PIERCE WINS LARGE SHARE SHEEP PRIZES

Madsen, Day, Jones, Bullard, Owens Also In Win Column

V. I. Pierce of Ozona, one of the nation's leading registered Rambouillet sheep breeders, took the lion's share of premiums in the tenth annual Rambouillet sheep show held at the fair grounds here yesterday morning, which formed the curtain raising event of the tenth annual Rodeo, Race Meet, Stock Show and Sale.

Seven first places and two championships and one third place constituted the record made by sheep of Mr. Pierce's breeding in the show ring here. "Top Hat," champion ram of the Ozona show in 1936, and first in his class at San Angelo and Centennial Show in Dallas last year, showed he still had class in the aged division by taking first in aged ram and first again in ram with best fleece showing. "Snapper," a yearling ram from the Pierce flock, beat out the old master for championship honors.

An aged ewe of Mr. Pierce beat out the "flapper" yearling from John K. Madsen's flock for championship ewe. The champion ewe also won in her class over a field of six.

In the aged ram division, Pierce "Top Hat" was first; D. T. Jones & Son of San Angelo, second; Wilford Day of Day Farms, Parowan, Utah, third; and D. T. Jones & Son, fourth. Nine entries constituted the aged ram division.

In the yearling ram division, Pierce's "Snapper" was first; F. N. Bullard of California, second; J. W. Owens & Son of Ozona.

Dozen New Deputies To Be On Duty For Celebration Period

Not with any idea of cramping the style of visitors nor restraining home folks, but for the purpose of assisting in directing traffic and seeing that things go off in apple pie order, Sheriff W. S. Willis has appointed a dozen deputy sheriffs to be on duty during the three-day celebration.

The deputy sheriffs will be charged with the duty of traffic cops, will assist in parking and will be on hand for emergencies anywhere while the celebration crowds are here.

BUSY MAN

Wayne West, above, as president of the Crockett County Fair Assn., is one of the busiest men in town this week. He is charged with responsibility for supervising smooth unfurling of the three day program, but with four years experience in the office and a willing crew of hard working helpers, he will get the job done as usual.

Child Run Over By Father's Car Seriously Hurt

Elledge Child Suffers Fractured Skull In Accident Here

Dixie Jean, 2-year-old daughter of Mr. and Mrs. Henry Elledge, was seriously injured Tuesday when a car, being backed from the garage at the family residence here by the father, knocked her down and ran over her.

The child suffered a fractured skull and a possible neck injury, a physician's examination showed. The attending physician indicated the child would recover barring unexpected complications.

About a year ago, a son of the Elledges, older than Dixie Jean, fell from the car being driven by his father and suffered a broken leg and other injuries. The door on the child's side came open unexpectedly, pitching him out, the back wheel passing over the leg.

TEST NEAR 6700 FEET

Superior No. 1 Massie unit, scheduled Ordovician test on the Todd ranch in this county, was drilling near the 6,700 foot level in shale and sand this week. A soft formation was encountered Tuesday when an eight-hour shift made a total depth of 12 feet, whereas before that the average had been four to five feet.

OZONA DESTINATION OF THOUSANDS AS GREATEST SHOW IN HISTORY OPENS

16,000 Pounds Meat Ready For Barbecue Feast

Bob Cooke Again On Job To Feed Thousands Visitors

When the first "Come and get it" echoes through the trees in Ozona's shade-strewn park today at noon, several thousand visitors and home folks will stream past the long horseshoe tables to partake of a barbecue feast that has made Ozona's annual July celebration famous throughout the South west.

This year the feast will be more bountiful than in past years, but the same standard quality of Bob Cooke's barbecue will be unmistakable in the daily menu. Approximately 16,000 pounds of meat, kid goat and beef, will be available as the main course for the multiple thousands expected to "come and get it" during the three days, that amount of meat having been ordered from packers for the occasion.

In addition, there will be ranch style beans, cooked in the big iron pots at the north end of the park, son-of-a-gun, or cowboy stew, bread, pickles, onions, coffee and iced tea — all in the usual abundance.

