## MAN LOSES HAND IN CAR CRASH HERE

Geo. Junkins, San Antonio, Hurt Monday Night

## AND AMPUTATED

Two Companions Hurt As Car Overturns On West Highway

Mrs. George Junkins of San Antonio suffered the loss of her right hand by amputation here Monday night as a result of an accident about twenty miles west of Ozona on Highway 27. Mrs. Junkins, who was driving, was accompanied by her brother-in-law, F. M. Robinson, Jr., of Pasadena, Calif., and a sister, Miss Tillie Smith of El Paso, the party being on the way to San Antonio after a vacation trip to Los Angeles.

Loose gravel in the highway caused the car to swerve and overturn as the party was approaching Ozona at a point about twenty miles out. Mrs. Junkins' hand was caught under the side of the car as it landed on the ground, the car skidding along the highway and grinding the hand into a mangled mass. The window being lowered on the driver's side caused her to throw her hand out to prevent being thrown through the open window as the car struck the ground on its side.

**Two Lift Car**  
The car came to a stop on its side, with the woman's hand jammed beneath. Mr. Robinson and Miss Smith lifted the car, a Dodge sedan, so that Mrs. Junkins was freed and Bob Summerall, deputy sheriff, passing the scene, brought her here for medical attention. The mangled hand was removed at the wrist.

The left arm was shattered between the shoulder and elbow, the part of the broken bone protruding through the flesh. This break was set and placed in splints yesterday, however, and is believed making satisfactory progress toward healing. It was first feared that later complications would necessitate removal of the arm above that point.

Mr. Junkins, who is a veteran engineer on the Southern Pacific railroad out of San Antonio, arrived here at noon Tuesday, accompanied by J. H. Cannan and A. F. Grimes, two friends from San Antonio. Mr. Junkins was in Corpus Christi on his regular run when notified of his wife's injuries. They are at the Hotel Ozona where they will remain until Mrs. Junkins is able to return to her home. Neither Mr. Robinson nor Miss Smith was injured further than minor bruises.

## Baseball Club Sponsors Award Of Automobile

New Chevrolet To Be Given Away Under Plan Of Club

A new 1936 Chevrolet sedan, purchased from North Motor Co., will be given away sometime this month or early in September under a plan being sponsored by the Ozona Baseball Club, it was announced early this week by the club management.

By sponsoring this project the club hopes to bolster its finances in preparation for the coming campaign which likely will end in a play-off with some Permian League team for the Basin championship.

Representatives of the club will inaugurate a campaign this week in behalf of the project, with the award of the new automobile as the climax of the drive. Details of the plan will be explained by Beeler Brown.

## Tax Renditions Of 22 Oil Firms Hiked In County

Taxable Values Raised \$225,312; Hearing August 24

Property valuations for tax purposes in Crockett County will be raised approximately a quarter million dollars if raises in renditions of twenty-two oil companies operating in the county, made by the Commissioners Court sitting as a board of equalization here early this week, are allowed to stand as raised.

Hikes of from a few hundred to more than \$40,000 in the renditions of oil companies, pipe line companies and royalty concerns operating here were made by the board in checking over tax rolls. The twenty-two firms whose renditions were raised will be given an opportunity for a hearing when the court meets as a final Board of Equalization August 24. Notices have been mailed to each and representatives of the companies are expected to be on hand to argue their respective cases on that date.

The Humble Oil and Refining Co. took the largest raise of the lot, a hike of \$42,411, from \$87,820 to \$130,231. The valuation of the Texas Pipe Line Co. was raised from \$234,450 to \$265,860, a total hike of \$31,410.

Valuations of properties of the twenty-two firms were raised a total of \$225,312.

## Watch Kept For Sheep Thieves As Ranch Barn Fired

Incendiarism Suspected In Fire At Cauthorn Ranch

Only a few hours before the disastrous fire at the Davidson headquarters ranch seven miles south of Ozona, which fatally burned John Meinecke and destroyed a six-car garage, tool house and two automobiles, fire of undetermined origin at the Cauthorn ranch a few miles south of Juno destroyed a barn and garage and an automobile stored in it.

