ball season off to a good beginning Friday night by crushing the Junction Fagles, 26-0. Another set of Eagles will come to town tomorrow night,

those of Eldorado. The Eldorado team took a 41 to 0 beating drive with Cervantez dashing by Rankin to begin their season Friday night. So it would seem the Lions have nothing to worry about, except for over-confidence, and as Coach Rip Sewell says, "this element can

lead to an upset." The Lions had a tremendous opening night and dominated the game in every category. They rushed for 304 yards and passed for 118 for a total yardage of 422, while holding the lunction team to -10 on the ground and only 27 in the air,

for a 17 yard total gain. Seasoned tailback Romaldo Cervantez was the leading

rusher for the Lions with 131 yards on 26 carries and three touchdowns. He also intercepted 2 Junction passes, and all in all had an outstanding night.

On Ozona's first possession, the Lions capped a 70-yard across the goal line on a 20yard run. The drive involved 12 plays. John Galvan kicked the point after.

Early in the second quarter Cervantez scored again on a five-yard run in the Lions' second possession of the period. The play went 64 yards in 11 plays. Galvan's point after try

was blocked. In the third period, Cervantez scored from two yards out, following a 77 yard drive in

13 plays. Galvan added the A 93-yard sustained drive Again Galvan's kick was blocked.

Coach Sewell said the Lions put forth one of the best team efforts he had seen in some time, citing the long drives and good team play, along with 5 interceptions. He said if the team had any problem. it was problems with penalties. The Lions were penalized 10 times for 103 yards, one of

which cost them a touchdown. Junior quarterback Greg Thompson had a fantastic night in his first game directing the varsity squad. He completed 6 of 8 passes for 118 yards. Richard Sanchez was the leading receiver, catching three passes

for 73 yards. Orlando DeHoyos was the second leading rusher with 73 yards on 13 carries. Dan Crowder punted one time for 30 yards.

The Lions had 22 first downs to Junction's 5.

Enthusiastic Crowd Greets Sen. Tower

A small but enthusiastic crowd was on hand at the Civic and government intervention Center Saturday for a barbecue luncheon honoring U.S. Senator John Tower and Doug Harlan, Republican nominee for U.S. Representative, 21st District.

The men and their aides were met at the airport about 11:45 and transported to the Civic Center where they visited with Ozonans until dinner was served at noon.

Screwworm Cases Up In Crockett County

were reported in Crockett County during the month of August, and abatement seems unlikely. A steady increase in screwworm cases until sometime in October is foreseen by officials of the U.S. Department of Agriculture (USDA) Screwworm Eradication Program.

Dr. J. E. Novy, director of field operations for the program, says increasing numbers of cases can be expected, particularly in far west Texas. "With the amount of rain that area has received, it may be an overwhelming increase, "

comments Novy.
Of Texas' 437 August cases, 37.5 percent were in sheep, mostly in Crockett, Terrell and Val Verde counties. Goats, too, experienced trouble in the hill country and west Texas. Edwards joined Crockett and Val Verde counties in reporting most of the infestations in

The 437 cases reported in Texas during August brought the year's total to 2, 483. This compares to 1,013 for the same month of 1973 and 1, 647 for that year through August. In 1972 August registered 28, 341 cases, totaling 54,769 for the year by month's end.

Open Meeting For Planners Of Bicentennial

Further planning for Crockett County's observance of the nation's Bicentennial celebration in 1976 will get under way Sunday afternoon, September 22, at 3:30 p.m. in the court-

room of the courthouse. Official guidelines for city and community observances have been received from the Executive Director of the American Revolution Bicentennial, Mr. Gene Brownrigg of Arlington, and they will be discussed at the meeting.

Mrs. R. A. Harrell, chairman of the steering committee, urges all official representatives of all organizations in Ozona and every interested individual citizen to mark this date on their calendars and make a special effort to be present and help plan how Ozona can become an official Bicentennial community.

