County Nearly Five Times Over May Bond Quota

Sales To Date \$40,475 For Month; Quota Was \$8,900

That the ranch industry, workers, business and professional people of Crockett County are anxious to do their part toward winning this war and helping to sweep the world clear of the enemies of the people is evidenced by the increased tempo of their purchase of United States War Bonds.

Crockett county's May quota for bond purchases was \$8,900, set by the United States Treasury Department. Up to the close of business Wednesday afternoon, the Ozona National Bank had sold so far in the month of May \$40,000 worth of Uncle Sam's war securities and the postoffice had accounted for another \$475 worth, nearly five times the month's quota.

So far May has been the banner month in bond sales, according to Scott Peters, active vice president of the Ozona National Bank. Sales have been scattered over a large number of persons, Mr. Peters reports, with a number of smaller bonds being sold and a few large investors making up the huge total for the month. J. R. Kersey, postmaster, says that most of the bond buyers at the postoffice are those for which war savings stamps are exchanged, mostly small denominations.

Although the county's quota for June has not been announced, it is expected that the total will be larger. The quota for the whole state of Texas for June is a little over \$26 millions, which is an increase of some \$8 millions over the May quota for the state.

At the beginning of the year, the treasury department set a quota of \$28,000 in bond purchases for Crockett counties for the year 1942. In the first five months of the year, the Ozona National Bank reports sales totalling \$125,400, with several thousand additional sold through the postoffice. At this rate, the county is keeping well up with its quota month by month.

Blaylocks To Give Up Lease On Hotel Ozona

Leaving Monday; Hotel To Remain Open, Say Directors

After eight years in management of the Hotel Ozona, Mr. and Mrs. Jimmy Blaylock have given up their lease on the hostelry and plan to leave Ozona Monday.

Although no successor to Mr. Blaylock has been named and details of the future operation of the hotel have not yet been determined, Wayne West, president of the Hotel Ozona Corporation, has announced that it is the definite intention of the hotel directors to keep the institution open for business. Whether a new lessee will be sought or the directors of the corporation will retain control and employ a manager to operate the hotel has not been determined, it was announced, but efforts are being made to place management of the hotel in competent hands as soon as possible.

Dwindling receipts occasioned by the tire shortage and elimination of unnecessary travel and failure to make a satisfactory rental agreement with the directors was given as the reason for Mr. Blaylock's turning back the lease.

Mr. and Mrs. Blaylock have been residents of Ozona since 1934, when they came here to take over management of the Hotel. Two and a half years later, Mr. Blaylock leased the concern from the corporation and has been operating it on that basis since. They have many friends in Ozona who will regret to see them leave. Mr. Blaylock expects to secure a position with a hotel in San Antonio or Corpus Christi.

Hawaii on Its Toes, Ready to Dish It Out to Japs

U. S. soldiers are now encamped throughout the Hawaiian islands, ready to meet any onslaught of the Japs. The gun at the left has been installed on what was once a huge private estate. It points toward the Pacific, and its crew keep guard day and night. The soldiers have erected showers at whatever part of the island they are encamped. Here amidst the gumbo-like mud of the hills they are primping up (right) for a hard day's work.

Ozona To Share In United China Relief Campaign

Scott Peters To Receive Funds For U.S.'s Gallant Ally

Ozonans, who in recent months have exceeded quotas in Red Cross War funds, USO and Navy Relief Society, beginning this week will have opportunity to contribute to another cause equally as important if not more important even than these worthy ones—the United China Relief Fund drive.

Scott Peters, who has just completed the successful local USO drive, with the county's quota of \$450 raised, has consented to act as county chairman for the United China Relief drive, under appointment of Sol Mayer, president of the San Angelo National Bank and district chairman for the United China Relief drive.

Ozonans have for the most part made voluntary contributions, without solicitation, in the various war fund campaigns locally. Mr. Peters has announced that this method will be followed in the China relief campaign, with contributions being received at the Ozona National Bank.

"There are a number of persons in Ozona who did not have an opportunity to contribute to either the USO or Navy Relief fund and these persons are particularly urged to make contributions to the China fund," Mr. Peters declared. "I feel that all should have a part in this work and I feel sure all, including those who have contributed in the other drives, will want to have a part in this one—designed for relieving the desperate situation of the Chinese people and boosting the civilian morale of this gallant allied nation."

"Our drive starts on Monday morning, May 25," Mr. Mayer wrote the local chairman late last week. "But we are receiving unsolicited contributions daily from people who realize the importance of helping China so that she can continue to help America. You are, of course, familiar with China's desperate situation and the necessity of our helping her at this time. An investment by the American people in China civilian morale will be a direct contribution toward the maintenance of the Chinese fighting front, and the Chinese morale will be strengthened by their faith in our friendship."

"China has always been our friend. In 1918 when America asked China for \$100,000 for the United States War Work, she gave \$1,425,000—fourteen times her quota. After the Ohio and Mississippi flood in 1937, the Chinese people, entirely of their own accord, raised more money for the relief of our flood victims than any other country except Canada."

"In a recent radio address, President Roosevelt said: 'It is essential that we help'

Thirty New Sugar Users Sign Up For Ration Books Here

Thirty new registrants for sugar ration books were signed up during the past week-end here in the second registration arranged to give those who failed to register in the original sign-up a chance to do so.

The new sign-up of stragglers brought to a total of 2675, the four-day period three weeks ago resulting in registration of 2645 users.

So far as local ration board officials know at present, last week's registration will be the last chance for users to sign up for War Ration Book No. 1.

Civilian Defense Activation Is Sought At Meet

Austin Representative Meets With Local Volunteer Workers

A representative from Austin Cecil Cook from the Governor's office was in Ozona for a meeting at the courthouse this morning for the purpose of discussing with local air wardens and defense units plans for activation of such agencies for better preparation for any war emergency.

Local air raid wardens, set up by the local civilian defense committee, under Chief Air Raid Warden Boyd Lovelace, members of the aircraft warning service over the county and all other defense organizations and volunteer workers were invited to the meeting.

Mr. Cooke met with the Commissioners Court and defense workers to advise them of the need for setting up the organization in this county and of the method for securing official certification of such volunteer workers.

Governor Stevenson To Attend TS&GRA Meet In Kerrville

Fred Earwood, president of the TS&GRA, today announced that Texas Governor and ranchman, Coke R. Stevenson, will attend their directors meeting in Kerrville on June 3.

The Governor owns a ranch near Junction which grazes several hundred sheep and over a thousand goats. Governor Stevenson has been a member of the Texas Sheep & Goat Raisers Association, having served on its board of directors until his appointment as Governor. Due to state laws relative to that office it was necessary he resign directorship in any organization.

Governor Stevenson has a large number of friends among the sheep and goat industry who will look forward to his visit at the Kerrville meeting.

Ranch Industry Selective Service Officials To Meet

TS&GRA Seeks To Clarify Position Of Key Men In Industry

San Angelo will be the meeting place on June 9 of State and National Selective Service officials with representatives of the West Texas livestock industry. This meeting was completed today by Fred Earwood, president of the Texas Sheep & Goat Raisers' Association. Earwood explained that it was not the intention of the TS&GRA or any other livestock association to ask special favors of Selective Service officials but only to clarify the position of absolutely essential key livestock management and labor.

C. E. Wardlaw, National Wool Grower President, Vestel Askew, association secretary and other livestock representatives met with Brig. General Lewis B. Herachey, and his assistant Major Coatsworth, in Washington D. C. several weeks ago. Major Coatsworth will attend the San Angelo meeting. Representatives of the American Angora Goat Breeders Association; Highland Sheep & Goat Raisers' Association; Highland Hereford Breeders Association; Texas & Southwestern Cattle Raisers' Association; the American Rambouillet Sheep Breeders Association; Texas Angora Goat Raisers Association and the Panhandle Livestock Association have been invited to attend the San Angelo meeting.

Deputy State Selective Service Director, Lt. Col. Joe R. Bannister, indicated chairman of many West and Southwest County Selective Service Boards will be invited to attend. The meeting will be held at 9:30 a. m.

Automotive History Told By Lee Wilson In Rotary Talk

Automotive history from the one-hung Brush to the shiny, chrome-trimmed fleet powerhouse of the 1942 model—now in a state of suspended animation, so to speak, because of the production demands of modern warfare—was told in a highly entertaining manner by Lee Wilson in a classification talk to the Ozona Rotary Club Tuesday.

From the moment as a barefoot boy when he threw down the hoe in his father's cotton patch to run to the lane fence to drink in the marvel of the first "gas buggy" to make its appearance in his life, Wilson, Ozona automobile dealer for many years, told of the urge which drove him irresistibly into the business, first as apprentice mechanic without pay, then to full-fledged mechanic's assistant to one of the most successful automobile salesmen in the Southwest.

Speed-Up In Scrap Collection In County Urged

Hiway Dept. To Pick Up Along Highways; Need Is Emphasized

Due to urgency of the need for every piece of scrap iron in the nation to feed the steel mills producing weapons of war, a new drive has been launched in Texas to "get in the scrap" and the Texas Highway Department is cooperating in the move by agreeing to transport all scrap iron which ranchmen will dump by the highway adjoining their property.

Mrs. Scott Peters has agreed to act as vice chairman of the Crockett County Scrap Iron Collection Campaign and if there are any ranchmen in the county who choose to put scrap iron along the high ways for collection by department trucks, they are asked to notify her. Mrs. Peters will arrange with local Highway Department crews to bring in the metal.

A relatively small amount of scrap metal, between five and six tons, has been collected in this county as a result of an arrangement completed by the local USDA War Board. Under this plan, C. C. Luther has been designated to receive the scrap metal, to pay for it at established rates, and to transport it to markets at Eagle Pass, from whence it goes to the nation's steel mills.

