Machinery For Ration Book No. 2 Sign-Up Ready

Thursday Afternoon Thru Saturday Set For Registration

Under the direction of Supt. C. Denham, members of the school faculty and a group of volunteer workers, veterans of the government's multi-registration requirements of wartime, are ready to go into action this afternoon at 2 o'clock to issue War Ration Book No. 2 to heads of families and individuals in this county.

School classes will be dismissed at noon today and the schools turned over to the job of registering consumers for Ration Book II the last two and a half days of the week.

In order that as many as possible of the teachers and other volunteer registrars might be released on Saturday, Crockett county people are urged to register this afternoon or Friday if at all possible. There will be a full staff of workers on these two days, Mr. Denham said, and they will be able to take care of any number of registrants who call.

In order to facilitate the registration, school officials this week sent out by each pupil, to the homes, mimeographed instruction sheets and copies of the consumer declaration forms which must be filled out for each family unit or individual registrant. If these consumer declarations are properly filled out, and each blank is self-explanatory, registration and issuance of a War Ration Book II will consume but a few minutes of time. War Ration Book II for each person in a unit must also be presented to the registrar.

The consumer declaration blank requires the consumer to declare the number of pounds of coffee owned on Nov. 28, 1942, in excess of one pound for each person whose age is 14 years or older as recorded on War Ration Book I, the number of persons 14 years old or older when Book I was issued who are included in the new registration, and the number of cans, bottles or jars of the rationed food items in excess of the allowance of 5 for each person included in the declaration. The name of each person in the family unit, or for whom application is made, and the number of that person's War Ration Book I must also be included on the blank and the declaration signed by the person making the declaration, together with his address.

After these blanks are signed and presented, the Book II will be issued, after being tailored, if necessary, in accordance with any declared excess of rationed foods.

Moore & Moore Get Producer On Shannon Lands

Oil Rises 975 Feet In 5 Hours In No. 1-12 Shannon Wildcat

The most northeasterly of two scheduled 2,500-foot, cable tool wildcats being drilled by John I. Moore and P. D. Moore of Midland on the Shannon estate in western Crockett county promised Monday the development of oil production from Permian lime.

The test, No. 1-12 Shannon estate, C NW 12-Q-John Small, with elevation 2,671 feet, encountered oil and gas from 2,377 to 2,386 feet, the total depth. Oil rose 975 feet in five hours and the test was shut in. Gas rated an estimated 200,000 cubic feet daily.

Location is 2 1/2 miles north by northeast of Olson Oil Co. and Moore Exploration Co. No. 1 A. C. Hoover, discovery well and only producer in the Live Oak pool, C NE SW 161-1GC&SF, No. 1 Hoover with elevation 2,445 feet, obtained Permian sandy lime pay from 2,010-50 feet, and—after shooting with nitroglycerin, was completed July 3, 1940, pumping 63 barrels (Continued On Last Page)

Soviet Marines in Russian Advance, Too

These spectacular action pictures were taken in the same sector of the far northern Russian front. Automatic riflemen of the Baltic fleet charge the Nazi enemy from what appears to be a captured blockhouse (top, right). Lying in the grass at the left (top picture), is the body of a wounded man. Below: Marines advance headlong in face of German fire. One man, at left, is crumpling in death as other marines surge in to take his place.

Annual Texas Children's Week Feb. 28-March 6

Mrs. Carl Colwick County Chairman For Observance Here

"Youth—Partners in Victory and Peace," is the theme of the fourth annual observance of Texas Children's Week, Feb. 28 to March 6, Mrs. Carl Colwick, who has been named Crockett county chairman of the week's observance, has announced. Dr. Homer P. Rainey, president of the University of Texas, is Texas chairman of the observance.

Texas Children's Week began in 1938 with observance of Underprivileged Children's Day, a plan conceived by Mrs. W. C. Lear, Girls' Counsellor for Travis county. The same plan was followed in 1939, but in 1940 it was expanded to Children's Week, which has been observed each year since.

This year's theme is cited as having peculiar significance in the light of the two-fold purpose of the observance; first, again to focus attention on the needs and protection of the young; and second, to stimulate children and youths to so participate in the program activities that their every-day actions will be influenced by the theme and suggestions developed from the program.

