WEST TEXANS SEEK MUSEUM IN BID TODAY

Ozonan Among Group To Ask of Centennial Commission

SITE AT LUBBOCK

Alpine Also Seeks Appropriation for Similar Project

Among West Texans appearing in a group before the Texas Centennial Commission today at Austin is Superintendent C. S. Denham of the Ozona Schools, who will assist the West Texans in seeking \$35,000, to be expended for a West Texas museum. The site of the museum probably will be Lubbock if the allocation is granted.

Members of the West Texas delegation came through Ozona yesterday and Supt. Denham joined the group. The party planned to arrive in the capital last night and appear before the Texas Centennial Commission today for presenting the museum petition. The centennial body was scheduled to convene at the capitol at 11 o'clock this morning.

Heading the party to Austin is Dr. W. C. Holden, professor of Texas Tech and head of the departments of archaeology and anthropology. The Lubbock man is an outstanding archaeologist of Texas and is one of the strong supporters for the West Texas museum, where valuable finds in the field of archaeology can be safely kept. At present there is no one storehouse for West Texas items which are valuable in correlating with the history of this section. A museum would offer a place of safekeeping for the multiplicity of articles, such as inscriptions, Indian pottery, and all the little what-nots which have some bearing on the earlier inhabitants of this country.

Although Alpine has been mentioned in plans for a West Texas museum, the delegation at Austin today probably will point to Lubbock for the projected \$35,000 structure.

An interesting curio display is maintained in the Ozona High School auditorium, where the Cox curio collection is shown on display shelves with bits contributed by other relic finders.

Former Operator Of Show Held On Board Bill Count

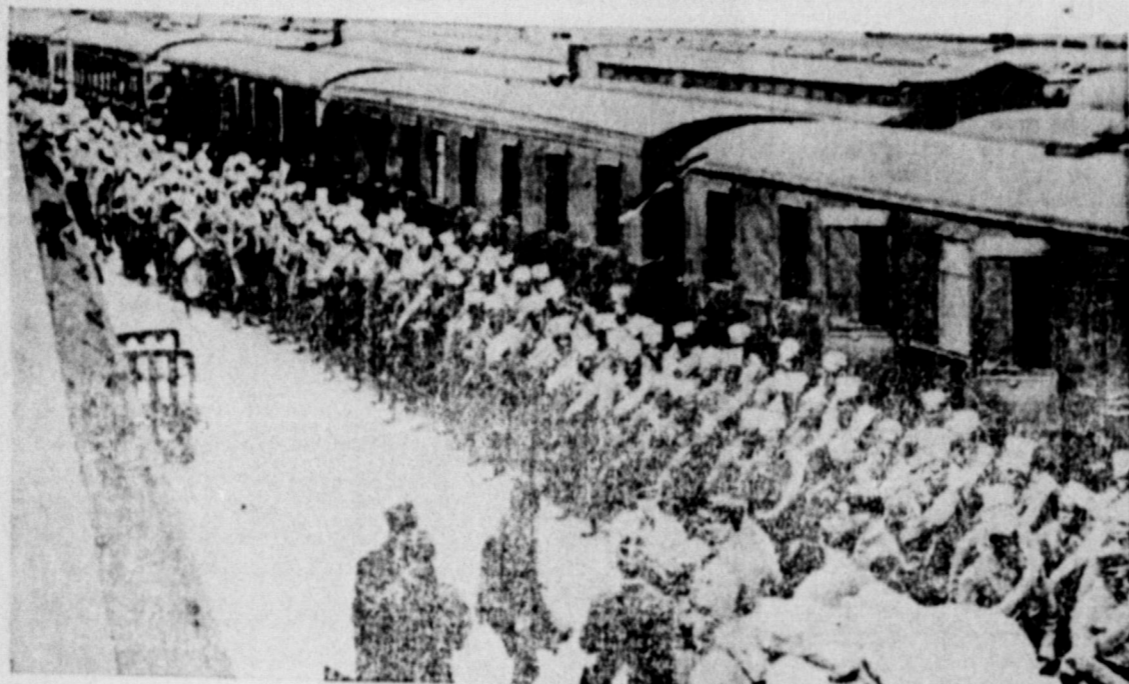

Doyle Mortin Bound Over to Grand Jury On Debt Charge

Doyle Mortin, of Big Lake, former co-operator of the Palace Theatre here in partnership with A. C. Hammet, was placed under \$250 bond to await action of the next grand jury following a hearing before Justice of Peace Bill Johnson Monday in which Mortin was charged with evading payment of a board bill. Charges were brought by Jess Hancock on the basis of an account created by Mortin, his partner, A. C. Hammet, and their employees during the construction and operation of the show house here.

