

Red Blockade Forces Dastic Power Cuts

Unemployment Grows In Allied Berlin Sector

Schemes Are Being Planned To Hit Idleness

BERLIN, July 8. (AP)—The Russians' economic strangulation of Western Berlin today forced drastic new cuts in the use of electricity and gas.

Unemployment grew among the two million Germans in the blockaded American, British and French sectors of the city. The Western allies were working out emergency employment schemes to keep idle industrial workers off the streets.

Col. Frank L. Howley, the American commander, announced that the Western powers had decided to maintain the present food rations but to cut coal. He said:

"To meet the emergency, to save two million Berliners from starvation as well as economic and social destruction, the United States, British and French military governments are engaged in the greatest air lift in peacetime history. Thousands of tons of food, fuel and medicine are being flown from the West to Berlin."

"It is, however, recognized that with the limited air fields available and the narrow air corridor allotted, the air lift cannot at present meet all of the requirements of the people of Berlin."

Unfavorable weather slowed the allied airlift this morning. By 10 a. m. only 19 American transport planes had arrived at Tempelhof Airfield.

American fliers heard complaints from two of their comrades of strange radio interference in the air corridor to Berlin.

There were unconfirmed reports that Soviet Marshal Yessilov Sokolovsky had gone to Moscow for consultation presumably regarding an answer to the Western allies' protest over the Russian blockade.

NEW QUIZ Meyers Will Be Subpoenaed From Jail Cell

WASHINGTON, July 8. (AP)—Benjamin E. Meyers, the retired two-star general sent to prison by one congressional quiz session, is due for another.

This one deals with charges of a multi-million-dollar "goose" of the government through World War II freight bills.

Chairman Bender (R-Ohio) of a House expenditures subcommittee investigating the freight rate matter told a reporter today he will subpoena Meyers from his Chillicothe, Ohio, jail cell before the summer is out.

Meyers was sentenced to from 20 months to five years in prison last winter after his conviction on charges of inducing a former business associate to lie to senators inquiring into his handling of war contracts. The general became deputy purchasing officer for the Army Air Forces after a tour of duty at Patterson Field.

His name entered the current hearings in testimony by Thomas F. Proctor, a former Justice Department official now employed by the Post Office Department.

Referring to the period just ahead of that covered by the Senate War Investigating Committee in its hearings last summer, Proctor told the Bender group yesterday:

"As long as Gen. Genny Meyers was running the Air Forces Materiel Command at Patterson Field, the Army Transportation Corps and the Air Forces traffic people in Washington were related to a position of secondary importance in traffic matters."

Veteran Threatens To Shoot Family

QUINCY, Mass., July 8. (AP)—A 23-year-old man who police said lived five members of his family against a wall and threatened to "shoot them" today on a "charge of assault with a dangerous weapon with intent to kill."

Frank P. Sorgenti was booked last night after two patrolmen reported they pounced on him while he had his parents, two sisters and a brother backed against the wall of their home at the point of a gun.

GETS SEVERED FINGER REATTACHED — Sherry Lynn Plumb, one year old, seems puzzled by the attention she is getting after a fast bit of surgery saved one of her small fingers. Her right middle finger was severed near the first joint in a household accident. Two Los Angeles surgeons sewed it back on and report the finger is returning to normal. (AP Wirephoto).

IN STEEL INDUSTRY Coal Strike May Be Ended By Court

WASHINGTON, July 8. (AP)—A government move to end the strike of the steel industry's coal miners by court order seemed likely today. The strike is in its third day.

Lawyers on the staff of Robert N. Denham, general counsel of the National Labor Relations Board, had only one step left in their investigation of the industry's charges that John L. Lewis and his United Mine Workers Union are violating the Taft-Hartley act.

That step was an interview with Lewis' chief attorney, Welly Hopkins. Denham wanted to get Hopkins' side of the charges before deciding whether a formal complaint against Lewis was warranted.

Denham aides already have obtained affidavits from steel industry representatives. They contend that Lewis' demand for a union shop without a prior NLRB election is illegal.

Denham was expected to issue a complaint against Lewis and the UMW during the day and to follow that up with the injunction plea. The court proceedings would come up before Federal Judge T. Alan Goldsborough, who already has issued three injunctions against Lewis and fined him and the UMW a total of \$2,130,000 for violating two of the orders.

The whole argument this time is over the union shop clause in the new wage agreement accepted by the commercial coal operators. The steel industry was willing to accept the agreement's \$1 a day wage boost and 20-cent welfare fund royalty provisions but balked at the union shop provision.

N' Carolina Polio Worse

RALEIGH, N. C., July 8. (AP)—Infantile paralysis edged relentlessly today toward its record severity of 1944 in North Carolina.

Four of the state's 100 counties were regarded as epidemic areas as the number of cases for this year reached 408 yesterday, the worst on record for this time of year.

Thirty-seven cases were reported yesterday but this high figure was attributed to a three-day health departments closing over the Fourth of July week end.

No quarantines have been imposed on swimming pools or theatres, as was the case back in 1944, when a record 878 cases were reported. Parents have been cautioned, however, to keep children away from crowds.

The greatest severity of outbreaks has been noted in the populous central portion of the state.

Dr. C. P. Stevick of the State Board of Health reports that North Carolina's coastal and mountain areas are "within normal limits as far as the incidence of cases is concerned."

Dallas Building Work Continues

DALLAS, July 8. (AP)—The Dallas commercial building industry hit full stride today with all-AFL building trades which were involved in recent work stoppages reporting for work in possession of wage hikes ranging from 12 1/2 to 25 cents hourly.

Telephone Lines Down

EL PASO, July 8. (AP)—A blast to dislodge limestone at the quarry of the Southwestern Portland Cement Co. put 24 telephone lines out of service for a short while last night.

Arabs, Jews Are Preparing For Fighting

Four Week Truce To End At Midnight

CAIRO, July 8. (AP)—The last hours of the Palestine truce found both Arabs and Jews prepared today to resume full-scale warfare.

The four-week armistice runs out at midnight (CST) tonight. Count Folke Bernadotte announced today that the Jews had agreed to an extension of the Palestine truce but the Arabs rejected it.

Bernadotte said the Jews agreed to a 30-day prolongation of the truce if conditions "be substantially the same as those governing the existing one."

"The Arab reply, a translated text of which has not been received, states that the Arabs are not prepared to accept a prolongation of the truce under present conditions in view of their experience of the past four weeks," the UN mediator said.

The understanding at United Nations headquarters in Lake Success, N. Y., was that Bernadotte had told the secretary-general he was ready to ask both sides to hold fire three more days until 100 or more truce observers and secretariat members could get out of the country.

Most of the United States Mediterranean fleet was moving into the Eastern Mediterranean. Three cruisers, two destroyers, a carrier and an escort carrier were headed that way from Istanbul and Naples. But Secretary of Defense Forrestal told a Washington news conference yesterday the movements were according to schedule and had "no significance."

Bernadotte proposed the truce extension Monday to gain time for further negotiations toward permanent peace. He suggested a conference. The UN Security Council sent both parties a plea to prolong the truce.

Both the Arabs and Jews were making war preparations. Israel this week lifted the top draft age from 35 to 41. Arab chiefs of staff ended meetings here last night and were due to return home today.

"Give the Egyptian army victory after victory," was the prayer of King Farouk, back last night from a visit to Egyptian troops in Palestine. The prayer was included in a message to his people.

Dutch Reds Lose Strength

AMSTERDAM, The Netherlands, July 8. (AP)—Complete election returns revealed today that the Communists have lost strength in the Netherlands and rightist groups have scored gains.

The Communists were deprived of two of their 10 seats in the lower chamber of parliament as a result of yesterday's general election. Their decline was particularly marked in Rotterdam, where they polled 30 per cent fewer votes than in the last election two years ago.

The middle-of-the-road Catholic people's Party retained its 32 seats. The Catholics polled 1,531,326 of the 4,933,735 votes cast, maintaining their position as the nation's No. 1 political group.

But the Catholic-Labor Party coalition which makes up the present government lost some strength to the rightist groups—the Conservative Anti-Revolutionary (Calvinist), Christian Historical (Protestant) and Freedom (Conservative).

The Labor Party itself lost two of its 29 seats.

Apparently there was not a large enough shift, however, to make a marked change in Holland's political picture. A Labor Party spokesman said he expected that Catholic Premier Louis J. M. Bell, who resigned yesterday, would be asked to form a new government.

Major issue of the election was the government's proposal to create a union between the Netherlands and the proposed United States of Indonesia.

T&P Man Killed

EASTLAND, July 8. (AP)—N. B. Stedum, 38, a section hand for the Texas and Pacific railroad, was killed today by a westbound freight train. He was operating a tamping machine on the track with B. L. Snodgrass, who had left the track.

Odessa Found Dead

ODESSA, July 8. (AP)—Loucelious Wilcher, 47, was found shot to death here yesterday in the yard of his son, Aubrey L. Wilcher. An inquest was held, but no verdict has been returned this morning. He was shot in the head with a shotgun.

