School Opening Exercises At 9 Monday Morning

Rev. Eugene Slater To Deliver Opening Address To Assembly

Rev. Eugene Slater, pastor of the Ozona Methodist Church, who will leave next week for his new charge at Woodlawn Methodist Church in San Antonio, will deliver the principal address at the opening exercises of the 1942-43 school term in Ozona, Monday morning. The opening exercises will be held in the high school auditorium starting at 9 o'clock.

Rev. Slater will pronounce the invocation to open the exercises, the program to be launched with the singing of "God Bless America" by the assembly. C. S. Denham, superintendent, has announced.

Introduction of teachers new to the high and grade schools will follow. This group will include two new teachers and two transferred from the Latin-American school. Transfers are Miss Margaret Butler, who is being brought over from the Latin-American school to teach the third grade, and Joe Ripple, former principal of the Latin-American school, who is to succeed Dan Patterson as teacher of Spanish and history in high school. New teachers are Miss Maryguerite Flanken, who will succeed Miss Eleanor Neal as fourth grade teacher, and Arnold Kleinschmidt, who succeeds Cyril Pingelton as band director. Mrs. Bryan McDonald, president of the Parent-Teacher Association, will also be present.

Rev. Slater's address will follow. Miss Ruth Graydon will play a violin solo, with Miss Rebecca Anderson accompanying, and Judge Charles E. Davidson will speak briefly. Routine announcements will follow.

Pupils will go to their respective rooms to receive textbooks, and in case of the elementary grades, assignments for the work for the following day. Pupils will be dismissed after receiving books and assignments and classes will begin Tuesday morning.

Jury List For Sept. Term Dist. Court Announced

Sheriff Summoning Panels For Court Opening Sept. 21

Jury lists for the September term of the 112th district court of Crockett County, to open here September 21, have been placed in the hands of the sheriff's department and are now being summoned for duty.

The grand jury panel for the term includes the following persons: Ray Dunlap, Hudson Mayes, Jeff Owens, Vic Montgomery, Abe Carruthers, Walter Augustine, James Baggett, W. H. Bunger, Hugh Childress, Jr., Chas. E. Davidson, Jr., Richard Flowers, Roy Henderson, Joe Pierce, Jr., Jess Marley, W. W. West, Demp Jones.

The grand jury is summoned to report at 10 o'clock the morning of Monday, September 21, while the petit jury is ordered to report at 9 o'clock the morning of September 23, Wednesday.

The petit jury list contains the following names: B. G. Owens, Barnhart, J. A. Sparks, Troy Williams, Tom Powers, W. E. White, Early Berry, L. B. Cox, Jr., Watt Turner, Fred Hagelstein, Eugene Miller, Ben Robertson, L. M. Morrison, W. R. Cabaness, W. E. Friend, Jr., W. E. Douglass, S. S. Millspaugh, Jr., Foster Kirkpatrick, Chas. Butler, Cleophas Cooke, Ray Piner, Chas. Coates, Geo. Thompson, Jr., Arthur B. Phillips, Armond Hoover, John Foxarty, Paul M. Halcomb, Jack Wilkins, L. M. Spurgess, Ernest Brownrigg, V. I. Pierce, R. E. Caswell, Kyr Black, C. W. Tallaferro, Roy Miller, Roland Allard and D. K. McMullan, Jr.

NEW SHERIFF—Frank James, Ozona garage operator, Saturday was nominated in the Democratic run-off primary for the office of sheriff, assessor and collector of taxes for Crockett county. James defeated Deputy Sheriff R. E. McWilliams by a margin of 102 votes.

Interesting Analysis Of Possibilities Of World Readjustment After War Given By Houston Smith In Talk To Ozona Rotarians

An analysis of today's leading thought on the conditions that laid the groundwork for the present world conflict and some of the suggestions that are being advanced to readjust the world after the war to eliminate the conditions that make for new conflict was given in a talk by Houston Smith before the Ozona Rotary Club Tuesday noon to form one of the most interesting programs the club has heard in several weeks.

The problem as presented to today's thinkers and planners, Mr. Smith pointed out, is whether the world shall go on fighting a new and more horrible war each 25 years or so, or whether we shall so organize and adjust the world that we can eliminate the causes of war. Greed, he quoted the world planners, is one of the greatest causes of unrest and will continue to be until some step is taken whereby the rights of all peoples shall be recognized.

The world's problems are not racial but of good and evil, of liberty vs. oppression, or autocracy against democracy and of poverty vs. plenty, Mr. Smith pointed out, and he cited the Pacific ocean as one of the greatest problems to face the world after the war. The many races and creeds of nations of the Far East have created this problem, which is accentuated by a renaissance among the backward peoples of that part of the world.

America's part in readjusting the East is first to conquer Japan, the speaker declared, to occupy the country, to try its warlords for their crimes so that the people may be fully aware of them, and to finally encourage and aid the common masses of peoples to again take charge of their government, and to see to it that the nation's energies may never again go to armament.

Mr. Smith pointed to the planners' ideas of a Pacific council, a visionary idea at present, but one which may in time be the solution to the far eastern problem by welding its many races into a common objective for their common good.

The club had as visitors for the day C. L. McDonald, new principal of the Latin-American school, L. B. T. Sykes, high school principal, W. E. McCook, high school coach, and Ted White, former coach, now ranching on the Pecos river in Val Verde county.

Get in the scrap!

Last Dry Spots In County Soaked By Weekend Rains

Torrential Downpours In Some Areas; Ozona Gets 2 Inches

General rains which fell over the week-end in Crockett County erased the last of the county's remaining dry spots, located principally in the southern part of the county, where heavy rains fell this week.

The town of Ozona, too, missed consistently in the recent scattered showers which visited most other sections of the county, shared in the past week-end rains, and lawns and yards of Ozona residents received their first real watering since early in July. The week-end falls brought a total of 1.82 inches, which, added to a .2 of an inch early last week, made a total of a little over 2 inches for the week.

Torrential downpours in the northwest section of the county and adjoining counties early Sunday morning sent the Pecos river on a big rise and Howard Draw was running bankfull, with Live Oak creek also on a big rise. Sections of the county to the north and east, already soaked by heavy rains of recent days, were again visited.

Buyers Sought For \$6,200 War Bonds To Make County Quota

Wanted: A few more patriotic citizens of Crockett county to come forward within the next three or four days and purchase at least an additional \$6,200 worth of United States War Bonds.

That amount is all that remains unsold of Crockett county's August war bond quota of \$21,500—and only three more week days are left in the month in which to sell the additional amount necessary to put the drive over the top for August.

Crockett county fell short of reaching its July quota for the first time this year. Scott Peters, county war bond sales chairman, is anxious that the failure not be repeated this month, especially in view of the fact that the August quota was reduced some \$5,000 from the previous month. Total sales to yesterday afternoon at the bank and the postoffice for the month were \$15,300.

There's the story. If you are planning to buy a bond or bonds, do it today, and let's go over the top for August.

Schools To Open On War Time But May Be Changed

Efforts To Get Lighting Equipment So Far Have Failed

Ozona schools will observe war time, at least during the first few weeks of schools and probably until the middle of November, when the board may decide to advance classes unless material and equipment can be secured in the meantime to install a lighting system in the elementary grades.

This is the announcement of Supt. C. S. Denham on the difficult problem which faced school authorities here last year with adoption of war time during the winter months.

So far, the school board has been unable to find a contractor who can furnish the necessary material and equipment for rewiring and installing lights in all the grade school rooms, which will be necessary each morning if the early war time opening is observed. School authorities have not given up hope of being able to secure the necessary equipment, however, Mr. Denham said, and it is possible that the work can be completed before the need arises.

Mrs. George Bunger, who is in a Topeka, Kans., hospital, is reported materially improved this week.

FRANK JAMES WINS RACE FOR SHERIFF OVER McWILLIAMS IN RUN-OFF PRIMARY SATURDAY

Vote Is 347 To 245 On Count Of Official Returns; O'Daniel Loses First Time In This County

Frank James, Ozona auto agency and service station operator, will be sheriff, assessor and collector of taxes in Crockett county for the next two years, beginning next January 1, as a result of his nomination at the hands of voters in Saturday's Democratic run-off primary election.

James won the nomination by a margin of 102 votes over his opponent, R. E. McWilliams, present deputy sheriff under Mrs. W. S. Willis, appointed to serve out her late husband's term in the office. The semi-official vote for the county, complete and official canvass

except for one box from which only unofficial returns were available, gave James 347 votes to 245 for McWilliams.

In the first primary election in July, with a field of four candidates seeking the sheriff's office, McWilliams led the other three in total votes, and was 75 votes ahead of James, his nearest opponent. The vote was McWilliams 288, James 213 and 131 votes for the other two candidates, Roscoe Coates and M. C. Couch.

The hotly contested second primary saw a reversal of many voters, McWilliams' vote dropping off a net total of 43 from his first primary total and James mopping up an additional 134 to his camp. The total vote as registered in the sheriff's race was an even 40 less than in the first primary.

James made his heaviest gain in the county's largest voting box, Ozona, while half of McWilliams' total loss from the first primary vote was registered here. James polled 296 votes in the Ozona box in the run-off, a gain of 126 from his 170 total of July 25, while McWilliams slid from 213 in the first primary to 187 Saturday. Less spectacular reversals were registered in all the other county boxes save two, James showing gains over his first primary vote and McWilliams losing. Only in the Kinser box was the first primary proportion held, each candidate losing two votes. In Powell Field, heavily McWilliams in both primaries, McWilliams lost one while James lost three.

The vote by boxes in the sheriff's race, all official returns except the Powell Field voting Precinct No. 2, which is the unofficial report, was as follows: Ozona box: James 296, McWilliams 187; Powell Field: James 3, McWilliams 25; Owens box: James 12, McWilliams 6; Howard Well: James 15, McWilliams 6; Thompson box: James 4, McWilliams 13; Pecos Valley Power and Light: James 9, McWilliams 9; Kinser box: James 8, McWilliams 4.

For the first time since he has (Continued On Last Page)

Mrs. Penry advised with chapter officers and members on work that is expected of each chapter in war time and urged complete organization of the chapter for any emergency. She complimented the Crockett chapter on its production program and successful war drive, and urged that disaster relief be organized and the home nursing program instituted at once.

