Johnson Beats Graham For Dist. Attorney Post

Ft. Stockton Man Is Winner By 462 Votes In 5-County Dist.

Hart Johnson, Fort Stockton attorney, emerged winner in Saturday's primary by 462 votes in a closely contested race for district attorney of the 112th judicial district, over Callan Graham, Junction, holding the position since the first of the year through appointment by Gov. Coke Stevenson to succeed Weaver Baker. The district vote was 3,373 for Johnson and 2,911 for Graham.

While Graham carried three of the five counties, his home county and the two mid-district counties of Sutton and Crockett, this advantage was not sufficient to overcome the lead of the Fort Stockton man in the larger voting counties of Pecos and Upton. Johnson carried the two larger counties by wide margins.

Pecos County polled a total of 2,061 votes for the largest total of the five counties. Of this number of home-county voters, Johnson polled 1,709 to Graham's 552. Kimp county, on the other hand, went strong for its own in the race, Graham gathering 1,154 to 71 for his opponent.

Crockett County gave Graham a 36 vote margin, 316 to 250 for Johnson. Sutton county was much stronger for the Junction candidate, piling up a total count of 465 for Graham to 188 for Johnson. Upton county went for Johnson 735 to 378 for Graham.

Two Selectees Fill Call For July 25

Two selectees, both transferred to other boards for induction were called by Crockett County local board for induction to fill its call of July 25.

Morris Talley, former bank clerk here, was transferred for induction from Natchitoches, La., and Jose Angel Samaniego will be sent from Del Rio.

Moore, Olson To Drill On Half

Notice of intention to drill another wildcat test on the H. M. Half estate in western Crockett County has been filed by John I. and P. D. Moore and Olson Oil Co., all of Midland. The test will be 660 feet from the north and east lines of section 55-1-I&GN survey. It will be about 3 1/2 miles west of the north end of the Clara Couch pool.

The test is scheduled to go 2,500 feet with cable tools.

County May Fall Short Of July Bond Quota Sales Lack Approximately \$9,000 Of Month's Objective

With only two more days to go in the month, Crockett County seems destined to fall short of its July War Bonds quota by some \$9,000 unless some heavy purchases are made in the final days of the month.

Reports yesterday from Scott Peters, county war bond sales chairman, indicated total sales at the Ozona National Bank of \$17,000, with a little over \$500 in bond sales for the month through the postoffice.

The county's July quota was set at \$26,500 in the Treasury department's enlarged July sale program of a billion dollars for the month. This county's quota was more than double that for the previous month.

If Crockett county falls under its July quota, it will be the first such failure for this year. The county has heretofore gone well over the top each month and is consistently maintaining its monthly average to reach the year's assigned quota of \$300,000.

Greetings to Leader of 'Fighting French'

Gen. Charles De Gaulle, left, leader of the "Fighting French" (formerly the Free French) shakes the hand of Lieut. Gen. D. D. Eisenhower, U. S. commander for the European theater on the celebration of Bastille day in London. Adm. H. R. Stark, commander of the U. S. naval forces in European waters (center) looks on.

DISTRICT ATTORNEY — Hart Johnson, Fort Stockton attorney, won the Democratic nomination for district attorney, 112th district, in Saturday's primary over Callan Graham of Junction.

R. E. Thomason Gets 'Vote Of Confidence' In Saturday Primary

Congressman R. E. Thomason of El Paso received a thumping "vote of confidence" in Saturday's primary election when he was opposed for the 16th district congressional seat by Louis A. Fail of El Paso.

Incomplete returns from seventeen counties early in the week showed Thomason with a total of 20,995 to 2,818 for Fail. Crockett County gave Thomason 438 to 39 for Fail.

Congressman Thomason remained at his post in Washington during the campaign period and did not take time off to visit his constituency or to campaign in person. He is a member of the important House military affairs committee and a consistent backer of the all-out war program of the United States.

Late C. V. Terrell Still Is Candidate Of Crockett Voter

What's in a name? Well, if it's Terrell it's in politics in Texas—even unto death and beyond.

The late C. V. Terrell, long a political figure in Texas, whose death occurred several years ago, is still the candidate of one Crockett County voter. Out of the long list of candidates for railroad commissioner of Texas, listed on the first primary ballot last Saturday, this voter could not find the name Terrell—and from its persistence in recent years, he expected to find one—and finding none he scratched all of them and wrote in the name of C. V. Terrell.

COUNTY RETURNS ON P. 8

Complete returns of the vote in Crockett County by boxes will be found on page 8 of this issue of The Stockman.

Abandon Church Building Plans For The Duration

WPB Turns Down Architect's Application For Priority

Construction of a new Methodist Church in Ozona to replace the building destroyed by fire here on March 8 must be deferred until the end of the war emergency.

This is the ruling of the War Production Board on an application for priority rating covering reconstruction of the building filed with the WPB by Haynes & Strange, Lubbock firm of architects employed by the congregation.

The ruling, as relayed by the architects, was placed before the church board and building committee at a meeting Tuesday night.

The WPB letter announcing the decision, signed by George Blowers, chief projects and items branch, for Maury Maverick, chief Bureau of Governmental Requirements, and addressed to Haynes and Strange at Lubbock, is as follows:

"This will acknowledge receipt of your application for priority rating covering the reconstruction of a church destroyed by fire. The War Production Board has carefully reviewed your application. We regret to inform you no rating can be recommended for the following reasons:

"We assume this congregation is at present housed in temporary facilities. Although not adequate, every effort should be made to use these temporary facilities for the duration of the war emergency.

"Only in case of utmost urgency are priority ratings given as every effort must be made to conserve critical materials for the use of our armed forces.

"A blanket rating such as you request can not be issued under any conditions. It is indeed unfortunate that this calamity should come to this church at this time.

"We recommend the construction of this church be deferred to the period of the war emergency. Your application is being placed in the closed files."

Burglar Failed To Gain Entry To Cafe

Investigation by local officers into the reported attempted burglary last week of the Laura Butler Cafe has led to the conclusion that the would-be intruders failed to gain entry into the cafe. A check-up of stock failed to disclose any loss.

A window screen in the cafe kitchen was cut out but condition of the window indicated that no actual entry was effected.

Mr. and Mrs. Morris Miller of Fluvanna, Texas, are here this week for a visit.

O'Daniel Must Run First Run-Off Race Against J. V. Allred

W. Lee O'Daniel was forced into the first run-off of his meteoric political career in Texas last Saturday when he failed by over 30,000 votes to poll as many votes as the combined total of his three opponents, James V. (Jimmy) Allred, who quit a federal judgeship to campaign against O'Daniel for the Senate seat, will oppose the former flour salesman in the August run-off.

Another run-off was indicated in the race for state treasurer, the incumbent, Jesse James falling short by a bare margin of a win without a run-off. He will be opposed in the next campaign by W. Gregory Hatcher. John Lee Smith and Harold Beck were high in the race for lieutenant governor and will enter the run-off. Beauford Jester of Corsicana and Pierce Brooks of Dallas will enter the run-off for the unexpired term on the railroad commission.

Governor Coke Stevenson was renominated by a wide margin over a field of five, including Hal Collins of Mineral Wells, George H. Sheppard, Comptroller of Public Accounts; Bascom Giles, State land commissioner; Gerald C. Mann, attorney general; L. A. Woods, state superintendent; J. E. McDonald, commissioner of agriculture; Ernest O. Thompson, railroad commissioner; Harry N. Graves, Court of Criminal Appeals, all won renomination to their respective offices.

Ozona Teachers Attend Reading Clinic

Mr. and Mrs. C. S. Denham and Miss Georgia Williams were Ozona teachers who attended a reading clinic sponsored by Texas Tech at Lubbock five days last week.

The clinic provided daily lectures, demonstration teaching, discussion groups, laboratory practice and special lectures, a complete survey of the whole field of reading from kindergarten through high school. Topics developed during the five-day course included the function of reading in the modern school, preparation of children for reading study, best methods of teaching reading, learning to use books effectively, diagnosis of reading difficulties by the teacher, and techniques for a remedial program.

The clinic was directed by Dr. and Mrs. W. B. Townsend of California, both authorities in the field of elementary education.

Weekly Sing-Song Series Planned By Organizations

Combined Clubs Committee Meets Friday To Plan Program

With a view to organization for a series of weekly Community Sing-Songs in Ozona for the balance of the summer, representatives from the various organizations of the town will form a planning committee in a meeting to be held at 5:30 Friday afternoon at the Ozona National Bank.

Initiated by the Ozona Music Club, the Sing-Song will be sponsored by the combined representatives from all of the organized groups of the city, including the Rotary Club, women's clubs, missionary groups, pastors of the churches and all others interested in the projected program.

It is planned to hold the weekly sing songs in the high school auditorium, possibly each Friday night, with song leaders selected by the committee. Singing will include old time numbers, war songs of 1917-18 and 1942, patriotic and folk songs.

CARL WILSON INDUCTED

Carl Wilson, colored, porter at Hotel Ozona for the past several years, filled Crockett County's call for one colored selectee for induction this month. Wilson was transferred to Georgetown for induction from that board.

R. E. McWilliams And Frank James Face Each Other In August Run-Off Primary For Post Of Crockett County Sheriff

Kincaid Wins Nomination For Commissioner From Precinct 4; Johnigan Retains Post Of Justice Of Peace, Prec. 1

R. E. McWilliams and Frank James are bracketed for the second act of one of the most spirited county political campaigns in a number of years as they go into a run-off campaign seeking the Democratic nomination at the hands of voters for the office of sheriff, assessor and collector of taxes for Crockett County.