Gov. Coke Stevenson, in his proclamation designating Children's Week, said in part: "Whereas, among those who are contributing to the war by work and sacrifice on the home front are the youth and children of Texas, and whereas, the work of these young people is not only valuable to civilian participation in the war, but is building democracy stronger in the hearts of those who will be leaders in the peace to come, and

"Whereas, it is fitting and timely that we direct attention to the importance of fostering a partnership with youth in the tasks of war and peace as a means of protecting their welfare now and assuring their preparation for the work to come."

Programs by the Parent-Teacher Association and the Rotary Club and special emphasis in the schools and homes are features planned for local observance of the week, Mrs. Colwick said.

Mr. and Mrs. Hugh Boyd, former Ozonans, are the parents of a son, Robert Allen, born Friday night. Mr. and Mrs. Boyd live at Lohn, Texas.

Sgt. Clifton W. Taliaferro stopped off in Ozona for a brief visit with his parents, Mr. and Mrs. C. W. Taliaferro, last Friday. Sgt. Taliaferro was on his way from San Antonio to Garden City, Kans., where he is training at the Municipal University in that city.

Ozona Resident 49 Years Claimed By Death Friday

Mrs. Florence B. Smith, 64, Is Victim Of Heart Attack

Friends throughout this section of West Texas this week mourned the passing of one of Crockett county's pioneer residents—Mrs. Florence Broome, Smith, 64, member of a prominent West Texas ranch family, and resident of Crockett county for 49 years.

Mrs. Smith died at 2 o'clock Friday morning as the result of a heart attack which she suffered Thursday.

Funeral services were held at 1 o'clock Friday afternoon from the family residence here, Rev. Lawrence K. Brown, pastor of the Ozona Methodist Church, officiating. Pallbearers were Wayne West, Worth Odom, Scott Peters, Charlie Davidson, Walter Augustine, Hillery Phillips, J. C. Montgomery and James Baggett. Joe Oberkamp's funeral directors were in charge.

Mrs. Smith was born April 26, 1878, in Marlin, Texas, the daughter of Mr. and Mrs. Cyrus L. Broome. The family moved to Crockett county in 1894, ranching in the Turkey Roost country.

Mrs. Smith's husband, the late W. E. Smith, who died March 23, 1928, was a pioneer business man of Ozona, having established the Smith Drug Store in Ozona, a business which today still bears his name, although under different ownership. A civic leader and booster for community development, Mr. Smith was one of the leaders in the movement which resulted in the construction of the Hotel Ozona. Mr. and Mrs. Smith were married in Ozona in 1903.

Mrs. Smith is survived by one daughter, Mrs. Sherman Taylor, one brother, Cy Broome of Los Angeles, Calif., and one sister, Mrs. Bert Couch of Ozona. She was a member of the Methodist Church.

Lt. Thadd E. Tabb, Former Ozonan, Is Teaching U. S. Flyers How To Gun Nazis

An item appearing in last Sunday's issue of the Waco News-Tribune will be of interest to many Ozonans. It is news from a former Ozonan, Lt. Thadd E. Tabb, who was a flyer with the RAF in England before transferring to the U. S. Air Corps after this country entered the war. The item in full follows:

"A man who can hit fast-flying Texas quail is a dangerous adversary for Jerry when armed with eight machine guns in a Spitfire. Lt. Thadd Tabb of Waco, son of Dr. and Mrs. T. E. Tabb, has proved such a good shot that now he's teaching U. S. air corps pilots in England how to shoot. He saw considerable operational service with the RAF before transferring to the flyers of Uncle Sam.

On leave at the American Red Cross Eagle club in London, he discussed low-level bombing over France, according to word received here. After flying a "Spit" on convoy duty he took over a Hur-

Fourth Son Of Ozona Parents Is Accepted By Army

A four-star service flag now hangs in another Ozona home—that of Mr. and Mrs. Bob Williams.

The fourth son of Mr. and Mrs. Williams to enter the service of the United States was Vernon Lee Williams, who was accepted for service last week at Abilene and has been sent to the reception center for processing, Vernon Lee is 18 years old.

His older brothers who preceded him in service are Buck, 27; Leo, 23; and S. D., 21. W. C. Brock, Jr., and Jesus Aguirrez, also from Ozona, were accepted for service at Abilene along with Vernon Lee Williams. William Jay Yancy, another of the group from this county included in the same contingent, will report March 11 and two others, Jack Herbert Brownrigg and Johnnie Leonard Armentrout, asked for assignment in the U. Rotary Observes 38th Anniversary; History Is Traced

On the occasion of the 38th anniversary of Rotary's organization, W. R. Cabaness, secretary of the Ozona Rotary Club, presented a resume of the history of the organization and its aims and objects at the club's meeting Tuesday noon at the Hotel Ozona.

