Only 6 Football Games Slated For '42 Season

Transportation Problem To Be Serious; Stress Gymnastics

What with a war on and tires getting scarcer every day, athletic officials are pondering the prospects of a transportation problem which may all but sound the death knell of America's favorite fall sport—football.

But, while recognizing the grim possibilities, Ozona High School and district officials have outlined the 1942 fall football schedule on something of an abbreviated scale, at least as far as the local team is concerned.

Whereas, the district and bi-district champion Lions of last year played nine games—and incidentally winning all of them—this year's team will face only a "necessity" schedule—six games.

But even with only six games to play, four of them are away from home and only two here—that because the big end of the games were played on home soil last year, and that calls for return games this year. The season's schedule, announced this week by Supt. Denham, is as follows:

Sept. 18—at Big Lake (Night).
Oct. 3—Eldorado here.
Oct. 10—at Rocksprings.
Oct. 17—Menard here.
Oct. 24—Open.
Oct. 30—at Mason.
Nov. 11—at Sonora.

Athletic officials are hopeful that the transportation problem may be solved with the use of pickups to haul the squad to the battle grounds.

"Anyway, we are going to do our best to carry through with the school's athletic program if at all possible," said Supt. Denham.

With the shorter football season, and prospects not bright for such expansion of the slate and possibly as slim a basketball season, school officials are planning to emphasize gymnastics in next year's physical education program, the superintendent said. The program has already been arranged for a 30 minute gym class three times a week for every boy in high school, after the close of the football season.

The local gymnasium is well equipped for this kind of program and a well directed gymnastic program will prove as great for physical development of the students as other athletics, it was pointed out. The competition between schools will be lacking but the spirit of competition among the boys themselves will in a measure make up for this loss. It is a cheap method of physical development, one that the boys have found interesting, and it doesn't require tires and gasoline to carry it through, school officials declare.

New Tennis Court Held Up By Scarcity Of Backstop Wire

Laying of caliche base and completion of a new tennis court for use of grade school children, planned for this summer by the school board, has been held up because of uncertainty surrounding the availability of net wire for backstops for the new court, it has been announced by Supt. C. S. Denham.

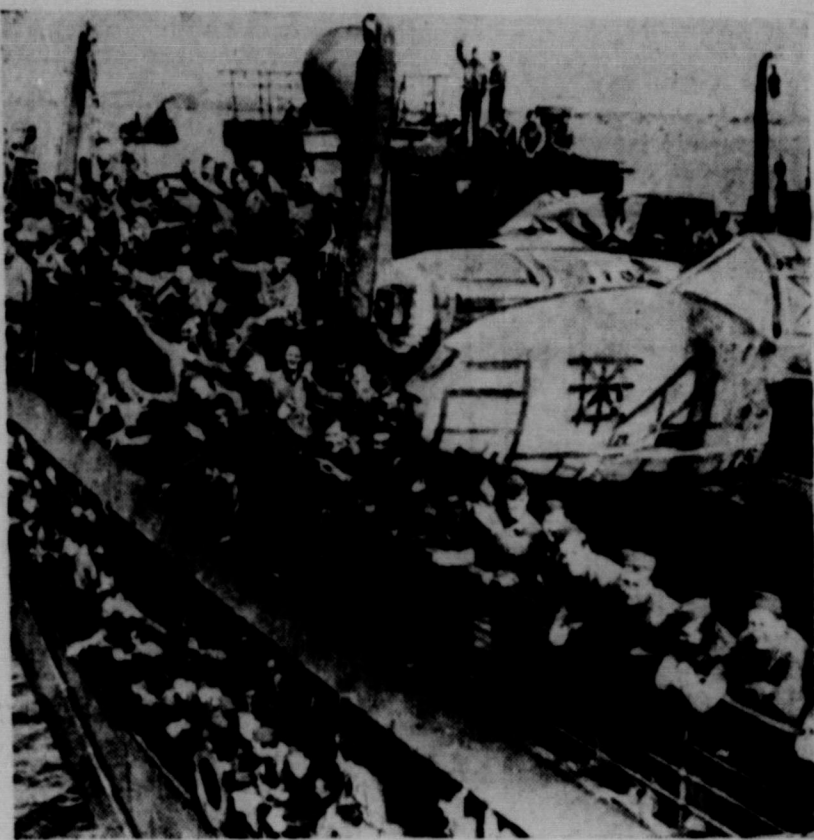

Order has been placed with Foxworth-Galbraith Lumber Co. for the net wire and efforts are being made to secure enough for this purpose. If the wire is found available, school authorities plan to make the new court ready this summer.

Ask Bids On New Lighting System In Grade School Building

Contractors have been asked to submit estimates on rewiring of the grade school building here and installation of modern lighting fixtures.

If materials can be secured, modernization of the building's lighting system will be made this summer.

Reinforcements for General MacArthur

In this soundphoto U. S. troops are shown arriving by transport at an unnamed port somewhere in Australia, to reinforce the large contingent of American troops that has already arrived in the land "down under." The boys all seem to be in the very best of spirits. This photo was passed for publication by U. S. censors.

New Program Of Teaching Spanish In Lower Grades And Improved Methods Seen As Move For Latin-American Friendship

A new approach to the teaching of the Spanish language and an innovation in presenting the language study to pupils of the lower grades will be inaugurated in the Ozona school system with the opening of the new term in September.

In all grades, both classes among the grade school pupils and the more advanced high school students will emphasize conversational Spanish and the language as spoken among the Latin-American countries of our own hemisphere rather than the former method of placing emphasis on the Castilian origin, history and literature.

This is the outline of the new Spanish teaching program to be inaugurated in the local school system next year given by C. S. Denham, superintendent. New textbooks have been ordered for Spanish courses from the third grade through high school.

New emphasis on teaching of Spanish, especially in the lower grades, never before attempted, has been placed by state educational authorities for very obvious reasons. For one thing, Texas' geographical location and our large Latin-American population should inspire the state to take

more cognizance of the Spanish language and to lead the move for solidifying Latin-American friendship and a broader education of its youth, educators point out. The history and traditions of the state and its past achievements in teaching of the language in high schools lead logically to development of the teaching innovation to be generally launched next year.

A beginner's textbook will be used next year in the third, fourth and fifth grades for teaching the Spanish language. Miss Margaret Butler will teach these grades. Miss Zelma Scott will teach the language in the sixth and seventh grades and also in the eighth grade, two different textbooks being used.

Women Urged To Return Completed Red Cross Garments

Women who have taken Red Cross garments for sewing in the current war relief production program are requested to complete such garments and return them by the end of this week, Mrs. Hugh Childress, chairman of the sewing work for the Red Cross, announced this week.

Mrs. Childress plans to make shipment of finished garments this week and those who have not yet turned in their completed garments are urged to do so at the earliest possible moment so that the material can be prepared for shipment on time.

Ranch Construction Costing Over \$1,000 Must Have Rating

The Crockett County USDA War Board has advised that all constructions on ranches costing \$1,000.00 or more must have a Preference Rating Order before construction is started and before the dealer can make delivery of materials.

The Board further advised that the drilling of wells is considered as constructions and Application for Rating, Form PD-200, is to be executed and filed with the Local USDA War Board before work is begun, when the total cost of construction is \$1,000.00 or more. The drilling of the "hole" is considered in the total cost of the construction.

If a person wishes to construct anything costing less than the maximum but the necessary materials require priorities assistance, the Application for Rating should be executed.

If further information is desired it is suggested that you contact a member of the Crockett County USDA War Board or the AAA Office.

Committees To Launch Plans For July 4th Barbecue

One-Day Gathering, Rodeo, Dances Planned For Holiday

Committees named by J. C. Montgomery, general chairman, went into action this week toward perfecting plans for a July Fourth barbecue and rodeo in Ozona.

A home-folk gathering patterned after the plan which has been a tradition here since the early days, a free barbecue dinner in the city park at the noon hour and rodeo events in the afternoon, is proposed for this war-time summer in Ozona. Whether the rodeo events will be extended to a second day and whether there will be dances two nights or one will be decided on plans of the committees in charge of these events, the general chairman said. Definite plans are being worked out by these committees and will be announced.

The barbecue finance committee, which shortly will begin solicitation for donations to the barbecue fund, is composed of Pleas Childress, James Baggett and Heyward White.

The committee to secure music for and supervise the dances will be composed of Lee Childress, Stephen Perner and Clay Montgomery. Scott Peters will head the program committee.

On the barbecue committee will be R. J. Cooke, W. R. Baggett, J. T. Keeton and Bill Johnigan. Heading the serving committee will be O. W. Smith and Ernest Brownrigg.

The rodeo committee will be headed by Vic Montgomery with members of the local roping club in charge of planning this phase of the entertainment.

New Officers Of Masonic Lodge Named At Monday Night Meet

New officers were elected for the coming year by the Ozona Masonic Lodge at the regular meeting of the order Monday night in the lodge quarters.

Oscar Kost was elevated to the post of Worshipful Master. Richard Flowers was named Senior Warden; Rev. Eugene Slater, Junior Warden; George Harrell, Tyler; Scott Peters, treasurer, and Heyward White, secretary.

The lodge voted to remit dues of members who are serving in the armed forces and maintain their membership during the time they are in service.

