Hardeman Closes Series Of Bible Lectures Here With Meeting Tonite; Large Crowds Hear Daily Addresses

Increasing Interest Shown In Vitalized Discussions Of Biblical History Brought By Master Orator

The Hardeman lectures, which have been in progress at the Church of Christ here during the past week, will close tonight when the Tennessee speaker addresses Church members and visitors at 8:30 for the last time on the current Bible lecture series.

An increasing pace of interest has developed among the large number of lecture-goers since the visiting Bible teacher began the series of scripture-revealing addresses Wednesday night, a week ago. During the minister's stay here, he has revealed a Biblical narrative of simple truths rather than a complication of religious dogmas, and has won to his hearing a large group of listeners returning for day and night services.

Hardeman Meet Attracts Many Visitors Here

Tennessee Lecturer Is Pleasing Throgs from Neighbor Towns

The Hardeman lectures which have continued here for the past week have attracted many visitors for the night and day services.

Among those here were Judge and Mrs. James Cornell of San Angelo, Monday night. Mr. and Mrs. W. L. Sellers and their two daughters, Doris and Johnell, and their son, Jack, have been guests of Mr. and Mrs. L. N. Moody during the past week and have attended the lectures. Their home is Coolidge.

Melvin Wise, minister of Big Spring and now in a revival at Iraan, was a Sunday afternoon visitor.

Mr. and Mrs. Robbins of San Angelo, visited here Sunday night and attended the lectures.

Attending the daily and night services of the Hardeman addresses here for the past week, Mr. and Mrs. J. G. Hufstедler, parents of Ross Hufstедler, have been visiting in their son's home in Ozona. Mr. Hufstедler's parents reside in Abilene.

Charles Dugger, son of Mr. and Mrs. Charley Dugger, is visiting here together with his parents from Abilene.

Mr. and Mrs. Hampton of Iraan were Sunday meeting attendants.

Sunday visitors in Ozona for the church addresses were Dr. and Mrs. E. O. Deal of Merton.

Mr. and Mrs. R. H. Moos and their children from San Angelo drove to Ozona Sunday for the morning services and were among the guests at the noon barbecue at the rodeo grandstand. J. D. Nairn, former Ozonan, accompanied the San Angoleans here Sunday.

4 Ozona Scouts Remain In Camp At Louis Farr

Local Troop Sets Pace In Copping Many Camp Contests

Four Ozona Scouts, Grover Jones, Howard Lemmons, Maurice Lemmons and Clifton Taliaferro have remained over at Camp Louis Farr this week where Concho Valley Council summer Scout session is in progress.

Richard, Miller, son of Mr. and Mrs. Richard Miller of Ozona, returned from two weeks of Scouting at the Louis Farr Camp and with seventeen merit badges to his credit toward the coveted Eagle Scout rank, which is bestowed upon the passing of the twenty-one required merit badge tests. The Ozona youth took up Apache bead work while in camp and has returned home with apparatus for making pattern work in beads. He was the only youth in the camp

New Bonus Army in Los Angeles

War veterans in Los Angeles responded quickly to a call for the formation of a new bonus army to go by automobile to Washington and plead for immediate bonus payment. In the picture Royal W. Robertson—at right, wearing a veteran's cap—is seen enrolling members of the army.

Nature Fashions Name Of Ozona In Freak Growth—If You Use A Little Imagination

It all happened by accident, as such occurs to curio collectors, that A. W. Jones has collected in his curio shop the letters (limb growths from trees) which spell "Ozona."

The "letters," ranging from a three-inch "A" of mesquite, to a two-foot high "A," "N," and "X," are of four kinds of trees. But—there isn't any "X" in Ozona. Correct, unless you spell it like it sounds.

For example, "Xerxes." It is pronounced "Zerkxes." So, "Xona" must spell "zona," which is the way half of the citizens pronounce it.

The saddle shop owner is not in the market for oddities but there are plenty of donors who have contributed to his curio shop. He was given three of the wooden letters, but a Mexican lad asked 25 cents for the almost perfect "A," latest addition.

Stock Law To Be Enforced Here By Pound Keeper

Owners Of Animals Running at Large Subject To Penalty

Because of annoyance of loose cattle in the vicinity of the town since rains caused abundant grass and weeds to come up, the county has arranged for pound facilities and has named two Ozonans to keep the streets and yards ridged of stray stock.

Strays are to be picked up and penned in a lot north of the downtown section and charges of \$1 are to be assessed for each head of stock found loose.

During the past three years Ozona has not required the services of a pound man but heavy rains this spring brought such an abundant supply of green growth that the town has been annoyed lately with grazing stock.

In addition to the pound fees, owners of animals left to run at large are subject to a fine, county officials said. Stock must be staked or in the pen, with loose herding not permitted, it was announced.

\$100 Cash Prize Winners Named; Plan Suspended

Mrs. Mike Couch was awarded the first prize of \$50 in the merchants monthly \$100 cash award here Monday afternoon. The second prize of \$35 went to John Bowers and the third award of \$15 went to Joe Couch, son of Mr. and Mrs. Bert Couch.

The first prize ticket was given away by the Ozona Laundry, held over from the previous month's contest. The second prize winning ticket was from the Slaven Magnolia Service Station and the third was from Joe Oberkamp's.

The monthly cash prize award will probably be suspended for a month or so, or until fall, unless other plans are adopted.

C. B. Beel, manager of the Bell Ice Company here, was called to Rule, Texas, last week on account of the serious illness of his mother.

