## Provision Use Of Church Ruins As Community Center

### Material Scarcity Pre- vents Immediate Work But Clean-Up Planned

With a view to its ultimate reconstruction for use as a county library, ladies club house and community center after the war and when building materials again become available, the Commissioners Court this week discussed plans for preliminary work toward cleaning up and salvaging available material from the ruins of the burned Ozona Methodist Church.

The court discussed plans for the community center and library with Kay Johnson, local contractor, but due to the present restrictions on use of building materials it was decided best to postpone for the present any actual construction work. As expressed by members of the court in the preliminary discussion, the county officials envision conversion of the ruins into a commodious club house, library and assembly hall, retaining the rock walls left standing after the fire, and building to first story height, removing the walls for the top story, and utilizing the basement as part of the space planned.

The county recently regained title to the property by purchase from the Methodist Church at the original price paid by the church when it acquired the property from the county as a building site. The ruins, including material which may be salvaged, became county property.

In order to improve the unsightly appearance of the ruins, the county is making plans to clean up the debris, salvage steel and other materials to be sold for scrap, and to make what preliminary repairs are necessary to retain walls for the future use planned, according to Judge Chas. E. Davidson. This work will include removal of parts of the walls which may be dangerous and a general clean-up of the site.

## County Declines Action On Bond Refunding Plan

### Will Not Anticipate State Default Until It Happens

Taking the view that it would be improper for the county to take any action at this time in anticipation of failure of the state to continue its assumption of state road bonds, the Crockett County Commissioners Court meeting this week turned down a proposal by two state bond firms for refunding its local issues.

The bond firms' proposal set out the possibility of decline in state gasoline revenues making it necessary for the state to turn assumed road bonds back to the counties and offered a refunding plan which the court considered and turned down for the present, on the assumption that it would not be justified in taking such action until asked to do so by the state.

## Softball Play Is Renewed Here; Vandals Destroy Lights

As another outlet for relief from strain of war nerves, softball enthusiasts of Ozona are at it again. Matched games are being played on the Powell field playground between picked teams. Several games have been matched with a local negro team as well as "choose up" play among white players.

Vandals have destroyed fourteen light globes in the softball field lighting system by shooting them with a .22 rifle, it was discovered when players again assembled for the summer pasttime. The big globes cost \$4.50 each, the rifleman landing good hunting in the park to the tune of \$63 worth of damage.

## Oil That Feeds Russian War Machine

Two Russian workers (left) stand on a hill at Baku, U.S.S.R., and look over a vast panorama of oil fields with the derricks resembling pins placed at random in some gigantic pin cushion. From this rich oil land in the Caucasus comes most of the fuel to feed the Red Army fighting machines. It has been Hitler's most wished-for goal. Picture at the right shows an oil-cracking plant in Baku.

## Change In Bus Schedule Affects Mail Service

### Slower Schedule Is Im- posed In National Tire Saving Plan

Because of the 40-miles an hour speed limit imposed by the Office of Defense Transportation, changes in schedule of the Kerrville Bus Co. operation through Ozona became effective yesterday.

Of particular interest to Ozonians is the change of schedule of the day busses which carry mail to and from Ozona.

The morning bus which takes mail east from Ozona and connects for service to Dallas and Fort Worth, as well as San Antonio and points in that area, will leave Ozona 20 minutes earlier than formerly at 10:30 a. m. instead of 10:50 as heretofore. The afternoon bus, which brings mail from San Antonio, will arrive at 3:05 p. m. instead of 1:30 p. m.

Another regulation affecting the mails will be elimination of stops at the postoffice for loading of mail pouches, messenger service being required to take the sacks to the Hotel Ozona bus station for loading. This means that mail sacks will have to be closed earlier than usual, according to J. R. Kersey, postmaster, and persons who wish to get mail on the bus must have it in the postoffice by 10 o'clock, when the pouches will be closed.

## 28 Registrants Sought For Delivery Of Questionnaires

The Crockett County Selective Service board this week announced a list of 28 registrants to whom it has been unable to deliver questionnaires.

The list includes the following:  
Castulo Duran Cervantez  
Bernalie Chabarriga Villoria  
Francisco Juarez  
Severino Lopez  
Juan Ramirez Magallenez  
Francisco Valdez Lopez  
Juan Polondo Rodriguez  
Gregorio Rincones Villarreal  
Juan F. Tiurio  
Florio E. Gonzales  
Estevan Charle Salazar  
Fausto Castillo Galviz  
Mateo Castanon  
Catarina De Luna  
Francisco Perez Lara  
Jose Longoria Guerrero  
Earl Travis Pharris  
Albert Lewis Minica  
George Milton Gilmore  
Eithel O'Neal Gilbert  
Rafael De La Cruz  
Donciano Torres  
Claudio R. Gonzales  
Arturo Ortega, Jr.  
Rafael Ponce Coronado  
Juan M. Velasco  
Walter Daniel  
Lawrence Clay

### TOURIST VOTES FOR OZONA

A picture postcard, showing a business street in Reno, Nevada, with the famous Reno electric sign which reads, "Biggest Little City in the World," was received in yesterday's mail, addressed to the Chamber of Commerce.

On the correspondence side was written: "So, there's another 'Biggest Little City in the World.' I'll vote for Ozona, however." It was signed just "Tourist."

This tourist, was impressed with Ozona to the point of taking the trouble to pass a compliment of comparison, failed to note the slight difference in Ozona's and Reno's signs—Ozona uses the word "Town" instead of "City," which was a deliberate variation from the Reno use.

## Architect Meets With Methodist Building Committee

W. T. Strange, Lubbock architect, met with members of the building committee of the Ozona Methodist Church here last night to discuss with the committee plans for construction of a new church building to replace the structure destroyed by fire March 8.

Mr. Strange was given the committee ideas on plans for a Gothic type church to be built on the Harrell lot recently acquired for the purpose, and the architect will draw a preliminary sketch from the plan and submit it at a later date.

Mr. Strange will leave for Washington, D. C., next week in connection with government work in which he is now engaged and while there will investigate for the local congregation the possibilities of obtaining priority rights for rebuilding the church here.

Members of the building committee are Scott Peters, chairman, Tom Harris, Pleas Childress, L. B. Cox, Jr., Rev. Eugene Slater and J. M. Baggett.

## Hard Surfacing Of Road Nears Finish

Application of first coat of rock and asphalt was nearing completion this week on Highway 163 south from Ozona, which is being paved a distance of approximately 19 miles south from the city.

The hard surfacing operation is progressing from the south end toward Ozona and was a few miles from town at the middle of the week.

### HOLDS REVIVAL SERIES

J. D. Moss, minister of the Church of Christ in Ozona, will leave in the next few weeks to hold a series of gospel meetings over the state during the summer months. The first meeting is planned at Lott, Texas. The minister has resigned the local pastorate effective at the end of his term in September, it has been announced.

## Support Of Scout Movement Urged By Joe Galbraith

### Field Executive Talks To Rotary; Club May Sponsor Troop

Ending with a plea that men of the community, headed by the Rotary Club, assume leadership in the Boy Scout movement here, Joe Galbraith of Del Rio, field executive for the Concho Valley Council, Boy Scouts of America, pointed graphically to the present-day vital need for boy training along the lines of the Scout program in a talk before the Rotary Club at its Tuesday luncheon in Hotel Ozona.

Galbraith declared that the president and leaders among the nation's fighting forces have strongly endorsed the Scout movement as of great value to the nation's present war effort and asserted that Boy Scouts have a definite and important place in the drive for victory over evil forces in the world.

The Scout leader deplored the lack of vigor in the Scout troop activities and promotion here, paying compliment, however, to the active troop in the Latin-American community.

"We men are to blame largely if the Scout movement is not prospering," he declared. "If we want it to succeed strongly enough, we can do it and I believe it is a program worthy of the best efforts of the men—and women—of the community."