Ozona Teachers Spending Summer At Homes Or In School

Members of Ozona public school faculty scattered for homes, for summer school or for summer jobs when the school term ended here two weeks ago.

Three of the men teachers on the faculty are in San Angelo holding summer jobs on construction of the new U. S. Army flying field. They are R. H. Garner, W. E. McCook and L. B. T. Sikes. Joe Ripple, principal of the Latin-American school the past year and to be transferred to the high school next year as Spanish and history teacher, is taking a summer course in Spanish at the University of Mexico in Mexico City.

Miss Rebecca Anderson is spending the summer with her family in Weatherford and Miss Elisabeth Biser is at her home in Beaumont. Miss Marzee Hammons will spend the summer in Denton and Corpus Christi. Miss Margaret Butler left Sunday for Denton to attend summer school at T.S.C.W. Miss Margaret H'll, who will spend most of the summer at her home in El-

Second Front?

Lieut. Gen. Brehon B. Somervell, head of supply, U. S. army, whose arrival in London to join American military leaders already there caused much speculation as to a "second front." He is shown above returning the salute of a U. S. sailor near the American embassy in London.

\$200 Contributed To China Relief In Local Drive

Ozonans Asked To Help In Fund To Aid Far Eastern Ally

As they have done on other worthy causes, Ozonans are responding liberally in the latest and one of the most important of all war relief fund campaigns—the China Relief drive.

Scott Peters, Crockett County China Relief campaign chairman, reported this morning that voluntary contributions to the fund had reached approximately \$200 to date. Since the drive has been under way here less than a week, and funds so far being received on a purely voluntary basis, this progress is considered good.

"We need more money and feel sure that Ozona people will want to have a part in this nationwide effort to raise a fund to aid the desperate situation of our gallant ally in the Far East," Mr. Peters declared.

China Relief contributions may be left with Mr. Peters at the Ozona National Bank. The fund being raised in the United States will be used for relief work in war torn China, building civilian morale and strengthening the ties between America and China in our present common war effort. Sol Mayer, San Angelo banker, is district head of the campaign in this area.

45,000 Pounds Of 12-Months Wool Sold At 50 Cents

An active wool market reached to Ozona the first of this week when Melvin Brown of the Ozona Wool & Mohair Co. reported sale of the 45,000-pound George Montgomery clip of 12-months lamb wool at 50 cents per pound.

The clip was taken by Tom Parker, buyer for Emory and Conant. Other buyers have been "shopping" the local warehouse in recent days and additional sales are in prospect shortly, the warehouse manager said.

Old-Time Music Entertains Rotarians

Fiddle and guitar music in the Earl McWilliams and Hubert Baker manner entertained members of the Rotary Club at its luncheon Tuesday. The string duet played several old time numbers as a part of the day's program.

A classification talk in the third person was presented on behalf of Oscar Kost, proprietor of the Ozona Boot and Saddlery, a brief biographical sketch read to the club and outlining the Rotarian's life and profession.

New Teachers Are Named For Term Of 1942-43

Four New Selections; Only One Vacancy In L. A. School

Four new teachers have been elected for the 1942-43 term to fill positions in the local school system vacated by resignations, it was announced this week by Supt. C. S. Denham. Only one vacancy remains in the system, the superintendent said, that in the primary grades of the Latin-American school.

C. L. McDonald of Dublin, Texas, a retired teacher and former superintendent of schools at Caldwell, Texas, has come out of retirement in this war-time emergency to again serve as a teacher. Mr. McDonald has accepted the position as principal of the Latin-American school, made vacant by transfer of Joe Ripple to the post as teacher of Spanish and history in the High School.

Mr. McDonald received his B. A. degree in 1906 from Polytechnic and his M. A. from Southern Methodist University in 1913. He served as superintendent of Caldwell schools from 1924 to 1932. In 1936-37 he was government educational supervisor of 22 Texas counties, retiring from that position to supervise his farm operations near Dublin. Mr. McDonald is the father of Mrs. T. A. Kincaid, Jr., of Ozona.

A former teacher in the local grade schools, Mrs. Frances Northcutt Smith, who taught in the grade school here from 1933 to 1937, will return to teach the fourth grade, to fill the vacancy created by resignation of Miss Eleanor Neal. Mrs. Smith, a sister of Pascal Northcutt, Ozona drug store operator, received her B. S. degree in education from A & I at Kingsville, in 1940 and did post graduate work at Colorado State College in Greeley, Colo., the following summer. Her husband, Hank Smith, taught at Taft, Texas, last year.

Previously announced were the other two new teachers. They are Arnold Kleinschmidt of Lexington, Texas, who will be the new band director to succeed Cyril Pingelton, resigned. Mr. Kleinschmidt is a young man just graduating this spring from Southwest Texas State Teachers College at San Marcos but with a splendid background in music and band experience in his college work.

Miss Mildred Gibbens of Alpine, who received her B. S. degree in physical education from Sul Ross this Spring, will teach the fifth grade in the Latin-American school and in addition will direct classes in physical education and folk dancing. She was assistant director of physical education at Sul Ross last year.

Other changes in the faculty for the coming year include the shift of Miss Margaret Butler, who has taught the last four years in the Latin-American school, to a new position as third grade teacher in the elementary school, and Miss Estelle Carruth from the Latin-American primary grades to teacher of the third grade, vacated by Miss Butler. The position in the primary grades of the Latin-American school is yet to be filled.

Mrs. Conley Cox Temporary Manager Of Hotel Ozona

Mrs. Conley Cox has been employed by the Hotel Ozona Corp., owners of the Hotel Ozona, as temporary manager of the hostelry until some permanent arrangements can be made for operation of the hotel property, it was announced this week.

J. V. Blaylock, who has had the hotel under lease for the past eight years, gave up his lease effective June 1. Directors of the Hotel corporation have been in communication with other prospective lessees and operators but while a new contract is pending they employed Mrs. Cox to manage the concern on a temporary basis.

THURSDAY, JUNE 4, 1942

EAT THE SAME BREAD . . .

No country on earth has as many automobiles per capita as the United States. In no country is the automobile such a necessity in the daily life of the people. We have used it so universally that steam and electric railroads long ago discontinued the bulk of their interurban service throughout the country, and interurban tracks have been generally abandoned and torn up. Now, as a war necessity, people are required to give up, to a large extent, this basic means of transportation.

When gasoline rationing went into effect, many Congressmen and Senators who regulate the acts of private citizens, signed up for "X" cards giving them unlimited amounts of gas, on the theory that their driving was essential to national defense. Probably nowhere else in the world is a private car for a public official less needed than in Washington, D. C., where taxicabs are as thick as fleas on a dog's back and rates are the lowest. Most Congressmen and Senators live in apartment houses and hotels where it is more advantageous to use a taxicab than a private car.

Writing on this situation, Raymond Clapper says: "The attitude of these Senators and Representatives makes one's blood boil." This gasoline grab is a glaring example of privileged officialism asking the common people to make sacrifices which the officeholders do not wish to share. It's high time that our growing army of public servants, which is acquiring more and more special privileges, was set back on its heels and made to eat the same kind of bread it rations out to the people.

NEIGHBORS ARE HUMAN . . .

The fellow who is all tenderness and solicitude when a neighbor gets hurt merely says, "Ho, hum! Nothing much doing," when he reads the Reds have killed 10,000 Nazis.—Memphis Commercial Appeal.

WE'RE SAYING HIM . . .

Brig. Gen. James H. Doolittle had explicit orders not to disturb the serene presence of the Son of Heaven when his boys used Tokyo to stage the 20th century version of the old American habit of not firing until they see the whites of their eyes. The order stemmed from no respect for Emperor Hirohito. It was just smart psychology—an important branch of air raiding which neither the Germans nor the Japanese could ever comprehend. Hirohito could have been dispatched to his ancestors with ease, according to the famous speed pilot. But such a tragedy would have done more than any one act to unify the Japanese people behind their generals. They have had more than enough war in the 11 years since the Mukden bomb incident and nothing was to be gained by giving them a new shot in the arm. It is only necessary to recall how the terror raids against British cities unified the United Nations have no need to indulge in such practices in retaliation now, however satisfying they may be in meeting the popular demand for revenge. What has been important up to now, with air resources limited, has been to make each bomb count for the most against military objectives. "Business before pleasure," echoed Prime Minister Churchill not long ago when chided for not bombing Berlin. Once air supremacy is achieved so that military objectives can be battered at will the time will be opportune to indulge in the pleasure of giving the Axis people a bit of their own methods. Then it will be time to blast the imperial residence in Tokyo. Hirohito didn't escape because we like him. We're just saving him until we're ready.—Cleveland Plain Dealer.

APPRAISING THE ENEMY . . .

London correspondence quotes an "observer"—language, and probably uniform, unmistakably American—in a few well-chosen words about the enemy. "It's about time someone tells the world the Germans pull their pants on one leg at a time like everyone else and that the Italians aren't funny-page soldiers." That graphic statement we heartily accept, particularly since this observer has been doing his observing at first hand and for many months on the Libyan front. It is foolish to overestimate him. "The Germans I saw are not better than the British in equipment or training. The Italians fought well. . . They stuck it out as long as the Germans and fought hard all the way." So said this officer, who wants us to stop kidding ourselves that the enemy is either a superman or a panty-waist. What he said seems to us good for a healthful understanding of what it is going to take to win this war.—Detroit News.