Mr. Cabaness traced the beginning of Rotary in Chicago on February 23, 1905, when Paul P. Harris, a young Chicago lawyer, gathered a few friends from other professions and businesses to discuss problems of the day and to suggest the organization of a club which was to become the first Rotary Club in the world. Today the organization has grown to embrace more than 5,000 separate clubs with a membership of well over 200,000.

Lions Divide Two With Big Lake

Coach Elmo McCook's district champion eagles tasted sweet revenge on their home court Thursday night when they distanced the Big Lake Owls, two-point winners over the Lions for the Ozona teaturney championship, by a count of 36 to 23.

But the Owls did it again in a return match on the Reagan court Tuesday night of this week. The Owls again nosed out the Lions, this time by 3 points, the final score being 17 to 14 in favor of the Big Lake Owls.

The second string lads of Coach McCook's squad made it two in a row over the Owlets, on the home court Thursday night by the bare margin of 14 to 13 count and in Big Lake Tuesday night by a score of 15 to 10.

Boochie Coates underwent an operation for appendicitis in a San Angelo hospital last week. He was able to return to his home here the middle of the week.

Red Cross War Fund Drive To Be Opened Next Week

Intensive Canvass Slat- ed Thursday, Mar. 4; Quota Is \$1600

Some thirty-two volunteer workers will meet at the First Baptist Church Friday evening of this week to receive complete instructions and supplies from Chairman Clyde Childers in readiness for launching the Crockett county's 1943 Red Cross War Fund drive, scheduled to get under way all over the nation next week.

The workers will attempt in a one-day drive, scheduled for Thursday of next week, March 4, to raise this county's assigned quota of \$1,600, after some preliminary solicitation is made beginning Tuesday afternoon by workers assigned to the business section of the city.

The important work being done by the Red Cross, both on the home front, on the battle field, and in service camps and training centers, as well as among war-stricken peoples all over the world, is too well known to Americans to need much urging to give to this mercy organization. Mr. Childers pointed out in announcing detail of the coming local drive.

The quota assigned to Crockett county is considered comparatively small, since nearly half of the amount to be raised is to be kept in the local chapter's treasury to promote work among families of service men, in promoting home nursing, first aid, production of Red Cross garments for men in the service and for war relief, and the many other functions of this government-recognized relief agency. All funds raised locally are to be divided 49 percent to the local treasury and 51 percent to the national chapter.

Confidence that the chapter goal will be met was expressed both by the War Fund Drive chair-

**INDIVIDUALISM—
SYMBOL OF VICTORY**

By an ironic twist of circumstances, modern war proves beyond argument that individual initiative is the key to victory and progress.

Captain Eddie Rickenbacker says: "Once you put a boy in a foxhole, he is on his own. Once you drop a parachute trooper behind the enemy's lines, he is on his own. The youth in the cockpit of a fighter, in a tank, on a commando raid, is always on his own. The 'rugged individualist', as a political symbol, may have few friends, but God help us if we can't recreate him on the battlefield and on the factory floor." The nation that does not have rugged individualism on its side will lose the war.

This stark truth must come as a shock to the political sharpshooters who have been busy right here in our own country kicking the props from under a system that was founded on the supremacy of the individual. Captain Rickenbacker is a product of that system. He fought as a soldier, willing to give his life that the system might live. He helped to pioneer the automobile and aviation industries, because he could envisage a bright future, not just for himself, but for his family and all the other families of America.

The future he has pictured through the years has not taken its lustre merely from the prospect of comfort and security. Eddie Rickenbacker is a typical rugged individualist. For him there is no future unless his right to take risks, to think up new ideas, to do things on his own hook and reap a fair reward, is safeguarded and encouraged.

The United States was built by men like Rickenbacker. They came across the plains in ox-drawn wagons, fought Indians, dug in the earth for gold, developed farms. They discovered, invented and produced their way to the highest standard of living in the world. At the present moment, they are the men and women who own, operate and work the coal and metal mines, oil wells, power plants, railroads and factories that are turning out the weapons for other "rugged individualists" on the battlefield, who will win this war.