U. S. SENATOR JOHN TOWER, center right, and Congressional hopeful Doug Harlan, to the Senator's right, are met at the airport Saturday morning by a group of friends before going to the Civic Center for a visit and barbecue dinner. Around 40

people were on hand to greet the two at the Civic Center. Senator has the distinction of being the only U. S. Senator to visit Ozona in the town's history. It can't be the votes in the sparsely populated county, it must be the barbecue.

NOT MUCH TO CELEBRATE

Thirty years ago - from August 21 to October 7, 1944 - the foundations of an international organization to become known as the "United Nations" were laid at the Dumbarton Oaks Conference between the United States, the United Kingdom, the Soviet Union, and the Republic of China. Soon thereafter, France was to become one of the "five permanent members" of the central body of the United Nations known as the Security Council.

Born with high hopes that the UN would serve as an effective instrument for the maintenance of world peace and justice, the passage of three decades has brought disappointment and disillusionment. Once touted as a great landmark in the advance of human freedom, the Charter of the United Nations has become so meaningless that the World Almanac, for example, does not even waste paper to print it; readers are advised that one may obtain a copy by writing away for it.

And, should the curious take the time to obtain a copy, the words of the Charter are found to have no connection whatsoever with reality. For example, the Preamble of the UN Charter declares that one of the purposes is "to reaffirm faith in fundamental human rights, in the dignity and worth of the human person, in the equal right of men and women and of nations large and small." Of course, we now know - through such victims as Aleksandr I. Solzhenitsyn and literally thousands of other witnesses - that the Soviet Union, following the signing of the Charter, was to embark upon an intensified campaign of persecution of the peoples behind the Iron Curtain, including the Russian people which, in terms of inhumanity and depravity, far exceeds anything known in the history of despotism. To this very day the dread Soviet Secret Police operates openly at the very doors of the American embassy in Moscow, where the arrest of new victims is a common occurrence.

Chapter II of the UN Charter declares that "Membership in the United Nations is open to all other peace-loving states which accept the obligations contained in the present charter . . . "Yet, as pointed out in a recent booklet (The United Nations: Myth vs. Reality, an America's Future pamphlet) it is noted that in 1971, free China - one of the original founders and a "permanent member" of the UN - was "ignominiously kicked out of the UN (and) its seat was assumed by the blood-stained Chinese Communist regime of Mao-Tse-tung . . . to stretch (Chapter II) to include Communist China just about has destroyed whatever small amount of revelance the UN Charter may still have had."

In a book just published "United Nations Journal" by William F. Buckley, Jr., who served for one year as a member of the United States delegation to the United Nations General Assembly, Mr. Buckley states: "The United Nations is the most concentrated assault on moral reality in the history of free

Unfortunately, if the United Nations is in fact a "myth," the more than four billion dollars poured into the UN coffers by the people of the United States is a hard reality. After a 30-year record of frustrating nothingness, and at a time of great economic stress for the people of our country, would it not be wise to consider whether the money now going to the UN might not be better invested in some other endeavor?

NATIONAL POLICE FORCE UNNECESSARY

Crime has reached such proportions in this country that if the trend is not reversed we may be forced to operate under a national police force.

This awesome statement was uttered recently by Attorney General William B. Saxbe in a speech to police chiefs from the country's largest cities.

Warning that we are losing the war against crime, Saxbe said: "The options are very limited as we face the future. If we go on as we are, there is every possibility that crime will inundate us. The nation then would be faced with the prospect of failing apart or devising a national police force in one final effort to restore domestic order "

And, as he put it, a national police force would lead to "total control over our lives."

In other words, if we can't control crime in this country under our Constitutional form of government, we must start down the road to a totalitarian form of government.

Certainly this is not necessary.

This increase in crime is undoubtedly due to the permissive age in which we are living. Punishment is reduced or eliminated entirely. Trials are delayed - sometimes indefinitely. Less and less bond is required for those charged with crimes. Gradually we are moving away from a standard under which criminals are punished for their acts, to procedures whereby hardened criminals are permitted to enjoy freedom without bond, on probation or parole. And, in many instances, they continue to murder and rob innocent citizens.