The Red Cross will not stage its annual Fall roll call this year, but will combine the membership drive with the 1943 war fund campaign to be held next March.

More Lambs From Crockett Range Move Out At 11-Cent Price

Lambs are getting scarce in Crockett county and buyers are beating the brush to buy them at 11 cents a pound. They've not all been sold, but perhaps contracts are already signed for most of Crockett county's 1942 crop and, with buyers on the hunt, the balance won't be long unsold.

Deliveries will be strung over a period which will last from now until early in October and possibly some in November.

Among sales during the past week here at the 11-cent figure were 3,000 mixed lambs by Roy Henderson to Amos Womble, 1,000 mutton lambs by George Bean and 1,500 mixed by G. M. Couch to Chas. F. Waller of Roswell, N. M.

3,000 mixed by Bob and Bill Bissett to Alvin Neal, 4,300 by Rob and Roy Miller to Curtis Poyner on northern orders, 1,800 by Hugh Childress, Jr., and 1200 by Hicks and White to W. L. Kothmann of Menard.

Army Accepts Eight Of Eleven Ozona Selectees

Return On Leave Until Sept. 5; Reject 3 On Physical Tests

Eight out of eleven selectees sent by the Crockett County local board to the induction station in Abilene Friday of last week were accepted, three being rejected because of failure to pass physical examinations.

The eight inducted were transferred to the enlisted reserve and given two-weeks leave immediately and returned to their homes here to await their call for active duty on September 5. Men accepted were Jesus Cadena, Gonzalo A. Perez, Rafael Munoz, Antonio Cardona, Rafael De la Cruz, Anastasio De Hoyas, Guadalupe R. Guerrero, and Alexander V. Garcia.

Rejected at the induction station were Robert Eugene Dolan, Nasario San Miguel and Estevan C. Salazar.

An informal farewell gathering of citizens was on hand Friday at the bus station to see the boys off. Andrus Tijerina was passing out 21 bills to each of the boys and Early Baggett was seeing that each had a package of cigarettes.

SUBSCRIPTION RATES:

One Year - \$2.90
Six Months - \$1.25
Outside of the State - \$2.50

Notices of church entertainments where admission is charged, cards of thanks, resolutions of respect and all matter not news, will be charged for at regular advertising rates.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected up on calling the attention of the management to the article in question.

THURSDAY, AUG. 27, 1942

SEDITION AND TREASON

Fifteen years is the sentence imposed on Fascist-minded William Dudley Pelley—not long considering the trouble he has stirred up and the racial antagonisms created, but long enough to get him out of the way for as long probably as this war will last. The only difference between Pelley and Hitler and Mussolini was the quality of leadership and ability to put across cockeyed ideas. His objectives were the same, and he would have pursued the same methods in transforming democratic America into a totalitarian state. He got too big for his britches long ago, but a tolerant Government put up with him until, it charged, he got criminally seditious. Then it went to work on him, and with success. The list of those finding their way to prison because of seditious activities is growing. California's long seemingly immune Noble is on it, as are a number of others who cluttered up the American scene too long with their antidemocratic rantings and plottings. The list isn't near so long as it should be, but there is ample reason now to believe that Washington has finally come to its senses and has outlawed treason and sedition for the duration at least.—Memphis Commercial Appeal.

TAXES AND EXISTENCE

There are signs that the Senate Finance Committee is beginning to look at the effect of taxation with increasing realism. No one doubts that taxation will be heavy for many years to come. The size of the national debt itself makes that certain. But the continuation of large tax-yields requires that the business and industry of the country be left enough to keep going. This is a matter, not of profit, but of bare existence. As former Governor Hobby of Texas, publisher of the Houston Post, told the committee, there are many businesses which never will have war contracts and are losing, instead of increasing, their revenues. If

FIRE CONTROL STATIONS

An authority on fire-fighting recently said that practically all fires could be extinguished with a glass of water at the beginning. The great, destructive fires, in other words, are caused largely by delay in discovering and fighting them.

In these days, when maximum conservation of materials and labor is vital, fire control is the duty of everyone—housewife, executive, foreman and worker. And fire control has two distinct phases. The first phase is fire prevention. That simply means that every home and every place of business must be periodically inspected, and all fire hazards, no matter how minor they may seem, promptly eliminated.

The second phase is fire prevention. And it isn't enough to depend on your local fire-fighting department, no matter how good it is. A fire which could be immediately put out in its first stage may turn a home or a factory into a raging inferno in a matter of minutes. A little equipment, plus a little knowledge, makes it possible for any one to extinguish the average fire safely and swiftly.

It is well to have a chemical extinguisher of an approved type on hand. In addition, have a supply of sand and a hose where you can reach them instantly. Sand is a first-class extinguisher, and should be used wherever it is too difficult to reach a fire with water. When you tackle a fire, move fast—and don't get excited.

Everyone who can should take advantage of the fire control instruction given by civilian defense organizations. The lessons on how to defend ourselves against incendiary attack can be applied with equal force to all other kinds of fire. The goal we must strive for is to make "every house a fire control station."

they incurred debts before the war, and before there was any thought of such tax rates as those next year will be, they are caught between taxes and the amortization of their debts. A relatively small credit in taxes to such concerns might, as Mr. Hobby said, even help the Treasury in the long run by preventing "a sentence of death being passed on thousands of businesses in this country." —Pittsburgh Post-Gazette.

WHY INTELLIGENT?

A pneumatic rubber boat for pursuit pilots may be inflated in less than 10 seconds, like a spell-binder coming unexpectedly upon a sea of intelligent faces.—Detroit News.

SUPER-SOMETHING

Goebbels calls British air raids on German cities "dastardly attacks," but he doesn't say what German air raids on London and Coventry were.—Arkansas Gazette (Little Rock)

WAR'S PRIVATIONS

Going against the tide, many a wife will tell her husband that it's time to get rid of that second front.—New York Sun.

SHOOTING THE WORKS

DEATH TO TRAITORS

When Max Stephan, Detroit restaurant-keeper and a native of Germany, was granted the high privilege of citizenship through the naturalization process, he swore to be loyal to his country of adoption. A pledge of fealty was all which was demanded of him in exchange for the benefits he received. When a Nazi flyer escaped from a Canadian prison camp, fled across the border and appealed to Stephan to aid his flight, Stephan forgot his obligation and the hospitality of his adopted land and became an enemy agent by helping the fleeing flyer. The latter was caught, and, as seems to be a feature of Nazi makeup when one of them gets "in a jam," he promptly told everything he could to incriminate Stephan. A jury heard the evidence against the restaurant-operator during a treason trial, found him guilty, and now he has been sentenced to death. That sentence, the security of this country being chief, must be permitted to stand. In passing sentence Federal Judge Arthur Tuttle had this to say, and it should be a guide for all judges before whom traitors are brought: "The life of this traitor, Max Stephan, is less valuable than the lives of our loyal sons which are being given to the cause of the United States. . . . This court should, in no hesitating or uncertain way, say to the disloyal element that during this awful war the penalty for treason is death." We hang, shoot or electrocute the slayers of individuals without compunction, but for those who would bring about the death of a Nation we have shown

consideration almost beyond intelligent comprehension. It is all very well to debate necessity for not straining the quality of mercy, but in total war—in periods where the national life hangs in balance—the only law worth operating under is the old Mosaic viewpoint of demanding an eye for an eye or a tooth for a tooth. Either the traitors die or we die.—Memphis Commercial Appeal.

PRESENT TO HOLLAND

The presidential gift of a submarine-chaser to Queen Wilhelmina of The Netherlands was a gesture of international good-will that has the indorsement of his countrymen everywhere. We are wholeheartedly for the Dutch in their present distress. Their country is overrun by Germans. Their East Indian possessions have been seized by the Japs. Queen Wilhelmina is in exile, a welcome guest in our own country. The transfer of the PC-468, one of the latest of sub-chasers, to the Holland navy and its rechristening as the Queen Wilhelmina, does not mean it will be less useful to us. The Dutch crew in charge will fight the common enemy with all the zeal that could be expected from Americans. The gift will help to emphasize the friendship and unity existing between us and The Netherlands fighting in common cause. One feature of the presentation that will be important, particularly in this country, is the light it sheds on the authority granted to the President under the lend-lease act. He did not lend or lease the warship; he gave it to Queen Wilhelmina as the head of her government.—Indianapolis Star.

THIS BUSINESS OF Living BY SUSAN THAYER

To Help Win the War

The kitchens of the nation are in this war too and you and I are soldiers of production. A different kind of production, to be sure, from that which is taking place in the plants and factories of the United States, for what we have to produce are health and endurance and good spirits in the members of our families—and in ourselves.

Look at your pots and pans in a shining row above your kitchen tables or stacked neatly in one of your cupboards. They are the tools for your all-important job of producing the right foods for your family. Not foods that merely taste good—although that's important. But foods that deliver all the vitamins, all the mineral salts, all the energy elements a human body needs for functioning on high through long hard days of work.

Instructions for proper nutrition are on every hand today. The food industry is spreading the news in its advertising Magazines are carrying stories about it. The government is sending out information about it and the Red Cross is holding nutrition classes all over the country.

So let's take our job of food preparation seriously. Let's see that each day's meals contain all of the basic food elements. And if some member of your family is

working at a war production job, look after his diet especially. For our war workers need to be on the job every day these coming months, since battles can be won only when there are enough tanks and guns and planes on the fighting front.

At present over 8 million lunches are packed for war workers every day. If one of those lunches comes out of your kitchen, see that it measures up to the standards set by the nutrition experts. See that it contains at least one vegetable and some fruit as well as hearty, energy-building sandwiches and a refreshing nourishing drink. See that it's a lunch a man—or woman—can work on. And have it fit in with the meals he eats at home so that he day's intake of food is balanced.

Our food industry, which is sending billions of pounds of food over seas, is still providing us with everything we can possibly need. Let's see that we do our part in using it effectively so that our families will be energetic, confident, cold-free and courageous all this coming fall and winter. Let's stop wishing we could be a WAAC or a Wave or a worker on the industrial assembly line and do our all important job of food production 100 per cent at home. In that way you and I will help win this war.