When the balloting in the first primary was completed Saturday, these two candidates out of a field of four seeking the post, held

Voters To Pass On Five Changes In Constitution

Proposals To Be Submitted To People In General Election

Voters of Texas will pass on five proposals to change the Constitution of the state at the general election in November this year, the changes ranging from constitutional authorization of payment of a \$75,000 obligation of the John Tarleton Agricultural College to a highly important amendment to put the state on a cash basis through a bond issue to wipe out the general fund deficit and require the legislature in the future to keep appropriations within the limits of expected revenue.

Texts of the five proposed Constitutional amendments, which under the constitution are required to be published in every county of the state, appear in the first publication in this county on page seven of this issue of The Stockman. Voters are invited to make careful study of the proposals for an intelligent vote in the November election.

Perhaps the most important of the five proposed amendments is that relating to the fiscal policy of the state. This amendment, House Joint Resolution No. 1, proposes a new section to Article III of the Constitution "requiring all bills passed by the Legislature on or after January 1, 1945, appropriating money for any purpose, to be sent to the Comptroller of Public Accounts for his approval, and fixing the duties of the Comptroller with reference thereto."

The amendment would further authorize the legislature to provide for the issuance, sale and retirement of serial bonds, equal in principal to the total outstanding obligations owing by the general revenue fund as of September 1, 1943, and bearing interest at the rate of 2 per cent and maturing in 20 years.

This amendment would require the Comptroller of Public Accounts to prepare in advance of each regular session of the Legislature for submission to the governor and the legislature a statement showing the financial condition of the State Treasury and an estimate of probable receipts and disbursements for the then fiscal year. The amendment would also forbid the legislature to pass appropriation bills in excess of the cash and anticipated revenue, "save in the case of emergency and imperative public necessity, and with a four-fifths vote of the total membership of each House."

House Joint Resolution No. 23 would amend the same article to authorize the lending of two million dollars of the permanent school fund for the construction of a State office building or buildings in the city of Austin. The financing would be accomplished by a state bond issue of two million dollars to be sold to the permanent school fund.

Another amendment, Senate Joint Resolution No. 20 would authorize accounting officers of this state to draw and pay warrants for salaries to officers of the United States Army, Navy or Marine Corps who are assigned to duties (Continued on Last Page)

the lead, eliminating Roscoe Coates and M. C. Couch from the running. The sheriff's race will be the only local contest in the run-off primary, and by reason of this race, Crockett County is expected to turn in a record run-off total vote in the August primary.

McWilliams held a 75-vote lead over James in the county total, with 131 votes to Coates and Couch which are the prize in the coming run-off scramble, according to unofficial totals tabulated by Houston Smith, county Democratic Chairman this morning. McWilliams polled a total of 288 votes to 213 for James. Roscoe Coates got 120 and M. C. Couch 11.

W. Lee O'Daniel did it again in this county, carrying the county by a plurality of eight votes over the total polled by Dan Moody, second man in this county. James V. Allred was in third place with 170 votes.

Governor Coke Stevenson was given a rousing vote of 527 to 88 for all of his five opponents, of which Hal Collins polled 80. Boyce House, who failed to make it into the run-off, was the local favorite for Lieutenant Governor, polling 139 to 101 for Vernon Lemens, his nearest opponent. Of the two candidates in the run-off, Harold Beck got 51 and John Lee Smith 24.

W. M. Johnigan was an easy victor over Sam Houston in the race for justice of the peace, Precinct 1. Johnigan's vote was 312 to 114 for Houston.

A new county commissioner from Precinct 4 loomed with nomination by voters in that precinct of T. A. Kincaid, Jr., over the incumbent, E. R. Kinser. Kincaid polled a total of 26 votes to 21 for Kinser, a neck-and-neck battle that saw a count of 26 to 1 for Kincaid in the Howard Well Box and a sweeping 20 to 0 for Kinser in the Kinser ranch box.

Callan Graham, incumbent district attorney of the 112th district, led the district winner, Hart Johnson, in this county 322 to 270.

R. E. Thomason, 16th district Congressman, was given a vote of 489 to only 39 polled by his opponent, Louis A. Fail of El Paso.

Names of several write-in candidates for the various offices appeared in scattered numbers in the tally lists. For the office of county judge, Houston Smith and C. C. Montgomery each received one vote and for the office of commissioner from precinct 1, P. L. Childress received one vote and W. E. Friend, Jr., two. Houston Smith, present county Democratic chairman, was renamed to that post via the write-in method with 42 votes. Others written in for the chairman post were Early Bargett, Chas. Black, Jr., with one each and N. W. Graham and John Bailey with two each. The following precinct chairmen, whose names appeared on the ballot, were elected: Prec. 4, John Bailey; Prec. 2, Charley Black, Jr.; Prec. 3, Jeff Owens; Prec. 4, Watt Turner; Prec. 5, Marshall Montgomery; Prec. 6, R. A. Williams; Prec. 7, Peery Holmesley.

GRASS FIRE HALTED

Ozona's fire engines made a quick run to a small grass fire which started from the highway on the Clayton ranch east of town Wednesday afternoon. The grass fire, one of the greatest menaces to dry range lands in this area this summer, was snuffed out here but a small area burned.

THURSDAY, JULY 30, 1942

"IN THE NAME OF DECENCY" . . .

In connection with the record-breaking \$42,820,000,000 Army supply bill, Senator Charles L. McNary of Oregon took a stand that should receive public commendation.

The Senator objected to being required to pass on such an important measure on virtually an hours notice. "I don't question the amounts. I am interested in a display of judgment. This is just pushing members of the Senate around. We ought to have at least one day to consider this bill—a sum bigger than the cost of the last war, a sum which a few months ago was considered by many as bigger than a safe limit on the public debt."

Senator McNary is to be commended for asking "a display of calmness and judgment," instead of blindly waving the flag to cloak unnecessary, hasty action on matters so vital to the nation.

IDENTIFICATION . . .

Such as it has been, the resistance to universal fingerprinting is further weakened by the arrest of the eight Nazi saboteurs. The opposition never has been impressive, and an America Speaks poll shows 72 of each 100 canvassed in favor of a requirement that every person in this country carry an identification card, containing, among other things, his picture and fingerprints.

KITCHEN SOLDIERS . . .

We used to take a sort of pride in being the most wasteful people on earth. As the war progresses the pride decreases. We're becoming waste-conscious. Tin cans, scrap iron, old rubber, discarded paper, have acquired a new significance as war shortages impend. But we've still got a long way to go. Now another item has been added—the waste kitchen fats and greases that used to go down the drain. Out of these fats can be made one of the most important of war products, the glycerine essential to the manufacture of explosives.

Those who are against it would have it appear that one sacrifices something of his freedom and privacy in being obliged to say who he is, or to file with the Government the means of identifying himself. Among savage tribes is frequently found an unwillingness to be photographed, the superstition being that part of the soul is transferred to the plate and hence lost forever to the sitter.

NOT YET, NOR SOON . . .

During the prohibition era "BYOL" (bring your own liquor) was inscribed on many invitations. With the weekly sugar ration limited to a half-pound per person, "BYOS" (bring your own sugar) may replace that earlier inscription.

ANOTHER ATROCITY . . .

Japs Edge Way Into Kiska in Aleutian Chain. — Headline. And it would be just like them to write a song called "Just a Kiska in the Dark."—Indianapolis News.

FORGING AHEAD

RUSSIA'S TENACITY . . .

Hitler started this spring with the advantage of most of the territory he had overrun in 1941. With the recapture of Kerch and the reduction of Sevastopol, he controls the Crimean approach to the Baku oil fields. As his one-time overconfidence has dwindled, his desperation has increased. He is determined to win, no matter what it costs.

RUBBER FROM ALCOHOL . . .

A recent release from the Standard Oil Company of Indiana makes an effective denial of the rumor that the oil industry is seeking to block production of artificial rubber from alcohol made from farm crops, in order to create a rubber monopoly for itself.

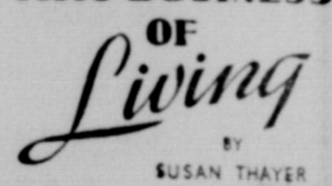

A THING OF BEAUTY . . .

To lighten the portentous news from India, we have the accompanying photo of the well-dressed Mahatma, still looking like a fugitive from a rooming-house fire.

ANOTHER BOTTLENECK . . .

Of course, Roosevelt should appoint bureau heads who know everything, but, alas, there aren't that many columnists.—Birmingham News.

THIS BUSINESS OF Living

Food For A Triple Front

America this summer is like a thrifty housewife who 'puts up' everything she can for her hungry family and in the growing season makes plans for the long, dark days of winter. Never before has the food industry of this country had such responsibility as now.

Because of these expanded needs, the food industry has buckled down to an unprecedented program of preservation and conservation. Dehydration, that efficient new method of preserving food, is going forward by leaps and bounds as great quantities of vegetables are compressed into incredibly small size in order to send them abroad in limited shipping space.

Meanwhile, new methods of packaging are being devised, as wax tin and foil and cellophane are available. Already we're getting coffee and fruits in glass jars

and lard in cardboard containers, and they say we may be offered various foods "in bulk" before the year is over.

The food industry looks to the housewife of the country for greater cooperation than ever during the present crisis. It encourages us to can all of the fruits and vegetables possible, and as an incentive is giving us various things in jars that can be used again for home canning. In addition to all of these essential wartime activities the food industry is cooperating with the government in spreading the gospel of better nutrition.

We're already restricted in the use of sugar, and more things may be rationed before the war is over. Certain imported foods are unavailable, and more will be added to this list. But out of our present difficulties are coming a better fed nation and a food industry—already known to be the best in the world—that will serve us even more efficiently and economically once the war is won.

"FIDDLING WHILE ROME BURNS" . . .

While "Rome burns" on many far-flung battle-fronts and little encouraging war news filters in through the censors, masters of political strategy "fiddle" with fugitive "wage stabilization" and "price ceilings."