Ranchmen of Crockett County may bring in the scrap themselves, take it to Luther's station and receive pay for it immediately, or if they choose they may earmark the scrap for the benefit of any charitable institution, such as the Red Cross, the USO, China Relief, Navy Relief Society or any other organization. As soon as enough metal is thus collected for shipment, the designated institution will receive pay for the amount of metal to its credit at the full local rate.

In order to bring the program directly to the attention of ranchmen of this county and to impress upon them the importance of the nation's war effort to get every bit of scrap to the mills at once, Mrs. Peters is naming a committee of women to aid in a telephone campaign. This committee will contact every ranch in the county to urge the scrap collection.

Thomas L. Mullican, representative of the War Production Board in Texas, has advised that this state has more automobile graveyards than any other state in the Union.

Shipping of scrap to the mills has been retarded by high freight rates, but these have been reduced from 1/2 per cent to 29 per cent on automobile body steel and iron, and further reductions in rate will be attempted in an effort to get this much needed material to the mills. At present nineteen steel furnaces are closed due to the acute shortage of scrap. In view of Texas' huge available supply of this material Donald M. Nelson, chief of the War Production Board has announced that the winning or losing of this war may depend on our ability to move our scrap to the mills.

A program within the state is being inaugurated for this purpose, and a limited time will be set for moving the entire contents of automobile graveyards to a mill, after which they may be re-qualified by the Government.

The program does not require the collection of salable parts, and the owners may salvage such parts for future sale or use.

DR. TANDY JOINS UP

Dr. H. B. Tandy left early Tuesday morning for El Paso where he is to become a captain in the U. S. Army Medical Corps. Dr. Tandy is to be stationed at William Beaumont General Hospital in El Paso. Mrs. Tandy and the children will continue to make their home in Ozona while Dr. Tandy is serving with the armed forces.

Mr. and Mrs. Phillip Lee Childress are having their ranch home refinished this week.

JULY RODEO, BARBECUE IS BEING PLANNED

Patriotic Rally And Homecoming Event In Making

Seeking surcease from war's demands, rationing, tire shortages and the tension under which people labor in war times, Crockett County folk are laying plans for a 1942 observance of a tradition as old as the county—a barbecue dinner, rodeo events in the afternoon and dancing at night, a gathering of Crockett County folk particularly, with visitors from all West Texas welcomed.

Like the barbecue and show staged last July on the occasion of Crockett county's fiftieth anniversary, the 1942 edition is to be a simple affair from a show standpoint, with the probable addition of a patriotic rally, an event aimed primarily as a homecoming for present and former Crockett county folk, with a blanket invitation to friends from all over the area.

Judge Montgomery, who acted as general chairman of arrangements for the fiftieth anniversary homecoming affair last year, has consented to act in that capacity again this year. Committees are already being selected and definite program arrangements will be completed at an early date. At a conference of committee workers and interested citizens to be called soon, the date for the affair is to be decided and other arrangements launched.

In addition to the one-day barbecue dinner, rodeo events will be arranged for one afternoon and possibly two by a committee to be headed by Vic Montgomery. Lee Childress will head the dance committee to arrange for music for one or more dances during the celebration period. A barbecue committee and program committee is to be named as plans for the event take definite form.

Laud Democratic Principles In Class Exercises

Impressive Program Is Presented By Class Of 1942

Youth's impressions of Democracy and its principles and the part of education in perpetuating these principles were exemplified in an unusual and inspired commencement program staged in the high school auditorium here last Thursday evening by eighteen members of the 1942 graduating class of Ozona High School.

The title of the program, handled entirely by members of the class, was "Education in a Modern Democracy," a program made up of short speeches, dramatic skits depicting various attitudes toward democracy in the different walks of life, labor, the student, capital, etc., and narrative interpretation of the elements of successful training for full appreciation of democracy—self realization, human relationship, economic efficiency and civic responsibility.

Participating in the presentation were the following members of the 1942 graduating class: Stanley Lemmons, valedictorian; Gen. Ella Dudley, salutatorian; Mary Lee Brown, Dorothy Lee Capps, Bill Carson, Lloyd Coates, Claudia Everett, Dan Geedes, Mary V. Graham, Billy Hannah, Floyd Hovitt, Adelle Keston, Norma Lovelace, Mary Faye Lucas, Garrett M. Williams, Carl Thurman, Wayne West and Byron Williams.

Diplomas were presented by Judge Charles E. Davidson and Supt. C. S. Denham presented scholarship awards to the honor graduates.

Charles Williams, son of Mrs. Charles Williams, underwent an operation in a San Angelo hospital early this week. He is reported doing well.

Plans For Aluminum In Post-War World To Raise Living Standards

KNOXVILLE, Tenn.—One of the questions troubling the public is what will be done with all the aluminum-producing facilities of the country after the war. Officials of the Aluminum Company of America here revealed that they also are thinking about this question.

Not only are they thinking about it, but they are working out long lists of possible future uses for aluminum.

One of these is packaging. One official suggested to newspapermen during the National Association of Manufacturers' war plants tour that aluminum might be used for such things as beer kegs, cans and caps.

Whether or not aluminum can enter the packaging field depends, he said, on the price of aluminum and that, in turn, depends on the cost at which it can be produced.

Other uses, of course, will be in transportation, such as in railroad coaches, busses, and the like—possibly even coal cars. Aluminum, one official said, might also be used in roofing.

Roy Henderson, Jr., To Be Graduated From N.M.M.I. June 1

Walter Roy Henderson, Jr., son of Mr. and Mrs. Roy Henderson of Ozona, will be graduated from New Mexico Military Institute on Tuesday, June 2, 1942.

Henderson has been enrolled in the Junior College of New Mexico Military Institute for two years, and has done well. He was admitted upon certificate from the Ozona High School.

Young Henderson is a Private, First Class, in the Cadet Corps, and is completing the Basic Course in the Senior Cavalry Unit of the R.O.T.C. His athletic participation has been in gym and intramural track.

Henderson is the second member of his family to become a graduate of New Mexico Military Institute. His cousin, John W. Childress was graduated with the class of 1939.

Young Henderson is among the one hundred forty-two graduates who will receive diplomas from Governor E. Miles of New Mexico. Twenty-one states, Hawaii and Mexico are represented in the class of 1942. Thirty-seven members of the graduating class are from Texas.

Enrollment at New Mexico Military Institute, Roswell, is limited to 620 cadets. Of this number, one hundred thirty-eight are from Texas.

Behind The Scenes In American Business

By John Craddock

NEW YORK, May 25 — DUDE FARMING—The nation's farm population, though larger than a year ago, may be unequal to task of planting and bringing in the wartime harvest needed to feed America and her Allies. Patriotic city folk are seriously considering

LEMON SQUASH SQUELCHED BY YANKEE SODA INVASION

PORT OF SPAIN, Trinidad — The old order passeth, giving way to the new. The old order used to be: "Make mine a lemon squash." Nowadays, it's: "Strawberry soda, Mac."

It's all due to the American "invasion" of this British colonial island, where a lemon squash, something like the lemonade of the United States, used to stand at every elbow.

When the new USO clubhouse was opened here, American soldiers, sailors and marines demanded the ice cream sodas and sundaes of their homeland. The USO snack bar installed a soda fountain and the fame of the American confections spread so fast that the island's Britishers in their own civilian resorts are now calling for strawberry, chocolate and pineapple—with a double dip of ice cream, if you don't mind.

turning their vacations into useful contributions to the war drive by pitching in and pitching hay and horseshoes instead of ordinary peacetime vacationing pursuits. Although farm wages for the nation as a whole were up 30 per cent as of April 1, farm labor shortages exist in greater or less degree throughout the country, are expected to be serious in many regions later in the season. Wage competition provided by well-paying war plants in one big hurdle. Straws in the wind: Idaho business men leave their offices early to blister their hands in the beet fields. Nebraska farmers petition their Governor to obtain exclusive Pacific Coast Japanese farmers to help them. Kansas newspapers carry long lists of farm "help wanted" ads. Chicago public schools are enlisting pupils for summer-vacation "farm board-and-keep" work. California bemoans the loss of Japanese farmers and talks about ending relief payments and "drafting" city people to work in the fields.

TRAVEL TALK—Transport Director Joseph B. Eastman last week noted "with gratification" plans of life insurance companies, Chicago's First National Bank, other organizations for mid-week starting of employe vacations. To relieve heavy week-end congestion on the railroads, already straining every facility to haul vital defense materials, he hopes for nation-wide swing to mid-week departures. The Pullman company, especially alert to the approaching vacation problem because the Army is counting so heavily on its sleeping cars for troop transport, is advising the public to "reserve early—cancel promptly." In fact, under a new I.C.C. tariff designed to prevent wastage of wartime transportation facilities, travelers who do not release sleeping or parlor car accommodations in time for resale will no longer be eligible for refunds. If the public cooperates there ought to be space for all who plan vacations this year, for President Roosevelt, recognizing the fine job the railroads are doing, has said in effect that there was no immediate need for rationing rail travel.