AT LEAST ONCE . . .

In view of the fact that all able-bodied physicians under the age of 45 are to be commissioned, those who aren't able-bodied had better see their physicians.—Indianapolis News.

STICK THAT PATCH ON!

THEN LET'S DO DAMAGE . . .

Last December—22 days after Pearl Harbor—the Brookings Institution published a pamphlet on the "Curtailed of Nondefense Expenditures." In that pamphlet it showed how the Federal Government could, by sacrifice of non-essentials, reduce its "ordinary" budget by approximately \$2,100,000,000 a year. Now, more than five months after Pearl Harbor, Congress is still fussing with the question of Government economy. Nothing concrete has yet been accomplished. There is still a "desire" to do something, but there is also a "feeling of helplessness" on the part of congressmen and the President. It is extremely difficult, they apparently think, to find ways to effect substantial savings without doing damage to the Federal Governmental structure. All right, let's "do damage." Nothing in this country is normal today. The war has had its effect on all of us. Legislation and rulings presently go into force will affect us still more. Why should the Government structure remain untouched? —Milwaukee Journal.

COMMON CASE, TOO . . .

Then there was the Washington amnestia sufferer who didn't know his own name, address or which board he belonged to for winning the war.—Atlanta Constitution.

HOT AND BOTHERED . . .

Scientists have come up with the profound conclusion that a big man suffers more from the heat than a small one does. There's more of him to get hot, isn't there?—Savannah News.

Side Glances on Texas History

By Charles O. Huckler, University of Texas Library

HEALING BY FORCE

When Cabeza de Vaca and his companions were first rescued by the Karankawa Indians on Bad Luck Island in 1628, the natives persisted in believing that the white men possessed powers of healing.

"They wished to make us physicians without examinations or inquiring for diplomas," Cabeza de Vaca reported. He is quoted extensively on this subject by Morris Bishop, a copy of whose "The Odyssey of Cabeza de Vaca" is found in the University of Texas Library's Texas Collection.

"They cure by blowing upon the sick, and with that breath and the imposing of hands they cast out infirmity," the Spaniard explained. "They ordered that we also should do this, and be of use to them in some way. We laughed at what they did, telling them it was folly, that we knew not how to heal. In consequence, they withheld food from us until we should practice what they required."

The Spaniards finally acquiesced. "They learned the therapeutics of the island medicine men," Bishop wrote. "The practitioner made some cuts where the pain was felt, and sucked the skin around the incisions. They also cauterized with fire, a method which Cabeza de Vaca himself found to be beneficial, probably in the arresting of infections. Afterwards they blew on the seat of

the pain, and thus gave the patient to understand that his illness was healed.

"The medicine man, whose craft was considered a form of sorcery, was the most honored member of the tribe. . . In case of a cure, the patient would give the healer all his possessions, and also those that he could command from his relatives.

"Thus, in their role as sorcerers, the surviving Spaniards came somehow through the winter of 1528-29. Their position of honor among the savages rendered their lives for the moment secure, and made them confident of a share in what food the hunters and fishers could find."

HEALING BY FAITH

Later, with other tribes, the Spaniards often found themselves regarded as medicine men, and began to regard their healing power as an evidence that their sins had been purged and their faith strengthened by their travails. While Cabeza de Vaca and Castillo were lodging with the gentle Avavares, in 1534, Castillo acquired a widespread reputation as a healer. But "Castillo was a timid practitioner," Cabeza de Vaca's memoirs pointed out, "most so in serious and dangerous cases, believing that his sins would weigh, and some day hinder him in performing cures." But, Bishop declared, there was "in the heart of Cabeza de Vaca at this moment true ardor and faith, and the spiritual strength gained by six years of unflinching purpose concentrated on one end, with the steadfast refusal of the one easy solution—death.

"Envoys from a neighboring tribe appeared, begging Castillo to come and cure some wounded and sick, especially one who was very near his end. Cabeza de Vaca, by his side, felt Castillo shrink. Anger rose in him, the anger of faith. He knew that Castillo would fail from lack of conviction, and failure would undo all their new prestige. He stepped forward and offered himself as healer, to Castillo's sign of relief."

Then, in Cabeza de Vaca's words: "When I arrived I found his eyes rolled up, and the pulse gone, he having all the appearance of death, as they seemed to me. I removed a mat with which he was covered, and supplicated

our Lord as fervently as I could, that He would be pleased to give health to him, and to the rest that might need it. After he had been blessed and breathed upon many times, they brought me his bow and gave me a basket of poisonous prickly pears. The natives took me to many others who were sick of a stupor, and presented me two more baskets of prickly pears, which I gave to the Indians who accompanied us. We then went back to our lodgings. Those to whom we gave the fruit tarried and returned at night to their houses, reported that he who had been dead and for whom I wrestled before them, had got whole and walked, had eaten and spoken with them and that all to whom I ministered were well and much pleased. This caused great wonder and fear, and throughout the land the people talked of nothing else. All to whom the fame of it reached came to seek us that we should cure them and bless their children."

The aluminum in 125 big jobs boxes is enough for one fighter airplane.

"The 'kitchen brigade' can clean up Hitler"

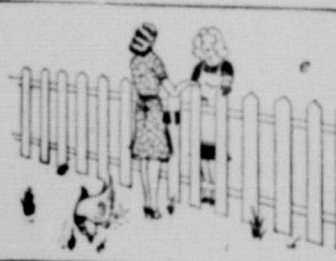

DON'T wash dishes under the faucet. Use good scrub water in a pan—with a dash of hot water. It's healthier—and thrifter. Between plates running water is wasted water and wastes money. Remember, water power is defense power.

Save your pennies for U. S. SAVINGS STAMPS—to scour Hitler off the map. Every U. S. SAVINGS STAMP AND BOND is added energy in America's war effort.

THIS BUSINESS OF Living

BY SUSAN THAYER

"Cheese Makers" and "Cherry Pickers"

"Well, I declare," said Great-Aunt Matilda, putting down her paper, a flush of excitement in her weathered cheeks. "I guess that'll show 'em!"

"Show who, what?" I inquired. "Why the Japs and the Germans. They'd better look out. The way we're breaking records on making things every day. First it's planes. Then it's tanks and now it's ships we're building faster and better than anybody—even ourselves—thought possible!"

"I know," I said. "It's really most encouraging." "Encouraging?" Aunt Matilda snorted. "It's the most stupendous thing that ever happened. Now, I've lived a long time and seen a lot of things happen like electricity and automobiles coming in, but I never thought I'd see an unprepared country like this one catch up in about two years with a nation armed to the teeth. . . And that's what we're doing . . ."

"Now, Aunt Matilda," I reminded her, "we haven't caught up yet. And we won't for a good many months to come. But, of course, Japan and Germany began arming years and years ago."

"But we're upsetting schedules every day, aren't we?—and doing better even than the men at the

head of the industries thought possible? And now look at this story!"

The old lady chuckled as she pushed the paper across the table to me.

"Building submarines on Lake Michigan! Imagine that—and building them upside down and launching them on their sides! What's more, they're being built, not by trained submarine workers from the East Coast, but by local boys. 'Cheese makers' they call some of them, because they milk their cows in the morning before they start to work. Others from further north are known as 'cherry pickers.' We aren't afraid to do things differently and to make use of everybody, no matter what they've done before.

"It's the old American spirit come to life again. . . the spirit that made things 'go' when I was a girl. I thought for a while that America was determined to enjoy itself no matter what happened. But now, thank goodness, I know better! Now I know America is just as tough as she ever was. And between you and me, Susan, sometimes I think, with the wonderful industrial system we have to work with today, that maybe we're even smarter than we used to be!"

New Federal Restrictions Make Mandatory Payment of Bills

Open Accounts Must Be Paid By the 10th of Second Month After Purchase

★ ★

As a wartime measure in which all of us will have to comply, the government has put into effect definite regulations governing the sale of merchandise on regular open charge accounts. The regulations require prompt payment of these accounts. If you have a past due account—see your merchant NOW and make definite arrangements for liquidating the account so that the merchant will not be forced to "cut you off." The Federal restrictions leave them no other alternative.

The new list of restricted articles includes: all civilian clothing, kitchen articles and dishes, linen, jewelry, auto accessories, all electric appliances, luggage, umbrellas, sports equipment, used furniture and yard goods, in addition to the score of previously limited items such as furniture, radios, vacuum cleaners, bicycles, clocks and numerous other items.

Not only is the government insisting that accounts be paid promptly, but it is setting up definite limitations on open credit accounts as well as installments, and if they are not paid within the prescribed time, that person can no longer obtain credit. Your merchants did not inaugurate this program but their strict compliance is mandatory. Failure to do so would subject them to severe penalties and possible loss of license to operate. Your cooperation is solicited.

MERCHANTS OF OZONA

THE METHODIST CHURCH
Eugene Slater, Minister
Calendar of Services
Sunday School, 9:45 a. m.
Morning Worship, 11:00 a. m.
Evening Worship, 8:30 p. m.
(Methodist night at Baptist Church).