On the home front furor rages over the inflation spectre which hangs over the cost of the war, our standard of living, and the ultimate value of the billions we are pouring into the war bonds. "Inflation must be curbed at all costs," say these captains of expediency; "everything possible must be done to remove its causes or control its growth."

Mr. Henderson's diluted OPA has been given a dull weapon indeed with which to clamp down price lids and police them. Wages, a major factor in price determination, are still on the loose under will-o'-the-wisp "stabilization."

Mr. Davis' pro-labor WLB wage decisions, always up, and under the new cost-of-living formula so continuing on a broad and expansive scale, now open up the whole inflation phantasmagoria to the "me-too" wage-grab contingent.

Thus we have two emergency war agencies, the OPA and the WLB, set up to control prices and speed war production, respectively, toothless and indigent in the performance of their prescribed tasks. They have, thus far, not only failed of their purpose but actually obstructed their performance thereof. And why? Because neither has the power or the weight that such vital issues require in an emergency such as we face.

The obvious and crying need is for a definite national labor policy, one upon which both labor and management can hang their hats, one upon which wages and therefore costs can be based. For until wages are known costs cannot be determined. Until costs are determined, prices cannot be properly set. Until prices are properly set they cannot be controlled. And until prices are controlled inflation cannot be prevented.

The American people want to win this war and the peace which will follow it. They are ready to

do everything within reason and to make all the necessary sacrifices to win it. Small wonder that they are becoming restive under the faltering, indecisive policies exhibited on wage-freezing as necessary in preventing inflation. Small wonder that they are fed up with political "fiddling" on the land, in the air and on the sea.

BACK YARD SABOTEURS . . .

The enormous importance of fire waste in wartime can be very simply illustrated. It is a serious loss when, in action, the enemy destroys a few United Nations tanks, planes and ships. The loss is infinitely greater, infinitely more beneficial to the enemy, if fire blocks production in the plants which make those tanks, planes and ships. This is a war of machines, a war of unprecedented production. The home front, with its producing factories, is the heart of the war effort.

Most of us have considered the grim possibility of sabotage directed against war industries. That is a definite and ever-present danger, as the recent capture of a number of enemy agents by the FBI dramatically proved. Combating sabotage is an activity which must be carried on by our law-enforcement bodies, with the full cooperation of industrial management and workers. But, while we think of sabotage, we must not lose sight of the ordinary "normal" fires which can be equally dangerous.

It doesn't make much difference whether a fire is started by a Nazi saboteur or by a careless, loyal American. Either one can be equally destructive. If fire really is to be controlled, and the gigantic waste reduced, all of a must act—must learn the lessons and take the simple precautions that will eliminate most fire hazards.

Your home isn't a war industry. But if that home is destroyed or damaged by fire it will be necessary to rebuild it with materials and labor which should be devoted to the war effort. That is true of every kind of property, whether or not it has any direct connection with war production. We must protect all property—from shack to a gigantic factory. The cumulative total of many small fires is as bad as the loss caused by a few big fires.

Length Of War Estimates Held Useless Pastime

DALLAS — Undersecretary of commerce Wayne C. Taylor warned that "one of the most useless current mental pastimes is attempting to guess how long the war will last."

"You can't establish a time table for victory, it has to be long enough to win, and the sooner the better," he declared in an address before delegates to the National Junior Chamber of Commerce convention.

He pointed out that "this war isn't a ten-round exhibition match with time out between rounds. It's a fight to the finish, with all that that implies. It will be over only when the Axis armies are defeated and disarmed."

Urging industry to make cheerfully the sacrifices entailed by war, he declared that "wars produce untold misery, unbelievable suffering, bitterness, hate — they show the depths in which human beings can sink when they organize for conquest, for domination of their fellow men. But that is not all, they also show the heights to which human beings can rise, the heights of bravery, of self-sacrifice, of truly unified effort."

War is teaching us, he said, that this nation can produce essentially for everyone and "we need not wait for victory to put these lessons to immediate and practical use. They are not theoretical reforms, they are the minimum standards which we know our country provide."

"We can now be satisfied," he added, "that our production machine is moving all right, that

Social Security Tax Must Be Paid On Casual Labor

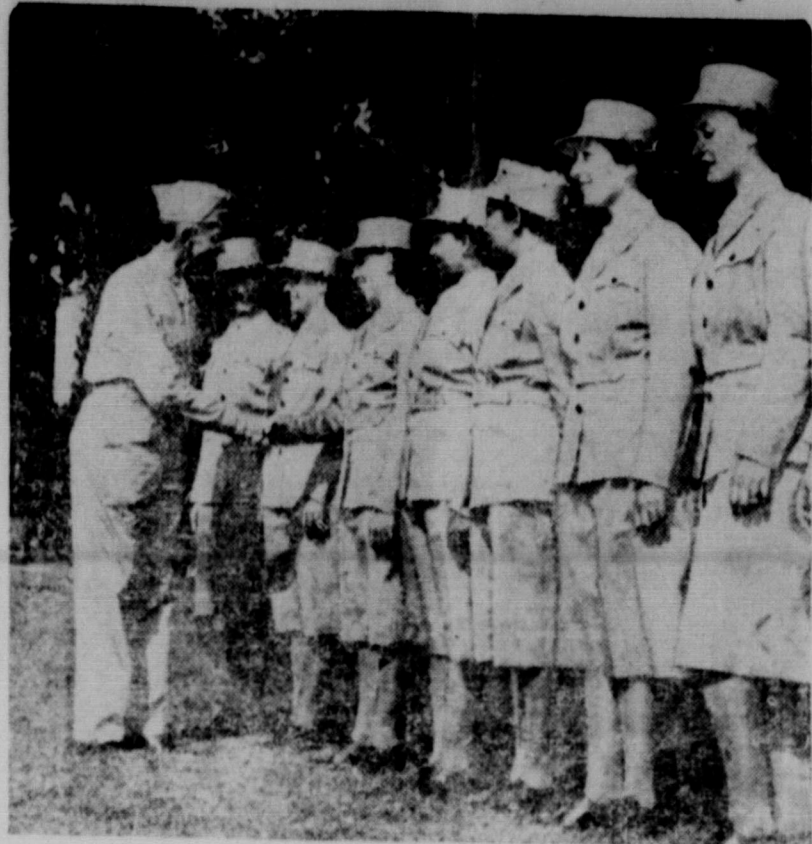

SAN ANGELO — All wages paid for services rendered, regardless of the length of time involved, should be reported on the regular quarterly Social Security tax returns, George D. Clark, manager of the San Angelo office of the Social Security Board, announced today.

The announcement was made to correct the false impression of many employers that work of a short duration need not be reported.

"Temporary, part-time, intermittent, or casual labor, which is in the course of an employer's trade or business, should be reported, even though the amount of wages involved is small," Clark said. "Employers should record the name and Social Security account number of each such worker, and the required information should be reported the same as that for regular employees who work steadily for one employer."

Clark added that night watchmen, janitors, and others who may be employed by several firms at the same time are entitled to the old-age and survivors' insurance benefits which are provided by the Social Security Act. The benefits are computed on the basis of the total wages received from all employers who are covered by the Social Security Act.

WAAC Members Welcomed to Army

The first women to receive WAAC uniforms are welcomed into the army by Col. Don C. Faith, commandant of the post at Fort Des Moines, Iowa. A total of 25,000 women will be trained at the camp—enough to release the equivalent of two divisions of men for active combat duty. Mrs. Oveta Culp Hobby is director of the WAAC.

Representative Warns Of Danger In Jap Camps

WASHINGTON — Representative Leland M. Ford (R-Calif.) declared in a statement made public Wednesday night that Japanese in the evacuation camp at Manzanar, Calif., should not be "turned loose where they could sabotage or destroy either the power lines or water system of Los Angeles."

Reporting on a visit to the Manzanar and other camps, Ford said Japanese were being permitted to work in gardens some distance from the camp buildings, "with no fence around them, and apparently no guards."

People in Owen Valley, he continued, object on the ground they didn't know whether the Japanese had escaped from the camp or were out under permit, "as no white guards accompany them."

"These people in the Owens Valley," the report continued, "don't know what could possibly happen to the aqueduct and power line and could happen to those in small communities."

"There are 9,800 people in the Japanese camps and there are only 7,500 in the whole county of Inyo. I was told that some time there might be a lot of dead Japanese found in the valley if conditions did not change."

Ford said he found a feeling that the camp was a sort of "social experiment."

"The people in this country," his report continued, "are very fearful about what might happen, were these Japanese permitted to vote in Inyo County. There would be more Japanese voters in the Manzanar Camp than in all the balance of Inyo County. If they were permitted a ballot here, they would elect a Japanese to every office in this county."

"The people in Inyo County say they will absolutely not submit to that, and in my opinion, it would be a case of civil war should that ever be attempted."

Eden, in Central West Texas, when Eaker was a boy. He attended school here from 1907 until 1912, before going to Durant, Okla., where he was graduated from high school and attended Southeastern State Teachers College. He also attended the school of journalism of the University of California.

General Eaker became a second lieutenant in infantry Oct. 26, 1917. He received flight training at Kelly Field, Texas. He became a captain July 1, 1920, and was advanced to colonel Dec. 30, 1940.

General Eaker made aviation history in 1927 on the first Pan-American good-will flight. He made headlines in 1929 as one of the pilots of the Question Mark, which established an endurance record. In 1936 he made the first blind instrument flight across the United States.

He also is co-author of two

books, This Flying Game, and Winged Warfare.

General Eaker is married but it was not known here where his wife is living. He has three brothers, Grady of Dallas, Claude of Fort Stockton, Texas, and Carl, who is an air mail pilot between Salt Lake City and Los Angeles. His mother died in 1929.

