DEAD BANK BANDITS AT THE AGE OF PORTY AN \$110,000,000 IDEA

The Reverend Dr. Cadman remarks that "This planet may exist for nearly a million billion years longer." An anxious Christian asks, "Do you believe that the soul sleeps in the grave with the body a million billion years, waiting for the judgment? If I really believed it, I think I should try to have a pretty good time while still in the flesh."

The Reverend Dr. Cadman tells the inquiring soul that when you are unconscious a million billion years seems no longer than a minute and a half, and tells the soul: "It is better to awake from a pro-longed torpor with clean recollections in your conscious past than

No matter how much our incomes may be most of us can usually find a way to spend it all. The fellow who always manages to keep a little back out of his income each month soon becomes the envy of his fellows-it's luck, they say.

But coming down to brass tacks, it's not luck at all, it's just plain good sense. That fellow was careful in his buying. He made every penny buy its limit. Consequently, although his income may have been no larger than his neighbors, he made it go farther by buying wisely.