Above all else, this war is being fought to keep the future bright for the descendants of these millions who believe in themselves as individuals. Those who think and act otherwise are running contrary to the character and tradition of this country.

TRAGIC COMEDY

If the people of this country really wanted to control inflation, they could do so.

The country is faced with rising prices. Why? Read the headlines in the newspapers of a single day. A million and a quarter railway workers demand additional wage increases. One faction of shipyard workers announce they will withdraw their "no strike for the duration" agreement if a National Labor Relations Board decision favors another labor faction. And then, labor leaders call on the President to reduce the cost of living.

They all blame the farmer who is short of machinery, short of farm labor, unable to pay war wages, but charged for everything he buys on a war-wage scale.

Can the result be other than higher prices instead of lower? The situation would be comical if it were not tragic.

Unless we, as individuals and collective groups within the nation, show less greed and more love for our country, it is a total waste of time to talk about controlling inflation—no power on earth can stop it, until the explosion comes.

**Capt. Tandy Writes Of Meeting Famous
General Clark In North Africa; Describes
Surroundings In New Series Of Letters**

A meeting with Lt. Gen. Clark, the American general who paved the way for the American invasion of North Africa by landing from a submarine on the North African coast to make certain arrangements, descriptions of a visit to the Arab section of the city hunting a bakery from which the Army might buy bread, and some interesting comments on his surroundings and his work are the highlights of a new group of letters from North Africa written by Capt. H. B. Tandy, U.S. Army Medical Corps, to his family here.

Of a surprise visit from Gen. Clark, Capt. Tandy wrote:

"You should have seen us this afternoon. Visitors were on the high side. I looked up and snapped to attention and a long, tall, good-looking fellow with three stars on his shoulder said, 'My name is Clark.' Do you recognize him? Of course it would have been great enough to have the one star general visit us, the one with him, but he had been here before so I knew him."

In a letter written January 30, the brief description of a ride through the Arab section in search for bread was given. "After being O.D. yesterday and having several emergencies last night, I had to chase from one end of the city to the other inspecting bakeries to see if the Army could use local bread. No, definitely, no. The trip took me through the Arab section—narrow streets, camels, filth and everything you can imagine.

"Sister Philomene (his 70-year-old French nun patient) was as thrilled almost as I was at your letter. She is a great person and I still have her in bed, but hope to get her up soon. She sends her love to all of you, especially Mills."

In a letter dated January 29, Capt. Tandy gives something of a recapitulation of his travels, with a description of the surroundings at his hospital station.

"Can't tell you many of the interesting things that happened and are happening and of course can't tell where we are, etc., but will attempt to make something of a travelogue anyway. The time we spent on the water was very nice though crowded, and we considered ourselves lucky that we did not have any trouble. After we arrived in sight of land, we saw some very wonderful scenery and it was great to at least see land again. We came into port at a beautiful spot, at least it seemed so at a distance. After we saw the real city it was not so great because these cities are not clean like our own.

"We immediately repaired to another staging area where we spent some time gathering things together and of course gripping a lot at the food and other restrictions. Finally we did get going and after a 20-hour trip that should have taken about four we arrived at this spot where we should naturally expect to remain for possibly the duration. The place is grand for a hospital and the city very clean and the population much

higher class than any we have seen. The hospital itself is the nicest I have seen or heard of in Africa. Was formerly a French girl's school run by nuns and the place to be so far as I can hear about in this country.

"These natives are really something. Pictures you have seen of Arabs are not at all exaggerated. They cover their faces and go bare-footed most of the time, even when we are nearly freezing. The French are a different breed entirely and their buildings and stores are nice. It is not possible to buy much as the Germans have taken nearly all of any value but have left more here than in most places. Some of the boys have bought lots of the best cosmetics and perfumes at low prices, but other than those things and a few of the native leather goods, there is little to buy."

**Ancient Rocker Type
Churn Latest Gift
To School Museum**

A rocker type churn, the latest thing in the 1870's is the newest acquisition of the Ozona High School museum.

The curious churn, a mounted barrel which swung in a stand, with a lid at the top for removing the butter and a bung in the bottom to drain off the buttermilk, was owned by Mrs. Edward Ross, mother of the late Mrs. Mary Perner of Ozona, and was loaned to the museum by Mrs. Roy Henderson. The ancient churn was among the heirlooms found in the basement of the Ross home in Bandera.