Second Half PB Flag Chase To Open Saturday

Ozona - Sonora Open Saturday In Sonora; Iraan Sunday

With the first half championship in pocket, the Sonora-Ozona combined baseball team will surge forth the coming week-end to open their drive for the second half flag and the undisputed baseball crown of West Texas for the 1937 season.

The twin town team is scheduled to go against the strong Iraan club, which has shown greater improvement in the last few weeks of the present season than any club in the loop.

According to the league schedule, the first game of the second half is slated here Saturday and at Iraan Sunday. However, since the rodeo will be in full swing, the Saturday game will be played in Sonora and Sunday in Iraan. Manager Ohlenburg announced, Crane and McCamey are slated to mix it with Texon enjoying an off-week.

The locals trimmed the Wink independents both games of an exhibition series Saturday and Sunday, Saturday's game in Sonora by a count of 6 to 4 and Sunday's here 6-1. Lefty White went the route for the locals Saturday while Al Crostwaite cross fired 'em out Sunday.

Paper Gives Plaque To Ram Bringing Top Price At Local Sale

Owner of the top ram at the Ozona Sale this year will receive a large silver plaque, the gift of the San Angelo Standard-Times of San Angelo.

The plaque, placed on display at the sale barn, will be presented by Sam Ashburn, agricultural editor of the Standard-Times, to the owner of the ram bringing the highest price in the auction ring.

CITY'S GATES OPEN IN WEST TEX. WELCOME

Early Crowds Indicate Best Attendance In Decade

The gates of Ozona swung wide this morning to welcome the thousands of visitors expected to flock this way today and the next two days for the tenth annual Crockett County Rodeo, Race Meet, Stock Show and Sale opening today at the \$50,000 plant of the Crockett County Fair Association here.

With the livestock industry facing the best prospects for a banner year since the boom days, the 1937 Crockett County show is being freely predicted for the greatest event of its kind in its ten years history.

For the sheep show and sale, some of the nation's best blooded animals have been assembled, and eager buyers are here to bid on these bluebloods of the Rambouillet flocks. With the favorable outlook for the industry, the ten-year record of maintaining the highest average prices of any sale in America is expected to remain intact through this week's sale, with a strong possibility that some records may be broken in the three-days bidding.

"Buck Special"

Six train car loads of choice bucks from Utah and California were unloaded at Barnhart early in the week and trucked to the sheep pens at the fair grounds here. These animals, riding a "buck special" from the west coast, were from flocks of such representative breeders as W. S. Hansen of Collington, Utah, John K. Madsen of Mt. Pleasant, Utah, Bob Miller of Davis, Calif., F. N. Bullard of Woodland, Calif., George Beal of Ephraim, Utah, and others. Many Texas breeders of top rank have sent in allotted shipments by truck to make up

'Tourism' Texas Second Largest Industry In '36

446 Millions Spent By State's Centennial Year Visitors

Dallas, —(one 30— (Special) — Texas, "the state that has everything," has been taking stock of itself as a merchant of "tourism," and has found that its traditions, scenery, hospitality and climate are just as marketable — for hard cash — as the cotton, wool, oil, meat, sulphur, gas and spinach that it has been supplying the rest of the country all these years.

As a result, says a report of the All-South Development Council, sentiment is fast crystallizing throughout the state in favor of a long-term state advertising and publicity program, to continue and consolidate the gains scored through the Centennial and Pan-American expositions.

Mrs. E. O. Buck of Houston and Mrs. Albert Bogress and son, Albert, Jr., are the guests of their parents, Mr. and Mrs. C. C. Montgomery.

Dallas Exposition Plans Gala Weekend To Celebrate Fourth

Dallas, June 30—Swinging into action to give Texas and the South west its biggest and most spectacular Fourth of July celebration Pan American Exposition officials have centered all their activities towards assembling sensational attractions for the three days program. Pan America's celebration starts Saturday, July 3, and continues until midnight July 5.