Mr. Galbraith urged particularly that a group of Scouts from Ozona Troop 53 attend Scout summer camp at Camp Fawcett, near Del Rio, beginning June 21. The camp is to be well supervised and an interesting program developed for the training and entertainment of Scouts from this area attending. Bryan McDonald, chairman of the Scout committee, was supplied with application blanks and is attempting to contact any Scouts (Continued On Last Page)

## Important Meeting Of Cemetery Assn. Planned Monday

All members of the Ozona Cemetery Association are urged to be present for an important meeting of the association to be held Monday afternoon, June 15, at 4 o'clock in the courthouse, Mrs. Floyd Henderson, Association chairman, announced yesterday.

Officers are to be elected for the coming year and revision of rules and regulations of the association's operation will be discussed.

Present officers of the association include Mrs. Henderson as chairman and Mrs. A. C. Hoover as secretary-treasurer. A standing committee of men assists the association officers in administering its affairs.

## County Tax Rate For 1942 Set By Commissioners

### County Rate Off Two Cents; Schools Up Three Cents

Crockett county's property tax rate for 1942 was set by the Commissioners Court meeting here Monday, the new rate showing a raise of one cent on the \$100 taxable valuation over the rate in effect last year for county and school purposes.

While the rate for county purposes showed a decline of two cents over last year's rate, three cents was added to the levy for school bond retirement funds.

The new rate for county purposes will stand at \$1.15 against \$1.17 last year while the tax for school purposes will be 75 cents this year against 72 last year. The raise was made in school bond levies.

The new rates as divided between the various county fund, was fixed as follows:

First class, jury fund, 10 cents.  
Second class, road and bridge fund, 15 cents.

Third class, general fund, 25 cents.

Fourth class, permanent fund, 25 cents.

Fifth class, courthouse and jail fund, no levy.

Sixth class, county's part on sinking fund and interest on 1914 and 1916 State road bonds, 15 cents.

Seventh class, county's part on 1930 State road bonds, 25 cents.

Eighth class, lateral road fund, no levy.

Ninth class, road bonds for Highway 163, south, 5 cents.

The school tax levy was set at 50 cents for maintenance, 15 cents for building bonds, 5 cents for county school bonds refunded (grade school) and 5 cents for Lima school bonds.

## Highway Crew To Install Culvert

Proposition of the state highway maintenance crew to install without cost to the county a metal culvert at the junction of the old Highway 27 road with a new road up the Pecos River, provided the county will furnish a 40-foot corrugated culvert, was accepted by the Commissioners Court in session Monday.

Commissioners Owens and Miller were named a committee to act for the court.

## Dr. Nesrsta Named Health Officer To Succeed Dr. Tandy

Dr. George L. Nesrsta was named Crockett County health officer at the meeting of the Commissioners Court here Monday.

Dr. Nesrsta succeeds Dr. H. B. Tandy, who has served for the past several years in the post of county health officer. Dr. Tandy is now a captain in the U. S. Army Medical Corps stationed at William Beaumont General Hospital in El Paso.

### SUFFERS ARM INJURY

Charles McDonald, son of Mr. and Mrs. Bryan McDonald, suffered a deep cut on his left arm Saturday while operating a clipping machine at the Davidson ranch. The machine was being used in roaching manes of horses and young McDonald was furnishing the hand power when his arm was caught in gears on the machine. Several stitches were required to close the wound.

FOR CROCKETT COUNTY	
County June Quota	\$12,700
Purchases to date for the month	\$7,600
Still to go	\$5,100

## 2 Dances Planned For July Fourth Celebration Here

### Johnny Keeting To Furnish Music; Bar- becue Canvass Opens

Two dances, one Friday night, July 3, and another Saturday night, July 4, are planned as features of Ozona's wartime July Fourth celebration this year, it was announced this week by Lee Childress, chairman of the dance committee.

Johnny Keeting and his orchestra from San Angelo have been engaged for the two-night dances. Mr. Childress said, and dancers are promised two evenings of good dancing. The dances are to be held on the open-air platform at the fair grounds, admission fees to be decided later. With Mr. Childress on the dance committee are Stephen Perner and C. C. Montgomery.

The barbecue finance committee, composed of Pleas Childress, James Baggett and Heyward White, has already begun work of soliciting funds for the one-day barbecue to be held in the downtown park on July Fourth. The committee reports a liberal response to its solicitation so far. Based on records from last year's Fiftieth Anniversary one-day celebration, the committee estimates that between \$500 and \$600 will be necessary to feed the crowd for the noon-day meal.

R. J. Cooke and his barbecue committee, including W. R. Baggett, J. T. Keeton and Bill Johnson, have perfected plans for the job of securing and preparing the barbecue dinner for the occasion, and O. W. Smith and Ernest Brownrigg form the nucleus for the serving committee.

J. C. Montgomery is general chairman of celebration plans. Although designed primarily as a home-coming event patterned after the traditional Ozona rodeos and Fourth of July celebrations, but necessarily curtailed because of war-time conditions, Ozona is extending a cordial invitation to people of the West Texas area to attend the event.

## Sonora Lions Club Sponsors Annual Show

### 4-H Show, Livestock Auction Sale, Dance Menu For June 17

Sonora Lions Club is again sponsoring its Fifth Annual 4-H Club Boys Wool and Mohair Show and Lions Club Livestock Auction Sale, the event this year to be on Wednesday, June 17.

Activities of the day include the wool show and auction sale, four purse horse races and three matched races with plenty of competition promised, and a big barn dance in the evening, with music to be furnished by Harrison's Texans, according to announcement of the planning committee. The dance will be of the apron and overall variety, with fun and frivolity the theme of the evening.

"The show this year is more necessary than ever to us, since it is imperative that each community solve its own problems that are sure to arise," the Lions Club announcement said. "We are eliminating every frill that might cost, that those present may enjoy this occasion, that certain good deeds may be carried on, and in the end the people will have more money left with which to buy war bonds and stamps."

A cordial invitation is extended to Ozona people to attend the show.

Miss Johnnie Boyd, former Ozonan now living in San Angelo, is here visiting friends this week.

Rezeella Mitchell, daughter of Mr. and Mrs. Bill Mitchell of Fort Stockton, was a guest this week of Mr. and Mrs. J. C. Montgomery.

THURSDAY, JUNE 11, 1942

CONFUSION WORSE THAN CONFOUNDED

Washington is a very, very busy city. Everybody there, with unimportance exceptions, is working night and day to put over the most gigantic war program ever conceived.

Harold Ickes and Leon Henderson, with their statement that rationing would be less rigorous than predicted in news stories, were more than a little foolish.

ing Hitler and Mussolini. Then "a high official," Secretary Hull and finally the President

One who follows these situations closely can not escape feeling that the self-contradiction in the government's news "policy" arises from confusion of goals.

A LONG, HARD PULL . . .

"Neither optimism nor pessimism will win this war," wrote Dorothy Thompson recently.

It is undoubtedly true that many of us have given way to unjustified optimism of late. That is only natural.

The plain truth is that, unless the completely unlikely occurs, we have barely started our war effort.

There is no cause for pessimism at all this. The axis was ready for war and the United Nations were not.

"Junior catches on quick!"

mistake of thinking that all is going perfectly, and that there's nothing much to worry about.

The Burma campaign illustrates our difficulties. Lieutenant General Stilwell and the other commanders planned brilliantly.

Here at home, as the commentators have been saying, we have got over the production hump.

In short, we are still fighting delaying actions for the most part.

SHAKING PUBLIC MORALE . . .

One cardinal principle of our kind of government is that public officials should treat the people with perfect frankness.

The American motorists is completely up in the air as to the future of car transportation.

home of the enemy. But we are moving swiftly toward the day when that will be possible.