Other recent contributions to the museum is a curious rock formation, a limestone shell with a loose flint rock inside, loaned by Dim Patrick, and an Indian metal or grind stone unearthed on the Ira Carson ranch by Walter Clendenen, bulldozer operator in cedar eradication work in this county. The metal was said to have been nearly eight feet underground.

**Post-War World
Is Discussion Topic
At Woman's Club Meet**

An interesting discussion of the postwar world and requirements of a permanent peace by C. S. Denham, superintendent of schools, was heard by members of the Ozona Woman's Club when the group met in regular session Tuesday afternoon at the home of Mrs. Stephen Perner.

A highlight of the club's business session following the program was the acceptance of three new members, Mrs. Lawrence Brown, Mrs. Neal Hannah and Mrs. Hugh Childers, Sr.

The guest speaker of the day gave an absorbing review of world history as affecting developments toward the present world conflict, the alliances and pacts made and broken, and the conditions that led to the making and breaking of these pacts, and touched on adjustments that must be made in world relations after the war if the peace is to be permanent. Are the people of the stronger powers of the world big enough to put away jealousies and pride and accept a fair peace was one of the questions that the speaker posed.

A round table discussion led by Mr. Denham, in which members participated, followed the talk.

Members and guests present were Mrs. B. B. Ingham, Mrs. P. T. Robison, Mrs. John Bailey, Mrs. Paul Perner, Mrs. George Bean, Mrs. Hillery Phillips, Mrs. J. C. Montgomery, Mrs. Watt Turner, Mrs. W. R. THE LION'S ROAR

Published Weekly by the Student Body of Ozona High School

VOLUME 9 OZONA, TEXAS, THURSDAY FEB. 25, 1943. NUMBER 22

THE EDITORS' THOUGHTS

There is a shortage on rubber bands! Wasting paper is helping the enemy. Rubber bands are vital to the war effort as any of the other materials. They can be put to a dozen good uses right here in Ozona. Can't you think of anything more useful than shooting spit wads with them? Spit balls spread colds and other diseases. Universal sickness would be a boon to the enemy. We need education now more than ever, and sickness in school could be avoided. The eye is a delicate organ and can be easily injured or destroyed by a paper wad. Would you care to be responsible for anything of this sort? We are fortunate to have access to ways of having cleaner fun.

Oh, yes, I know what you are thinking. A rubber band or two won't hurt anything. What if students everywhere took this attitude? You can readily see what the result would cause. If everyone could realize the absolute necessity to save, the war could be fought to an end sooner.

Our school is one of the finest. We should keep it that way by not littering the floor with paper or cutting the desks? "This is unanimously supported by the faculty and ye old High School Garage collector of O.H.S., Leo Baum."

CHEERICKS BY SOPHOMORES

I had a mule; his name was Jack. I rode his tail to save his back. His tail broke off, and I fell back. Is there a doctor in the crowd?

There once was a guy named Joe. On a big rock he stumped his toe. He yelled out in pain. Then it started to rain. Had lots of trouble didn't he?

I had a horse locked in the stable. But he longed and longed for Betty Grable. One day she came. But he's not the same. He went blind.

I went to the library to get a book. And all it took was one good look. She was a cute little blond. And she sold me a bond. Boy, boy, it was sure worth it.

There was a little boy named Joe. He went to the picture show. But when he got there, The show was bare. So he went to the opera.

There once was a young elm tree Which was really a marvel to me. It talked like a parrot And ate a raw carrot. But it didn't have a mouth.

There once was a fool. He laughed and drooled. His leather was tooled And so was his Victory Garden.

There was an old man named Pike. He went on a sit-down strike. This he didn't like. So he stood up again.

There was a boy named Billy. His sweetheart was a dilly. Her name was Louise Arledge. She could only cook white porridge. Isn't this silly?

There was a girl named Marie. She was pretty you can see. Where is Marie? She's gone to sea— Marie has joined the Navy.

There was a boy named Pin. He stood on a burning deck Eating apples by the peck. Until the deck caved in. Good apples, weren't they?

Ruth went down to town; She got her a new gown. It was too loud and so She didn't wear it no mo'.

There was a man named Joe; He had a lamb named Moe. Joe died. Moe cried. So, they had a funeral.

There was a man named Jones. He had four bones. Too many?

There was once a man named William. Of dollars he had a "millyum." He had nothing in his head; But that bothered him not, he said. Besides, who cares?

