its name

to First Texas Savings Association.

A Dallas man, through an appeal to the Court of Criminal Appeals, received a new trial on charges of burning a two-year-old child.

Another Dallas case — for murder — was reversed, on grounds evidence which resulted in a man's life sentence was too weak.

AG Opinions

Interest from funds transferred to Angelo State University on dissolution of Tom Green County Junior College District may not be used to supplement the president's salary, Attorney General Hill held.

In other recent opinions, Hill concluded:

A district judge would be prohibited from appointing his grandnephew to represent an indigent defendant if compensation is paid from public funds. Also, a district judge should not appoint the district probation officer to represent a defendant in a criminal case.

A two-mile spacing rule for beeyards is valid if necessary to control spread of honeybee diseases.

Unemployment compensation records are, in general, available under the open records act to employing units and claimants.

SNIPS, QUILTS AND LIFTS

by Lottie Lee Baker

The person who doesn't know his own mind probably hasn't missed much.

When a fellow makes the same mistake twice, he has to own up to carelessness or cussedness.

Everyone wants the government to be bold and imaginative and infallible — all at the same time. It will never happen.

Some people seem to think a fertile mind requires a lot of dirt.

Some people get the idea they are worth a lot of money just because they have it.

When you do something right no one remembers, when you do something wrong no one forgets.

Why don't we jump at opportunities as quickly as we jump to conclusions.

There are no idle rumors. They are all busy.

A scandal is one thing that has to be bad to be good.

Do you know where the word D-I-E-T comes from? Dare I Eat That!

Perfect relaxation consists of just the right degree of longitude and latitude.

The hardest thing about skating is the ice.

He who laughs last probably wanted to tell the story himself.

A LIFT FOR THE WEEK — People who keep on sawing wood in all kinds of weather are the ones who have the biggest woodpile at the end of the season.

POWER ALKS

by U.S. Senator for Texas JOHN TOWER

Water Rights Threat

WASHINGTON—Federal regulations are being drafted that could strangle the liberty and prosperity of millions of American farmers and ranchers with miles of bureaucratic red tape. I'm doing what I can to remedy this situation.

Under proposed rules being prepared now by the U.S. Army Corps of Engineers, the rancher who wants to enlarge his stock pond, the farmer who wants to deepen his irrigation ditch or plow a field, or the mountaineer who wants to protect his land against stream erosion could be required to get a federal permit first.

The proposed regulations constitute "a harassment to farmers and ranchers trying to grow this nation's food supply," according to Secretary of Agriculture Earl Butz. "Millions of people, as they now operate... could be fined up to \$25,000 a day and imprisoned for one year for violations" of the new rules, Butz warned.

The proposed regulations were drafted in response to a federal district court decision last March in a suit brought by environmental groups against the Corps of Engineers and the Environmental Protection Agency (EPA).

The decision of the U.S. District Court for the District of Columbia expanded federal authority over "navigable waters" to include virtually every river, stream, brook, lake, wetland and irrigation project in the United States.

The district court decision is judicial usurpation of the worst sort. It would expand the jurisdiction of the Corps of Engineers far beyond anything possibly imagined by Congress. It would effectively strip the states of their authority to administer those resources which traditionally have been theirs to administer.

What is more frightening, the court decision would require the Corps of Engineers to assume control over the activities of a great portion of our nation's farmers, a further deterioration of the private property rights of individuals. At a time when private farmers are already reeling under economic pressures, the possible expansion of federal control would be an intolerable additional burden.

I have introduced one bill, and cosponsored another, that would negate the effect of the court decision. My bill would amend the federal Water Pollution Control Act to make it clear that federal authority over "the navigable waters of the United States" would be limited to those involving interstate commerce.

The bill I have cosponsored with Sen. Robert Dole of Kansas would go even further to protect the rights of individual property owners and the several states from federal encroachment.

I am hopeful that one or both of these measures will be passed before any Texas farmers suffer from that nefarious court ruling.

are treated favorably under the bill and even better than they would have fared under some of the other proposed plans. In general, the resulting legislation attempts to be equitable to—and meet the needs of—students, educators, and taxpayers alike.