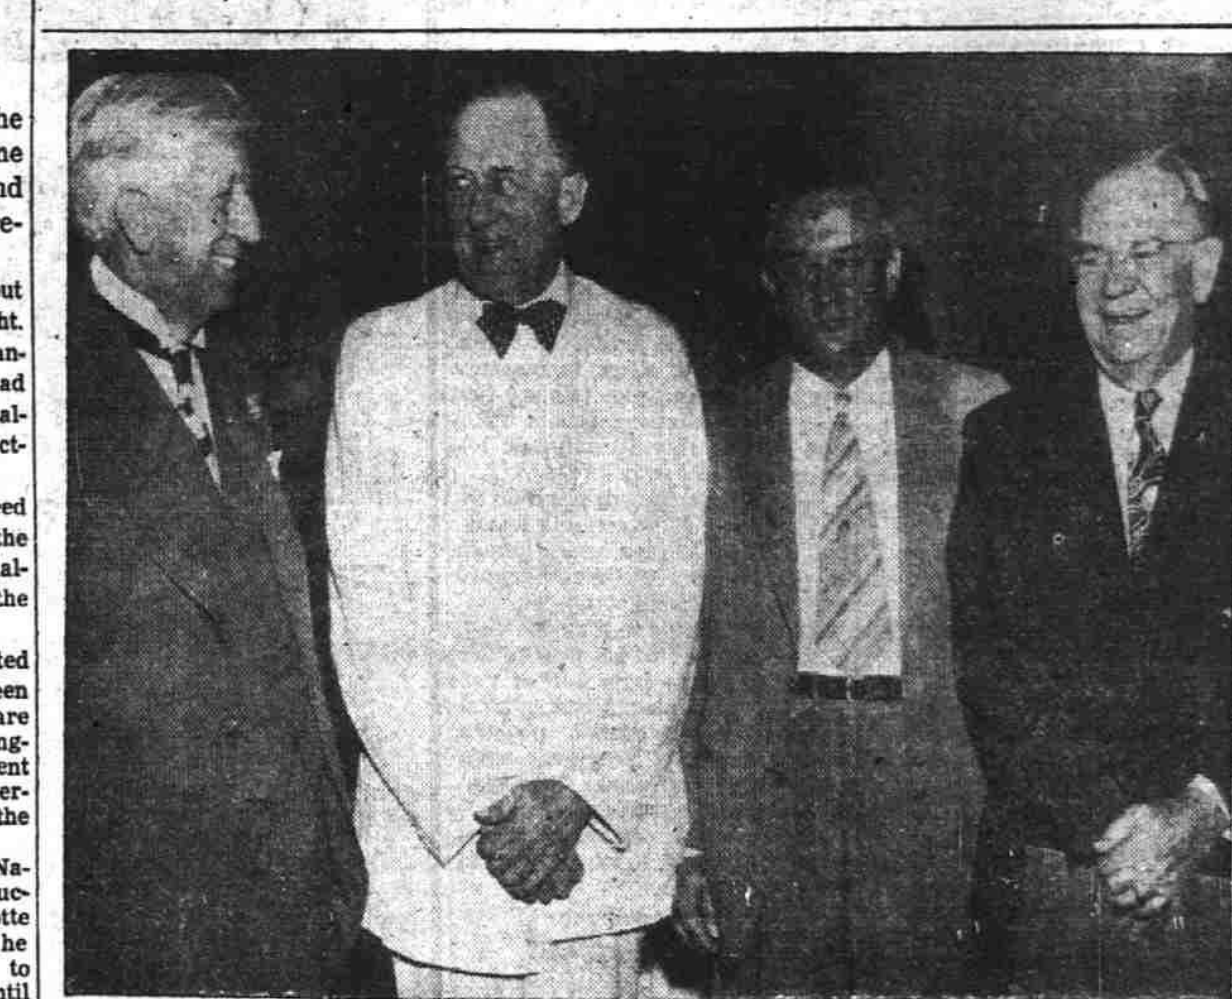

CONFIDENCE CHARGES CAMPAIGN ATMOSPHERE

By The Associated Press Confidence and hope charged the atmosphere of the U. S. Senate campaign today.

Lyndon Johnson flew out of the Rio Grande Valley saying he will carry South Texas; Coke Stevenson, at Midland, said this is the most encouraging campaign ever; George Peddy, also in West Texas, figured he might win without a runoff.

"No other candidate in this race has had hundreds of people come out in the hot July sun to stand and listen so attentively," Johnson said at Corpus Christi after the two busiest days of his campaign. Starting Tuesday at Harlingen he had made 31 stump speeches, four ra-

Canova Show Will Return On Saturday

A return engagement of the Judy Canova road show—but minus the star herself—has been booked for Saturday night at the municipal auditorium, with two presentations scheduled, at 8 and 11 p. m.

The show is again under auspices of the Junior Chamber of Commerce, which brought the attraction to the park amphitheatre ten days ago.

Local JayCees were informed by the manager of the production that illness had forced Judy to leave the show and abandon immediate plans for going on with the tour. The remainder of the troupe is thus changing its itinerary and is doubling back through Big Spring.

With the exception of Miss Canova's part, the show will be the same as appeared here June 30, the sponsors announced. Specialty acts will include Bert Henderson as master of ceremonies, "Pansy the Horse," Joe Mole, cycle artist; Renee and Robert, comedy-dance team; the Taylor Family, acrobats; the pretty-girl chorus, and Frank Kony's orchestra. All of these presentations were warmly received at the initial showing here.

Admission prices for Saturday's shows have been reduced, to \$1.20 including tax.

Coke Says People Tired Of Promises That Aren't Kept

MIDLAND, July 8. (AP)—Senatorial Candidate Coke Stevenson said here today that men and women he has talked to are "sick to death" of political promises that cannot possibly be kept.

"They say they want a United States senator who will listen to them when they talk about their problems... not a man who spends all his time telling them what they ought to think and do," the former governor declared in an early-morning radio speech.

Stevenson repeated that he had never conducted a campaign on a platform of political promises and is not going to in this race.

He asked his supporters to redouble their efforts to elect him without a runoff. "If you do that I believe we can get these two heads out of the public trough on July 24 and be done with it, without having to work one of them over in the runoff."

Both Stevenson and Johnson formerly have predicted victory without a runoff in the July 24 primary.

Stevenson, touring from Waco to Midland, was cheered to learn that his home town party, the Junction Eagle, is endorsing him in today's issue. A member of his entourage estimated he has visited more than

NEW YORK HEARING Labor Probers Drawing Blanks

NEW YORK, July 8. (AP)—A House subcommittee has drawn three straight blanks in quizzing New York City labor leaders to find out if they have Communist affiliations.

In a tumultuous opening session yesterday, three union leaders flatly refused to answer when the House investigators asked if they were Communists.

"One of them, Arthur Osman, president of Local 65 of the CIO Department Store Union, told committee members:

"We are going to take people like you and run you out of Congress."

His threat was answered by a burst of applause from spectators that packed the 13th-floor hearing room in the federal courthouse.

Rep. Fred Hartley (R-N.J.), chairman of the House Labor and Education Committee of which the investigating group is a part, said it would be decided later whether contempt charges will be pressed against the three who refused to say if they are Communists.

Besides Osman, those questioned were David Livingston, vice president of the CIO local, and Esther Letz, a unit director.

They challenged the right of the subcommittee to ask about their political beliefs, and declared that answering the question would tend to incriminate them.

They cited the fifth amendment to the constitution as the basis for their refusal.

"In 20 years," said Hartley, "I have never attended a congressional hearing at which witnesses have been so evasive; where the evasion was more deliberately and cleverly planned to withhold information."

Some 37 other union leaders are to testify here in the probe of Communist influences in labor organizations.

Yesterday's session was marked by frequent heated exchanges.

Little Girl Is Killed By Bear

SAULT STE. MARIE, Mich., July 8. (AP)—A black bear lumbered out of Michigan's north woods yesterday, carried off the little daughter of a forest ranger and left her mangled body beside a forest stream.

Minutes after the body of three-year-old Carol Ann Pomrankey was found a quarter-mile from her parents' isolated cabin, an angered posse shot and killed the animal.

The searching party had been frantically called by Carol Ann's mother, 28-year-old Mrs. Arthur Pomrankey, who saw the bear carry off her daughter.

Extension Is Seen Of Pan-Am Highway

SAN ANTONIO, July 8. (AP)—The Quatemalian portion of the Pan-American Highway may reach El Octol on the Mexican Guatemala border by June, 1949, William H. Furlong, U. S. representative of the National Highway Direction of Mexico, announced.

Furlong said an 85-mile strip between Guatemala and the unfinished highway in Mexico is scheduled to be completed by October.

Negro Groups Demand Civil Rights Plank

Statement Is Issued By 21 Organizations

PHILADELPHIA, July 8. (AP)—The race issue that has split the Democratic Party hit the party's platform writers like a thunderclap today.

More than a score of Negro organizations demanded a plank embodying President Truman's civil rights program, including anti-lynch, anti-poll tax and fair employment (FEPC) legislation. One organization, the National Negro Council, asked the platform writers to endorse an immediate call of the 80th Congress into special session to enact civil rights legislation.

Walter White, executive secretary of the National Association for the Advancement of Colored People, submitted a statement on behalf of 21 Negro organizations, declaring:

"The day of reckoning has come when the Democratic Party must decide whether it is going to permit bigots to dictate its philosophy and policy or whether the party can rise to the heights of Americanism which alone can justify its continued existence."

White's statement concluded: "We therefore, urge and insist that the platform of the 1948 Democratic convention endorse without equivocation the entire program of the President's committee on civil rights and especially those provisions to suppress lynching and mob violence, to ban the poll tax as a voting requirement, to afford equality of job opportunity and to abolish discrimination and segregation in the armed services, education and transportation."

"In addition, we urge that the platform pledge the full weight of the Democratic Party to the amendment of the Senate rules to invoke cloture by a majority vote in order that filibusters which have disgraced America far too long, may be stopped in the United States Senate."

He demanded that the convention refuse to seat delegates "who are elected by poll-tax vote or who are members or supporters of the Ku Klux Klan."

This organization's formal statement said: "There will be men in this very convention who have in the past, and will again, literally lead growing movements for liberation of the Negro in America."

"Men will come to this convention whose hands will be dripping with the blood of Negro Americans, the blood of men, women and children whose only crime was to believe that the constitution of the United States means what it says."

The Negro and civil rights organizations distributed copies of their statements to the press prior to their appearance before the Platform Committee.

Jittery Texas Delegates Are On Their Way

AUSTIN, July 8. (AP)—A jittery Texas delegation converged at North Texas today en route to the Democratic National Convention at Philadelphia.

Uninstructed as to presidential and vice-presidential nominees, most delegates and alternates were waiting for the breaks and for their first caucus, before making up their minds on what to do there.

The delegation includes two delegates and two alternates from each of the 21 congressional districts, plus 48 delegates and alternates at large, all named by the May 25 convention at Brownwood. The 132-member delegation has 30 votes.

It has not met once, and the first general get-together is scheduled for Sunday at Philadelphia. A conclusive caucus en route is not possible, since a group of delegates headed by Gov. Beauford H. Jester is riding a Missouri-Kansas-Texas special train of six sleeping cars, another group led by retiring National Committeeman Myron G. Blalock of Marshall goes in two sleepers attached to a regular Missouri Pacific train.

Several key members of the delegation are already in Philadelphia, including former Gov. Dan Moody who is helping with a preliminary platform draft.

Stevenson, Peddy Touring West Texas

Stevenson and Peddy visited in Midland and Odessa today. Stevenson also stopped at Monahan, Kermit, Wink, Mentone and Pecos. Johnson's helicopter whirred to Sinton, Refugio, Beeville, Kennedy, Yorktown, Cuero and Victoria.

Jim Griffin, candidate for commissioner of Agriculture, rode around Dallas on a tractor, saying: "I haven't a helicopter so this will have to do." Today Griffin was in Fort Worth, Denton, Gainesville, Montague, Bowie, Henrietta and Wichita Falls.

Old Trolleys Make A Ding Dong Town

MEMPHIS, Tenn., July 8 (U.P.)—Down on a delta plantation near bare white and Negro sharecroppers have set up a little city they call "trolley town." Its homes—40 of them—are old street cars. The cars once clanged their way over Memphis streets. Now they rest quietly on F. L. Abernethy's 503-acre plantation, looking out across the flat cotton fields. The rods of straps which many a passenger grasped for dear life make good wardrobe hangers. And other fixtures lend themselves to household materials.