Our attendance records for the first two Sundays of the summer show a marked increase over the first two Sundays of last summer. We are most grateful for this record! It means that we are searching for One who comes into men's lives through Christian fellowship and worship. We urge all of our people to make a real effort to come to church every Sunday. A revival of faith in Christ will most likely come through the efforts of that earnest and persistent group of Christian people who keep on searching for the Highest.

The Stockman Pulpit
Pastor of the First Baptist
By Rev. Clyde Childers
Church

"I am come that they might have life, and that they might have it abundantly." John 10:10.

"Preacher, we want you to be sure to come out to see us this summer," said a friend to his pastor as the family took off for the ranch. Then came a word from the small boy of the family to remind us of current shortages and rations. "And be sure to bring your sugar with you when you come."

We are facing today a shortage of some of the things of life that we have counted important. Very likely we are at the beginning of a long period of doing without many things that have added weight to our bodies and inertia to our minds. Some people are groaning loudly over the loss of sweets and tires and they think that the end of the war will mean that all these things will be ours once more. Other people are seeing that much sugar does not make life sweet, and that an abundance of tires and automobiles does not mean that men will travel the Way of Life; they sometimes bog down in the many lanes that lead off the Main Highway.

Some wise and good people are seeing further that the best things are not being rationed. There is no shortage on Shakespeare. For a very small sum anyone may buy a complete set of Shakespeare's works, and, without any interference from his government, any man may drink deeply of the life and wisdom of this great man. The Bible is easily available to every one of us; no one is making an effort to withhold it from us; still many people use it as if we were being rationed on Bible reading. There is no real barrier to any man in our community who wants to be a friend to every one of his fellows; the door is wide open to him; and he need not delay a moment to begin to enlarge his own life through the medium of friendly and neighborly living. The real fate of democracy is dependent on how well the average man accepts this opportunity to live a friendly life among his neighbors. The way to the Highest is open to every man of us, the rich and the poor, the learned and the unlearned, the slave and the free. Yet some of us live as if friendship with God was on the list of frozen articles. It is not so! We may walk with Him until our souls shall have caught up with our bodies, and we shall have learned who we are, whence we came, and whither we are going.

One of the deepest tragedies of

A WEEK OF THE WAR

SUMMARIZING INFORMATION ON THE IMPORTANT DEVELOPMENTS OF THE WEEK MADE AVAILABLE THROUGH MONDAY OF THIS WEEK

Army Air Forces Commander Arnold told a press conference in London that United States fighter and bomber planes will soon join the British Air Force in bombing Germany. U. S. Pilots will have their own air fields and ground crews, he said. "We shall hit the enemy hard and relentlessly until his military power has been broken," Gen. Arnold said. "It is obvious that no offensive against Nazi-occupied Europe can succeed without air superiority and we mean to have it."

Army Service of Supply Chief Somervell, also in London, said U. S. and British officials are working on a program to standardize military equipment, including tanks and planes, so such equipment may be exchanged freely. Chief of Staff Marshall said American Troops are "landing in England and they will land in France."

Under Secretary of War Patterson reported the President's goal of 60,000 planes in 1942 will be surpassed "by a substantial margin," and tank and ammunition production are keeping pace with schedules. He said Army Ordnance monthly deliveries are 458 times as great as two years ago. The WPB said production of new machine tools is 72 per cent above last year.

The House passed and returned to the Senate legislation setting up a smaller war plants corporation which would make loans to small firms to enable them to obtain war contracts. The Commerce Department issued suggested procedures for establishing business wartime clinics to aid local business men in working out current problems of dislocation and changes in their businesses.

Chief of Staff Marshall announced there will be nearly 4,500,000 soldiers under arms by the end of 1942 rather than 3,600,000 as originally planned at the start of the war. During the past four weeks alone the Army strength has been increased by 300,000 men, he said. The Civil Aeronautics Administration called for volunteers to be trained as glider pilots in the Army Air Forces. The glider training is open to men 18 to 35 holding pilot licenses of private grade or higher, to graduates of the CAA program and to pilots completing 200 or more glider flights.

The War Department said medical students who have completed advanced ROTC courses and have been accepted as matriculants in an approved school of medicine will be commissioned Second Lieutenants and placed on a deferred duty status. The Senate completed Congressional action on a bill increasing the number of cadets each member of Congress may appoint to the U. S. Military Academy from three to four, and increasing authorized strength of the cadet corps from 1,960 to 2,496. The Army reported nine new infantry divisions will be organized before the end of August.

U. S. Commissioner of Education Studebaker reported about 430,000 men have been rejected for Army service so far because of illiteracy. Of these, 250,000 are physically fit. He said a program is being worked out to give the "functionally illiterate" basic training in reading, writing and arithmetic. The President told a press conference such rejects have a low mental level because of lack of opportunity. They need to be helped through improved nutrition and possibly through a manual vocational training process, he said.

The President asked Congress for an additional \$600 million for expansion of naval aviation and of warship tonnage. The Senate passed and sent to the House a bill authorizing the Navy to acquire 24 nonrigid blimps, raising the present limit on the number of such ships to 72. The Navy Department authorized enlistment of 10,000 additional college Juniors, Seniors and graduates between 19 and 28 for Reserve Midshipman training leading to Commissions as Ensigns.

Prayer—Our Father, help us to turn to those sources now open to us that will deepen our friendship with Thee. And in that friendship we dare to hope and believe that we shall learn the true meaning of our lives and we shall find our highest joy. We pray in Christ's Spirit. Amen.

ed before the end of August.

Selective Service
U. S. Commissioner of Education Studebaker reported about 430,000 men have been rejected for Army service so far because of illiteracy. Of these, 250,000 are physically fit. He said a program is being worked out to give the "functionally illiterate" basic training in reading, writing and arithmetic. The President told a press conference such rejects have a low mental level because of lack of opportunity. They need to be helped through improved nutrition and possibly through a manual vocational training process, he said.

Navy
The President asked Congress for an additional \$600 million for expansion of naval aviation and of warship tonnage. The Senate passed and sent to the House a bill authorizing the Navy to acquire 24 nonrigid blimps, raising the present limit on the number of such ships to 72. The Navy Department authorized enlistment of 10,000 additional college Juniors, Seniors and graduates between 19 and 28 for Reserve Midshipman training leading to Commissions as Ensigns.

The War Front
A Navy communique reported U. S. submarines in Far Eastern waters sank two Japanese cargo ships probably sank a third, and damaged one heavy cruiser. The Navy also announced the U. S. Destroyer Blakely reached an undisclosed port with 10 of her crew missing and six injured after being torpedoed in the Caribbean Area.

During the week the Navy reported one large, 11 medium-sized and four small United Nations merchant vessels (11 of U. S. registry), and a U. S. trawler were torpedoed or sunk by shellfire in the Atlantic and Caribbean Areas. Survivors were landed at East Coast and Caribbean Ports. The State Department said the U. S. is abiding by the rules of the Geneva Prisoners of War Convention, and the German, Italian and Japanese Governments are apparently doing the same.

Civilian Supply
The WPB reported more than 400,000 scrapped automobiles from auto graveyards yielded 350,000 tons of scrap metal during April, approximately 200,000 tons more than the average monthly yield for 1941. The Board said American motorists have in the tires and the works of their automobiles a rubber reserve of about 1,200,000 tons.

The WPB said a Victory safety razor with a plastic handle, a zinc

POLITICAL ANNOUNCEMENTS

The Stockman is authorized to announce the following candidates for political officers, subject to action of the Democratic primaries:

For Sheriff, Assessor and Collector of Taxes:

- R. E. McWILLIAMS
- FRANK JAMES
- MIKE COUCH
- ROSCOE COATES

For County Treasurer:

- TOM CASBER (Re-election)
- GEORGE RUSSELL (Re-election)

For District Attorney, 11th Judicial District:

- HART JOHNSON, Ft. Stockton
- CALLAN GRAHAM, Junction

For Justice of the Peace, Prec. 1:

- SAM HOGSTON

For Commissioner, Precinct 1:

- ROB MILLER (Re-election)

For Commissioner, Precinct 2:

- CHAS. BLACK (Re-election)

For Commissioner, Precinct 3:

- J. W. OWENS (Re-election)

For Commissioner, Precinct 4:

- E. R. KINSER (Re-election)
- T. A. KINCAID, JR.

cap, and a zinc or plastic guard will go into production in a few months and will be offered to the public when the present supply is used up. The Board announced it invites specific inquiries from manufacturers as to how they may employ casein, a basic chemical made from skimmed milk, as a substitute product for scarce chemicals. Production of all musical instruments except violins, cellos and some guitars was halted. Piano manufacturers will turn out gliders, organ factories will make blowers for link gliders used in ground training of pilots, and factories which made French horns, trombones, trumpets, etc., will manufacture precision instruments for airplanes.

Rationing
Price Administrator Henderson said there will be more rationing of essential articles, but the country is a long way from a complete rationing system. He said there will be additional shortages in power, fuel reserves and transportation. WPB Automotive Division Chief Kanzler reported nationwide rationing of gasoline would help relieve potential rubber and automotive replacement parts shortages. Board Chairman Nelson said administrative difficulties will make it impossible to institute such gasoline rationing before July 1. The OPA reported the June ration quota for new passenger automobiles will be 40,000 plus carryover of unused quotas from March, April or May.