Donkeys Win In Comedy Baseball Contest Monday

Four-Legged Kind Conquer Riders In Fun Festival

Donkeys, the four-footed kind, took the lead early and held it consistently to win easily over riders for both teams in a matched donkey baseball game here Monday afternoon between teams selected from Ozona and Sonora, the Lions Club sponsoring the event.

Assigned to base running duty solely, four trained donkeys succeeded in unseating practically every player on both teams at one time or another during the seven innings of hilarious comedy. Once mounted, any one of the quartet seemed fairly willing to let by-gones be by-gones, but it was in the mounting process that action aplenty took place.

The Sonora team was able to coax the recalcitrant donks around the bases with more dexterity than the local aggregation and emerged with a count of 5 tallies to win the game. Not a local rider was able to push his mount around for a score. A return game with the Sonora team, scheduled for Tuesday afternoon in that city, was rained out.

New Applications For HOLC Loans Now Acceptable

Home Owners May Get Federal Financing For 30-Day Period

According to the amendment to the Home Owners' Loan Act, signed last week-end by President Roosevelt, HOLC offices may accept for a period of 30 days new loan applications.

N. W. Graham, local attorney for the Home Owners Loan Corporation, reports that no application has been made here this week.

Ten loans were made here under the federal corporation's initial apportionment. Six applications were left pending.

Slow, Soaking Rains Deepen Range Moisture

1.7 Inches Here This Week Pronounced Best Rain of Season

Slow falling rains that have been reported general in this section began falling in Ozona Monday night and through yesterday evening had amounted to 1.7 inches. Tuesday .9 inch was recorded and yesterday brought another .8 inch.

Although the moisture fell merrily most of the time, a well soaked ground allowed enough water to drain from the water shed north of here to bring down a bank-full stream in Johnson Draw last night. Yesterday afternoon a heavy rain was reported to the east of here.

Such abundant rainfall has been received in Crockett County that grass has been reported to be seeding in parts and weeds are abundant everywhere.

The last two rains brought the total fall of the year here to 12.21 inches since January 1. Inadvertently, in listing Ozona's rainfall in last week's issue of the Stockman, a one-inch rain on May 10 was omitted. The total last week was named at 9.51 and should have been 10.51.

Lady Golfers Pair For Tournament On Baggett Golf Course

Pairings have been completed for a golf tournament among lady golfers of Ozona, with play to start as soon as rains let up sufficiently to allow play on the Baggett course.

Miss Ethel Childress is paired for the first round with Mrs. Gertrude Perry, Mrs. Warren Clayton will mix it with Miss Rachel Schraeder for the opening go and Mrs. Carl Dorley and Miss Mildred North are matched for the initial saunter. Mrs. Clyde Newberry, seventh entry in the tourney, draws a bye.

Mr. and Mrs. Hugh Gray have returned from a trip to central Texas. Leo McDowell, a nephew, accompanied them to his home at Fort Worth.

Court Studies Plan To Clean Johnson Draw

Residents Petition For Action To Prevent Flood Overflow

A topic for consideration but not crystallized by definite plans, the proposal of removing the concrete debris from Johnson Draw was discussed at the Commissioners Court session Monday. Study of the problem followed a recent petition signed by 225 residents for the removal of the concrete slab, erected for a foot bridge across the Johnson Draw, but which has broken away and become a handicap to the draining of the area during flooding deluges. The slab forms a dam and prevents speedy disposal of water down the stream when heavy rain-falls come north of here, and endangers homes in the area besides dividing the town temporarily.

From court discussions it was learned that by some means and at some early date, steps will be taken to rid the stream of the slab. An application was made last year to works relief engineers in Texas for a loan to consummate such an end but the loan was not granted.

Applications for continuance of the sewer project and for the maintaining of names on city streets here are filed with the works relief officials.

FIRE FIGHTING EQUIPMENT IS MODERNIZED

New Pumper Truck Is Accepted By Commissioners

TO CUT INSURANCE Old Truck Reconditioned For Use As Chemical Truck

With the Crockett County Commissioners Court meeting in special session Saturday and accepting the new fire truck and equipment brought to Ozona last week and with arrangements in progress for the reconditioning of the old model "T" Ford chemical truck, Ozona has been given boosted protection against fire hazards.

The new and modern fire truck was brought to Ozona last week from Dallas and was accepted as "O.K. in all respects" by the Commissioners Court. Truck and equipment have been turned over to Joe North, fire chief, and the fire fighting apparatus has been housed in the newly arranged quarters in the North Motor Company building. An automatic upward folding door has been provided for the entrance to insure a quick get-away.

Outfitted and completed by the American Body and Equipment Company, the truck is of Chevrolet manufacture with equipment by the body company which include ladders and hooks, centrifugal high pressure water pump, axes, lanterns and hose. Total cost of the truck and equipment was \$1945. A suction hose has been ordered and will arrive in a few days.

By reconditioning the antiquated fire truck, Ozona's fire insurance rate will be reduced further, in addition to credits earned with the new pumper. The old truck will be equipped with adequate chemical containers and hose and will be used supplementary to the larger truck.

12 Mexicans Fined On Gaming Charges As Result Of Raid

Twelve residents of the Mexican quarters were surprised Tuesday evening when Sheriff W. S. Willis made his advent into their midst. The sheriff found the twelve gambling.

Taken into Justice of the Peace Bill Johnigan's court yesterday morning, the men were each assessed fines of \$1 and court costs, amounting to \$14 each. Three paid fines and nine made bonds.

The gaming rendezvous was in a vacant house and dice and cards were being used. In evidence, the Ozona sheriff seized a good supply of tattered cards, chips and a money box used in the games.