Side Glances on Texas History

By Charles O. Hucker, University of Texas Library

MRS. MANN'S OXEN AND SAM HOUSTON

The story of Mrs. Mann, a "cousin" and outspoken pioneer Texas woman, and her oxen is part and parcel of every tale that is told about the march of the Texian army to San Jacinto.

All versions agree that General Houston met his match in this fiery woman, who first loaned her oxen to pull the army's cannon through the mud, then demanded that the animals be returned, and finally took her property by force under the very noses of the general and all his men!

A particularly graphic description of this encounter is given by one of the soldiers in Houston's army in the "Narrative of Robert Hancock Hunter, 1813-1902," a copy of which is found in the University of Texas Library's 30,000-volume Texas Collection.

"YOU TOLE ME A DAM LIE"

It was at Groce's crossing on the Brazos that the army met Mrs. Mann and her two wagons and teams. "There had been a great deal of rain and roads were very bad," Hunter wrote. "Mrs. Mann said to General Houston, general, if you are going on the Nacogdoches road you can have my oxen, but if you go the other to Harrisburg you can't have them. I want them myself. Houston said well I am going the Nacogdoches road but he did not say how far he would go on it."

At the fork of the road, Houston took the right turn to Harrisburg, instead of the left to Nacogdoches. "We go about 10 or 12 miles down the road, and Mrs. Mann, over took us, out on the big prairie hog wallow and full of water and a very hot day.

"She rode up to the general, and said, general you tole me a dam lie, you said that you was going on the Nacogdoches road sir I want my oxen. Well Mrs. Mann we can't spare them. We can't git our cannon a long with out them. I don't care a dam for your cannon, I want my oxen. She had a pair

TIRE RATIONING TO TIGHTEN

Instructions to prune their truck tire eligibility lists in preparation for a slash in the September tire quotas were given to State rationing officers of Texas, Oklahoma, Louisiana, Arkansas, Missouri and Kansas at a meeting in Dallas last week. W. A. Orth, Southwest region rationing officer, said local war price and rationing boards will be asked to hold strictly to the terms of a recent amendment restricting truck eligibility for tires to vehicles essential to the war effort or to public health and safety. "We are doing our utmost to keep essential trucks rolling, but it is fast becoming an uphill fight," Mr. Orth declared.

of holster pistols on her saddle pommel and a very large knife on her saddle. She turned a round to the oxen, and jumped down with a knife and cut the raw hide tag that the chain was tied with. The log chane hook was broken and it was tied with raw hide. No body said a word. She jumped on her horse with a whip in and, and way she went in a lope with her men."

An officer, Captain Rohrer, whom Hunter called "Rover," offered to pursue the oxen and their owner, and Houston let him go, calling after him, "Cap. Rover that woman will fite. The Cap. said dam her fiteing."

"Houston jumped down off his horse, and said come boys, lets get this cannon out of the mud. The mud was very near over his boot top. He put his shoulder to the wheel, and 8 or 10 men more laid hold. Out she came and on we went, and got down about six miles and camped, at big met of timber. About 9 or 10 o'clock Capt. Rover came in to camp. He did not bring any oxen."

"Victory lunches" that follow food-for-freedom diet rules are now being served to war workers in the cafeterias of one large company. For 30 cents, workers can now get meals consisting of a liberal helping of meat, fish or eggs; vegetables; whole wheat or enriched bread; butter; and milk or a milk dessert.

Willie: "Pa, what is temperment?" Pa: "Just a fancy name for crossness, son."

Governor Hits Iron Ore Delay

AUSTIN — With the Federal Government and steel companies worrying over shortages in steel iron ore and scrap metal, Governor Stevenson Thursday expressed wonder why there is delay in development of East Texas as well as Llano County ore deposits. He was critical of red tape and the administration of boards having control of ore production. Geologists have estimated that East Texas has 200,000,000 tons of iron ore deposits.

"There would be no shortage of ore, steel or need for more scrap iron if they would cut out further delay and begin producing iron ore in East Texas," the Governor said. "There is plenty of iron ore there for all needs, even in this emergency. While I know some things have been done toward production these steps were taken long ago, and so far not a ton has been taken out as far as I know."

"But, unfortunately for Texas, the group of men in charge of production for the Government are heads of enormously large steel companies of the East, who probably are not in any hurry to see the Texas iron industry develop." In Llano county, he said, the iron ore is of such high quality that horseshoes can be made from it without processing. "I have actually seen this done," he said. "I doubt if heads of steel companies or Washington are aware of it."

The Governor said he had received a request to scrap all the rails now being used on the state-owned railroad in East Texas, a 30-mile line, but that he had refused.

"Why should those iron rails be scrapped when the railroad is now in service and transportation is greatly needed?" he demanded. The state road was built many years ago to carry ore to a state-owned foundry at Rusk. The line is now leased to the Southern Pacific.

Discussing proposed gasoline rationing in oil States, Stevenson declared:

"If Texas should ration its gasoline Eastern states would not receive one additional barrel of oil or gasoline, so plan for ordering such rationing, as far as Texas is concerned, is wholly impractical and useless. No one would gain, but Texas would lose. The people of Texas may be led to something but they will never be forced."

"Then, could any rubber be saved as a result of this gasoline rationing? Eastern states certainly would not receive any additional rubber as a result. Texas collected 35,000 tons of scrap rubber, very near the top in this conservation effort. While there has been talk by some bureau chiefs of taking tires from cars now in use, I do not think this will ever be done—not in Texas."

In view of the wide interest taken by all citizens in increased taxes for rubber saving, priorities, steel

needs, war bonds, proposed gasoline rationing and alleged meat shortage, Stevenson commented: "This shows the war is an issue in the minds of the people."

Men Offered Chance To Serve Air Corps At New Angelo School

An opportunity to join the air force with initial service at the nation's newest bombardier school soon to open near San Angelo was offered yesterday by Colonel George M. Palmer to men who can qualify for special training as metal workers, mechanics, radio technicians and welders. Applications by letter or in person may be made from 8 a. m. to 4:30 p. m. at Room 302 McBurnett Building, San Angelo.

Several hundred specialists will be required when the school is in full operation. Before the quota is filled from personnel pools in other parts of the country, qualified local residents will be given an opportunity to enlist for initial service at the bombardier school. Those who are qualified will be given an intensive course at the field in one or another of the most important of the air forces specializations: Aircraft mechanics, aircraft armorers, aircraft radio mechanics and operators, aircraft metal workers and aircraft welders.

In announcing the new enlistment program Colonel Palmer pointed out that the training of bombardiers was one of the most important jobs in the war effort. "The mechanics, welders, radio technicians and metal workers who participate in that educational job," he said, "are doing as much to 'Keep 'Em Flying' as any soldier in the air force."

"Men selected for this special group will be given a brief period of basic military training at a nearby reception center and then returned to San Angelo for further training in their specialization at the new bombardier school. Anyone who lives in or nearby San Angelo with some experience in welding, metal work, radio or mechanics, may without obligation discuss his qualifications with Lieutenant Lemes, Room 302 McBurnett Building, San Angelo."

Advancement to a non-commissioned officer's rating will be open to those whose progress meet specifications. In the air force, due to the special technical training required of many soldiers, there is an unusual number of these post open to enlisted men. Experience in the past has also shown that when a new field opens up it frequently expands in size and that advancement is often unusually rapid for those qualified enlisted men who are among the first assigned to the field.

A war material manufacturer has developed a maintenance unit to cope with breakdowns if factories are bombed. Its two main purposes are to clear away debris and to act as a temporary unit to avert a stoppage of production.

Army's New 15-Place Commando Glider

These pictures just released by the army air forces, show the first of the new 15-place troop-carrying gliders, the CG-4A, now in quantity production. The glider can carry 15 fully equipped men, including pilot and co-pilot. It has a wing span of 83 feet, 8 inches, and a length of 48 feet, 3 inches. At the top we get a good idea of the glider's size by comparing it with the size of the men. Below is an interior view showing pilot and co-pilot at the controls.

SAMPLE COPY ON REQUEST

TYPEWRITERS NEEDED

War Production Chairman Donald Nelson has appealed to American business to sell to the government as many typewriters as can be spared. In a letter to 25,000 of the largest users of typewriters, he has pointed out that the Army and Navy need at least 500,000 machines. Less than a third of this number can be had from manufacturers. A typewriter is an essential piece of equipment for every bomber, battleship, aircraft carrier, cruiser and destroyer.

Used typewriters will be bought by new typewriter dealers and factory representatives, serving as agents for the procurement division of the U. S. Treasury Department. The machines should be standard typewriters, made not earlier than January 1, 1935.

UTILITY CONSTRUCTION HALTED

At the request of the Secretary of War and in view of critical shortages of copper and steel which are affecting important parts of the war production program, WPB has halted further construction of electric power and light projects which it previously had allowed to proceed on the basis of 40 per cent completion on December 5, 1941. The action applies to both public and private utilities. Under the WPB order, no additions or expansions to electric systems are permitted except as specifically authorized by the Director General for Operations.

A modern bomber is composed of more than 40,000 individual parts and requires 360,000 rivets.

DELIVERED FRESH TO YOUR DOOR EVERY DAY

You never outgrow the need for

MILK

Milk contains more of the essential elements with which the body must be supplied daily to build and maintain good health than any other food. Milk supplies CALCIUM and PHOSPHORUS to build bones, teeth and muscles and regulate vital processes... supplies vitamins A, B, and G to build up bodily resistance to infection, protect against nerve and skin diseases, stimulate appetite and digestion... supplies PROTEIN to build and rebuild worn-out muscles and organic tissues. Make sure you are receiving sufficient milk daily to assure a normal balanced diet.

Bomb 'em with JUNK

JUNK NEEDED FOR WAR

Scrap Iron and Steel

Needed for all machines and arms of war. Fifty per cent of every tank, ship and gun is made of scrap iron and steel.

Other Metals—Rubber—Rags—Manila Rope—Burlap Bags

Needed for making bombs, fuses, binoculars; planes; tires for jeeps; gas masks; barrage balloons; wiping rags for guns; parachute flares; insulation for electric wiring.