### OPA Inspectors Visit Dealers on Price Ceilings

The Office of Price Administration wants to know how price control is coming along in the South. So it has decided to find out.

As a part of a nation-wide program, the OPA region headquarters at Dallas has started a thorough survey in each of the states of the region—Texas, Oklahoma, Louisiana, Arkansas, Missouri and Kansas.

Principal purpose of the survey will be to observe how retailers are complying with the requirements for marking of prices on or near all cost-living commodities as listed in the General Maximum Price Regulations.

Trained inspectors are making the survey. Starting from Dallas they are formed into teams and assigned to work in and near representative cities and communities throughout the six-state region. No itinerary has been announced for the survey, but each retail seller should not be surprised to receive visits by an inspector.

Visits by the inspectors will be friendly, OPA officials have emphasized. Dual purposes will be filled: instruction on proper marking of cost-of-living ceiling prices, and inspection of how the seller is complying. Each inspector will carry instructional material to leave with the visited seller.

### FIXTURE MANUFACTURE STOPPED

An order virtually halting the manufacture after June 20 of sinks, drinking fountains, water closet bowls and tanks, and other plumbing fixtures, has been issued by the War Production Board. The order prohibits use of metals other than joining hardware, coating, or reinforcing mesh in production of these fixtures. At least 250,000 of the more essential of these plumbing fixtures are believed to be on hand now, enough to meet requirements for a considerable period of time.

### What You Buy With WAR BONDS

The Army's fighter planes are the finest in the world and develop speeds up to 400 miles an hour. They cost approximately \$100,000 each, provide fighter escorts for the huge flying fortresses, and combine speed, range, altitude and blistering fire power.

America's plane production plants are working over-time turning out thousands of these fighter planes. War Savings Bonds will help pay for them and the American people are committed to at least ten percent of their income to finance their cost in War Bonds. Every American, buying his share every pay day, will make it comparatively easy to supply our army and navy air corps with these supreme Eagles of the air.

### Texas Leads Nation In Recruiting For U. S. Marine Corps

DALLAS—Texas has done it again! There has long been a saying in Uncle Sam's Marine Corps that if there were no Texas there would be no Marine Corps. New San Antonio Rose was the most popular song at the Marine Base in San Diego, California, until Deep In The Heart of Texas came along.

And small wonder—for Texas leads the nation each month and each year in furnishing fighting men for the famous Leatherneck Corps.

Figures for the month of May, just released by the Southern Recruiting Division headquarters at Atlanta show the district of Dallas again out in the lead, with a total of 305 men enlisted during the 31-day period. Nearest rival was the district of Raleigh, N. C., with 290, followed by San Antonio with 276. The other nine districts trailed far behind.

The erwasgreat rejoicing among

### Save and Sell for Victory

SAVE on rubber. Check tractor, truck, and auto tires often. Be a miser-driver. Tires have to last a long time.

SELL or give in charity all scrap metals. Clean out your basement and backyard. Brass, copper, lead, tin, and all other metals are needed.

Marine recruiters at Dallas when the score sheet was received, for Dallas had two good reasons for particularly wanting to stay out on top. They have a new commanding officer, Lt. Col. Newton B. Barkley, recently returned from Iceland with the famous Sixth Marines, and they wanted him to know how solidly they are behind him.

Secondly, their former commander, Lt. Col. John D. O'Leary, in charge of the Dallas office for the past three years, is now in charge of the entire Southern Recruiting Division, and the boys wanted him to be proud of them too.

The Dallas office filled its original quota for May by the 20th of the month, thereby earning a barbecue from Col. Barkley. They are determined to go over the top for June by the 15th and are well on their way.

"I just don't see where they come from," Colonel Barkley said Friday. "The office runs smoothly, and none of my sergeants seem to put out a great deal of effort, but the recruits continue to clock in. Maybe it's that great Texas spirit that does it."

To which First Sergeant Robert L. Malone answered, quietly, in the words of the popular song, "We've done it before—and we can do it again! Watch our smoke!"

Among the recruits enlisted during May was Carlson Albert North of Ozona.

**ITALIAN BONDS SEIZED**  
A small block of Italian-owned bonds of a New Orleans laundry has been taken over by Leo T. Crowley, alien property custodian. Also seized were 80 Japanese-owned and two German-owned patents, several relating to the processing of steel, aluminum and other metals.

Using its knowledge gained in regular production, one industry is now adapting materials used in football uniforms for American parachute troops.

**Penny Wise says...**  
"Every penny saved helps to blackout the Axis."

**THE simplest of home recipes for saving pennies:** turn out unnecessary lights. One person shouldn't have to follow others around, turning switches! Besides—ample electric supply is vital to war production!

Use the pennies saved to purchase U. S. SAVINGS STAMPS—as your share in the "Home Front" fight for freedom.

ment of summer time eating is desired, plant butter beans, okra, green pepper, eggplant, cream peas and cantaloupes along with them.

If certain spring plantings are not to be repeated, use those spaces for planting hot weather vegetables. For example, English peas may be followed with cream peas, and after white potatoes are dug, use that ground for cream peas also while the soil is well worked up. If plants of green pepper and eggplant are available, use them and thereby hasten production three or four weeks.

Cantaloupe for breakfast, the horticulturist says, has the same place in the diet as tomatoes or oranges, or other fruit juices. The Perfecto variety, which has a tender, highly flavored, salmon colored flesh, is recommended.

Rosborough reminds that it is good garden practice to give plants which grown into the summer months an extra meal of plant food. For tomato plants apply about a half teacup of fertilizer,

like 6-12-6, in a circle 12 to 18 inches away from the plant and mix into the soil about six inches with a hoe.

Watering the more tender vegetables such as lettuce, mustard and etc., during hot weather will hasten growth and improve quality.

Industrial research men are studying the tough ends of asparagus stalks, in hope of processing them into a good fiber insulating board.

By Rev. Eugene Slater  
Pastor Methodist Church

We say a good deal in the church about meeting failure and defeat triumphantly. So many people are discouraged when they are confronted by unfriendly incidents, and it is well that the church try to prepare its people against inevitable hardships and to stand by them when grey days come.

Here is another side of life about which we have said too little. We all need help in meeting success in a triumphant way. Wealth, political power, honors, and professional skill—all these are attended by a number of dangers, and we have to be careful that our heads are not turned, that we do not place too high a value on the praise of men, and that we do not come to think more highly of ourselves than we ought.

Every one of us know what it is to have a measure of some sort of success ever so often. How shall we be prepared to take it successfully?

First of all, we shall do well to remember that whatever success attends our efforts comes through the help of many of our friends and acquaintances. It does not come through our efforts alone. This realization gives us a feeling of dependence on others that will keep us humble. And a spirit of humility will help us to accept our success graciously and triumphantly.

A second help is in the memory of that Scripture which says, "To whomsoever much is given, of him shall much be required." If your major ability is making money, and if you are highly successful in business you have an obligation to use your money so that the largest good will come from it. The more we have, the greater the temptation that we shall forget our stewardship and use it selfishly. The Christian religion teaches us that our lives are not our own; that they belong to Christ, and the causes that are His. Here is a principle to be observed, and in the keeping of it we are able to meet any success with a victorious spirit.

A final suggestion is this: we have never really succeeded until we have sensed God's approval of us. A man may succeed gloriously from the standpoint of common business standards; yet in the light of eternal wisdom his life may be a failure. He may have a high place in government circles; yet he may not have learned to be a good husband, and he may have used methods in gaining his position that forfeit his right to the confidence of his fellows. Some men have acquired the wisdom of looking into the life of Jesus, day after day, until their thoughts and actions are patterned after His. Success, for them, is not only a matter of dollars and cents; it is more a matter of what they do with the money that they have. These men rejoice in the honors that are given them; but they are concerned to always be worthy of these honors. They not only look to the ends to be Christian in character. Thus, with success, comes the consciousness that in the achievement of it high principles have been kept. Here is the real triumph!