Mr. and Mrs. Billy Montgomery are the parents of a boy born Monday in Houston.

NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

AUSTIN, June 5—The action of the supreme court of the United States in voiding certain vital essentials of the New Deal program is the biggest news in Texas, as elsewhere in the United States, that has broken since the European war. It is destined, many observers here believe, to have far-reaching economic and political reverberations in the Lone Star state.

The action of President Roosevelt, Josephus Daniels and other Democratic party leaders in advocating a revision of the constitution, immediately after the momentous decisions of the court, indicates that the political future of the Democratic party is to be profoundly affected, for one thing.

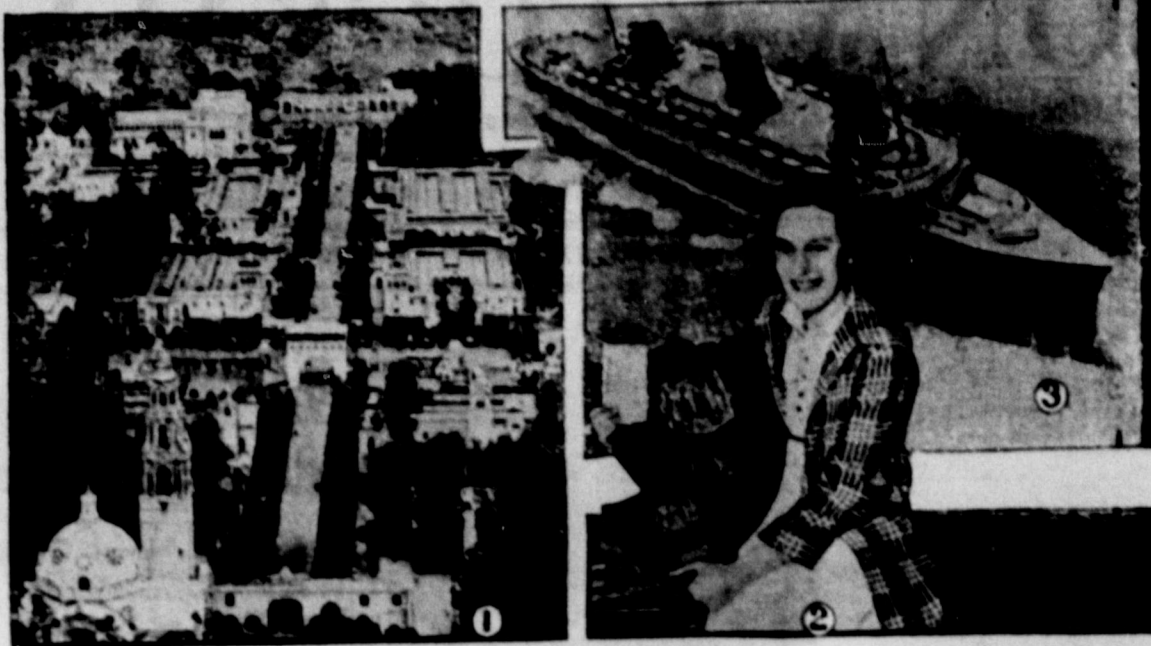

Any important Democratic development obviously will affect the people and the political leaders of one of the largest and most loyal of Democratic states. Texas' two senators and her many congressmen, all Democrats, must of necessity participate actively in whatever aftermath the court's momentous decisions may have. Texans today are unquestionably living in one of the most dramatic hours of the history of the American republic.

On the economic side, Texas business, along with the business of the remainder of the nation, must be profoundly affected by the court's NRA ruling. The NRA decision was so broad in its implications, as the president pointed out, that many other New Deal agencies probably will be affected. The AAA program, its sponsors admit, will have to undergo important revisions to make it conform to the court's interpretation of the constitution. Texas farmers have received more in government-paid benefits under the cotton program than husbandmen of any other state; their economic condition has been improved by the indirect effect of the AAA program on commodity prices to an even greater extent. Texas farmers also have shared largely in the wheat, cattle and corn-and-hog programs.

Obviously, oil—Texas' greatest cash crop—will be affected. The NRA decision has definitely killed the Thomas oil control bill in congress, which Gov. Alfred, Rail Commissioner Thompson and Atty. Gen. McCraw opposed. The state has launched upon a production control enforcement program, utilizing the new legislation passed by the session just ended. Illegal oil has been seized and sold for the benefit of the state treasury. The Connally hot oil bill, the essence of federal control in interstate commerce, is not affected by the adverse NRA decision, having been re-enacted to meet constitutional objections, and Austin officials are hopeful that this and a strong program of enforcement under state conservation laws, will keep the oil situation under control. But some oil operators admittedly were cowed into observance of state laws during the past few months by a threat of complete federal control as an alternative. Will they stay "in line" now, and is the state conservation program sufficiently adequate to prevent collapse of proration? These are questions raised by the NRA decision that are of vital import to Texas and Texans.

Other lines of business in Texas, too, have an interest. If there is to be no NRA, must Texas business return to the old dog-eat-dog competitive basis which was abandoned for NRA? And if so, will the state's anti-trust laws—

Scenes and Persons in the Current News

1—Aerial view of part of the grounds of the California Pacific International exposition at San Diego, now open. 2—Clara Mohler, thirteen, of Akron, Ohio, who won the national spelling bee in Washington, receiving two plaques and \$500. 3—Normandie, new French liner, which broke transatlantic records on her maiden voyage to New York.

virtually abandoned during NRA's regime—control again? The very existence of the Texas anti-trust laws has been brought into question by the decision of the court of civil appeals at Austin in the anti-trust suits brought by Gov. Allred against the major oil companies. The district court held the suits were without merit, because the NRA has superseded the state anti-trust laws. On appeal by the state, the appeals court held the anti-trust laws were unconstitutional. The state supreme court must review the case, and its decision doubtless will be affected by the fact there is no longer any NRA.