BITS O'BUSINESS—Two "Gen-

Philippine President Here From Australia

President Manuel Quezon of the Philippines, left, is shown with Lieut. Gen. John L. De Witt, commander of the Fourth American army and chief of the western command, second from left, as they and the Philippine executives' party, after arrival from Australia, inspected the color guard at the Presidio in San Francisco. In civilian attire in center is Assistant Secretary of the Interior Oscar Chapman. In right foreground is Maj. Gen. Basilio J. Valdes of the Philippine army. President Quezon was accompanied on his trip from Australia by members of his family.

erals" come up with reports that indicate Uncle Sam's production soldiers are consistently going over the top. General Motors reported to the "Production for Victory" troop of newsmen that a majority of the machines it used to employ making autos and household appliances had moved into war production at such a rate that it has doubled its total production in six months since Pearl Harbor. The other General Electric, celebrated Maritime Day by shipping the first cargo ship turbine from a new inland turbine plant that was completed two months ahead of schedule—and whose early completion means its total production for the year will be one-third greater than originally scheduled. Henri Rush, priority expert of WPB, told a New York commercial and industrial round table that the list of 400 consumer goods recently excluded from use

of steel or iron may soon be lengthened to include 1,000 items.

RULE-PROVER — The practice of drawing upon the old-line, native stock of the green foothills of the Great Smoky Mountains for men and women to operate its vast Tennessee works, is credited by Aluminum Company of America with being responsible for a quality of solid, American personnel which Alcoa insists it is willing to "stack up against that of any industrial organization in America." It was disclosed the other day, on the occasion of the awarding of the All-Navy "E" to the plant for a production job well done, that a recent survey had revealed only one employee in the entire works who was not an American citizen. The exception was a Dane, who, if he's not an American citizen yet, at least is a "solid" one, for he's been working there

steadily for 15 years.

THINGS TO WATCH FOR — Ordinary paperboard, laminated with cellophane, is being tested by du Pont as a substitute for tin plate in cans. With essential oils and glycerin becoming scarce, it is not surprising that a new way to make soap should be discovered—so a patent has been taken out by the J. E. McCormack company on a process for converting whole milk into soap. Something to listen for: A stirring new wartime march entitled "This is God's War," published by Associated Music Publishers. The music is by Baldwin Bergerson and lyrics by David Gregory, inspired by Carl Byoir's poem, "Joe Louis Named the War," first published in Collier's and presented on "I Am An American" Day. New wrinkles in the food field: An item called lima bean loaf, by California Consolidated Canneries; may be sliced, fried in butter, diluted to make soup, baked en casserole or used as stuffing in meats and vegetable-flavored ice cream. An Illinois dairy products company that has been testing them reports definitely that "corn" flavor is easily the most popular.

Do you sometimes hesitate to ask for a receipt?

MANY PEOPLE feel that you are questioning their honesty when you ask for a receipt. To avoid this embarrassing situation, pay by check. The receiver must endorse the check in order to cash it. This endorsement on the cancelled check becomes your receipt—legal proof of payment.

Isn't this an excellent way to get a receipt for every payment without offending anyone? Start a checking account here.

CONTINUOUS DOUBLE FEATURE

Reddy Kilowatt Says:

"Whether or not you care about two movies for the price of one, there's another kind of double feature that you—every one—is enjoying."

"It's the electric service you use—a continuous bargain, right around the clock and the calendar. West Texas home today gets about TWICE or THREE times as much electricity for its money as it did just fifteen years ago."

"In fact, electric service is about the only household item that isn't higher now than even a year or two ago."

"You may not realize that it costs you only about half what it used to—you've added a lot of useful new appliances over the years and you're using more and better lamps."

"The appliances are serving you well—and saving you work. The better light is making it easier on your eyes."

"All this has been made possible by careful business management of your electric company... the same good non-political management that now is serving our country in time of its greatest peril by providing electric power where it's needed, when it's needed."

INVEST IN AMERICA—Buy War Bonds and Stamps!

Price Control To Be Administrated Thru OPA Local Boards

With over-all price control becoming a reality in the Southwest this week, the regional OPA administrator, Max L. McCullough announced that its administration would be on a Home Front basis. Each state will have a state officer and director working under the region OPA office at Dallas, and in each state there will be OPA field offices in certain key cities. In addition, the local rationing boards are taking on greater importance and will function as "War Price and Ration Boards," to handle all OPA matters on a local basis.

With consumers and retailers cooperating in the battle against the cost-of-living, this program of decentralized administration of both price control and rationing will make the problem easier for all, Mr. McCullough said.

State offices in the six-state region include those being set up in Fort Worth for Texas; Baton Rouge, Louisiana, and Oklahoma City, Directors already appointed include U. S. Goodman in Louisiana and Mark McGee in Texas.

While consumers and business men were getting used to such terms as ceiling prices, cost-of-living commodities, and services sold at retail, rationing took on greater importance as war necessity.

At first glance, Southwesterners might think that the newly ordered gasoline rationing is strictly a headache along the East Coast and in the states of Washington and Oregon, but actually it is only one aspect of a national transportation problem. It's true that there's plenty of crude and gasoline available from the Texas, Louisiana and Oklahoma fields—where holding-down production is a problem. The difficulty, however, lies in getting it from the Southwest to the shortage areas.

Gasoline rationing also hits close home here in the Southwest for those who normally plan vacation or business trips to the East and Far Northwest. Southwesterners will be subject to rationing upon reaching affected areas.

BIKE RATIONING NEARER

With the recent issuance of Ration Order No. 7, manufacturers of bicycles are permitted to ship adults' bicycles to distributors for the first time since April 2, when sales and transfers were "frozen" by WPE. Rationing of adults' bicycles by the OPA is expected to begin in about three weeks. Except for machines made before April and not yet sold, the only machine available for rationing will be the "War Model" bicycle, made with a minimum of critical materials.

POLITICAL ANNOUNCEMENTS

The Stockman is authorized to announce the following candidates for political offices, subject to action of the Democratic primaries:

- For Sheriff, Assessor and Collector of Taxes:
 - R. E. McWILLIAMS
 - FRANK JAMES
 - MIKE COUCH
 - ROSCOE COATES
- For County Treasurer:
 - TOM CASBEER (Re-election)
- For County and District Clerk:
 - GEORGE RUSSELL (Re-election)
- For District Attorney, 112th Judicial District:
 - HART JOHNSON, Ft. Stockton
 - CALLAN GRAHAM, Junction
- For Justice of the Peace, Prec. 1:
 - SAM HOUSTON
- For Commissioner, Precinct 1:
 - ROB MILLER (Re-election)
- For Commissioner, Precinct 2:
 - CHAS. BLACK (Re-election)
- For Commissioner, Precinct 3:
 - J. W. OWENS (Re-election)
- For Commissioner, Precinct 4:
 - E. R. KINSER (Re-election)
 - T. A. KINCAID, JR.

A WEEK OF THE WAR

SUMMARIZING INFORMATION ON THE IMPORTANT DEVELOPMENTS OF THE WEEK MADE AVAILABLE THROUGH MONDAY OF THIS WEEK

President Roosevelt, in a special message to Congress, reduced the WPA request for fiscal 1943 from \$465 million to \$283 million. He said the war effort is drawing workers from every available source, thereby reducing the need for a work relief program. To meet labor shortages, he said, even organized migration of workers may be necessary. The revised WPA program would provide for an average monthly employment of about 400,000 persons "who will not be hired by private employers because of age, lack of skills, or other handicaps."

Chairman McNutt of the War Manpower Commission directed the U. S. Employment Service to maintain lists of skilled occupations.

FIRST BAPTIST CHURCH

Clyde Childers, Pastor
 Schedule of services:
 9:40 Sunday School
 10:30 Morning Worship
 8:30 Evening Worship
 Wednesday—
 8:15 Mid-week service.
 We are very grateful for the fine attendance upon our services of last Sunday. This indicates that our members are anxious to keep all of our work upon the highest possible plane for the summer months. You can do your part by being in the services each Sunday if possible and by praying for all the workers who have accepted the responsibility of the summer's work.

The pastor will preach at both services Sunday and the subject of Sunday morning will be "The Rapture of the Church."
 We will begin a revival next Monday evening at Sunday, Texas, which is an oil field town and defense area. Mrs. Childers will accompany the pastor and will pray for these services. You will pray for us as we conduct these services in this community which offers such challenging opportunities.

While the pastor is away some of our laymen will have charge of the prayer services and the deacons will have charge of securing a supply for Sunday, June 14th.

THE METHODIST CHURCH

Eugene Slater, Minister
 Calendar of Services
 Sunday School, 9:45 a. m.
 Morning Worship, 11:00 a. m.
 Evening Worship (Baptist Church or Church of Christ), 8:30 p. m.
 We had a good attendance at all services last Sunday. We welcome everyone who will to seek the help of the Highest through our common worship. The value of any service depends, in a large part, upon the spirit in which the worshippers come. The pastor urges you to come to the services with clean hands, a pure heart and expectant minds. You will then not only receive help from the service; you will help to give something that will bring light to others.

New Credentials

The President receives new credentials of Alex. Loudon, up to now envoy extraordinary and minister plenipotentiary, and now ambassador extraordinary and plenipotentiary of the Netherlands.

MERCHANTS FAST MOTOR LINES

items essential to war production in which a National shortage exists, and to make preferential referrals of workers to employers in war industries. He directed the WPE to classify war plants and war products in the order of their urgency to the war program. He also instructed Selective Service Local Boards to confer with local U. S. Employment Service offices before reclassifying any men skilled in war occupations.

Mr. McNutt said it is possible to insure full utilization of manpower through voluntary means. "It will be unnecessary to put into effect legal controls" to limit freedom of action of workers and employers. He said compulsion may from time to time be necessary, however, in the administration of the manpower program. He stated four-fifths of all jobs in vital war industries can be handled by women.

Rubber and Gasoline

The WPE said if Americans do not conserve the transportation miles in their tires it may be necessary eventually to transfer automobiles and tires to communities where they are needed more. The Board reported no rubber can be spared in 1942 or 1943 to make new tires for ordinary passenger cars, because the Armed Forces need all the rubber the Nation can muster from its stockpile, synthetic program and greatly curtailed crude sources. The synthetic program might produce 30,000 tons of rubber this year and 350,000 tons in 1943, the Board said.