Regulation of utilities ranked as a major accomplishment of the session. Although we West Texans are naturally reluctant to place restraints on free enterprise, I think the newly created Commission will be fair both to consumers and utility companies. It should assure consumers, especially those in unincorporated areas, of just and reasonable treatment by the utilities. I don't think it is a panacea or do I think it will necessarily mean lower rates, but I do believe that it is a much needed improvement over the current situation.

The state's record \$14 billion budget is distressing to us fiscal conservatives. I supported every realistic attempt to cut appropriations where possible, but without much success.

Malpractice became a big issue in the last months of the session. Everyone recognizes the magnitude of the problem, and every effort was made to reach some solution. Two of the malpractice bills supported by the Texas Medical Association passed easily. The third one, S.B. 635, was defeated however. I strongly supported it until opponents amended it to the point where it was merely a skeleton of its original form.

Hopefully, the two bills that did survive will offer some immediate relief until a long-term solution can be reached.

The child-care licensing legislation was finally passed, but not until some amendments were added to exempt church-connected facilities.

The equal rights amendment issue never came to the floor of the House for action; although, the bill calling for a referendum on the ERA did make it out of committee and was on the House Calendar at the end of the session.

School finance was, of course, the number one responsibility of the Legislature, and I think it was dealt with as effectively as was possible. The final bill was a compromise—of a compromise—and, as a result, it had something in it for everyone. The TSTA supported it strongly even though it did not contain the \$10,000 starting salary its members had advocated earlier. As a whole, the 17 school districts in District 70

During the interim, my office in Austin will be open on a part-time basis in order to comply with requests for information or assistance. Call 512/475-2763

THE NEWS REEL

A re-run of "The Ozona Story"

As gleaned from the files of "THE OZONA STOCKMAN" June 27, 1946

A committee of appraisers for the Commodity Credit Corporation, government wool buying agency, placed valuations on approximately 393,000 pounds of spring wools stored in the warehouse of the Ozona Wool & Mohair Co., here Monday, Melvin Brown, warehouse manager, announced.

Ozona softballers defeated Barnhart and Sonora in two games by identical scores of 9-8. Bubba Holtz was the winning pitcher Monday night and Slim Davidson pitched for the winners Tuesday night. Jess Sweeten was the catcher both nights.

Indefinite postponement of a mass meeting of citizens of Ozona, called by the Community Council for next Monday night, for the purpose of considering plans for a community center in Ozona was announced this morning by Joe T. Davidson, president of the Council. Difficulties with building plans and present community concentration on the country hospital plan were given as reasons for the postponement.

29 years ago A third case of polio-myelitis among Ozona children has been diagnosed by San Angelo physicians. Restrictions on youth gatherings and local safety measures, such as the townwide spraying of DDT, have been reinstated.

29 years ago With present polio restrictions scheduled to be lifted by that date barring further spread of the disease here, officials of the Ozona chapter of the American Red Cross are going ahead with plans for the Red Cross Water Safety and Life Saving course to be offered free here July 8 - July 12.

29 years ago New 8-inch fire hydrants were being installed in the business section of Ozona this week along the course of the new big water main being laid from the hilltop water tank around the square.

29 years ago Ozona will celebrate the Fourth of July in traditional Ozona manner Thursday of next week - with a rodeo program at the fair grounds arena. Admission prices will be \$1 for adults and 50¢ for children.

Mr. and Mrs. Hilary Phillips, their daughter, Mrs. John R. Hunnicutt, and their granddaughters, Hope Phillips and Gail Hunnicutt, returned recently from a Caribbean cruise which took them to Caracas, Venezuela, and back through the islands.

Tips For Gardeners
From the
Ozona Garden Club
by
Mrs. Bailey Post

Now that the summer winds prevail and very little rain has come our way, we are reminded daily there are numerous chores to be done regularly in the garden.

Be especially aware of water needs for shallow-rooted woody ornamentals as azaleas, camellias and hydrangeas, and such herbaceous plants as caladiums, dahlias, impatiens, ferns and most outdoor potted plants. Some of these may need water every day. Deep watering is the key to healthy summer growth; shallow watering causes shallow rooting which can cause injury to plants during periods of dry weather.