All except two seats in the front and rear have been removed. This divides the typical trolley town home into a living room, bedroom, and kitchen. The many windows are thrown open in good weather. There's a blacksmith shop, a popcorn-soft drink concession and a cafe, each in an abandoned street car.

Abernethy got the idea last fall. All his tenant houses were occupied. He couldn't get new houses built. The city of Memphis was abandoning its street cars for buses, so Abernethy made a deal for 40 of the cars. The street car homes are lined up row on row. Abernethy says tenants like it that way.

One Negro sharecropper moved from a concrete block house to rent one of the cars. "I wanted to be amongst the rest," she explained. Above the kitchen in her place, an old sign orders: "This end of car for White passengers."

Vest Pocket Grocery Goes With Pencils

CHICAGO, July 8 (U.P.)—When salesmen call on Charles E. Bradley they hand him a pencil instead of a cigar.

He doesn't smoke. His habit is collecting automatic pencils. Bradley, an importer, has 650 of them. They come in all shapes and sizes. No two are alike. Nine out of ten of them write. But he doesn't care about that. He is interested in the odd attachments.

One has a knife on the upper end. Another is equipped with a postal scale for weighing letters. A third has a built-in calculating machine.

Bradley needs only to pull a pencil out of his pocket when he is uncertain which club to use on a golf course. The printed legend on it suggests the best stick for a given distance—eg., 145 yards, No. 5 iron. He has what it takes to measure shorter distances, too. This is a thin steel model that projects a yardstick. Works like a collapsible telescope.

Pencils bearing multiplication tables and calendars come in handy, too. One job was a whisk broom on the top end. Another is capped with a cigarette lighter. The stuff that is in the hollow cylinders of many of his pencils fascinates Bradley—such stuff as varnish, oil, sand, tobacco and surgical sutures. Others contain peanuts, corn kernels, sausage, milk orange juice, soft drinks, beer, garden seed and fertilizer. So long as he can reach a vest pocket, he need have no fear of hunger or thirst.

Samples Approved
MEMPHIS, Tenn. (U.P.)—Two boys were eating ice cream cones of different flavors. Mrs. L. B. Robison, a bystander, said a third boy seemed undecided which flavor to order until he took a lick from the two cones held by his companions. Then he ordered two cones of the same flavors.

SOMETHING FUNNY GOING ON

Benes Cheers, Gottwald Snub Arouse Probe By Czech-Reds

PRAGUE, Czechoslovakia, July 8. (U)—The Czechoslovak government will investigate a Sokol Congress that evidenced public enthusiasm for former President Eduard Benes and apathy for his Communist successor, Klement Gottwald.

Paraders at the SLET, or Congress of the Cultural and Athletic Sokol Society, Tuesday cheered for Benes and passed Gottwald in silence.

The Prague radio said yesterday ministers had been ordered to report on "results of the SLET" at the next meeting of the Communist-led cabinet.

"The question of future participation of foreign delegations in the SLET will be studied," the broadcast said.

Yugoslav, Russian, Polish, Trieste and Bulgarian groups marched in Tuesday's parade, which also produced cheers for Premier Marshal Tito of Yugoslavia, lately criticized by the Cominform. American Czechs waved the Stars and Stripes.

Another government move signaled the start of a purge of Czechoslovakia's army. The army's education director, Gen. J. Pro-

chazka, wrote in the Communist newspaper Rude Pravo that political instruction was beginning in the military establishment.

New officers will be accepted, he said, on "People's Democratic (Communist) principles," and "he who has no positive attitude toward the people cannot serve as a commander." Workers and peasants will be put in military schools regardless of education.

Demonstrations for Benes continued yesterday and last night. Police broke them up. Eyewitness accounts indicated at least 36 persons were arrested.

The police picked up a half dozen late last night from a group singing patriotic songs before Communist Party headquarters.

About the same time, some 2,300 policemen blocked off about a third of Prague's central square in an apparent effort to forestall more demonstrations there.

Some people told of seeing at least 30 arrested through the previous night. There were unconfirmed reports that scores had been taken into custody.

Early yesterday, groups moved through the city cheering for Benes and singing. Police broke

them up.

One big group cried, "Those who are not afraid will join us," while demonstrating for Benes in the central square.

Hustled out of there, it went to a railroad station and sang the national anthem before the pedestal of a statue of Woodrow Wilson.

"Leave, in the name of the law," shouted the police, some patting pistol holsters.

After the Communists took over the government last February, action committees were put in the Sokol and the Sokol was given charge of all the country's athletics. Gottwald said recently that despite a purge of reactionary leaders, there were still some in the society.

Lubbock Police Hunting Slayer

LUBBOCK, July 8. (U)—Officers today sought a 24-year-old suspect, a man they said was armed and dangerous, in the fatal shooting of R. L. Allston here yesterday.

Allston, 42, manager of the South Plains Associated Grocers, was shot as he stood in the doorway of his Lubbock apartment.

Officers said the suspect later forced B. R. Garrett of Lubbock, at gun point, to drive him to Brownfield, 45 miles southwest of here. They added that the suspect had had dates with Allston's daughter.

At Brownfield, police said, the man cashed a \$10 check on a Borer bank, signing the name of his mother, a resident of Pampa.

After that the man made a telephone call to ask about bus schedules.

Reward Is Offered For Nichols Killer

AUSTIN, July 8. (U)—A \$250 reward today awaited information leading to the arrest and conviction of the slayer of Ira C. Nichols.

Gov. Beauford H. Jester posted the reward yesterday after Lee County and state law enforcement officers had been unsuccessful in their efforts toward a solution of the July 4 slaying in Giddings.

Jester said the reward offer would remain in effect for 90 days.

Child Drowns

SAN ANTONIO, July 8. (U)—Julius Solis, Jr., 9, drowned in the San Antonio River near E. Pyron Road, Wednesday. Efforts of volunteers and firemen proved futile after the boy's body was recovered within a few feet of the muddy waters in which he disappeared.

The son of Mr. and Mrs. Julius Solis, he "just waded into the deeper water," a small companion said.

Southern Town Hall Association Drive Will End Here Saturday

Members of the Big Spring Federation of Women's Clubs and the 20-30 Club are beginning the last effort to obtain the needed 200 dual memberships for the Southern Town Hall Association.

The drive is scheduled to come to a conclusion Saturday and will not be reopened according to the leaders of the drive.

All persons interested in seeing the four scheduled programs which include the appearance of Virginia Sale, in her Americana character sketches, The Knickerbocker Quartet which is composed of Roberta Holmer, contralto; Gloria Yates, soprano and pianist; Hollis Johnson, tenor and Donald Gramm, bass baritone; Ruth Bryan Owen, a lecturer on national and international affairs; and the Chicago Opera Ballet, are urged to buy tickets now because the sales will not be reopened.

Tickets for membership in the Association permits the holders to attend similar programs in Odessa, Midland, Lamesa, Colorado City or any town that has the Southern Town Hall Association.

The membership fee is \$10 for a dual ticket, \$6 for a single ticket and \$3.50 for students.

All persons who have collected money for the membership cards are asked to turn it into Mrs. Moore Sawtelle as soon as possible. The money as well as the number of the cards sold with the name of the person who bought the cards, or the unsold memberships must be turned in not later than Monday night at the beginning of the meeting of the Big Spring Federation of Women's Clubs.

The total of memberships sold must be figured at that meeting in order to determine the possibility of having the programs in Big Spring this fall.

Mrs. Don Burk, treasurer, reported that \$600 was in the bank Thursday morning; but that a number of persons had not reported. A report must be made by all workers in the next few days, for there is no other way to determine how near the goal the sales are.

If the 200 dual membership goal is not reached, the money will be refunded.

A plea is made for all persons who wish to have such an organization in Big Spring to buy the memberships now from any member of the organization. Memberships may be picked up at the Chamber of Commerce from Christine Jagers or the Herald office from Billie Burrell or Leatrice Ross.

EAT PLENTY AND TAKE OFF UGLY FAT

Many people have reported amazing results with this home recipe. It's easy—no trouble at all and costs little. Just go to your drug store and ask for 4 ounces of liquid Barcontrate. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take two tablespoonsful twice a day. That's all there is to it. If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if you notice pounds and inches of excess fat don't just seem to disappear almost like magic, from neck, chest, arms, bust, abdomen, hips, calves and ankles. Just return the empty bottle for your money back.

Lost 47 Pounds

"When I commenced to take Barcontrate, I weighed 215 pounds. I now weigh 168, lost 47 pounds on the first two bottles. I feel so much better after losing that weight. I think it is a wonderful medicine and thanks to Barcontrate."—Mrs. George Gregg, Chalmers Courts 4, Apt. 1, Austin, Texas.

Lost 20 Pounds

Some Trends In Business

It's risky to attempt any forecast of the business situation, at a time when the upward spiral seems to continue in full force, but things may not always be as solid as they seem, and in support of this we offer some observations which have been circulated by a national trade association.

The association shows a "then" and "now" chart which, among other things, shows:

A year ago—Customers paid their bills; full employment at high overtime pay; controlled prices; scarcity of hard goods; high percentage of cash sales, low consumer debt; controlled buying; heavy demand for goods and services.

Today—Collections 10 to 14 per cent lower; full employment, but less take-home pay; uncontrolled higher prices; an increasing supply of hard goods; rapid growth in charge and installment sales; growing consumer debt; uncontrolled overbuying; leveling off the demand for goods and services.

All of these trends might not affect every business, but the trends, in general, must be apparent over the country. They can be watched and capitalized on to prevent an accelerated business decline if they go unregarded, the bubble could burst.

State Still Has Water Problem

Right now, streams throughout Texas are running bank-full, stock tanks are overflowing, and even a good deal of water is going over dams as a surplus to current water supply needs.

This circumstance should not blind Texans to the fact that the state's water supply is steadily dwindling, and that measures to increase and stabilize it are overdue.

The fact that the need of water conservation in Texas is being discussed by some candidates for major political offices is encouraging. Candidates for places in the Legislature are not saying much about the water supply problem, but they should give it their attention, for during the next decade it is going to require legislative action.

Our own section of Texas has always been a dry area, but as towns have developed the deficiency of water has become more painful. Even the eastern and southern sectors of the state have felt an increased need while supplies are falling off.

By supplementing municipal funds, the federal government is doing much in some instances, but if the over-all water supply is to be adequate, the state will have to participate in the program of reservoir construction and flood control. Large scale projects must be carried out to prevent rainfall from being carried to the Gulf during the flood seasons.

Texas is confronted not only with the task of keeping its supply of water adequate for minimum needs, but with the problem of storing water for irrigation and industrial development. The minimum is, of course, a must; but if the state is to make the most of its opportunities for future development, it must provide for stabilization of the larger supplies.

Right at home, the proposed Colorado municipal project is stirring again, and some final engineering report may come next month. It will be a report that Big Spring and its neighbors cannot overlook, for we must not pass up any opportunity.

