SHERIFF'S AUTO FOUND ABANDONED NEAR KERRVILLE

BOLDEST OF BOLD THIEVES LEAVES CAR IN BRUSH, PILFER PISTOL

A thief who proved himself the boldest of the bold by stealing an automobile from the streets of Ozona belonging to the high sheriff of Crockett County has apparently made good his escape, although the car, abandoned by the thief when the gasoline supply was exhausted, has been recovered.

The sheriff's automobile, an Oldsmobile sedan, was stolen Friday night from in front of the Ozona Theatre, where it had been parked by members of his family, who were attending the movie. It was discovered Sunday afternoon by Kerr and Kimble County officers in a thicket a few hundred yards off the highway in Kerr County near Kerrville. Sheriff Willis went to Kerrville Monday and recovered the car, which, aside from being out of gasoline, was in no way damaged.

Discovery of the stolen car by the group of officers was made more or less by accident. Officers of the two counties were combing the brush in the area seeking trace of a group of mohair thieves. Seeing the car parked in the brush, one of the officers thought it belonged to another of the group and made no investigation. Later, however, when they had assembled, the car was mentioned and all cars belonging to the searching party being accounted for the officers went back to investigate and notified Sheriff Willis.

A pearl-handled, nickel-plated pistol, pride of the Crockett Sheriff and the gift of friends, was in the car when it was stolen and was pilfered by the thief. Investigation along the route established that he had not disposed of the weapon and it is presumed that he pocketed the gun when he abandoned the car. Several boxes of cartridges also in the car had been emptied, the empty boxes being left in the car.

A fairly complete description of the man who is believed to have stolen the car has been furnished officers by persons who saw him here the afternoon and night of the theft. The description has been broadcast and Sheriff Willis hopes to lay hands on the bold villain.

SCHOOLS OBSERVE FIRE PREVENTION WEEK IN PROGRAMS

GRADES TO HAVE LESSONS ON SUBJECT DURING NEXT WEEK

Fire Prevention Week, set by the State Fire Insurance Commission for the week of October 6 to 12, will be observed with appropriate programs in the Ozona schools during the coming week. It was announced this week by Supt. C. S. Denham.

Material furnished by the state commission will be used by teachers in the grade school for teaching fire prevention facts. Outstanding and common fire hazards about the home and school will be pointed out and means of preventing the accumulation of such hazards cited.

Teaching of fire prevention in the public schools is one of the means of securing a slight reduction in local fire insurance key rate.

The first fire drill of the current school year will be held during the week of Fire Prevention observance, the superintendent said. Thereafter, drills will be staged once each month.

W. E. Friend, Jr., is seriously ill in a San Angelo hospital. He underwent an operation there last week. He is reported resting well, however.

Going After Old Al Capone Taxes

Joseph Lawrence, administrator of taxes and penalties of the Department of Justice, is pictured at his desk poring over documents which furnished information for the assessment of \$120,000 in old liquor taxes against Al Capone and some of the members of the old Chicago syndicate with which he was connected in the days of prohibition. A matter of some 19,000,000 old barrels of high power beer, seized by authorities between 1921 and 1932, furnished the basis of the assessment.

Crockett Relief Load Percentage Shows Increase

Thirteen Persons Added to Local Rolls During June, July

Among the ten counties comprising District No. 19-A of the Texas relief map, Crockett County showed an increase in percentage of population on relief while the nine other counties dropped in relief percentage from June to July, the last occasion of state compilation. Other counties in the district surpassed Crockett in relief totals and percentage according to population, but the local county was the only one of the ten to show increase instead of drop during the two months.

Thirteen persons were added to the rolls of the local office, bringing the percentage from 4.8 in June to 5.3 in July.

The office of H. W. Axe, district director, of San Angelo, recorded for Crockett County a population of 2,600 in February, with residents on relief numbering 125 in June and reaching 138 in July.

Permanent Football Score Board Erected Here By Lions Club

Construction of a score board for the benefit of football fans attending home games played by the Ozona High School Lions was authorized by the Ozona Lions Club at its meeting this week.

The score board will show the score, the down, yardage, time left to play, penalties, and other necessary information that fans want the numbers to be manipulated similarly to the baseball score board in use here. The West Texas Lumber Co. is furnishing materials at cost and Charley Butler, paint contractor, is furnishing the paint for the board free of cost. The Lions Club has arranged for the financing of the additional cost of construction and erection of the board. Work has already started on the board and workers hoped to have it in place for the Ozona-Rankin game here Saturday.

FORMER RESIDENTS RETURN

Mr. and Mrs. Oscar Kost, former Ozona residents, who have been making their home in Slaton since shortly after their marriage here last summer, have returned to make their home in Ozona. Mr. Kost will be employed as shoe repair man at the Jones Saddlery, a position which he formerly occupied. Mr. Kost had been operating his own shoe repair shop in Slaton, but recently sold the business.

Fishin's Good In Johnson Draw, Says Ross Hufstедler

It's a little late in the season for fish stories, but this one was being told yesterday by Ross Hufstедler, whose reputation for veracity stands unquestioned—or at least, did.