The automobile industry's orders on hand exceed \$14,000,000,-

000—a production job equivalent in materials and manpower to turning out 15,000,000 cars and trucks, or the work of three peak peacetime years.

Eaker Is Second From Ranchlands In High Position

EDEN, Texas — Brig. Gen. Ira C. Eaker, new chief of U. S. bomber forces in the European theatre, is the second son of the West Texas ranch country to gain a position high in the nation's fighting forces in World War II.

The first was Admiral Chester W. Nimitz, commander of the Pacific fleet. The Admiral is a native of Gillespie County, which adjoins Llano County where General Eaker was born Aug. 13, 1896.

Goat, sheep and cattle ranching are the main industries of the area of live oak-studded hills and spring-fed streams.

General Eaker entered the Army in 1917 from Eden where his father, Y. Y. Eaker, still resides. A letter to his father recently described a garden the general was growing in London and added, "I don't know how long I'll be in England." He went to London to serve on a liaison board to coordinate British and American war efforts.

The family moved from Llano to

ADVERTISING Is Business Insurance

Insure the volume of your sales by a program of advertising directed to acquiring new customers, and to keeping the confidence and patronage of your regular customers. Advertise your merchandise or service that your place of business will become a recognized leader and grow faster in the lines that you sell. Make friends through acquainting the general public of your desire to do business with them.

Persistent well planned newspaper advertising will bring your business to the fore as no other medium can possibly do. Even though residents here and afar have not set foot in your store for a long time they will become acquainted with your business through the use of space in this newspaper.

Your Buying Public Will Read Your Ad In This Paper

Your prospective customers read the Stockman thoroughly. It has the appeal which no hand bill tossed into your yard can possibly be expected to have. The home newspaper is read because it contains all the news of your home community. Each member of the family finds time to read the home newspaper.

It has the confidence of its readers. It is part of the community. It is anticipated, with its news of local happenings and local people. Such interest cannot help but stimulate the value of advertising.

Eugene Slater, Minister
the Methodist Church

"And hath made of one blood all nations of men for to dwell on all the face of the earth..." Acts 17:26.

"That they all may be one; as thou, Father, art in me, and I in thee, that they also may be one in us." John 17:21.

The unity of humanity is not a theory preached by sentimentalists. According to our Scriptures God made us one in the creation. Slowly and painfully man has discovered that truth, and even after its discovery, man has still lived within the boundaries set by artificial divisions.

The war presses home to every one of us in a most dreadful manner the truth of the unity of humanity. In divisiveness is sure and certain destruction. Written in large letters across the sky is the warning that unless we live together in unity we cannot live at all. People of deep insight today are saying that there is no

other force that can hold life together on our earth except the force of good will; the recognition of our unity under God; and the common effort to promote the welfare of the most backward people as well as the most cultured people of the earth. Statesmen of every nation are opening their eyes to this reality, and in their vision is our hope.

From the recent annual report of the Rockefeller Foundation comes a commentary on the truth of our unity: "Whether we wish it or not, an indelible pattern of unity has been woven into the society of mankind. There is not an area of activity in which this cannot be illustrated. An American soldier wounded on a battlefield in the Far East owes his life to the Japanese scientist, Kitasato, who isolated the germ of tetanus. A Russian soldier saved by a blood transfusion is indebted to Landsteiner, an Austrian. A German soldier is shielded from typhoid fever with the help of a Russian, Metchnikoff. A Dutch marine in the East Indies is protected from malaria because of the experiments of an Italian, Grassi; while a British aviator in North Africa escapes death from surgical infection because a Frenchman, Pasteur, and a German, Koch, elaborated a new technique. . . . In peace as well as in war we are all of us the beneficiaries of contributions to knowledge made by every nation in the world. Our children are guarded from diphtheria by what a Japanese and a German did; they are protected from smallpox by an Englishman's work; they are saved from rabies because of a Frenchman; they are cured of pellagra through the researches of an Austrian. From birth to death they are surrounded by an invisible host—the spirits of men who never thought in terms of flags and boundary lines and we never served a lesser loyalty than the welfare of mankind. . . . Ideas cannot be hedged in behind geographical barriers. Thought cannot be nationalized. . . . The things that divide us are trivial compared with the things that unite us. The foundations of a cooperative world have already been laid."

This report from the Rockefeller Foundation, the great institution created to serve humanity, is heartening. The insight of its

THE METHODIST CHURCH

Eugene Slater, Minister
Calendar of Services
Sunday School, 9:45 a. m.
Morning Worship, 11 a. m.
Evening Worship (at Baptist Church), 8:30 p. m.

Amidst a world of turbulent disorder stands the eternal order of God. We get intimations of that order in the rising and setting of the sun, the passing of the seasons, the process of birth and death and in the never-failing light and love of Jesus. It is the peculiar task of the church to try to bring its people into God's presence; that they may there lay hold on His orderliness; and then go out to serve Him with understanding and strength. The church can be really helpful to us only as we are willing to let it be so. Regular attendance at its services, prayerful preparation for worship and full participation in its total life make it possible for the church to be helpful to us. Again we urge our members and friends to enter into the life and work of the church.

U. S. Buries Enemy Seamen

Burial with full military honors at the National cemetery in Hampton, Va., was accorded to 29 crewmen of a Nazi submarine which was sunk by an American destroyer following a running fight. The bodies of the 29 Germans were recovered and brought to the naval operating base at Norfolk.

directors, the scope of its activities, the conception of the unity of life—these are beams across the sky, and they point a way out of the present wilderness.

That Man who knelt in a garden at midnight and prayed, "That they all may be one, as thou, Father, art in me, and I in thee"—can we not see Him there, still praying that prayer, holding in his heart your life and mine and the lives

of people in every nation under the sun, praying that we may yet see our unity under God, and live in our Father's House. And so long as Christ continues to pray for us there is hope for us.

Prayer: Grant us, our Father, the vision of Christ in the garden, praying that we might all live as children of our Father. And may His prayer be answered in us. Amen.

A WEEK OF THE WAR

SUMMARIZING INFORMATION ON THE IMPORTANT DEVELOPMENTS OF THE WEEK MADE AVAILABLE THROUGH MONDAY OF THIS WEEK

The U. S. overall output of planes, tanks, ships, guns and ammunition during June was nearly three times that of last November, the month before Pearl Harbor, War Production Chairman Nelson reported. Mr. Nelson stated, however, "Too much boasting about production progress is altogether premature—the biggest part of the job is still ahead." Any let-up now, he said, "Would mean years more of war and hundreds of thousands more lives."

Chairman Nelson, as an index of the Nation's productive effort, estimated that approximately 36 percent of the U. S.'s record breaking income during the first six months of this year went into military channels. This compares, he said, to the 59 to 75 per cent of total income being spent by Great Britain and Germany.

Rationing
Price Administrator Henderson reported gasoline coupon counterfeiters had been peddling bogus ration books in the East and stated these "saboteurs attacking our war program" will be prosecuted promptly and vigorously.

The OPA increased tire and tube quotas for August and said 90,000 bicycles will be made available for rationing in August as compared with 45,000 in July. The Office said only trucks engaged in services essential to the war effort or public health and safety will be entitled to recapped or new tires after July 28 under a drastic revision of the tire rationing regulations.

Maximum Prices And Rents
Price Administrator Henderson reported "Government controls of prices and rents, where they are in effect, are doing a good job of holding down prices, but uncontrolled food prices are showing a definite inflationary tendency." He said, "The total cost of food to city families advanced by 1.3 per cent between May 15 and June 15, continuing the steady upward price trend of the previous 14 months and offsetting the benefits of price control on all foodstuffs covered by the general regulation."

Mr. Henderson said housewives and other members of the buying public will acquire the legal right, beginning July 31, to bring civil suits for damages against any storekeeper who charges more than OPA regulations permit. The purchaser is entitled to recover \$50 in damages plus attorney's fees or triple the amount of the overcharge plus attorney's fees, whichever is larger. Similar suits may be filed in defense rental areas against landlords who collect rents in excess of those permitted by OPA orders.

Agriculture Secretary Wickard announced a price adjustment and subsidy program designed to ease the temporary shortage of meats in Eastern states and some parts of the Mid-West. The OPA asked livestock and meat packing industries to maintain a supply of meats in all normal trade channels rather than concentrate shipments to large cities where ceiling prices are relatively high.

The War Front
The Navy reported U. S. submarines in Far Eastern waters have sunk another Japanese destroyer, a medium-sized tanker, three cargo ships, and possibly a fourth cargo ship. The Navy said all of its large submarines are being fitted with cameras designed to fit over the eye piece of the periscope to record the results of submarine attacks on the enemy. Maj. Gen. Lewis H. Brereton, Commander of the Air Forces in the Middle East, said American Air Forces caused heavy damage to enemy docks and port installations at Tobruk, Benghazi, Suda Bay and Crete.

President Roosevelt said Admiral William D. Leahy, former U. S. Ambassador to Vichy France, has been called back to active duty to serve as Chief of Staff to him as Commander in Chief of the Armed Forces. Gen. MacArthur reported from Australia that the new 2,500-man Japanese invasion force landed in the Buna-Ambasi-Gona area in New Guinea on July 22 has been subjected to such damaging raids that few, if any, Japanese ships are left in the vicinity of the invasion. The Navy announced 17 more United Nations merchant vessels have been lost to enemy submarines.

Army
The nine Army Corps Areas were reorganized and renamed "Service Commands." The reorganization will further decentralize the operation of services of supply activity and eliminate duplicating facilities. War Secretary Stimson said 28,000 jaundice cases developed among Army personnel in the U. S. and abroad between January 1 and July 4, ap-

parently due to the use of yellow fever vaccine. Sixty-two deaths resulted. "There has been a change in the form of the yellow fever vaccine now used which the Surgeon General thinks will eliminate the whole trouble," Mr. Stimson said. Director Hobby of the Women's Army Auxiliary Corps said 20 companies of 150 women each will be trained by the end of this year and 25,000 women will be trained by April, 1943.