Now is the time for a turnabout. Not to a national police force but to a respect for law and order beginning in the home. Parents must demand obedience. Enforcement officials and the judiciary must strengthen their reaction to crime beginning with even the

of Port Arthur refused to concede defeat. Rep. Fred Head of Athens

set the stage for Clayton's apparent victory by withdrawing from the contest and throwing 15 votes to the West Texan.

While Parker was still checking the pledge cards, Rep. Jim Nugent of Kerrville also withdrew and announced - along with 14 others-he would back Clay-

Most legislators appeared to agree with Clayton that: "For all intents and purposes, the ballgame is over."

CRC TO MEET - The 37. member Texas Constitutional Revision Commission plans an October 4 meeting here to take a look at possible future means of getting a new state constitution.

The January-July Constitutional Convention, with the legislature sitting as delegates, ended in failure. CRC ecommended a revision draft to the convention which has drawn wide praise as a sound document.

The blue ribbon commission, which conducted a 10months' study in 1973, is now officially disbanded and must make the trip to Austin at members own expense. Many have proposed that the legislature take the CRC revision draft and other recommendations and try next year to come up with a nent which can be subitted to voters.

TYC OVERHAUL ORDER-William Wayne Justice in a 200-page opinion issued in Sherman ordered massive changes in operations of the state agency dealing with youth offenders.

Justice directed that Gates-ville State School for Boys and Mountain View maxi-

Gatesville must be "phased out" as quickly as possible. He cited records of cruelty to youthful inmates there.

Texas Youth Council members voted to appeal the order because it did not "take into account improvements (during) the past year.

TAX CUT TALKED-Both Governor Dolph Briscoe and Lieutenant Governor Bill Hobby have suggested sales tax rate cuts next year.

Briscoe called for elimination of the four per cent tax on utility bills.

Hobby, in a speech here, said he thinks the projected \$1.5 billion general revenue surplus will lead legislators to consider "very seriously" lowering the state sales levy in 1975.

Briscoe's proposal would take an \$80 million annual load off utility bills.

AG OPINIONS-A law prohibiting membership by licensed vocational nurses in labor unions with the right to strike is unconstitutional, Atty. Gen. John Hill held. In other recent opinions,

Hill concluded: · A justice of the peace may not delegate to any employee exercise of his constitutional or statutory judicial powers.

· Records of State Bar Grievance Committee proceedings are not subject to mandatory public disclosure under the open records act. · The Workmen's Compensation Second Injury Fund

An un-sponsored population control conference, which has attracted 130 nations, did little more than talk about the problem as the 3,000 delegates just met in Bucharest.

It is virtually certain, warned UN Secretary General Kurt Waldheim, that the world's population will double over the next generation, if present growth rate continues.

Casper Weinberger, Secretary of HEW, reminded the assembly that the world's food reserves have been cut to "about one month's supply." He said that the choice of population control may make the difference between a decent life or early death for hundreds of millions of the next generation, and even

ing generations.
The U.S. spokesman urged all countries to aim for an average replacement level of two children per family by the

year 2000, to avoid disaster. But the delegates were split on the issue. African and Latin American nations oppose family planning. So does Red Chi-na, with the Soviets tending more toward the status quo. shying away from worldwide control plans. West Germany supported the U.S. stand, as

did Japan and India. World population is today around four billion, with 6.4 billion projected for the year 2000, and 11 billion by 2050,

if current trends continue. Red China informed the Bucharest conference that since 1949 its population has grown by almost 60% - from about 500 million to 800 million at present. Prior to this announcement it had been assumed China's total was on the order of 700 million.

The United States, as well as most European countries, has made remarkable progress in birth control in recent years. The U.S. baby boom dropped by 33% between 1970 and 1973 Last year the number of babies per 1000 women of childbearing age (15-44) was 69.3. In 1957, at the peak, it was 122. 9 per 1000. At present rate the U.S. is due to achieve zero growth by the turn of the century. But this will require constant education and plan-

September is the month to start your compost heap. If you haven't provided a space for one, use a method that would be easiest and with the least expense. It can be underground 3 feet deep and wide by or 6 feet long or any size you may need. Save the good top soil to mix in with the leaves, etc., used, if above ground a board construction or sheet iron sides to hold the compost material will be easy in adding to and stirring all together.