Pending litigation testing out the validity of the Tennessee Valley Authority project is yet to be decided by the U. S. supreme court. The viewpoint expressed by the court in the NRA and other cases does not lend an optimistic aspect to the TVA test. And in the Colorado River Authority, Texas has a closely parallel project, which promises to give work to 5000 men, develop a great natural resource, and lower electric rates substantially throughout the whole central area of Texas.

Texas, too, doubtless will have an enormous stake in the four billion eight million work-relief program, with state, counties, cities, school districts and other governmental units preparing applications for millions of dollars of the fund. There is certain to be a greater cleavage of opinion in Texas, as elsewhere, over the doctrine of state's rights, than there was over Woodrow Wilson's program of international relations. Every intelligent voter in Texas within another year or two may have to decide whether he shall follow Franklin D. Roosevelt or go back to the ways of the founding fathers. It is going to be one of the most interesting and exciting periods in the history of the United States.

METHODIST CHURCH NOTES

The last of three sermons on "Faith in Modern Life" will be preached Sunday morning, on "The Fate of Faith." At the night service at 8 o'clock the pastor will preach on "The Poverty of the Saviour and the Wealth of the Saved."

We had the best Sunday School attendance last Sunday since the close of school. The pastor organized a young people's class for the summer with Billy Baggett, president, and Carolyn Montgomery, secretary.

Besides the 1935 class of the Ozona High School, the following colleges were represented in the class: Texas A & M, Baylor, C. I. A., Southern Methodist University and the University of Texas. Other young people, and especially high school graduates and college students home for vacation are invited to join the class next Sunday.

Brewster Mines Put Texas 2nd In Annual Quicksilver Output

AUSTIN, Texas, June 12—The Terlingua district, in Brewster County, has for most of the last 35 years placed Texas second only to California, with its numerous districts, in annual production of quicksilver within the United States, according to Dr. E. H. Sellards, director of the University of Texas Bureau of Economic Geology.

"The outcrops of the quicksilver ore bodies in the Terlingua district, stained bright red by iron oxides, long served as a source of pigments to the Indians, but it was not until 1884 that the presence of quicksilver is known to have been recognized," he said. "Mining began about 1896, and production has continued ever since. Activity has persisted there through the depression with less curtailment than in many of other mining camps of the country. "The silver ore deposits of the Shafter district, in Presidio County northwest of the Terlingua

area, were discovered in 1880 or 1881, and except for a shutdown during the period of low silver prices in 1930 to 1933, the principal mine, the Presidio, has been continuously productive from 1885 to the present time. This long record of successful operation and the great extent of the workings place the Presidio mine among the principal silver mines of the country. Here a series of irregular but interconnected masses of oxidized ore, containing silver and comparatively trivial amounts of gold, lead, and zinc, have been mined. A total of more than 23,000,000 ounces of silver has come from this mine. In spite of its large production, the Presidio mine is relatively little known because of its comparative isolation.

"The foundation for geologic work in both districts was laid nearly thirty years ago by Dr. J. A. Udden, former director of the Bureau, in reports published in bulletins of The University of Texas, Dr. Sellards pointed out.

"Several later geologic studies have been made in these districts, and last year an allotment of funds from the Public Works Administration enabled C. P. Ross, a geologist of the United States Geological Survey, to make a study of both districts sufficiently complete so that the final report will carry detailed geologic maps of the mineralized areas of that part of Texas. Such maps constitute an invaluable aid in prospecting for extensions of known lodes or for undiscovered ore bodies, Sellards said. Preliminary reports have been published by the Bureau of Economic Geology, which will also publish the final report in conjunction with the United States Geological Survey."

Louisiana Residents Sought Entry Into Texas Province Under Spanish Rule As Louisiana Passed To America

Bexar Archives Reveal Recital Of Many Novel Reasons Offered

AUSTIN, June 12—As soon as Louisiana became an American territory many of its settlers—some of whom were rich and influential—made ready to cross into Texas where they hoped to find the same paternal treatment they had hitherto enjoyed under the government of Spain. Some of these were single men seeking adventure; some had families for whom they wished to provide.

Among the most interesting cases noted in the documents that are being translated from the Bexar Archives in the library of The University of Texas is that of Daniel Boone—a nephew of the famous American frontiersman who in June, 1806, wrote from Atascosito, Texas, to the governor as follows:

"I, Daniel Boone, a native of Carolina, a citizen of Opelousas, Louisiana, for twelve years, and, at present in this post (with the greatest possible respect), declare: That I have come to this post with my family and goods because these lands have passed into the possession of the Anglo-Americans and it does not suit me to live under their laws. I come to seek your protection in order that, if you consider it well, you may order surveyed for me a town lot as well as lands for farming, since this is my occupation."

The motive that urged others on was something different, sometimes manifold, as is shown by the petition of the representatives of a band of a thousand who a little earlier had written the commandant general as follows:

"The reasons which may move your kind heart to accede to our petition are first and foremost religious reasons. For love of religion, we came to settle in Louisiana, where our children have been born and educated and where we have hoped to live and die; but your kind heart can not permit us to remain in a land where religion is a matter of choice and where its observance is looked upon with indifference.