War Bond Sales
The Treasury said War Bond sales from May 1 to May 29 totaled \$615 million, while the quota for the month was \$600 million. April sales were \$536 million. The June quota is \$800 million, and the goal will be raised to \$1,000 million in July. The Treasury said 1,000,000 retailers throughout the

New Officers Installed By OES

Installation of officers was held when the Ozona Chapter of the Order of Eastern Star met Tuesday evening in the Masonic hall.

New officers installed were Mrs. Tommie Cabanes, Worthy Matron; Richard Flowers, Worthy Patron; Mrs. Frankie Ingham, Associate Matron; Hubert Baker, Associate Patron; Mrs. Mary Flowers, Secretary; Mrs. Vera Fussell, Treasurer; Mrs. Velma Marley, Conductress; Mrs. Gladine Kost, Associate Conductress; Mrs. Lena Baggett, Chaplain; Miss Elizabeth Fussell, Marshall; Miss Johnnie West, Organist; Mrs. Winnie Davidson, Adah; Mrs. Maggie Moore, Ruth; Mrs. Mary Frances Scheel, Ester; Mrs. Golda Fenner, Martha; Mrs. Amenda Kunnon, E. cta.; Mrs. Eula Secrest, Warder; Mrs. Lottie Lee Baker, Sentinel.

country are being asked to sell War Bonds and Stamps equaling the value of four per cent of total merchandise sales in July, or approximately \$160 million worth.

Labor Supply
The War Manpower Commission said it is considering a plan to bind management in critical labor areas to hire workers with certain skills through the U. S. Employment Service, in order to eliminate "Piracy" in such areas. The Commission also said if workers refuse to ac-

cept suitable employment in war industries "without reasonable cause," the circumstances will be referred to the Selective Service System for consideration in connection with any request for occupational deferment.

You Can Afford To Use Water FREELY

☆ ☆ ☆

The directors of your water system are pleased to be able to report to the community that the new reduced water rates, introduced two months ago, are proving satisfactory from a financial standpoint to the administration of the system.

It was the theory of your directors that reduction of the rates would result in greater volume of water used and consequently a minimum reduction in revenue from the system. We felt that with the indebtedness against the system and the necessity for maintaining a comfortable reserve, it is imperative that revenues be not cut too sharply. Our theory has proved correct for the most part in that water users have been more liberal in their use of water so that our volume has been great enough so that revenues meet all expenses, including the necessary returns for bond retirement.

☆ ☆ ☆

Your directors are hopeful that water users will continue to look upon the reduced rates not from the standpoint of a reduction in their monthly water bills so much as an opportunity to get more water for the same money. For instance, under the present rates, you can use 20,000 gallons of water a month for the same price that you formerly paid for 9,500 gallons. Beautiful yards and flourishing "victory gardens" are now possible for Ozonans at a very moderate rate.

It is the aim of your directors to operate the system as economically as possible at all times, to produce an abundance of water, to keep in financial good standing with bond holders while at the same time offering as low water rates as possible with the volume being used. Your cooperation in maintaining this policy is earnestly solicited.

Aubrey Fussell To Wed Georgia Girl In June Ceremony

Mr. and Mrs. W. M. Bridges of Alamo, Georgia, announce the engagement of their daughter, Nancy Elizabeth, to Ensign Jesse Aubrey Fussell, Jr., formerly of Ozona, Texas, and Columbia, South Carolina.

Miss Bridges is an honor graduate of Coker College, Hartsville, South Carolina, later doing graduate work at the University of Georgia and at Blue Ridge, North Carolina. Last year she was a member of the High School faculty of Alamo, Georgia, and she has just completed a year's work in the High School at Dillon, South Carolina.

Ensign Fussell is the son of Dr. and Mrs. J. A. Fussell of Ozona, Texas. He is a graduate of Ozona High School and of the University of Texas. Before he went into the Navy, he was Carolina Supervising Engineer, with offices in Columbia, South Carolina, for the J. B. McCrary Engineering Corporation of Atlanta, Georgia. He is now stationed at Charleston Navy Yard, South Carolina.

The wedding will take place in June.

Ozona Girl, Mary Margaret Harris, Is Graduated from TSCW

DENTON — Miss Mary Margaret Harris of Ozona was one of the 351 students to receive degrees at the thirty-ninth annual commencement exercises at Texas State College for Women Monday morning at 9 o'clock.

Miss Harris, daughter of Mr. and Mrs. T. C. Harris, received a bachelor of science degree, majoring in music education and minor in English. During her college career, Miss Harris was a participant in extra-curricular activities.

Dr. L. H. Hubbard, president of the college, conferred 214 bachelor of science degrees, 125 bachelor of arts, 4 bachelor of science in library science, and 8 master's degrees at the recommendation of Dean E. V. White. The commencement address was given by Dr. Hubbard.

Program for the exercises included an organ procession and recessional, the TSCW "Alma Mater" and special music by members of the music faculty. Honor students were recognized and awards for artistic achievement were made.

Mr. and Mrs. Eugene Slater and Susan were in Kerrville on Tuesday and Wednesday for the meeting of the planning committee of the Conference School of Missions to be held in August. They returned to Ozona Wednesday night.

Ace Club Guests Of Doris Bunger Sale Of Material

Miss Doris Bunger entertained the Ace Club in the home of Mrs. Joe North Saturday afternoon.

Miss Catherine Childress won high, Miss Mary Louise Harvick, low, and Miss Elizabeth Coose bingo.

Others present were Miss Betty Lou Coates, Miss Betty Bratcher, Miss Billy Jo West, Miss Posey Baggett, Mrs. Joe Thomas Davidson, Mrs. Jack Egggett.

HOUSE PARTY

Boys of the Ozona High School quartet and their dates were entertained with a house party by L. B. Cox, III, on the Cox ranch this week. Enjoying the affair were Billy Hannah and Mary Perner, Bill Carson and Gemella Dudley, Red McWilliams and Ethel Mayes and L. E. Cox and Lottie Jo Owens.

SLUMBER PARTY

Priscilla Baker, Florence Luther, Mary Faye Lucas, Rozelle Pharr, and Norma Lovelace enjoyed a no-hostess slumber party at the Hubert Baker home Wednesday evening. Arising Thursday morning at 6:15 they went swimming and had a sunrise breakfast five miles south of town.

American Eagle Flyer Was Not Former Resident Of Ozona

It was a case of mistaken identity when the Stockman last week represented one Sunshine Parker, fighter pilot with the American Eagle squadron in England, as being a former resident of Ozona and an athlete on Ozona High School football and basketball teams.

A clipping from a Del Rio paper was brought to the Stockman and the subject of the story, Sunshine Parker, whose letter to a Del Rio friend was quoted, was identified as a former Ozonan. Parker is a former Del Rioan and also formerly lived at Paducah, but did not live in Ozona. He is a school days friend of Rev. Clyde Childers, pastor of the Ozona Baptist Church, and Rev. Childers has received a number of letters from him since he has been fighting with the RAF in England.

BARBECUE PREPARED HERE FOR SANDERS CATTLE SALE

Persons who attend the C. C. Sanders Hereford herd dispersion sale in San Angelo Friday will be treated to a barbecue dinner of prime beef from the registered herd. Two calves, weighing a total of 1,920 pounds, are on cold storage here ready to be barbecued by R. J. Cooke, West Texas barbecue master, to feed the sale crowd.

Big Business Of School Operations Shown In Annual Report Of Superintendent To State Department For 1941-42 Term Here

That operation of a school system, even in a town the size of Ozona, comes under the head of big business is revealed in an examination of the annual report of the 1941-42 term made to the State Superintendent of Public Instruction and completed by Supt. C. S. Denham during the past week.

The annual report itself is something like a report to stockholders. It reveals everything from the assessed valuations for school purposes, to the tax rate, the number of teaching positions, value of the school plant and properties, books, total enrollment and even down to a breakdown in the year's attendance.

The local system operated under an assessed valuation for school purpose of \$5,754,410, the report shows. The tax rate on this valuation is 22 cents on the \$100 for bond retirement, and 50 cents for maintenance, a total rate of 72 cents on the \$100 valuation.

The per capita enumeration for March, 1941, was 856, on which number the system received its per capita apportionment from the state. There are a total of 23 teaching positions in the system and all teachers have standard college degrees.

The total value of the school buildings and grounds, plus furniture is \$337,500. An additional \$19,700 worth of teaching equipment, including laboratory equipment, visual aids, etc., runs the total value of the plant to \$357,200. There are a total of 2,950 books in the school libraries.

Total enrollment for the year was 637, with 526 of this number in the elementary grades and 111 in high schools. An interesting fact of fluctuation of school pupils is revealed in the report which shows that membership on May 20 was 438, against a grand total enrollment of 637, showing that 199 pupils had withdrawn, passed through the local system and on during the term from September to close of school in May.

Days of classes attended by all pupils during the year totalled 70,664, with the unusually high absentee total of 8,806.5 days for all pupils during the year. An epidemic of measles during the year accounted for this high absentee

rate. A comparison of the absentee record for the 1940-41 term with the year just closed will reveal the ravages of the measles epidemic. In the 1940-41 term, there were a total of 6,571 days absent by all pupils against 8,806.5 absent because of the measles epidemic than the year before.