WASTE COOKING FATS—Strain into a large tin can and needed ONLY IN CERTAIN LOCALITIES—Waste paper and tin cans—wanted only as announced locally. NOT NEEDED (at this time)—Razor blades—glass.

Let's blast Japan—and Germany—and Italy—with the chain lightning of destruction that can be built from the scrap in our cellars, attics and garages, on our farms and in our places of business.

Scrap iron and steel, other metals, rubber and waste materials. It will all be used to make tanks, ships, planes and the fighting weapons our boys must have. It is needed at once.

Sell it to a Junk dealer—give it to a charity or collection agency—take it yourself to the nearest collection point—or consult the Local Salvage Committee... If you live on a farm, and have found no means of disposing of your Junk, get in touch with the County War Board or your farm implement dealer.

Throw YOUR scrap into the fight!

Eugene Slater, Minister
the Methodist Church

"He restoreth my soul." (Read Psalm 23).

This familiar verse from the 23rd Psalm is given a fresh meaning in one of the newer translations: "He gives me new life." God knows that we need new life; our souls need restoration. The daily round, the ever-recurring reverses, a neighbor's trouble, a friend's anxiety, an earth whose ploughed furrows run deep with human blood—all these cry out for new life and for a restoration of soul.

We frequently overlook the ways in which God restores our souls. Not so long ago I came to the end of the day exhausted. But a dinner in the home of friends, lively conversation and wholesome games gave me new life; my soul was restored. An acquaintance tells of his discouragement after he met with serious losses in his business. But a close friend came to him, counseled with him and showed him how he could profit by his unhappy experience. Thus did he gain newness of life. A nurse in the first world war was worn out with too long periods of duty. She told the doctor in charge of the hospital that she was going to church. He advised

THE METHODIST CHURCH

Eugene Slater, Minister
Calendar of Services
Sunday School, 9:45 a. m.
Morning Worship, 11 a. m.
Evening Worship Baptist Church, 8:30 p. m.

On this Sunday our teachers will be back in Ozona for the opening of school. We welcome the old ones and the new ones, and we cordially invite them to the services of the churches in Ozona. No group is more important to the preservation and enrichment of democracy than our public school teachers. They give no little bit to the total life of our community. We are happy to have them among us.

There are numbers of new people in Ozona just now with the oil crews. We want these people to find a place in the church life of our town. We need them, and they need us. Invite some newcomer to Ozona to come to church with you Sunday.

her to go to bed, and get some rest, but she followed her impulse to go to church. In the majestic hymns, the quiet music, the noble Scripture and sermon God came into her life. She left the services with a strength and peace that she had not known for months.

Someone who reads these words might be saying, "Oh that I knew where I might find Him for I desperately need a new life." If that is your need and if you really want Him to give you new life you need only to give yourself to Christ. Even now He is saying, "Behold I stand at the door and knock; if any man hear my voice and open the door, I will come in." He who makes all things new will give you newness of life.

Prayer: Give us a new spirit, O Lord, in exchange for our tired, broken lives. Then shall we find joy in living, and so shall we be able to serve Thee. Amen.

Longhorns Open '42 Season Against Navy Eleven From Corpus

AUSTIN — The University of Texas Longhorns will open their 1942 football season with a game here on September 19 with the Corpus Christi Naval Air Station eleven, Coach D. X. Bible has announced.

This game—proceeds of which, above expenses, will go to the Navy Relief Fund—will precede the University's regular schedule which begins September 26 with a game with Kansas State College.

Ozona Boy Likes Life At NYA School

Dan Gerdes, son of Mr. and Mrs. Carl Gerdes of Ozona, a graduate of Ozona High School with the class of last May, writes that he likes life at the NYA training school in Ranger, where he is studying mechanics. "This camp is just like a big family. It is really easy to get acquainted here," he writes.

Dan is just beginning machine work study, and plans to take airplane mechanics as soon as an instructor is available. He says the airplane factories are taking men at 17½ years and with 3 months training from the school.

Mrs. Earnest Sparkman Leases Quick Lunch

Effective September 1, Mrs. Earnest Sparkman has leased the Quick Lunch Cafe, on Broadway next door to the James Motor Co., from Mr. and Mrs. Fred Walker, owners.

Mr. Walker plans to leave Ozona to begin training for war work. Mrs. Sparkman announces that she will feature home-style cooking in the cafe, she to do her own cooking.

Scrap Rubber Moving To Use

Scrap rubber collected in the recent whirlwind drive now is moving to reclaiming plants at the rate of 200 cars every 24 hours, WPB's conservation division reports. This movement represents a shipment of 4,000 tons a day. A nation-wide collection of 454,155 tons resulted from the President's recent scrap rubber campaign. Continued salvage of scrap rubber is urged to build up the 1943 stockpile.

Junior Salvage Corps Is Planned

Due to begin operations on Oct. 5, when all schools will be open, the junior salvage corps which WPB's conservation division plans to organize from the more than 30,000,000 boys and girls of school age should play a big part in the collection of scrap materials for the war program. Membership in the corps is on a voluntary basis and the enlistment term 2 weeks. Details of the program will be made known to about 875,000 school teachers of the nation.

Mr. and Mrs. J. C. Montgomery have as guests this week Mrs. Montgomery's mother, Mrs. Jim Mitchell, and her niece, Miss Rozella Mitchell, daughter of Mr. and Mrs. Bill Mitchell, of Fort Stockton.

Charles McDonald, son of Mr. and Mrs. Bryan McDonald, who has spent the summer in Hereford, returned to his home this week to get ready for school opening. Mr. McDonald will be in Hereford a few weeks longer.

"Never let a disappointment be carried over into a new day."

Kimble Co. Angora Goat Breeders Hold Auction Sa'e Aug. 29

Kimble County breeders of registered Angora Goats will hold their first county breeders auction sale in Junction, Saturday, August 29. The future of the Angora business is brighter and many breeders are looking for good foundation stock. The sale starts at one o'clock.

Several of the pioneer Angora goat breeders live in Kimble County and will have approximately 300 of the choicest registered does in the sale. It will be worth a trip to Junction to see the best registered does in America and talk with men who have spent many years breeding the best.

Mrs. Scott Peters is in San Antonio this week for medical attention.

Citation by Publication THE STATE OF TEXAS TO: SEPRIANO SALINAS GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 21st day of September, A. D. 1942, at or before 10 o'clock A. M., before the Honorable District Court of Crockett County, at the Court House in Ozona, Texas.

Said plaintiff's petition was filed on the 2nd day of Jan., 1941. The file number of said suit being No. 782.

The name of the parties in said suit are: Felicitas Rivera Salinas as Plaintiff, and Sepriano Salinas as Defendant.

The nature of said suit being substantially as follows, to wit: That on or about November 19, 1933, she was lawfully married to the Defendant in Ozona, Texas, and that she continued to live with him as his wife until about September 18, 1938, when by reason of the cruel and harsh treatment and improper conduct of the Defendant toward this Plaintiff, she was forced and compelled to abandon him, since which time they have not lived together as husband and wife.

Plaintiff alleges that during all of the time she was married to the Defendant and lived with him as aforesaid, that she was a kind and affectionate wife, and did her best to make him happy and make their marriage a success, but the Defendant unmindful of his marital vows, immediately after their marriage, began a course of unkind, harsh, cruel and tyrannical treatment toward this Plaintiff which continued until the Plaintiff was forced and compelled to abandon the Defendant as aforesaid. Plaintiff states that the Defendant drank all of the time, and all the money he made was spent on liquor, that he did not support this Plaintiff and that she had to work all the time in the vineyards in California to support herself and that the Defendant spent all he made on liquor; that he stayed drunk all the time when he could get the money to buy whiskey; Plaintiff further states that every time he became drunk he would curse and abuse this Plaintiff, curse her before her friends, tell false things on her, and that while he did not beat this Plaintiff, yet, he would grab her by the hair of the head and swing her clear off the ground, and Plaintiff says that she stood this conduct for five year and that when she could stand it no longer, she abandoned him.

Plaintiff alleges that the Defendant's action and conduct towards her generally are of such a nature as to render her further living together as husband and wife, insupportable, the premises considered.

4. Plaintiff further alleges that there are no children born to them out of this marriage and that they have no community property.

WHEREFORE, Plaintiff prays the Court that the Defendant be cited to appear and answer herein as required by law and for judgment dissolving the marriage relations and that she be given a divorce from the Defendant, for cost of suit and for such other and further relief, special and general, in law and in equity, that she may be justly entitled to.

Issued this the 5th day of August, 1942.

Given under my hand and seal of said Court, at office in Ozona, Texas, this the 5th day of August, A. D. 1942.

(SEAL) GEO. RUSSELL
Clerk District Court, Crockett County, Texas. 17-4c

Citation by Publication THE STATE OF TEXAS TO: ELMER DORAN GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 10th day of September, A. D. 1942, at or before 10 o'clock A. M., before the Honorable District Court of Crockett County, at the Court House in Ozona, Texas.

Said plaintiff's petition was filed on the 20th day of July, 1942. The file number of said suit being No. 793.

The names of the parties in said suit are: Verda Doran as Plaintiff, and Elmer Doran as Defendant.

The nature of said suit being substantially as follows, to wit:

That on or about the 15th day of October, 1931, Plaintiff and Defendant were married in Ozona, Crockett County, Texas, and that they continued to live together as husband and wife, until on or about the 20th day of July, 1939, when the Defendant, without any just cause, permanently abandoned this Plaintiff and that since said date, they have not lived together as husband and wife; Plaintiff further states that during said three years in which she has been abandoned by her said husband that she has had to wholly support herself and child and that he has neglected and refused to contribute to their support.

Plaintiff alleges that there is no community property belonging to Plaintiff and Defendant.

Plaintiff further alleges that one child, a girl, now ten years of age, named Elenor Doran, was born to this marriage, and Plaintiff

tiff prays the Court that Defendant be compelled to contribute a reasonable amount to the support of said child; and that the sum of \$10.00 per month would be given the care and custody of said child, which she has had since its said father, the Defendant, abandoned it.