"Also, since we have experienced the great kindness and friendship of the Spanish government, we desire still to be under its dominion and protection so much that we will shed our blood for it and for its defense, leaving our descendants to the care of its pious king.

"The third reason is that the king, our sovereign (may God bless him) has expended large sums from the royal treasury for the benefit of these same vassals, bringing some of them from the Canary Islands, others from Acadia, others from Canada, others from Germany, and others from France and Spain; and, now, that they can repay this favor with personal service and property—

a service for which they gladly offer themselves—it is not possible that he will abandon them to a foreign power.

"With the passage of time it may happen that his Catholic Majesty may have some disagreement or wars with the Americans as a foreign and aggressive power; and we do not desire to bear arms against a king so good and kind, who has loaded us with benefits we are unable to return; nor do we wish to use a knife against our brothers, the Spaniards whose absence we regret and whose withdrawal has been exceedingly painful to us.

"If this large number of persons leave Louisiana for your provinces, it will greatly weaken the strong neighboring American government and will greatly increase the royal interest of our sovereign; since it is probable that the kind reception given them and permission for the coming not only of these thousand families but of many more—and these the most influential of the said province—will make this poor unsettled Province of Texas rich, populous, and fruitful.

"This large number of people being settled, the invasions of the Indians who constantly harrass this neighboring province—because they see the region so un-

settled—will end. At the same time, the expenses of the royal treasury will cease, as much because the Indians will be restrained as because of the large number of troops kept on the frontier can be reduced.

"Since they will have their families and goods and possessions in the country these people will necessarily defend it at all times and fight with all possible vigor and determination because there will be involved not only the sovereign's interest, but also their own.

"You must consider very carefully how many of the advantages to the crown will result if a port is opened for them. They will bring to these lands of the king many articles of commerce. Therefore, all the Interior Provinces—and especially these in the East—will be supplied for the landing of vessels.

"We desire our wishes laid at the feet of the King and trust that he will not scorn his faithful subjects."

Pecos, already justly famous as the home of the world's first rodeo, held back in 1883, will throw open its doors to the large crowd of performers and spectators who will throng the city for the celebration.

The largest puses ever offered in this section are being posted, and the sums are already drawing some of the best talent in the Southwest. Expert ropers, daring bulldozgers, and trick horse riders will give visitors the most thrilling exhibition of skill ever seen here.

Federal Land Bank Announces Cut In Rate Of Interest

Notice of reductions in the interest rate on loans made by the Ozona National Farm Loan Association has been received by N. W. Graham, secretary-treasurer of the unit here, from A. C. Williams, president of the Federal Land Bank in Houston.

The reduction is to 3½ per cent on all interest payable in the one year period commencing July 1, 1935, and to 4 per cent on all payments in the two-year period beginning July 1, 1936.

The original rate was 4½ per cent and it will be this rate that interest will be charged after July 30, 1938. Some of the loans made prior to April 1, 1935, also have interest rates varying from 5 to 6 per cent.

The recent reduction was made possible through the signing of the farm credit action, on June 3, by President Roosevelt, Mr. Williams of the Houston Bank said.

REVIVAL AT CHRISTOVAL CHURCH OF CHRIST

Evangelist Frank Traylor of Roscoe, Texas, former minister to the Sanderson Church of Christ, will begin a revival meeting at the Church of Christ at Christoval, Texas, on June 21, to continue through June 30. Mr. Gray of Corizzo Springs, Texas, will have charge of the singing.

Christoval is an ideal vacation and health resort with convenient camping grounds provided for all visitors. Fishing and swimming are good in this section. A large number of visitors is expected, and a special invitation is extended to the people of Ozona and vicinity to attend.

AN UNCONSTITUTIONAL LAW

Grosebeck Journal: It is now against the law for a dentist to advertise his prices. The bill making the law effective was signed Saturday by Governor Allred. Now why should it be against the law for a dentist or anyone else to advertise the price he charges for his work? In fact, with our constitution guaranteeing freedom of speech and press, how can a law denying the privilege of speech and press be called constitutional.

In signing the bill Governor Allred said that the Supreme Court had upheld a similar law. Why was such a law passed? The legislature and the governor have passed a law that restrains the individual rights of the minority members of the dental profession to run their business as they please to run it. Most of us are not greatly interested in dentists. Then why should we resent such a law being passed? Because it is contrary to the fundamental principles of the individual freedom. If a law can be passed and held constitutional that takes away freedom of speech, press and action to one class of people, other laws can be passed that will take the same things away from the rest of us.

Were this editor a dentist who wanted to advertise his prices he would advertise them in figures 10 feet high and defy the government to keep him from doing it. When the Supreme Court says that such laws as this are constitutional it causes us to doubt both the wisdom and the honesty of that majestic body.

TEST OF NEW BALL

Alex Ednie, pro at Shelter Rock Country club, Long Island, recently drove a spun latex ball through a phone book almost an inch thick containing more than 500 pages. Standing the book on end without support 4 feet in front of the tee, Ednie sent the ball through with such force that it carried and rolled 100 yards beyond. Traveling at the rate of approximately 114 miles an hour, the ball was averaging 167 feet a second when it hit the book. The drive, declared impossible by golfer and nongolfer alike, was made to test the new spun latex golf ball, a United States rubber product. Made of materials never before used in golf ball construction, the new ball is notable for its power and distance. These qualities are acquired primarily from a high-power winding of thread spun direct from liquid latex, the natural milk of the rubber tree.

OLD FASHIONED THINGS

Chicago Journal of Commerce: We are not unaware of the present tendency in some quarters to sneer at the "old fashioned things" of our past civilization. And we are willing to admit that not a few of the habits and customs of our forebears could have been improved upon.

