Knott Farmers Open Fight For Bollworm Bill Long List Of Visitors Seek SETS NEW ALTITUDE RECORD

Support From Business Men Is Solicited

Two Representatives To Public Hearing Are Selected

PETITIONS STARTED

Committee To Consider Measure Monday At Austin

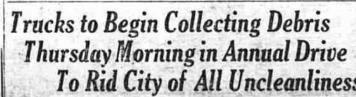

Farmers of northern Howard county, gathered at Knott school nday evening, named two repre sentatives to Monday's hearing in Austin on a bill asking appropria tion to repay farmers in the for-mer pink bollworm restricted district for losses incurred in meeting the regulations, which existed for more than two seasons.

Reece Adams and Charlie Bayes were named as the representatives Petitions were ordered circulated m every rural school district of Howard and Martin counties and a dozen men of the Knott commu nit were bury Tuesday circulating them. They appeal to the legisla

ture to pass the bill.

A representative of the Knott group here Tuesday solicited an-divided support of the bill by bust ness men of Big Spring, as well as

all farmers.

They're telling tales of witch-craft down in Mexican Town.

Small dolls with pins plunged in vital organs! A Mexican ill, asking that a woman, believed to be responsible for his affliction, be made to remove the "spell."

The tales, are varied, but are centered on the one Mexican woman.

It was just a few weeks ago that the Mexican became ill. He blamed his lilness on the wom-an He couldn't get well. It was the spell of witchcraft as cast by

the woman. Only the woman could remove it, and restore his health. So the woman was brought be-fore the man. If she could release him from the spell she had woven around him, very well. The man, and his brother, wanted just that.

While the woman remained with the ill Mexican, the brother went out scouting for witcheraft tokens, sie found them at the

woman's house.

Small dolls with pins stuck in them. Wherever the pin point touched, there would the victim of the spell suffer. The Mexican

didn't feel well all over, so the doll with the most pins in it was

After the woman visited the man improved. He said he did. He improved to such an extent that he pleaded with the woman to remain until he was entirely freed from the cords which had been strung around him. But the woman wouldn't remain.

They say the brother was going to force her to, but the officers prevented.

At last account the man was still "rather puny."

buys a RIVERSIDE

buys a RIVERSIDE Think of it-every four seconds, 16 times a minute, 960 times an hour, somebody, somewhere buys a Riverside! Right now, while you're reading this sentence, two Riversides are being sold to shrewd buyers! Millions Are Now Giving Satisfactory Service For twenty years, Riversides have been piling up millions and millions of miles of satisfac-tory service. They've proven their worth. Year after year Riversides have been improved and refined until we now back them with The Strongest, Fairest Tire Guarantee Ever Given Anytime, Anywhere Just read it for yourself—"Every Riverside tire is guaranteed to give satisfactory service without limit as to time or mileage."
And as you read that guarantee, remember that the name of Montgomery Ward stands back of every word—and you know what THAT means. No tire manufacturer in the world can offer more—so why pay more? Save as Much as 35 % on Riverside Tires TIRE MOUNTING Compared quality for quality—against other well known first quality tires, Riverside prices save you as much as 35 per cent. And further-SERVICE Ward's Guarantee that Can't Buy Better Tires Than Prices Are Now the Riversides Regardless of the Lowest in Years-Price You Pay! And if you buy in PAIRS, prices are 4-PLY RIVERSIDES even lower! Just a word of cautiondon't let anybody quote you prices on second line tires against Each 30 x 31/2 Cl. O. S. \$1.49 \$8.74 Riversides-because RIV-30 x 4.50\$5.69 \$11.10 ERSIDES ARE FIRST QUALITY TIRES — and \$12.96 29x4.40 6-ply \$16.60 should be compared ONLY 6-PLY RIVERSIDES \$7.15 with first quality tires. 30 x 4.50\$7.48 \$14.50 \$16.10 29x4.40 4-Ply \$19.90 \$22.30 32 x 6.00\$11.50 \$4.95 All other sizes at proportionately low prices

found a real buy. Lowest Prices Chevrolet 1928 Ford Sedan, 1929 Roadster Has been used only a few months, and is in A-1 con-dition throughout. Tires, motor and upholstering are right. A model that will give lots of satisfactory serv-ice. Come in and look it \$325

OF THE

Another Commissioner?

THE biennial discussion of measures proposing some type of Texas continues in the legislature. Petsch bill, which original introduction in the house, has been changed to some extent, proposes setting up a public utilicommission of three members. Procedure, power and methods would be similar to those of the railroad commission.