PEDDY LEADS SENATE RACE NAME CALLING

By WILLIAM C. BARNARD, Associated Press Staff

Here's a handy little roundup of name-calling in the U. S. Senate race. So far, George Peddy is the champion name caller and hasn't been called any names in return.

Coke Stevenson has done less name-calling than anybody but has been the number one target for barbed oratory.

Lyndon Johnson has slung sarcasm at the Junction, Tex., ranchman, but has never punched Peddy. Peddy has called Stevenson "A professional politician who has eaten at the public trough 30 years, a fence straddler, platform avoider, a pussyfoot."

He has referred to Johnson as "a Johnny-come-lately" in recognizing the Russian crisis.

Of Johnson's helicopter, he said: "When they speak of the Johnson City windmill, are they referring to the machine or its occupant," and commented: "An ape man could attract better crowds."

"Johnson," he said, "flies like the bird that flies backward. He doesn't know where he's going."

Stevenson also took a crack at the helicopter: "It has not been necessary for me to engage in side-show stunts."

Johnson labeled Stevenson "a crafty, do-nothing, a silent, backward, pipe-puffing has-been." He also spoke of him as "the frightened candidate." Also, as "a pipe-puffing old man."

Peddy once lumped his opponents together as "two professional office holders who have much touted political organizations."

Robert Wear, staff correspondent of the Fort Worth Star-Telegram, had this to say about why he believes neither Johnson nor Stevenson are heckling Peddy: "Both Stevenson and Johnson followers have told news writers, in almost identical words, their measure of George Peddy of Houston as 'a good fellow, but he doesn't have a chance.' Both camps admit frankly they'd like 'to get all of the Peddy votes we can in the second primary.'"

"Consequently, both Stevenson and Johnson have refrained thus far from making any reference to Peddy in their public statements."

The Nation Today

New Angle On Comics

By JAMES MARLOW, WASHINGTON, July 8. (U-P)—Mama, take a gander at Mother Goose.

Johnny wakes up screaming, his head full of bloody murder from crime on the radio or in his comic books.

But, Mama, do you think, maybe, you gave him his first taste of cruelty by sing-songing him nursery rhymes from Mother Goose?

Radio crime programs and crime comic books have been accused of giving children nightmares and vicious notions.

In the Saturday Review of Literature for May 29 Dr. Fredric Wertham used brass-knuckles on the comic books.

Wertham, senior psychiatrist of New York City's department of hospitals, said in that article: "Comic books are the greatest book publishing success in history and the greatest mass influence on children."

"My own clinical studies have convinced me that comic books represent systematic poisoning of the well of childhood spontaneity. Many children themselves feel guilty about reading them."

The comic book publishers seduce the children and mislead the parents."

On July 2, about a month after Wertham's attack, a group of comic book publishers agreed not to publish any comics which feature sexiness or sadistic torture, glorify crime of foster religious or racial prejudice.

Only 14 comic book publishers agreed to this. They publish only 15 million of the 50 to 60 million comic books sold monthly.

But now the Saturday Review of Literature strikes, from a different angle, at the old, unthinking habit of killing children's heads with ideas of violence, crime, cruelty and mean tales.

Norman Cousins, editor of the Review, in the June 26 issue opens up on parents who, even though innocently, have been trying to croon their off-spring to sleep with bloody lullabies from Mother Goose.

He lists some of the goings-on in Mother Goose: "... cracked skulls, people clawing at each other, bird killings, throwing kittens down wells, stealing, cheating, lying, oriental torture, tail-severing of blind and helpless animals, house-burnings, improper relationships between the sexes, and other affronts against human decency."

Recently, he says, he picked up a copy of Mother Goose at the home of a friend who had just scared the nightgowns out of his child by chanting the story of the bough breaking and the baby falling.

Truman Claims That Paul Porter Is His Spy In Eisenhower Camp

By DREW PEARSON

WASHINGTON—There was great excitement aboard the President's yacht on a recent trip down the Potomac when Paul Porter, former OPA boss, turned up among the guests.

Anxiously, a White House aide asked Truman: "Who invited him, Mr. President? Paul Porter is a spy for the Eisenhower people. He's a vice chairman of the Americans for Democratic Action, which is all-out for the nomination of Eisenhower."

"Oh, don't worry about Paul," replied Truman impulsively. "He's all right. In fact, it's the other way around. He's a spy for me in the Eisenhower camp."

DAN TOBIN WOOD, Gruff, likeable Dan Tobin, boss of the AFL Teamsters Union, always calls on AFL colleagues during visits to Washington. In New Deal years this was frequent, for Dan was a great friend and close adviser of FDR's.

Last week Tobin's AFL cronies were particularly anxious to see him, and get the lowdown on his conference with President Truman. They knew Dan had been suddenly "summoned" to the White House and they wanted to know whether Truman had been successful in bringing the rebellious teamster back into the Democratic fold.

However, Dan blew in and out of Washington as if he were traveling incognito. He saw no one except Truman.

Reason was that the bigshot labor leader was more than somewhat confused after the President, who desperately needs Tobin's support in his nomination and election drive, turned the ultraviolet charm ray on him during a private "audience."

Reason behind Tobin's White House summons of course was his press statement that AFL President Bill Green wasn't speaking for the Teamsters Union when Green declared labor couldn't support the Republican Dewey-Warren ticket. Also the White House grapevine reported that Tobin was sore at Truman for not consulting with him, as did FDR.

In the background also was the close kinship between Dave Beck, Tobin's top lieutenant on the West Coast, and Dewey's running mate, Earl Warren of California. The AFL teamsters have always been in the Democratic column, but this year it looks like the West Coast branch, at least, will go Republican, due to the Warren influence.

TRUMAN COOS TO TOBIN

Meanwhile, here is a report on the Truman-Tobin talk which may interest Dan's AFL colleagues.

Truman didn't discuss political fine points, except to say that he hoped the Teamsters Union would continue to exert its influence for "candidates friendly to labor," as it did during New Deal years.

"I realize I have been remiss in not calling on you and other responsible labor leaders for advice more often," Truman half-apologized, "but I think you realize I haven't had the time or opportunity to do this, due to the overwhelming obligation of other things, chiefly international affairs."

"It's going to be different from now on, Dan," he continued, "and I want you to know that you are always welcome at the White House as long as I am here. Your advice has always been welcomed in the past and I am sure that we will continue to operate on the old standard after November."

Tobin didn't commit himself. But he did agree with Truman on one thing—that the last Congress should be blasted for blocking public housing and other liberal measures. Other than that, the teamsters' boss made no promises.

MERRY-GO-ROUND

New G.O.P. chairman, Congressman Hugh D. Scott of Pennsylvania, sounded just a bit like Nazi Prodigandist Joseph Goebbels back during the war years. Declared Scott at a Lincoln Day dinner February 12, 1943: "It is time for the Republicans to take over. We are the best stock. We are the best people." . . . Governor Dewey will spend most of his time between now and Labor Day in Pawling, N. Y., preparing for his campaign. Republican leaders from all over the country will gather at Pawling to confer with him. . . . Indiana delegates are still a bit irked because their favorite son, House Majority Leader Charlie Halleck, missed out on the vice-presidential nomination. Halleck assured them at a secret caucus that he had Dewey's promise for the job if he could deliver Indiana's votes. Dewey men say under way to name statesmanlike Senator Joe O'Mahoney of Wyoming as Truman's running mate in Philadelphia. O'Mahoney could do more to offset Governor Warren's popularity in the West than Governor Mon Wallgren of Washington, though the old Al Smith story lurks in the background. . . . If fighting in the Holy Land is resumed, the Arab armies are in for a big surprise. The new State of Israel now has a trained air force, tanks and armored cars.

UNDER THE DOME

Maddest man in the Republican party today is Congressman Charles Halleck of Indiana. Halleck considered himself a leading candidate for vice president on the Republican ticket—until Governor

First convictions in the I. G. Farben trials of German industrial war criminals will be handed down next month. All the evidence is in. . . . Count Folke Bernadotte, the U. N. mediator in the Palestine war, is trying to get a two-week extension of the holy land truce. The Arabs won't budge on any of Bernadotte's peace proposals. . . . Hard-hitting Irving Kaufman will reconvene the federal grand jury soon to seek new indictments of unregistered lobbyists and pressure groups. . . . Lee Pressman, ex-general counsel of the CIO, has filed for Congress as a Henry Wallace candidate from Brooklyn.

ARGENTINE CURRENCY SKIDS

The continued fall of the Argentine peso is beginning to have serious repercussions in neighboring countries, especially Uruguay, whose money is South America's soundest.

The free-exchange quotations in Buenos Aires have lopped nearly 40 per cent off the value of Argentine currency since May 20, in relation to such "hard" money as the dollar, Uruguayan peso, Swiss franc, etc.

Margaret O'Brien Hopes To Bridge Awkward Years

By BOB THOMAS

HOLLYWOOD, (U-P)—It looks like a life-long acting career for Margaret O'Brien.

The talented tot's mother had hoped to retire Margaret from the screen during the in-between years, but the little gal is putting up a fight. She turns on the tears whenever a retirement is mentioned, and it now appears that Margaret will stay in pictures. She plans to bridge the awkward period by appearing in a film series based on "Violet," the super-intelligent moppet. Margaret herself sold boss Louis B. Mayer on the character. Maggie, now 11, is maturing so fast that her mother has to prompt her not to act sophisticated. Mrs. O'Brien has laid down one hard and fast rule: No dates until Maggie is 15.

Barry Sullivan is up for the role of Caesar Borgia in "Lucretia Borgia," starring Ray Milland and Paulette Goddard. Bette Davis goes to New York after "June Bride," her first visit in 10 years. She's not fond of the town.

The Gregory Peck version of "A Tale of Two Cities" will be filmed in England and France. . . .

BRADLEY GOOD WARRIOR THAT DETESTS WAR

BY HAE BOYLE, NEW YORK, July 8. (U-P)—The cry toward war gets louder. It goes into the bars, it reaches into the homes.

It comes down on the elected heads of the people, and it reaches into the hearts of the men who may have to lead the American nation in the next war — if it comes.

One who considers it with no enthusiasm is the man whose orders cost more American lives in the second world war than any other commander.

His name is Gen. Omar Nelson Bradley, the Army's chief of staff. He is a tall gaunt homely man from Missouri.

Gen. Bradley was the architect of victory in the field in Europe during the second world war but didn't get over as during the first fracas.

He once said he had spent the intervening period explaining why he hadn't. And when he was asked how he could order hundreds of thousands of soldiers to undertake missions that might mean their deaths, he replied soberly: "I spent 30 years of my life preparing for this."

It was said in complete honesty and sincerity—is it typical with Gen. Bradley.

From El Guestar in Africa to the River Elbe in Germany no field commander had more to do with the Allied triumph. He was Eisenhower's right hand.