Plants of tender perennials or annuals that are to be carried over for the winter, either for growing into larger specimens or to provide cuttings later, should be potted now.

Impatiens (sultana) should produce a beautiful display of flowers at any season. However, after a long period of blooming Grandson Of the plant may become straggly and have less blooms. If this happens, cut the plant back or repot in fresh soil and water lightly until new growth is well started. New cuttings produce better blooming plants than retaining old plants. For winter blooming take cuttings now and for summer blooming take cuttings in February. They are easily rooted in water, then pot in light, rich soil and keep quite moist but not waterlogged. Proper light is a must for Sultanas. As spring progreses, they need more and more shade, in the fall, the reverse is true. When brought indoors of Ozona are the bridegroom's they should be gradually adjusted to full light to bloom

properly. You may need to rearrange, add new plants and prune hanging baskets if you plan to keep them displayed indoors. Remember they need water more frequently than usual because they dry out quickly. Apply enough water each time for some to drain through, Good drainage is essential. If soil remains waterlogged, the plants will die. Feed plants as needed with liquid fertilizer by directions on product about every two weeks. To keep plants looking well groomed. pinch back new growth frequently to encourage branching and thickening growth, Remove spent flowers and dead foliage at least once a week. Control insect and disease of plants when necessary.

Weeds are beginning to mar the beauty of our city, so make an effort to help clean in front of places of businesses, alleys, and vacant lots. Too. these weeds will later cause many to have hay fever. Please do your part,

Reddy's consumer tips on ... lighting

Edison's light bulb has come a long way since it first lit up the night in 1879; today, lighting is such a natural part of our lives we hardly give it a thought. But the fact is, the more choice we have in how we can use light, the more attention we should pay to how we buy and use light bulbs and lighting fixtures. Put a little more light in your life by following Reddy's money-saving, rgy-conserving lighting tips:

CARE FOR LIGHTING EQUIPMENT

Dust and dirt alone cause substantial losses in the amount of light produced. Systematic cleaning is important. Clean lamp bulbs (when they are cool) with a damp

Check frequently for defective cords or plugs. Replace or repair them immediately if they are faulty.

Generally, you'll get more light for your money if you use the least amount of bulbs that give the light you need for instance, one 100-watt bulb gives more light than three 40 watt bulbs and costs about one-third less to buy and replace.

Speaking of "lumens," you'll find that all light bulbs have three ratings on their packaging. Lumens tell you what the light output or performance of the bulb is. "Watts" tell you how much electricity is needed to produce that light, and bulb life" is the estimated length of time it will take the filament inside the bulb to burn out. When brightness is more important than bulb life—for reading, studying or working -choose the "standard" life bulb that gives you the most lumens for its wattage

Remember, Reddy supplies the energy, but only you

Much Entertainment On Tap For State Fair

ment forecast for October promises cowboys in the Coliseum, Mustangs in the Cotton Bowl and Debbie Reynolds on stage at the Music Hall.

Fair and fun is the prediction when the gates of the 1974 State Fair of Texas swing open corral-style for a 17 day "Exposition of the West, " October 4-20, at Fair Park in Dallas,

Bronc-busters and bull-riders break from the chute October 5, in the first of nine State Fair Rodeo performances in the Coliseum. Top cowboys from the national rodeo circuit will compete for individual championships and more than \$50,000 in prize money.

Colorful college football headlines Cotton Bowl events during this year's Fair. SMU-Oregon State, Prairie View-Grambling, Texas-Oklahoma and SMU-Virginia Tech, are scheduled for the 72,000 seat stadium. A sparkling production of

the recent Broadway hit, "Irene" starring Debbie Reynolds and Patsy Kelly, marks the second anniversary of the new Music Hall in Fair Park. Bright songs, dazzling choreography and a charming Cinderella story highlight this musical revival.