The attorney of the defendant pleaded at the arraignment that Mortin was not responsible for the account, claiming a dissolution of partnership between the two partners to have existed, with Hammet assuming the indebtedness of the show firm. Conviction on the charge carries a possible jail sentence and heavy fine.

GOV. ALLRED PURGES RECORDS OF 'RAILROADED' REFERENCES IN RODRIGUEZ PARDON EDICT

Allred Declares Pardon Granted Because Indictment Faulty

Declaring that the full pardon recently granted Jose Rodriguez, convicted in Crockett County on a charge of perjury, was granted solely on the ground that the indictment was defective and not on the ground that he was "railroaded" to the penitentiary from this county, a charge made in letters of private citizens to the Board of Pardons and Incorporated "inadvertently" in the governor's proclamation, Governor James V. Allred has issued a new proclamation in which he directs that such references be expunged and stricken from the record, "in fairness to the public officials involved, the jurors who tried the case and the citizenship of Crockett County generally."

In a letter accompanying a copy of the substitute proclamation, which reached The Stockman the end of the week, Governor Allred declared that "the incorporation of these letters in the proclamation was unintentional and, in my judgment, unfair."

The governor's letter, together with the full text of the substitute proclamation, which ratifies the pardon granted Rodriguez, but orders all references to the letters which charged Rodriguez had been "railroaded" to the penitentiary, expunged from the record, follow:

Executive Department, Austin, Texas.

Philippine Resident, Fiction Writer, Visits Here, Gathers Material

A resident of San Carlos, Philippine Islands, Mrs. A. P. Canova, visited briefly in Ozona last Thursday and gathered items of interest about the county. The local color material was added to her notes from which she writes fiction.

The visitor has just completed a trip around the world and will return soon to the Philippines where her husband is connected with the San Carlos Sugar Company. She accompanied Miss Kate Adelle Hill, district home Demonstration Agent, on her regular tour of the district.

Pardon Board Is Hit for Assuming Court's Function

D.A. Says Attorneys Declare Rodriguez Indictment Sound

District Attorney Weaver H. Baker of the 112th district, prosecutor in the perjury case against Jose Rodriguez, who received a full pardon at the hands of the governor recently, secured an audience with Governor James V. Allred which resulted in the governor's action in purging the records of remarks which reflected on the integrity of court officials and the people of Crockett County generally.

Action of the board of pardons in assuming the functions of an appellate court in holding the indictment under which Rodriguez was convicted defective was declared by the district attorney, who declared in a letter to The Stockman a few days ago that he had submitted the indictment to several eminent lawyers of the state and that all declared their opinion that there was no defect in the bill.

The district attorney's letter with reference to the Rodriguez pardon is reproduced below: Ozona Stockman Ozona, Texas Gentlemen:

Ranch Country Gentry "Pay Off" As Hick Constabulary Surprises Blackjack Game

The somnambulist town-ship of Barnhart, peaceful mecca at the crossroads where grazing herds and vaqueros of the sheep and cow country meet and where motor truck meets car and dumps its mountain of wool, and where ranchmen sometime idle their time in waiting for the train to come in and carry their wool away, Barnhart, the serene town, was awakened to an indignation amounting to more than something when a nocturnal custodian of the law came unexpectedly upon an improvised rendezvous of gambling at a warehouse in that municipality early this week.

General Parole Granted Mexican Convicted Here

Tomas Mar, Sentenced to 5 Years for Murder Gets Clemency

Governor Allred granted a general parole Tuesday to Tomas Mar, Mexican, of Crockett County, who was serving a five-year sentence for the murder of Refugio Sanchez here July 9, 1933.

Mar drew a five year penitentiary sentence from a Crockett jury at the September term of court following the killing in July. The Mexican had served about two years in the penitentiary.

