While The Constable Shakes A Mean Boot. Thief Pilfers Hat

Hereafter when the girls want to dance with Constable Tom Smith, they must not object if he dances with his hat on his head, for the constable is taking no more chances with these expensive Stetson.

Tuesday night, the constable was shuffling a wicked boot toe over the polished con crete dance platform at the fair grounds. His big Sunday Stetson he parked on one of the bleacher seats surrounding the dance floor. When the dance was over, or his part of it, the hat was gone and yesterday he was still sleuthing in an effort to run it down.

"If the constable does any more dancing, it's going to be with his hat on." Constable Smith declares.

Shopping With YOURSELF

IN MANY of our larger cities chopping has become a profession. Experienced women who know the stores and shops, who know merchandise and values have gone into business as "Shopping Guides."

To a stranger, a trip with one of these professional shoppers is a great saver of time and trouble. No matter what the visitor wishes, her Shopping Guide knows just where to go-for quality, materials, styles, sizes, prices, specialties.

And where do these professionals get their information? They are probably the world's most conscientious and thorough readers of daily newspaper advertisements.

Clever? Yes! But any woman can be just as smart. Just turn to the advertisements in this paper and let them be your Shopping Guide. No professional shopper can take you to more reliable or smarter shops than the ones that advertise in this paper. No professional shopper can give you such accurate or intimate details about merchandise, about newness, about style, about quality, about bar-

The merchants and manufacturers who advertise in this paper are dependable. You can believe in their statements. They have spent their money to tell you what their experi buyers know to be the truth about the merchandise they have selected for you. Their salespeople know their goods infiniately.

Study the advertisements. Make a list of the things you need and the stores where they may be had. Be your own professional shopper,

to be put to locked at the

Above are list prices of passenger cars at Flint, Mich. With humpers, spare tire and tire lock, the list price of Standard Models is \$18 additional; Master Models, \$20 additional. List prices of commercial cars quoted are f.o.b. Flint, Mich. Special equipment extra. Prices subject to change we notice. Compare Cherrolet's low delivered prices and G.M.A.C. terms. A General Motors Value.

AND UP, F. O. B. FLINT, MICH.

When Chevrolet announced price reductions several weeks ago, something important happened . . . something of vital concern to every buyer of a low-priced car: Chevrolet stepped into the most favorable price position it has enjoyed in a long time!

Reductions amounting to as much as \$50-the most substantial price cuts announced in the low-price field this year -dropped Chevrolet's base price to a new low figure of \$465. Just compare this price-compare any Chevrolet price-with those of other cars. Then compare what you get for what you pay! There'll be no question in your mind which car to buy, once you do.

Chevrolet offers patented Knee-Action-and others do not! Chevrolet alone has a Fisher body! And the same thing applies to cable-controlled brakes, Y-K frame, shock-proof steering, and 80-horsepower, valve-in-head, six-cylinder engine. Chevrolet gives you far more features-far finer quality - a far better name for dependability. Yet the price of the Chevrolet Standard is lower than that of any other six or, of course, any eight in the world.

FFF-Fingers, Flies Food Common Sources Of Many Diseases

AUSTIN, Texas, July 4 .- The Texas State Department of Health has joined the Government and other organizations in the use of letters to designate phases of their work, according to Dr. John W. Brown, State Health Officer. The letters used at this time are F F F and they stand for fingers. flies, and food-the three most common methods of transmitting intestinal diseases.

The three F's are generally responsible for the spread of typhoid fever, diarrhea, dysentery, and enteritis. Drinking water is considered a food and, as it is used by all ages, great care should be exercised to assure one that their supply is pure. If uncertain the water should be boiled before used for drinking purposes. Surface water and shallow wells are always to be suspected unless proven otherwise. Your city or county health officer will be glad to advise you on the proper method to use in chlorinating your wa-

Don't Wait for the Ball, Step Up and Meet It!

- The late John McGraw was not only one of the greatest baseball strategists the game has ever seen, he was also quite a philosopher and an astute observer of human nature. Somebody once asked him the difference between a great major league batting star and the bush league hitter. "THE BIG LEAGUER STEPS FORWARD TO MEET THE BALL, and the bush leaguer WAITS UNTIL THE BALL GETS TO HIM," was McGraw's answer.

It seems to me that McGraw's definition of a big leaguer applies very much to selling merchandise. Those of us who are waiting for the ball (business) to get to us are going to be disappointed. Any business which starts our way is likely to be intercepted by some big leaguer who "steps forward to meet it."

Now that business is rather definitely on the upgrade, we are confidently looking forward to better sales and a more profitable operation. But there is one fly in the ointment for some of us: Have we lost sales, lost ground and lost business generally, ENTIRELY because of unfavorable conditions?

This much is certain: we'll have to meet the upturn at least that wasn't really the fault of conditions at all. It was our own fault.

Now the thing for us to do is take a little time out to decide how much of our past losses and misfortunes were due to conditions and how much were due to the fact that we wanted to lay back and wait for the ball instead of stepping into it.

This much is certain: we'll have to meet the upturn at least halfway if we expect to capitalize its full possibilities. Let's remember what John McGraw said about the DIFFERENCE between a BIG LEAGUER and a BUSH LEAGUER.

for Jaded Appetites--

No doubt your family will be suffering from jaded appetites for several days after the rodeo. Three days of diet confined to the western delicacles offered in token of Ozona's hospitality is sufficient to make one a bit selective about foods to say the least.

To overcome the lethargy at the dinner table after this heavy eating. we would suggest lighter foods-fresh or canned vegetables, chopped vegetable and fruit salads, light meat courses such as sliced ham, lunch meat, or bacon, iced drinks-tea or some of the appetizing ready-mixed punches.

Whether for the family with the robust appetite or the one jaded by festive over-eating-you will find our shelves and bins laden with suggestions. And it's so pleasant to shopwhere your friends shop-and save.

Except in the larger cities, electric service was rarely satisfactory before long-distance transmission of electric power was perfected.

Small local plants serving single communities generally lack the variety and volume of demand which enables a larger system, serving a wide area, to operate efficiently.

Nor can small, isolated plants meet sudden demands for more power nearly as readily as the larger system.

The transmission line can deliver larger amounts of power at once without the delay of installing additional equipment. Thus it clears the road for industrial growth.

The present-day industrial progress of small communities is based in a large measure on the ample and economical power supply which resulted when the transmission systems replaced small local plants throughout the nation.

With 2,608 miles of transmission lines, the West Texas Utilities stands ready to render satisfactory service to 159 prosperous cities towns and communities throughout West Texas-"The Land of Opportunity."

Do you know that your increused use of Electric Service billed on a surprisingly low rate schedule . . . and adds to a small amount to your total bill?

West Texas Utilities

"The Comforts of Home"

How often have you heard that expression—"the comforts of home?" What does it mean? Good food? Pleasant companionship? Comfortable chairs and beds? Pretty floors, draperies, wall coverings? Flowers in the garden, a pretty lawn?

All these together make the "comforts of home." That from the man's viewpoint. To the woman, the "comforts of home" mean these and the many modern labor saving devices and home conveniences. Automatic refrigeration—Modern Cooking Stoves—Comfortable and Beautiful Fur-