While staking his milk cow out to enjoy the lush growth of weeds and grass along Johnson Draw west of his home, Mr. Hufstедler discovered a catfish swimming in a pool of water in the draw. He caught the fish with his hands and reported its weight as one pound.

"Fishin's good in Johnson," says Hufstедler.

Big Lake Ford Agency Bought By Ozona Men

Stevens and Slaven To Operate Concern In Reagan Capital

W. J. Stevens and C. T. (Ted) Slaven, of the Stevens Motor Company, local Ford agents, have purchased the Ford agency at Big Lake owned formerly by D. J. Hostetter, there. The firm there will be known under the new management as the Stevens-Slaven Motor Company, and Mr. Slaven will be in charge, while Mr. Stevens will remain in charge of the Ozona company.

Mr. Slaven has left with his wife and their daughter, Mattie Fern, to live in Big Lake.

Billy Gilbert, for four years mechanic at the Wood Motor Company in San Angelo, will be in charge of the service and repair department at the Big Lake agency.

According to Mr. Slaven, a shipment of new Fords will arrive soon and new cars can be had now from the Ozona agency. Several models will be carried in stock at Big Lake, he said.

STORE FRONT PAINTED

Repainting of the entire front of the Ozona Drug Store here is in progress this week. The front of the store is being painted a light cream with the molding black for a trim. The painting will make considerable improvement in the appearance of the store.

Mr. and Mrs. Babe Phillips returned yesterday from a few days visit in San Antonio with Mrs. Phillips' mother, Mrs. Walter Cooke, and two brothers there.

OZONA LIONS TO ENGAGE RANKIN TEAM HERE SAT.

COACH WHITE'S CHARGES ARE FRESH FROM 12 TO 6 VICTORY AT STOCKTON

Flushed with a 12 to 6 victory the past week-end over the Fort Stockton Panthers, Coach Ted White's Ozona Lions are going to be hard to stop next Saturday afternoon when they engage the Rankin Red Devils in the first game of the present season on the local gridiron.

A large part of Ozona followers of the High School squad who have not yet seen the 1935 Lions in action will have their opportunity at 3 o'clock Saturday afternoon on the Powell Athletic gridiron. Coach White's charges have played two games this season, the opener at Iraan September 21 which they dropped to the Iraan Braves by a count of 14 to 0. The second game was at Fort Stockton Friday night, under the lights the Lions, under the lead of Captain Parker, and the fine ground gaining work of Brown, Casbeer, Childress and others, chalking up two touchdowns to win the fracas 12 to 6.

Saturday of next week, the Lions will again be on foreign soil, invading the Menard gridiron for their first conference tussle of the season. The Menard game was originally scheduled for Friday night of next week, to be played on the lighted field at Menard but has been changed to a day game Saturday afternoon, school authorities have announced.

Miscellaneous Food Sale To Be Staged By Missionary Body

A miscellaneous food sale will be staged by members of the Woman's Missionary Society of the Methodist Church starting at 10 o'clock next Saturday morning at the Joe Oberkamp store, it was decided at the society's meeting yesterday afternoon. Home-cooked foods will be available at moderate charge.

Mrs. Paul Lerner led the devotional at the society's meeting Wednesday afternoon. An interesting program followed.

TO TEMPLE HOSPITAL

Mr. and Mrs. J. M. Dudley left yesterday with their son, Jim Dudley, for Temple where the youngster is to be placed under the care of physicians. The lad is suffering from a severe attack of tonsillitis and it was feared that he might also be suffering from appendicitis.

MACHINERY BREAK CAUSES DELAY IN STOCKMAN ISSUE

This issue of The Stockman was planned under difficulties, due to a breakdown of machinery in the Stockman plant Wednesday night.

But for the timely assistance of M. A. Wilson, editor of the Big Lake Wildcat, who placed the facilities of his plant at the disposal of the Stockman force to meet the emergency, the paper might not have made its appearance.

As the last of the news items for the week were being placed in type Wednesday night, an unexpected break in the Lino type machine, that necessitated a new part from the factory before the machine could be placed in service again, halted operations. An SOS to Big Lake and Editor Wilson invited the Stockman staff to make use of his machine to complete the edition. Meeting this difficulty resulted in the paper being mailed late, but thanks to a neighbor's assistance a ten-year record of a Stockman each week is unbroken.

David Anderson Draws Pen Terms Of Seven Years

Suspended Sentence Is Effective After Angelo Conviction

David Anderson, Ozona youth, must serve a total of seven years in the state penitentiary to satisfy verdicts in two convictions in which he was defendant in West Texas courts.

A two-year term in the penitentiary meted out by a Tom Green County jury last week at San Angelo at his trial on a charge of forgery, will be added to a five-year suspended sentence fixed by a Crockett County jury two years ago when Anderson was convicted on a charge of theft of wool in this county.

The suspended sentence was made operative at a special meeting of the district court here Tuesday afternoon when Anderson was brought here from the Tom Green County jail. District Judge Joe Montague and District Attorney Weaver Baker were here to dispose of the case. Certified copies of the verdict in the San Angelo conviction were presented and the five-year suspended sentence was made operative, the term to commence at the expiration of the two-year sentence. Good behavior credits will cut the time of service to between five and six years, court attaches said.