To avoid run off, apply water only as rapidly as it can be absorbed by the soil. Also, a mulch around all ornamentals will conserve moisture and lengthen the time between waterings.

Reliable "sedums" are growing more popular every year. These are tough, hardy, usually creeping perennials that have two everyday names: stonecrop and live-forever.

In general, sedums can flourish in poor, sandy soil in sunny locations, but they will grow very well in our area in shade or partial shade.

They are excellent for slopes and banks, on rock and wall gardens, or in crevices among steps. A factor in their favor is the crawling nature of many kinds. They have shallow root systems that are not serious competitors to deeper rooted perennials. Example - sedum eliacombianum (yellow). The "stringy sedum" (S. samentorum) should never be planted among perennials as it is almost impossible to eradicate. The well-behaved sedum sieboldii excels for container growing and is also good planted among perennials. It forms rose-pink flowers in September. Sedum acre, "mossy stonecrop",

forms spreading tight mats of tiny foliage, mudded in early summer with bright yellow flowers. An old-fashioned perennial, the "showy stonecrop" (sedum spectabile) now comes in several attractive varieties - "Autumn joy" has large, flat, rose-pink flower clusters in late summer and fall and "Brilliant" is another dramatic hybrid. Most sedums perform well in containers and form neat low-maintenance edging along a border of roses and madonna lilies.

Not all sedums have yellow flowers. Several are rosy-pink, pink to white, rosy-crimson and the ground cover "Dragon's Blood" is a vibrant dark red.

All sedums prefer a light, well-drained soil and for best coloration at least partial sun. With their fleshy succulent leaves, sedums can withstand extensive droughts. They are not bothered by insects or even by slugs.

The blue vitex trees are beautiful now, so if you need another colorful tree, and have plenty of space to plant it in and not too close to the house, you might want to try one. Nothing seems to bother them. There is one in the Village Park and a large one at the Hillery Phillips home.

CONTAINERS TO CAN IN

If you are planning to can fruits and vegetables this summer, you will want to use the best containers possible. Standard canning jars will be what you want—those with the manufacturer's name in large letters on the side of the jar—Ball, Kerr, Know, Hazel-Atlas, etc. You may also find the word Mason, which means the jar has the regular size mouth.

The standard canning jar has been tempered to withstand contrast in temperature. In other words, it does not break as easily as packers jars such as mayonnaise or peanut butter type jars do. Too, the home canning lid and band were made to fit standard canning jars—not the other types.

If the canning jar has a nick or rough place at the mouth, discard this jar because it will not seal. Check by running your finger around the jar mouth—this is the best way to discover a rough place. Don't overlook the seam in the jar.

Most home canners prefer using the flat metal-type lids which have a red or grey sealing compound. Check the lid to be sure the sealing compound is smooth or even.

If it is not, do not use it. Read the directions that come with the lids.

Mayonnaise-type jar lids should not be used in canning. These do not allow the jar to exhaust. As the food is "cooking" in the canner, steam is generated. If this is not allowed to escape, pressure is built up in the jar and can cause it to break or the lid to buckle. Mayonnaise-type lids can be used for jelly only.

Standard jar bands (rings) should not be rusty or bent. If they are, they will not give a good seal.

Lids used on vacuum packed foods such as pickles can't be used in canning. These require special equipment to get the lid on the jar so that it gives an airtight seal.

Covers for pears or tomatoes are helpful.

Canning tongs are good to have, especially when removing jars from the water bath canner. Do not use cooking tongs, for they do not hold the jar firmly enough and it will slip and break. Two of the leading jar manufacturers sell canning tongs for about \$1.25 and \$1.75 each.

Jar fillers are good to have. Most housewares counters sell these.

PICKLED JALAPENOS
Wash jalapeno peppers. Pack tightly in hot jars. For each cup of vinegar, use 1/2 cup water, 1/2 cup olive oil, 1 teaspoon pickling spices, and 1 teaspoon salt. Heat mixture to boiling. Pour over peppers to cover. Close jars. Process 10 minutes in boiling water bath. Start to count processing time as soon as water in canner returns to boiling.