WHEREFORE, Plaintiff prays the Court that the Defendant be cited to appear and answer herein, and that she have a judgment dissolving said marriage relations, for cost of suit, for the care and custody of her said child, Elmer Doran, for judgment against said Defendant, for a reasonable amount for the support of said child, and for such other and further relief, special and general, in law and in equity that she may be justly entitled.

Issued this the 29th day of July, 1942.

Given under my hand and seal of said Court, at office in Ozona, Texas, this the 29th day of July, A. D. 1942.

WHY.... ADVERTISE when over sold?

Scores of companies are advertising today, although due to war demands, their entire production is sold for a year, and in many cases for two years in advance. Why do they advertise?

Because they have vision. They know that the over-sold situation, like the war, will come to an end some day. They know that the buyers of the future must be sold today. The process of educating must be continuous, through prosperity and through adversity.

The men who will occupy positions of responsibility 5 or 10 years from now are ambitious, studious, eager for information. They are keen readers of their trade and technical journals. They will be chosen for promotion because they will be ready for advancement.

These are the men who are reading the advertisements of companies whose products they will one day be called upon to purchase.

That's one of many reasons why farsighted leaders of industry continue to advertise when they are oversold.

Betty Lou Coates Ace Club Hostess

Miss Betty Lou Coates entertained the Ace Club Tuesday afternoon in the Roy Parker home. Zinnias and dahlias decorated the room.

Mrs. Jack Baggett won high, Miss Doris Bunker, second high, and Miss Mary Alyce Smith, bingo.

Others attending were Mrs. Tommie Harris, Jr., Mrs. Joe Nussbaumer, Mrs. Joe Thomas Davidson, Miss Catherine Childress, Miss Helen Mayes, Miss Mary Alyce Smith, Miss Eloise Carson, Miss Doris Bunker, Miss Mary Margaret Harris, Miss Helen Mayes, Miss Elizabeth Coose.

Baggetts Hosts To Forty-Two Club

Mr. and Mrs. J. M. Baggett entertained their forty-two club Friday night. Rev. and Mrs. Eugene Slater were presented a gift and N. W. Graham won high for the men, Mrs. Heyward White high for the ladies, W. R. Cabaness, low for men and Mrs. P. T. Robison low for the ladies.

Those present were Mr. and Mrs. M. Johnson, Mr. and Mrs. Cabaness, Mr. and Mrs. John Bailey, Mr. and Mrs. Graham, Mr. and Mrs. Robison, Rev. and Mrs. Eugene Slater, and Mr. and Mrs. White.

Mrs. Dempster Jones 20th Century Hostess

The Twentieth Century Club met with Mrs. Dempster Jones at the home of her mother, Mrs. Joe Pierce, Jr., Saturday afternoon.

Mrs. Paul M. Hallecomb won high, Mrs. Fred Hagelstein low, and Mrs. Eugene Miller bingo.

Others attending were Mrs. Sid Millsbaugh, Mrs. Joe Clayton, Mrs. Joe Sellars Pierce, III, Mrs. Ralph Jones and Miss Wayne Augustine.

Elizabeth Coose Entertains Aces

The Ace Club met with Miss Elizabeth Coose Saturday afternoon. Miss "Mac" McWilliams won high, Mrs. Buddy Moore second high, and Miss Catherine Childress, bingo.

Others present were Mrs. Joe Nussbaumer, Mrs. Joe Thomas Davidson, Mrs. Bill Friend, Mrs. L. T. Patterson, Mrs. Tommie Harris, Miss Billye Jo West, Miss Betty Jane Ingham, Miss Betty Coates, Miss Helen Mayes, Miss Mary Alyce Smith, Miss Eloise Carson, Miss Doris Bunker, Miss Mary Margaret Harris.

Picnic Supper Ping-Pong Party

Miss Betty Jane Ingham entertained with a picnic supper and ping-pong party Tuesday evening at her home.

Those present were Eloise Carson, Billye Jo West, Johnnie Boyd, Helen Mayes, W. B. Robertson, Jimmy Taylor, "Red" Kellow, Fred Schultz, Bill Carson.

CELEBRATES BIRTHDAY

Jackie Virgil Adwell, son of Mr. and Mrs. Bernie Adwell, celebrated his fourth birthday with a party at his home Monday afternoon.

Children present were Betty June Casbeer, Tommie Spurgers, J. L. Hicks, Jr., Hugh Russell, Bobby Fields, Shirley Kost, Kenneth Deland and Kenny Phillips.

Mothers and friends present include Mrs. J. L. Hicks, Mrs. Zora Mae Parker, Mrs. Lamar Casbeer and Mrs. Milton Spurgers. The birthday cake, baked by Mrs. Andy Trull, was served with ice cream. Balloons and suckers were given as favors.

Mr. and Mrs. Charlie Butler are expected to return this week from a vacation trip to Colorado.

A WEEK OF THE WAR

SUMMARIZING INFORMATION ON THE IMPORTANT DEVELOPMENTS OF THE WEEK MADE AVAILABLE THROUGH MONDAY OF THIS WEEK

War Production Chairman Nelson announced the War Production Board is rerating every project in the war program to secure the "maximum impact on the enemy now." Combat planes, particularly bombers, are at the top of this new list, Mr. Nelson said.

Chairman Nelson reported the U. S. is now producing munitions three and a half times the rate in November 1941, the month before Pearl Harbor. July production, he said, was 16 per cent above June production, but 7 per cent short of production forecasts made at the beginning of July. "The big job ahead of us right now is to bring our program into balance and make sure that we use our materials and facilities as wisely as possible," he said. "This means that we must redouble our efforts, particularly on the low spots, if we are to make our goals by the year's end."

Aircraft production increased 11 per cent in July over June output, Mr. Nelson said. Although combat plane production rose 6 per cent, it was not up to expectations. He also reported; overall ordnance production in July increased 26 per cent over June output, and was very close to schedules; production of medium tanks was 35 per cent greater than in the previous month and considerably ahead of schedule; light tanks up 15 per cent also were ahead of schedule; anti-aircraft guns exceeded schedules by "a wide margin"; merchant ships were up 6 per cent and "nearly on schedule for the month;" deliveries of major combat vessels were ahead of those in June and "considerably ahead of forecasts."

The War Front

General MacArthur's headquarters in Australia reported allied fighter pilots using new battle tactics shot down at least 13 Japanese planes, and probably 15 or more, out of an enemy fleet of 47 which attacked Darwin. No allied planes were lost. The Navy reported the Marines' hold on at least three of the Solomon Islands is now well established. When 700 Japanese counter-attacked on one of the islands 670 were killed and the other 30 taken prisoners, Pacific Fleet Commander Nimitz reported. The Marine losses were 28 killed and 72 wounded. Admiral Nimitz also announced a force of Marines made a successful landing on Makin Island, killed 80 Japanese, wrecked various installations, and then withdrew.

U. S. Army Headquarters, European Theater, announced arrival in Britain of the largest U. S. convoy of the war, with more men and material for the American air forces which had already begun precision bombing by daylight of Nazi-occupied Europe. U. S. flying fortresses bombed the Nazi transportation system at Amiens and Abbeville. In a battle over the North Sea, four flying fortresses shot down three German fighters and damaged nine others, while all the U. S. planes returned safely. A U. S. Ranger Battalion joined with Canadian and British forces in a nine-hour raid on Dieppe, France. The Navy reported U. S. submarines operating in the Aleutians, and in the Far East sank a cruiser or destroyed and damaged a destroyer, sank two cargo ships and a transport, and damaged another cargo ship. The torpedoing of seven more United Nations merchantmen by enemy submarines was announced.

Foreign Relations

President Roosevelt and Secretary of State Hull sent messages of solidarity to Brazil as that country became the first South American nation to declare war on Germany and Italy. The President said Wendell L. Wilkie will tour Europe and the Near East as his special representative in order to correct the impression in those places that U. S. production is not all it should be. Mr. Wilkie will carry messages from the President to foreign leaders, including Premier Stalin. The President issued a statement that the perpetrators of "barbaric" acts in occupied countries "will have to stand in the courts of law" in the same countries in which barbarism now rages, and answer in those courts for their crimes.

Army and Navy

The War Department said it will inaugurate this fall a voluntary preinduction training program utilizing existing facilities of schools and colleges to meet present and future needs for properly trained personnel in the Armed Forces. Out of every 100

Bundist Arraigned

Hans Diebel is shown entering a U. S. marshal's car in New York. Diebel, leader of the German-American Bund in Los Angeles, pleaded not guilty to an indictment accusing him and 28 others of conspiring to have bund members evade the alien registration act of 1940. He is also charged with attempting to evade the selective service act.

men inducted into the Army, about 63 are assigned to duties requiring special training, the Department said. The Army said it is organizing and training Port Battalion (composed mostly of former stevedores) for duty overseas to insure prompt handling of U. S. military equipment for forces stationed throughout the world. The Department said checks in payment of allowances to dependents of enlisted men of the Army, covering the first applications to be approved, will go out shortly after September 1.

The Navy announced recruiting of enlisted personnel of the Women's Naval Reserve will begin September 11, and training will start October 9 at the University of Wisconsin, Indiana University and Oklahoma A. and M. College.

Selective Service

Selective Service Director Hershey said draft boards will begin calling men with dependents before Christmas. He said single men with "secondary" dependents, such as aged or crippled relatives, will be called first; married men whose wives work, next; then men with dependent wives; and finally men who have wives and children. He said the reservoir of 1-A men throughout the country is "practically exhausted." Selective Service headquarters said Class 1-B (men fit for limited military service only) will be eliminated, and beginning September 1, all registrants who are not totally disqualified will be reclassified in 1-A, while those not suited for any military service will be placed in 4-F. In the case of men reclassified in 1-A, the Army will determine after induction whether they will be assigned to full or limited service.

Stabilization of Farm Prices

Secretary of Agriculture Wickard said he would approve a plan of livestock ceiling prices which "must not permit abnormal profits to anyone in the industry at the expense of the producers or consumers." Mr. Wickard also said he now favors repeal of the provision of the price control act "that prohibits ceilings on processed farm products if the ceiling price reflects a farm price of less than 110 per cent of parity." He said farm prices "have reached parity on an average." The WPB Food Requirements Committee asked the armed forces, the Lend-Lease Administration, and the War Production Board to collaborate in working out a program for allocation of all Government meat purchases as equitably as possible among federally inspected packers. The Agricultural Marketing Administration bought \$137,900,000 worth of foodstuffs during July for the United Nations and other requirements, including 80,000 pounds of dehydrated beef.