New Officers Of Baptist Sunday School Elected

Staff To Take Over Duties For Year Next Sunday Morning

A new group of officers and teaching staff will take over their duties at the helm of the Baptist Sunday School here Sunday morning. Ross Culpepper has been chosen by the Sunday School as general superintendent, with C. S. Denham as assistant. Glyn Cates will act as general Sunday School secretary.

J. T. Keeton will act as superintendent, with Ira Carson, assistant superintendent of the adult department, with the pastor, A. W. Jones, Mrs. Doty and Mrs. C. J. Watts as teachers in that department.

The young people's department will be headed by Lowell Littleton as superintendent, with Mrs. A. C. Hoover, Mrs. Ira Carson and J. O. Lusby as teachers.

Mrs. J. H. McClure will superintend the intermediate department. Teachers include Mrs. Glyn Cates, Mrs. A. E. Deland and Gerald Williams.

The junior department will be headed by Mrs. J. S. Whatley. Teachers will include Mrs. H. A. Moore, Ben Williams, and Mrs. Gerald Williams.

Mrs. Lowell Littleton will take charge of the primary department with Mrs. Ples Dryden, Mrs. Gertrude Perry and Mrs. S. L. Butler as teachers. Mrs. George Bean will superintend the beginners department and Mrs. O. W. Smith will act as Home Extension department superintendent. Mrs. Tip Smith was chosen superintendent of the nursery department. Miss Wayne Chapman will act as pianist for the Sunday School.

Hugh Boyd, employe on the Lee Henderson ranch, was in Ozona the latter part of last week having an infected hand treated. The injury occurred when Boyd cranked a car and scratched his hand. He was able to return to the ranch this week.

J. G. Hufstедler, small son of Mr. and Mrs. Ross Hufstедler, received a painful cut on the forehead while at play yesterday afternoon. The lad was not believed to be seriously injured.

RODRIGUEZ GIVEN FULL PARDON BY GOVERNOR ALLRED

LABOR ORGANIZERS CHARGE MEXICAN "RAILROADED" IN DISTRICT COURT HERE

Hearing charges of labor union heads of "railroading," Governor James V. Allred yesterday granted a full pardon to Jose Rodriguez, San Angelo Mexican, convicted in district court at Ozona on perjury charges last April and sentenced to two years in the state penitentiary. The pardon followed a conditional pardon given Friday, the full pardon for the Mexican being urged by Wallace Reilly, executive secretary of the State Federation of Labor.

The governor's proclamation quoted San Angelo labor union heads as declaring the Mexican's conviction in Crockett County a job of "railroading" and the pardon board was said to have commented on the Mexican's activities in behalf of sheep shearers as an organizer for the shearing union and adding, "a man cannot be sent to the penitentiary for such labor organizing activities."

The governor's proclamation reflected almost unanimous sentiment for Rodriguez and "they seem to show that the best citizenship of Tom Green County are righteously indignant at the judgment against the defendant." Rodriguez had served only a few weeks in the penitentiary.

Four indictments were found by a Crockett County grand jury against Rodriguez. Two of the remaining bills were dismissed by the court following the conviction on the perjury count but a fourth is held over on the "drop docket" and may be prosecuted at the will of officials.

Father Of I. G. Rape Is Critically Ill

D. N. Rape, 85, father of I. G. Rape, proprietor of the Ozona Drug Store here, is in a critical condition at the home of his son here. Mr. Rape has been ill for several days, but his condition was not considered dangerous until yesterday afternoon.

Dr. Marvin Rape of San Angelo, another son, is here attending his father. Two daughters, Mrs. Maggie Miller of Commerce, Texas, and Mrs. Evelyn Day of Fort Worth, were notified by telegraph of their father's condition Wednesday afternoon and were expected here today.

PEP SQUAD NOT TO HAVE FULL UNIFORMS SAT.

PURPLE SLACKS FAIL TO ARRIVE IN TIME FOR OPENING AT HOME

Girls of the drum corps and pep squad of the Ozona High School were disappointed this week when the slacks to complete their uniforms of gold sweaters and purple slacks failed to arrive. The sweaters came the first of the week but the slacks will not arrive in time for the opening game on the local gridiron next Saturday afternoon between the Lions and the Rankin Red Devils. They are expected to be here in time for the group of 1000 to be in full regalia at Menard the following week-end.

The drum corps, an accomplished group of drummers who made their first public appearance on the occasion of the Ozona-Iraan junior game here Monday afternoon, will wear uniforms of gold sweaters and purple slacks, made of corduroy, with a gold stripe down the side of each leg. The regular pep squad slacks are of purple whip cord, and without the stripe.

The pep squad will wear the new gold sweaters and white skirts for their first at-home appearance here next Saturday in the Ozona-Rankin game.

THURSDAY, OCTOBER 3, 1935

WHY?

Christian Science Monitor:

A new fashion in journalism is upon us. Newspaper accounts of automobile accidents are wrapped in a red robe of realistic reporting. The redder the better, is apparently the latest injunction posted in the news rooms even of some of America's staidest journals.