Three days of sham warfare will wage along the Exposition front when the great anti-air craft guns of the 69th Coast Artillery will defend the Exposition from bombing airplanes. The defense opens Saturday night and continues Sunday and Monday nights. Searchlights with 5,000,000 candle power each and sound detectors will locate "enemy" planes at an altitude of 20,000 feet.

Jack Benny and Mary Livingstone, the nation's most popular radio team, with a complete radio set up of Texas stars are free attractions in the Cotton Bowl. A free circus, elephants and all, is another three day attraction. At noon July 4 the 11th Infantry, stationed at the Exposition will fire a 45-gun salute over the lagoon in celebration of the Declaration of Independence.

Free attractions for the three days include the Major Bowes Amateurs at the Magnolia Lounge Theatre; Don Ramon and his Mexican orchestra featuring Belencita Ortega at Texaco Gardens; Guatemala's National Marimba Band in the Pan American Palace and dozens of other entertainment features.

The Casino, Cavalcade of the Americas, Black Forest, Road to

Rio are shows unsurpassed elsewhere. The Pan American Exposition presents the exhibits of many Latin American nations. All exhibits are free.

Know Texas

News Bureau
State College for Women

June 30—Most cosmopolitan of all Texas cities is San Antonio, with its rich blend of old and the new, and its mixed populations of Spanish, German and other nationalities. Numerous patriotic celebrations and patriotic celebrations helped to win for it the title of "Playground of Texas."

North of the city are the cluster of German towns that have always been a delight to tourists. Freshly baked New Braunsfels, the famous town founded by an immigrant German prince is situated on the banks of the Comal river. The spots around these towns can hardly be surpassed for beauty and comfort.

Waco is also a favorite resort for those who crave the outdoor life, and many kinds of camps are located near it. After passing through another German town, Fredericksburg, the traveler is ready to reach Austin.

High spots of Austin which the tourist cannot afford to miss are the State Capitol, the great University, various historical points and the ice-cold springs. Turning south again, one finds a good way to Waco, where fishermen head to Lake Waco, picnic-take in Cameron Park and go to Baylor University. From this central section the way is clear to Dallas and Fort Worth, which are embarking on their second year as summer entertainment centers. At Dallas the mania holds forth in the form of the Greater Texas and American Exposition, and at Fort Worth Billy Rose is managing a "bigger and better" Frontier

Department Stores Show Sales Gains For May Business

Austin, June 30—Department store sales in Texas during May, measured in dollars, increased more than the average seasonal amount over April and maintained substantial margin of improve-

ment over May, 1936, according to the Bureau of Business Research of the University of Texas. Aggregate sales during the first five months of the year also were well above those of the corresponding period last year.

"Reports from 99 representative Texas establishments show a gain of 7.5 per cent in sales over April and of 14.7 per cent over May last year," the Bureau's report said. "Year to date sales were 13.3 per cent above those of the first five months a year ago."

"The percentage of credit sales remained practically unchanged from a year ago and the same was true of collections of outstanding accounts."

Health Head Urges Caution To Avoid Holiday Accidents

Austin, June 30—Taking note of the approach of the great patriotic National Holiday, July 4, which this country has celebrated for one hundred and forty-one years, Dr. Geo. W. Cox, state health officer, calls attention of the people of Texas to some of the dangers of careless celebrating. The morning papers of July 5, detail an appalling number of accidents which occurred over the Fourth.

It is not alone the wounds received from explosives that increase our death toll. Injuries from automobile accidents, splinters, nails and other penetrating wounds in which dirt may be carried into the skin heighten the hazard of tetanus or lockjaw.

If the days pleasure includes a swim, caution should be used and no attempt made to do more than your strength will permit. If a drowning takes place, artificial respiration should be started at once and continued until a doctor arrives.

Automobile accidents have usually one of three causes—exceeding the speed limit, driving on the wrong side or failing to grant the right of way. It can be seen that the chief factor in auto accidents is the judgment of the "machine" within the machine. Caution should guide the holiday activities so that the day may be remembered with joy instead of sorrow.