Boys and girls were about evenly divided for the year, the report goes into further detail. In the elementary school there were 216 boys and 203 girls and in high school 47 boys and 56 girls, these figures being based on enrollment at the opening of schools in September. Totals in all grades showed 263 boys and 259 girls.

Miles Pierce Is Valedictorian Of Class At NTAC

Miles Pierce, son of Mr. and Mrs. V. I. Pierce of Ozona, was valedictorian of a class of 153 graduates of North Texas Agricultural College, emerging with an average grade of 93.44 in his two years of college work.

Miles was a second lieutenant in the cadet corps and majored in agriculture. He plans to enter A & M College next fall.

SON TO NEWKIRKS

No State Fair In Texas This Year Because Of War

DALLAS—There will be no 1942 State Fair of Texas.

Decision to forego the annual exposition, known as "The world's largest and most beautiful State Fair," was reached by the Board of Directors after Harry L. Seay, President of the institution, made a report on his survey of conditions brought about by the national emergency.

Lack of transportation for both exhibits and patrons decided the issue. Tire shortage, possible gasoline rationing and a scarcity of shipping facilities influenced the decision. Many of the leading fairs of both the United States and Canada have been called off for the duration.

Grounds and buildings of the \$15,000,000 plant of the State Fair of Texas have been tendered the United States Government for whatever use it may see fit to make of them, Mr. Seay announced.

Sale Of Material For Fence Building Now Is Permitted

Amendments to Orders M-21 and M-21-b to permit the sale on unrated orders of fence wire, barbed wire, poultry netting, fence posts, gates, staples and corrugated roofing and siding were issued by the WPB, Mr. Carl L. Pool, San Antonio district manager of the WPB priorities field service was advised from Washington.

These items are added to nails, bale ties and small pipe on which no priority ratings are necessary for sales from warehouses and dealers. The action was taken as these items are constantly used by farmers and householders for maintenance and repair.

Mrs. John Henderson, III, visited with her parents, Mr. and Mrs. Scott Shambaugh of Houston last week.

Craig Miller of Rocksprings visited friends in Ozona Monday.

Over Heard on Main Street...

"What! Drive all the way to Big Town for a new refrigerator and run 80 MILES OFF MY TIRES! I'm buying right here in Ozona!"

Alert small town dealers, reading the signs of the times in rubber rationing, are preparing for business which the automobile took away from them.

Newspaper advertising is the cheapest way for merchants to reach the buying public.

A good sized ad costs far less than it would to send a postal card to these prospective customers.

A description of goods offered can be fully explained, just the same as the advertisers do in the city papers.

Selling through advertising is the present day accepted plan of merchandising.

Texans Lead Way In Flight Training At Randolph Field

RANDOLPH FIELD, Texas — Following in the footsteps of 14 of their fellow Texans who helped to bomb Tokyo, the largest group of Lone Star Staters in the history of the "West Point of the Air" is in the midst of a busy flying schedule here which has but one goal—wings.

Leading all the 48 states in the number enrolled, these Texans are members of the largest class ever to fly at Randolph Field, the Army's oldest and largest basic aviation school.

From high plains, piney woods, red lands and black, hill country, canyon country and seashore — from towns little and big—the Texans lead the way.

These Aviation Cadets and Student Officers were sent to Randolph Field from various primary training fields in the Southwest, and after finishing nine weeks of basic training here in their fast, streamlined, blue and yellow monoplane, they will be sent on to advanced schools, all in Texas, where, upon successful completion of the work, they will be awarded silver wings—insignia of the flying officer.

Aviation Cadets will be awarded commissions as second lieutenants. Student officers are flight students who had commissions before beginning their training in military aviation.

Houston leads all Texas cities with 32 enrollees. (Dallas has 20, San Antonio 15, Austin 10, and Fort Worth 7. About 115 Texas cities and towns are represented by cadets and officers in the all-time high class.

Sugar Ration Plan Major Problem For 5000 A&M Students

COLLEGE STATION — Texas housewives who must keep up with sugar ration books of families of from two to five or six members probably would throw up their hands in distress if faced with the job of J. Cliff Hotard, supervisor of subsistence at Texas A & M College, whose "family" consists of more than 5000 young sugar consumers.

Hotard and his staff must collect the War Ration Books of all Aggies eating in the A & M dining halls, and it is his job to see that the sugar not consumed with cereals and coffee is made available for desserts.

The Aggies like their desserts, however, and when sugar rationing began they voluntarily limited themselves on the amount of sugar used in cereals and coffee in order that they would have plenty left for "cush" as all dessert is called at Aggeland.

Rapid Expansion Of USO Service As Fighting Forces Grow

HOUSTON—Reporting a new total of 695 USO clubhouses and other units in operation, Harry C. Wiess, state USO chairman, today called attention to the growing need for support of this civilian service to America's fighting men.

Mr. Wiess said that demands upon USO for services to the Ameri-

"Buckle down—to work for Uncle Sam"

BEFORE washing a garment, remove breakable buttons and buckles. Pearl buttons or jeweled buckles haven't the stamina to face washing machines or hard scrubbing. Broken or missing buttons can ruin a costume, or, if unmatchable, necessitate the purchase of a new set.

Then put the money saved into U. S. SAVINGS STAMPS—to help buck up Hitler! Every pay check should be budgeted to include generous help for Uncle Sam.

can troops have been so heavy since March 23 that USO has been obliged to add fifty eight units to a system which already encompasses forty five states as well as Alaska, Hawaii, the Canal Zone and other bases from the Caribbean to Newfoundland.

Of this operational total, Mr. Wiess added, 662 units are in the continental United States and thirty three are overseas. There are now 450 USO clubhouses, of which 424 are in this country and twenty six are extra-continental. Buildings erected, or renovated, by the federal government, house 184 of these clubs.

The new report, coming soon after USO launched its Texas war fund campaign for \$1,110,000, showed that 1,394 professional staff workers are employed by USO, an increase of 146 over the 1,248 who represented the organization professionally as of March 23.

Behind The Scenes In American Business

By John Craddock

NEW YORK, June 1—BETTER NEIGHBORS—The neighborliness that war's rubber shortage and gas rationing has fostered in the way of more backyard entertaining, croquet, picnicking or just sittin' has business counterparts. For example, consolidation of delivery routes for milk and bakery products to save gas and rubber. Latest example is the decision to put New York-to-Washington bus service on a "one big happy family" basis among the four competing bus lines. By terms of a special ODT order based on their voluntary plan they are to pool services, stagger schedules, honor each other's tickets and eliminate duplicating operations. And in Cleveland even the taxicabs are getting neighborly! The two big rival companies got together on a joint appeal to the public to "double up" on cab trips, to save gas and rubber. There'll be more of all this.

"UP-GRADING" — "Hidden"

BIG CHIEF WAHOO

by SAUNDERS and WOODGON

price rises have popped up to plague OPA since the May 18 freezing of retail prices. Such rises can be effected in many ways, ranging from perfectly legitimate to highly questionable—but even the most scrupulous "up-grading" maneuver has the net effect of higher cost to the consumer. Two up-grading examples at opposite ends of the ethical gamut: There are reports that the 35-cent species of phonograph record will disappear, leaving the half-dollar version as the cheapest available to the hep-cats, and others; a rug manufacturer changed its popular rug in the standard 9x12 size to 9x12 feet, 1 inch—hoping thereby to command a special price, 17 per cent higher than before, for this technically "non-standard-size" rug.

TIPS ON THE TIMES—Federal Reserve Board's adjusted index of industrial production shows 174 for April ("100" being the 1935-39 average), two points up from dedication of new Westinghouse merchant marine plant Admiral Vickers of the Maritime Commission said America now has more "active shipbuilding capacity" than all the rest of the world combined. . . . Incidentally Westinghouse reports 95 per cent of its total productive capacity in 30 plants is now in war work. . . . Baldwin Locomotive's dollar volume of orders in April was around \$106 million; a year ago it was only 7 millions, and even in March of this year the total was merely 19 millions.

BITS O' BUSINESS — Nation's department store sales for the last four weeks are only four per cent ahead of same period of 1941, in dollar volume. . . . a big Cleveland cafeteria says it can handle 30 per cent fewer patrons during the noon rush on account of having to have an employe dole out sugar by the spoonful. . . . Philadelphia restaurants notice an upsurge in milk drinking. . . . State fairs are a war-time casualty, what with transportation problems and farmers busy trying to raise record crops; many are being canceled. . . . Maple sugar production was up 66 per cent this spring, on account of the sugar squeeze.

POST-WAR JEEPING — An ultra-modern version of the "swords

into plowshares" philosophy is the expected post-war conversion of the Army's versatile "Jeep" or quarter-ton reconnaissance car to farming tasks. The U. S. Department of Agriculture has been putting it through its paces in Georgia and Alabama, and Willys-Overland Motors, which builds the rough-and-ready buzz wagon, has received reports from practical farmers who've given it some workouts. Dr. Carl S. Mundy of Toledo used one in a variety of test jobs, including the complete soil treatment of 112 acres, and he reported a gasoline consumption of as low as a half-gallon per acre.