A recent magazine article captioned "... And Sudden Death," arresting in its frankness, and reprinted in many newspapers, seems to have shocked many editors into a mob of frenzy of full and gory details. The purpose, laudable if not mistaken, is to frighten motorists into sanity. But, curiously enough, the most vital fact—the cause of the crash—is so obscured that it almost escapes notice.

An illuminating instance of this occurred a day or two ago. In the small hours of Sunday an automobile crashed into a guard rail protecting the West Side elevated highway in New York City, throwing three occupants into the street below. Front-page stories in a number of New York's newspapers screamed the horrific details to their readers. Nothing was left out and gruesome photographs filled out any of the reporters' vocabulary missed.

One detail, however, was almost left out. Tucked away in a few words far down the columns was a sentence or two explaining the cause of the tragedy. It usually ran something like this: "The police state that their investigations prove that all the occupants had been drinking. There had been two other occupants of the motorcar who left, however, after a number of bars had been visited."

This newspaper doesn't think very much of the new style in realistic reporting. Its effect on sober drivers is doubtful; its effect on drunken drivers is nil. Police officials, physicians and coroners everywhere agree that in a majority of cases automobile casualties are due to drink. Instead of so much space being devoted to the Who, What, Where, When, of these saddening tragedies it suggests that more prominence be given to the Why. And if there must be realism would not the headline:

HIGHWAY CRASH HURLS 2 TO DEATH

be truer if "Highway Crash" were changed to "Liquor"?

How Calotabs Help Nature To Throw Off a Bad Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed.

How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminants. It cleanses the intestinal tract of the germ-laden mucus and toxins.

"G" Men Go Through Their Daily Dozen

"G" men must keep physically fit, for their duties frequently are strenuous. Here are a number of these Department of Justice men doing their daily dozen setting up exercises on the roof gymnasium of their headquarters in Washington.

NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

AUSTIN, Oct. 2—Political straws which show which way the wind blows, appearing out of the Aug. 24 election, brought about two important legislative events last week in the special session.

First, the senate passed by an overwhelming vote, Senator Clint Small's bill defining an open saloon as any place where liquor is sold to be drunk on or adjacent to the premises. The senate has heretofore been regarded as the more moist of the two houses; but the very close vote on repeal and the very large territory represented by the dry sentiment, has had its effect on the upper body.

Second, the house recommitted to committee the Calvert-Hoffbein bill providing old age pensions, with instructions to strike out its provision imposing a tax on domino tables. This provision was written in so that the house could consider and add from the floor all manner of taxes to finance the pensions. But the fear of many members that they might be charged with opposition to pensions if tax measures for which they felt they could not vote were added to the bill caused the reversal of procedure. It now appears the house is determined to pass a bill ordering pensions paid and then enact as separate laws, the tax-raising bills necessary to finance the pensions. Meanwhile, the senate indicated it may take a hand by writing its own revenue raising laws, when opinions as to the legality of the senate originating revenue measures for this purpose were asked of the attorney general.

A second special session, at a cost of about \$100,000, will be necessary, in the belief of most members of both houses. The pension matter is likely to be long drawn out. Two distinct schools of thought have developed. One wants to pay a pension to everybody who is 65 years old, without other restrictions, apparently simply as a matter of reward for attaining this ripe old age. Senator Roy Sandeford of Belton heads this group, with a bill providing a 3 per cent sales tax to raise the \$40,000,000 it would require. The bill is said to have been written by Ex-Gov. Jim Ferguson, who is here professionally lobbying for a sales tax. The senate is against a sales tax, and barring a miracle, will not pass one.

The other school of thought would pay pensions as charity only to old persons who are indigent and without relatives to whom they could lawfully look for aid. Such a bill following the restrictions laid down by most other states, would require about \$10,000,000 a year, experts here figure. This is most likely the form the law finally enacted will take.

Probably the largest gathering of the political clans seen this year in Texas will occur in Austin Monday, Oct. 7, when Jesse Jones of Houston, who has made an out-standing record as chairman of the RFC board, will visit

Austin to participate in ceremonies connected with the unveiling of his portrait in the senate chamber. Jones will be the guest of Governor Allred, and an Austin committee will entertain him with a dance and reception. Representatives from every section of Texas will be on hand.

The state highway commission broke all records for the past four years when it let approximately \$1,600,000 worth of road building contracts here Sept. 24. With the letting this month of an additional \$2,800,000 now ready, about one-seventh of the total of \$32,000,000 of highway construction expected to be finished by July 1, 1936, will be under contract. Thousands of laborers will be steadily employed for the next eight months on this gigantic road building program.

Highway commissioners and other public officers learned some new facts about Comal County when they visited Neal Braunfels recently to attend the dedication of a new \$200,000 concrete bridge over the Guadalupe river. County Judge E. W. Klingeman told them the county had the smallest percentage of delinquent taxes in the state. He also reminded them Comal was the first county in Texas ever to impose a tax for public education. The tax was declared unconstitutional at that time, but county officials collected it anyway, to provide free public schools.

The report of Rep. Augustin Celaya's \$1,000 oil investigation committee filed in the house last week, as a predicate for an additional appropriation to continue the probe, brought scarcely a ripple of excitement. The committee used its material for newspaper headlines throughout the summer and the rebashed material, already published, wasn't very exciting. Political observers here were wondering whether Rep. Sidney Latham of Longview, the committee's chief cross-examiner, planned to announce as a candidate for railroad commissioner against Chairman E. O. Thompson, or whether the material gathered by the committee would be used in another attempt to create a separate oil and gas commission. All such attempts have failed in the past.