Rationing

Tire quotas will have to follow a downward trend the rest of this year to keep within the amount of rubber earmarked by the WPB for the purpose, the Office of Price Administration said. The Office asked local rationing boards for the "strictest possible interpreta-

Slaters Honored At Open-House Sunday At Harvick Home

Rev. and Mrs. Eugene Slater and Susan, who will leave next week for San Antonio where Rev. Slater is to become pastor of the Woodlawn Methodist Church, are to be honored at an open house given by the church membership at the home of Mr. and Mrs. Strick Harvick Sunday evening.

The open house will follow the regular Sunday evening church services. A cordial invitation is extended to all friends of Rev. and Mrs. Slater in Ozona to be present.

There is still a first-line mechanic at James Motor Co. 1c

Mrs. C. W. Taliaferro returned to her home here Friday after spending several weeks at San Antonio undergoing medical treatment, and at Corpus Christi visiting a sister, Mrs. Nettie Hynes.

Sergeant Clifton W. Taliaferro spent the week-end here with his parents, Mr. and Mrs. C. W. Taliaferro. Sergeant Taliaferro's wife remained in San Antonio.

Miss Margaret Sandherr of Sonora and Miss Mary Elizabeth Dickinson of Roswell, N. M., visited Miss Mary Frances Bean on the ranch last week.

A WORD OF THANKS

I, and my family, want to thank all our friends who voted for me on last Saturday. I made a clean race, on my own merits and not on the demerits of my opponent, and I have no regrets. Sincerely,
R. E. McWILLIAMS

Rev. and Mrs. Eugene Slater and Susan left Sunday afternoon for Kerrville where they will remain until Friday of this week.

Mrs. Floyd Henderson has returned from a vacation trip to California.

Thank You!

To the voters of Crockett County, I wish to express my appreciation for your support in electing me to be your next sheriff, over a field of three worthy opponents. I am really proud of the honor bestowed upon me by your efforts, and I want to serve and accommodate those people that did not support me just as if they had. As I stated before when I take over the duties of the office, the motto of the sheriff's department will be, "Courteous accommodation and service any time or place."— every one will be welcome to visit us in the office at any time—so again I say thank you one and all.

SAN ANGELO, TEXAS

They Know The Horror Of Japanese Prison Camps

From some of its own citizens, jailed in the Far East after Pearl Harbor, the U. S. learned what it means to be a Japanese prisoner. The civilians, safe in Portuguese East Africa after a prisoner exchange, sent home stories that made grim reading.

Tokyo Diary. New York Times Correspondent Otto D. Tolischus was jailed in Tokyo with six other American newsmen and a Canadian newswoman named Phyllis Argall. His report:

"We were held in solitary confinement under severest conditions of hardship for six months on charges of espionage and violation of the National Defense Act. Miss Argall was tied up and handcuffed when she was arrested and was repeatedly slapped until her face was cut. (CBS Representative Walter R.) Willis was slapped during the whole examination period, lasting more than three months. He was forced to squat for hours in Japanese fashion, with the result that he still is suffering an injury to his left knee. (Jasper N.) Bellinger was slapped, kicked on the shins and forced to stand for hours with his hands above his head.

"To force a confession the police threatened me with firing squads as an alternative to instantaneous death at the hands of the examining police. For four days early in January I was forced to squat for hours in the Japanese fashion while four policemen slapped my face, kicked me and made feints at strangling me until my knees were covered with open wounds and I was a physical wreck."

Newsmen Tolischus had heard even more harrowing accounts from fellow passengers on the prisoner ship:

Standard Oil Representative Clarence E. Meyer was slapped and mentally tortured until he suffered a nervous breakdown. Then his captors put him in heavy leather handcuffs, "for his own protection," and he was unable to

As Saboteurs Get Bad News From High Court

Shown at left are five army prosecuting attorneys arriving at the Supreme court building in Washington, where they saw the seven Nazi saboteurs lose in their attempt to escape jurisdiction of President Roosevelt's military commission. Left to right: Maj. Gen. Myron Cramer, Col. F. G. Munson, Col. S. M. Weir, Col. E. M. Trousch, Maj. William Thurman. Inset, right: Soldiers arriving with evidence used in the court's ruling.

remove his clothes for an entire week.

Bank employe Thomas Potter Davis Jr. was "slapped continuously, forced to sit Japanese fashion on iron crossbars and was turned over a prison chair while several policemen leaned their weight on him. Finally he was slapped across the face with his own sport shoes."

In Korea, three American missionaries were among 22 captives thrown into a verminous prison so small that some had to stand while others slept on the floor. The Japanese forced water down their throats until they nearly drowned, beat them with rubber hose and belting.

Terror In Hong Kong
Men taken prisoner in Hong Kong reported that the invaders raped Chinese, Eurasian and white women, including three British nurses. Afterward the Japs bayoneted and burned the nurses. A group of 30 Maryknoll missionary priests was tied up, marched with British and Canadian soldiers to an execution ground. The soldiers were led around a corner: the priests could hear their screams as they were bayoneted to death. The priests were spared, but were thrown into a garage and left there

Former Ozona Girl Hurt In Auto Crash

Aldine Baker, 19, daughter of Mr. and Mrs. R. R. Baker of Mertzon, former Ozona residents, was critically injured in an automobile accident between Mertzon and San Angelo Friday night, according to an account of the accident appearing in the San Angelo Times of Saturday. John Harvey Gibbs, 29, of San Angelo was killed almost instantly when the car which he was driving failed to negotiate a curve.

Miss Baker suffered a concussion.

for three days, still tied and without food or water.

Not all captives suffered such treatment. Some of the internment camps were humanely run; at Manila's Santo Tomas University, 3,200 prisoners governed themselves, ran a small semi-weekly newspaper, took college courses, enjoyed sports, music, a Rotary Club and a Junior League. British usually were treated worse than Americans; twelve Britons were driven to suicide. Of all prisoners, the Japanese seemed to hate newsmen the worst.—Times Magazine.

Behind The Scenes In American Business

By John Craddock
NEW YORK, Aug. 24 — PINCHES—Meatless days, heatless apartments, songless telegrams, bounceless tennis balls, spiceless spice cakes . . . These are some of the recent threats that keep impressing on us, in various new forms, the fact, that there's no escaping the backlash of war on civil life. Even up to a couple of months ago, food was one item Americans hadn't worried about at all in connection with the war. Yet so sweeping has been the tide of this global war that already there are a number of elements in the civilian food supply situation

Flying Tiger

George Burgard of Sunbury, Pa., former "Flying Tiger," displays a Sumatran sword taken from a Jap victim. Burgard, now visiting in Miami, bagged 12 enemy planes in Burma while he was a member of the American volunteer group.

that cause concern and readjustments, if not "worry." There's no cause for alarm concerning the overall food situation, but we'll surely feel a great many pinches in the way of specific foods. These will probably be temporary and regional in nature. Already WPB has recommended allocation of meats to relieve regional shortages. If that doesn't work, there'll almost surely be consumer rationing of meat. Packing executives say the combination of price ceilings and war-boosted incomes is chiefly responsible for demand outrunning supply.

LESS'N' LESS—Chances for chillblains along the east coast are still good this winter. New Yorkers got serious when Mayor LaGuardia warned that apartment may be allowed to supply warm water—not hot—only in mornings and evenings, on account of the fuel oil shortage . . . Western Union and Postal Telegraph are giving up all "luxury" items like singing telegrams, kiddiegrams, holiday and birthday specials, come September 18, because war-drive messages need so much space and priority on the wires . . . Very few tennis balls made of virgin rubber are still available; those made with reclaim are holding up pretty well, but they must have at least a pinch of crude, and it's not sure that even those amounts will be available indefinitely for such use . . . Some spice prices have ballooned fifty-fold and more.

PRODUCTION PARADE — News of shut-downs due to materials shortages has tapered off, though the shortages themselves won't be solved for many months. Fact is, the war has come pretty close to making this a "have-not" nation practically overnight, and the re-adjustments are extremely sobering . . . Nevertheless: California Shipbuilding company challenges the Henry J. Kaiser outfit with the claim of a 38-day record from keel-laying to launching of a Liberty ship, but the latter has one "en route" that it hopes to finish in a new record time of 34 days . . . And Pullman-Standard Car Manufacturing company in June produced enough "medium trench mortars" to supply seven U. S. armored divisions—all this being over and above the scheduled rate for the plants that gave America the streamlined train . . . And General Electric assembled and delivered within six days—via a bombing plane—a special rush order to a United States warship 10,000 miles away!

MILLION MARK — The converted auto industry is turning out war goods at the rate of \$13,600,000 worth a day — one-fifth again as much as at the peak of peacetime production of automobiles! One, "Willys-Overland," passed the million mark in production of a medium artillery shell, aided by having developed a special forging process that made possible a record of "not a reject in a million." When the contract was taken on last year

the only known production method was 24 years old. But engineers developed a new 500-ton piercing press which short-cut the first step to save many minutes. Nowadays Willys workers start with a 140-pound steel billet, and after 300 operations they wind up with a 79-pound shell, all painted and packed for shipment, and turned out at the rate of three a minute!

BITS O' BUSINESS — Department store sales are holding pretty level now—only two per cent below last year for the last four weeks . . . Price Administrator Henderson is coming out more and more forcibly on the need for holding down wages and farm prices, while Agriculture Secretary Wickard did a frank about-face on the 110-per-cent-of-parity, saying changed conditions now mean that the 110 per cent proviso of the price-ceiling law should be repealed . . . The first strike against WLB's new standard for measuring wages (buying power equal to that of January 1941) failed when Uncle Sam took over the plant of General Cable corporation at Bayonne, N. J.—and handed it back to the management after six days. The board had granted raises that were in line with the new standardized idea, but less than what the workers had demanded . . . United Air Lines' average passenger trip is now around 600 miles, about twice what it was a few years ago.