Taxation And Profits
The House passed and sent to the Senate the War Revenue Bill, estimated to yield about \$6,300 million, providing a 45 per cent normal and surtax income rate on corporations and a 90 per cent excess profits tax. Treasury Secretary Morgenthau, however, said a tax program of less than \$8,700 million of additional revenue would be inadequate. He recommended removal of these "special privileges": tax exemption for State and municipal securities, exemption from taxation of 27½ per cent of income from oil wells and mines, and separate income tax returns by married couples.

The House Naval Affairs Committee, after investigating 40,000 contracts, said "95 per cent of the war contractors are doing an honest and effective job and receiving only fair and reasonable profits," the average being 8 per cent.

Scrap Salvage Campaigns
President Roosevelt reported the recent scrap rubber collection drive added 454,000 tons to the Government's stockpile—exclusive of rubber in small piles still at service stations and junk dealers. WPA Chairman Nelson asked State and local governments to lend their trucks and workers to local salvage committees to help transport scrap material collections before winter sets in. To keep steel furnaces going at full capacity, more than 750,000 freight cars will be required to carry scrap iron and steel, most of which must be moved by trucks to rail points.

Air Training Program In Lubbock Area Is Described

Supt. C. S. Denham, just returned from a month's vacation visit in Lubbock, gave a verbal picture of the intensive war program under way in Lubbock and the surrounding area, in a talk before the Rotary Club Tuesday.

Several air training fields in and near the city are training large numbers of fighter and bomber pilots and bombardiers and a big glider field is now under construction near the city. Mr. Denham recounted a program for the Lubbock Rotary Club in which officials of the glider school told of the possibilities of the glider in air transport and use of the glider for transporting an extra fuel supply for long range bombing.

Joe Galbraith of Del Rio, field executive for the Boy Scouts of America, was a visitor to the club and in a brief talk told of the summer program for Boy Scouts in this area. Other visitors of the day were Bob Austin of Fort Worth, Hillery Phillips and Miller Robison.

Walter Escue, who has been accepted as an aviation cadet in the U. S. Army Air Corps, and who has been awaiting start of his training for over three months, has at last entered service for preliminary training. He is not in actual cadet training as yet, but when offered an opportunity to start preliminary training with assignment to cadet training at the first opportunity, he accepted. He entered the service in San Antonio last week and he has been assigned to Sheppard Field at Wichita Falls. He is the son of Mrs. Alma Escue of Ozona.

Thanks, Folks...

Even though I was not successful, I can not refrain from expressing my appreciation, not only to those who voted for me, but also to the people of Crockett County in general for their courtesy and consideration of me as a candidate. I feel that I have made some friends. I hope I have not lost any—and I had a lot of fun in my first venture into politics. I have no regrets, no feeling of disappointment, not mad at anybody and got my money's worth—including a day off from work on election day. So, again, Thanks, Folks!

Sam Houston

(Pol. Adv.)

Thank You, Friends--

I did not get enough votes to get in the runoff, but I am deeply grateful to all my friends who cast their ballots in my favor. I conducted my campaign as best I could, refrained throughout from criticism of my opponents, enjoyed the novelty of running for office and have no regrets that will not permit me to continue in the same old way and to consider all of you still my friends.

Sincerely,

ROSCOE COATES

Mrs. Nussbaumer Entertains Aces

Mrs. Joe Nussbaumer was hostess to the Ace Club Saturday afternoon in the home of Mrs. W. C. Phillips. Carnations were used as favors and a sandwich plate was served.

Mrs. Bill Baggett won high, Miss Betty Lou Coates second high, and Mrs. Arthur Phillips third.

Others present were Miss Doris Bunker, Miss Mary Alyce Smith, Miss Betty Bratcher, Miss Eloise Carson, Miss Billie Jo West, Miss Catherine Childress, Mrs. James Childress, Mrs. Buddy Moore, Mrs. Bill Friend, Mrs. Joe Thomas Davidson, Mrs. L. T. Patterson, Mrs. Tommie Harris, Mrs. Vic Montgomery.

Mrs. Ele Hagelstein Hostess To Club

The Las Amigas Club met with Mrs. Ele Hagelstein Saturday morning in the home of her mother, Mrs. Hugh Childress.

Mrs. Bill Baggett won high, Mrs. A. O. Fields second high.

Others attending were Mrs. Hubert Baker, Mrs. Ralph Jones, Mrs. Oscar Kost, Mrs. G. L. Nesrsta, Mrs. R. A. Harrell, Mrs. Hugh Childress, Jr.

Hagelsteins Las Amigas Hosts

Mr. and Mrs. Ele Hagelstein entertained the Las Amigas Club Saturday night at the home of Mr. and Mrs. Hugh Childress. The supper was served picnic style with each guest bringing a dish.

Mr. and Mrs. Bill Baggett won

ENTERTAINS ACE CLUB

Mrs. Vic Montgomery entertained the Ace Club Thursday afternoon at the Hotel Ozona. Mrs. Bill Baggett won high, Mrs. Tommie Harris second high, and Billy Jo West, bingo.

Others present were Miss Eloise Carson, Miss Catherine Childress, Mrs. Joe Nussbaumer, Mrs. Jack Baggett.

ANGELO COUPLES VISIT

Mr. and Mrs. Fred Hagelstein entertained several couples from San Angelo over the weekend. Horseback riding and swimming were the main diversions, plus a chicken dinner served by Mr. and Mrs. Monroe Baggett Saturday night.

Motoring down from the city were Betty McKenzie and Cadet Car Hendricks, Martha Gill and Cadet Bill Hellmantoler, Jane Westmoreland and Cadet Hudson Matlock, and Posey Baggett and Cadet Johnny Schwarsaw. The group returned to San Angelo Sunday.

Joe S. Pierce, IV, Honored On Birthday

Mrs. Joe Sellars Pierce, III, honored her son Joe Sellars IV, on his third birthday with a splash-swimming party at the home of her mother, Mrs. Johnnie Henderson, Jr., Wednesday afternoon. The pool was filled with balloons, and toys. Ice cream and cake were served.

Present were LuNell Beall, Ann Baggett, Jan Bean, Jan Jones, Genelle Childress, Becky Davidson, Susan Slater, Jack Brown, George Bunker, Jr., Early Chandler, Jr., Jesse Carl Marley, Carl Conklin, Joe Clayton, Jr., Jim White, Mrs. Pink Beall, Mrs. S. A. Coose, Mrs. Ed Bean, Mrs. Ralph Jones, Mrs. Pleas Childress, Jr., Mrs. Joe Davidson, Mrs. Melvin Brown, Mrs. Joe North, Miss Mary Alyce Smith, Mrs. Joe Pierce, Jr., Mrs. Jesse Marley, Mrs. Bill Conklin, Mrs. Joe Clayton, Mrs. Eugene Slater, Mrs. Heyward White, Mr. and Mrs. John Henderson, III.

Mrs. Roy Miller is reported seriously ill in a Dallas hospital.

Stocks Of Electric Ranges Released For Restricted Sales

Stocks of electric ranges, totaling around 45,000, have been released by WPB for sale to the public under specified conditions. As production has ceased for the duration of the war, these ranges, which had been frozen in the hands of dealers, distributors and manufacturers since May 2, represent the total available for distribution. Persons desiring to

high couple, and Mr. and Mrs. Ed White of Fort Worth received couple bingo.

Others attending were Mr. and Mrs. Oscar Kost, Mr. and Mrs. Heyward White, Mr. and Mrs. Arthur Kyle, Mr. and Mrs. A. O. Fields, Mr. and Mrs. Ralph Jones, Mr. and Mrs. Hugh Childress, Jr., Mr. and Mrs. Miller Robison.

Genelle Childress Honored On Birthday

Mrs. Pleas Childress, Jr., honored her daughter, Genelle, on her second birthday with a lawn party Tuesday afternoon.

Balloons and whirligigs were given as favors. Ice cream and cake were served to Joe Sellars Pierce, IV, George Bunker, Jr., Ann Baggett, Anice Nesrsta, Becky Davidson, Kenny Phillips, Diane Phillips, Jan Nussbaumer, Scotty Moore, Susan Slater, Jill Kirby and Genelle Childress.

Mothers present were Mrs. W. C. Phillips, Mrs. Arthur Phillips, Mrs. Joe Sellars Pierce, III, Mrs. G. L. Nesrsta, Mrs. Joe Thomas Davidson, Mrs. Joe Nussbaumer, Mrs. Buddy Moore, Mrs. Eugene Slater, Mrs. Doug Kirby, Mrs. Monroe Baggett.

Mrs. Joe Clayton Is Club Hostess

The Twentieth Century Club met with Mrs. Joe Clayton Saturday afternoon in her home.

Mrs. Pleas Childress, Jr., won high, Mrs. Jack Wilkins, second high, Mrs. Clifton Brooks, bingo, and Mrs. Dempster Jones, low.

Others present were Mrs. Sid Millsbaugh, Mrs. Jesse Marley, and Mrs. Joe Sellars Pierce, III.

buy electric ranges must certify in writing to a dealer that the range is needed to replace one that is worn out or damaged beyond repair, or that no other cooking facilities are available and that the premises are wired for installation of an electric range.

25,000 AUTOS AVAILABLE

With about 250 new cars remaining in the pool which OPA plans to ration over the next eight months, the July quota of new automobiles was set at 25,000 for the nation. The June allotment was 40,000. A government pool of approximately 135,000 cars has been set aside for military and other uses in 1943. July quotas include Texas 1038, Oklahoma 254, and Louisiana 295.

Mr. and Mrs. Ed White of Fort Worth spent several days with his brother and sister-in-law, Mr. and Mrs. Heyward White.