HEADS BRITISH NAVY

Sir Bolton Eyres Monsell, first lord of the admiralty, who ordered Great Britain's Mediterranean fleet to be concentrated in the "key" positions, mainly off the Suez canal and at Malta.

MISS HESTER BUNGER ENTERTAINS CLUB

Miss Hester Bunger was hostess to her contract club at her home Tuesday night. Mrs. Jake Short and Dr. H. B. Tandy held high scores. The guests were Mr. and Mrs. J. O. Lusby, Dr. and Mrs. H. B. Tandy, Mr. and Mrs. Lowell Littleton, Mr. and Mrs. Evart White, Mr. and Mrs. Jake Short, Mrs. Gertrude Perry and Jake Young.

Iran Juniors Score In Final Seconds To Beat Locals Monday

Bearing down with all they had in an effort to avenge a 44-0 defeat at the hands of the Iran second string grid crew there a week before, Coach Ted White's second string Lions, Junior high school lads, dropped a close decision to the Iran invaders here Monday afternoon.

The score was 7 to 0, but it was a battle to a draw until the last few seconds of the game when "Booger Red", big, bruising back-field man on the visiting team, circled the end to get loose for a forty yard run and a touchdown. Only a few more plays were executed before the final whistle ended the fracas.

Some promising material for future Lion elevens is being developed in these junior games. William Beecher Montgomery, P. C. Perner, Jack Baggett, Leo Williams, Taylor Deaton, Lemmons, Bunker and others are showing the makings of future heroes of the gridiron for High School teams.

Freshmen Present Play As Feature of Assembly Program

Members of the High School Freshman class, under the direction of Miss Mildred North, are in charge of the assembly program in the High School auditorium this afternoon starting at 3 o'clock.

The feature of the program will be a play entitled, "And the Villain Still Pursued Her." Characters in the play include William Beecher Montgomery as Jack Screwloose, Madye Jo Bailey as Emaline Handout, the heroine; Boyd Baker as John Handout, her father; Doris Bunker as Lena Handout, her mother; Zack Blair as George Grabum, the villain; Phillip Schneemann as Jimmie Sput, a detective; Janice Watts as Mary Imigin, the house maid; and Betty Lou Coates as Lizzie Leaping, a literary genius.

The assembly program next Thursday afternoon, October 10, will be presented by pupils of the Junior High School under the direction of Gerald Williams, Junior High principal.

IS THE TIME

OCTOBER

Is the Month

for Grocery Savings!

We must have cash! And to get cash we are offering you phenomenal bargains in all lines of groceries during the entire month of October. We are not making merely nominal cuts of a few cents on the item but offer you DRASTIC REDUCTIONS in prices for cash. We have obligations that must be met and we are reducing our stock at bargain prices to raise the money.

Beginning October 1 and continuing throughout the entire month we are offering our ENTIRE STOCK of choice groceries at CASH BARGAIN PRICES. We have the most complete stock of staple and fancy groceries ever assembled in Ozona and the entire lot is available to you at saving prices.

This is strictly a CASH SALE as we told you in our opening announcement last week, but for the convenience of those customers who pay accounts regularly, we will sell you on the same terms of 30 days account at sale prices plus 5%, which represents actual cost of bookkeeping on charge accounts. On this basis, you can still make appreciable savings on your grocery bill. SAVE MONEY—MAKE MONEY—during this OCTOBER CASH SALE.

Food Was Scarce

"Less than a thousand reales are found in the treasury for next month. There is not one grain of corn for the troops and their families. As soon as I arrived at this post, learning that there were no supplies for the troops, I commissioned the commandant of Bahia del Espiritu Santo to collect two hundred fanegas of corn in that post. In order that the settlers would not refuse to sell it if they had it, I ordered him to pay for it with cash and at a moderate price. In reply he has written that it is absolutely impossible for him to send me anything and that he hardly has enough for his regiment for next month. Therefore, in view of the facts that nothing can be sent to us from Bahia, and that there is no corn here—I have been able to collect only fifteen fanegas. I earnestly beg Your Lordship to look upon this unfortunate garrison with kindness and to save it from the scourge of hunger, which is threatening it. Likewise I beg Your Lordship to send as much money as possible by the paymaster, who is now probably in that city. If possible, it should be sent by special mail. Although the amount to be sent to this province cannot be considerable, it is necessary to make continual remittances of funds. Your Lordship knows better than I how hard it is to make troops perform their duty when they are not given the necessary supplies for their maintenance."

Added to the extreme indigence prevalent in the province as a result of ruthless Indian depredations, there was the constant menace of foreign invasion and rebel uprising. It was not long until the Mina-Humbert expedition occurred, and the poverty-stricken Spaniards were required to put up heroic defense.

MAKING OUR FLAG TO THE MASTHEAD

—In the largest single self-contained motor car factory in the world, thousands of veteran Buick workmen have focused for two years on perfecting four new series of phenomenal automobiles, and now they offer them to the public in full confidence that they dramatically verify the traditional Buick pledge: "When better automobiles are built, Buick will build them."