There was a boy called Red. He was about seven foot four. When he climbed into bed His feet stuck out the door. Pretty big guy, wasn't he?

DEAR DIARY

Wednesday—The teachers had to be lectured—on point rationing so we saw a movie, "Our Neighbors Down the Road." Louise, Doris, and I didn't realize how long the Pan-American Highway was when we decided to hitch-hike down it.

Thursday: Coach says Bill Mac is a "love poet."—wonder what he did to deserve that name—but you know Billy.

Our team played Big Lake tonight—golly—why didn't we do that at the tournament? The second string game was really close. I was afraid I wasn't going to live through it.

Well, Hedy Lamarr did her stuff and properly impressed everything in trousers—most of them just gaped at Richard Carlson's will power when he tried to resist and wished that they could be "Ton-delayo's" sucker.

Friday—Thrill, thrill, Mr. Sikes changed a lot of grades in some Algebra tests. He made a mistake in grading and scared us out of our wits. Arthur Byrd said that he'd be an Algebra teacher. I didn't know that the struggle between Algebra and Byrd was as bad as that!

Saturday—Today is Doris' birthday. She's fourteen. Jiminy, what a pretty racket she got for her birthday! Louise B. got sick—a hangover from a cold.

Nan really "picks a wallop" according to Byrd—and those who saw what Byrd felt. She saw the cocky first and started to swing—people can't understand why I who was inside the show, did not hear the sound when Nan's hand met Byrd's jaw outside the theater.

Billy (broken-hearted) McWilliams is trying to sell his tickets to the Senior Play back to the Indians, I mean Seniors, because Louise A. is going to the ranch Thursday.

Sunday—I fought a war against "Mrs. Hadley"; then played a hot game of tennis—heated by a Texas sun, not by hard fast drives or tricky spins.

Practiced the Youth Fellowship play—we need more practice. It is rumored that Flossie, Jack, Rozelle, Mr. A. K., Priscilla and Virgil were building fires late at night. Arthur Byrd is having a hard time—for the second night in a row a girl "gives it to him," she hit him just the same.

Monday—Mrs. Childers is a very good teacher. She should educate us more often.

Virgil says that Ruth says that she likes to go out with Charles—he's so different at night! Louise Arledge brought her friend Maybelle Mills from Del Rio and Pandale, to school—hmm—they grow 'em good-looking down there.

—Daphne Meinecke.

"I musta come in the wrong door."—Roy Coates.

"How can he resist—I wouldn't have the will-power!"—Larry Arledge. (at "White Cargo")

"Why, Mary, what has Cary Grant got that I haven't got?"—Bud Cox.

"Why, Pris, can't we tease Virgil?"—Mary Perner.

NEWS AROUND SCHOOL

Miss Blanton has gone to Dallas to do her spring shopping and to go to a school home coming.

Mrs. Clyde Childers makes a very nice Spanish and History teacher.

Miss Hazel Kirbie is thinking about joining the WAACS. Quote "Won't make a nice sergeant with my temper?" We think so.

Mr. McCook hopes Charles Lee can work General Math 1. He's having a little trouble now.

Mrs. Westerman heard from her husband the other day. Good news we hope.

Mr. Kleinschmidt patiently waits his call to the Army Air Force.

Notice: Program for the next two BIG events of history— Thursday, 25th, the senior class presents the one and only "Don't Take My Penny."

Tuesday, March 2nd; all people, young and old alike, are asked to attend "The Bond Rally." Buy Bonds and vote for YOUR band sweetheart.

Two groups of pupils of Miss Ruth Graydon, piano teacher, were presented in studio recitals this week. YOUNG METHODIST WOMEN ORGANIZE

To form plans for the organization of a young women's circle of the Woman's Society of Christian Service, a group of young women of the Methodist Church met Saturday for a luncheon at the home of Mrs. Joe Pierce, with Mrs. Pierce and Mrs. J. M. Baggett as hostesses.

Mrs. Paul Hallcomb was elected temporary chairman, and she appointed Mrs. Joe Clayton, Mrs. Jack Wilkins and Mrs. James Baggett as an arrangement and nominating committee.

Officers of the new circle will be elected at the next meeting of the group, to be held March 6 at 11 a.m. at the J. M. Baggett home. Any young woman who cares to become a member of the circle may phone Mrs. Hallcomb.

