### THAT'S ME\_

I'm the dumb chuck who always pays. No matter the place, size of the check or anything else, I always pay it. Doesn't make one bit of difference whether I'm obligated, suppose to or what not, I'm the one that pays. Nothing exactly wrong with my check grabbing habits. Infact it is far more honorable than the never pay check dodger. But lots of people play me for the chump and I always pay the check.

#### Care Is Urged In Celebration Of Independence Day

Austin, Texas, June 28, On July Fourth Texans will celebrate the One Hundred and Fifty-Seventh Anniversary of our National Independence. Thousands of people will lay aside their business cares and in various ways celebrate the occasion. The Texas State Department of Health believes in this observance but desires that it be as free from accidents as possible and have issued a warning in this connection.

Perhaps it is asking too much of "Young America" to insist that the use of blank eartridges, firecrackers, and other dangerous noise makers be dispensed with but certainly their use should be indulged in with great caution, If an accident should happen with any of the above articles, the first thought should be of lockjaw or tetanus. Every wound should be eign matter removed. Every puncture or lacerated wound should receive prompt attention, A doctor should be consulted at once and tetanus antitoxin administered if necessary. The use of this serum is a preventive of lockjaw. Care should also be used in case of

If swimming is to be a part of the day's activities, care should be taken to select a safe place.Of course pools that have guards are the safest places, but unprotected places will claim their number of bathers and those that cannot swim should be very careful and not venture beyond their depth. In case of accidental drowning artificial respiration should be started at once and continued until medical assistance arrives.

According to the Vital Statistics records automobile accidents always show an increase on holidays as there are more people on the road on those days. Care should be used in driving; keep on your side of the road, give the other fellow a little more than half the road, have lights all tested and inspect your brakes. If every one would drive carefully and practice common courtesy a large number of accidents and deaths would be avoided.

### SUNFLOWER CLUB

Mrs. W. E. Friend, Jr., entertained members of the Sunflower Club with a luncheon at her home here Tuesday, Mrs. Ashby McMullen won high score prize for the club and Mrs. William Swearingen guest high. Mrs. Gertrude Perry was awarded cut prize. Other guests were Mrs. Warren Clayton, Mrs. Tom Hunter, Mrs. J. W. North, Mrs. Arthur Phillips, Mrs. Jake Short, Mrs. Sherman Taylor, Mrs. Bob Austin of Fort Worth and Miss Hester Bunger.

Miss Inell Probst of San Angelo is here for a visit with her aunt and uncle, Mr. and Mrs. C. J.

Special Course In Animal Husbandry To Be Offered

Mohair At A.&M.

College Station, Texas, June 28 Educational opportunities for study of wool and mohair in arimal husbandry work that can be found at only one other college in the United States will be available at Texas A. & M. College with the opening of the Fall term, according to D. W. Williams, head of the department of animal husbandry at the college. In addition, this department will offer several other new courses that can be obtained at only a few of the nation's leading colleges.

Special wool and mohair labora tory equipment in the new animal industries building which will be completed at the college by Sept I, is owned by only one other college in the country and includes a psychrometric, or humidity and temperature control, room. This equipment will provide for studies of the microscopic structur of wool and mohair, and their chemical composition, production. preparation for markel, mark reports, comparison with other textile materials, measurement, grading, sorting, scouring, pullar ies, and processes of manufacture inte fabric

SAN ANGELO TELEPHONE CO.

# To the Customers of the OZONA WATER WORKS:

FFECTIVE immediately, we find it necessary to adopt the plan in use by public utility companies all over the country. In brief the plan is this:

- 1. All current accounts must be paid in full by the 10th of each month or customer will be subject to discontinuance of water service, together with a charge of \$1.00 for connection when bill is paid.
- 2. A deposit of \$5.00 will be required of each new customer.
- 3. Landlords will be held responsible for accounts of their tenants unless due notice of occupation and removals is made known to us.
- 4. People having private water supplies, and who desire our services occasionally will be required to pay a service charge of \$2.00 for each separate connection.

TO those customers who know themselves to be in arrears at the present time, we must insist that arrangements be made whereby we may be able to continue to serve them. There can be NO exceptions to this rule.

### Modern Electric Service . . . Partner of Industry

Modern transmission line electric service has played an important and vital part in the progress and development of West Texas. With a new period of expansion awaiting this territory during the next few years-this dependable, economical and elastic power supply is destined to play an an greater role in the industrial drama to be enacted here.

Electricity has been the equalizing force that has enabled progressive small towns to compete on an industrial basis with large centers of population. Because of the adequate, inexpensive power supply furnished to this territory by the West Texas Utilities Company, it is possible for West Texas cities to go after, and secure, the valuable payrolls of industrial establishments. Much progress has been made during be past ten years-and considerably greater advances will a made during the coming decade.

The West Texas Utilities Company, serving 161 progreswe cities, towns and communities in this "Land of Opporunity," will continue to work for the development of West Texas. With three major generating stations, nineteen auxilary plants, more than 2,600 miles of transmission lines and cores of office buildings and warehouses throughout the 150,000 square miles it serves-this company's future and ours are inseparably linked. Working together we will accomplish marvels of progress during the next few years.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule and adds only a small amount to your total bill?

West Texas Utilities
Company

FRIDAY