The Ozona Mexican was convicted of the knife slaying of Sanchez in the draw near the Mexican school house following an argument which grew out of an old feud, Mar told a story to officers, relating that he had clothed and fed Sanchez's wife after Sanchez had deserted her five years previously.

After the two men had finished eating watermelon at a residence where Sanchez was stopping, the victim was invited to the draw to discuss the grievance. Eye witnesses told of Mar holding Sanchez and slashing him repeatedly with a pocket knife. After receiving the knife wounds the victim walked about 50 yards to the Mexican schoolhouse and later was treated by a physician. He died about two hours after the knife episode.

Miss Wanda Watson entertained Las Amigas Club Friday afternoon at her home. Only club members were present. Mrs. Hugh Childress, Jr., held high score and Mrs. Marshall Montgomery, second high.

Burglars Blow Barnhart Safe, Suspect Held

West Texas Lumber Co Estimates Loss, Damage At \$150

Burglarly at the West Texas Lumber Company in Barnhart Sunday night, at which time someone entered the building through the side door and blew off the door of the safe in the office and escaped with the cash inside, was estimated in damage and cash loss at \$150 by T. C. Harris, manager. The loss was covered by insurance.

A suspect was arrested in McCamey Monday morning and was being held by Sheriff John Boyd of Irion County and Deputy A. A. Cumbie for questioning.

An attempt was made to break a pump at the Magnolia station in Barnhart Saturday night, according to Luther Joslin, manager, but the meddler was frightened away before doing any damage.

Accident Victim Is Taken To San Angelo

L. H. Onderdonk, victim of an automobile mishap on the O.S.T. highway about ten days ago, was carried to San Angelo Monday for medical treatment. The injured man, who suffered scalp lacerations and other injuries when the Chevrolet sedan overturned west of here, was taken to San Angelo in the Joe Obcecamp ambulance, after remaining in the Hotel Ozona for a week.

Junior Gridsters Slated For Gory Combat Tomorrow

Brotherly Love Cast Aside By Williams' Fire-Eating Lads

A "pig-skin picnic" between the Billy Goats and Wildcats (the two junior high school football teams of Coach Gerald E. Williams) is slated for Powell Field tomorrow afternoon at 4:30 and what the mentor of both teams has predicted for fans in attendance involves history, brother rivalry, et cetera, all bundled up in four quarters of a football game.

The mentor has snared publicity by injecting into tomorrow's fray the element of brother grudge—putting Capt. Howard Lemmons in the backfield for the B. Goats and Brother Bobbie at center for the W. Cats. According to the tutor, the Kittys have the avoidpulis in the line and the Can-Eaters have the fire in the backfield.

And there is no gate toll. "Sell free!"

LIONS WIN ON PENETRATIONS FROM MENARD

Scoreless Game Awarded Locals; Jackets Are Outplayed

TO JUNCTION SAT.

Coach White's Proteges Point for Second District Contest

Impressive attacks of a fighting Ozona Lion eleven brought the purple and gold team of Crockett within striking distance of the Yellow Jacket goal line at Menard last Saturday afternoon on five occasions—ample penetrations into the 20-yd. zone of Menard for Ozona to be declared winner—but the Lions' thrusts lacked the sting at the goal stripe (or penalties drew them back) and they failed to cross the Jacket score line.

Besides advancing repeatedly in to Menard's 20-yd. territory, the team of Coach Ted White left the field with something more than offensive play for their credit. The Jacket contingent was never able to fight its way deep into the fair of the Lions—never went beyond the 20-yd. marker of the Lions during the afternoon.

Ozona earned its victory, for during the fracas the only high school football team in Crockett County outdid the Menard rival in every feature of the game. That the Lion gridsters showed punch can be told best in the comparison of first down. Coach White's ball carriers ran up 14 first downs for the Jackets 2. Parker, Brown and Freeman, heavy and able Lion gridsters, led their team in attack and defense. The Ozonans team advanced the ball 335 yards during the play—almost four distances of the field—but penalties, eight in all and all coming in critical moments, raked away the heavy gains of the Lions and prevented them from scoring.

Saturday the Ozona Lions engage the Junction Eagles at 3:30 following cornerstone ceremonies at the new Junction gymnasium.