Price Administrator Henderson reported a preliminary count of car owners in the Eastern Rationing Area showed about 10 per cent received X ration cards, 31 per cent received A cards, 11 per cent received B-1 cards, another 11 per cent received B-2 cards, and 37 per cent received B-3 cards. The OPA rule X cards must be surrendered if the essential purpose for which they were issued does not cover "substantially all" of the use of the car for which they were provided.

The Armed Forces

House and Senate conferees agreed on legislation to increase the pay of Privates and Apprentice Seamen to \$42 per month, and of Privates First Class to \$48, and to provide pay raises for the other ranks of enlisted men. President Roosevelt set June 30 as the registration date for young men between the ages of 18 and 19 and for those who reached their 20th birthday between December 31, 1941, and June 30, 1942. Only men 20 or older are subject to military service under the Selective Service System.

The Navy announced it will begin recruiting about 1,000 negroes a month on June 1. The Marine Corps' first reserve battalion of negroes will recruit about 900 men during June and July. The Marine Corps also reported it will waive certain physical requirements in order to present commissions to Civilian Specialists 20 to 50 years of age. The Army doubled

the quota of III-A SS registrants it will accept monthly as volunteers for officer training.

Women's Army Auxiliary Corps

Recruiting for the Women's Army Auxiliary Corps First Officer Candidate School will begin May 27, the War Department reported. Application blanks may be obtained only by going in person to one of the 440 regular Army Recruiting Stations throughout the country. The term of enrollment will be for the duration of the war and for not more than six months thereafter. Officer candidates must be citizens of the United States, between the ages of 21 and 45, with a high school education or its equivalent, in good health and of excellent character. They may be married or single. The first class will consist of approximately 450 women, and will begin about July 15.

The War Front

President Roosevelt said the U. S. still faces the prospect of a long war, and overly enthusiastic optimism about its progress is not justified. The President presented the Congressional Medal of Honor to Brig. Gen. James H. Doolittle who led the party of 80 men who bombed the Japanese mainland in Army B-25 bombers April 18. No U. S. planes were shot down in the raid. Gen. MacArthur's Headquarters in Australia reported the sinking of another Japanese cruiser, two cargo ships and two cargo ships and two enemy transports. United Nations planes in Australia destroyed 17 enemy aircraft and damaged nine others. Twelve more United Nations vessels were sunk by enemy submarines in the Atlantic and Gulf of Mexico. Protection of Civilians and Essential Facilities

The President announced the Federal Security Agency, Office of Civilian Defense and Red Cross have agreed upon a coordinated plan to assist civilian victims of enemy action in this country. The OCD Emergency Medical Service will have immediate responsibility for care of persons injured by air raids or shelling, and emergency feeding and housing will be under OCD local defense corps. The Red Cross will furnish supplementary equipment such as ambulances. The President directed the OCD to formulate (with War Department approval) a Facility Security Program to protect "essential facilities" such as highways, communication systems, utilities and mines against sabotage, and to correlate it with such programs already placed in effect by the Army, Navy and Federal Power Commission.

Transportation

The Office of Defense Transportation banned operation of all sight-seeing bus services and restricted use of chartered buses to such essential operations as transporting members of the armed forces, war workers and school children. Four bus lines operating between New York City and Washington, D. C. were ordered to pool their services, stagger schedules, permit interchange of tickets and eliminate duplicating runs. The ODT also reported it has begun a survey of intercity bus and railroad passenger travel in 100 selected cities to determine necessary adjustments of travel requirements to available facilities. The Office requested em-

ployers to help reduce weekend travel by arranging mid-week departure for employees who plan vacations.

Shipbuilding

The President, in a National Maritime Day statement May 22, said "we will perform this near-miracle of ship production. The Nation's shipbuilding capacity has been increased more than 500 per cent. That of itself is an outstanding achievement." War Shipping Administrator Land said 138 ships have been delivered in service so far this year, approximately 35 per cent more than were delivered in all of last year. We have reached the stage of delivering two ships a day. By fall, we will be delivering three a day." Maritime Day was observed also with the mass launching of 27 cargo vessels.

Housing and Construction

Nineteen AFL building trade unions signed an agreement with the Government to stabilize wages on Federal construction for one year at rates paid under collective bargaining agreements in effect July 1, the Labor Department reported. A seven-man Wage Adjustment Board, comprised of Assistant Labor Secretary Tracy, three members of the building trade unions and three representatives of the Government agencies involved, will administer the agreement. The House completed Congressional action on legislation to increase from \$300 million to

\$800 million the amount of housing loans which may be insured by the Federal Housing Administration. The Federal Public Housing Authority said it will receive 31,000 housing units.

A SERVICE INSTITUTION

HUMBLE OIL & REFINING COMPANY
 Care for your car — for your country

THE red, white and blue Humble oval has always been the symbol of alert, interested service to the motorist. Today, Humble, like every other American organization, is devoting its resources and its abilities first of all to the nation's war effort. And here at home, Humble products and Humble service men stand ready to do their part, too—by helping you care for your car—for your country. Accurate tire inflation may mean as much as 25% extra wear from your tires... an oil leak, caught at once, may save a costly repair bill... Weekly hydrometer tests help keep your battery in top-shape. And those are some of the reasons why thousands of Texas motorists look for the Humble sign when they need service.

Mrs. Joe Clayton Hostess To Club At Bridge-Luncheon

Mrs. Joe Clayton entertained the Twentieth Century Club and guests with a luncheon and bridge at her ranch home Saturday.

Miss Wayne Augustine won high club, Miss Posey Baggett, high guest and Mrs. Arthur Phillips, bingo.

Others present were Miss Mac McWilliams, Mrs. Jack Wilkins, Mrs. Sidney Millsbaugh, Mrs. Joe Sellars Pierce, III, Mrs. Hilary Phillips, Mrs. Pleas Childress, Jr., Mrs. Elton Smith, Mrs. G. L. Neersta.

LUNCHEON FOR W.M.U.

Mrs. Clyde Childers entertained the W.M.U. with a luncheon Wednesday afternoon. Mrs. J. T. Keeton read the devotional, Mrs. Ben Williams reported on the works of foreign missionaries, and the report of the convention was given by Mrs. Clyde Childers.

Those present were Mrs. O. W. Smith, Mrs. Jim Patrick, Mrs. Ben Williams, Mrs. J. E. Newkirk, Mrs. H. C. McCaleb, and Miss Maybell Taylor.

Necessity To Govern Permissible Farm Construction

COLLEGE STATION — Construction work on a farm must be essential to the meeting of agricultural production goals on the farm if it is to be approved by USDA war boards, B. F. Vance, chairman of the Texas USDA War Board, has announced.

Also the intended construction must be consistent with sound agricultural practices. County boards were instructed to take into consideration past farm records and the competency of the producer.

Buildings which will use a minimum of scarce materials will be more likely to get approval than buildings using large amounts of such materials, Vance said, since the principal purpose of the War Production Board limitation of non-essential construction was to conserve critical materials and equipment.

Another factor which will be taken into consideration is the extent to which the construction work will require labor which might otherwise be engaged in war work. In considering applications for construction permits, county boards were told to determine whether present buildings were adequate and whether the same production could be attained through the adaptation of existing buildings.

Although county USDA war boards will accept or reject applications for construction permits, final approval or disapproval is up to the War Production Board, Vance pointed out.

Texas Cattlemen Meet Market Goals

COLLEGE STATION — Reports on movement of cattle to market indicates that Texas cattlemen are meeting the goals they accepted in the Food for Freedom program, the Texas USDA War Board announced today.

The USDA War Board announcement cited the BAE range and livestock report for May 1, which declared that "total market movement of cattle and calves for the first quarter of the year 1942 was 421,900 head, which was the second largest movement on record for that period and compares with 351,000 head for the same period last year."

The USDA War Board goal for 1942 called for the marketing of 352,287 head of cattle, and 18 per cent increase over 1941.

OZONA GIRL GRADUATED

COLUMBIA, Mo.—Betty Jane Ingham, student at Stephens College, Columbia, Mo., was graduated May 26 at a special sunrise commencement service conducted entirely by the students. Miss Ingham, the daughter of Mrs. B. E. Ingham, Ozona, was among the 51 seniors from Texas to be graduated with the class of more than seven hundred, representing the 48 states and several foreign countries.

Victory Club Has No-Hostess Party

The Victory Club met at the court house Friday night for a no hostess party. Mrs. Earl McWilliams, won high, Mrs. Al Fields, guest high, and Roy Parker traveling.

Present were Mr. and Mrs. John Bailey, Mr. and Mrs. L. B. Townsend, Mr. and Mrs. Roy Parker, Mr. and Mrs. R. E. McWilliams, Mr. and Mrs. A. O. Fields, Mr. and Mrs. Hudson Mayes, Mr. and Mrs. P. T. Robison, Mrs. Alice Baker, Mrs. Chas. Williams, Mrs. Bruce Drake, Mrs. S. A. Coose, Mrs. Audra Moore, Mrs. W. S. Willis, Mrs. A. E. Deland, Mrs. P. Seahorn, Mrs. Bill Grimmmer of Winfield, Iowa, K. Johnson and Mrs. M. A. Runion.

SLUMBER PARTY

Miss Norma Lovelace entertained with a slumber party Monday night in her home. The guests enjoyed games and ate sandwiches.

Those attending were Mary Fay Lucas, Dorothy Capps, Rozelle Pharr, Florence Luther, Jerry Mobley, Mary V. Graham, and Adele Keeton.