That there are times and places where regulation of utilities in some manner is necessary is natural. No industry falls at some time or other, in some local or ter-ritorial case, to become entangled with the governing officials of the city, county or state or with private individuals in such manner as to make appeal to the courts or some other method of adjustication

But, whether a public utilities Houston Post-Dispatch:

salaries annually to the state pay-likelihood, is erroneous.

strong and modern their physical its popularity. rties may be, their of the public is lacking.

values for rate making purposes is into revenue producing pr perty, an extremely intricate procedure, creating a demand for materials Our apprehension of the usefulness running into the millions of dollars of a commission such as proposed in in value annually, and giving em the Petsch bill lies in the fact that ployment to thousands, here is no danger of commissioners being un-reason why miniature golf should be acquainted with the real facts of regarded as a passing fad. Surely, the public utility industry would it has enough of worth in to assure make the commission more of a lts permanency. trouble-maker than a protector for

The public must, however, be protected. So must the utilities, from them their property, and rights as property owners. Public opinion, exercised wisely,

is the most powerful agency for settling any difference between customers and utility companies. Public opinion always exists. The courts always exist. These facts ducer, after all these months, are name of her nearest relative, a sistend us to believe creation of a still more or less up in the air ter, Mrs. M. M. Leonard, Washingcommission, at such high cost, at this particular time, would be It must be remembered that de-

velopment of the resources of West Texas has been quickened and broadened broause of the vision and foresight, and the sheer pioneering spirit of the utilities. When oil was struck in Howard and various other counties the utilities, were ready and waiting to furnish the power to operate rigs ready part p stations and refineries economically. Hundreds of towns and hamlets

of West Texas enjoy conveniences and economies unheard of even ten years ago because of improved BARRY NORTON double or triple methods of transporting electric abooting of versions with foreign

mathods or transporting electric power and natural gas.

The utilities represent big business, true enough. Big business, honestly and conscientiously manned, builds empires. Big business, unscrupulously operated, enslaves the people.

We do not fear for the welfare of the people of West Texas in their relations with the public utility companies now operating so long as their methods are such as have been practiced in the past decade, within which practically all the expansion and extension of utilities has occured in this section.

But, if circumstances arise in lotal cases, or even over the entire reirion wherein the public feels it illms to be blased from foreign

region ,wherein the public feels it films to be hissed from foreign is not being treated right, the courts screens, a reception accorded also can be resorted to, with public to the amateurish attempts of ceropinion b "d the plaintiff's .c... tain Hollywood stars to master othand without adding several hundred thousant dollars a year to the
state pay roll.

And there also is the considerathis upinion that Europe, regardless

Editorial

KNOWLEDGE

its being first received, when it fills us with wonder and joy; a have all hear; that an empty head joy for which, observe, the previous ignorance is just as necessary as the present knowledge. That man is airyays happy who is in the second place, some word is airyays happy who is in the second place, some word conversation might cause untolled came out another and the presence of something which he cannot know to the full, which he cannot know to the full, which he is always going on to know. This is the necessary condition of a finite creature with divinely rooted and divinely directed intelligence; this, therefore, its happy state-but observe, a state, not of triumph of joy in what it knows, but of joy rather in the continual discovery of rather in the continual astonishment. Once thoroughly our own, the knowledge ceases to give us pleasure. I may be practically useful to talk to someone over the was forced for usery to obtain more; but to talk to someone over the was forced for usery to obtain more; but to us, it may be good for others, or good for usury to obtain more; but to us, it may be good for others, or good for usury to obtain more into the color which it had when first we draw it up out of the infinite sea. All mon feel this, though they do not think of it, nor reason out its consequences. They look back the days of relatest wonder, great est happiness, because those were the days of greatest wonder, great est happiness, because those were the days of greatest wonder, great est happiness, because those were the days of greatest wonder, great est happiness, because those were the days of greatest wonder, great est happiness, because those were the days of greatest wonder, great est happiness, because those were the days of greatest wonder, great est happiness, because those were the days of greatest wonder, great est happiness, because those were the days of greatest wonder, great est happiness, because those were the days of greatest wonder, great est happiness, because those were the days of great scious, rather of infinite ignorance and yet infinite power; a fountain of eternal admiration, delight, and creative force within him meeting the ocean of visable and governable things around him."

All school students should find

All school students should find joy in learning new things; each days lessons should be a pleasure an interesting program on the to study rather than a drudge. Life "Land of Cliff Dwellers."

Last Monday Paul R. Franke, naturalist for Mesa Verde park gave an interesting program on the such a magnetic soul. Think what a break the governor would truly be dull if there was no prospect of finding out new and different things. Even after leaving high school and college, students will learn from experience all the interesting and pleasurable the interesting and pleasurable of twenty-three national parks and process and representatives so they were compensated.

the interesting and pleasurable things of life.

And one way of getting the most out of all that one studies is to read more. Some of the most interesting aubjects are thoroughly explained and discussed by Ruskin in his escays. They are short and will take just a little of your time to read—so ask for them the next time—u go to the library.

LOQUACITY

His next picture was the showing of twenty-three national parks and this section are located the twenty-six remaining Indian villages in the United States. . ictures were shown of Mess Verde park, where one finds vast gorges and twenty-six tremendous canyons. He said people lived here about 779 A. D. and that most of the city and people vanished by 1299 A. D. Other pictures of interest were shown.