For example, there was the "fisticuff" or "bullying" era when every town and hamlet and neighborhood boasted of its "bully," a giant physically, who could take as much punishment as a mule and "give as good as he got." He went on a drunk every Saturday, and if he lived in the country, as was frequently the case, he went to town and a doggerly and tanded up; he then paraded the streets shouting how good a man he was, the "best who ever wore boots" and that he could "whip his weight in wild cats."

Not infrequently, however, he collided with a quiet, inoffensive citizen, going about his own business, who resented being crowded off the sidewalk and turning on the self-constituted bully, "knocked the stuffin'" out of the braggart in no time.

All this and more of the same kind was bad enough to be sure. But there were no gangsters in those days who put their victims "on the spot" and, standing them in line against a city wall, filled their bodies with machine gun slugs in broad daylight.

The pioneers of America, some of them, had their faults of course but they had their virtues as well. Homes were more sacred; there was less selfishness; modesty in women prevailed; love of country was universal and constitutions and laws were things to be respected and obeyed.

SOMETHING IN COMMON

Guide: "This castle has stood for 600 years. Not a stone has been touched, nothing altered, nothing replaced." Visitor: "Um, they must have the same landlord as we have."

"But, my dear," bleated the poor little hen-pecked husband, "you've been talking for half an hour, and I haven't said a word." "No," snapped his wife, "you've been listening in a most aggravating manner, and I'm not going to stand for it."

Ethel: "Dear Jack is so forgetful!"

Sibyl: "Yes—at the party last night! had to keep reminding him that it is you, and not me, that he's engaged to."

SOMETHING NEW

Tired Business Man: "Take dancing lessons? Well, I guess not! There are too many other ways by which I can make a fool of myself." His Loving Wife: "Yes, darling but you've tried all of those."

STEP BY STEP

A youngster asked his father how wars began. "Well," said his father, "suppose America quarrelled with England, and—" "But," interrupted the mother, "America must not quarrel with England." "I know," he answered, "but I am taking a hypothetical instance." "You are misleading the child," said mother, "No, I am not," he answered. "Yes, you are." "I tell you I am not! It's outrageous—" "All right, Dad," said the boy. "Don't get excited. I think I know how wars begin."

"Where have you been for the last four years?" "At college, taking medicine." "And did you finally get well?"

Los Angeles Examiner: Tennessee court rules that a mail-order divorce is no good in that

State. The only way a woman can get a legal separation is to shoot him.

Lily: "So yo' done mortgaged our li'l home."

Mose: "Jes tem'rarily, honey, 'till the mortgage am foreclosed."

Lynchburg News: A pigeon wearing a metal leg-band came down exhausted on an Atlantic liner. Maybe it was the dove of peace in shinguards.

Richmond News Ledger: The Democrats are foxy. If their schemes don't work, Republicans will come back and have the man to clean up.

Wisconsin State Journal: Getting rich is easy. You just work and save for 10 years and then move to California and marry a rich widow.

Your Selling Message

Reaches Hundreds of Prospects Simultaneously In Newspaper Advertising

If you depended on person-to-person contacts to get over your sales message, your stock would be moulded before you could get around to telling every prospective buyer in the community about what you have to sell.

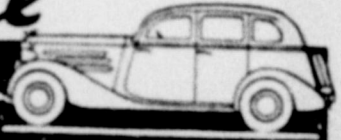

If you employed a house-to-house canvasser to tell the people about your wares, it would take weeks of long-hour labor for him to make one round—and the cost would be prohibitive. By that method, each prospect interviewed would cost the merchant several dollars.

For only the minutest fraction of a cent per prospect, you can lay your selling message before the eyes of every prospective customer in the community—attractively displayed—a printed message that is welcomed into every home—with an advertisement in your home-town newspaper. Newspaper advertising is the cheapest and most effective selling method yet devised—reaching the greatest number of prospects at the lowest rate per contact.

To make your advertising more attractive and thus more effective, this newspaper offers you FREE illustrations for any type of business, cut and copy service that is effective. Its staff, schooled in the art of selling by the printed word, will gladly assist you in working out your advertising plans.

Sonora Entertains West Texans In 2 Day Celebration

Rodeo, Race Meet Planned for June 27 and 28

SONORA, June 5—"Generalissimo" of the Race Meet and Rodeo at Sonora, June 27-28, Alfred Schwiening, Sutton county ranchman and city commissioner, knows his celebrations—those annual affairs which all West Texans attend, and enjoy, year after year.

Mr. Schwiening's fame (he was born in Mason county and once kept books for wholesale buggy concern in Brady) as a general chairman began quite a few years ago when he was put in charge of the Camp Allison 2-day event on the Llano River.

Politicians know the Camp Allison celebration for it's as much a part of election year as announcing for office. They come from far and near, shake hands, make speeches—and they come year after year.

So when Sonora sought a leader for its Race Meet and Rodeo they didn't look far. It wasn't election year, there was no Camp Allison celebration, and Alfred Schwiening, 47, active and enthusiastic as a man of 25, was the "man for the place."

To Mr. Schwiening goes credit for the business-like way plans are being carried out for an event that will please everyone—and that includes race horses, men, spectators, and the dancers who will "trip the light fantastic" on a large platform (it's the Camp Allison one) for three nights.