Mr. and Mrs. Tom Hartnett of Fort Davis spent the week here visiting their son and his family, Mr. and Mrs. Manuel Hartnett and children.

Mr. and Mrs. Moe Barbee and children of Brownwood visited in Ozona early this week.

Tips On Burglary Prevention

While there is no fool-proof way to prevent burglaries, there are numerous ways to discourage them.

- When you are going to be away from your home or business for more than your usual absences, try some of the following practices:
 1. Notify the sheriff's office when you are going on vacation and when you expect to return.
 2. Notify your neighbor of your plans.
 3. Notify delivery services such as your newsboy of your impending absence.
 4. Leave at least one light on inside your house.
 5. Leave at least one light on outside your house.
 6. Leave a small radio playing where it can be heard from outside a window or door.
 7. Close all doors and windows with good locks.
 8. Well-lighted premises will always discourage would-be burglars.
 9. Always keep your garage door closed night and day.

COUNTRY CLUB BRIDGE

Mrs. Evert White was hostess for bridge at the country club Thursday.

Winning high was Mrs. Sherman Taylor. Second high went to Mrs. White, low to Mrs. Buster Deaton and bingo to Mrs. Tommie Wilson.

Others playing were Mrs. Clay Adams, Mrs. Bob Bailey, Mrs. Hugh Childress, Mrs. Bud Cox, Mrs. Tommy Harris, Mrs. Arthur Kyle, Mrs. Sidney Millsbaugh, Mrs. Beecher Montgomery, Mrs. J. B. Parker, Mrs. Hillery Phillips, Mrs. Jake Short, Mrs. Byron Williams, Mrs. Gene Williams, Mrs. Buddy Phillips, Mrs. Billie Carson and Mrs. L. T. Sewell.

Mrs. Fontaine Cope and son, Tom, of Lamesa were here last week visiting her grandmother, Mrs. Fay Drake.

Shortcuts For Home Sewing

Home sewing today can be done in a shorter amount of time and with less effort if some guidelines are followed, Marlene Oble, clothing specialist with the Texas Agricultural Extension Service, The Texas A&M University System, advised this week.

- Purchase the pattern, fabric and all notions at the same time.
- Choose a fabric that doesn't ravel or need seam finishes.
- Choose a pattern that has few details and a small number of pattern pieces.
- Organize sewing and pressing equipment in one area.
- Keep on hand adequate sewing equipment.
- Keep sewing equipment in good working condition.
- Use correct pressing

WESTERMAN DRUG BARGAINS

Remember **Reddy** Supplies the energy—but only YOU can use it wisely!

Reddy's helpful tips for your Room Air-Conditioners

- Your air conditioner will operate inefficiently if filters are not cleaned regularly. Dirt and lint collected on the filters, restricts air flow to the coils. Clean filters every two weeks.
- Let nature help you save energy by shading your home with trees and shrubs to help cut down on summer cooling costs. Draw draperies against afternoon sun.
- Remember to keep outside doors, windows, and fireplace dampers closed. If you have window units, close the heating vents near the floor, as cool air falls and can escape through vents.
- You purchased fine home comfort when you bought your air conditioning unit. Properly maintained, it will offer you years of efficient service. A once-a-year check-up by your dealer pays dividends in savings on operating and breakdown costs.

Pick up your FREE copy of "ENERGY CONSERVATION" booklet from **Frigidaire** Home Appliances Division of General Motors.

PICNIC MORNING
BIG BROTHERS

Happiness is a picnic morning. Happiness is a day spent with the family. Happiness is walking and talking and sharing the fun and beauty of God's world with those you love.

A picnic is always a happy idea. Somehow, just getting away from the daily routine does wonders. The sound of a cool waterfall, the rustle of a bird on the wing, the warmth of a friendly sun, all of it makes you "come alive" with a new kind of freshness.

There is another place where we all may renew our strength for the times we live in. The atmosphere, fellowship, and inspirational teachings of your church will do much to keep you walking happy. Spend next Sunday morning in church.

Mrs. Williams & Mrs. Nicholas Attend San Angelo Meet

Mrs. Charles Williams and Mrs. M. E. Nicholas attended the Annual District Meeting of the American Cancer Society at Le Quinta Inn, San Angelo, Thursday, June 19th.