--0--OHS BAND NEWS

The '74-'75 Lion Marching Band, 112 strong, elected this year's president and reporter last week. Band president is Peter Zapata and reporter is Bobbie Jones,

Due to a rainy practice week, the Junction band didn't march last Friday night, but the Lion band covered the field during half-time with pomp and pageantry. The stage band performed during the third

quarter. Each week an award will be given for extra enthusiasm. determination and spirit which is typical of the Ozona Lion Band. This week it was awarded to Jack Crites and Bobbie lones.

Woman's Forum Family History Workshop Opens Club Year Scheduled In Odessa

Family history, America's fastest growing hobby, will be explored in depth at a series of genealogy workshops in Odessa, Texas, These workshops, sponsored by the Permian Basin Genealogical Society, will be held at the First Christian Church, 601 North Lee Street (across from the Ector County Library), Odessa, Texas on September 20 and 21, 1974. The Friday evening session runs from 7 p.m. to 10 p.m. Saturday sessions from 10 a.m. to 4:30 p.m.

Hunting And Fishing License On Sale Now

With this year's hunting and fishing licenses now available across most of Texas, the Parks and Wildlife Department reminds sportsmen that only the \$4, 25 fishing license will be valid one year from the date of purchase.

Previously, the fishing license expired Aug. 31 along with hunting licenses.

Now, if a fisherman buys a license in May, for instance, it will be valid until May of

the following year.
Not so with the \$5.25 resident hunting or \$8,75 resident hunting and fishing combination licenses. They will continue to be valid from Sept. 1 of each year to Aug. 31 of the next year.

You pay your money and you take your choice.

American Migrational Patterns is the topic for Friday evening. This workshop will discuss how an understanding of migrational patterns can help locate places of origin even when sources themselves do not disclose them. Saturday sessions include discussions of the evidence contained in land and tax records which prove family relationship and how to trace an immigrant ancestor.

Each workshop session will be preceded by an hour of free consultation on individual pedigree problems. Participants will also have the opportunity to browse among informative displays on family and local history and to see the newest research aids and publications in the field. A special display of teaching materials and visual aids will be featured.

The workshop instruction will be provided by an outstanding seminar team from the Genealogical Institute of Salt Lake City. Heading this team is Mrs. Arlene Eakle, co-author of Family History for Fun and Profit. Mrs. Eakle is completing her PhD in British History at the University of Utah. She is an expert in tracing American, Canadian and British pedigrees.

Joining Mrs. Eakle will be Miss Nancy Poolman, a graduate of UCLA in languages and former European analyst for the Brigham Young University Genealogical Research Center, Miss Poolman, who speaks 9 languages, is completing her MA in French History. She has just returned from France where she spent the summer microfilming French records in local and provincial archives.

Everyone interested in tracing their family history is invited to attend this special event, Materials have been planned to provide interest for all levels of genealogical expertise -- beginner, advanced, amateur and professional. Why not bring a friend with you or form a car pool to share what could be an important breakthrough in your search for ancestry or an introduction to a fascinating hobby.

Reservations and further information can be obtained by calling Shirley Linder Rad. Seminar Chairman, at (915) 694-3796. --0--

Pattern Shotgun For Better Bird Shooting

have to admit that they know little if anything about what comes out of their shotgun when the trigger is pulled.

But it only takes a few minutes to learn exactly what kind almost 75 percent on full of pattern a shotgun tosses and it could mean the difference in cylinder bore (no choke). the number of clean kills

scored this hunting season. With dove season now going on, hunters are advised by the Texas Parks and Wildlife Department that patterning can be accomplished anywhere that some 395 pellets (consult a shooting is permissible. All that's needed is a roll of wrapping paper or several sheets of newspaper. Draw a 30-inch circle and pin the paper target to a frame or suitable stand; never shoot at a tree or anything else which could be damaged by a load of birdshot.

Since most doves are taken at a range of about 40 yards, pace off 40 steps for the first shot at the circle. Be sure to use the exact loads you will be shooting during open season. The number of pellet holes within the 30-inch circle shows the effective pattern you can expect on a well-placed shot