What You Buy With WAR BONDS

Barbed wire used by Uncle Sam's fighting forces is vastly different from that used on American farms. Army and Marine barbed wire is much heavier and the barbs, about three inches in length, are more vicious than ordinary barbed wire.

The Marine Corps pays fifty cents for each twelve yards, or 36 feet of this specially manufactured barbed wire. The Army and Marine Corps needs thousands upon thousands of feet for defensive warfare. Your purchase of War Bonds and Stamps will insure sufficient quantity for their needs. Invest at least ten percent of your wages in War Bonds every pay day.

HUGE ARMY HOSPITAL SET UP IN AUSTRALIA

MELBOURNE — A staff of American surgeons and physicians, members of a Harvard unit, is organizing a huge military hospital in a small Australian town for treatment of American fighting men.

This will be one of the largest hospitals, civil or military, in the Southern Hemisphere and will be under Maj. A. Thorndyke, Jr. Each doctor is an expert in his field.

Special ambulance planes will bring the soldiers to the hospital from field stations. The patients will be men requiring skilled curative or neuropathic treatment.

Special attention is being paid mental and nervous cases resulting from war shock.

TRUCK CONSERVATION URGED

With the statement that America's present supply of trucks must last for the duration of the war, ODT Director Eastman appealed to the nation's housewives to aid in conservation by demanding fewer services from delivery trucks. "If housewives space their purchases so that fewer trips are necessary, carry their own packages wherever possible, and, finally, let those upon whom they depend for necessary delivery services know that they are anxious to cooperate in ODT's conservation program, they will be doing their country a real service in this emergency," Eastman said.

Last September 1914 planes were produced; in May, production was nearly 4,000.

Syndicated Fantasy Depicts Troubles Of Japs With Texans

(From San Angelo Times)
W. E. Lucas of Ozona who is in the navy drops a note and incloses a poem about Texans produced by P. M. Syndicate and printed in a weekly number of newspapers recently.

Lucas commented:
"I thought this was pretty good, so am sending you this to show the boys in West Texas. There sure are a lot of fellows from good old Texas in the U. S. Navy. My home port is Ozona, you know, the Biggest little town in the world."

The P. M. Syndicate poem follows:

A VISIT TO AN ANCESTOR OF UNCLE SAM'S LAST NAME IS HOUSTON

(By Frank Sullivan)
HON. SUN: Ah, here's the Emperor of Japan
His face a study in dead pan.
What news he fetches I can't guess.
The pan is so expressionless—
Good day, my son, how tired you're looking!
Come, tell your ancestor what's cooking.
HIROHITO: O, Honored Sire, so sorry please.
But we fare ill upon the seas.
HON. SUN: Ain't Yamamoto in Washington?
HIROHITO: Sire, Yamamoto's on the run.
HON. SUN: But this was not supposed to be.
Why is it thus? Spill out to me.
HIROHITO: The news, August Celestial Lamp,
Is enough to give a Jap a cramp.
The odious Sam had a secret weapon,
And now he's using it on Nippon!
HON. SUN: What is it? A gun?
A ship? A plane?
Or some new kind of gaseous bane?
HIROHITO: It is a man; worrisome, vexin!
Shootin' biped called a Texan.
HON. SUN: Texan?
HIROHITO: Honored Star, thy're 10 feet tall,
And they speak with a most disarming drawl:
Wear high-heeled boots, look awfully mild,
But in a fight—look out! They're wild.
They holler: "Hey, you blankety foe!
Please to remember Alamo!"
HON. SUN: A La Mo?
HIROHITO: Then they shout:
"Git along! Yippe!"
HON. SUN: YIPPEE? That sounds Chinese to me.
HIROHITO: They aggravate, upset and hex us.
Trip us, razz us and perplex us.
Blow our ships to bits and vex us.
These fightin' sons o' guns from Texas
One of 'em, Sire, is a lad named Wheelus—
Why, the sound of his name is enough to congeal us!
And if by chance it isn't him it's Admiral Chester William Nimitz.
Every Texan's a killer diiler

Life Magazine To Carry Pictorial Story Of Mohair

Some future issue of Life Magazine will feature Kerrville and the Hill Country in a pictorial story of mohair.

Mr. and Mrs. Green Peyton, staff writers for Life, and Alfred Eisenstadt, one of the national magazine's ace photographers, left Kerrville Monday after spending several days in this section compiling data on the mohair industry and taking a series of photographs. They were accompanied here by R. Beall Pumphrey of the Union Stockyards, San Antonio.

The party attended the annual show and sale of the Texas Angora Goat Raisers' Association in Rock-springs Friday and Saturday. Visits were made to several large goat ranches, including Hal Peterson's Diamond Bar Ranch in Edwards County and Adolf Stieler's ranch near Comfort. A number of pictures were made at the Kerrville warehouse of Schreiner Wool and Mohair Commission Co. showing methods of handling and shipping the Angora fleeces. Other photos were made at Chas. Schreiner Bank and general views were made of the city, which is the world's largest primary market for mohair.

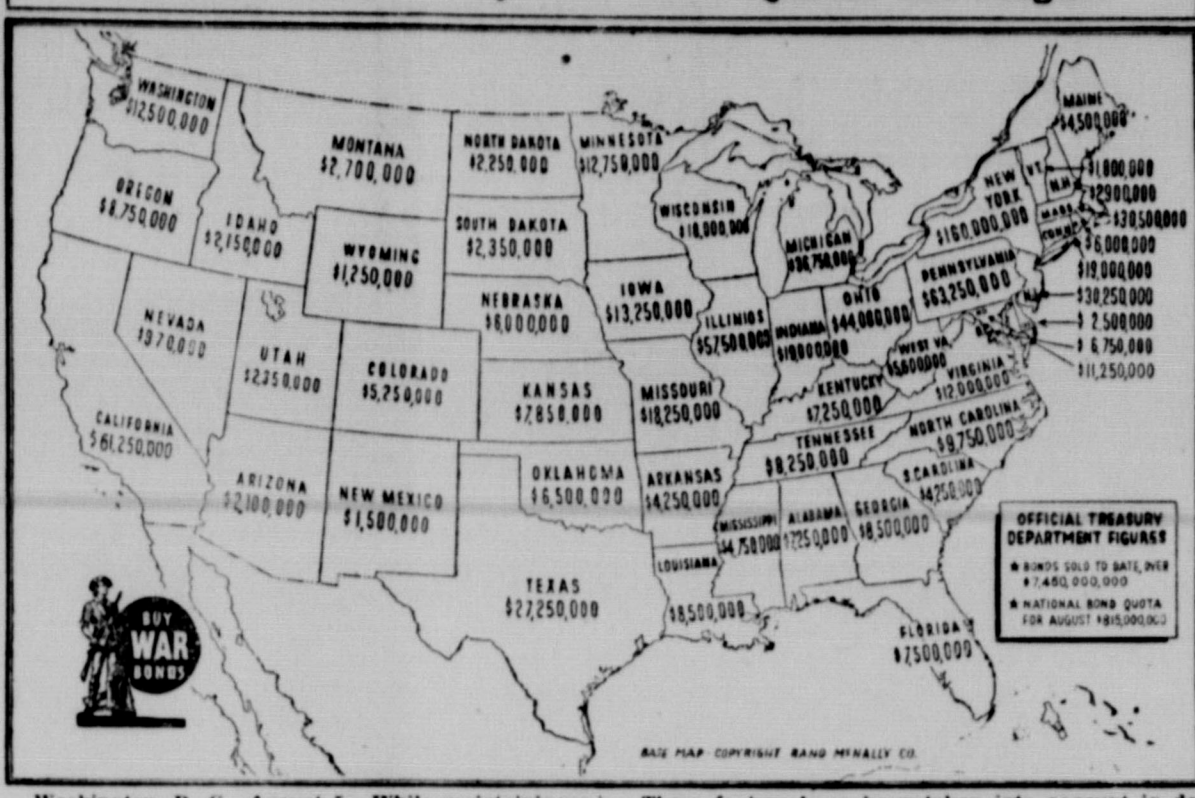

Life's story is expected to include all phases of mohair from the fleece on range animals to the finished fabric.—Kerrville Times.

From Hon. Chet to Dorie Miller. Furthermore, this State of Texas Produces soldiers of both sexes; I hear they have a rather nobby Lady Colonel name of Hobby.

HON. SUN: Is Texas part of the U.S.A.?
HIROHITO: The latter is part of it, I'd say.
HON. SUN: Well, why on earth don't you fellows pink 'em?
Point your guns at their boats and sink 'em.
HIROHITO: Sink 'em! Why, only the other day
We potted a Texan, Ensign Gay. He should have sunk—but he stayed afloat
And watched us sink, from his rubber boat.
HON. SUN: Ah, that wasn't good for honorable face.
HIROHITO: Good? It was hell on honorable face!
But what are we going to do about Texas?
Give us some help, Sire, before Texas wrecks us.
HON. SUN: What you've been telling me, my son
Convinces me that you are done; Deep in the heart of my own solar plexus
I feel that my future lies with Texas.
So off with the old, son, and on with the new;
I'm for the bandwagon, i.e., through with you.
As of today my Celestial Candle Shines for the Land of the Rising Panhandle.
(Copyright 1942 P. M. Syndicate)

Official U. S. Treasury War Bond Quotas for August

Washington, D. C., August 5.—While maintaining a tentative annual level of twelve billion dollars as its goal, the Treasury Department today fixed the August quota for the sale of War Bonds at \$815,000,000 as shown by the accompanying map by states.

In lowering the quota from a billion dollars in July to \$815,000,000 in August, the Treasury has given recognition to certain factors which may be expected to result in variations in sales over the 12-month period, such as the seasonal character of farm income.

These factors have been taken into account in determining each state's share for the national quota for August and will be given consideration in fixing quotas for subsequent months.

In addition to the state quotas as set out in the map there is a federal payroll allotment quota of \$9,750,000 and territorial quotas as follows: Alaska, \$760,000; Canal Zone, \$213,000; Hawaii, \$1,800,000; Puerto Rico, \$440,000 and the Virgin Islands, \$17,000.