BUICK CENTURY \$1035 AND UP

BUICK LIMITED \$1695 AND UP

Prices subject to change without notice. Convenient G.M.A.C. time payment plan.

ONE LOOK AT THESE PHENOMENAL FOUR AND YOU'LL SAY

"BUICK'S THE BUY!"

TWO years ago Buick deliberately leveled its sights on 1936.

It coolly set its aim on bringing to market for that year a line of motor cars that would startle the world.

It purposed to do that, not by freak or superficial design, not by skimping quality to make a price, but by sheer merit as expressed in automobile beauty, value, ability.

It submits to you now the eminently satisfying results of that fruitful two years of concentrated endeavor.

Here are four separate series of sensational new Buick cars—cars called phenomenal by experts in the trade who previewed them.

Each is a feast to the eye schooled in mature modern styling, as you can see.

Each has under the smooth flowing planes and surfaces of its smart exterior, the solid, tough, durable, beautifully engineered chassis that underwrites Buick dependability.

And each offers you from the stepped-up power of its big thrifty valve-in-head eight-cylinder

engine such safe, thrilling performance as you have never known.

These cars are big cars every one—built to almost lavish dimensions of body room and head clearance—yet they handle with the fingertip lightness of small cars.

They are literally breath-taking in power and speed and take-off, yet under their new tiptoe hydraulics and easy-steering knee-action they are almost as manageable as a telephone.

They are thew and sinewed by that quality which springs from Buick's third of a century of manufacturing experience, advantaged by \$14,500,000 worth of new tools, dies and factory re-equipment devised for these cars alone.

These things are so true and so obvious that everywhere you will soon hear the motor-wise saying, "BUICK'S THE BUY!"

Buffalo (N.Y.) Times: Sally Rand is now playing in "Gaiety," no change of costume being required.

He Finds Romance Again at 90

Twice a widower after marriages which lasted 28 and 33 years respectively, David L. Selke, ninety-year-old head of the congressional information bureau, was wed to Sally Mason, fifty-nine-year-old music teacher of California and Washington. Mr. Selke said he had so many children that he had stopped counting them. The bride and groom are shown above.

Paid

Everything I am I owe to honest advertising, says Sally Rand. There's one case where the bare truth certainly paid.—Washington Evening Journal.

Sometimes

Huge Pipe Organ To Serve Physics Dept. At Texas University

AUSTIN, Texas, Oct. 2.—A pipe organ valued at \$25,000 has been made part of the instructional facilities of the physics department at The University of Texas. to be used for demonstration and research purposes. Parts of three organs, one of which was an outright gift to the department of a local theatre, were used in assembling the giant piece of sound equipment, second to none in the country. The console itself was made this summer by University carpenters, supervised by Ernest William Hoffmann, white-bearded and genial shop carpenter, while Dr. Paul Boner, adjunct professor of physics, assisted by Charles Newman, Jr., of Wichita Falls, student assistant in physics, and other members of the department, assembled the 1,750 pipes and 80 stops. Dr. Boner estimates that the total cost of the instrument has not been in excess of \$2,500, or approximately 10 per cent of its value.

The pipe organ is a four-manual organ, that is, it has four tiers of keys instead of the usual two or three, and is the only instrument of its size in Austin. Every variety of tone is afforded by the set of pipes, which range from tiny metal reeds to enormous wooden tubes 16 feet in length. The latter are so large that they must of necessity be laid along the floor instead of upright in the organ chamber. Several unusual pipes have been acquired, including the diaphone, the marimba, the harp, the glockenspiel or bells, and others.

The console was constructed at a cost of about \$500, whereas the cheapest adequate console that could be purchased would have cost about four times that sum, Dr. Boner said. Moreover, the University-built cabinet, although furnishing a keyboard and electrical contacts for an enormous number of stops and pipes, is no larger than the console for a small church organ. The secret lies in the fact that all the pipes are housed in a large organ chamber far removed from the console, instead of terminating in the console itself. A large cable transmits the electrical power from the keyboard to the pipe chamber, and permits moving the console about from room to room and even out in the halls.

Value of a pipe organ for class and research purposes lies in the

fact that from no other source may pure tone be obtained for study of its quality, beat, etc., Dr. Boner pointed out. The organ will also be used for concerts and radio programs.

131 CHARTERS GRANTED NEW TEXAS BUSINESSES

AUSTIN, Texas, October 2.—Charters granted in Texas during August totaled 131, a decrease of 14.4 per cent from the previous month but a gain of 10 per cent over the like month last year, the University of Texas Bureau of Business Research pointed out in its monthly report on Texas charters. Total capitalization, \$1,520,000, was down 51 per cent and 31 per cent respectively from the previous month and the corresponding month last year. Of the various classes the transportation group was the only one to show an increase for the two comparable periods.

Better Than Five Reasons

"You want me to raise your salary, eh? growled a Wellington boss to his employe. "Give me at least two good reasons." The employe gazed meekly at his employer and murmured, "Twins."—Wichita Eagle.