Texas Law Provides For Livestock Tax To Protect Property

That voters of Crockett County might have opportunity to become familiar with the terms of a recent act of the Texas Legislature making provision for the levying of a tax on cattle, sheep and goats for the purpose of providing funds for the employment of additional law enforcement officers to protect owners of such livestock from theft, the Commissioners Court of Crockett County authorizes publication of the act in full, known as H. B. No. 113, which now is law. The law, which is applicable to this county, is as follows:

H. B. No. 113
AN ACT

to provide for a local option election in counties having ten thousand (10,000) or more cattle, sheep, and goats rendered for taxation to determine whether or not the qualified voters of such county desire to authorize the levy, assessment, and collection of an annual tax on cattle, sheep, and goats; providing for the method of levying, assessing, and collecting such annual tax; and further providing for the deposit of the moneys collected from such annual tax in a special fund to be known as "The Domestic Livestock Protective Fund"; providing authority and requiring the Commissioners Court of such county adopting the provisions of this Act to employ law enforcement officers, and fixing the compensation of such officers and the reports to be filed by them, and declaring an emergency.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Worth Host To Newsmen At Show Preview

Casa Manana Scene Of Brilliant Opening 1937 Spectacle

Billy Rose, New York showman of excellence, who has grown in theatrical stature by transplanting into the boundless spaces of Texas, the Frontier Fiesta commission and the city of Fort Worth played host last Friday night to some two thousand newspaper and radio men and women of Texas at a brilliant preview of the 1937 edition of the Frontier Fiesta, featuring the Casa Manana show.