U. S. Treasury Department

Sulfanilamide For Pink Bag In Sheep

(From Sheep & Goat Raisers)

In the sheep barn during the recent San Angelo Sheep Show and Sale the ranchmen discussed numerous problems, one of which was the treating of ewes with pink bag infection. Robert Miller of Davis, California, professors and sheep breeder, declared that he had met with good success in caring for this trouble in ewes through the use of Sulfanilamide. His recommendation is this: "Two 15-grain tablets three times daily to the affected ewe for two straight days, and thereafter two 15-grain tablets once a day until the animal is well recovered." It was emphasized that the tablet treatment must be started before the ewe is too far gone, in order for the treatment to be a success. Professor Miller told the ranchmen that the Sulfanilamide tablets were selling at 25 cents a dozen in California. However, some of the ranchmen standing around declared that they had paid as high as \$4 for 25 tablets in Texas drug stores, for a Sulfanilamide or a similar sulphur product, which was declared by Professor Miller to be too high. One or two ranchmen assert they had already tried this blue or pink bag remedy and found it excellent.

Meat "Shortage" Only Temporary As Animals Prepared For Market

COLLEGE STATION—Housewives may have fewer cuts to select from than they found in the butcher shop a year ago, but this should not be taken as representing a serious shortage of meat.

According to Roy W. Snyder, animal industries specialist of the Texas A. and M. College Extension Service, the reason for the apparent shortage is that much of the pork, beef and lamb which ordinarily is sold in the fall months is not quite fat enough, nor in a condition to make good meat just now. This has been true for the past 25 years, or even longer.

"We are not short of meat animals here, nor in the United States. They are not quite ready for market."

Indicating the meat resources of the country, Snyder said that more hogs were slaughtered in June than in any corresponding month heretofore, excepting December, 1934. Around one million head of cattle were killed in June, and the beef slaughtered from January through June was more than in any previous six months on record. More than one and one half million lambs were killed in June, and the total for the first six months of the year was the greatest on record for that period.

"Beginning in late September and onward through the winter, American meat eaters will hear a different story," Snyder added. "Farmers are rushing the feeding of meat animals as fast as they can, and they will be coming on the market soon. Farmers are doing the patriotic thing in feeding their beef and pork so that animals of maximum weight will be sent to the stockyards."

Until cattle, swine and lambs begin rolling to market in full volume, Snyder suggested that consumers voluntarily adopt these practices:

1. Buy what the butcher has rather than find fault because he hasn't the steak, chops, or bacon wanted.
2. Plan meatless meals occasionally.
3. Learn to be an expert home nutritionist and substitute the foods which are plentiful, and of almost equal food value, to those used ordinarily.

SUGAR OUTLOOK GOOD

Provided the shipping outlook in the Caribbean does not take a radical turn for the worse, sugar rationing allotments to consumers at least equal to those issued at the beginning of rationing are in prospect for the first nine months of 1943, OPA announced. This program will require the distribution of 4,173,000 tons of sugar, and an additional 830,000 tons will have to be on hand to insure an adequate supply in all sections of the country.

American factories will use ten billion pounds of salt in this year's war effort. Its sodium and chlorine play parts in the making of airplanes, tanks, jeeps, guns, synthetic rubber and high-test gasoline.

RAIL GAS HAULING BANNED

Hauling of automotive gasoline by rail has been banned in Texas, Oklahoma and Louisiana, and 17 mid-western states by order of the Office for Petroleum Coordinator for War, to release 5,000 to 7,000 additional tank cars for oil movement to the East Coast. The number of tank cars assigned to the East Coast run has risen from about 1,000 to approximately 70,000 and more can be effectively used, OPC officials said. It remains to be seen whether the mid-continent and Southwest can operate under the new ruling without rationing. OPC officials stated.

12,500,000 persons in the U. S. are now engaged in work directly connected with war production.

Accurate and Complete RANCH RECORDS Are More Important Today Than Ever

Government regulations and new war tax programs make it more important today than ever before that every business keep accurate records of its operations.

The ranch business is no exception. Your government must necessarily levy stiff taxes to finance the gigantic war effort now under way, and tax agents are going to be stricter in demanding compliance with all regulations. Records of all operations are going to be increasingly important in proving up your income tax returns.

It is not too late now to bring your records up to date covering this year's business with the Stockman's RANCH RECORD BOOK. Your cancelled checks or your present records can be transcribed to this handy record book, together with your income and inventory records and you can have your entire record in a simplified form contained in one volume.

Easy To Keep - Complete Record - In 1 Volume

NEWS OF OUR FIGHTING MEN

"I've been in Virginia two weeks now, and, frankly, I know of a million places I'd rather be," writes Pascal Northcutt, pharmacist's mate in the U. S. Navy, stationed at Portsmouth, Va., Naval hospital, in letter to a friend here.

"I'm beginning to get accustomed to it and feel better about it, but the man who wrote 'Carry Me Back to Old Virginia' could have just put a period after the word 'back' and suited me just fine. I like the Pecos River better than the James."

Pascal said he enjoyed a stop in Atlanta, Ga., land of peaches and peachy gals. "There are more pretty girls—and they all love sailors," Pascal said.

Claude Russell, former Crockett deputy sheriff, who enlisted in the Air Corps recently, is being "processed" at the Mineral Wells Camp Walters reception center. At the end of this period, he will be assigned to some air corps ground force training center.

Crockett county has a total of 102 men in all branches of the United States armed forces, a check of records in the local draft office disclosed. The figure does not include the eight who were inducted last week and are now on the enlisted reserve, scheduled to report for active duty on Sept. 5. More than half of the total number of men in service from this county are volunteers. The total as shown by the local board record includes several men who were in the service at the time of passage of the draft law and a number who were not on this county's registration list.

The "home address" file of the local board, a file of names of men in service, as reported by the various branches on all men who give this county as home, contains the name of at least one famous son. He is Allan R. (Allie) Bosworth, novelist and short story writer, who recently "arrived" with a long serial story in the Saturday Evening Post. Bosworth was a reserve officer in the Navy and has been on active duty since before America was plunged into the war.

To friends and relatives of service men: The Stockman will appreciate your turning in bits of information for this column about the thoughts and doings of Ozona boys in the service, as gleaned from letters. Home folk are interested in their whereabouts and what they are doing, and the boys themselves will be interested in hearing something of their friends in service.

Balance to go	6,200

Mrs. Othro Adams and daughter, Rose Marie, are here this week from Fort Stockton visiting Mr. and Mrs. Doug Kirby.

Blanks Received For Payment Application For 1942 AAA Work

Blanks on which to make application for payment for soil conservation work done during the year 1942 under the AAA program have been received and are ready for ranchmen to fill out and sign. Miss Betty Bratcher, administrative office of AAA in this county, announced yesterday.

Ranchmen who have completed all work under their 1942 allotment may secure the blanks at the AAA office and make application for payment now, Miss Bratcher said.

Mr. and Mrs. Boyd Lovelace and children, Robert and Darlene, returned the first of the week from a vacation visit with friends and relatives in the Tyler, Texas, area. The Lovelaces will leave Ozona the last of this week for Sonora, where Mr. Lovelace is to be local manager for the West Texas Utilities Co.

Chorus From Boles Orphans Home To Sing Here Tonight

A mixed chorus of sixteen voices, eight boys and eight girls from Boles Orphans' Home at Greenville, will be heard in a concert at the Church of Christ tonight (Thursday) beginning at 8:30 o'clock. It was announced yesterday.

The program will be open to the public and everybody in Ozona is cordially invited. There will be no admission charge or collection. The singers are being accompanied on tour by Mr. and Mrs. McCaleb from the orphanage staff.

Recruiting Officer: "Are you married or single?"
Recruit: "I'm married, sir."
R. O.: "When were you married?"
Recruit: "I don't know."
R. O.: "You don't know when you were married?"
Recruit: "Oh, I though you said 'Why'."

Escaping Butane Gas Freezes Hand Of Oberkampf Employee

It wasn't the proverbial "cold day in August" but just the same, Arch Alexander suffered a frost-bitten hand early this week.

Arch, colored employe of Joe Oberkampf, is carrying the hand in a sling as the result of a freak accident. He was attempting to repair a broken connection on a butane gas tank, full of gas, and the escaping gas blowing on his hands actually froze one hand, causing serious injury. The liquified gas, under high pressure in the steel tanks, acts as a refrigerant as pressure is released and it returns to gas, and Arch's hand was subjected to the "quick freeze" process when he held on to the connection too long. Incidentally, he made the connection without losing the tank of gas.

Waiting For Bus, Texas Discovers Twin After 32 Years

MEMPHIS, Tenn. (By A. P.)—"I'm killing a little time waiting for a bus," remarked Andrew Jackson Poulton to a stranger on a park bench today.

"So'm I," was the reply. "I got a long ride ahead of me. I'm goin' to Texas."
Poulton, himself from Farwell, Texas, observed: "I'm goin' up to Ripley, Tenn., to see my brother." "I live up thataway, maybe I know him."

Andrew Poulton mentioned his brother's name—and heard: "Why that's me. My name is Tom Poulton. Are you Andy?"

Andrew Jackson Poulton and Thomas Jefferson Poulton, 58-year-old twins, had decided to visit each other after a separation of 32 years.

By the end of 1943, U. S. production of aluminum will be approximately 2.1 billion pounds—six-and-one-half times 1939 production.

Frank James—

(Continued from Page One)
been a candidate for office, Senator W. Lee O'Daniel failed to carry Crockett County in Saturday's run-off primary. And of all politicians in Texas, few Crockett countians would have picked James V. Allred as the man who could have weaned the voters in this bailiwick from the O'Daniel fold, but it was none other than the only man who ever forced Pappy O'Daniel into a run-off that turned the trick.

John Lee Smith was the favorite of Crockett county voters over Harold Beck for the office of lieutenant governor 293 to 239. Smith won the nomination. Crockett voters also picked a winner in the race for state treasurer, voting 320 to 213 for Jesse James over Gregory Hatcher, and again in the railroad commission race, giving Beauford Jester, 319 to 223 for Pierce Brooks.

NOTICE OF REWARD
I am offering
\$500 Reward
for apprehension and conviction of guilty parties to every theft of livestock in Crockett County — except that no officer of Crockett County may claim the reward.
MRS. W. S. WILLIS
Sheriff, Crockett County