Workshops were held in Public Education, Public Information, Service and Rehabilitation and Crusade. Mrs. Williams attended the service session and Mrs. Nicholas conducted the Crusade session.

Crockett County was recognized as being one of several counties gaining the Golden Achievement Award in fund raising. Mrs. Bill Black and Mrs. Tony Allen are Crusade Chairmen.

Mrs. Nicholas has in her possession details of several unfunded \$3600.00 research fellowships that are scientific and medically approved, not duplicated by any other agency, all to be conducted in research institutions in Texas, once the funds are made available. This research is in the areas of pathology, surgery, diagnostic radiology, radiotherapy, plastic surgery and internal medicine (oncology), with doctors already assigned. A gift of \$3600.00 to fund one of these projects would be tax deductible and may be titled in memory of a loved one, or in the name of the person making the gift restricted to research, may wish.

Produce Tops Food Buys

Produce counter variety and increasing supplies are seeing more activity in that section of supermarkets this week.

Cantaloupe and corn supplies are up, so prices are down. Mrs. Gwendolyn Clyatt, consumer marketing information specialist, noted, "Also, honeydews, watermelons and cherries are on most markets now--with prices moderate to relatively high," the Texas Agricultural Extension Service, The Texas A&M University System, specialist added.

The same holds true for apricots, peaches, nectarines and strawberries.

Mrs. Clyatt reported moderate prices on ostra, cucumbers, blackeye and purple hull peas--along with summer squash, radishes and green onions. "Prices remain relatively high on dry onions and potatoes."

At meat counters, the termed fryer chickens, turkeys and eggs "good protein food choices, price-wise."

Look for best beef values on chuck roasts and steaks, round steaks, ground beef and liver.

CONSUMER WATCHWORDS:
To save money on bread, try chain-store brands and other less-advertised brands.

Also, compare prices of equal weights--rather than "large" versus "small" loaves. Day-old bread offers another chance for great savings.

Handcraft Program Set For July At Ozona Center

"Christmas in July" is the theme of the 4-H Handcraft Program to be conducted at the Ozona Community Center during July. The idea of the program is to learn a new craft and make your own Christmas presents.

All interested youth ages 9 - 19 are welcome to attend. Enrollment for the projects will be Tuesday and Wednesday July 1 and 2 from 9:30 a.m. to 11:30 a.m. and 1:00 p.m. to 3:00 p.m. at the Ozona Community Center.

Youth must enroll in one of these two days to participate in the projects. The pre-enrollment will be necessary in order to purchase supplies. A display of the finished craft projects and what they involve will be available during enrollment.

The following craft projects will be offered:

- July 8 and 9, Decoupage;
- July 10 and 11, Embroidery;
- July 15, Terrariums;
- July 16, Plastic Weaving (Lanyard);
- July 17 and 18, Felt Flowers and Decorated Boxes;
- July 22 and 23, Knitting and Crocheting;
- July 24 and 25, Wood Stick Art;
- July 29 and 30, Macrame;
- July 31 and August 1, Seed Art.

Youth will be required to pay the cost of the materials in each craft project. Each craft will be less than \$1.00. Optional crafts that will be available throughout July will include: painting plaster sculptures, rock painting and weaving pot holders.

The Community Center will be open Tuesday, Wednesday,

Thursday, and Friday mornings 9:00 to 11:30 a.m. for the month of July.

In addition to the craft program, the library of the Center will be open during the morning for reading. The Community Center has an excellent library that includes books, magazines, and reference materials.

Children are welcome to use the games, toys, and play facilities during the designated hours of July.

Mrs. C. F. Brown and her daughter, Aletha Warlick, left June 21 for a vacation in Hawaii.

There is a spirit which like the father of evil, is constantly "walking to and fro about the earth, seeking whom it may devour"; it is the spirit of false philanthropy.