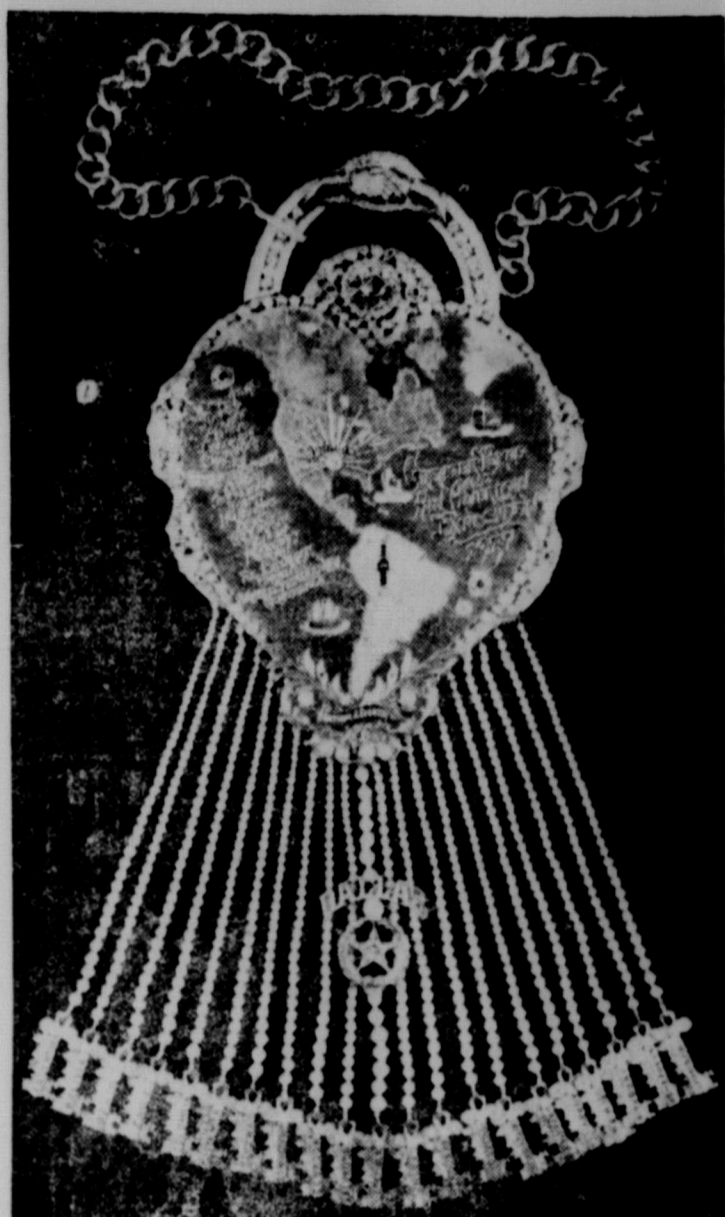

A greater Casa Manana revue than last year, which then regarded description, the supreme light spot of the Southwest this summer and last is destined to "keep 'em in" throughout its run. Its four sequences based on the best sellers of the current season, the Casa Manana revue is

both spectacular and beautiful. Opening with a Southern romantic setting on the theme of the much discussed "Gone With the Wind" by Margaret Mitchell, the mammoth production swings into the theme of James Hilton's fantasy, "Lost Horizon," from there to the inspirational success formula of Dorothea Brande, "Wake Up and Live," and closes with the staggering patriotic spectacle based on Sinclair Lewis' novel, "It Can't Happen Here."

In addition to the Casa Manana revue, the editors and broadcasters were given a peep at "Melody Lane," a feature which replaces the Jumbo show of last year, the Puppet Show and other Fiesta features. The hospitality of Fort Worth and the Frontier Fiesta management as well as the spectacular shows assembled on the grounds impressed the preview crowd of newsmen from all over the state. It was the privilege of the Stockman editor and Mrs. to witness this pre-viewing of the Fiesta program and Casa Manana revue on the world's largest stage.

Mr. and Mrs. Clay Adams were here from their ranch near Pumpville to spend the week-end with relatives.

\$75,000 Pan American Lock

Here is the costliest lock ever made. Wrought by Arthur A. Everts, Dallas jeweler, it was presented to the Pan American Exposition for its opening ceremony June 12. The lock, valued at \$75,000.00, contains nearly two pounds of platinum and white, green, yellow and red gold, and 1,000 gems—diamonds, sapphires, pearls, zircons, emeralds and rubies. The large diamond weighs 14 carats. Only by the insertion of all 21 keys, each representing one of the Pan American nations, was the lock opened, throwing wide the Exposition gates while representatives of the 21 nations looked on. The original diamond-set keys were sent as gifts to presidents of the Pan American countries.

Ross A. Jennings, mechanic with 21 years experience on all types machinery, has taken charge of the Mike Couch garage and machine shop adjoining the Couch grocery store just west of the highway bridge. Mr. Couch announced this week.

Mr. Jennings came here from San Antonio, where he had spent the last three years. He is employed on the Superior Oil Co. deep test on the Tood ranch, working a daily shift on that job and handling machine shop work and automobile repairing at the Couch Garage in off hours. If the business is developed sufficiently and there is enough demand for his services, he will devote his entire time to the work.

Mr. Jennings is originally from Peoria, Ill., home of the Diesel powered caterpillar tractor factory and has had many years experience in both Diesel and gas engine work and in all types of road building, oil well drilling and other heavy equipment, as well as automobile engines.

Miss Dixie Winfrey of Clovis, N. M., is here for a visit with Mr. and Mrs. Fleet Coates. Miss Winfrey is a niece of Mrs. Coates.

Air Conditioning Plant Installed At Green Lantern

Installation of a "Kool-ditioning" system, washed air conditioning plant, was completed early this week in the Green Lantern Cafe here to become the first business house in Ozona with air conditioning.

The plant consists of a powerful exhaust type fan pulled by a heavy duty motor and vapor spray system through which air is drawn to produce a blast of cool, humidified air. A separate motor in the plant operates a small water pump which throws the water into a fine mist. Air is drawn thru this mist and into a four-inch thick layer of moist excelsior which regulates humidity and further cools the air.

Miss Lena Cole, teacher in the Ozona schools several years ago, and Miss Ruby Cole, both of Houston, spent the day here last week renewing old friendships. They were on their way from Houston to El Paso for a visit.