Sheriff W. S. Willis was notified of the fire at the Cauthorn ranch about 3 o'clock Wednesday morning. Suspecting that sheep thieves had set fire to the garage to occupy ranch employes while they made their get-away, Cauthorn instructed Sheriff Willis to watch for suspicious trucks. Mr. Willis and his deputies kept watch on the road until after daylight and notified Sonora officers to do likewise. No suspicious trucks came this way, the Crockett Sheriff reported.

## Slight Relief From Heat Results After Threatening Clouds

Slight relief from the oppressive heat which has held Ozona in its grip most of this week, along with nearly every other part of the state, was forthcoming late yesterday when cloudy skies threatened a shower for a time. No moisture came, however, but the thermometers dropped considerably to bring some relief from heat.

Mid afternoon thermometer readings here the past three days have hung around the 105 mark, moderate temperatures compared to the 118 and readings down to 110 recorded over most sections of the state.

Mr. and Mrs. Chalmers Broadfoot are here from McCombs this week for a visit with Mrs. Broadfoot's mother, Mrs. Walter Kyle. Mr. Broadfoot was formerly manager of the variety store here.

## FILLS FARLEY'S POST

## Giants Invade Texon Precinct For Fair Games

Make-up of Rained Out Game May Be Put Off To Mid Week

Manager Harriss and his Ozona Giants will invade the stronghold of their ancient enemy, the Texon Oilers the coming week-end for a brace of games on the Texon diamond.

A third game, tentatively scheduled to be added to the coming week-end schedule, a make-up of the rained out affair here July 5, likely will be postponed until the middle of the week, it was indicated here. Injuries suffered by Charlie Bryan, Giant hurler, when he was hit in the head by a pitched ball here last Sunday, will make the Giants short handed on pitchers for an extended series.

The McCamey Refiners threw in the towel last week-end after absorbing a double beating from the Texon crew and the team has been disbanded for the balance of the season. Texon is the only team in the Basin to play the Refiners in a second-round series in the second half and will have a two-game advantage over other teams by reason of a ruling from the League president, Bill Collins, to the effect that other games scheduled with the McCamey team for the balance of the season will count as no games in the standing of other teams. McCamey was scheduled to come to Ozona August 29 and 30.

## Bryan Suffers No Serious Injury As Result 'Bean Ball'

Charlie Bryan, Ozona Giant pitcher, who was setting 'em down in grand fashion in the second game of the Ozona-Wink series here last Sunday, was not seriously injured when struck in the head by a pitched ball in the fifth inning of the nightcap game. X-Ray pictures made of the right-hander's head revealed no concussion or skull fracture.

The injured player has been "taking it easy" this week, and may be able to see services in the coming Texon series, although no definite assurance to that effect was forthcoming from the team management.

Mr. and Mrs. H. B. Cox, who with Mrs. S. E. Couch, have been visiting in California, sailed recently for a visit to the Hawaiian Islands. Mrs. Couch, it is understood here, did not accompany Mr. and Mrs. Cox on the Hawaiian trip but planned to return to her home in San Angelo.

Mr. and Mrs. Roy Parker and Mrs. Vera Baker spent the week-end on a fishing trip to Devil's River.

## Mexican Charged In Burglary Of Roy Parker Shop

Damos Garcia Held for Grand Jury In Day-light Burglary

Damos Garcia, Mexican who arrived here recently from Del Rio, is in the Crockett County Jail in default of \$1,000 bond fixed by Justice W. M. Johnigan on a charge of burglary filed against the man by Sheriff W. S. Willis.

Garcia is charged with burglary of the Roy Parker Tailor Shop during the noon hour yesterday. A handbag and suitcase, several shirts and other merchandise valued at around \$30 was taken from the store but recovered a few hours later when the sheriff arrested Garcia.

The Mexican is charged with breaking the latch on the rear door of the store and entering it. He is being held under bond to await action of the grandjury at the September term of district court.

## MARTIN HARVICK HURT

Martin Harvick was able to be about on crutches this week following injuries suffered last Thursday when his horse fell on him while working sheep on the Jake Young ranch. Young Harvick was helping out on the Young place for the day. The horse slipped and fell, pinning the boy's leg. The hip joint was dislocated in the fall but slipped back into place. No bones were broken but young Harvick was placed on crutches to allow the strained ligaments time to heal properly.