Prayer: Help us, Our Father, to so live that we shall be worthy of Thy love, and may we find our highest joy in doing Thy holy will. Amen.

**A WEEK OF THE WAR**

SUMMARIZING INFORMATION ON THE IMPORTANT DEVELOPMENTS OF THE WEEK MADE AVAILABLE THROUGH MONDAY OF THIS WEEK

Pacific Fleet Commander Nimitz reported two and possibly three Japanese aircraft carriers and a destroyer were sunk, and three battleships, six cruisers and three transports were damaged in the battle of Midway Island. All planes on the two carriers definitely known to be sunk were lost. Admiral Nimitz said. One U. S. carrier was hit and some planes were lost, but casualties among the U. S. personnel were light, he said. Admiral King, Commander-in-Chief of the U. S. Fleet, said the enemy fleet has apparently withdrawn from the Midway area but battle maneuvers are continuing in the Hawaii-Dutch Harbor area. The Navy said the first Japanese attack on Dutch Harbor on June 3 resulted in few casualties and no serious damage, appearing to have been made "primarily to test our defenses." The Japanese planes which flew over the harbor six hours after the initial attack were "engaged solely in reconnaissance," the Navy said.

Gen. MacArthur reported within six days Allied naval and air forces sank seven and possibly eight enemy submarines, two heavily loaded armed supply ships and an armed transport, and also badly damaged a 7,000-ton vessel. Allied losses in the Southwest Pacific were two cargo vessels. In air raids over Rabaul, Lae, Salamaua, Atamboea, Tulagi, Koepang, Dili, and Burma, 12 enemy planes were destroyed, one enemy tanker sunk, and runways, airdrome installations and parked planes damaged. Three Allied planes were lost. The Navy said Allied merchant ship losses totaled 21 during the week, including nine U. S. ships.

**Production**  
U. S. production of planes has reached the level of "nearly 5,000 a month," and by next year we will have reached the President's goal of 10,000 a month, the Senate Appropriations Committee announced. Army Air Forces Commander Arnold congratulated the Vega Aircraft Corporation at Burbank, Calif., on being six months ahead of schedule on production. WPB Chairman Nelson, after a tour of the automotive industry in Detroit, said American industry could "more than double present production by 1944." He also said the Government Synthetic Rubber program would be able to take care of "all war production and essential civilian needs" by 1944. Despite the fact that almost twice as many light arms are required per man since the development of parachute troops, the Army has enough weapons to arm every soldier in the U. S., and all it can send abroad under present shipping conditions, War Under-Secretary Patterson reported. He said over-optimism regarding production schedules is unwarranted, however, because of rubber, nickel, and copper shortages.

A record total of 58 ships were delivered into service during May, while 65 other ships were launched and keels were laid for 75, the Maritime Commission reported. This compared with 36 delivered and 51 launched in April. The President asked Congress for an appropriation of \$1,100,000,000 for the WSA to acquire and operate merchant vessels to carry American arms.

Federal agencies asked Labor-Management Committees in 800 war production plants to keep American workmen fit and healthy because sick and injured war production workers are now causing a loss of 6,000,000 work days every month.

The Woman's Society of Christian Service will hold its June all-day meeting this coming Tuesday, June 16th. The society will meet at the home of Mrs. Monroe Baggett at 10:30 a. m. All members of the society are cordially invited to be present for the day.

The Slators will leave Sunday afternoon, June 14, to attend the Pastors' School at SMU. The pastor will return to Ozona on July 2nd or 3rd. He may be reached by telephone (Lakeside 5-5776 in Dallas) should there be need for him.

Bulgaria, Hungary and Rumania. The President said the three countries previously declared war on the U. S. as instruments of Hitler, and currently they are engaged in military operations against the United States. Assets of these countries here have already been frozen.

**Foreign Relations**  
The U. S. signed a Lend-Lease agreement with China, substantially the same as its aid to Britain, and proposed Lend-Lease agreements on the same terms with the Norwegian, Belgian, Polish, Greek and Netherlands Governments in exile. Lend-Lease Administrator Stettinius said under the joint control of the combined boards in London and Washington the resources of the United Nations are now, in effect, one big pool, with each nation contributing to the extent permitted by its resources and military position. Reciprocal aid from nations receiving supplies from the U. S. is providing material for American troops abroad without dollar payments, he said. The Agriculture Department reported 5 billion pounds of farm products were delivered to United Nations representatives between April 1941 and May 1, 1942.

The American Red Cross said it has aided almost 750,000 war victims in the Middle East and distributed more than \$2 million worth of relief material there, largely purchased with U. S. Government allocated funds. The State Department said 193 persons, including many U. S. Citizens who have been awaiting passage in Sweden, arrived in New York on the SS Gripsholm, and 10 Axis officials and approximately 930 Axis civilians sailed for Lisbon on the Drottningholm.

**The Armed Forces**  
The House passed and sent to the Senate a \$3 billion supplemental Naval appropriations bill, to provide 200,000 tons of submarines, 500,000 tons of auxiliary vessels, \$150m. for aviation plant facilities, and other funds. Chairman Vinton of the House Naval Affairs Committee said approximately 99 more combatant ships will be commissioned during the remainder of 1942. Three more destroyers were launched. The CAA and the Navy completed arrangements to train 20,000 Naval Reservists as pilots at 600 CAA training centers during the coming year, if money is appropriated. U. S. Army training films, especially those showing mechanism and tactical use of U. S. equipment, are being recorded in universal Spanish, Portuguese and Chinese, the War Department said, for exchange with other members of the United Nations.

**Civilian Supply**  
WPB Materials Director A. L. Henderson said vital materials can no longer be used except for war and maintenance of those things necessary to the war because from now on "it will be a continuous problem to provide materials to meet the needs of our fighting forces." The WPB said preferred applicants for new telephones cannot obtain service unless they prove the service is essential to the discharge of their responsibility for public health, welfare or security. The Board issued an order

der relieving from restrictions lumber deliveries for more than 100,000 of the most essential housing units now under construction. The FHA authorized its Field Offices to begin insuring to the extent of \$500,000,000 loans of private lending institutions for construction of housing war workers. A Food Requirements Committee, headed by Agriculture Secretary Wickard, was set up to control production and allocation of all civilian and military food supplies.

**Rationing**  
All motorists will receive A books containing a year's base supply of 48 coupons under the new permanent gasoline rationing system which will be established in the East about the first week of July, OPA said. Supplementary B books with an additional 16 coupons will be issued to motorists who prove need for extra rations, providing they are members of a car pool. No unlimited privileges will be granted any one, but C books containing 96 coupons will be issued to some motorists. S books for trucks and busses, good for a four-month period, will cover just enough fuel for the mileage allowed in forthcoming ODT regulations. Motorcyclists will receive D books, good for 40 per cent as much gasoline as A books. Under the new system service stations and distributors will be required to turn in collected coupons when

## Sgt. Roger Dudley Weds Coleman Girl In Ceremony Sunday

Miss Elizabeth Richardson of Coleman became the bride of Sergeant Roger Dudley, Jr., son of Mr. and Mrs. R. R. Dudley of Ozona, in a home wedding at 6 o'clock last Sunday afternoon at the ranch home of the bride's parents, Mr. and Mrs. M. A. Richardson of Coleman county. The ceremony was performed by the Rev. Harrell, pastor of the Rockwood Methodist Church, in the presence of members of the families of the bride and groom and a few close friends.

Miss Edith Richardson, a sister of the bride, was maid of honor and her brother, Cecil Richardson of Abilene was the groom's best man.

Miss Betty Dudley, the groom's sister, played the wedding music and accompanied Miss Nora Beth Hill of Rockwood who sang "The Sweetest Story Ever Told" and "I Love You Truly."