Gen. Bradley commanded more fighting troops overseas than any other man in American history.

One test of a commander is the loyalty he stirs in the men around him. In Gen. Bradley's case it was never the blind adoration given to an insistent leader. It came completely from the heart.

He is a simple, unprepossessing man who detests war more than any mother who lost a son—because he lost a lot of friends, and a lot of boys he regarded almost as sons.

He thinks we've got to lean to a world agency to rid the universe of war. But if it comes again in our time, I can't conceive of a sounder, safer, more considerate—and yet more adventurous leader—than Gen. Bradley.

I don't know a man who knows war better or likes peace more. He gave the orders once. He doesn't want to give them again.

Showdown On Berlin

By DEWITT MACKENZIE, AP Foreign Affairs Analyst

The battle of Berlin between Russia and the Western allies is moving sharply towards a showdown.

The blunt demand made by America, Britain and France that the Reds immediately lift the food blockade against Western Berlin is calculated to bring things to a head. This blockade of course represents a savage attempt to force the democracies to evacuate the city by torturing the German people. Having got the Western Allies out of the way, the Bolsheviks could form a separate state in Eastern Germany, with Berlin as its capital.

Washington, London and Paris have called Stalin's hand and at a time when the Iron Curtain is showing considerable wear and tear at vital points like Yugoslavia, Finland and Czechoslovakia.

Equally impressive was the announcement in Washington that the ambassadors of Canada and five Western European nations had been called into conference with Undersecretary of State Lovett.

The five Europeans are Britain, France, The Netherlands, Belgium and Luxembourg, which recently formed an alliance. These conversations will have to do with possible American military support for the Western European bloc.

There can be small doubt that the general European situation provides an anxious moment for the Moscovites. The defiance and dislike being registered by the three satellite states—comes from countries which are, strategic points in Russia's battle front through Europe.

These signs of weakness developing in the Bolshevik battle-line certainly don't lend strength to the Russian campaign against the Western allies in Germany. When the battle line still seemed unpaired it was quite clear that Moscow was prepared to force the issue against the Western powers by all means short of actual gunfire. Russia hasn't wanted war, but in order to further her Red revolution in Europe she has been willing to take many risks in an effort to browbeat the democracies.

The allied notes calling for an end to the food blockade should force the Soviet to disclose whether it has carried its challenge as far as seems smart at this juncture.

Peruvian Rebels Reported Crushed

LIMA, Peru, July 8. (U-P)—The government said last night it had crushed the revolt of an army garrison in Southeast Peru, and announced today it had ordered the leaders punished under military law.

Last night's communique said the rebellion of the Julica garrison, on since Sunday, ended when garrison personnel "renounced any longer to recognize the authority of the revolutionary command," whose aims were not clear.

Round The Rim—By The Herald Staff

Strange Divisions Within America

This truly is a land of strange divisions. Scientists have a theory that a person's speech and habits are greatly influenced by the climate and geographical layout of the area in which he lives.

I can see their point. The Southerner's rounded o's and soft r's are usually drawn out in a manner that is soaked with humidity and reflects a hot day in Dixie. Pennsylvanian's "oi loik ut" (translated "I like it") sounds as if it came from deep within the walls of a coal mine.

Accents I have learned to take in stride but I never cease to be amazed at some of the other differences in habits that are evidently the product of sectionalism.

For instance, I have a friend from Illinois who had never heard of iced tea until she came to Texas. The Illinois, she said, did drink tea but took it hot except on rare occasions when it was cooled in the refrigerator and then consumed—without ice.

Some Boston people were amazed recently when visiting a chicken specialty restaurant in Texas. They couldn't visualize eating a meal consisting only of fried chicken, potatoes and a salad. And the waitress forgot to place the silverware. The visitors, of course had never eaten chicken with their hands.

On the other hand, I was quite a big boy before I learned that beyond the Red river there is no such dish as English peas. It's just plain peas, that many "foreigners" won't eat cow peas (blackeyed) as they consider them stock feed. And that beyond Texas borders lies many a strange gasoline sign and unknown soft drink.

It's a good thing we all approve of the constitution and love freedom for there are many little things that separate us.—ADRIAN VAUGHAN

Eastern Europe And Ersatz Reds

By WALTER LIPPMANN

The surprising thing about the Yugoslav rebellion is not that it happened but that it happened so soon—while the Red Army is still as far west as the Elbe River. For there is no longer much doubt, I think, that the leading nations of eastern Europe, however Communist, are not the willing satellites of the Russian empire and are certain to follow an independent line in so far as they are not occupied or enveloped by the Russian Army.

The reason why Yugoslavia, rather than Poland, Czechoslovakia, or Hungary, was the first of the satellites to defy the Kremlin is, I should suppose, that the military position of Yugoslavia is more favorable to independence than is theirs. It is not occupied, has no common frontier with the Soviet Union, and is not within easy reach of the Red Army. Tito has a substantial army of his own. He is not dependent upon the Red Army, as are Poland and Czechoslovakia, for the protection of his territory against a resurgent Germany. He has nothing to fear from Italy, and he has sea and land frontiers open to the West. Thus the balance of military power protects him against direct Russian military pressure and permits him, indeed invites him, to exploit his advantages for national and personal purposes.

The events will show whether his rebellion was premature, whether, being an impetuous and ambitious man, he has underestimated the power which the Soviet Union can exert in his neighborhood by virtue of its military control of the industries, the railroads, the rivers, and the strategic strong points of eastern Europe.

But if Tito's rebellion fails, it will be because he attempted it before the Russian Army's withdrawal from the center of Europe.

If the evidence is not yet conclusive, it is certainly increasingly impressive, that the key to the Russian problem in Europe is not, as so many believe, the ideology of Communism and the fifth column of the Communist parties. The key to the Russian problem in Europe is the presence of the Red Army in the center of Europe. The Iron Curtain is the Red Army on the Elbe River.

Thus, in reacting to the Cominform's denunciation, Tito called for a "general strengthening" of the Yugoslav Army which "protects the freedom and independence of the people of Yugoslavia." In the context this can mean only that the army protects Yugoslavia against the Russian Army.

Thus, also, there is the angry admission of a Romanian newspaper which speaks for the Cominform that "the people's democratic regimes"—namely Communist regimes—"could not even exist" in Europe "without Russian help." The only countries which Russia was unable to "help" become Communist were those which were liberated from the Nazis by the Red Army and then governed by men installed in office by the Red Army.

There is, too, the highly significant admission by the Cominform itself that Tito's rebellion can now be dealt with only by "the sound elements of the Communist party of Yugoslavia." This means that M. Vishinsky cannot go to Belgrade, as he once went to Bucharest, in order to install a more satisfactory government. The Red Army is not in Belgrade.

The Cominform's bill of complaint discloses the reason why, without the presence of the Red Army, the Kremlin is unable to rule Europe through the Communist parties. Nowhere are the Communists more than a compact minority. To stay in power they must either make terms with the Socialists and other non-Communist, as they have in Yugoslavia and Poland, or they must have overwhelming force behind them in order to exercise a purely Communist dictatorship.

Harrison Questioned About Landis Suicide

HOLLYWOOD, July 8. (AP)—British Actor Rex Harrison faced corner's questioning today in connection with the suicide of Screen Star Carole Landis.

Harrison apparently was the last person to see the blonde actress alive at her Riviera home Sunday and was the first to discover her body slumped on her bathroom floor the following afternoon.

"Our intent in calling Mr. Harrison," explained Coroner Ben Brown, "is to leave nothing undone to clear up completely any unexplained points in Miss Landis' death."

The star's brother, Lawrence Ridgely of San Bernardino, Calif., indicated the family does not expect to question Harrison.

Meantime, search continues for a second will. The only one found

so far was filed in 1944. Jerry Giesler, Miss Landis' attorney in her recent divorce suit against her fourth husband, W. Horace Schmidlapp, said the will named the actress' former business manager, Bo C. Ross, as executor and one of his aides, Charles E. Trezona, Jr., as co-executor.

The attorney said the star's mother, Mrs. Clara Landis, has not been adamant about who the executor should be, but would prefer a member of the family. Giesler said both men are willing to comply with family wishes in the matter.

The film star's property settlement with Schmidlapp was final except for her signature. Giesler said, adding that Miss Landis had agreed to it orally and had promised to sign it last Tuesday. But death intervened.

Giesler took little stock in reports that financial distress contributed to the star's suicide. Money from the sale of her house, he said, would have paid all her bills and left a considerable sum besides.

"She was very honorable about paying her bills," he added. "She had written personally to her creditors, assuring them that they would be paid as soon as the sale of the house cleared escrow."

Giesler said he believes the actress took the overdose of sleeping pills impulsively as a result of a "sudden, great shock," and then changed her mind—but too late.

Howard Heads Working Hard On Road Plan

Although considerable detail work is ahead to bring the program to fruition, the county commissioners court plans to start soon on bringing some 40 miles of county road into the state maintenance program.

The commissioners voted last week to proceed toward meeting stipulations laid down by the state in order to perfect the arrangement.

Under the program, as designated by the state highway department, the state would:

- (A) Help the county build the Lomax road, on a 75-25 basis (state paying the 25 per cent plus engineering costs);
 - (B) Help the county build a road to the new northern oil pool, (this route not yet determined and probably to be routed as an extension of the Gall road) on the same cost basis;
 - (C) assume maintenance of the Knott road, the road leading through the Howard-Glasscock fields eastward from Highway 87, the road north from Coahoma, and the paved portion of the Gall road.
- Assumption of state maintenance on these paved stretches is contingent upon the county providing 80 foot right-of-way. Commissioners felt that this will not be a major problem on all routes, but will consume considerable time and negotiation for a part of the contemplated road improvement program.
- Members of the court said they felt the proposal represents a broad step forward for the county, and particularly are pleased with the fact that maintenance funds the county has had to devote to these roads would be freed for other road improvement.

Patrolman Injured

EL RENO, Okla., July 8 (AP)—Sam H. Archer, 40-year-old border patrol member from El Paso, is in a serious condition at El Reno sanitarium after an automobile accident near here which took the life of E. E. Major of Paron, Ark. The Texan was enroute to Asher, Okla., to be married, Highway Patrolman C. E. Etheridge said.

Oilman Dies

CORPUS CHRISTI, July 8 (AP)—Tom Graham, 56, South Texas independent oil operator and president of the Corpus Christi chamber of commerce, died at his home here early today of a heart attack. He was president of the Tom Graham oil company, Laguna Ranch company and Jim Wells Gas company.

Adverse Weather Spurs '48 Work

Land owners and operators who are cooperating with the Martin Howard Soil Conservation District have been applying a complete program since January 1 in spite of adverse climatic conditions the supervisors noted in their July 1 semi annual report on accomplishments.

