CLOSED

# For the Duration--

Due to the war-created manpower shortage, it has become necessary for us to close our abstract office in Ozona for the duration. However, we want to assure all our friends in Crockett County and the West Texas area that it is "for the duration" only, and that as soon as this little argument with the Japanazis is settled, we plan to re-open the business,

Shortage of competent help in the San Antonio offices of my associates made it necessary for me to move to that city to take over management of a part of our operations. But we expect to keep our abstract records here up to date throughout the period of interruption by returning at frequent intervals for such work, and will be in position to render the same high class service to our clients when we re-open after the war.

We have enjoyed to the fullest our four years of residence in Ozona. We have made many fine friendships which we shall always treasure, and look forward to returning after the war is won to renew those friendships

Sincerely.

Adolf: Dot humming-vot iss it?

Reddy: That, Adolf, is the hum of power by which you will meet your doom. Power in the air . . . power afoot, on tap to build more planes, more tanks, more guns, more ships. It's the hum of American men and machines at work-twenty-four hours a day!

Adolf: Ah, but I haff power, too!

Reddy: Listen, Adolf! America has more power than you and all your stooges and conquered countries put together. Free men and women are using that power, turning out weapons of war in thundering quantities, because they want to stay free.

Adolf: Yes, but I haff men and women working for me, too.

Reddy: Slaves, Adolf. They toil with bayonets at their back. They have no spirit for the work. They are slowed down by hunger. The machines they work are worn by years of war. Manpower can never do the work of electric power!

Adolf: Sure, but I got the jump on you! I command everything-

Reddy: That's where we differ, Adolf. Your system is based on state slavery and political control and operation of all natural resources, industry, religion and education. In West Texas . . . and in all America

.. we respect the rights of the individual and the institutions he has created. Over here, we believe in free enterprise under government regulation . . . a system under which men and women know they'll be rewarded for initiative, ambition and production.

It's a powerful incentive, Adolf, and it's helped make America power-full. Consider electricity, for example. It's helped give West Texas homes about twice or three times as much electric service for their money as they used to get ten or fifteen years ago.

American business management is behind that hum you hear, Adolf, and its success depends on giving more for less cost. It's a hum that will beat upon you until freedom is restored to the earth. It's the hum of fate, Adolf!

Lions Get Off

To Burning Start Last Thursday night the student dy of the Ozona High School held a pep rally to help arouse enthusiasm for the game played last riday with Mason. The band oned with the school song with Liz", and "Flossie" and "Sug" anging the "fight, Lions, fight" " BEAT MASON". During the ning, between numbers played the band, several students tave short speeches. Sug Owens ummed up very nicely the sentiments of the crowd when she said, We did it before; we can do it gain," Joy Coates, senior, former ep squad leader, made a few rearks; but when Coach McCook vas called on he declined, saying

e would talk after the game. By far the most enthusiastic art of the meeting was the cereony of burning "Oscar" the cretion of Mary Elizabeth Gray. The bon fire burned gloriously and no doubt helped warm up the boys who really did deliver the goods nd beat Mason on Friday, 19-6. Until our next game let the bat-

le cry be "Beat Sonora!" -O-H-S-ACULTY FAX

"Just A Little BETTER Service"

## THEY'VE PASSED THEIR 'PHYSICAL'-TOO

America's feathered and four-legged armies are very much on their toes these days. Yeast vitamins used in fortifying animal feeds have done wonders in recent years to better the quality and propagation of livestock and poultry. Did you know that the Home of Budweiser is America's biggest single source of these vitamins?

Year after year, we have striven with research and resources to better the methods and facilities for brewing Budweiser. To do this, a laboratory specializing in fermentology and nutrition was necessary. Discoveries made in the laboratory and in the plant have led to the development of products contributing to human necessity and progress. Some of these products would appear to have only a remote relationship to brewing, yet, they are the result of scientific research into many allied fields.

### Endless research in making the world's leading beer has led to other products

VITAMINS, B COMPLEX-for manufacturers of pharmaceutical and food products. Our plant is one of the world's largest sources.

VITAMIN D-Anheuser-Busch produces enough of the basic material for Vitamin D to supply the entire American market.

BAKER'S YEAST-We are one of America's biggest suppliers of standard and enriched yeasts and malt syrup used to make bread. CORN SYRUP-many millions of pounds annually for America's candy industry.

SYRUPS-for food, table and confectionery uses and special syrups for medicinal purposes.

STARCH-for food, textile, paper and other industries-millions of pounds annually.

REFRIGERATING EQUIPMENT—for retailers of frozen foods and ice cream the country over. This division is now working all-out on glider wing and fuselage assemblies for our Armed

DIESEL ENGINES-Adolphus Busch, founder of Anheuser-Busch, acquired the first rights to manufacture this revolutionary engine in America and thus started our great Diesel industry on its way.