Warning Against Careless Storage Of Gasoline Issued

AUSTIN — With indications pointing to a possible nationwide system of gasoline rationing, Marvin Hall, State Fire Insurance Commissioner, warns against storage of gasoline at home.

"The storage of any quantity of gasoline at home," he said, "promotes extreme fire hazards. Gasoline, when stored and handled through the regular facilities of the oil industry and kept in standard tanks, is relatively safe as a result of safeguards incorporated in the design of equipment and the training of personnel over a long period of years. However, gasoline is a dangerous explosive if kept in all sorts of cans and makeshift containers, stored in basements and garages, and poured from open containers."

Hall explained that gasoline vapor, produced when the fluid is exposed to air, is highly explosive and can be set off by electric sparks or careless smokers. The vapor, heavier than air, may flow along the ground under buildings or into basements, to be ignited and flash back from a considerable distance.

"Fire insurance can be voided under the Texas standard fire policies," Hall asserted, "if gasoline is stored on the premises without a permit of consent from the insurance company. Thus, if stored gasoline contributes to a fire destroying the property insured, policies could not be collected if the insurance company had not granted permission for storage of the gasoline."

Mrs. W. A. Smith and small son of Del Rio were here last week for a visit with her parents, Mr. and Mrs. Jim Patrick.

Iceland Stabilization Agreement

As another step in cementing the solidarity and good will between the two countries, Secretary of the Treasury Morgenthau, right, signs the exchange stabilization agreement with the minister from Iceland, Thor Thors.

Too Tight!—Too Short! Relax Restrictions To Allow For Shrink In Women's Slacks

The War Production Board's feminine apparel order was amended Wednesday to bring fur coats within its restrictions, to exempt robes for the judiciary, and to allow for shrinkage in slacks, Carl L. Pool, manager of the WPP's San Antonio priorities field office, was advised from Washington.

Special maximum measurements were set up in a schedule for "girl stouts" and "teen age stouts."

Measurements for slacks were increased half an inch in width and one inch in length, for fabrics other than wool, to allow for shrinkage.

Toddler's wool coats in sizes three and four were brought under the order, from which they originally were exempt.

The original order exempted a person of "unusual height" from the size restrictions, but the new

amendment defined such a person as one who is five feet 8 1/2 inches or more in height, without shoes.

A garment manufactured as a certain size must be sold as that size. This provision was put in to prevent evasion of the order, as might be done by selling a junior misses size as a "teen age" size.

Some improvement was noted in the condition of Mrs. Mary Perner, pioneer Crockett mother, who has been seriously ill the past two weeks, according to reports from her bedside this week.

Mrs. Vera Baker and Mrs. Alvin Harrell and Roy Alvin returned Monday from Fort Worth

A PROBLEM

A train running between Chicago and New York has a crew of three men and carries three passengers. The crew, an engineer, a fireman and the brakeman, are named Jenks, Jones and Jackson (not necessarily in the same order.)

Each passenger has the same name as one of the crew. We will call them Mr. Jenks, Mr. Jones and Mr. Jackson.

Mr. Jenks lives in New York, Mr. Jones draws a salary of \$5,000 a year. The brakeman lives half way between New York and Chicago. One of the passengers, the

brakeman's nearest neighbor, draws a salary exactly three times the salary of the brakeman. Jackson beat the fireman in a game of billiards.

Name the ENGINEER and explain why.

The president of one company announces that \$95,203 was paid to employees for suggestions last year. Most of these suggestions dealt with ways of speeding or improving war production.

Music Inspires Workers In War Production Plants

NEW YORK, N. Y. (IPS)—The idea of easing labor by working to musical rhythms can be traced back thousands of years. The ancient Greeks had special work songs for harvesting, threshing, grinding grain, spinning and weaving.

Now music is being used in modern war factories to relieve fatigue, break monotony of work and improve the morale of employees. Above the hum of machinery loud-speakers are playing; thousands of workers are able to work better and more easily because of the rhythm.

The employees of an airplane manufacturing plant have recently started to work to the tune of recorded music, played during three 15-minute periods of each eight-hour shift. The music is heard over the plant's public-address system. Martial airs and "Turkey in the Straw" are the favorites.

In very noisy factories, music is used to bring relief from the din. At one New England plant all machines are stilled every morning at ten, and in the afternoon at three, while the employees listen to phonograph music. The periods are planned to counteract the fatigue curve and are found to be much more effective than casual rest. Officials state that the loss of 108 minutes each week is more than offset by increased production and materially reduced imperfect work.

One company installed a radio speaker system throughout its plant. The idea was to broadcast current events and phonograph recordings during lunch hours, and to give the night shift a chance to listen in on radio programs during their half-hour of lunch.

Finally one of the shop workers suggested that the boys with talent put on a program instead of the usual "canned music." The show was so popular and so much talent was uncovered that shop talent radio programs are now a feature of the lunch period. The programs not only promote good will, but help workers take their minds off their jobs during lunch hour and do better work when they get back on the job.

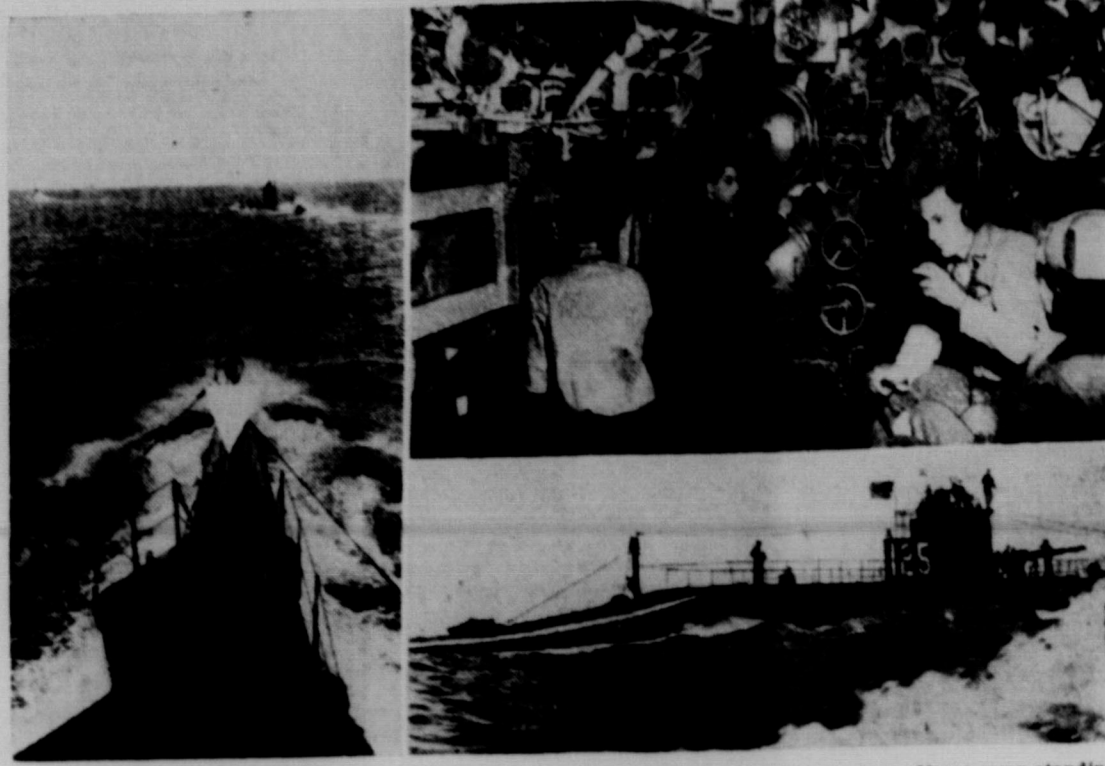

DELIVERY ORDER DELAYED

Effective date of the Office of Defense Transportation order limiting local delivery services has been postponed from May 15 to June 1. When the order goes into effect, it will prohibit more than one delivery per day to any one customer. In addition, local carriers using rubber-tired vehicles must reduce their total mileage by 25 per cent a month, compared with the corresponding month of 1941.

TYPEWRITER RENTALS OKAYED

Although new and used typewriters cannot be purchased except with certificates issued to eligibles by local ration boards, any person or business needing a typewriter is entitled to rent a used office machine or a new portable directly from any dealer, the OPA announced.

Down to the Sea in a U. S. Submarine

These navy-approved photos may give you an idea of life aboard a U. S. submarine. If you were standing on the conning tower of a sub this is how your craft would look, forward (picture at left). And this (upper right) is the gadget-studded spot of the torpedo room. All those wheels, dials and gauges are as plain as capital letters a foot high to the boys that know how. Lower right: Submarine deck as a gun crew takes battle stations at the deck gun.

Sugar And Coffee Shortages Problem In Texas 100 Years Ago

AUSTIN—When you can't buy that extra amount of sugar that's needed for preserving that batch of strawberries, don't think you're exclusive in your forfeiture.

Before this war, Texans were having to think of substitutes to take care of food shortages. And sugar and coffee, two items which are being restricted today were shorter then than now.

Recipes for "artificial sugar" and for a coffee substitute are included in "Typically Texian," annual brochure published by a University of Texas English class studying literature and folklore of the Southwest. The recipes were found in early Texas newspapers by Corinne Wilson of Teague.

The artificial sugar was a concoction of brown sugar, water, honey, cream of tartar and essence of roses, all boiled together in a brass kettle. Egg whites and more honey were added after the mixture was cooked, while the epicure might call for a little slippery elm bark added to the honey.

The coffee substitute, recommended by "The National Register" of Dec. 27, 1845, called for mixing okra seeds with real coffee—"the okra cannot be distinguished from the coffee, even the best Java."