A Word Of Thanks:

To all of my friends and supporters who gave me such a nice vote in Saturday's primary I am deeply grateful. I feel that I have been highly honored in being selected by the ballot for my candidacy in the run-off primary in August, and I will be grateful for your continued support in that election.

Throughout the campaign I have endeavored to conduct my candidacy on a high plane, refraining from any type of mudslinging or criticism of my opponents. On the whole, the campaign has been markedly free from such tactics and has therefore been enjoyable. I now renew my pledge to the voters that I will continue to run on my own merits alone, soliciting votes solely on the basis of my qualifications for performing the duties of the office of Sheriff, Assessor and Collector of Taxes.

Of course, I hold no grudge against any of you who did not see fit to vote for me. It is your privilege to vote as you choose and whatever the outcome of the August primary, I shall continue always to be grateful for your support and vote, but certainly will not "fall out" with anybody who chooses to vote for the opposing candidate.

I earnestly solicit your consideration of my candidacy in the run-off and again pledge you that in the event I am elected I shall perform the duties of the office without fear or favor and will do my best to give 100 per cent service to the people at all times.

(Poli. Adv.)

Paul Revere Rides Again

Paul Revere, 25, of Braintree, Mass., lineal descendant of the famous patriot of the same name, is now a buck private in Uncle Sam's army, having been sworn in recently in the presence of cheering troops. He then toured the camp on Duffy, 101st cavalry horse, before donning his uniform. Above, Paul bids adieu to Duffy and takes over with a jeep.

In Spite Of Petty Thievery—Ozona Teacher Attending University Of Mexico Finds Attractive Features To Recommend Life "South Of The Border"

Ideal climate, points of historical interest and other attractive features of Mexico compensate for some of the less attractive conditions, in the opinion of Joe Ripple, Ozona school teacher who is in Mexico City this summer taking a course in Spanish at the University of Mexico. On the other side of the ledger from the interesting features of the neighbor republic is the fact that "one must protect what he owns with his life."

"The first day I was here I had my Sheaffer fountain pen stolen while walking down the Paseo de la Reforma," Mr. Ripple wrote in a letter to Supt. C. S. Denham. "When you park, you have the choice of paying someone to watch your car or of having the hubcaps stolen."

"I am taking ten semester hours of Spanish at the University," Mr. Ripple's letter said, "but I will receive credit for only six, since that is the maximum officially permitted. All of the courses are conducted exclusively in Spanish. It is relatively easy to understand the professors because they speak clearly and distinctly. It is something else again to try to carry on a conversation with the average Mexican who insists on speaking at least twice as fast as is necessary. I have very little difficulty in making myself understood. The trouble is trying to understand the other fellow."

"There are many things that I like in Mexico, and a good many that I dislike. The climate, for example, is perfect, the average temperature being in the low sixties. There are countless points of historical interest. The different attitudes and ideals of the people with whom one comes in contact provide some very rich experiences."

Mr. Ripple's letter was censored. He will complete his studies in the University of Mexico in time to take up the work of teaching Spanish in High School next school year. Mr. Ripple served as principal of the Latin-American school here two years.

"Seabees" Seeking More Enlistments

The U. S. Navy needs more men for the Construction Battalion, also known as the "Seabees," it is announced by Lieutenant J. F. Beebe, Officer-in-Charge of the U. S. Navy Recruiting Station, Houston, Texas.

"Men having experience in skilled trades should apply for enlistment at the nearest Navy Recruiting Station immediately to obtain transportation and be ready for a personal interview with the construction officer who will be in Houston on July 27, 28 and 29," Lieutenant Beebe said.

Many skilled men have already volunteered for this branch of service, and the call is out for many more. The trades needed at this time include stenographers, office workers, blacksmiths, bulldozer operators, carpenters, concrete workers, cooks, bakers, crane operators, dredge deckhands, quarry drillers, electricians, gas and diesel repair men, labor foremen, mechanics, pipe fitters, riggers and many other types of skilled labor.

It was pointed out that the "Seabees" will receive eight weeks training at a Naval Base, and will spend part of the time following their line of work. They will also receive training in gunnery practice, including machine guns, rifles, pistols, and anti-aircraft warfare. They will be equipped to go anywhere in the world, and set up new bases for the Navy.

Recruits in this Construction Battalion will be stationed outside the continental limits of the United States, and will not grow rusty during the war from disuse of their tools, and knowledge.

Age limits for these men are from 17 to 50, and interested men should obtain three letters of recommendation certifying to their line of work, length of time following that work, and ability to perform same in a skilled manner.

The Construction Battalion is also open to enlistments of negroes who are skilled tradesmen, giving them an opportunity to earn as much as \$150.00 per month if they qualify.

SONORA, TEXAS

"I Learned about LIGHT in a BLACKOUT!"

That's what a man wrote in a very human letter.

- "We had our first practice blackout here recently," he added, "For twenty minutes, my family and I sat in total darkness. The seriousness of war hit us all harder than ever before."
- "Then, when the all-clear sounded and we turned the lights back on, warmth and reassurance came into the room. That made me realize that whatever I spend for electricity, it's still about the cheapest thing I buy."

Here in West Texas, where blackouts have been few and far between and the war seems far away, a lot of folks take electricity for granted until something reminds them how dependable and cheap it really is. If yours is an average family, you're getting about twice or three times as much electricity for your money as ten to fifteen years ago.

The reasons why this service is so cheap and so dependable go back to the way America works—a way we're all fighting for now. A way of life in which free men have an opportunity to create and produce and succeed in proportion to their individual contribution.

Your Electric Servant grew up that way—steadily making more jobs, serving more homes and people and lowering rates—under efficient business management. Because it has done its part of the job well, West Texas has the electric power to attract military training camps, flying schools and war plants. West Texas today is helping produce the men and material that promises a permanent blackout for the Axis dictators!

West Texas Utilities Company

Exhibit Shows Part Wool Plays In War Effort

Huge Army Show Goes On 4 1/2 Months Tour Of Nation

The American Wool Council, wool and mohair promotional organization for State and the National Wool Growers Association, has recently prepared an enormous exhibit vividly portraying the part wool plays in the present struggle. Col. C. F. H. Johnson, president of Botany Worsted Mills, contributed a sizeable sum toward preparation of the exhibit.

Opening in Baltimore, the show is now started on a 4 1/2 months' tour of the principal cities of the United States to give the public an idea of our all-out war effort. Reports this week tell of an average of 35,000 people seeing the exhibit daily in Pittsburgh. This great show will be exhibited in several of Texas' major cities during the coming months.

In addition to the wool clothing exhibit under a great Quartermaster assembly tent are gathered exhibits of field kitchens, trucks, jeeps, guns, saddlery, and other equipment valued at a billion dollars.

Sheep men's interest in this mammoth display will be centered largely in the Quartermaster exhibit. This section prepared with the assistance of the American Wool Council shows a set of dioramas tracing the production of wool clothing from the sheep ranch to the soldier's back. The importance of wool for clothing American soldiers is clearly demonstrated in the statement of Brig. Gen. C. L. Corbin in accepting the wool exhibit from the American Wool Council and Col. Johnson. Gen. Corbin stated "the part that wool plays in our war effort can hardly be over-exaggerated. So indispensable is wool to the Army that the Quartermaster Corps long ago became the world's greatest buyer of this

Wealthiest Nun Has \$1,000 Day Income; All Goes To Charity

PHILADELPHIA — Her income totals \$1,000 a day—but she never spends a dime on herself.

Heiress to a great fortune, she is bound by vows of poverty. She is Mother Mary Katherine Drexel, richest nun in the world.

Thousands of suffering and underprivileged have tasted the fruits of her charity; yet Mother Drexel has passed half a century in such a cloistered seclusion that few even in her native Philadelphia know the story of her life and work.

Now, as spring greens the old Drexel estate in suburban Cornwell Heights, long since converted into the headquarters of Mother Drexel's Roman Catholic order, this kindly, devout gentlewoman of 82 is ill and weary after a lifetime of hard work.

But in the spring of 1885, in the flush of the Victorian era she was an attractive young socialite. Her father, Francis Anthony Drexel of the Philadelphia banking family, had just died and hers was the income from half his \$15,000,000 estate.

Two roads were open to her. She could become one of the belles of a gay international set, be courted with kings and queens, be courted by the world's most eligible men.

Or she could spread Christianity among America's Indians in the uncivilized West—that had been her childhood ambition.

The decision of this lovely daughter of the rich—a decision to renounce wealth and society for religion—created a stir across the world, but not among those who knew her best.

product. This exhibit, consequently, is extremely timely because it will show thousands of American citizens, better than any words I can say just what use is made of the millions of yards of woolen cloth we are buying."

Many members of the Texas Sheep and Goat Raisers' Association assisted in making this exhibit possible through contributions on wool and mohair sold. This fund is directed by F. Eugene Ackerman, Manager of the American Wool Council. Texas Association officers urge that every wool grower continue this practice in order to advertise wool and to keep it in its proper place as the world's most healthful fiber.

A Story of War—And War Bonds

This new color poster, which soon will be used in all parts of the country to promote the sale of War Bonds and Stamps, is one of four recently created to emphasize new themes in the War Bond sales campaign.

Behind The Scenes In American Business

By John Craddock

NEW YORK — LULL? — It may be just a lull before the storm, but the price picture for the last couple of months has been definitely serene, considered as a whole but with accent on those prices that most markedly affect cost of living. In the 10-weeks May 2-July 11 period wholesale prices for some 900 items as covered by the Bureau of Labor Statistics actually went down, though by a mere two-tenths of one per cent. Food prices dropped 1.2 and textiles 0.4 per cent, and these are especially influential in cost-of-living ratings. . . . The comprehensive cost-of-living index rose one per cent in April, went up only two-tenths of a per cent in May, and in June remained absolutely level. . . . Nevertheless, the economic-pulse-takers are somewhat uneasy, viewing with anxiety the persistently upward tendency of wages and the lack of assurance that farm prices will be effectively "ceilinged," since these are the two biggest elements in determining the ultimate cost of anything to the consumer.