Along in this section are tocated the twenty-six remaining Indian villages in the United States. . ictures were shown of Mess Verde park, where one finds vast gorges and twenty-six tremendous canyons. He said people ivanished by 1299 A. D. Other pictures of interest were shown.

Along in this section are tocated the twenty-six remaining Indian villages in the United States. . ictures were shown of the Yellowstone Park, and will take just a little of your time to read—so ask for them the next time—u go to the library.

Along in this section of Mess Verde one finds apartment houses where as many as eight hundred people dwell.

Old roads were shown, and it was said that only one wagon could fault. One fault in particular, which we are sure no person is without, if remedied or even modified, would destroy the reason for much regret and sorrow. This short-coming can be termed garrulity or locuacity. It am unts to nothing more than tellting too much. To be sure. "must talk; even the lower animals seemingly speak among themsalves. However, entangularly and modification and division and of retien also from the Indians. It is also from the Indians the most also from the Indians the most also from the Indians.

And another thing! May we ask just where everyone happened to be Friday night—especially the Seniors? Georgia Lady Tells How She

Got Well and Strong After

Taking Cardui.

Augusta, Ga.—Mrs. Lizzie New-some, 1830 Greene Street, this city,

says she is "delighted" to tell about

her use of Cardui because she be-

poor," writes Mrs. Newsome. "I was a pale and sickly girl, suf-fering constantly with backache.

My strength seemed to give out. "Mother had taken Cardui her-

self and had been so greatfy bene-fited by it that she thought of it

as the very medicine for me. It brought me right out, and after I had taken it awhile, I felt fine.

"After I was married, I was run-down and needed something to build me up. I was weak and had to drag myself to my work. I suffered from shortness of breath

"I remembered how much good Cardul had done me before, and started taking it again. I took eleven bottles of Cardul. I got

well and strong again, and ceased having any ache or pains."

FOR OVER SO YEAR

and backache.

lieves it helped her so much. "Six years ago, my mother gave me Cardui because my health was

Is Artist, Man or Woman? Visitors May Do Deciding

In the Texas Art Exhibit to be held Thursday afternoon in the basement of the Presbyter-ian Church, the artist who is the member of most art so-cieties, has won most awards, is pupil of most teachers, who, in brief, has the most said about in brief, has the most said about him or her is E. Richardson Cherry, of Houston, Texas and Paris, France. No relation probably to the former Big Spring Cherrys.

The picture is called "Across the Valley," and sells for \$400.

Exactly whether he is a man or woman, one can not be exactly certain, from the account probably a woman. Any visitor to the exhibit is free to decide for himself or herself, after having seen the picture.

· · Blending makes it better

IN the test kitchen of a great soup maker, the gifted master-chef creates the blend of ingredients to produce the perfect soup. In a scentladen room in a corner of France an expert blender of perfume invokes his highest genius that our sense of smell may be gratified. In a work-room fragrant with the aroma of many types of coffee beans, a highly-paid specialist concentrates his energies that we may be provided with a coffee blend to please our palates.

Whether it's soup or soap, tobacco or tea, music or mustard... blending is vital to the production of the best of each. Equally as vital, if not first in importance, is the knowledge and genius of the blender. He must know how

The best gasoline, too, is blended. In the processes of a modern refinery three types of gasoline are produced. They are, Natural Gasoline, Straight-run Gasoline, and Cracked

Gasoline. Each possesses certain desirable qualities necessary for perfect motor operation...but...no one of them possesses all these wanted characteristics.

So Conoco Gasoline is a blend of the three. There is Natural Gasoline, to give quick starting. There is Straight-run Gasoline, to give power and long-mileage. There is Cracked Gasoline, with its desirable anti-knock quality. Just as carefully as the perfume blender at his delicate task, Conoco refiners have developed their balanced blend of these three ingredients. Theirs is the gift of knowing how to merge the qualities of the three gasolines to create a balanced, triple-test fuel. One brand of coffee outsells all others because of the expertness of its blender.

And so, with Conoco Balanced-Blend Gasoline, the skill of the blender accounts for the popularity of the product. Stop today at the sign of the Conoco Red Triangle and have your gas tank filled with this botter motor fuel.

CONOCO

J labeled "Profit," wrapped in labor at fair wages and quality merchandise at fair

Those who would profit themselves should re-cognize as fundamental the urge to pay a profit

Cheap price is usually the result of a bank-ruptcy or a positive bid for that unhappy stat its chief function bein; demoralization.

What Big Spring peo-ple need more than cheap prices, price cut-ters, and their offters, and their off-spring- demoralization —is an intelligent and constructive program, not based on selfish-ness, but rather on a desire for the better-ment of all.

The spirit that would cause Big Spring and Howard County autoists to crowd Cosden pumps like ants at a sugar bowl, would make Big Spring the prosperous, growing and happy community trade-center it is rightfully entitled to be.

Cosden Liquid Gas is in truth premium gasoline at no extra cost, and its use is no less than an intelligent effort to better our economic condi-tion as a whole.