THINGS TO WATCH FOR — A coffee-maker of the drip type in which hot water goes up via the handle instead of a center tube. . . . A reverse periscope for cooking ranges, so a housewife can

A dime out of every dollar we earn IS OUR QUOTA for VICTORY with U. S. WAR BONDS

peek in on roasts and bakings without opening a stove door. . . . A "shellacless" material suitable for making phonograph records. . . . A special long-handled shovel for fighting incendiary bombs, with a supply of sand packed inside the handle and quickly releasable. . . . A bristle-less paint brush, by Sherwin-Williams.

IN SCRAP IRON AGAIN?

When a war ends, a great deal of business is done as usual between former enemies, and we are not of those who believe that something should be done to prevent it. Peace without trade is war of another kind.—Charleston News and Courier.

LIBERTY LIMERICKS

A barber named Archibald Weedum Said—"Here, Uncle Sam, if you need 'em, Are all of my savings From hair cuts and shavings I'm buying Bonds and Stamps for freedom."

Trim a few dollars off in annual savings to help your country. Buy a U. S. Savings Bond every pay day.

Save Your Fat To Avoid Shortage Advice Of Expert

COLLEGE STATION — American families eat more than six billion pounds of fats and oils yearly. According to Roy W. Snyder, animal industries specialist of the A. and M. College Extension Service, it would require 6,000 freight trains of 50 cars each to haul that essential food to a central market.

The world shortage of fats and oils makes it imperative to conserve them here. Store lard to be used at home in tight containers in a dry, cold, dark place. Packing lard in gallon buckets with a layer of wax at the top to make the containers air tight is a proved method for keeping it through the summer months. Moisture, air, light and high temperature hasten lard to become rancid.

In using lard from a large container—five gallons for example—take it off the top evenly. Snyder cautions that digging down in the center or at one side exposes more surface to the air and increases the chances of rancidity. Save lard by using no more than necessary in cooking. Bacon and sausage drippings, which are suitable for seasoning other foods, should be strained and stored in a cool place as carefully as new lard.

If lard is strained through several thicknesses of cloth to remove foreign matter after use in deep fat frying, its frying life is increased. Snyder warns against heating fat to the smoking point as it reduces the number of times it can be used effectively.

Care Of Woolens Urged As Measure Of Conservation

COLLEGE STATION—Two or three times this nation's domestic production of wool will be necessary to meet military needs in 1934. With the manufacture of woolen blankets prohibited and a similar order for clothing expected shortly, homemakers should take the best possible care of these articles.

Louise Bryant, Extension Service specialist in home management, offers these suggestions for making woolens last longer:

Collect all winter clothing, blankets, and woolen accessories which will not be used again until next fall. Inspect the garments carefully for soil and grease spots. If they are spotted or dingy, send them to the cleaner. Dry cleaning or washing in a correct solution of neutral soap kills all forms of moths.

Articles not soiled enough to warrant cleaning or laundering should be hung out to air on a sunny, breezy day and give a thorough brushing.

Give each garment as much chance as possible to keep its shape. If articles are packed in chests or trunks, place the heaviest things at the bottom and the lighter things on top. Fold everything lightly sprinkling flake naphthalene or paradichlorobenzene between each fold.

There are dust-proof bags on the market made of heavy paper treated with a moth preventative. These

As the clouds of war gather ever more densely over vast India, greater attention is focused on its leaders. At the right is Mahatma Gandhi, spiritual head of the Indian national congress party, who was instrumental in thwarting Sir Stafford Cripps' efforts at war unity. This new picture shows Gandhi walking with his secretaries and aides. At the left is Pandit Nehru, active and more belligerent leader of the same national congress party. (Picture from March of Time's "India in Crisis.")

SUGAR SUFFICIENT

Wholesale prices of sugar are down 30 to 35 cents per cwt. below OPA base price in the Southwestern region, with rationing reducing consumption and increasing competition for business, OPA region administrator Max L. McCullough declared. "The sugar supply in the Southwest is sufficient to meet rationing needs, and there have been no reports of bootlegging or any other evasions of the law," Mr. McCullough said.

will hold several garments and will allow the garments to hang in natural lines. Stuffing the sleeves and body of the garment with wads of tissue paper will help keep it free of wrinkles. Do the same with folded garments.

STREETCAR RAILS DONATED

Donation by the City of Marshall, Texas, of approximately 140 tons of abandoned street car rail to the national scrap collection campaign has been announced by Roger L. Tennant, region executive for the WPB's special projects salvage section. The Works Projects Administration has accepted the rails on behalf of the War Production Board.

INEXPENSIVE DIVERSION

The bewildered guest eyed the youngster who was driving nails into the furniture. He turned to his host.

"I say," he said, pointing to the boy with the hammer, "don't you find it rather expensive to let your children play like that?"

The host smiled proudly. "Not at all," he replied cheerfully, "I get the nails wholesale!"

A steel company takes space or enclosures that go with dividend checks to suggest that stockholders invest their dividends in War Bonds.

OPA Studies Plan To Buy Excess Tires

DALLAS—Correcting erroneous reports that have been published, Max L. McCullough, region OPA administrator, said today that local rationing boards will not be asked to take in or resell tires under any plan by which the OPA may offer to purchase consumers' excess supplies.

"The OPA is studying plans to offer to buy excess tires in consumers' hands, but the details are not complete as yet," Mr. McCullough said. "Regardless of what mechanism is provided for the purchase of excess tires, the boards will not be requested to take in or resell tires as part of their function."

Local boards, however, probably will be called upon to ration any new tires and serviceable tires that might be collected under the contemplated voluntary sale plan, Mr. McCullough said, adding that this, however, would be no departure from their ordinary duties.

INDUSTRY VALUES TO BE WEIGHED

In close cooperation with the armed services and the Office of Civilian Defense, the new Resources Protection Board named by WPB Chief Donald M. Nelson, will evaluate the relative wartime importance of all industrial plants, war facilities and vital economic resources in the nation, and make recommendations for their protection. Hazards to be considered include bombing, sabotage, espionage or actual invasion, and also natural hazards such as fire and flood.

BULLDOGGER

Miss Porter: "So you are on a submarine. What do you do?"
Sailor: "When we want to dive, I run forward and hold her nose."

NEW AIR CONDITIONING BANNED

New installations of air conditioning equipment and commercial refrigeration units except to serve war needs or meet essential civilian requirements have been banned by the War Production Board. Installation of new air condition-

ing for personal comfort, in theaters, restaurants, hotels, etc., is halted for the duration.

Price Control To Be For 'Duration'

Now that Southwestern retailers are operating under the OPA Maximum Price Regulation and are beginning to put their fingers on the things they are doing wrong in trying to comply, the public also is getting a clearer understanding of price control.

From the point of view of the customer as well as the business man, consumers have been assured by Max L. McCullough, region OPA administrator, that the control of living costs is here for the duration.

From now until the war is over, the cost of all but a comparatively few articles cannot rise higher than the highest price at which they were sold in March, although it can sink lower.

Effective 10 days ago, price control was ordered to make certain that the war does not bring tragic cost increases. In addition to con-

trolling prices that may be charged by the wholesaler, manufacturer, the corner grocer, the butcher, the druggist and the nearby drygoods store, the "price max" also controls the cost of the things they buy. So, it benefits all alike.

CHARTERED BUS SERVICE OUT

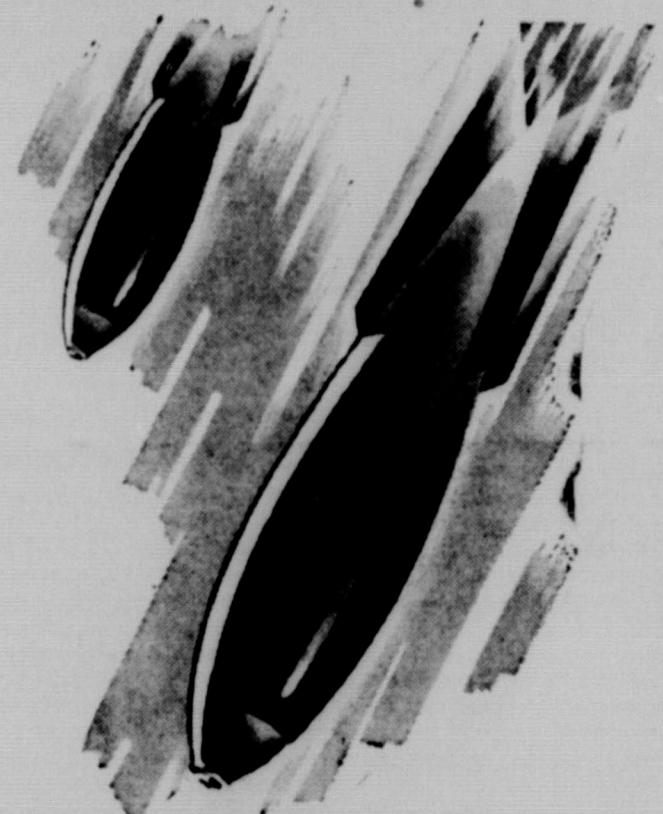

An order, effective June 1, banning all sightseeing bus services and limiting chartered bus services to transportation of the armed forces, war workers and school children, has been issued by the Office of Defense Transportation, with the object of saving more than 1,000,000 pounds of crude rubber annually. Buses are defined as all rubber-tired vehicles having a seating capacity of 10 or more.