BITS O' BUSINESS — WPB now has officially adopted policy of concentrating output of essential civilian durable goods in smaller units of a given industry, letting bigger plants swing over 100 per cent to war work. The stove industry is first to be lined up on this plan, with farm implements, typewriters, and auto and truck parts as other fields to which it likely will be applied. . . . Thus trade names will disappear or lose meaning in such fields, for probably all items will just be "Victory" this-or-that. . . . Federal Shipbuilding and Drydock company sent three new destroyers down the ways at Kearny, N. J. inside 35 minutes—but even that didn't tie its own record, set early in May, of four of these "ash-can" tossers in 50 minutes!

TIPS ON THE TIMES — National Industrial Conference Board, surveying 25 manufacturing industries, finds total payrolls for May at an all-time high, 31.1 per cent higher than for May a year ago, and 77.8 per cent higher than in 1929. Average weekly earnings in these industries have risen 36.4 per cent since 1929. . . . The meat shortage will be only temporary. Department of Agriculture studies of some time ago foresaw periodic shortages and tight squeezes in certain types of meat, but showed that our total meat supply—even after prodigious lease-lendings—will be only one per cent below that of 1941, which was an all-time high, and 15 per cent higher than the average through 1931-40. . . . The trend is definitely away from any further rationings of consumer goods—at least until after the elections.

A Cleveland airparts company encourages workers to keep machinery clean by painting its machinery light colors (blue and cream).

EXCLUSIVE

PHILADELPHIA — The will of Mrs. Gertrude W. Binton named the Provident Trust Co. trustee of a copyright she held and instructed the bank to see that it is not infringed.

The copyright covers the intricate design on her husband's tomb.

3,000 Stars Counted By McDonald Observer In Milky Way Census

AUSTIN—In his "census of the Milky Way," a University of Texas astronomer, making observations at McDonald Observatory in the Davis Mountains, has already charted 3,000 stars, he has reported to University officials here.

Dr. G. P. Kuiper, astronomer on the staff of McDonald and its sister plant, the University of Chicago's Yerkes Observatory, said he had studied approximately 1,000 stars in the last two months.

His investigations are being carried on to determine the size, distance from the earth, velocity, brightness and spectral type of the bodies in the Milky Way.

WANT TO SHARE IT

BOONE, Iowa — Boone County selective service officials puzzled over the intent of the following message on a postcard received from some draftees they had ordered inducted into the Army: "Having a wonderful time; wish you were here."

Steel saved by banning nail files for the duration will make forty-four 155 mm. guns, 46,000 40-caliber machine guns or 575 sixteen-inch shells.

Correct change... automatic receipt... when you pay by check

With taxes tacked onto the price of so many things today, almost every bill you pay is an odd amount. It's often a nuisance to find the right change—unless you pay by check. With a checking account, if you're operating on a budget, you don't have to trust to your memory to know what you've spent—just refer to your check stubs. You play safe, too, as each check comes back as a receipt of payment. Open a checking account at this bank and put your personal finances on a businesslike basis.

H. J. R. No. 1

A JOINT RESOLUTION

proposing an amendment to Article III of the Constitution of the State of Texas by adding a new section thereto to be known as Section 49a, requiring all bills passed by the Legislature on and after January 1, 1945, appropriating money for any purpose, to be submitted to the Comptroller of Public Accounts for his approval, and fixing the duties of the Comptroller with reference thereto; authorizing the Legislature to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by the General Revenue Fund on September 1, 1943; providing for the submission of this amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof; and providing for the necessary appropriation to defray the expenses for the submission of this amendment.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto, immediately after Section 49, a section to be known as Section 49a, to read as follows:

"Section 49a. It shall be the duty of the Comptroller of Public Accounts in advance of each Regular Session of the Legislature to prepare and submit to the Governor and to the Legislature upon its convening a statement under oath showing fully the financial condition of the State Treasury at the close of the last fiscal period and an estimate of the probable receipts and disbursements for the then current fiscal year. There shall also be contained in said statement an itemized estimate of the anticipated revenue based on the laws then in effect that will be received by and for the State from all sources showing the fund accounts to be credited during the succeeding biennium and said statement shall contain such other information as may be required by law. Supplemental statements shall be submitted at any Special Session of the Legislature and at such other times as may be necessary to show probable changes.

"From and after January 1, 1945, save in the case of emergency and imperative public necessity and with a four-fifths vote of the total membership of each House, no appropriation in excess of the cash and anticipated revenue of the funds from which such appropriation is to be made shall be valid. From and after January 1, 1945, no bill containing an appropriation shall be considered as passed or be sent to the Governor for consideration until and unless the Comptroller of Public Accounts endorses his certificate thereon showing that the amount appropriated is within the amount estimated to be available in the affected funds. When the Comptroller finds an appropriation bill exceeds the estimated revenue he shall endorse such finding thereon and return to the House in which same originated. Such information shall be immediately made known to both the House of Representatives and the Senate and the necessary steps shall be taken to bring such appropriation within the revenue, either by providing additional revenue or reducing the appropriation.

"For the purpose of financing the outstanding obligations of the General Revenue Fund of the State and placing its current accounts on a cash basis the Legislature of the State of Texas is hereby authorized to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by said fund on September 1, 1943, provided such bonds shall not draw interest in excess of two (2) per cent per annum and shall mature within twenty (20) years from date."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State of Texas, at the next general election to be held on the first Tuesday after the first Monday in November, 1942, being November 3, 1942, at which election all voters favoring said proposed amendment shall write or have printed on their ballots, the words:

"For the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to

pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Those opposing said proposed Amendment shall write or have printed on their ballots, the words:

"Against the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and have same published as required by the Constitution for amendments thereto.

Sec. 4. The sum of Five Thousand Dollars (\$5,000.00), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas, not otherwise appropriated, to pay the expenses of such publication and election.

S. J. R. No. 29

A JOINT RESOLUTION

proposing an amendment to the Constitution of the State of Texas by amending Section 33 of Article 16, of the Constitution of Texas so as to permit the accounting officers of this State to draw pay warrants for salaries to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 33 of Article 16, of the Constitution of the State of Texas, be amended so as to read as follows:

"Section 33. The accounting officers of this State shall neither draw nor pay a warrant upon the Treasury in favor of any person, for salary or compensation as agent, officer or appointee, who holds at the same time any other office or position of honor, trust or profit, under this State or the United States, except as prescribed in this Constitution. Provided, that this restriction as to the drawing and paying of warrants upon the Treasury shall not apply to officers of the National Guard of Texas, the National Guard Reserve, the Officers Reserve Corps of the United States, nor to enlisted men of the National Guard, the National Guard Reserve, and the Organized Reserves of the United States, nor to retired officers of the United States Army, Navy, and Marine Corps, and retired warrant officers and retired enlisted men of the United States Army, Navy, and Marine Corps, nor to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the third day of November, 1942, at which all ballots shall have printed thereon:

"For the Constitutional Amendment permitting the accounting officers of this State to draw and pay warrants for salaries to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education."

"Against the Constitutional Amendment permitting the accounting officers of this State to draw and pay warrants for salaries to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education."

Each voter shall scratch out one of said clauses on the ballot, leaving the one expressing his vote on the proposed amendment.

Sec. 3. The Governor shall issue the necessary proclamation for said election, and have the same published as required by this Constitution and laws of this State, and the sum of Five Thousand Dollars (\$5,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated from any funds in the State Treasury, not otherwise appropriated, to defray the expenses of printing said proclamation and of holding said election.

The secretary's speech dealt with causes and issues of the war, with postwar objectives and with the present critical war situation. The speech was rebroadcast to the world in 11 different languages.

(\$75,000) Dollars or so much thereof as may be necessary to pay claims incurred by John Tarleton Agricultural College for the construction of a building on the campus of such college pursuant to deficiency authorization by the Governor of Texas on August 31st, 1937.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That the Constitution of the State of Texas be amended by adding a new section, as follows:

"The Legislature is authorized to appropriate so much money as may be necessary, not to exceed Seventy-five Thousand (\$75,000) Dollars, to pay claims incurred by John Tarleton Agricultural College for the construction of a building on the campus of such college pursuant to deficiency authorization by the Governor of Texas on August 31st, 1937."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at the next general election to be held on the first Tuesday after the first Monday in November, A. D., 1942, at which all ballots shall have printed thereon: "For the constitutional amendment authorizing the Legislature to pay for building constructed for John Tarleton Agricultural College;" and

"Against the constitutional amendment authorizing the Legislature to pay for building constructed for John Tarleton Agricultural College."

Each voter shall scratch out one of said clauses on the ballot, leaving the one expressing his vote on the proposed amendment.

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State. The expenses of publication and election for such amendment shall be paid out of proper appropriation made by law.