One plant recently disclosed that the Army's medium tanks are coming off the assembly lines at a rate three and a half times faster than was thought possible a year ago.

"CHATTANOOGA CHOO-CHOO" PLAYED IN TESTING HIGH CALIBER MACHINE GUNS

DAYTON, Ohio—"Chattanooga Choo-Choo" is the tune that gun testers at the plant here of the Frigidaire Division of General Motors play in testing high caliber machine guns made at the plant. This was revealed during a trip through the factory made by news correspondents on the "Production for Victory" tour sponsored by the National Association of Manufacturers.

SCRAP DEALERS TO BE LICENSED

All dealers selling waste, scrap or salvage material to industrial consumers will be licensed by the OPA between May 20 and June 20. The registration will affect dealers in such materials as aluminum scrap, zinc scrap, iron and steel scrap, nickel scrap, waste paper, old rags, second-hand bags, scrap rubber, wool waste, and other materials. Maximum prices on all these salvage materials have been set by OPA, and a dealer violating the price ceiling may have his license suspended, thereby losing his privilege to do business.

MOVIE SET COST LIMITED

A limit of \$5000 per picture for new materials going into construction of movie sets has been ordered by the War Production Board. Estimates place the total construction costs of movie sets at from \$10,000 to \$150,000 per picture, but generally little new material is required, as old sets are salvaged when taken down.

Advertisement for Dr. Phillips, Optometrist and Optician, located in San Angelo, Texas. The ad features a pair of glasses and the text: "EYES EXAMINED SAN ANGELO, TEXAS GLASSES FITTED".

Save And Conserve Is Watchword As Scarcity List Grows

The war necessity of stretching our goods to make them last and to distribute them equally dipped further into Southwestern kitchens during the week. The War Production Board cut the flow of cocoa products to retail outlets on top of similar action on green coffee and spices—black and white pepper, allspice, cinnamon, cloves, ginger, nutmeg and mace. These reductions resulted from lack of transportation and enemy action.

The OPA Consumer Division is asking cooperation in this program to save and conserve. The latest request is an appeal for women to buy practical outfits of clothing, to mix them up for variety, and to make them last as long as possible.

Headquarters for the Kerrville meeting will be the Blue Bonnet Hotel. The Directors business session will convene at 9:45 a. m. in the District Courtroom at the Kerr County Courthouse on June 3rd. Senator Julius Real will give the address of welcome. Members of the Woman's Auxiliary will meet at the same hour at the Blue Bonnet Hotel.

At noon Mr. and Mrs. Scott Schreiner are to be the hosts to the Directors and their wives at a Mexican dinner at their home, Shady Acres. In the evening the Scott Schreiners' and the L. A. Schreiners' are to be hosts at the Power Club where a dance will be held for all in attendance. Members of the Kerr County Women's Auxiliary will be hosts to visiting ladies at a tea given at the home of Mr. and Mrs. J. E. Cowden.

Association officers urge all Directors to attend the meeting.

There will be plenty of attractive clothes—but none to waste.

On the sugar stretch-out, Stamp No. 1 in War Ration Books is good no longer, if it wasn't used. Stamp No. 2 in each book is good for the purchase of one pound until midnight of May 30, when it also becomes void.

American shipyards set a new ship construction record in April, completing and delivering thirty-six merchant vessels. The record exceeds the one-a-day schedule which was set up for April and brought the record for the first four months of 1942 to 106 merchant ships placed in war service.

Directors Of Texas Sheep & Goat Raisers Meet In Kerrville

Directors of the Texas Sheep and Goat Raisers' Association and their wives are to meet June 3rd in Kerrville for their quarterly meeting. Association members and friends are cordially invited to attend. The second quarterly meeting was held March 2nd in Sonora with the largest number of Directors present in recent years.

You Can Afford To Use Water FREELY

The directors of your water system are pleased to be able to report to the community that the new reduced water rates, introduced two months ago, are proving satisfactory from a financial standpoint to the administration of the system.

It was the theory of your directors that reduction of the rates would result in greater volume of water used and consequently a minimum reduction in revenue from the system. We felt that with the indebtedness against the system and the necessity for maintaining a comfortable reserve, it is imperative that revenues be not cut too sharply. Our theory has proved correct for the most part in that water users have been more liberal in their use of water so that our volume has been great enough so that revenues meet all expenses, including the necessary returns for bond retire-

ment. Your directors are hopeful that water users will continue to look upon the reduced rates not from the standpoint of a reduction in their monthly water bills so much as an opportunity to get more water for the same money. For instance, under the present rates, you can use 20,000 gallons of water a month for the same price that you formerly paid for 9,500 gallons. Beautiful yards and flourishing "victory gardens" are now possible for Ozonans at a very moderate rate.

It is the aim of your directors to operate the system as economically as possible at all times, to produce an abundance of water, to keep in financial good standing with bond holders while at the same time offering as low water rates as possible with the volume being used. Your cooperation in maintaining this policy is earnestly solicited.

Official U. S. Treasury War Bond Quotas for June

The above map of the country shows the War Bond Quota by states for the month of June totalling \$500,000,000. Everybody every pay day is expected to invest at least ten per cent of his income in War Bonds to aid in financing America's offensive against the Axis powers. The ultimate quota for the nation will be on a basis of one billion dollars per month effective in July. This sum is necessary to provide for all-out production of planes, guns, ships and munitions adequate to arm our fighting men with the tools necessary to win the war.

Crockett County Water Control and Improvement District No. 1

J. W. North, Chairman Board of Directors Buddy Moore, Mgr.

Huge Sea Plane May Make Large Navy Needless In Future

BALTIMORE, Md.—Glenn L. Martin, pioneer aviator and founder of the aircraft manufacturing company that bears his name, believes "the day of the battleship definitely is over," and that large flying boats in the future will make a two-ocean navy unnecessary and render the Panama Canal strategically unimportant.

He made known these views to newspapermen taking part in the "Production for Victory" tour of the National Association of Manufacturers.

The Glenn L. Martin Company, whose great warplane plant is on the outskirts of this city, has built (for the navy) a 70-ton flying boat dubbed the "Mars." Its 200-foot wing spread makes it by far the biggest flying boat thus far constructed. It is second in size only to the giant 80-ton Douglas bomber, the 210-foot B-19.

The "Mars," Mr. Martin said, may be used as a bomber or as a troop transport, capable of carrying a large number of men.

"With such ships as the Mars," he declared, "you are only a little way from either the Atlantic or Pacific oceans, and you really do not need a two-ocean navy. This is because of the speed element—the ability to shift from one place to another, and to patrol vast areas of ocean.

"Given an ample supply of such ships, it would make no great difference if the Panama Canal were blown up."

Mr. Martin felt that the battleship was no longer necessary because bombers will perform better the battleship's main function—that is, firing heavy guns from long range. Bombers, he pointed out, take more than the equivalent of heavy shells—namely, torpedoes and guns—to the spot, whereas battleships depend upon gunpowder to do the conveying.

He believed the war "will be won by a series of surprise attacks, with aircraft leading the way."

"Modern war technique," he declared, "demands a revision of tactics. There can be no movement of any force without air victory. That applies to naval as well as land forces.

"We must always have naval vessels, but there will have to be a change in the organization of naval strength, with great emphasis on air power as the primary factor in naval forces."

PRIORITIES AID REFRIGERATION

High preference ratings for repairs to air conditioning and refrigeration equipment have been granted by the WPB. The top rating, A-1-a, is available in case of an actual breakdown of equipment used to process, transport or store food and dairy products for the armed services. Other "A" ratings are provided to maintain existing equipment of all types, except domestic mechanical refrigerators.

"Houston Volunteers", 1,000 Texans To Replace Cruiser's Crew

An open letter to the officers and men of the USS HOUSTON, wherever you maybe:

Your fate is to be avenged! One thousand Texans, to be known as the "Houston Volunteers," will take the oath of allegiance to the nation and the Navy the night of May 30 as a replacement crew for the cruiser.

Standing before a 60-foot replica of the ship, built by the Houston Junior Chamber of Commerce and presented to the Navy recruiting station, the 1,000 men will be sworn into the service in downtown Houston by Lieutenant J. F. Beebe, officer-in-charge of the main recruiting station here.

Originally limited to men from Houston and Harris County, the "Houston Volunteers" will accept men from other Texas cities, Lieutenant Beebe said, as he explained a precedent for this action had been set in the case of Vernon Fisher, Route No. 2, Lufkin, Texas.

Fisher hitch-hiked to Houston and presented himself to Lieutenant Beebe on his seventeenth birthday as a candidate for the "Houston Volunteers."

"We don't feel we have the right to deny any patriotic Texans who want to become members of this group," Lieutenant Beebe said. "We are all Americans, and Americans first, and any Texan who wants to join the Volunteers to avenge the ship that stood as a symbol for the entire state, will be given every consideration."

Men between the ages of 17 and 50 are eligible for enlistment in this select group, Lieutenant Beebe said, and it will be "first come, first served."