Laws Governing Migratory Bird Hunting Quoted

Commission Issues New Regulations In Brief Digest Form

Copy of a digest of the state and federal laws governing the hunting of migratory birds has been received by O. Z. Finley, game warden for this territory. Many new features are contained in the new regulations and for the benefit of local hunters, the provisions of the laws are being published below.

Mourning dove: Open season—North zone—September 21st to October 31st and south zone—September 1st to January 5th. Bag limit 15 a day and 45 a week but not more than 20 in possession at one time. Daily shooting hours 7 a. m. to sunset. May be taken with shot-gun, only, not more than ten-gauge or not capable of holding more than three shells. Must not lure birds with grain or food products. Special law provides open seasons following counties: Bastrop, Brazos, Burleson, Fayette, Grimes, Lee,imestone, Milam, Montgomery, Robertson, San Jacinto, Smith, Washington and Wood.

Waterfowl: Open season—wild ducks of all kinds (except wood duck, ruddy duck and buffhead duck for which there is no open season) coot, geese, brant, Wilson's snipe or jacksnipe November 20th to December 19th. Shooting period 7 a. m. to 4 p. m.

Bag and possession limits: Ducks—Ten in the aggregate of all kind and may not possess more than ten of all kinds. Geese and brant—Four in the aggregate of all kinds and may not possess more than four of all kinds. Woodcock—Four and may not possess more than four. Coot—Fifteen and may not possess more than fifteen.

Wilson's snipe or jacksnipe—Fifteen and may not possess more than fifteen.

Means by which water fowl may be taken: Shot-gun, only of not more than ten-gauge and not capable of holding more than three shells.

From the land or water with the aid of a dog, and from a blind or boat or floating craft of any kind, except as hereinafter provided, not more than 100 feet from the shore line as determined by ordinary high tide, or where there is natural growth or vegetation extending beyond such shore line, not more than 100 feet from such growth of vegetation protruding above the surface of the water at the time of taking such birds, but migratory birds are not permitted to be taken from or by the aid of an automobile, airplane, sinkbox (battery), powerboat, sailboat, any boat under sail, any floating craft or device of any kind towed by power boat or sailboat. Birds must not be lured or attracted by the use of grain, salt or any kind of feed or the use of live water-fowl decoys.

Rails (except coots): Open season—September 1st to November 30th with bag limit of 15 in the aggregate of all kinds and must not possess more than 15 at any one time.

JOE'S THROWING ARM

Joe Di Maggio, San Francisco outfielder, bares the arm that has won him fame in the Pacific Coast league and earned for him the name of being the best thrower in the whole country. He sends the ball in with a speed and accuracy that foils all attempts to pick up an extra base.

Automobile Is More Deadly Than Disease, Health Head Declares

AUSTIN, Oct. 2.—Comparatively few people seriously realize the automobile's deadly power, but, according to Dr. John W. Brown, State Health Officer, over 1500 Texans are killed each year by autos. Very logically considered as a major recreational and useful mechanism, its ability prematurely to maim and kill makes little impression upon most of us. In fact, the daily list of casualties in the papers indicated indifference to the situation. Nevertheless, as a menace to life and limb the automobile unfortunately represents a real hazard.

In addition to its pleasure and utility factors, the motor-car has its devastating side also. Decidedly this fact should not be overlooked. And in this connection education alone can be relied upon to bring results. There is no serum, no drug, no quarantine procedure, nor any effective mass control against the automobile's damaging power. Automobile accidents caused more deaths in Texas last year than the combined deaths from typhoid fever, small-pox, measles, diphtheria, scarlet fever, whooping cough, and infantile paralysis.

Whether human nature can be sufficiently bridled by public opinion as to result in more careful driving and more cautious walking remains to be proved. But the fact is that a major health and life problem is involved in the present circumstance.

Safe water, clean milk, disease control, slum clearance, sanatoria, and indeed modern medicine and surgery are all of small avail to the speed-maniac who kills himself and others. Medical science also is equally powerless to save pedestrians who are knocked down by the careless driver, or who carelessly connect with careful drivers.

Citizens generally could well seriously consider this ever increasing challenge to life and health. Upon them rests much of the obligation definitely to reduce the ever increasing casualties.

University of Texas Has Section of First Transatlantic Cable

AUSTIN, Texas, Sept. 25.—The first transatlantic cable lost its usefulness in less than a month, due to the use of excessive potentials, it is pointed out by University of Texas scientists. A piece of that cable is now on display in the physics building at the University. This piece came from the American shore end of the cable laid between Duxbury, Mass., and France in 1858, and is the property of Charles Lindsey Clark of Austin, a University student and the son of Dr. D. L. Clark, professor of English.

The first message was sent over the cable August 17, and was as follows: "Europe and America are united by telegraph. Glory to God in the highest; on earth, peace and good-will toward men."

Labor Replacing Dole In Texas As WPA Work Starts

SAN ANTONIO, Oct. 2.—With several thousand Texans already transferred from the dole to creative labor, Works Progress Administration officials today were preparing to cut still deeper into the diminishing relief rolls of this state with the release of work authorizations for thousands more during the coming week.