The bride is a graduate of Santa Anna High School and of McMurray College and of the University of Texas. Sergeant Dudley enlisted in the United States Army in August, 1940, and is now attached to the Air Force Training Detachment of the Coleman Flying School. He is a graduate of Ozona High School and attended Texas Tech in Lubbock and Southwestern College in Durant, Okla.

The young couple came to Ozona to visit with relatives on their wedding trip after which they will be at home at 707 West College in Coleman.

## Robisons Hosts To Forty-Two Club

Mr. and Mrs. P. T. Robison were hosts to their forty-two club Friday night in the Hotel Ozona.

Mr. and Mrs. M. Johnson won high score prizes, Mrs. C. S. Denham received guest high for the ladies.

Those attending were Mr. and Mrs. John Bailey, Mr. and Mrs. N. W. Graham, Mr. and Mrs. J. M. Baggett, Mr. and Mrs. Heyward White, Mr. and Mrs. Johnson, Mr. and Mrs. C. C. Montgomery, Mr. and Mrs. George Harrell, Mr. and Mrs. W. R. Cabaness, Mr. and Mrs. Jeff Owens, Mr. and Mrs. C. S. Denham, Mr. Carl Colwick, Mrs. Nora Gee of El Paso, and Mrs. Chas. Williams.

## Doris-Dudley Wedding Announced

Announcement is made of the wedding of Miss Winna Doris of Iraan and Walter Dudley, son of Mr. and Mrs. R. R. Dudley. The wedding took place in Crane on November 2, 1941.

The young couple are moving to their new home just being completed on the Dudley ranch on the Pecos River in this county.

Mrs. C. B. Baxter and daughter, Tony, are here for a visit with Mrs. Baxter's sister, Mrs. T. A. Kincaid, Jr., and family.

## Ace And Twentieth Century Meet Jointly

The Ace Club and the Twentieth Century Club met at the home of Mrs. Tom Smith, with Mrs. Early Chandler, and Miss Mary Alyce Smith as hostesses.

Mrs. Bill Baggett won high for the Ace Club, Miss Catherine Childress second high, Mrs. Jack Wilkins received high in the Twentieth Century, and Mrs. Pleas Childress, Jr., second high. Bingo prizes were awarded to Miss Eloise Carson and Miss Wayne Augustine.

Others present were Mrs. John Henderson, III, Mrs. Tommye Harris of Clarendon, Mrs. Joe Sellars Pierce, Mrs. Dempster Jones, Mrs. Bill Childress, Mrs. Joe Clayton, Mrs. Jack Baggett, Mrs. Fred Hagelstein, Mrs. Jake Miller, and Miss Helen Mayes.

## THEATRE PARTY

Mrs. J. C. Montgomery entertained with a theatre party Saturday night honoring her niece, Rozella Mitchell of Fort Stockton. Attending were Ruth Townsend, Daphne Meinecke, Nan Tandy, Barbara White, Louise Bean, Joanne Glover of Ballinger and the honoree.

## PROGRESSIVE DINNER, DANCE FOR YOUNGER SET

A progressive dinner and dance was staged by a group of twenty boys and girls of the younger group Tuesday evening. The dinner started with cocktails at the home of Jo Nell Coose, salad at the home of Ruth Townsend, sandwiches and tea at the home of Barbara White and dessert at the drug stores downtown. The party finished off with a dance at the home of Nan Tandy.

Enjoying the evening were Ruth Townsend, Daphne Meinecke, Barbara White, Louise Bean, Jo Nell Coose, Muggins Davidson, Myrtastine Hokit, Joy Hubbard, Joanne Glover of Ballinger, Arthur Byrd Phillips, Tom Ed Montgomery, Charles and Dick Lee McDonald, Joe Corbell, Billy Corbell, Perry Hubbard, Pierce Reese, Billy McWilliams and Chappo Morrison.

## JOE COUCH WEDS ROSWELL, N. M., GIRL

Miss Virginia Herring of Roswell, N. M., and Joe Couch, son of Mr. and Mrs. Bert Couch of Ozona, were married in San Angelo last Thursday, culminating a romance which began while Joe was a student in New Mexico Military Institute in Roswell. The young couple are at home on the Couch ranch.

Sue Littleton, daughter of Mr. and Mrs. Bill Littleton of San Angelo, spent the week here visiting her grandmother, Mrs. B. B. Ingham.

Jesse Hancock, Jr., son of Mr. and Mrs. J. I. Hancock, is home from Schreiner Institute where he was a student during the past year.

## Dorothy Hannah Becomes Bride Of Edward Lee Lewis, Jr., At Abilene

Miss Dorothy Neal Hannah, daughter of Mr. and Mrs. Neal Hannah of Ozona, became the bride of Edward Lee Lewis, Jr., Saturday, June 6, at 5:30 p. m. in the home of Mr. and Mrs. Hugh Clark of Abilene, Texas. Mr. Clark, minister for the College Church of Christ, performed the double ring ceremony.

Shasta daisies were used throughout the house. Candalaria, decorated with daisies and ferns held in place by white satin bows, and holding tall, white, lighted tapers, formed the altar before floor length windows in the large living room.

The bride came down the stairs alone, and was joined by her father, who accompanied her to the altar. She wore a gown of white marquisette with full gathered skirt and fitted bodice, with three-quarter length sleeves. A wide bias ruffle outlined the front panel which extended from the sweetheart neckline to the floor. Her fingertip veil was held in place by a coronet of gardenias. She carried a nosegay type bouquet of gardenias and stephanitis. Her only jewelry was an antique pearl ring, and a string of pearls, a gift of the groom.

Miss Marion Clark of Abilene was maid of honor. She wore a blue net gown and carried pink gladioli.

G. C. Hely of Abilene was best man. The wedding music was played by J. B. Ellis of Oklahoma City. Miss Ora Louise Cox of Ozona sang "All For You." She wore a pale green gown and her corsage was of yellow gladioli.

At the reception following the ceremony, Miss Lola Sue Clark presided at the table, where the wedding ring cake was served. The couple left on a wedding trip to Mineral Wells, Fort Worth and Dallas. For traveling, the bride wore a brown eyelet embroidered linen suit with white jabot front. She wore white accessories and a corsage of gardenias.

The bride is a graduate of Ozona High School and attended George Pepperdine College in Los Angeles, Cal., and Abilene Chris-

tian College, where she majored in music and was a member of Gata social club. Mr. Lewis is a graduate of Rule High School and attended Texas Tech, where he was

MRS. EDWARD LEE LEWIS, JR.

a member of the College Club and A.C.C., where he was a Phi Omega Chi. He has completed secondary Civilian Pilot Training course and is awaiting call into the Army Air Corps. He is a brother of Garland Lewis, former athletic coach and teacher in Ozona High School.

## Tennessee Plant Makes Phosphorus, Which Has Important War Uses

NASHVILLE, Tenn.—A highly important contribution to the war effort is made by a small plant near here employing only a few hundred men and using more electric energy than the entire city of Memphis.

This is a plant that makes pure phosphorus from phosphate rock. The "rock," which really is a very dark, rich-looking dirt, is steam-shoveled from the crevices of limestone rocks a short distance from the factory.

This is the material that goes into the plant. Pure phosphorus, the finished product, is a thick, whitish-looking substance that turns yellow and then red on exposure to light.

It must be kept under water, since it will ignite and burn if exposed to the air. For that reason, it is shipped in water-filled tank cars. The phosphorus, being heavier than water, goes to the bottom of the cars.

Pure phosphorus is used to make "spotting shells"—that is, shells that burst and give off a distinctive smoke, thereby helping gunners to determine range. It has a multitude of other important war

uses—the manufacture of phosphene gas, for example, which may be made in quantity if Hitler or the Japs start using poison gas.