13 Per Cent Increase In Number Deer Killed In Hill Country Area

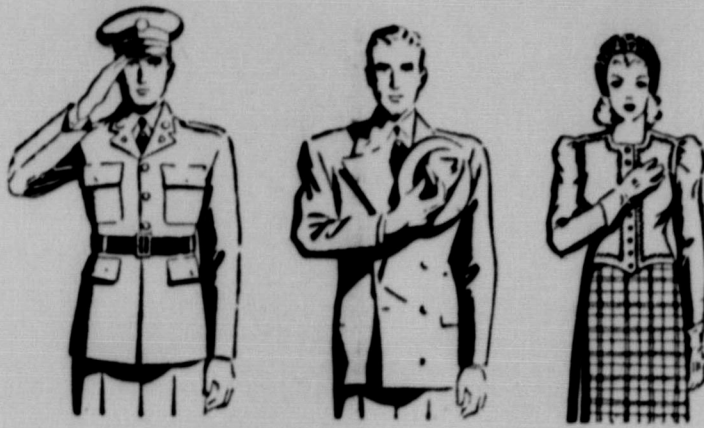

AUSTIN—An increase of 13 per cent in the number of Hill Country deer placed on cold storage during the 1941 hunting season, as compared to the 1940 season, was reported today upon completion of a check of the deer kill in that region by Game Department biologists.

The turkey kill in that section also increased last year, as is indicated, the Executive Secretary of the Department said, by a jump of 144 per cent in the number of gobblers placed on storage during the open season in three of the principal cities located in the Hill Country deer and turkey range.

The scarcity of rain during the early months of this year already has been broken and if additional rain falls in abundance over the wide-spread deer and turkey ranges of Texas, a food and cover supply for these excellent game species equal to that of last year would result, and the deer herds and turkey flocks would show an additional increase.

According to reliable estimates, capacity of the steel industry by the end of this year will be approximately 92,000,000 tons. By the end of next year it will be 98,000,000 tons.

Every Patriotic American Salutes His Nation's Flag

During the ceremony of hoisting or lowering the flag, or when the flag is passing in a parade or in a review, all persons present should face the flag, stand at attention and salute.

Those present in uniform should render the right hand salute. Those men not in uniform should remove their headress

with the right hand and hold it at the left shoulder, the hand being over the heart.

Women should salute by placing the right hand over the heart.

The salute to the flag in a moving column is rendered as the flag approaches the spectator and is held until it has passed.

Side Glances on Texas History

By Charles O. Hucker University of Texas Library

PRELUDE TO WARFARE

"Friendly" as the Lipan Indians were, they are not averse to making periodic depredations upon the Texas settlers. An encounter with Castro, a Lipan chieftain, and a party of braves on the very eve of one of their attacks brought very real chills to two Easterners making a horseback tour of Texas in 1855.

In his "A Journey Through Texas," Frederick Law Olmsted described this encounter and the diplomacy he exercised in "feeling" his way through the monosyllabic conversation that lasted for seven miles. A copy of this book is one of the important items in the University of Texas Library's vast Texas Collection.

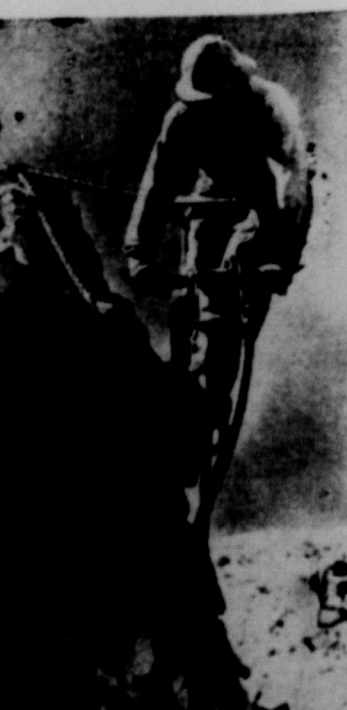

Olmsted and his companion were on their way to Castroville, when the Indian party overtook them.

"We had only time to get . . . out (our Colts) and buckle them to the waist, and to whisper hurriedly 'don't let them separate us, at any rate,' when they came up—the evident chief upon a mule close on our right, a second on our left, the third insisting upon a place between us," Olmsted wrote.

CROWN OF OAK LEAVES
The most astonishing aspect of the Indian party was the chief's appearance. "Castro was dressed in a buckskin shirt, decorated profusely with bead-work," the horseback tourist explained. "Upon his bare head was a wreath of fresh oak leaves. Hanging from the ears were heavy brass rings, and across his face blazed a vermilion streak, including the edge of the eyelids, whose motion had a horrid effect. The eyelashes and eyebrows had, as usual, been pulled. His face was not without some natural dignity and force, but the predominant expression was wily and brutal."

After minutes of silence, in which the Indians eyed the travelers and the travelers returned the scrutiny Olmsted broke the silence with:

A Dizzy Job

Men who work to increase our supply of electric energy are soldiers, too. Photo shows a jackhammer operator drilling a hole for a dynamite blast on an abutment of Shasta dam, near Sacramento, Calif.

ning his esteem; for he now entered upon the various merits of whisky, corn, horses, and Germans," Olmsted related. "Any apprehensions of sudden violence were now allayed."

Castro was "going to San Antonio, he told us, to have an audience of the Indian agent, in which he was to submit, on the part of his tribe, the proposition that the Lipans should make a series of journeys into Mexico for the purpose of stealing horses and mules, and bringing them to the Americans. This he seemed to think was a grand, novel and philanthropic idea, which would undoubtedly commend itself to every mind and bring eclat to himself and admiration and respect to his nation."

At Castroville the two parties separated, "not without some relief" on the part of the travelers.

"We afterwards came up with the party again, within a few miles of San Antonio—every man on the verge of intoxication, Castro begging for the personal loan of four bits, and denouncing us with maudlin ferocity for refusing so slight a favor to so old a friend."

The very next morning the two Easterners learned the Indians had visited a ranch on the San Gerónimo River, killed a Mexican shepherd, carried off a second boy and shot at a third.

had been the last polite intercourse with the tribe, and probably our scalps were only saved to us by the hankering of the brutes for a parting draught of whisky," Olmsted concluded. "Open war at once broke out; the Lipans' decamped to the plains, and henceforth ranked as outlaws, to be shot at will."

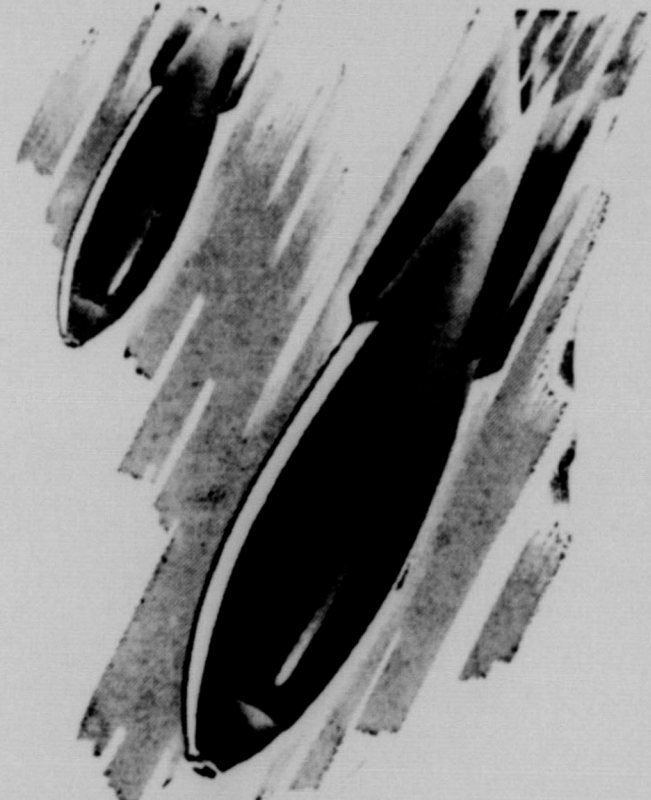

100 YEARS AGO IN TEXAS

"The Buckskin Heroes.—We understand that several companies have lately been organized at the West, composed chiefly of citizens of the depopulated counties who are dressed entirely in buckskin, and are determined to wage war with Mexico until peace is secured. Among them are several of the gallant soldiers of Jordan who were with him in the desperate "fight of Saltillo." These men are all prepared for a long campaign, and as their equipments consist only of a rifle, a powder horn, bullet pouch, and butcher knife, they can advance or retreat with ease and will be equally formidable, whether on foot or on horseback."—Telegraph and Texas Register (Houston), April 6, 1842.

Now that we're at WAR

What About Advertising?

In 1917 . . . during the World War . . . this group continued to advertise their products

- SUNKIST ORANGES
- PHOENIX HOSIERY
- GILLETTE RAZORS
- EASTMAN KODAK
- CORONA TYPEWRITERS
- WHITMAN'S CANDY
- COCA-COLA
- WRIGLEYS

—and a host of others

This group began new advertising in 1917 . . .

- U. S. RUBBER CO.
- PEPSODENT TOOTH PASTE
- WILSON SPORTING GOODS
- GENERAL CIGAR COMPANY
- CALIFORNIA PRUNE GROWERS ASSOCIATION
- EVERSHARP PENCILS
- LUCKY STRIKE CIGARETTES
- CALIFORNIA WALNUT GROWERS ASSOCIATION
- DEL MONTE FOODS

This group quit advertising in 1917 . . .

- PEARLINE
- SAPOLIO
- COTTOLINE
- PEAR'S SOAP
- SWEET CAPORAL CIGARETTES

Some of them tried to stage a comeback later. They spent a lot of money trying to recapture public favor but were unable to do so. Their effort was wasted because new and aggressive companies had succeeded in stepping in and winning the public by means of advertising. PROTECT YOUR BUSINESS INVESTMENT BY CONTINUING YOUR ADVERTISING IN THE NEWSPAPER THAT GIVES FULL COVERAGE OF YOUR CROCKETT COUNTY MARKET . . .

THE OZONA STOCKMAN

"I told you that our friends hadn't forgotten us . . . all we needed was the TELEPHONE"

The telephone is often the difference between loneliness and popularity, between idleness and employment. When friends

cannot telephone you, they frequently don't reach you at all. Business trails no man to offer him opportunity . . . he must be available the moment he is wanted. For only a few cents a day you can get in line for your share of opportunity, enjoy more frequent association with friends who want you with them. Order your telephone today.