Mrs. Sallie Stone of New York is here for a visit with her sister, Mrs. Ben Lemmons, and her son, Raymond Stone, who has been here several months employed at the Lemmons store.

WEST TEXAS LUMBER COMPANY

J. H. Miller, Manager

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. Address inquiries to Will H. Mayes, Austin, Texas.

Q. What rank does Houston hold as a port?

A. Only New York, Philadelphia and Duluth now rank ahead of Houston in cargo handled in the United States. Its rapid growth as a port is shown in a recent report by the United States port engineers showing that in 1932 the Houston port handled 12,710,432 tons; in 1935, 19,774,071; in 1936 23,800,415. Beaumont and Port Arthur rank eighth and eleventh, respectively.

Q. What was the "Cordova rebellion?"

A. It was an ineffectual effort on the part of Vincinte Cordova, made in 1837 and 1838, to incite rebellion among Indians and Mexicans of east Texas. Quick action on the part of citizens of San Augustine and Nacogdoches crushed the movement before it gained much headway, though Cordova remained several years among the Indians of that section, awaiting favorable opportunity to renew his efforts.

Q. What became of Cordova and his command?

A. They were betrayed by a white man, who claimed to have been their prisoner, and Gen. Burleson with a body of rangers and citizens pursued and scattered them as they were attempting to escape to Mexico. Cordova made his escape, and in 1842 was killed while with Gen. Wolf's army at the battle of Salado Creek.

Q. Did the Mexican army expect any mercy to be shown their officers and men if taken prisoners by the Texans?

A. The general feeling among them was well stated by Gen. Filisola in justifying his retreat from the Brazos, following receipt of news of the capture of Santa Anna at San Jacinto. He said, "Alarm and discouragement was general among all classes, for it was believed that all the prisoners, the president included, would have been shot as a reprisal for the conduct observed with theirs at Bexar and Goliad."

Q. Was the bridge across Vines Bayou the only route by which Santa Anna might have retreated to join Filisola at Fort Bend?

A. Historians have so stated and while it was the bridge over which Santa Anna had passed and the route by which he naturally tried to escape, and probably the only road communicating with the Brazos, it would have been possible to escape above the source of Vines Bayou had Santa Anna known the topography of the country.

Q. Did Santa Anna ever give

any reason for having the Mier prisoners decimated through the "black bean lottery?"

A. He stated that it was not because of their efforts to escape at Salado, which, he said they had a right to do, but because army followers had broken into and robbed houses at Laredo.

Q. When was the first Masonic lodge organized at Dallas and who was its first master?

A. Tannehill lodge, named for Wilkins Tannehill, a distinguished Tennessee mason, was organized Jan. 24, 1850, with Col. Nat M. Burford its first master. Col. Burford served two terms as district attorney and two as district judge at Dallas, was speaker of the house of the 11th Legislature and colonel of the 19th Texas Cavalry in the Confederate Army.

Q. When and where did the J. E. McKenzie family locate in Texas?

A. Coming to Texas from Georgia, the family of which J. E. McKenzie was a member, stopped first in Bell county in 1853, going to Comanche county in 1855. With him were his father and his brother, Kenneth McKenzie, both of whom were killed by Indians in Comanche county in 1861. J. E. McKenzie who became noted as an Indian fighter, was wounded by Indians, but survived and lived more than 50 years in that part of Texas, dying in 1906 at the age of 83. He was one of the founders of Comanche.

Q. Is there a State Park in Williamson County?

A. No, but there is a beautiful well-kept municipal park at Georgetown. It contains about 30 acres, extending about a half mile along the clear waters of the San Gabriel river, densely shaded by large native forest trees, and is one of the prettiest recreation spots in Central Texas.

Q. What disposition was made of the golden keys used in opening the Greater Texas and Pan American Exposition at Dallas?

A. Twenty one of them were presented to representatives of Central and South American countries participating in the exposition and one, diamond-studded, was presented to President Roosevelt through Sen. Morris Sheppard.