Phosphate "rock" happens to be plentiful in this section because the surrounding country here was once an inland sea. Two or three hundred millions of years ago, geologists say, great masses of small shellfish were deposited in the limestone crevices. The shells, for some strange reason, contained phosphorus.

Marvin and Joe Rape, sons of Mr. and Mrs. I. G. Rape, and both students in the University of Texas School of Medicine in Galveston, are home for a brief vacation between terms. They will resume their studies at the beginning of a new term late this month.

## Sugar For Fruit Canning Available Thru Ration Board

COLLEGE STATION — Homemakers canning fruit this year will save themselves time and trouble if they do some advance preparation before applying to their local rationing board for certificates.

"Be prepared to answer these three questions when you go," advised Winifred Jones, specialist in food preservation for the A. and M. Extension Service: How many quarts of fruit did you can last year? How many quarts of fruit do you plan to can this year? How many quarts of last year's fruit do you still have on hand? Another word of advice is: "Keep a record of the fruit you can with your rationed sugar because your rationing board will ask for it when you apply for more sugar."

Answering these questions will be relatively simple for the thousands of rural homemakers who have kept records and filled the food preservation budgets as recommended by county home demonstration agents of the Extension Service.

Rural homemakers may stretch their sugar allowances by using thinner syrups for canning fruits and fruit juices and by using corn syrup or honey as substitutes in canning recipes, Miss Jones says. Information on these methods can be obtained from county home demonstration agents. She warns that saccharine, a coal tar product with an extremely sweet taste, cannot be used in canning because it becomes bitter when heated.

Here is the specialist's summary of the rationing regulations as they apply to sugar for canning:

"You will get one pound of sugar for every four quarts of finished fruit you are putting up, and you may can as much fruit as your family needs. You may have an additional pound of sugar for each person in your family to make a small supply of jams, jellies, and fruit butters."

Mr. and Mrs. John Bryant of Eden visited with Mr. and Mrs. L. B. Townsend and Mr. and Mrs. Tom Harris.

## Bridges Deported as Alien

Harry Bridges, Pacific coast longshore leader, who was ordered deported to Australia by Attorney General Francis Biddle as a dangerous alien communist. Bridges, who is an Australian, had led some of the most violent strikes the country has known. He is shown in San Francisco during his hearing before the Tenney committee on un-American activities.

## Improved Grassland Under AAA Program Boosts Production

COLLEGE STATION — Texas ranchmen have been getting ready for just such an emergency as 1942 presents.

With ranchmen and farmers engaged in the biggest food and feed production job in history as their part in total war, grassland which has been restored to former grazing capacity will pay off in livestock production this year, declares Howard Kingsbery, state AAA committeeman and ranchman from Santa Anna.

Practices carried out most extensively under the 1941 range conservation program, as in former years, include contour furrowing, deferred grazing, and eradication of noxious plants.

Cooperation under last year's program, 7,304 Texas ranchmen cleared 1,671,155 acres of prickly pear, cedar, mesquite, and lechuguilla. Of the total acreage from which noxious plants were cleared, 1,147,590 represented prickly pear while 381,548 represented cedar.

Approximately 282,483,971 feet of furrows, and spreader terraces were constructed. Object of these practices is to control water and keep it out of creeks and gullies, catch grass seed which otherwise would be lost, and help prevent erosion.

More than 4,689,638 acres were devoted to natural and artificial reseeding while approximately 11,470,224 cubic yards of dirt were used in construction of spreader dams and earthen tanks on 3,378 ranches.

Resume of 1941 range program indicates 13,895 Texas ranchmen signed 62,462,290 acres under the program. Approximately \$3,695,366 were paid cooperators to offset heavy investments made in rebuilding grassland, Kingsbery said.

## Careful Use Of Farm Trucks Urged By USDA War Board

COLLEGE STATION — Although farm trucks are exempt under recent ODT orders restricting truck shipments, Texas farmers are urged by the State USDA War Board to abide by the spirit of the orders in so far as possible.

Farm products must get to the markets if American Agriculture is going to supply the needs of her own people as well as the needs of her Allies, B. F. Vance, board chairman, declared this week. Vance explained that it would be impractical in most cases for farmers to carry a return load of 75 per cent after carrying produce to market, but he said many unnecessary trips could be avoided by hauling orders for neighbors who might need something in town.

"We urge that farmers make the fullest possible use of their trucking facilities," the board chairman said. "They should eliminate all unnecessary driving and should follow all rules for conservation of equipment, especially tires." Vance warned that unless farmers voluntarily restricted the use of their trucks to the minimum necessary or extension of compulsory restriction to agriculture might be necessary.

Plans must be worked out in each community and county to obtain the greatest use of available farm trucking facilities, Vance said, including pooling of facilities and elimination of duplicating trips.

The USDA official emphasized that few new trucks would be available in the future and that best possible care must be taken of equipment on hand.

## STOVE PLANS FORMED

A plan for production of domestic cooking and heating stoves to meet essential civilian needs and at the same time release the facilities of the larger manufacturing companies for war work has been put into operation by the War Production Board. A limited number of stoves will be produced by the smaller manufacturers, while larger producers halt manufacture on July 31.

## USE OF ZIPPERS ALLOWED

Continued use of zippers fabricated prior to April 1 is permitted in a recent amendment to WPB's zipper limitation order, affecting various garments and articles such as swim suits, corsets, luggage, pocketbooks, sports jackets, overshoes and furniture slip covers. Supplies of copper, steel and zinc for manufacture of slide fasteners to be used in these articles was cut off by the WPB on April 1.

## Love Leads Way

Mrs. Henry Fecht of Chicago refused to believe that her son, James, was lost at sea, as she had been informed. Aided by the USO, she found him in a San Francisco hospital recovering from a shrapnel wound in the back.

## MORE BOTTLES, JARS— BUT THINNER

Orders that will result in thinner and less fancy glass containers, and an estimated increase in production of 30 per cent, have been issued by the War Production Board. Standardizing of certain glass container sizes and weights, by making possible greater production with the same machinery, is expected to help meet the shortage of tin cans and other metal containers.

Aerial photographs are being used to reveal defects in the fire drill precautions in shipyards, aircraft factories, and other war plants on the West Coast. Some of these pictures have divulged workers stopping to peek in windows to see whether there really was a fire.

Dehydrated vegetables have only about one-fifth the weight of fresh vegetable and for that reason can be shipped more easily under war conditions.

## SELF-POLICING ON SUGAR

Persons to whom War Ration Books were not issued during the recent registration because they had excess supplies of sugar are urged to police their own use of sugar by Max L. McCullough, region OPA administrator. No ration books will be issued to such persons until a sufficient number of ration periods have elapsed during which they might have purchased an amount of sugar equal to the excess they registered.

## SCRAP MUST MOVE

Scrap metals must be moved promptly from dealers' yards, or the government may be forced to request steel mills to buy scrap direct and prepare it for the furnaces in their own yards, WPB's Bureau of Industrial Conservation has warned. Salvage metals are piling up in dealers' yards as a result of the nationwide "Get in the Scrap" campaign, but some dealers have been lax in handling the increasing volume, officials pointed out.

## PRICE WARNING ISSUED

A warning that ignorance of the price control law will not be accepted as an excuse for violations, addressed specifically to the meat industry in the Southwest, also is applicable to others who must operate under price control, Max L. McCullough, region OPA administrator, said.

Industrial research men are making an intensive study of phosphorescent materials for blackout lighting. Phosphorescent paint will store up energy while lights are shining, and then will glow when the lights go off. In that way such paint will help plant workers to find their way about in a sudden blackout.

### Game Department's War On Golden Eagles Resulted In Marked Increase In Stock Of Game Animals In Trans-Pecos Region

AUSTIN—A marked increase in the number of several prized game animals of the Trans-Pecos region as the result of control of the devastating golden eagle and other predators, was reported today to the Game Department by Wardens stationed in that desert country.