Interest in cover crops, stubble management, contour cultivation, terracing and range improvement have taken on impetus in the face of excessive winds and low precipitation the board noted. Included in the report are 19,273 acres of contour farming, 5,033 acres of cover crops, 7,197 acres crop residue management, 30 acres of pasture grasses established, 357 miles of broad base terraces constructed and 748 acres of land under irrigation.

Morris Patterson, district cooperator on his farm in the Elbow Soil Conservation group, reports that pasture terraces and a diversion dyke recently constructed kept water from a heavy rain off his farm land and prevented a lot of damage from erosion. Outside water from other areas, however, flooded part of his farm and washed his fields severely.

Patterson has planned to take care of all outside water on his farm with a system of diversions.

A 6,200-cubic yard stock tank has been staked out on the C. H. Garner place north of Vincent. The tank will furnish additional water for livestock and provide for better distribution of grazing on the pastures.

Gordon Stone, a supervisor of the District who farms and ranches eight miles south of Stanton is digging a test irrigation well. Stone is especially interested in irrigation water in order that he may put considerable acreage to improved irrigated pasture as a part of his ranching program for drought insurance.

Speaker Says Economic Study Can Bring Peace

FORT WORTH, July 8. (AP)—Economic study can grant women's two most earnest wishes — world peace and reasonable prices — Walter William of Seattle, Wash., told business and professional women meeting here.

"These two wishes are pretty basic," he said yesterday. "They are related directly with the kind of an economic system we have. They can be achieved—definitely and positively—providing we come to a better understanding of what makes our economic system tick and then set to work to make it tick better—to make it provide more and more for more and more people."

Williams spoke to the National Federation of business and Professional Women's Clubs convention.

Will's Hospitality Isn't "Cracked"!

Ever since January, Will Dudley planned to give his living room that "new look"—planned to carefully refinish the woodwork and replaster the walls.

Every time Will got out the putty to start filling in the cracks, a neighbor stopped by to pass the time of day—and first thing you know, there was a group of us helping Will do the job up right. After Will called a halt to the evening's work, we'd sit around the fire enjoying a friendly argument and a sparkling glass of mellow beer.

So Will's living room doesn't look like it did a year ago—but it's by far the most "livable" living room I know! A place you can always drop in for good talk, good beer, and a warm welcome.

From where I sit, so long as Will puts that atmosphere of hospitality and good fellowship ahead of everything else, we'll all be happy to help Will change the look of his living room any time he wants.

NOW! AN EASIER WAY TO DO YOUR FAMILY WASH!

NEW WASHING DISCOVERY

FAB

WITH SUPER-WETTING ACTION

WASHES EVERYTHING FASTER, CLEANER, WHITER, BRIGHTER THAN ANY SOAP... IN HARDEST WATER!

Demonstration show FAB gives FABULOUS SUDS, even in hardest water

Two washing machines were filled with hardest water. One cup of FAB was put into washer on left. Into the one on the right — one cup of soap. Both washers ran 7 minutes. Result: A washer brimful of suds from FAB. Almost no suds from soap.

What is Super-Wetting Action?

See for yourself! Roll cotton sewing thread into a ball. Drop it into a glass of water. It floats; does not become completely wet for a long time.

Now drop another ball of thread into a glass of water and FAB. It sinks; becomes completely soaked at once. This shows how FAB penetrates materials faster... pushes dirt out!

FAB WASHES CLOTHES CLEANER THAN ANY SOAP

FAB with Super-Wetting Action instantly penetrates materials; pushes dirt out. Washes grime-stained overalls cleaner than soap! No soap scum with FAB. Wash is whiter, cleaner!

NEW INGREDIENT GETS WHITE WASH WHITER, COLORS BRIGHTER!

FAB's fabulous new ingredient gets white wash whiter, colors brighter. And there's no dulling soap scum with FAB!

FAB WASHES CHEAPER... IN HARDEST WATER

Laboratory tests prove that cup for cup, in hard water, FAB washes up to twice as much family wash as soap. All of FAB washes... Nothing is wasted in soap scum!

FAB WASHES DISHES TWICE AS FAST!

No wiping! Just wash with FAB, and rinse. No soap film to polish away! Even glassware sparkles! FAB with Super-Wetting Action slashes through grease and soap can do!

**Serve Three Meals From Pork Roast
As Weekend Economical Food Buy**

Three meals and good eating in a fresh pork roast! That's a good way for Mrs. America to save money this weekend - if she buys the roast from the rib end of the pork loin.

Government home economists give us this advice, suggesting we look first for meat bargains and then the right vegetables to go with the meat in end-of-the-week shopping.

Buy a roast that weighs about three pounds, they say. Rib end pork roast is about 49 cents a pound in many markets. And you'll have three meals for a family of four. The rib end is an economy cut of meat. For it's about 24 cents a

Deviled Tunafish
3 tablespoons butter or margarine
2 tablespoons flour
1/2 teaspoon salt
1 teaspoon dry mustard
1/4 teaspoon paprika
1 cup milk
One 7-ounce can (1 cup) tuna
1 tablespoon lemon juice
1 tablespoon finely cut parsley
1/4 to 1 cup (about 2 slices) soft bread crumbs
4 short sprays parsley
Melt 2 tablespoons butter or margarine in a saucepan over low heat; add the flour, salt, mustard and paprika and blend quickly. Remove at once from heat. Add milk gradually, blending with whisk or back of wooden spoon until smooth, after each addition. Return to medium or high heat and cook, stirring constantly, until thickened and bubbly. Reduce heat to low and allow to simmer 2 minutes longer to finish cooking flour. Remove from range, add tuna (including oil from can), lemon juice and finely cut parsley. Mix well, breaking tuna into flakes, but leaving some of it in larger pieces. Turn into 4 individual baking shells or dishes. Melt the remaining tablespoon of butter or margarine in clean saucepan or small skillet over low heat, add crumbs and stir until they are evenly coated. Sprinkle over tuna and place under low or moderate heat in broiler, about 4 inches from source of heat, so that crumbs do not get too brown before fish is hot. Watch closely. In about 7 to 10 minutes or so fish should be thoroughly heated and topping a beautiful golden brown. Garnish with parsley sprigs, tucking short stems into sauce. 4 servings.

Farmer Gives Life Trying To Save Dog

NORTHAMPTON, Mass., July 8. (AP)—A farmer who couldn't swim a stroke lost his life yesterday trying to rescue his dog from swiftly-flowing Connecticut River. Michael Kabelek, 55, plunged in-

to the river when the dog got caught in a strong current while retrieving a stick the farmer had thrown into the water. Kabelek sank as his wife, Margaret, 50, looked on helplessly. The dog finally reached shore. Police and firemen recovered the farmer's body.

VACATIONS GO FOR AN AUTO

SEYMOUR, Ind., July 8. (AP)—Seymour policemen would rather have a new patrol car than vacations. The city of 9,000 did not have enough money for a new car. It had money appropriated to hire substitute policemen during vacations. The cops did a little figuring, weighed the situation and made their choice. They'll stay on the job this summer and get a new patrol car.

Mayor Outlines City Information

To The Editor
 I appreciate the service you are rendering your readers by letting them air their views in your paper. I have thought several times in the past that the mayor or some city executive should give the people of Big Spring information as to what their city is doing for them and what they should do for their city to make it a better place to live.
 In April, 1945, I was elected city commissioner and in 1946 became mayor. I might give some information on the city dating back to the former date.
 In April, 1945, your city's bonded indebtedness was \$1,219,500, and in May, 1946, it had been reduced to \$972,000, a total reduction of \$246,500 in three years.
 Your city tax rate has not been increased during that time despite the fact that material and labor has increased. Adjustments upward have been made partially in accordance with enhanced values, but not half as much as inflated selling prices. Your city uses 66 2-3 valuation, and the total valuation is well over ten million dollars on this basis. More than half the property tax money you pay in is used for bond reduction and interest payment.
 I am opposed to any increase in the city tax rate unless absolutely necessary for development of more water and a water distribution system. Our city's valuation is increasing at the rate of about a million dollars a year, due to new construction.
 Our city jointly with the county paid for an \$80,000 site for the Veterans' hospital, and this big project is, of course, well under way.
 In the past two years we have paved 101 city blocks at a cost to the city of about \$90,000. We have 28 1/2 miles of paving completed, and 100 more blocks, or approximately six and one-half miles under consideration, which would make about 35 miles of pavement out of the city's total street mileage of 77.7.
 We have under immediate consideration the construction of an airport administration building at a cost of \$35,000. The airport here is one of the few in the country operated at a profit.
 No town can continue to grow without an abundance of water, while we have sufficient water for our present needs, we need additional water reserves to take care of additional growth.
 The Colorado dam project under contemplation should be reported on by the engineers in August, and we understand reports are favorable. We should not be short sighted. If we do not take immediate advantage of getting this additional water supply we will not be able to expand much further. Our population would soon double if we were assured of plenty of water to take care of both domestic and commercial uses.
 Our oil production is gradually being expanded which will of necessity increase refinery output, and we must be on the alert especially in housing to take care of arrivals.
 We need more street lights and hope to furnish them as soon as possible.
 We need water and sewer line extensions and larger water lines to take care of an increasing number of users on small water lines. Pipe is very scarce, high and almost unobtainable.
 We are badly in need of parks and a swimming pool on the north side of town. This should be Big Spring's Number 1 project, we have neglected this entirely too long. I hope the people of Big Spring will rally behind this move and help put it over.
 This may be a matter of opinion, but I think I am in a position to say we have as good a corps of city officials as can be found anywhere, including our city manager, city commissioners, department heads and employees. They are loyal, courteous, and trustworthy. We are trying to make everyone feel that Big Spring is your town and you are at liberty at all times to offer suggestions, and constructive criticism is always welcome. We want our town to be democratic and friendly.
 G. W. Dabney,
 Mayor

Spinach And Liver Timbales
Hamburger every day isn't the only money-saving way to feed your family.
Fortunately, there's variety in the low-cost meals—like the variety of expensive ones. And we offer these creamy spinach and liver timbales to prove it.
Timbales — which are savory main dish custards—are a happy idea for combining tender spinach and flavorful liver.
The recipe doesn't use much liver—and you can cut cost to less than half by using pork liver. Pork liver may come as low as 39 cents a pound, compared with about 98 cents a pound for calf's liver.
SPINACH AND LIVER TIMBALES
½ lb. liver
1 tablespoon fat
1 tablespoon flour
2-3 cup milk
2 eggs
1 cup chopped cooked spinach
Salt and pepper
Pour hot water over liver and allow to stand 5 minutes. Remove veins and connective tissue and grind liver. Melt fat and blend in flour. Stir in milk gradually. Add well-beaten eggs, chopped spinach and ground liver. Season.
Place mixture in well-greased custard cups and bake in a pan of hot water in a moderate oven (350 F.) for 30 minutes or until set. Serves 4.
There's hearty eating in these timbales too. Liver is so protein-rich that the one-half of a pound with the eggs and milk in the recipe furnishes all the protein you need in a main dish for four.
Try a menu like this with the timbales:

TIPS ON COTTAGE CHEESE:
It's the plentiful time of year for cottage cheese—and so this nutritious food comes at a good price right now.
Today's dessert can be a whopping favorite if you add crumbled blue cheese to chilled cottage cheese—plus Worcestershire sauce, seasonings and top milk.
Serve with crispy crackers and raw fruit — perhaps tart red cherries with their stems left on.
You may buy cottage cheese plain, or creamed—meaning cream or a mixture of milk and cream has been added. So you pay for the added milk fat.
But you may prefer to cream your cottage cheese at home—just before serving—as many do.