New Loan Plan May Stimulate Local Building

Building Material Manufacturers To Handle Repair Loans

An impetus to local building and home renovation activities is seen as a possibility under a new plan of financing such improvements made possible through the co-operation of the United States Gypsum Co., manufacturers of roofing and building materials, according to J. H. Miller, local manager for the West Texas Lumber Co., agents for USG products.

Where a reasonable quantity of products of the U.S.G. Co. are used in the construction job, the company will arrange loans on promissory notes in sums from \$100 to \$2,000, after the plan of the Federal Housing Administration.

Local building improvements under the FHA have been impossible heretofore because of the fact that no financial agency here was willing to handle the loans guaranteed by the FHA. With the USG loan plan in operation, however, persons contemplating improvements, repairs or alterations may have the work done and pay the indebtedness in small monthly payments. Full information, plans and form blanks for making loan applications may be secured from the local branch of the West Texas Lumber Co. Loans may be completed in a week from time application is made.

AGAIN THE CHEERS

Ray Stannard Baker, in one of his recent articles in The Chronicle, relates how President Wilson, after returning from the National Capitol, where he had delivered his message, calling for war with Germany, heard the crowds cheering outside the White House, and said to a friend:

"My message today meant death for our young men. How strange that that should be applauded!"

How strange, 'hea and now, just vast enthusiasm and cheer over what, at best, from any man's viewpoint, must be tragic and bloody work!"

NOBODY'S BUSINESS BY JULIAN CAPERS JR.

Austin, Oct. 16—The first called session of the 44th legislature wrote final to its inglorious record of final enactment only one major piece of legislation, and was promptly recalled by the governor for a second 30-day try at the job at a cost of another \$100,000 to the taxpayers. The chain store tax bill—virtually the sole accomplishment of the solons in a month of "work"—is so badly patched up that it is full of legal holes, and must be fought out all over again, as amendments to make it proof against court attacks are submitted.

Some value doubtless attaches to the long-drawn-out debate and committee wrangles over liquor regulation, fee officers' salaries, and old age pensions. Whether the legislators can capitalize this and utilize it to speed enactment of these and important tax measures to finance the pensions during the second special session remains to be seen.

Three significant developments occurred last week in the Texas oil situation. They were:

1. The house hot oil investigating committee weathered a stormy three-hour debate and came out with its life prolonged to April 1, 1936, and a \$10,000 fund to make a thorough probe of reported abuses in the industry. The house flatly instructed its probers to make its future hearings fair by permitting witnesses to be represented by counsel with the right of cross-examination and with a warning to go after major companies and not confine its probe to a few small operators.

2. General improvement in market conditions of the oil industry whose normal prosperity means millions of dollars weekly to thousands of Texans. War activity in Europe is credited with increasing foreign demand which has firmed American crude markets.

3. Holding of second successful session of the interstate oil states compact commission, where further unanimous steps were taken by representatives of the oil producing states to regulate their oil business under their own constitutional powers. This significant statement was made by Tom Anglin, representing Oklahoma on the commission:

"Other oil producing states are amazed at the wonderful achievements of Texas in its fair, patriotic efficient and honest regulation of oil production. All of us can well emulate the example set by Texas, which is a tribute to that state's railroad commission and especially its chairman, Col. E. O. Thompson. We all look to him as the ablest oil regulation administrator in the land."

Thousands of unemployed citizens and dozens of communities in Texas, are looking squarely to the engineers department of the Texas highway commission to see that Texas does not lose any of

Asleep With Her Mouth Open, She Swallows Snake

Middle aged, stout, Mrs. Olga Forascu, of Jersey, Rumania, who went for her summer holidays in the picturesque valley of Urlicani in Moldavia, was recovering this week from the gruesome experience of swallowing a live snake.

After a rather heavy rural dinner, she stretched herself on the grass and fell into a comfortable doze. Unfortunately Mrs. Forascu suffers from adenoids and kept mouth widely open during her siesta. A little black domestic snake seemingly was attracted by the usual cavity; anyway it crept into it. When Mrs. Forascu was awakened by a strange cold lump in her throat, she gave a gulp and sent the snake sliding down her esophagus. Mad with terror and pain, she was taken to a hospital. Nobody believed her tale until X-rays were made. A difficult operation was performed and the snake was extracted, still alive. Mrs. Forascu is now reported to be doing well.

That Gov. Jimmie Allred will be a large factor in control of the next Democratic convention delegation from Texas—to be selected next summer—is the conclusion of political observers here.