Game Wardens who have been thinning out the over-abundant eagles since the Legislature last year placed it on the unprotected list of Texas birds have been assisted by many landowners, sportsmen and other interested conservationists.

As a result antelope, mule deer, and Bighorn Mountain sheep have picked up in numbers since there are fewer eagles to devour their young.

The Executive Secretary of the Department emphasized that there was no intention of utterly destroying all golden eagles even if it were possible, but that it was practical to kill some of them, even several thousand, in an effort to attempt to restore a balance of nature that would permit all species to live in relative harmony.

Golden eagles are native to the Trans-Pecos country but are not found elsewhere in Texas. Occasionally a bald eagle, bird symbol of the United States, is found in those parts and also in the Panhandle-Plains area, but not often. The bald eagle is definitely protected by law, but the golden eagle is not and may be killed at any time.

The golden eagles attain great size, the average wing-spread being seven and one-half feet and they have powerful talons and a habit, now duplicated in modern war, of "dive-bombing."

Their usual method of destroying game, say veteran Trans-Pecos game wardens, is to fly up about 3,000 feet, spot newly-born or very young antelope, mule deer, or other animals, fold their wings and dive upon the unsuspecting game, clutching the young in their talons and soaring aloft to some craggy retreat to enjoy a good meal.

Thousands of young antelope, mule deer and mountain sheep have been thus destroyed.

With the Game Department already engaged in an extensive antelope restocking program in the Trans-Pecos and with efforts being made to restore the mule deer and mountain sheep, the eagle control program is believed to fit well into the desert country game rehabilitation picture.

Of late one Game Warden and a pilot have been shooting the eagles from an airplane, and several hundred have been brought down. It is unlawful to shoot any game bird from an airplane, but since the golden eagle is no longer protected it is not a game bird and hence this airplane hunting is legal. The warden kills the eagles with a shotgun loaded with BB shot. To date he has 400 flying hours to his credit.

credit an eagle hunts, with a record of one eagle per hour. Largely because of the control of this bird, Brewster County has fall should have an antelope population of about 800, compared to the present 550; Presidio County should have about 700 antelope compared to the present 400, and other counties in the antelope range should show a comparable increase, the warden said.

### Side Glances on Texas History

By Charles O. Huckler  
University of Texas Library

#### PRaise FOR TEXAS INDIANS

Although some writers seem to have thought the Indians of Texas unusually savage, at least one traveler during the period of the American Revolution considered their behavior "very decent."

During the course of a five-year trip around the world, a Monsieur De Pages, captain in the French Navy and corresponding member of the Paris Academy of Science, visited Texas, and traveled to San Antonio and then across the Rio Grande into Mexico. A copy of his account of this trip, "Travels Round the World," written in the years 1767-1771, is contained in the Texas collection in the University of Texas Library.

The Indians, De Pages wrote, made a display of horsemanship for the benefit of the party in which he was traveling, which was headed by a Spanish governor.

"It is but doing them justice to say that the most noble and graceful object I have ever seen was one of those savages mounted and running at full speed," he wrote. "The broad Herculean trunk of his body, his gun leaning over the left arm, and his plaid or blanket thrown carelessly across his naked shoulders and streaming in the wind, was such an appearance as I could only compare to some of the finest equestrian statues of antiquity."

The Indian women, the traveler declared, were very modest and resented "our too inquisitive regard."

#### TRAVELER DOUBTS VALUE OF MISSIONARY EFFORTS

De Pages found little to praise in the enterprises of four mission stations which he found near San Antonio. He described the missions as each containing two or three Franciscan monks and a group of Indians, captured in war, on whom the missionaries had conferred marriage and baptism.

The Indians received some education and maintenance in the mission, but De Pages regarded the rules of conduct set down by the monks, and particularly their method of enforcement, as unduly harsh.

The Frenchman further described the way in which the savages were induced to live in the missions. In battles with Indians still

### Trainees Learn What Makes a Ship 'Tick'

From the mountains and the plains young Americans come down to the sea at Port Huene, Calif., to answer the call for immediate expansion of the U. S. merchant marine. Here at the new, spacious Maritime Service Training station nearly 300 trainees are going through the streamlined three-months process of becoming seamen. At left they are shown learning to operate a 5-inch gun. Right: Lieut. Jr. Grade G. A. Painter instructs his class in boat engineering.

### Sale Of Domestic Refrigerators To Be Halted June 15

Effective June 15, sales of domestic mechanical refrigerators by manufacturers and distributors will be limited for the duration of the war to fill orders for the armed services, the Panama Canal, or upon a certificate to transfer issued by WPE's Director of Industry Operations.

This reminder of the effective date of WPE's plan for withdrawal of refrigerators from stocks frozen since February 14 was issued today by Mr. Carl Pool, San Antonio district manager of the WPE priorities field service.

"This order does not affect the right of retailers to sell all do-

using bows and arrows as weapons, the better-armed Spaniards would capture prisoners, bind them hand and foot, and carry them to one of the missions.

#### INDIANS MORE TRUST-WORTHY THAN SPANIARDS

It was perhaps typical of a French traveler to regard Spanish colonial administration—particularly of a province once claimed by France—with suspicion and criticism.

De Page's account of his sojourn in Texas is full of references to the cruelty and unfairness of the Spaniards. In San Antonio, he relates, he lived in the home of an Indian and became close friends with him, even seriously considering settling down and marrying one of the Indian's daughters.

The Frenchman concluded that he had in his Texas travels found proof of his contention that a man's honesty was in direct proportion to his birth, education, and environment. "Innocent and ingenuous manners diminish progressively from the native of the woods to the villager, Indian, Creole, and Spaniard, the last of whom is the least friendly and sociable of the whole," De Pages declared.

### What You Buy With WAR BONDS

The 155-millimeter gun is the modern version of the old "GPF" of World War I days. It has a range fifty percent greater than the old gun, heaving a 95-pound projectile approximately 15 miles. It is capable of high road speed and each one costs \$50,000.

Arsenals of America are working at terrific speed turning out this long range, effective weapon for our armed forces. You and your neighbor working hand-in-hand in unity can make possible the purchase of an adequate number of these guns by buying War Bonds. Put 10 percent of your income in War Bonds to help reach your county quota, every pay day.

### Use Of Worn-Out Tires As Reliners, Boots Illegal

Junk dealers and others who are using worn-out tires for anything except scrap rubber are violating priority orders, Mr. Carl Pool, San Antonio WPE priorities field manager, said today.

Mr. Carl Pool issued a warning that reported practices of junk dealers who are making tire reliners, boots, etc., from wornout casings and tubes are strict violations.

"Worn-out tires no longer fit for service on cars and trucks are scrap rubber, and all portions of the tires are so considered," Mr. Carl Pool said. "Such old tires cannot be made into reliners or put to any other uses except a scrap rubber reclamation. If anyone makes illegal use of such scrap rubber, casings, carcasses, and tubes, he is violating a federal law and is subject to prosecution."

#### BICYCLES GIVEN PLANT

Consolidated Aircraft Corp. of Fort Worth is one of several war production plants to which bicycles have been released by OPA in advance of rationing. Consolidated Aircraft received permission to buy 250 bicycles, needed for transportation of workers and for messenger service. Plans for rationing of adults' bicycles by OPA may be announced soon, but for the present all retail sales are frozen.

#### ANTI-FREEZE QUOTAS SET

Production of anti-freeze by quota is provided in a new order issued by the WPE Division of Industry Operations. Quotas, which have not yet been set, are expected to approximate 50 per cent of the amount sold by each producer last year. The amount of anti-freeze permitted by the order is expected to meet requirements of the shrinking number of motor cars in operation next winter.