Purses totaling \$1110 plus all entrance fees are to be given race horse owners who enter their mounts in the six-event program to be offered each day. The races each day and the purses offered are:

Quarter mile, 2-year-olds, \$75; quarter mile, all ages, \$75; 1/2 mile all ages, \$85; 1/2 mile, all ages, \$95; 3/4 mile, all ages, \$100; 3/4 mile, all ages, \$125.

Racing and roping events, the latter to carry \$350 in purses, are to be at the park with the grandstand on the San Angelo highway just out of town—scene of many pleasing celebrations in years gone by. The free barbecue will be in town the first day—Thursday. Asked for the secret of his success in putting on celebrations Mr. Schwiening said:

"Like nearly everything else it's mostly a case of the old 'saw' of everybody putting his shoulder to the wheel and pushing hard! It has to be run right, of course."

When his interviewer asked for a bit about some of amusing experiences while putting on celebrations year after year, Mr. Schwiening "hedged" quite a bit but finally broke through with this:

"It isn't at all funny. In fact, it's sort of pathetic to think that a West Texas man can be that small. Here's what I'm thinking about: I've always gotten a kick out of standing off to one side and watching a few men try to sneak in and get their barbecue before the ladies are fed. There's nearly always a few like that and it always gets me."

"I always wonder how men can be that small. It just isn't West Texas."

HIS ALIBI

He was relating at the breakfast table an incident that occurred at the lodge the previous evening. The president of the order, he said, offered a silk hat to the brother who could truthfully say that during his married life he had never kissed any woman but his own wife.

"And would you believe it, not he stood up."

"George," his wife said severely "why didn't you stand up?"

"Well," he replied, "I was going to, but you know, dear, I look like the devil in a silk hat."

9th Frame Rallies Save Giants From Double Shut-Out

First-Half Champs Of Texon Take Week-End Series

Desperate ninth inning rallies by the Ozona Giants in both games prevented the powerful Texon Oilers, first half winners in the Permian Basin League, from chalking up shut-out games here Saturday and Sunday.

Saturday's last minute scoring push netted the locals two tallies to half it with the visitors, 4 to 2, but the Sunday fracas saw only one score pushed in the Giants' scoring frame, Hi Haven, Texon hurler, walking in the score with the bases loaded. The rally fluttered out a moment later with a pop-up to shortstop and an unassisted double play by Gentry.

That the Giants were hitting

them high into the air and often is attested by the scorer's statistics showing only two assists for Texon players, and only three put-outs for the first baseman. Only three balls were hit on the grounds by local batsmen, two being fielded and one resulting in an error.

The Giants go to Crane Saturday and Sunday for their final regularly scheduled first half game. The following Sunday, being an off-day between halves, the locals will play off the contested game with Iraan at Iraan.

The box scores in the week-end series here with Texon's follow:

WHAT! NO CLINK?

Here's a fine how-d'y-do. Someone gave the monkey a dollar bill, and he doesn't know what it is! Oh, well, the organ-grinder will take it away from him quicker than you can say "genus primates" or even "monkey sees, monkey does," so it doesn't matter.

The point is, it only really matters that HUMAN BEINGS are getting more money than they've been accustomed to getting.

Salaries in general are much higher than they were a year ago. People are beginning to enjoy the thrill of "having a little money left over."

Folks are using this extra money to buy the things they've been wanting but denied these many years. They are still hunting the best markets, but they are hunting markets, with money to spend. It's the wise dealer who makes their search easier by ADVERTISING. And there is no CHEAPER nor more THOROUGH medium than NEWSPAPER ADVERTISING.

ELECTRIC POWER

An Item that has not Increased

Through the American principle of private initiative in business, electric rate reductions have been continued along with improvement in service. According to the United States Bureau of Labor Statistics, electric service costs for the United States as a whole are now 39% lower while the cost of living now is 38% higher than in 1913.

According to the National Industrial Conference Board, food is now 25% higher than 1933, clothing 22% higher, and rent 8% higher. Total taxes, including the numerous Federal taxes the consumers pay indirectly, have increased at an alarming rate and for the average family now amount to more than ten times the cost of electric service.

Net average rate for all the 160 communities served by the West Texas Utilities Company is today more than 60% below that of 1923. Electric service is cheap. You should use more of it.

Copy of N.Y. Paper, Containing Account of Fall of the Alamo, Is Gift to University

Fragmentary Details of Massacre Heard At Distance

AUSTIN, Texas, June 12—Reports of the fall of the Texas Alamo may not have echoed around the world but they did reach throughout a great part of the United States of America, judging from various newspaper accounts that year. One account of that battle appeared in the Goshen Democrat, of Goshen, New York, on April 16, 1836, a copy of which has just come into the hands of the library of The University of Texas. It was the gift of William Kenneth Duryea, a student in the architecture department of the University, whose father, Mrs. William H. Duryea, Middletown, N. Y., sent it to him. It was through the efforts of Samuel E. Gideon, University professor of architecture, who is keenly interested in the preservation of any material relating to the fall of the Alamo, that the gift was presented to the University library.

The report of the fall of the Alamo, published in the Goshen Democrat, is practically identical with one published on March 28, 1836, in the New Orleans Post and Union, and reproduced on April 12 in the Arkansas Gazette. The University library does not have a copy of the Post and Union which does possess the Arkansas Gazette which carries the account. The New York paper evidently received its report of the battle in round-about manner. The article follows:

H. J. R. No. 46 HOUSE JOINT RESOLUTION

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Normandie Breaks Trans-Atlantic Record!

Crossing the Atlantic in record breaking time, the Normandie arrived in New York this week with more than 2,000 passengers aboard. The top photo shows the ship itself—the largest floating object in the world; the picture on the left was taken in France, just before sailing; it shows hundreds of barrels of marine oil being taken aboard to lubricate the ship's 160,000 horsepower motors—enough to propel ten average ships; on the right is shown the prow of the ship in drydock.