The visit of Jesse Jones, who was a mansion guest of the Allreds, the growing political friendship between the governor and the two Texas senators, Allred's recent conference at Uvalde with Vice President Garner, his visit with Mrs. Roosevelt in Fort Worth, and President Roosevelt's personal telegram to Allred about the celebration for Jones, are all given due significance in the minds of those who presume to forecast future political events.

Red Cross Wars on Carelessness In Home or While at Work on Farm

Left—Farm implements, carelessly placed, cripple thousands each year. Upper right—Pressing irons left on cloth or paper are a dangerous fire hazard. Lower—Incorrect handling of a knife may mean serious injury.

The American Red Cross is throwing the weight of its entire organization behind a continuing campaign to combat the negligence and lack of knowledge in the home and on the farm which last year claimed nearly 40,000 lives and injured millions.

Through an intensive educational program, the Red Cross will seek to explode the fallacy that the home is safe. Common and uncommon hazards will be pointed out; individual families will be shown how these hazards may be eliminated and instruction will be given in the avoidance of unsafe habits and practices apt to cause accidents.

Accidents in the homes of America kill more than 30 persons an hour each day, and run up a medical, nursing and insurance bill exceeding \$1,000 per minute. Farm work accidents last year took more than 4,900 lives and maimed many permanently.

Dr. James Long's Invasion Of Province Of Texas In 1819 Harbinger Of Later Successful Movement for Independence

Report of Spanish Consul On Invasion In Bexar Archives

Austin, Oct. 15— Approval of the general public was not unanimously given to the action of the United States in signing a treaty with Spain on February 22, 1819, which set the boundary between the United States and the Spanish province of Texas at the Sabine River.

Soon after the treaty was ratified, American dissatisfaction was voiced in the form of a mass meeting held in Natchez. A company of volunteers was raised for the invasion of Texas, and the command of it was given to Dr. James Long, formerly of Maury County, Tennessee.

The ever watchful eye of the Spanish consul at New Orleans took note of these preparations, and sent a report to the viceroy. An original copy of the report, dated July 16, 1819, is found in the Archives of The University of Texas. Translation of parts of this report reads as follows:

Report Translated
"Most Excellent Sir:
"Your Excellency will see by the enclosed reports that an expedition of large proportion is being planned to invade the province of Texas and the rest of that kingdom. The first wave of this movement, composed of over three hundred men, has already crossed the Sabine, and it is growing daily by the addition of recruits from these states. To these must be added a group of dissatisfied Spaniards under the command of the rebel Bernardo Gutierrez, who is at present near Nacogdoches. The expedition is to be commanded by an American named Jayme Long (James Long), formerly a surgeon later an officer in the United States army, and now with the self-conferred title of general. He has given up a large estate near

Natchez. Many people from this country are favoring this undertaking. I have reason to believe that the expedition will not only be supported by the government, but it will also receive supplies from the United States. The government has always supported this rebellious scum in spite of law and in violation of the principles of good faith. However it has suited its egotism and plans. It is very probable that Lallemand, the French general, along with his followers, may join them. By the latter part of this year they expect to have on the banks of the Rio Grande a body of not less than three thousand men. The newspapers of this city shamelessly write of this scandalous expedition, which has been planned and organized within the jurisdiction of the United States. Such is the shamelessness with which the whole matter is being conducted that one is led to believe that the negligence of the United States troops stationed in Natchitoches is due to express orders issued by their Cabinet, which is fearful of the ratification of the Treaty of February 22, 1819, which defines the boundaries.
"We have positive information to the effect that the number of adventurers is constantly growing in Galveston and on the Trinity River. Those on the Trinity may be considered the vanguard of the expedition which has crossed the

Sabine. As long as they have communication with the pirates in Galveston, they will be able to obtain the necessary food, supplies, and ammunition, transporting them to the most convenient points for the progress of the expedition. I am firmly convinced that this expedition is the most serious that has ever threatened this kingdom. This movement is headed by men of means who are much better equipped and have greater executive ability than those leading previous invasions. Therefore, I have deemed it my duty to report this matter to Your Excellency.

"May God guard Your Excellency many years."
The fears of the consul were partly realized. Dr. Long established his headquarters in Nacogdoches. There he organized a republican form of government, and proclaimed Texas a free and independent republic. He secured aid in men and supplies through Galveston. His attempt to get the aid of Lafitte and his pirates, however, resulted in failure.