Lacy Raisin Cookies
1 teaspoon baking powder
¼ teaspoon salt
¾ cup sifted all-purpose flour
1 teaspoon cinnamon
½ teaspoon mace
½ teaspoon allspice
¼ teaspoon cloves
¼ cup butter or margarine
1 cup granulated sugar
2 small eggs
¾ cup seedless raisins
½ cup coarsely chopped pecan or walnut meats
4 cups uncrushed corn flakes
Sift flour, baking powder, salt, cinnamon, mace, allspice, and cloves together. Cream butter or margarine, add sugar and continue creaming until light and fluffy. Add eggs and beat well. Mix in flour, raisins, nutmeats and corn flakes. Shape in small mounds, about 3 inches apart on ungreased cookie sheet. Do not flatten since cookies spread. Bake in moderately hot (375 F.) oven 12 to 14 minutes. Cool slightly and remove from cookie sheet with spatula or thin bladed knife. Makes about 2½ dozen large cookies.

Cauliflower And Cheese Sauce
1 medium-sized head cauliflower
1 cup boiling water
2 tablespoons butter or fortified margarine
2 tablespoons enriched flour
¼ teaspoon salt
¼ teaspoon dry mustard
1½ cups milk
3 tablespoons soft yellow cheddar cheese
Remove outside leaves from cauliflower; leave any tender young green leaves. Break into flowerets; stalk may also be utilized if end is cut off and remainder is peeled and sliced. Cook briskly in boiling water for 10 minutes. Drain well; reserve small amount of liquid remaining for soup, or substitute it for part of the milk in this recipe. Melt butter or margarine in saucepan over low heat; add flour, salt and mustard and blend. Remove from heat. Add milk slowly, blending until smooth after each addition. Return to medium heat and cook until thickened and bubbly. Lower heat and add crumbled cheese; stir until cheese is melted. Add cauliflower. Turn off heat and cover saucepan (to prevent skin from forming) until ready to serve, as not to break up cauliflower. Reheat slowly stirring gently, so few times. 4 servings.

Carrot Cheese Puff
1 tablespoon butter or margarine
1 tablespoon flour
¼ teaspoon salt
1 cup milk
1 cup (about ¼ pound) grated yellow cheese
2 eggs, separated
1 cup soft bread crumbs (about 2 slices)
One 4½-ounce container strained baby-food carrot.
Melt butter or margarine over low heat; add flour and salt and blend until smooth. Remove from heat, add milk gradually, stirring until smooth after each addition. Return to heat and stir constantly until thickened. Add cheese and continue cooking until cheese has melted, stirring as you do so. Remove from heat and add slightly beaten egg yolk; mix. Add bread crumbs and carrots and mix well. Allow to stand for a few minutes. Fold in stiffly beaten egg whites. Pour in greased casserole and bake in a slow (325 F.) oven for 1 hour or until done. Serve immediately. 4 to 6 servings.

Peas With Bacon and Onion
4 slices bacon
1 small onion
2 cups canned or cooked green peas
1 to 2 tablespoons liquid from peas
Cut bacon slices in half; place them on top of each other and cut into one-half inch dice. Heat heavy medium-sized skillet, add bacon and brown slightly over low heat. Peel onion, remove slice from one end; now cut down and across into tiny squares to half the depth of the onion and let dice fall into skillet; add remaining onion cut in this way. Cook onion until partly tender and bacon is further browned. Add peas with a tablespoon or two of the liquid in which they were canned or cooked. Heat thoroughly and serve on crisp toast. 4 servings.

Albanians Walk Out Of Large Balkans Meet

BELGRADE, Yugoslavia, July 8. (AP)—When a speaker criticized the Cominform, Albanians walked out of a big meeting of war wounded of Yugoslavia, Albania and Hungary here yesterday.

The Albanian government has sided with the Communist International Information Bureau in its charges against Premier Marshal Tito and other Yugoslavia Communist leaders.

The speaker who took issue with the Cominform at the meeting here was Mijole Milejevic, army commander of Belgrade. Of the Communist organization's accusations he said:

"Shameful mud has been thrown at our country, at us, at the blood we shed and at the fighters who shouted as they died 'Long live Stalin and the Soviet Union.'"

The Albanian delegates would not comment on their action. Newspaper accounts termed their walkout an "uncultured and uncomradely gesture."

Milejevic suggested that the war invalids expel Andrija Hebrang from membership on the ground he had engaged in anti-partisan and anti-people's work. News reports said there was great applause.

Hebrang, who lost an eye fighting in Yugoslav partisan ranks, was minister of light industry until Tito's Communists purged him May 5.

Forrestal Sets Exemption Plan For Reservists

WASHINGTON, July 8. (AP)—To remain draft exempt, organized reservists must not miss more than one out of 10 drill periods.

This is one of the qualifications Secretary of Defense Forrestal laid down at a news conference discussion of the new selective service act.

Another is that the reserve unit must have at least 35 scheduled drills a year, or the equivalent.

The draft law passed by Congress said that enlistment in reserve organizations with regular training schedules would make them exempt, but the law didn't specify exactly what those units should be. It left the definition up to the secretary of Defense.

After consulting with experts of the Army, Navy and Air Force, Forrestal yesterday issued a memorandum to the services. In substance, it said this:

If a man was a member of an organized reserve unit by midnight of June 24—the day the bill became law—and the unit had at least 35 scheduled drills a year, or training periods equivalent to that, he is exempt from induction. But there must be "satisfactory participation" by the reserve member. If his absence from drill exceeds 10 per cent, he will become eligible for the draft once inductions get underway around late September.

Men who were members of federally recognized National Guard units, either ground or air organizations, by midnight of June 24, will be exempt.

Reuther Will Back Douglas

DETROIT, July 8. (AP)—CIO United Auto Workers' President Walter P. Reuther believes the Democrats should nominate Supreme Court Justice William O. Douglas.

The leader of almost a million auto workers threw his support to Douglas yesterday, but a UAW spokesman pointed out his stand would not be considered the official position of the big union until the executive board takes action.

Red-haired Reuther declared nomination of the Supreme Court justice would return the Democratic Party "to the highest standard of integrity and liberalism."

"Without reservation," he said, "I endorse him for the Democratic nomination for president of the United States."

Reuther previously supported the late President Franklin Delano Roosevelt and has been an outspoken critic of the Republican Party and Henry Wallace's Progressive Party.

TROUT STREAM IS FOR KIDS ONLY

BURLINGTON, Vt., July 8. (AP)—Elders may be seen but not caught fishing at a Potash Brook stream.

The stream—stocked with 600 speckled trout—is reserved for children only.

The first day saw about 85 youngsters whipping the waters yesterday, many arriving at dawn.

Included among them were 10 girls—the youngest four years old.

North American birds that have disappeared recently include the Labrador Duck, Heath Hen, Eskimo Curlew, Great Auk, Passenger Pigeon, and Carolina Parakeet.

Truman Considers Convention Visit

WASHINGTON, July 8. (AP)—The White House said today President Truman is "giving consideration" to visiting the democratic national convention at Philadelphia in the event it nominates him for President.

Presidential Press Secretary Charles G. Ross also said Mr. Truman is relying on Senator J. Howard McGrath of Rhode Island to be his personal representative at the convention, opening Monday. McGrath is chairman of the democratic national committee.

'Danny Deever' Will Hang Again

Ask for it by name...

A GRAPETTE, please

a LITTLE goes a long way

ASK YOUR GROCER

WASHINGTON, July 8. (AP)—Danny Deever will hang again at the Smithsonian Institution, if someone can find his missing hands and torso.

Danny is a pilot with some sort of endurance record—he was airborne for years until World War II grounded him.

Dressed in an Army uniform, model 1919, Deever sat at the controls of the first American military plane, his straw hand clutching the ancient controls, his wooden face peering into the wide blue yonder outside the institution's windows.

After Pearl Harbor, some fear was felt that the plane might be lost in a bombing of Washington—and perhaps racked up as an enemy "probable." So the box-kitchen contraption was stored in Luray Caverns, Va. Danny was stored in a number of places.

His head turned up last week, peering out of a dark corner of the institution. His military uniform was discovered on display in a section devoted to military uniforms.

Officials said he will get a new body and new hands if the old ones can't be found.

The name? From Kipling: "Ho! The young recruits are shakin', an' they'll want their beer today, after hangin' Danny Deever in the mornin'!"

LOOKING' EM OVER

With TOMMY HART

Ace Mendez, Big Spring's crack center fielder, has one more home run than the league statistician, Bill Weiss, has him credited with, while Our Town's Jake McClain has hit three for the circuit which haven't yet found their way into the records:

Here is a rundown on the round trippers hit by the boys:

HOME RUN TOTAL FAR BEHIND LEAGUE'S 1947 RECORD

Superior pitching, combined with the dead ball now in use, has cut the home run total throughout the Longhorn league this year and it may be for the best.

The six teams which comprised the circuit last year had banded out 312 round trippers at this time in 1947. Eight clubs this year have been able to garner but 224 of the four basers.

At this time in '47, the locals had blasted 68 circuit plies, as compared to the 46 the Broncos now boast.

BLANCO HURLING SEMI-PRO BASEBALL IN ANGELO

John Blanco, who started one game for the Mosses and later appeared briefly in the Del Rio lineup, turned to semi-pro baseball after he drew his release from the Cowboys rather than return to Cuba. He has been pitching for the San Angelo Greyhounds, says his arm is in good shape now.

Blanco, who could teach some of the Longhorn league pitchers a thing or two about control, twirled in Jorge Pascual's Mexican league in 1947. He was with Vera Cruz for a spell.

UMPIRES FAILING TO DO RIGHT BY YOUNG HURLERS

Several of the umpires in the league obviously are not bearing down. They're missing the corner pitches, passing them off as balls. A young flier has to learn control pitching in this year or he doesn't earn it all.

MIDLAND SCRIBE RESPECTS TONY'S ABILITY

Effervescent Tanner Laine, the Midland sports scribe who cut loose with a tirade against Our Town's Armando Traspuesto the other day, recently included Tony's name among the players he thought should rate the West's team for the all star game July 26, which will be played in Odessa.