One of the Southern silk throwing plants, idle since the freezing of silk stocks, is being converted to shell manufacturing.

#### SOME FISHIN'

Fishing below Marble Falls lake was so good over the week-end it kept the anglers busy. More than 150 big catfish and many game fish such as bass and crappie were hauled out, the game warden in that territory reported.

"I told you that our friends hadn't forgotten us... all we needed was the TELEPHONE"

The telephone is often the difference between loneliness and popularity, between idleness and employment. When friends cannot telephone you, they frequently don't reach you at all. Business trails no man to offer him opportunity... he must be available the moment he is wanted. For only a few cents a day you can get in line for your share of opportunity, enjoy more frequent association with friends who want you with them. Order your telephone today.

And Remember This There Has Never Been A Better Time To Re-Discover Your Home Town Merchants". It also includes a section for 'What You Buy With WAR BONDS' and a small image of a gun. At the bottom, it says 'Watch For The Offerings Of Your Favorite Stores... In THE OZONA STOCKMAN'.

**NEWS OF OUR FIGHTING MEN**

A letter comes from Pfc. L. D. Kirby, who is in the Finance Office at Camp Callan, Calif.

"I have been meaning to drop a line or two for some time, but just like a lot of other things, I have put it off," L. D. writes.

"Receiving the old 'truth speller' is just like receiving money from home and not asking for it. It is absolutely the nicest thing that you could be doing for the boys, and I certainly appreciate it, and I am sure the rest of the boys do also.

"How about printing a list of the boys with their names and addresses who are in the service. A lot of us may be close together and not even know it.

"It seems I am doomed to be in the Finance circles the rest of my life. At the present time, I am in the Finance office here at the camp, have a swell job and am having a pretty fair time.

"Give my regards to the boys, and thanks a million for the paper."

Unfortunately, we do not have all of the boys' addresses. But here are a few as starters—others will be printed next week. Will the families of the boys in service help us by supplying these addresses where available:

- L. B. Hoover, 2nd Sign. 2nd Div., Ft. Sam Houston, Texas.
- Walter D. (Dumpy) Puckett, 317 Tech. Sch. Sq., Sheppard Field, Texas.
- Preston V. Brown, 5th Photo Sq., Godman Fld., Ft. Knox, Ky.
- E. D. (Bud) Kincaid, B-18-3, AF, RTC, Ft. Knox, Ky.
- Elmo E. Berman, PO 26, Sect. K., Billet 326, USNTS, Chicago, Ill.
- Dennis F. Coates, Btry. D., 203rd F. A., Camp Shelby, Miss.
- R. B. Pridemore, Will Rogers Fld. Tent City, Oklahoma City, Okla.
- Max Schneemann, Jr., Tr. A., 115 Cav., APO 309, Ft. Lewis, Wash.

**POLITICAL ANNOUNCEMENTS**

The Stockman is authorized to announce the following candidates for political offices, subject to action of the Democratic primaries:

- For Sheriff, Assessor and Collector of Taxes:**
  - R. E. McWILLIAMS
  - FRANK JAMES
  - MIKE COUCH
  - ROSCOE COATES
- For County Treasurer:**
  - TOM CASBEER (Re-election)
- For County and District Clerk:**
  - GEORGE RUSSELL (Re-election)
- For District Attorney, 112th Judicial District:**
  - HART JOHNSON, Ft. Stockton
  - CALLAN GRAHAM, Junction
- For Justice of the Peace, Prec. 1:**
  - SAM HOUSTON
- For Commissioner, Precinct 1:**
  - ROB MILLER (Re-election)
- For Commissioner, Precinct 2:**
  - CHAS. BLACK (Re-election)
- For Commissioner, Precinct 3:**
  - J. W. OWENS (Re-election)
- For Commissioner, Precinct 4:**
  - E. R. KINSER (Re-election)
  - T. A. KINCAID, JR.

"Private first class" is the new rank of Max Schneemann, Jr., and Bud Coates.

**Behind The Scenes In American Business**

By John Craddock

**NEW YORK, June 8 — HALF ANNIVERSARY**—At this half-year point in the global war, a general "communiqué" on the U. S. economic front would sum things up something like this: Uncle Sam has settled into a reasonably steady stride, with war industrial production running well on schedule, surpassing all but the most widely-optimistic forecasts; civilian trade has slowed down greatly, the result of a three-way pressure—(1) war bonds and stamps are taking an ever-larger share of income, (2) present and future taxes discourage spending, and (3) the gradual disappearance or unavailability of many major articles of purchase. . . . Of course, we must anticipate still more drastic changes, even on the business front—more pinchings of priorities, more rationings, more taxes, more substitutions. . . . But a principal—if rather intangible—development is that at least the American people by now have reached the point where they have a fairly good idea of what to expect in the way of war's economic kickbacks.

**BITS O' BUSINESS**—Total industrial production is running about one and three-quarters times the 1935-39 average. . . . The nation's two largest steel mills, the Gary and South Chicago plants of Carnegie-Illinois, hit new all-time high for blast furnace and steel output in May. . . . Devoe and Reynolds, the paint concern, has launched a nation-wide campaign to bring in old paint brushes for reclaiming—because no more pig bristles for that use are coming from the Orient. . . . Here's a find-

ing by the National Industrial Conference Board that surely reflects a basic condition of the times: Analysis of the income statements of 270 corporations showed that corporate profits in the first quarter, before taxes, averaged 29 per cent ahead of the 1941 figures—but after reserves for taxes, they averaged 25 per cent below!

**"INITIAL" HONORS**—A top-notch American business man who has had a bountiful share of "initials" associated with his name got a new one the other day when the University of Michigan conferred an LL.D. (doctor of laws) upon John D. Biggers for "unselfish interest in programs of government and active devotion to public affairs." He's president of Libbey-Owens-Ford Glass company and the citation mentioned his work in OPM and as minister to London for the SPAB, in addition to that as director of USCU (United States Census of Unemployed), which he conducted in the mid-30's.

**VOLUNTEERS SOUGHT TO ASSIST REGISTRANTS**

Volunteers who will assist local registrants in filling out Selective Service occupational questionnaires are being sought by the local draft board. A large number of these questionnaires are soon to be mailed and persons who will consent to assist registrants in completing forms are asked to communicate with some member of the board or the clerk, Mrs. Coralie Meinecke.

Gussie Ruth Sparks, daughter of Mr. and Mrs. J. A. Sparks, is spending the week with her cousin, Madylon Doran, on the Joe Blake-ney ranch.

Elam Dudley spent last week in San Angelo visiting his grand daughter, Mrs. Bill Littleton and family.

All typewriter production will end early next autumn when enough typewriters will have been made to take care of army and navy needs for two full years.

Mr. and Mrs. Tommie Harris of Clarendon visited their parents, Mr. and Mrs. Tom Harris and Mr. and Mrs. Roy Parker. They returned to Clarendon Wednesday. Mrs. Harris is to return to Ozona Friday and stay with her parents while Mr. Harris is in officer's training school.

LESTER BOONE

Pledging himself to "an all-out war effort," Lester Boone, Fort Worth Representative, has formally announced his candidacy for the Texas Railroad Commission, and called attention to the fact that it was one of Texas' most vital factors in the war effort. He further pledged in his announcement to attend all commission meetings.

Boone, who is now serving in the Texas Legislature from Fort Worth, sponsored the Omnibus Tax Bill which made possible the payment of old age pensions, teachers' retirement pay, aid to the blind, and aid to crippled and dependent children. As a member of the House Military Affairs Committee, he aided in the passage of the Texas Defense Guard Bill, which became a law, thereby giving Texas greater security in the present crisis.

"I pledge an administration of harmony and will cooperate with other members of the commission," Boone said in his announcement. "I pledge myself to an all-out war effort in this vital department of State Government and will attend all commission meetings."