H. J. R. No. 23

A JOINT RESOLUTION

proposing an Amendment to Article I of the Constitution of the State of Texas authorizing the lending of Two Million Dollars (\$2,000,000) of the Permanent School Fund for the construction of a State office building or buildings; providing for repayment to the Permanent School Fund; providing for the submission of this Amendment to the voters of this State; and providing for the necessary proclamation and expense of publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article I of the Constitution of the State of Texas be amended by adding thereto a new section to be known as Section 49-b, which shall read as follows:

"Section 49-b. The Legislature may provide by law for the issuance of not more than Two Million Dollars (\$2,000,000) in bonds or obligations of the State of Texas to the Permanent School Fund for the construction in the City of Austin of a State office building or buildings, and the State Board of Education is hereby directed to invest not more than Two Million Dollars (\$2,000,000) of the Permanent School Fund therein. Such bonds shall be executed on behalf of the State of Texas by the Governor and Comptroller, and shall bear a rate of interest not to exceed three (3) per cent per annum, payable annually; they shall be of such denomination as may be prescribed by law, and shall be payable in not to exceed twenty-five (25) equal installments beginning one (1) year from date of issuance; and the State Treasurer is hereby authorized and directed

to set aside into a special fund annually at the beginning of each fiscal year until all of said bonds shall have been paid off and discharged, a sufficient amount of the first moneys coming into the Treasury for the use and benefit of the General Revenue Fund not otherwise heretofore obligated to the payment of bonds and interest, a sufficient amount to pay the interest becoming due and the bonds maturing during such fiscal year. From said Fund, the Treasurer shall pay the interest on said bonds as it comes due, to the credit of the Available School Fund; and shall pay off said bonds as they become due and deposit the amounts so paid to the credit of the Permanent School Fund. The power hereby granted to issue bonds is expressly limited to the amount stated and to five (5) years from and after the adoption of this grant by the people."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified voters of the State of Texas at an election to be held on the third day of November, 1942, at which election all voters favoring such proposed Amendment shall write or have printed on their ballots the words: "For the Amendment to the Constitution of the State of Texas authorizing the investment of

not more than Two Million Dollars (\$2,000,000) of the Permanent School Fund in bonds of the State of Texas to be issued for the construction of a State office building or buildings and providing for the repayment of the said sum of money to the Permanent School Fund."

Those voters opposing said Amendment shall write or have printed on their ballots the words:

"Against the Amendment to the Constitution of the State of Texas authorizing the investment of not more than Two Million Dollars (\$2,000,000) of the Permanent School Fund in bonds of the State of Texas to be issued for the construction of a State office building or buildings and providing for the repayment of the said sum of money to the Permanent School Fund."

Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and have the same published as required by the Constitution and existing laws of the State.

Sec. 4. The sum of Eight Thousand Dollars (\$8,000), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State not otherwise appropriated to pay the expenses of said publication and election.

H. J. R. No. 24

A JOINT RESOLUTION

proposing an Amendment to Article V of the Constitution of Texas as by providing that the Legislature shall have the power by local or general law, in counties having a population in excess of two hundred thousand (200,000) inhabitants to create other courts having exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters; fixing the time for an election therefor; prescribing the form of ballot; providing for a proclamation of such election and the advertisement thereof; and making an appropriation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. Article V of the Constitution of the State of Texas be amended by adding thereto a new section to be known as Sec-

tion 22-a and reading as follows: "Section 22-a. The Legislature shall have the power, by local or general law (without the necessity of advertising any such local law), in counties having a population in excess of two hundred thousand (200,000) inhabitants according to the then last Federal Census, to create other courts having either exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified voters of the State of Texas at a special election to be held on the first Tuesday after the first Monday in November, 1942, at which time all voters favoring such proposed Amendment shall have written or printed on their ballots the following:

"For the Amendment to the Constitution, providing that the Legislature may in certain counties create other courts having either exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters."

Those voters opposed to such Amendment shall have written or printed on their ballots the following:

"Against the Amendment to the Constitution, providing that the Legislature may in certain counties create other courts having either exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters."

If it appears from the returns of said election that a majority of the votes cast is in favor of the Amendment, the same shall become part of the Constitution of the State of Texas.

Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have it published as required by the Constitution and existing laws of this State.

Sec. 4. The sum of Ten Thousand Dollars (\$10,000) or so much thereof as may be necessary is hereby appropriated out of the State Treasury not otherwise appropriated to pay the expenses of said publication and election.

Throw your scrap into the fight.

Accurate and Complete

RANCH RECORDS

Are More Important Today Than Ever

Government regulations and new war tax programs make it more important today than ever before that every business keep accurate records of its operations.

The ranch business is no exception. Your government must necessarily levy stiff taxes to finance the gigantic war effort now under way, and tax agents are going to be stricter in demanding compliance with all regulations. Records of all operations are going to be increasingly important in proving up your income tax returns.

It is not too late now to bring your records up to date covering this year's business with the Stockman's RANCH RECORD BOOK. Your cancelled checks or your present records can be transcribed in this handy record book, together with your income and inventory records and you can have your entire record in a simplified form contained in one volume.

Easy To Keep - Complete Record - In 1 Volume

THE STOCKMAN RANCH RECORD BOOK

Amendments—

(Continued from Page One)

in state institutions of higher education.

House Joint Resolution No. 24 proposes an amendment which would authorize the legislature to create additional courts having exclusive or concurrent jurisdiction with the county court in civil, criminal or probate matters in counties having populations in excess of 200,000.

The amendment, Senate Joint Resolution No. 21, to pay off the \$75,000 obligation of John Tarleton College at Stephenville would authorize this appropriation for the construction of a building on the college campus pursuant to deficiency authorization by the Governor of Texas on August 31, 1937.

SHOWER SUNDAY

More scattered showers visited the Ozona area Sunday to bring much needed moisture to the favored areas, mostly to the east of Ozona. Falls ranging around an inch in some sectors were reported. A light shower fell in Ozona.

Gene Hollon, former principal of the Ozona Junior High School, has accepted a position as professor of history at Schreiner Institute in Kerrville. Friends here have learned. Mr. Hollon received his Doctor of Philosophy degree from the University of Texas in June of this year.

Mrs. George Bunker is under the care of physicians in Topeka, Kansas.

POLITICAL ANNOUNCEMENTS

The Stockman is authorized to announce the following candidates for political offices, subject to action of the Democratic primaries:

For Sheriff, Assessor and Collector of Taxes:

R. E. McWILLIAMS
FRANK JAMES

In Appreciation:

I want to thank the entire citizenship of Crockett County, especially all those that voted for me in my race for Sheriff, Tax Assessor and Collector for the nice vote I received.

I want to say further to all those that voted for any of the other candidates, that I hold nothing but the highest regards and a friendly feeling toward you.

This campaign has been a very pleasant one for me so far and I hope it will continue to be like it has been. I have made this race solely on my own merits and qualification, and my past record and experience as a peace officer.

I have tried to make you a good officer and to enforce all laws to the best of my ability. I will continue to do so, and if you good people will go back to the polls on the 22nd day of August and elect me your Sheriff, Tax Assessor and Collector, I will do my dead level best in every respect to give you an honest, clean and efficient administration.

A fair and square deal to all and special favors to none is my motto.

R. E. McWILLIAMS
(Poli. Adv.)

Industries Use Advertising To Bring In Scrap

Two Million Dollar Campaign To Stimulate Flow Of Scrap

DALLAS—Nation-wide advertising is being used with daily and weekly newspapers, the farm press, trade papers, magazines and radio to stimulate the flow of scrap metals into war production. The industries of America are financing the \$2,000,000 advertising campaign and the Bureau of Industrial Conservation of the War Production Board is assisting in the concentrated drive for scrap material.

"This campaign," said John L. Dellinger, regional conservation manager, "was undertaken by a group of the nation's leading industries, in cooperation with the Conservation Division of the W.P.B. and is closely integrated with the W.P.B.'s new national salvage program. The committee includes member companies of the American Iron and Steel Institute, which is concerned with assuring a continual flow of scrap metal into its plants, but is also using its advertising to stimulate the flow of other needed materials. The immediate response of industry in setting up machinery for the campaign was particularly gratifying, in so far as it helped us to clear the tracks for an all-out drive to bring in the scrap."

Although the current advertising campaign is designed to stimulate the immediate flow of scrap into war production, conservation officials emphasize that the overall scrap and salvage program is a continuing campaign throughout the war and it is essential that every ounce of scrap should be gathered for war production purposes. A dated drive does not mean that collection for that material will end at the time the drive ends; the scrap program and the war program are identical and inter-related, conservation officials said.

Mr. and Mrs. C. S. Denham returned the first of the week from a month's vacation trip to Lubbock.

Scott Peters was given a physical check-up last week in a Temple clinic and is back on the job at the Ozona National Bank.

Mrs. Bryan McDonald and children, Dick Lee, Patsy, Billy Joe and Donald, returned Tuesday from a stay of several weeks in Hereford, Texas. Mr. McDonald and another son, Charles, remained in Hereford where they are engaged in harvesting their wheat crop.

IS IT ALLOWABLE?

Looks like a splendid time to stop wondering so much about what the enemy can do to us, and start figuring on how much we can do to him.—Memphis Commercial Appeal.

Ships are being built at an unheard-of rate by auto-assembly-line methods. Throughout the country new and converted factories are manufacturing the "bits and pieces" which one shipyard alone, for instance, will soon assemble at the rate of 24 ships a month.

BIKES RATIONED
Bicycles have been added to the rationing program and Max L. McCullough, OPA region administrator, has announced that 4,173 machines will be allotted for sale in six Southwestern states during July. The actual date when county boards may begin issuing purchase certificates was delayed, to allow time for distributing application forms and certificates to the county boards. Mr. McCullough described eligibility as "broad" and as including "anyone engaged in a work which contributes to the war effort or to the public welfare." Beyond the hurdle of this eligibility rule, though an applicant must qualify under several other specifications.

To Wed Hopkins

Mrs. Louise Gill Macy leaves her home in New York after confirming news of her betrothal to lend-lease administrator Harry Hopkins. She revealed that the wedding may be held in the White House "probably around noon on July 30."

Miss Betty Lou Coates has been added to the staff at the Ozona National Bank during the summer vacation period.

Hitler today is the greatest slave master in history, cracking the whip of terror over millions of foreign workers dragged into the Reich either by force, threats or extravagant promises, rarely kept.

CLASSIFIED ADS