Q. For whom was the town of Schulenburg named?

A. For Ernst Schulenburg early resident of the community, who donated the site for the railroad station.

Q. Who was Judge Augustin Haidusek?

A. Judge Haidusek was a Moravian Czech, who came to Texas with his parents, in 1856. The family settled in Fayette County, where he farmed until he enlisted in the Confederate Army, returning to the farm after the war. He located at Lagrange in 1869, taught school, was admitted to the bar in 1870, was mayor, county judge, member of 17th and 18th Legislatures, established a Czech paper (Svoboda), was bank president, prominent in community and state politics, died at Lagrange, Sept. 28, 1929, in his 84th year.

Q. What distinctive "first" honors were achieved by Judge Augustin Haidusek?

RADIO STARS ARE FREE EXPOSITION ATTRACTION

electd mayor of an American city.

Q. With what prominent Texas family was Thomas J. Hardeman connected?

A. He married Susan Burleson, daughter of Joseph Burleson, who was a brother of Col. Edw. Burleson.

Q. Where is a monument to pioneer Texas men and women to be erected, under whose auspices and what is it to depict?

A. Such a monument is to be erected in the esplanade on Twelfth Street, Austin, between Lavaca and Colorado, facing the west side of the capitol building. It will be a gift from the Texas Historical and Biographical Association, will cost \$12,000 and will be the work of Julian Muench, a Houston sculptor. It will depict pioneer Texas life and the progress of Texas from pioneer days to the present.

Q. How much active credit has been given to aid people of this country during the depression?

A. According to Jesse H. Jones, chairman of the Reconstruction Finance Corporation, the amount has been approximately fifteen billion dollars.

Q. What proportion of the carbon black of this country is produced in Texas?

A. In 1936, Texas produced 82 per cent, or 333,906,000 of the 411,000,000 pounds, the value of the Texas product being about \$14,000,000, about 40 per cent of it being exported. Most of it is produced in the Panhandle district.

Q. How is the library work of

Texas administered?
A. Through the State Library and Historical Commission at Austin, which has a collection of about 180,000 volumes. The University of Texas also has a loan library service. In number of volumes the State library is next to that of the University of Texas, which has approximately a half million volumes in addition to several notable collections.

Prizes Worth \$500 Go to 13—
Yes, 13—Women Submitting Best Names for "HOUSEWIFE" in This CONTEST

No Longer a Slave to Kitchen Drudgery!

A Simple, Easy Contest

Invent a word for "housewife." Then write a letter of not more than 100 words explaining why YOU selected YOUR name to substitute for "housewife." Use the dictionary, if you like. Use Greek, Latin—or English. A scientific term is acceptable if it describes a modern West Texas woman, defined here as:

A homemaker who employs electric servants to operate the home, giving her freedom from kitchen drudgery.

Remember that women no longer are bound hand and foot to the kitchen with its multitudinous jobs of dish-washing, scrubbing floors, cooking over a hot, flame-type stove, or even chopping wastefully at ice in order to have a cool, refreshing drink. Instead, the modern woman uses Electric Servants! Why must she continue to bear the name, "housewife," much as if she were a slave?

The Modern West Texas WOMAN?

 - Second Prize: Choice of Electric Dish-washer or Washing Machine.

West Texas Utilities Company

Offer \$500 Prize For Better Name Than 'Housewife'

Utilities Co. Seeking New Designation For Modern Woman

The name "housewife", as applied to modern West Texas women is old-fashioned, out of date, and no longer suitable, according to J. O. Lusby, local manager of the West Texas Utilities Company, who today announced a contest which invites women themselves to select the name they like best. "Many women resent being called 'housewife,'" Mr Lusby declared. "It smacks too much of mid-wife, housekeeper, and other sobriquets which do not flatter the woman who manages her home with efficiency and economy — doing less and less drudgery with the result that she has more time on her hand for club, church and school work. The modern woman is not bound hand and foot to a stuffy kitchen. She actually need spend but little more time than her husband looking after the home. Modern appliances, made available by science, will perform almost every imaginable household task."