Tanner's team is composed of Freddy Rodriguez, Big Spring; Leiland Crisman, Midland; and Gerry Rodriguez, Big Spring; pitchers; Traspuesto and Sam Harshaney, Del Rio, catchers; Jim Prince, Midland, first base; Phil Wells, Odessa, second; Ray Vasquez, Big Spring, short; Eddie Mellio, Midland, third; Harvel Jones, Midland; George Calota, Del Rio, and Pat Stasey, outfielders; Leon Brinkopf, Odessa, utility infielder; and Bobby Fernandez, utility outfielder.

The West's team will be composed of players from Big Spring, Midland, Odessa and Sweetwater, the East's squad from athletes of San Angelo, Del Rio, Ballinger and Vernon.

Athletes Scrap For Positions

EVANSTON, Ill., July 8. (AP)—1,600 meter relay teams. Selection of the American Olympic track team counted on to win ten firsts at London starts tomorrow at 6 p.m. (EST). In Northwestern University's Dyche Stadium and concludes Saturday afternoon.

There was increasing confidence on all hands. With one notable exception, the 200 athletes have come this far without serious injuries. Even Gil Dodds, best of the distance men who has a strained Achilles tendon in his left leg, is rounding back into shape.

Next Monday the track squad of about 65 men will assemble in New York for "processing" before the S.S. America sails on Wednesday with most of the American team. The exact number in track depends on how many spares are carried to round out the sprint and

Locals To Seek Third Victory

Boasting a record of two victories in three district games, the Big Spring American Legion Junior baseball team makes its fourth start at Steer park Friday night, meeting the Odessa Blue Sox at 8:15 o'clock.

There will be no admission charge, Dr. Kenny Swain, coach of the local club, announced this week.

In previous assignments, the Big Spring club humbled Coahoma (49-3) and Midland (8-5) but lost to Lamessa (8-2). The Lamessa club, which earlier had throttled Midland, remains a heavy favorite to win the flag and represent this district in the state playoff.

Swain has several pitchers ready. He may lead with Howard Jones against the Odessans. James Boatman will mount the knob, in event Swain doesn't use Jones.

Odessa bounced Coahoma, 22-2, in a contest unrivaled last weekend. Midland tries to stop Lamessa in a game at Midland Friday. If the Dawson county team picks up a decision in that one, it will be hard to head off.

Coahoma makes its next start against Odessa in Odessa July 11.

Muny Team Now The Merchants

The Grapette softball team, currently setting a hot pace in Muny league play, will henceforth be known as the Merchants.

Nine business firms here, including the Grapette Bottling company, are now underwriting the expenses of the team, which has yet to be beaten in circuit competition.

They include Hull and Phillips Grocery, Courtney News stand, DeLuxe Cleaners, Lone Star Chevrolet Co., Southern Ice Co., Dibrell's Sporting Goods, Seven-Up Bottling Co., Al's Cafe and Grapette.

The Muny teams will return to action next Monday night. The T & P Shop contingent plays Big Spring Vocational school in the opener while McKee's Construction company faces T & P Motor Transport in the after-go.

FLYING PARSON GROUNDED — Gil Dodds, ace distance runner, glumly looks at his taped-up ankle and leg in Boston after he strained his achilles tendon with the possibility that he may be unable to compete in the final Olympic tryouts in Chicago next Saturday. Oilers Club Big Spring Broncos Behind Merle Coleman, 7 To 4

ODESSA, July 8.—Herby Pitts will oppose the Big Spring Broncos tonight as the Odessa Oilers attempt to make it two in a row and narrow the gap between them and first place in Longhorn league standings.

Pat Stasey, Big Spring manager, is due to counter with Roland Vidora, who has won seven games, lost two.

Behind Manager Merle Coleman the Oilers won the first contest of the set Wednesday night, 7-4.

Coleman gave up 11 hits but kept them well scattered, Orlando Echeverria and Lefty Gumbo Helba each collected three safeties for the losers.

Helba did fairly well with the Odessans' heavy timber—that of Bob Cowser and Joe Moody—but could not cut the other hitters down. Ben Pardue collected three hits in the Oilers' 14-hit assault while four others had two safeties each.

A three run outbreak in the fourth frame all but clinched the outcome for the home club.

Helba batted in two of the Big Spring runs.

The biggest turnout of the season—numbered at around 1,448—looked on.

Brooklyn Bums Help Leo's Chances To Retain Post

By JOE REICHLER

The unpredictable Brooklyn Dodgers were riding high today on the wings of a six-game winning streak—and threatening to catch the leaders before the month is out.

The latest Brooklyn victory march not only enhanced the Dodgers' chances to retain their National League championship, but may have halted, for the least, rumors that Leo Durocher is on the way out as manager.

It is no secret that Durocher must make a good showing this year or quit.

Meanwhile, the Dodgers find themselves in the best position they've been all season. Last night's 4-3 victory in 11 innings over the Boston Braves at Ebbets Field left them in fifth place, only a game behind the first division New York Giants. They trail the pace-setting Braves by six and a half games, but are only four games behind in the important losing column.

The Cleveland Indians maintained their slim 10-percentage point bulge on the Philadelphia Athletics in the American League race by trouncing the Chicago White Sox, 10-2. The A's also won their game, edging out the Yankees at New York, 4-3. Bob Feller hurled his ninth victory for the Tribe, pitching shutout ball after the first division cellar-dwelling White Sox rapped Feller for two runs on three hits in the first inning.

Hank Majeski, a Yankee cast off, was the big gun for the A's. The hard-hitting third baseman, walked a home run and triple to drive in three runs against his former mate, Tommy Byrne was the victim.

Trailing 2-6, the Washington Senators suddenly came to life with a five-run rally in the top of the ninth to nip the Red Sox at Boston, 7-6. Manager Joe McCarthy who started with Boo Ferriss, used five pitchers in a frantic attempt to halt the bats.

Hal Newhouser became the first Detroit pitcher to twirl a shutout

this season when he blanked the St. Louis Browns, 6-0, for his 12th victory. He has lost six.

Pittsburgh moved past St. Louis into second place in the National League by defeating the Cardinals, 2-1. The Pirates scored the tie-breaking run in the top of the ninth when Wally Westlake followed Ralph Kiner's double with a run-producing single. The Pirates, who boast a half length lead over the Cards, now trail the Braves by 2 1/2 games.

Mexico Meets Canada In Davis Cup Play

MONTREAL, July 8. (AP)—Mexico met Canada today in the first matches of the North American Zone of Davis Cup tennis competition.

Henri Rochon, Canada's No. 1 player, was matched against Francisco Guerrero of Mexico in the opening singles match. Brendan Macken of Canada took on Armando Vega in the day's other engagement.

MOTHER AWARDED ESTATE
Illegal Adoption Bares Strange Case

BRIDGEPORT, Conn. July 8. (AP)—Superior Court Judge Patrick B. O'Sullivan ruled here yesterday that a fraudulent adoption in a New York court 13 years ago, made an unwed mother legally "the foster sister of her own son."

Judge O'Sullivan's decision gave the mother, Katherine T. Hill of New York, sole rights to the \$14,000 estate of her son, Robert, on the grounds that she had no knowledge of the fraud.

The estate consists entirely of a negligence award resulting from the death of Robert following an automobile accident.

The case had its inception, Judge O'Sullivan said, when Robert Hill was born out of wedlock in New York on July 17, 1927.

The child's grandparents, the late Mr. and Mrs. Reginald Hill, took him into their family, the judge continued, and he "never learned that the plaintiff (Katherine T. Hill) was his mother."

Judge O'Sullivan said that fraud entered the case when the grandparents attempting to "protect both their daughter and her child," adopted Robert Hill through representing to the Richmond County, N. Y., Surrogate Court, that he was the son of a Mrs. Rogers who had died.

The fraudulent adoption, Judge O'Sullivan said, created "an unusual situation where, in contemplation of certain legal relationships,

Five Tulsans Join Vincent On All-Stars

DALLAS, July 8. (AP)—Tulsa's Al Vincent will find five members of his own team among the squad of 19 he will manage next Tuesday night against Fort Worth in the Texas League's eighth annual All-Star game at Fort Worth.

Vincent, picked as skipper of the club by vote of the sports writers in the league cities, also will have five players from Houston, four from San Antonio, three from Shreveport and one each from Dallas and Oklahoma City. Beaumont, the other league member, did not land a man.

The all-star squad was announced yesterday by Milton Price, league secretary, with the writers giving four players unanimous vote. They were Harry Perkowski of Tulsa, the league's leading pitcher; Tommy Tatum, Tulsa left fielder who is the leading batter; Sam Dibiasi of Houston, third baseman, and Charley Kress, Tulsa first baseman.

Others selected on the squad were: Pitchers—Andy Sierra, San Antonio; Pete Mazar, Houston; Clay Boyer, Houston; Warren Hacker, Shreveport; Ed Garcia, Oklahoma City, and Procopio Herrera, San Antonio. Catchers—Al Unser, Tulsa; Bob Brady, Dallas, and Tom Jordan, San Antonio. Second base—Solly Hemus, Houston. Shortstop — Danny Reynolds, Shreveport. Utility infielder—Bill Sommers, San Antonio. Center field — Jim Kirby, Shreveport; right field—Russell Burns, Tulsa. Utility outfielder—Hall Epps, Houston.

Felines, Rebels Chalk Up Wins Wednesday Nite

By The Associated Press

The Texas League All-Star roster doesn't list Johnny Logan, and to Dallas fans that's a bad oversight.

Johnny caught hold of the first pitch Vic Johnson threw him in the seventh inning last night and sent it out of the park. That tied the score and enabled Dallas to use an eighth inning tally for a 2-1 decision over Oklahoma City. The victory put the Rebels within one-half game of first division.

All of the other games last night were decided by one-run scores. Fort Worth squeaked by Tulsa, 2-1; Houston nipped San Antonio, 4-3, and Beaumont took an eleven inning, 10-9, decision from Shreveport. Ed Garcia, who took over Oklahoma City pitching chores in the eighth, walked Red Borom with the bases loaded to send Johnny Creel home with the winning run. Oklahoma City's tally came in the fourth.

Gerry Burmeister's three-run homer in the sixth inning gave Houston the nod over San Antonio. It broke a 1-all tie and gave South-paw Pete Mazar his eleventh victory against two setbacks. San Antonio rallied for two runs in the eighth on two hits, a hit batsman and a fielder's choice.

Wayne Tucker's single in the bottom of the eleventh brought Jerry Crosby home with the second and winning tally for Beaumont. Shreveport had managed one run its half of the eleventh.

Carl Erskine won his 12th game of the year as he scattered eight Tulsa hits. Fort Worth scored the winning run off Eldred Byerly in the sixth inning when Dee Fondy doubled after two were out and raced all the way around as Elbie Flint erred on Walter Flala's grounder.

The same teams meet again tonight at the same sites.