While Long was conferring with Lafitte in Galveston, the Spanish troops attacked his outposts, defeating all of them. Long collected the remnants of his troops and transported them down the Gulf coast to La Bahia del Espiritu Santo. The expedition marched upon La Bahia and took it without any trouble.

By this time Mexico had declared and gained its independence from Spain. Nevertheless, Long and his followers were captured and taken to Mexico City. On November 11, 1822, they were released and many of them sent home. Dr. Long was assassinated in Mexico City.

Even before the capture of La Bahia by James Long, Don Erasmo Seguin had been given orders by the Spanish governor to confer with Moses Austin on the grant of land for colonists.

Frankie Ormsby's Recording Band will play for dance, Hotel Ozona, Oct. 22, from 8:30 to 12:30. Nine-act floor show in connection.

Mrs. Joe Oberkamp, Mrs. Jimmie Blaylock and Miss Helen Chapman were among Saturday visitors in San Angelo.

Health Is Study Topic Of Junior Club's Program

Sanitation, Disease Prevention Subjects For Discussion

Health will be the study topic at the next meeting of the Ozona Junior Woman's Club next Thursday afternoon at 3:40 in the elementary school building. This will be the fourth meeting of the current club season.

Mrs. Ted White will be the day's program leader. Civic activities in public health will be discussed under the following topics: "Modern Water and Sewage Systems" by Miss Wayne Augustine; "Safe Milk," by Mrs. W. E. Friend, Jr. and "Vaccination," and other preventive measures against communicable diseases by Mrs. Carl Dorley. A poem, "The Old Roller Towel," a reading by Mrs. Lowell Littleton and talks on "Vital Statistics" by Mrs. Hugh Childress, Jr., and "Health Examination" by Mrs. C. S. Denham will complete the program.

The club met last Thursday afternoon for a study of the novel, "Green Light" by Lloyd C. Douglas, with the president, Miss Hester Bunker, as leader. Discussions of the book were given by Mrs. Lowell Littleton and Mrs. H. B. Tandy. Miss Wanda Watson contributed a piano solo. A finance committee headed by Miss Wayne Augustine was named by the president to study and recommend activities to raise money for the club. Special attention was called by club officers to the constitutional provision under which members are automatically dropped from club rolls after three unexcused absences.

Star of Finland Led the Parade

As part of the annual Harbor day celebration at San Francisco the last of the old square rigged vessels on the bay, the Star of Finland, was decked out in flags and bunting and towed by a tug at the head of the gigantic marine parade. The Star of Finland is the old sailor which it is planned to buy and anchor at the waterfront for use as an old time sea museum. Here the square rigger is passing under the catwalks of the San Francisco-Oakland bay bridge.

How Calotabs Help Nature To Throw Off a Bad Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed. How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminators. It cleanses the intestinal tract of the germ-laden mucus and toxins. Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the system. Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds. Calotabs are quite economical—only twenty-five cents for the family package, ten cents for the trial package. (Adv.)

The new proclamation follows:
PROCLAMATION
 "By the Governor of the State of Texas
 "To all to whom these presents shall come:
 "On the 1st day of October, 1935, upon recommendation of the Board of Pardons, as Governor I granted to Jose Rodriguez, convict No. 79499, a full pardon from his conviction of perjury in the district court of Crockett County. As shown by the proclamation on file, this pardon was granted because, in the opinion of the board, the indictment was fatally defective and charged no offense, and, therefore, the said Jose Rodriguez was in law illegally convicted. That the clemency was granted on this ground is shown by the cases cited by the Board of Pardons set out in the proclamation.
 "In issuing the proclamation, however, the clerk preparing same inadvertently copied as part of the Board's detailed report on the case, excerpts of letters from private citizens, ex parte in nature and not based upon the record, wherein it was stated in substance that this man had been "railroaded" to the penitentiary. The record of the case shows, however, that the evidence was sufficient to support the conviction had the indictment been valid.
 "Manifestly, this unfortunate incorporation by the Board in its report of these letters of the man being "railroaded" was unfair to the officials involved, to the jurors who tried the case and the citizenship of Crockett County generally. They had no notice of any such statements being made in these letters and, therefore, no