Public Notice

THE STATE OF TEXAS COUNTY OF CROCKETT WHEREAS by virtue of a writ of execution issued out of the 90th Judicial District Court of Harris County, Texas, on the 28th day of May, 1975, in Cause No. 856, 066, where Bank of Texas was Plaintiff, and William C. Montgomery was Defendant, on a judgment rendered in said Court against Defendant and in favor of the said Plaintiff, for the sum of \$73,042.09 DOLLARS, with interest thereon at the rate of 10 per cent per annum, from date of judgement, together with all costs of suit; I did on the 13th day of June, 1975, at 10 o'clock A.M., levy upon the following described lots, tracts and parcels of land situated in Crockett County, Texas, as the property of William C. Montgomery to-wit:

Abst. 2416, Cert. 4/1402, Srv. 9, Blk. 1, Grantee G. C. & S. F. R. R. Co., 640 acres; Abst. 4894, Cert. 4/1400, Srv. 6, Blk. 1, Grantee H. W. B. Montgomery, 640 acres; Abst. 2139, Cert. 4/1399, Srv. 3, Blk. 1, Grantee G. C. & S. F. R. R. Co., 640 acres; Abst. 2134, Cert. 4/1363, Srv. West 142.9 acres/7, Blk. 1, Grantee G. C. & S. F. R. R. Co., 142.9 acres; Abst. 4897, Cert. 247, Srv. East 576 acres/4, Grantee W. H. Montgomery, 576 acres; Abst. 5526, Cert. 247, Srv. West 80 acres/4, Grantee E. C. Montgomery, 80 acres; Abst. 5512, Cert. 557, Srv. North 368, 8 acres/2, Blk. 401, Grantee Louis Rice, 386.8 acres; Abst. 4905, Cert. 1260, Srv. North 304.3 acres/2, Block AAA, Grantee W. H. Montgomery, 304.3 acres; Abst. 4897, Cert. 4/1362, Srv. 6, Block J, Grantee H. W. B. Montgomery, 658.1 acres; Abst. 4893, Cert. 4/1399, Srv. West 175 acres/4, Block I, Grantee H. W. B. Montgomery, 175 acres; totalling 4,225.1 acres. (This is surface only of said land of part of the Wm. C. Montgomery ranch located about 14 miles southwest of Ozona, Texas and said defendant is believed to be owner of an undivided 1/3 thereof,) and on the 5th day of August, 1975, being the first Tuesday of said month, between the hours of 10 o'clock A.M. and 4 o'clock P.M. on said day, at the courthouse door of said County, and I will offer for sale and sell at public auction, for cash to the highest bidder, all the right, title in and to said above described property.

Witness my hand this the 13th day of June, 1975.

/s/ Billy Mills Sheriff, Crockett County, Texas 15-3tc

Test Utensils For Use In Microwave

Usability of certain pieces of glassware or pottery for microwave cooking can be tested in a simple manner, Mrs. Lillian Chenoweth, family resource management specialist, said this week.

"Place the dish in the oven along with a cup of water in a glass cup. Heat for 15-30 seconds. If the glassware in question has not become warm, it is suitable for microwave use," the specialist with the Texas Agricultural Extension Service, The Texas A&M University System, said.

"If the glassware feels warm or hot, it is best not to use in a microwave oven as it will absorb the microwaves. The cup with the water may also feel warm

DAN DAVIDSON

but only because the heated water made it warm."

She explained that repeated usage of unsuitable glassware or pottery may damage the dish as well as slow the cooking process.

Miss Virginia Henderson and Miss Debra Clayton left New York June 21 for a tour of Europe. Both girls, recent graduates of Ozona High School, will be traveling with 27 other young people from the United States. Upon their return, Virginia will be entering Southwestern University and Debra will enter Texas Tech.

Mr. and Mrs. Sam Fowler of Floydada are here visiting her mother, Mrs. Fay Drake.

Ray and Wynne Boyd are back in the drug store this week after a week's vacation.

PHONE NEWS TO THE STOCKMAN

Five Ozona boys are taking part in the Fiesta Del Concho celebration in San Angelo this week. The boys are acting as escorts for the ambassadors of goodwill during the fiesta.

Ozona boys include Gary Mitchell, son of Mr. and Mrs. Tom Mitchell, a student at Texas Tech where he is a member of the Rodeo Club. Also, Dan Davidson, son of Mr. and Mrs. Chas. E. Davidson, III, a student at Texas A&M where he is a member of the Saddle and Sirlin Club.