A LEAKY radiator is often blissfully ignored. To have it repaired costs little. But repair on the ceiling below, damaged by dripping water, comes high.

Spend pennies to repair the leak. Save the dollars to buy DEFENSE SAVINGS BONDS.

NEWS OF OUR FIGHTING MEN

Bud Kincaid who was inducted at Abilene May 18, has been assigned to the Armored Force and stationed at Fort Knox, Ky. Bud writes that the "hills of Old Kentuck" are not too high for them to march over.

Ozona boys in service who spent week-end leaves at home the past week were Corp. Blake Brown, Scott Field, Ill.; Jack Williams, Goodfellow Field, San Angelo; L. B. Hoover, Fort Sam Houston, San Antonio; Corp. J. T. Casbeer, Kelly Field, San Antonio; and Corp. and Mrs. C. W. Taliaferro, pilot replacement center, San Antonio.

A poem, titled "What Saps Those Japs," composed by Pvt. Enrique E. Sanchez, Ozona Latin-American youth, now stationed at Pine Camp, New York, in the 4th Armored Division, comes to hand this week. The poem follows:

When the Japs attacked Pearl Harbor,
They found us not quite ready.
They thought it then an easy task,
And have since been coming steady.

They downed our planes and killed our men,
The odds were well against us, but,
The tide will turn, we'll win and then,
That "Sun" will go down forever.

Come on, you folks back there at home,
Lend us a hand and help us,
Pour forth into it all you've got,
Be cheerful with it all, don't fuss.

See to it that the "Rising Sun"
Shall never rise again,
And the only ones that ever rise
Shall be the "Sons of Men."
We'll win this war, and when 'tis o'er,
The Japs will be the losers,
But they're the ones who asked for it,
We were not the choosers.

Capt. H. B. Tandy, who recently left his medical practice in Ozona to enter the armed forces, has been assigned to the permanent staff in general surgery at William Beaumont General Hospital in El Paso. "Doc" says he is busy and likes it fine.

J. K. Colquitt will be sworn in as a flying cadet in the U. S. Army Air Corps today and will return to Ozona to await his call to training.

Hart Johnson, Fort Stockton attorney and candidate for district attorney of the 112th district, visited in Ozona Wednesday getting acquainted with voters of this county.

Miss Mary Louise Harvick and Miss Betty Lou Coates left Wednesday morning for Texas University where they will be the next six weeks taking summer courses. Mrs. S. M. Harvick and Ann motored them to Austin.

Mr. and Mrs. W. E. Friend, Jr., had as their weekend guest, Gaines Kincaid of Kerrville.

Recreation in the Big Bend National Park will be varied. Marie Dowdy from College Grove, Tennessee, and a student in Sul Ross College at Alpine is trying out some cliff climbing with ropes at 7,000 feet altitude, a sport becoming popular with winter and summer students.

Eighty-Five Percent of 800,000-Acre Big Bend National Park Lands Purchased, Assuring Development Of Texas Attraction

ALPINE—The Big Bend National Park, destined to be the International Peace Park of North America, is assured. This announcement came May 18 when Newton D. Drury, directors of the National Park Service, visited the park and met with members of the Texas State Parks Board. Representing the Texas State Parks Board, Eugene Thompson, administrator of the Big Bend Land Department, presented figures showing that eighty-five percent of the 800,000 acre park had been purchased, and that the remaining fifteen per cent would be obtained by midsummer. Mr. Thompson pointed out that the last legislature, in making the million and a half dollars available, gave the State Parks Board one year in which to complete all purchases. This period ends September 1, 1942, and Thompson predicted that all negotiations would be completed before that time.

This was the first visit to the only National Park in Texas by Mr. Drury. He declared the park area lived up to all advance notices, and that it was equal to any of the national parks in the United States. Just as soon as the land purchase program is complete the State of Texas will turn this land over to the National Park Service. While no work is planned in the area until the close of the war, development plans are being prepared so that work can start immediately after the war on making the park available to the general public. Appropriate roads, trails, hotels, camp sites, and dude ranch accommodations are planned. Attractions of interest to people of the United States will be the Rio Grande cutting through three deep canyons, the varied desert scenery and plants, and the towering Chisos Mountains with its animal life, streams, waterfalls, and forests of pine, fir, and juniper.

Representatives of the National Park Service will visit Mexico City on June 1 to confer with Mexican park officials on making available a similar tract of land on the Mexican side. This area will include the spectacular Sierra del Carmez

and Fronteriza Mountains. Bridges across the river and highways will be constructed so that the people of both nations, upon entering the park, may drive about at will with no reminder that the Rio Grande is an international boundary.

Spanish Teaching—
(Continued from Page One)

ing used in this division. Joe Ripple will have direction of Spanish classes in high school.

Conversational Spanish is to be emphasized in all classes, with a 15-minute period devoted to each class to conversation in the language, thus familiarizing the students with every-day usage and promoting a knowledge of it as a workable language.

A suggestion that parents might make it easier for children, especially the smaller ones, to grasp the rudiments of the strange tongue when their studies begin next fall, was made by Supt. Denham. If Spanish names for familiar objects in the home were printed on cards and left on these objects for a few days at a time until they become familiar and then removed, with a quiz period following, it could be made an interesting and instructive game in the home, the school head declared. Knowledge of the language thus gained would be of great benefit in starting the pupil off in his school studies next fall, it was pointed out. School textbooks will be made available to parents who wish to use this suggestion and need such assistance, he said.

Howard Lemmons, son of Mrs. Ben Lemmons, is attending the University summer school. Maurice Lemmons, who is completing final work for his degree this summer, has enlisted in the U. S. Army Air Corps and is on reserve until his school work is completed. He has been taking Civilian Pilot Training for several months.

Miss Posey Baggett, daughter of Mr. and Mrs. J. M. Baggett enrolled in San Angelo Junior College Monday to take a business course.

Betty Jane Ingham arrived the first of the week from Stephens College, Columbia, Mo.

Frances Bean arrived during the weekend for the summer vacation. She is a student at Southwestern University.

Miles Pierce, valedictorian at N.T.A.C. came home last week. He plans to stay on the ranch most of the summer.

Dick Henderson is staying with Mr. and Mrs. Jake Short on their ranch near Kerrville.

In contrast to nation-wide trends of last-minute splurging, Texans cut down on their charge accounts during the last month before restrictions on account purchasing went into effect under government supervision, the University of Texas Bureau of Business Research reports. Credit buying fell from 65.4 of total sales a year ago to 60.7 per cent in Texas during April, 1942.

Ozona Teachers—
(Continued from Page One)

dorado, plans a trip to Chicago. Miss Hazel Kirbie will attend summer school at one of the colleges or universities. Miss Margareth Meyer will be at her home in Canyon.

Miss Eleanor Neal, who resigned her position as fourth grade teacher this year, is at her home in Huntsville. Mrs. Al Nimmo, manual training and science teacher, will divide her time this summer between visits at Commerce and in Ozona. Miss Zelma Scott will be at her home in Gatesville, Miss Frances Sprawls in Fort Worth and Miss Georgia Williams in Lamesa. Mrs. M. A. Westerman will join her husband, Lieut. M. A. Westerman of the Armored Force at Brownwood. Miss Estelle Caruth will visit her sister in Houston. Mr. and Mrs. C. S. Denham will remain in Ozona until about June 15, when they plan to visit in Lubbock and Dallas for a few weeks. Miss Catherine Chapman will remain in Ozona.

Eloise Carson who has been attending Baylor University arrived in Ozona the first of the week.

Helen Mayes student of Southwestern University, Georgetown, came home Monday night with Rex and Nonie Hutcherson of Sonora.

Mrs. Joe Graham and daughter, Mary V., have moved to Abilene. Mary V. has enrolled in Draughon's College where she plans to take a business course.

Pvt. Sidney V. Robertson of Camp Chaffee, Fort Smith, Arkansas, Mr. and Mrs. Robert Walsh of Dryden were weekend guests of Miss Crystelle Brock.

Mr. and Mrs. Roy Henderson and Miss Polly Jones of Eldorado attended the commencement exercises at N.M.M.L., Roswell, New Mexico, of which Roy Jr., is a graduate.

Miss Adele Keeton, 1942 graduate of Ozona High School, has gone to Plainview to attend Washland College for the summer session.

Mrs. Mary Perner, who has been ill for the past three weeks, was reported still in a serious condition this week. Her condition remains virtually unchanged, it was said.

Mrs. James Baggett has returned from San Angelo with her infant daughter, Sally, born three weeks ago in a San Angelo hospital.

Mr. and Mrs. Massie Ray Smith and daughter are here from Muskogee, Okla., to visit Mr. Smith's parents, Mr. and Mrs. O. W. Smith. Mr. Smith is engaged in carpenter work in defense construction in Oklahoma.

Bobby Lemmons is home from the University of Texas. He plans to work in San Angelo or Austin this summer.

W. B. Robertson, Billye Jo West, Jim Dudley, Jeff Fussell all Texas U. students are home for the summer vacation.