NEWS OF OUR FIGHTING MEN

"Of course, this is a bit late, but the idea is to let the world know that I'm at last through college," reads a note penned on the inside envelope of a Texas A. & M. College commencement invitation received from Welton Bunger, Jr. Welton, now Pfc. W. H. Bunger, Jr., after completing his four years at A. & M., enlisted for officer's training in the U. S. Marine Corps. He is now a member of the officers' class, Company C, Barrack E, Quantico, Virginia.

"This officers' training school up here is great stuff," the note continued. "I'm beginning to believe everything that was ever said about the Marines now."

Pvt. L. B. (Hop) Hoover, attached to the Signal Corps at Fort Sam Houston, spent a week-end leave here visiting his parents, Mr. and Mrs. Brock Hoover.

Pat Bowlegs, colored inductee, who will leave Monday for the induction station at Abilene as a volunteer to fill the first June call for one colored soldier, is staging a party at Cal Young's cafe Saturday night to celebrate his departure. All colored people of the community are invited.

Max Schneemann, Jr., with a cavalry unit at Fort Lewis, Wash., writes that he now weighs 200 pounds, a gain of 30 pounds since joining the army. Army chuck must be pretty good fare at that.

Gene Montgomery, son of Mr. and Mrs. C. C. Montgomery, is believed to be among United States soldiers now in Australia. Gene wrote his parents recently from aboard ship. He told his parents that he had crossed equator and the international dateline, indicating that he was headed for Australia. They have not heard from him since the last U. S. convoy landed in Australia.

(Parents and friends of Ozona men in service—The Stockman will appreciate bits of news from the boys for this column. And you men in uniform who get the paper might take the hint and drop a line yourselves).

DAUGHTER TO BUNGERS

Mr. and Mrs. George Bunger are the parents of a daughter, June Childress Bunger, born in a San Angelo hospital last Saturday. June weighed in at 9½ pounds.

Mrs. A. C. Hoover has returned from San Angelo where she has been receiving medical care the past two weeks.

Governor

(Continued from Page One)

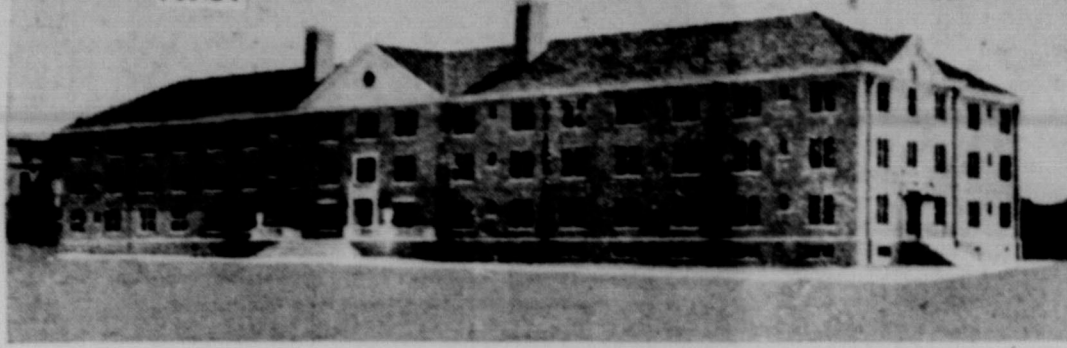

The directors meeting will take place at 9:45 in the Kerr County Courthouse. Matters pertaining to mohair, wool, livestock transportation, labor, the 1943 wool bag supply, and other problems will be discussed. Visiting directors and their wives will be honored by Scott and L. A. Schreiner with a Mexican dinner and dance.

Here's Mine, Where's Yours?

—From Huntington (W. Va.) Advertiser.

T. C. U. to Dedicate New Girls' Dormitory

"Foster Hall" will be the name of a new girls' dormitory to be dedicated by Texas Christian University June 1, in connection with the school's 68th annual commencement exercises. The dormitory, which will house 200 girls beginning next September, has been named in honor of the late R. Houston Foster, president of T. C. U.'s Board of Trustees and directing head of the committee which raised the funds for the building. Members of the class of 1942 will hear the Rev. Harry G. Knowles, pastor of the First Christian Church of Houston, as the commencement speaker. Bill Boren, Memphis, Texas, is president of T. C. U.'s senior class.

Sunshine Parker, Former Ozona High Grid Player, Writes Of Flights Of American Eagle Squadron In England

Many Ozonans, those who were in High School some six or eight years ago and those who followed the football and basketball teams of that time, will remember Vernon (Sunshine) Parker, who attended high school here in 1934, '35 and '36, and was a power on football and basketball squads of the time.

Below is an interesting letter published in last week's issue of the Del Rio Herald written by Sunshine to a friend, Arthur Preston in Del Rio. Sunshine is a fighter pilot with the Eagle Squadron in England. His letter, dated April 25, in part follows:

"Yep, I'm still O. K. and fighting like hell. I suppose you know by now. We go over to see the boys two and three time a day. Even if we don't do any damage every time we have 'em worried! Been in some marvelous mix-ups and scraps lately but it's barrels of fun—after it's over.

"Sorry I can't drop a bomb on Coblenz for you. I'm just a poor little fighter pilot and it's a little out of our range but mind you if anything's there, they'll get it soon if not already.

"Yes, I remember Jack Laughlin slightly. Sorry to hear of his death. That must be an awful place. I've lost seven friends over there and at Pearl Harbor but they say there is a war on.

"I know things have changed immensely in the States. I hope though conditions never get like they are here. At least you don't have to bother much with blackouts and food should be rather plentiful or at least you can have a variety.

"Not much I can say in the way of duties here. They are all pretty

much routine and the same practically every day. The worst part is loafing around so much. When we work, boy we work but it may be only for an hour or so a day so you can imagine the rest.

"I can't think of anything to write but let me know how you come out in the Air Corps. Stick to fighters, ole boy—just a word from wise (Pursuit to you!) If you run across anyone I know in Del Rio tell 'em hello."

Parker has been in England for more than a year, having received training in Canada.

Automotive History

(Continued from Page One)

Mr. Wilson gave some interesting facts concerning the history of America's greatest industry, of the passing of the hundreds of different kinds of automobiles to the final elimination of all to the present remaining 19 brands of cars of today.

China Relief

(Continued from Page One)

China in her magnificent defense and in her inevitable counter-offensive—for that is one important element in the ultimate defeat of Japan."

Bill Grimmer, former Ozonan now living in Winfield, Iowa, arrived here the first of the week to join his wife and children who have been here several days visiting Mrs. Grimmer's parents, Judge and Mrs. Charles L. Davidson.

Mrs. Charles Williams and son, Byron, will leave Saturday for A. & M. College where Byron expects to enroll as a freshman student at the opening of the new term this summer.

Camp Bowie officers are interested in learning how to speak to the Japs with words as well as bombs. Mrs. E. E. Rogers, University of Texas night course instructor in Japanese, recently received a letter from officers at Brownwood asking assignment of an instructor there. A former instructor who was handling the course at Camp Bowie has been transferred elsewhere.

A new auto alarm sets off a series of blasts on the car's horn if tires or other accessories are tampered with.

Incendiary And Demolition Bomb Control Demonstrated

COLLEGE STATION — Every kind of demolition and incendiary bomb was demonstrated under actual home and industrial conditions by the War Department Civilian Protection School of A. & M. College for the benefit of 432 firemen from 261 Texas cities as a climax to the 13th annual School for Firemen held here each year. The school closed May 22nd and firemen returned to their homes possessed of a wealth of information that will enable them to handle any wartime emergency situation in their respective communities.

Dr. C. C. Hedges, director of the school, in planning this year's curricula stressed civilian wartime protection, and the Texas firemen were given expert instruction and advice by outstanding authorities in that field.

Demonstration houses were built and blown up on the testing field. Phosphorus, magnesium and thermite bombs were ignited and controlled before the eyes of the fire-fighters of Texas. Many agents were used in various control methods—but the final decision was:

"Dry sand and water, handled expertly, will protect homes, lives and property in an air raid."

U.S.O. Drive Passes Half-Way Stage In Texas

16 Counties Already Over Top In State Drive For \$1,110,000

HOUSTON—With 16 counties over the top in the drive to raise Texas' \$1,110,000 share of the national USO goal, State Chairman Harry C. Wiess announced today that the campaign was past the half-way stage.

Mr. Wiess welcomed the active assistance of Major General Richard Donovan, commander of the Eighth Corps Area, who lauded the work of the USO in helping the army solve its morale problems.

"I am happy to voice my appreciation of the work being done by those experienced welfare organizations which compose the USO, namely the Y.M.C.A., Y.W.C.A., National Catholic Community Service, Salvation Army, Jewish Welfare Board and National Travelers Aid Association," General Donovan declared in a message to USO workers.

"The USO is contributing splendidly to the entertainment and recreation of soldiers off duty from their camps and stations. The cooperation with military authori-

ties and good will developed between civilian communities and military garrisons are tokens of American unity which will make certain our final victory."

Chairman Wiess pointed out that the same service provided soldiers is also arranged for sailors and marines, in training centers and leave areas both at home and in foreign stations.

Polk, Upton, Box, Oldham, Ochiltree and San Patricio were the six counties which reached their USO goals to bring the total to 16, while chairmen in several other counties reported they were nearing the over-the-top mark.

The campaign, which opened May 11, will be continued until July 4 if the quota is not reached before that time.

Mr. and Mrs. Ira Carson are having their home refinished and repaired.