Prizes valued at approximately \$500 will be given in the contest, the manager said. First prize will be a large sized (Frigidaire) electric refrigerator. As a second prize winner will have her choice of an electric dishwasher or washing machine. Third prize will be a mixer. Ten prizes of smaller electric appliances will be awarded.

Mr. Lusby pointed out that the contest is "simple and easy". All women, married or single, are eligible to send in entries.

"Greek, Latin or English may be used," he added. "Just invent a word that describes the modern woman whose talents go beyond the kitchen — the woman who takes an active interest in club and civic affairs, who enjoys some sport such as golf, tennis or even croquet. In fact, invent a name for a woman who is a companion to her family instead of a slave to her kitchen."

The contest begins Monday, July 5, and closes August 14. The

only requirement is that the invented or coined name be accompanied by a letter of not over 100 words explaining why it was chosen.

Vick Montgomery Is Thrown From Horse; Suffers Concussion

Vick Montgomery, son of Mr. and Mrs. George Montgomery, student of T. C. U. and member of the Horned Frog grid crew the last two years, suffered a slight brain concussion, a back injury and painful cuts and bruises shortly before noon yesterday

when he was thrown from a horse while working sheep at the Montgomery ranch.

Vick was attempting to rope a sheep when the rope became tangled in the horse's feet and the animal started pitching, throwing the rider. A back muscle was badly strained and young Montgomery suffered a severe cut on the head in addition to the concussion. He was resting well at last reports last night.

The injury will keep the grid star and efficient cowboy from entering the roping events in this week-end's rodeo here. He has been a familiar figure in twirling the lariat in recent years and was in demand when the wild cow milking event was in vogue as a sprinter for the return of the milk laden bottle back to the starter line for time.

The three F's, flies, fingers and food are the three sources of danger to the baby. Flies carry disease germs to the baby and to its food. Fingers and hands that are not thoroughly washed before preparing the baby's food are likely to be germ carriers also. All milk and water that is intended for the baby should be boiled for five minutes, then carefully covered and kept in a cool place until used.

The Deposited Funds of a Bank

—are given employment as reserves, investments, loans and cash on hand.

A BANK sets aside a definite percentage of deposits as legal reserves required by law. Then a voluntary "secondary reserve" is set up consisting of short-term, highly liquid investments. A sufficient amount of cash is kept on hand to meet daily requirements. This money is circulated constantly through local business channels.

The bank invests a part of its funds in Government, state and municipal bonds and other sound securities. It loans a portion locally to business men and customers.

It is the daily work of this bank to safeguard depositors' funds, render helpful financial services and find safe, useful employment for the money entrusted to our care.

SHOW OPENS—

(Continued from Page One.)

one of the greatest arrays of fine blooded Rambouillets ever assembled in the local pens.

Festivities got under way early yesterday morning with the sheep show and wool show at the fair grounds. Ozona put on its hostess dress yesterday and this morning stood wide open to welcome the huge crowds that were beginning to pour in. Today marks the opening of the three-day celebration, with the first event, the parade of rodeo and race track talent in front of the grandstand at the fair park at 1:45. After that it will be a rapid-fire string of Western entertainment deluxe until near sundown.

At about 8:30 tonight, on an improvised platform in the front of the grandstand, will take place one of the highlights of the celebration — the introduction and crowning of the Queen of Crockett, whose identity will remain a secret until the hour of her presentation and seating on the improvised throne.

Nine Duchesses Here

Participating in the court ceremony will be nine duchesses from surrounding towns and eleven ladies-in-waiting selected by Her Majesty from among Ozona's younger set. The coronation ceremony will be one of the glittering highlights of the week's celebration and is expected to draw a capacity crowd to the grandstand. Following the coronation and presentation of visiting dignitaries, the Queen and her court will head the grand march at the dance on the open-air platform at the fair grounds.

Each day at noon in the park down town, visitors and home folks will be fed at the well-loaded barbecue tables, a feed that has become famous throughout the state. The sheep sale will start at 9 o'clock each morning and continue until noon. Each day's rodeo program starts at 1:45 with the parade of participants and the dance each evening concludes the day's activities.