Brad Hoover, son of Mr. and Mrs. A. B. Hoover, Jr., a student at Angelo State University, where he is a member of Sigma Phi Epsilon and the San Angelo Tennis Association.

Rick Hunnicutt, son of Mr. and Mrs. John R. Hunnicutt, a student at Texas Tech where he is a member of the Rodeo Association and Agriculture Association.

The fifth Ozonan is Jack Baggett, Jr., son of Mr. and Mrs. Jack Baggett. Jack has been attending Southwestern University at Georgetown where he is a member of Phi Delta Theta. He plans to transfer to the University of Texas at Austin this fall.

WEEKLY LAW ENFORCEMENT REPORT:

Deputy Sheriff Bill Willkinds reported that the most charges filed by law enforcement officers in the county last week were for speeding. Speeding charges numbered 37.

There were three sign and signal violations, 2 DWI, 2 highway violations and 3 drivers license violations. There were 2 public intoxication cases and one gasoline theft. Auto theft numbered 2. Six were charged with disorderly conduct, one charged with possession of a narcotic and there was one assault with a deadly weapon.

DAUGHTER TO HAIRE

Mr. and Mrs. Butch Haire are the parents of a daughter born Tuesday morning, June 24, in Crockett County Hospital. The couple has one other daughter, age 3.

Grandparents are Mr. and Mrs. Bud Cox and Mr. and Mrs. Norris Haire.

OZONA MEN VISIT MEXICAN MISSION

For some months now, a group of Ozona men have been visiting and assisting the people of a small Mexican town, Las Norias.

Different groups have gone down at various times.

Last week Bill Willkinds, Homer Boyd, Ted Dewa, Allen Dewa, Clayton Robinson, Tony Davee, Eugene Hood and Jack Thompson made the trip.

They took clothes, baby milk, baby bottles, medicine, barbed wire, spiral notebooks and pencils.

The group visited all homes with the exception of three, and found someone ill in every home visited except two.

They reported a summer missionary living in Las Norias, Scott Wright. Wright plans to build a house for visitors near the school. The prior week Jerry Davenport and Wright held church services in Las Norias and reported 30 persons attended.

Clayton Robinson reported a big need for children's clothes, especially shoes. He also said the water table in the town has dropped and he expects health conditions to worsen.

The churches in Ozona are assisting the people in the small town, and donations may be made through them or one of the visiting groups.

MIXER CARE IMPORTANT FOR BETTER SERVICE

Regular care of a mixer can give it a longer service life, one family resource management specialist pointed out this week.

"Regular cleaning can prevent damage to the motor and the possibility of electrical shock," Mrs. Lillian Chenoweth with the Texas Agricultural Extension Service, said.

She explained that the head can be wiped with a soft, soapy cloth, then rinsed and dried. But consumers should avoid abrasive cleansers which can mar the finish. The head should never be immersed in water.

"The beaters and bowl should be washed after each use, either by hand or in a dishwasher. Before using the mixer again, be sure that all parts are completely dry," Mrs. Chenoweth said.

It's a good idea to wipe the cord occasionally with a damp cloth when the mixer is unplugged, the specialist said.

Concerning oiling the mixer, she said that instructions from the manufacturer of each individual appliance should be consulted in each case. Some of the newer models cannot be lubricated at home.

ENERGY SAVING TIPS

Wrinkles often disappear from suits and dresses if they are hung in a steamy bathroom. By hanging clothes in the room while you shower, you'll save time—and the energy needed for ironing and pressing.

HELP WANTED at Red Apple Drive In. Good working conditions. Will train. Apply at J. B. Miller & Co. or call 392-2641 for interview.

Agent Recommends Lawn Publication

A new Texas Agricultural Extension Service publication, simply called "Home Lawns," should be a real winner for homeowners, contends Billy Reager, county Extension agent.

The publication features a complete digest of information on home lawns, ranging from types of lawn grasses to care and maintenance.

A complete discussion is offered on both warm-season and cool-season turfgrasses for Texas. The warm-season types include bermudagrass, St. Augustine grass, buffalo-

grass, zoysiagrass and centipede grass. Among cool-season grasses described are ryegrass, tall fescue and Kentucky bluegrass.

