In this advertisement is the expert opinion of thou sands of dentists as to the best type of dentifrice to protect your teeth

A woman is as young as she feels? She is also as young as her smile. And how greatly that depends upon teeth and gums!

But what is the best way to care for them? You read so many conflicting theories. There are dozens of different dentifrices. Which is right?

That the question might be answered by the highest authorities, E. R. Squibb & Sons asked a world-famous research institution to make an investigation among 50,000 American dentists. Here is the summary of the replies received:

95% of the answers stated that germ acids most frequently cause tooth decay and gum irritation;

95% of the answers agreed that the most serious trouble occurs at the place where teeth and gums meet; 85% stated that the best product to prevent these acids from

causing decay and irritating the gums is Milk of Magnesia. Surely this is overwhelming evidence that Squibb Dental Cream will protect your teeth and gums. For Squibb's is made with more than 50% Squibb Milk of Magnesia.

Squibb Dental Cream cleans beautifully-and without grit or astringent or anything which might injure. Begin using it morning and night and notice how soon your teeth sparkle . . . how healthy and refreshed your mouth feels . . . how much freer from even tiny troubles your teeth and gums keep. MANY WAYS TO LOVELINESS YOU'LL FIND IN ZONITE" Says Nancy Earle

"Show me the woman who is dainty about her person and you have shown me a woman who has the key to charm." That, in effect, is what the beauty experts say. Who would deny that they are right?

Any woman of any age can have this kind of loveliness. You, yourself, can have it without an array of expensive beauty lotions. In one bottle—a single bottle of Zonite—you will find many ways to gain and hold this daintiness which is the root of all beauty.

Note the list of uses this well-known lecturer gives for Zonite. Among them are treatments for pimples, boils, blisters, cuts and scratches. Zonite is a powerful germicide and antiseptic - a reliable preventive of infection and an aid to healing.

Full directions for using Zonite come with every bottle. Zonite is very valuable to women. So is Zonite Ointment, the white, antiseptic, greasele i cream.