Although 5,530 former relief clients have been assigned to projects by WPA, officials stated that other work orders have been mailed to the districts and estimated that many more will be at work by the end of this week. Cheered by President F. D. Roosevelt's approval of \$3,990,134 for expenditures in Texas, state WPA officials were confident that many millions more will be flowing into the state to provide more jobs soon. To these federal allocations local sponsors will add \$1,135,309 for completion of the work.

Flood damage repair jobs, recipient of first federal approvals for Texas, have been started in more than a score of localities and allotment of the final portion of this \$300,000 allocation will be made shortly. It was on work of this nature that the first group of laborers last week were automatically removed from the dole by receipt of their first checks in Sweetwater.

News of federal approval of the \$30,500,000 Brazos River flood control and water conservation project, which contemplates the construction of thirteen flood control dams and reservoirs on the 900-mile long river, had prompted sponsors to seek land for initiation of the job which proposes to provide jobs for thousands of laborers in several Texas WPA districts.

May Discontinue Medical Service To Relief Clients

AUSTIN, Oct. 2.—Continuation of special medical service charges by local physicians over the state on the basis of a State Medical Association contract will determine whether or not Texas relief clients will continue to receive medical service grants after October 1, it was announced today by State Relief Director Adam R. Johnson.

The Medical Association has informed the Relief Commission that the executive council of the doctors' organization voted September 15 to end on October 1 the agreement by which special rates were allowed relief clients, in the belief that the emergency period for which it was established has ended. The Association has been granting such special medical service charges since November 24, 1933.

"In view of this notification," Johnson announced, "granting medical service to relief clients will be discontinued unless such services are rendered voluntarily by local physicians on the basis of the previous contract charges, as our funds are extremely limited in this transition period into the Works Program."

AGED EWES BOUGHT

Joe Davidson recently purchased 990 aged ewes from Mrs. Mae Gray. Mr. Davidson ranches a few miles south of Ozona and Mrs. Gray ranches on 27 sections near Rankin.

Red Cross Opens Drive To Prevent Home Accidents

Local Chapter Distributes Home Check-up Forms Here

The American Red Cross has launched a campaign to eliminate accident-causing hazards in the home in an effort to do its part toward reducing the appalling annual loss of life from preventable accidents, according to announcements and literature received by A. W. Jones, chairman of the Crockett County chapter of the Red Cross.

Millions of people are injured in the home each year. Last year more than 34,000 were killed and the number permanently disabled by accidents occurring in the home ran into six figures. "People do not realize that the home is not safe," it was declared, "and it is the purpose of this Red Cross program to correct this erroneous belief, to point out common and uncommon home hazards and show how each may be eliminated and to conduct an actual inspection of the homes of this community."

Special home inspection forms have been prepared and have been introduced into the homes here through the children in schools. Arrangements have been made with school authorities so that school children will receive these blanks, take them home and conduct an actual inspection of the home to eliminate accident causing hazards with the help of parents or relatives and return the blanks to the school, where they will be forwarded to the Red Cross for compilation of statistics to indicate what type of home accident hazard is most prevalent.

"Preventing unnecessary death and alleviating human misery," it is pointed out in Red Cross accident prevention campaign literature, "is a chartered obligation of the Red Cross, and home safety is a natural outgrowth" of First Aid, a Red Cross service which has been in effect for some 25 years and is annually responsible for saving many lives.

The accident prevention campaign will be carried out on a nation-wide scale and each of the nearly 13,000 Red Cross Chapters and Branches will play a part.

The Red Cross believes that knowledge of first aid will do much to prevent home accidents. A person instructed in first aid is accident conscious; and certainly, when an accident does occur in the home, the practical application of first aid knowledge may prevent a minor injury from crippling, a serious injury from killing.

Mrs. C. M. Tandy is here from Abilene for a visit with her son, Dr. H. B. Tandy and family.

Requiescant in Pace

Brothers, It Was Sad—Sad! But There'll Be a Resurrection!

In giving an account of the final series that clinched the West Texas baseball championship for the Texon Oilers in the playoff with the Ozona Giants, M. A. Wilson, editor of the Big Lake Wildcat, in last week's issue of his paper, wound up the story with the following comment:

About half of the thousand fans was from Crockett county, and they went home looking downhearted and with a vengeance for next year.

Ozona cars returning from Texon reminded one of a funeral procession. Tourists overtook the stream of cars and tipped their hats when they passed in respect for the "dead." When they got to Big Lake they asked which way the procession was destined for.

The tourists were about right, for the Ozona fans looked as if some dear friend had passed away and they were going to bury them.

Missionary Circles Install Officers At Meeting Wednesday

Both circles of the Baptist Woman's Missionary Society met at the church Wednesday afternoon for a business and social meeting. A feature of the gathering was the installation of new officers for the coming year.

The meeting opened with a hymn, followed by prayer. Mrs. S. L. Butler gave the devotional and Mrs. A. C. Hoover made an interesting missionary talk.

New officers for the coming year who were installed at the session were Mrs. Glyn Cates, president; Mrs. C. J. Watts, first vice president; Mrs. J. C. Butler, second vice president; Mrs. Tip Smith secretary; Mrs. Massie Ray Smith, corresponding secretary. The E. A. Nelson Circle members acted as hostesses for the afternoon.