A section of the new publication is devoted to information on establishing a new turf, points out Reager. Three major steps are discussed as being essential in this endeavor: preparing the soil properly, establishing the grass, and caring for the young grass.

A major portion of the publication is keyed to management of established lawns. Specific information is presented on fertilization, watering and mowing.

A review of lawn problems is featured in the final pages of the publication. Information is presented on thatch accumulation, shade problems, weeds, insects and diseases.

With hot summer weather approaching, homeowners generally experience a variety of lawn problems, notes the agent. The new "Home Lawns" publication can be a valuable guide in identifying these problems and in taking corrective measures. A copy may be obtained at the county Extension office.

July Social

Security Visit

Is Scheduled

Garland Gregg, social security representative for the San Angelo Social Security Office, has scheduled his July visit to Ozona. He will be at the County Courthouse on Wednesday, July 10th from 10:30 a.m. to 12:00 noon. Anyone who wants to file a claim for benefits, get information, or transact other business with the Social Security Administration may contact him at this time.

Everyone should have a social security number. If you don't have one or have lost your card, contact the Social Security Office located at 2214 Sherwood Way (P. O. Box 3808) in San Angelo, Texas. Residents of Ozona may call toll free by dialing "Operator" and asking for "Enterprise 2058"

Crop Reports Needed By USDA

In early July, about 24,700 Texas farmers will receive an acreage and production questionnaire from Charles Caudill, Agricultural Statistician for the Texas Crop and Livestock Reporting Service, Austin, Texas.

Information from this survey will be used to determine harvested acreage and production of early harvested crops for the state of Texas and for each county. Farmers who receive questionnaires are urged to complete and return them by mail. All individual reports are confidential and will be used only for state and county totals.

This survey is a cooperative effort of USDA's Statistical Reporting Service and the Texas Department of Agriculture.

PHONE NEWS TO THE STOCKMAN

CALLING ALL HOMEMAKERS

Brought to you by Lillian Brown

Did you ever stop to think that, of all the things you buy, you will probably keep your furniture for the longest time?

People keep an automobile perhaps two, three, four or five years; their clothes last about the same time; but furniture stays around longer than all those things-- and can even outlive the time spent in a particular house, because when you move you can take your furniture with you from one house or apartment to another.

So, furniture can be an investment not only for today's living, but for tomorrow's as well--for example, the sofa you buy for your living room today could well be used in a family room or den tomorrow; today's dining room table might be tomorrow's desk; a chair used in one room today can move with you when you move.

Whether you're a young-married who expects to go to a larger home someday, or whether you're in a house now and expect to move to a smaller place when you get older, you can gear your furniture's usefulness for the future as well as the present.

Whatever your situation might be, we'll be happy to sit down with you and discuss your plans, and help you select furniture that will serve you well today, and tomorrow, too. Stop in and talk it over with us.

Baptist Girls Get Off To Paisano Camp

Twenty-seven girls and two counselors from First Baptist and Calvary Baptist Church left Ozona by bus Monday for a week at Paisano Baptist Encampment in the Davis Mountains.

The group will participate in Bible study, choice activities, recreation, worship services and campfires. They will have an opportunity to hear and visit with Mrs. Robert Garrett, missionary to Rhodesia.

Attending the camp from both churches are Kathy Scott, Charla Hudnall, Christi Reed, Kim Buie, Sarah Falkner, Katrina Phillips, Katrina Burger, Lou Harrell, Wendy Hood, Terri Bentley, Glenda Capps, Leonna Kramer, Debbie Dille, Melodie Harrell, Tasha Light, Mary Wall, Jeanette Hill, Patty Goss, Sheri Cain, Lannette Downs, Annette Downs, Kim Bebee, Dawn Whitehead, Lori Lemman, Tanya Mahaffey, Rea Lynn Dews and Lisa Holt. Counselors are Mrs. Bill Williams and Mrs. Jerry Cain.

Mr. and Mrs. Ted Dews are serving on the staff for the camp this year, and their son, Andy, is with them at camp.

Mike Jefferies, Music and Youth director for First Baptist, went along with the group to drive the bus.