opportunity to meet them. Therefore, as grave injustice was done to them, even though unwittingly by the Board, in incorporating such letters in the report.
 "Since the pardon was really granted because of the fatal defect in the indictment in the opinion of the Board of Pardons, and the matters set out in such letters were manifestly unnecessary and unfair, I feel it only just that such references should be stricken from the clemency.
 "THEREFORE, I, JAMES V. ALLRED, Governor of Texas, by virtue of the authority vested in me under the Constitution and laws of this State, hereby order and direct that all references in such proclamation to the letters referred to and the charges made that this man was "railroaded" be stricken and expunged from the record, that such proclamation be hereby withdrawn and this one substituted in its stead.
 "The full pardon heretofore granted is hereby ratified solely upon the ground that, in the judgment of the Board of Pardons and Paroles, indictment was fatally defective.
 "IN TESTIMONY WHEREOF, I have hereunto signed my name officially and caused the Seal of State to be impressed hereon at Austin, this 29th day of October, A. D. 1935.
 (Signed) JAMES V. ALLRED,
 Governor of Texas
 By the Governor:
 H. E. Stamford,
 Secretary of State.

Pardon Board—
 (Continued from page 1)
 the Governor granting Jose Rodriguez pardon upon the conviction had for perjury in that county.
 "The Governor accorded me a hearing in the matter and was glad to delete statements contained in the first order that reflected upon the integrity of the officers and our citizens of Crockett County.
 "Of course, the un-conditional pardon could not be revoked, and the Governor has done for us all that we can to rectify the aspersion against the integrity of our people, for which I am sure we all feel grateful.
 "The Board of Pardons, who do not constitute a Court, and who conducted the hearing in this case without notice to any of us, have decided the bill of indictment was defective. In that respect they may or may not be correct, I have submitted the indictment upon which Rodriguez was convicted to a number of eminent lawyers, among whom are some holding high office in this State, who do not believe the Bill was in any particular defective and that it was good and would have been so held to be by the Court of Criminal Appeals had they passed upon the issue.
 "It looks a little unfair to me for the Board of Pardons and Paroles to assume the duties of the Courts of the land, especially without giving all parties a chance to be heard, but since they assume that authority, there is left for me but to submit to the opinion rendered by them and look forward to the day when matters of law will be submitted to the Courts of the land instead of to some Board of Commission.
 "The law of this case was presented to the trial court, and it was his opinion the indictment was good. Quite naturally, I think he was correct in his judgment.
 "Had the first order of executive clemency alleged a mistake on my part only, I probably would have let the whole matter pass, as most any officer of the law must become accustomed to more or less criticism in the discharge of his official duties, but I could not overlook doing what I could to have corrected the charges made against the Court, the jury who tried this case and the citizenship generally of Crockett County. The Governor has seen fit to join me in this particular and has requested the newspapers who published the first order to retract all reflections upon the integrity of the court and our people.
 Yours truly,
 WEAVER H. BAKER,
 District Attorney.

Longer Lines in Ford V-8 for 1936

THE LONGER and more graceful lines of the Ford V-8 for 1936 are well illustrated in this view of the popular De Luxe Tudor Sedan. The new longer hood extends gracefully over the attractive new radiator grille. Wide streamlined front fenders, with an imposing flare, shroud the tires and house the horns behind chromium grilles. New design steel wheels with 12 1/4-inch hub caps are handsome and easy to clean. Bucket-type front seats are exceptionally comfortable. This body type, of welded steel like all Ford V-8 bodies, is also available without de luxe appointments at lower cost.

SPLIT TAX Payment Plan

State and county taxes for 1935 are now due and payable.

Citizens who feel that they will not be able to pay their taxes in full before the end of the present tax-paying period, should take advantage of the SPLIT-PAYMENT plan whereby half of the taxes may be paid on or before NOVEMBER 30 and the other half on or before June 30, 1936, without penalty.

However, your particular attention is called to the fact that the law provides that in order to take advantage of the split-payment plan, the first half taxes

MUST BE PAID ON OR BEFORE NOVEMBER, 30, 1935.

School Financing Study Topic PTA Program Monday

Session Also Observes 26th Anniversary of State Congress

The statement of Filene, "Few investments will bring greater returns to business than those made for lifting the general level of education," expresses in a sentence the study intended for the meeting hour of the Ozona P.T.A. Monday afternoon at 3:30 when emphasis is to be given "public school finance."