And Didn't Listen To Gossiping Neighbors!

Mrs. H. H. Long of Clarinda, Iowa, writes: "Kruschen was recommended to me by my doctor. Weight when starting was 226. Weight now after 3 jars is 208. Doctor says I'm doing fine."

When Kruschen Salts is prescribed by reputable physicians to safely take off fat and greatly improve health—why listen to gossipers who don't want you to be slender? Envious!

Have a mind of your own—get a jar of Kruschen today (lasts 4 weeks and costs but a trifle). Take a half teaspoonful in a cup of hot water every morning—tastes fine with juice of half lemon added. If you don't lose 12 lbs. and feel years younger—money back. Ozona Drug Store sells lots of it. (Adv)

Automobile Industry Good Farm Customers

The farmer's job used to be kept by the nation's dinner table. Every day he will work to supply material for one million Ford's.

Five dealers point out that the Ford Motor Company will purchase many products of the farm and livestock in order to complete the automobile to build one million more this year.

Every four-door Ford sedan uses 20 pounds of cotton. A million cars will require over 20,000,000 pounds of cotton—25,000,000 pounds in all. 24,000,000 pounds in baling, each, brake linings, battery belt, timing gears and safety glass. It takes 125,000 acres of cotton to produce this material. The surplus of cotton is a half a million bales. The surplus of cotton is a half a million bales. Taking boat upon the Sea of Galilee, drinking from the well where Christ engaged in conversation with the woman of Samaria, traversing the wilderness, scanning the scene of the birth of Christ, touring the city of Jerusalem and following the Jordan stream, were but a few of the many privileges of the Bible teacher in his tour. In the Catholics' weekly march on Friday afternoon's at 3 o'clock from Pilate's Palace to the place of Calvary, the Ozona lecturer engaged while in the "city of the king."

To Dallas Next

The unique features and practices of the land bear out Bible statements, the speaker told and gave examples.

After the lecturer climaxes the meeting series tonight, he will leave for Dallas where he will be engaged for ten days at the Sears and Summit Church of Christ for day and night addresses. From Dallas, Mr. Hardeman will leave for Altus, Oklahoma, where he will give a series of Bible discussions and then he will return to his home at Henderson, Tennessee.

Mr. Hardeman is accompanied on the lecture tour by Mrs. Hardeman. They are the parents of D. B. Hardeman, San Angelo attorney.

Stork Still Leads In 1935 Accounting

The record shows eighteen deaths for the first five months and two weeks of the year, while revealing a total of fourteen deaths.

"Lady," said the policeman, who had motioned her to stop, "how long do you expect to be out?"

Grover Jones, of the Ozona troop, is yet at the Mertzon camp and has attained several merit badges, and has done required work for seventeen badges. Neither of the two Ozona youths nearing Eagle Scoutdom will be conferred the honor until Scout Court of Honor here sometime in August or September.

Evidence of the pace set by the local Scout troop at the Mertzon jamboree is given in the record of the troop. All games on "rainy day" programs were copied by the Ozonans the first week with 24 Scout members there from Ozona. The second week, the swimming team from here won and the troop, with but ten members remaining, won all of the games. The Ozona troop copped awards also in cleanest camp contests.

On the day's routine for the camp youths are life-saving training, swimming, leisure hour (for practice in Scout skills) and numerous other arts of Scoutcraft. The camp closes after another week, which will climax a four week gathering.

all may read its list of 20 units or operations that the Chevrolet dealer guarantees to have been checked before the car is offered for sale.

"Actually, the merchandising of used cars is a gigantic business. Among our own dealers alone, it represented in 1934 the sale of 1,160,000 vehicles. Our dealers have decided, therefore, that it is as worthy of display advertising and dignified copy as are new cars, and we are therefore making available to all our dealers, mats of well displayed used car advertisements, to give the dealers an opportunity to raise this branch of their activity to the high plane that it deserves to occupy."

Chevrolet Plans Advertising Of OK'D Used Cars

To Impress Public With Care Used In Conditioning Used Cars

To raise used car advertising and merchandising to new standards of excellence and dignity, the nation-wide dealer organization of the Chevrolet Motor Company has arranged for a cooperative national campaign in newspapers and magazines. The advertising will carry to the public the pledge of the dealer organization that all its members will stand back of the used cars they sell. That is, used car prospects are to receive the same assurance that is given to purchasers of new cars—that the car has been tested, tuned, and conditioned, and is ready to give satisfactory service.

The national used car advertising campaign will supplement the local newspaper advertising of the dealer, just as Chevrolet's national advertising supplements local new car copy. In addition, display copy, to be localized with the dealers' names and a listing of their used car offerings, will be supplied to dealers for their insertion in their newspapers.

W. E. Holler, vice president and general sales manager of Chevrolet, in announcing the new approach to used car merchandising, pointed out that ten years ago Chevrolet and its dealer organization pioneered in raising the standards of the used car business and in dignifying it in accordance with its importance to the dealers and the industry as a whole.

"Ten years ago," said Mr. Holler, "we instituted the now famous 'red tag' guarantee as a means of certifying used cars as worthy of the buyer's confidence. The tag is the dealer's assurance that the used car is exactly as represented. Now we are going to make the red tag familiar to additional millions of newspaper and magazine readers; and impress upon them that the tag is a certificate of merit. In Sunday newspapers and in magazines, the tag will be reproduced in color, full size, so that