... and how's YOUR sense of balance?

• Relatively few West Texans will ever try the balancing chair—but every last one of us is having our sense of balance tested under the mad whirl of wartime bureaucracy.

• It's a test of our ability to do our daily job, buy bonds, pay taxes, donate blood, serve in Civilian Defense and Texas Defense Guards—and still keep an even keel under the barrage of bureaucratic rulings and threats.

• It's a test of individuals, and institutions, and industries.

• And it raises this question: Why are bureaucrats and crack-pot socialists, who never raised a chicken, a hog, a cow, who never produced an article by manual labor or generated a kilowatt of energy, and who never maintained a payroll or sold a pound of beefsteak... why are they holding vital posts when the Nation is fighting for survival?

• Why, in time of national emergency, haven't they been replaced by well-balanced men... practical men with training and experience in production and distribution problems?

• Brains and know-how must come to the top in domestic affairs as they have in military affairs.

• Of course we're proud that our industry has met the test—and maintained its balance. Service is still good. There has been no increase in cost. And no rationing of electricity!

• These are the accomplishments of experienced men and women under well-balanced business management—the system that made America great.

Mrs. Lawrence Brown Begins New Study For Woman's Society

The Woman's Society of Christian Service met Wednesday afternoon in the home of Mrs. Lawrence Brown to begin the study on "Peace—Just and Enduring." Mrs. Brown, as the teacher, introduced the course by declaring its aim to be "to clarify our minds regarding the moral, political and economic foundations of an enduring peace, and to help us understand and assume our responsibilities for the establishment of such a peace." She said the average American would not be ready for peace if it came tomorrow, as much as we desire it. She reduced the characteristics of a peace charter to six points: 1. A belief that enduring peace is possible; 2. Provision for peaceful changes in world affairs as the needs arise; 3. Surrender of absolute national sovereignty to world sovereignty; 4. Economic security for all peoples over the world; 5. An understanding and practice of democratic principles; and, 6. International ethical ideals.

The next lesson will be on political foundations of an enduring peace, the meeting to be in the home of Mrs. Brown next Wednesday afternoon. The study closed with a devotional taken from Dr. Walter W. Van Kirk's book, "Religion and the World Tomorrow," featuring the statement, "Not once, but many times, dictators have laughed at God—but there will be a world tomorrow."

Mrs. J. M. Baggett, the president, announced that Miss Riddle is in need of rummage at the Community Center and asked that those who wish to help call Mrs. Floyd Henderson. She also announced a "Fellowship" meeting of the general church to be at the home of Mrs. Hillery Phillips next Tuesday, a weiner roast to be followed by a vesper service in commemoration of Dedication Week.

Present for the meeting yesterday were Mrs. R. E. McWilliams and her mother, Mrs. Woods, Mrs. Fleet Coates, Mrs. Tom Owens, Mrs. J. M. Baggett, Mrs. J. C. Montgomery, Mrs. B. B. man, Mr. Childers, and by Monroe Baggett, chapter chairman. These chapter officials are hopeful that not only will the \$1,600 goal be met but that it will be substantially oversubscribed by patriotic citizens of Crockett county as an expression of confidence in this worthy organization.

As their contribution to the War Fund Drive, members of the local Junior Red Cross chapter, under the chairmanship of C. S. Denham, will delegate a committee to distribute copies of a Red Cross rotogravure paper which shows in pictures some of the war time activities of the Red Cross. The Junior workers will also gather up all Red Cross insignia still on display from last year's drive in preparation for the new drive.

The committee of workers have set as a goal not only the \$1,600 quota but to give every person in Crockett county an opportunity this year to contribute to the Red Cross War Fund. There will be no membership features stressed this year, the needs being far beyond the usual Roll Call one-dollar membership basis, but it has been announced that each person who contributes as much as \$1 will be entitled to membership in the Red Cross.

Workers hope by staging a whirlwind one-day drive to complete this county's quota on Thursday of next week. However, Chairman Childers says that the campaign will be continued as long into the month as necessary to make it completely successful.

The following list of workers who will conduct the drive was announced yesterday by Chairman Childers:

Mrs. Monroe Baggett, Mrs. Masie West, Mrs. Evart White, Mrs. Bill Baggett, Mrs. Madden Read, Mrs. J. M. Dudley, Mrs. Ira Carson, Mrs. A. C. Hoover, Mrs. C. E.