Program topic will be "Financing Our Public Schools."

Mrs. Paul Perner, P.T.A. historian, will be leader at the program hour. Pupils of the first grade, directed by Miss Elizabeth Fussell, are on the program to give entertainment numbers before the parents and teachers. Assembly singing will be led by Mrs. H. B. Tandy and prayer will be directed by Mrs. J. A. Fussell.

Two talks will be given concerning public school support and revenues and expenditures. Mrs. Evert White will speak on "The Development of Public School Support of Education," and Ira Carson, Crockett County school board secretary, will talk on "The Revenues and Expenditures of Ozona Schools."

Mrs. Madden Read will present the school news of current interest.

Monday's meet also will mark an observance of the 26th anniversary of the founding of the Texas Congress of Parents and Teachers. The occasion of the birthday observance calls for taking a free-will offering for use in extension work throughout the state.

Social hour will follow the program with hostesses Mesdames J. M. Baggett, Charles Condes, J. T. Keeton, Alice Baker, Johnnie Hokit and Arthur Phillips.

Justifies 18-Year Rule As Favoring Earnest Student

A message from Roy B. Henderson, athletic director of the Texas Interscholastic League, division of the University of Texas, to Superintendent Denham this week pointed out the favorable points in the new 18-year-old rule in high school football competition in Texas.

The letter pointed to the most desirable educational program through the 18-year rule where the pupil who follows the educational program (does not fail in his grades) is given the honor of representing his school in football and not the pupil who "is unable to keep in step with his fellows."

The rule is in effect next year.

Recreation Called 4th 'R' In Sketch Done By Carruthers

Recreation and its part in the curriculum of the modern public school is portrayed vividly in caricature in a recent drawing by Guin Carruthers, science and manual training instructor in Ozona High School.

The "fourth r" in schoolwork is presented in the sketch, reproduced from a drawing, by a scene of a school boy asleep, with a vision appearing before him. "Readin', ritin' n' rithmetic," the "Three R's," appear as books, while near behind and striding forward, a body formed by a baseball bat, baseball, football, basketball, etc., labeled "Recreation," appears. The sketch was done by use of a shading pencil.

New Geography And Physics Manuals Are Received In Schools

Geography and physics manuals have been received by the Ozona schools and were distributed to the various grades Tuesday.

Aids in course study, the work books are questionnaires over material already studied and call for intensive study in each divisional project. One of the latest adaptations to school room use, "dicto ink" is used in the printing of the manuals. The pages may be torn from the book and placed in a "hektograph" where the page, on being subjected to dampness, makes a duplicate of the printing on the sheet. Answers are required to be filled in for each of the questions.

Mr. and Mrs. Vernon Cox were visitors in Ozona yesterday.

Business Training Class Visits Bank For Study System

Freshman students of the junior business training course of Ozona High School, accompanied by Miss Mildred North, instructor, visited the Ozona National Bank last week and were shown through the offices. The visit is a marginal study for students taking the course.

Lowell Littleton, member of the bank staff, explained the workings of the system and showed the students through the vault. The posting machine, the check writing machine and other pieces of modern equipment were studied by the visitors.

Rowdy Hoover is confined to bed with an infection this week. He is at the home of his mother, Mrs. Laura Hoover.

Leaf tobacco being sold to highest bidder

United States Treasury Building

From 1900 up to 1934 the leaf tobacco used for cigarettes increased from 13,084,037 lbs. to 326,093,357 lbs.; an increase of 2392%

It takes mild ripe tobacco to make a good cigarette.

During the year ending June 30, 1900, the Government collected from cigarette taxes \$3,969,191

For the year ending June 30, 1934, the same taxes were \$350,299,442 an increase of 8725% — a lot of money.

Cigarettes give a lot of pleasure to a lot of people.

More cigarettes are smoked today because more people know about them—they are better advertised. But the main reason for the increase is that they are made better—made of better tobaccos; then again the tobaccos are blended—a blend of Domestic and Turkish tobaccos. Chesterfield is made of mild, ripe tobaccos. Everything that science knows about is used in making it a milder and better-tasting cigarette.

We believe you will enjoy them.