## Giants Take Two From Wink Here To Stay In Race

Locals Turn Back Invaders 4-3 and 7-3 In Twin Bill

The first half champion Ozona Giants looked like champions again when they took a new hitch the past week-end to plaster the Wink Cats for a brace of games in a Sunday afternoon twin bill on the local lot.

The Giants took the first game 4 to 3, and the second 7 to 3, the latter a shut-out game until the final inning when three hits and an error accounted for the enemy's three runs. In the first game, the Giants held their lead from the third inning, both teams scoring all their runs in the first three innings. After that it was airtight defensive ball for the Giants, only three men reaching first base in the six remaining frames, one in the fifth, one in the sixth and one in the ninth, none ever reaching the second sack.

In the second game, Bell, Wink pitcher, walked in the first score in the first inning for the Giants. The bases were loaded with Lenz drawing a walk, Heatherly rapping out a single and Myers being hit by a pitched ball. Stuart drew a walk to score Lenz. But the Giants opened the big guns in the second to score five runs. With two out in that frame, Bryan, who had walked after Weaver had rolled out, being forced at second on Cox's grounder, Lenz singled and Heatherly walked to load the bags and Carl Dorley smashed a double over the centerfielder to clean the bases. Myers connected with one on the nose for a home run over the centerfield fence, scoring Dorley ahead of him. Stuart kept the rally going with a double, but Whitson, who went in to relieve Bell, got Robertson out on a grounder to third. The Giants scored another one in the third when Weaver doubled and scored on Cox's single.

## JOHN MEINECKE FATALLY BURNED WHEN GASOLINE IS IGNITED BY LIGHTED MATCH

Ozona Youth Succumbs 12 Hours After Tragic Accident; Garage, Two Automobiles Destroyed In Resulting Fire

John Meinecke, 19, son of Mrs. Bryan McDonald of Ozona, died at 6:30 Wednesday evening at his home here from burns suffered about twelve hours before when a gasoline barrel in a garage at the Judge Charles E. Davidson headquarters ranch exploded when the youth lighted a match nearby. A six-car garage, tool house and two automobiles were destroyed in the resulting fire, with loss estimated at around \$10,000.

Funeral services for the youth were scheduled for 4 o'clock this afternoon from the Methodist Church, with the Rev. R. A. Taylor, pastor, officiating. Joe Oberkamp's undertaking division is in charge of arrangements.

Ambrose Taylor, negro ranch hand employed on the Davidson ranch, was drawing some high test gasoline from a barrel in the garage when young Meinecke fired the match nearby, the flames igniting fumes from the barrel and spraying the youth with flaming gasoline. The garage was a mass of flames immediately and for a few seconds the unfortunate lad was trapped in the building but made his way out. The negro, aided by Miss Dixie Davidson, who was awakened by the explosion and flames, finally caught the boy, a human torch, and Taylor succeeded in stripping the burning clothing from his body but not until fatal burns had been inflicted.

## Man Jailed Here To Ft. Worth On Forgery Charge

F. D. Barnett, employed as meat cutter at the J. H. Williams & Sons grocery here, was turned over to Fort Worth officers, who came for him yesterday, to face a forgery charge pending against him there. Barnett was arrested here Monday by Sheriff W. S. Willis on instructions from Fort Worth officers.

Constable Henderson of Fort Worth was sent by the Tarrant County sheriff's department to escort the prisoner back to that city, deputies of the sheriff's office being in attendance at the funeral of Sheriff Carl Smith of Tarrant County who died there early this week.

Barnett was employed by the local concern a short time ago. He is understood to be wanted in Louisiana where he is reported to have jumped bond on a theft charge, Sheriff Willis was informed.

## P. L. CHILDRESS IMPROVED

Telegraphic advices received here this morning from the bedside of Pleas L. Childress, Ozona banker and rancher, who is ill in a hospital at La Jolla, Calif., where he has been on a vacation trip with his family, indicate that the Ozonan is considerably improved and is expected to be able to return to Ozona in about two weeks.

Mrs. J. O. Taylor of Del Rio, Mrs. Powell Gibson of Waco and Miss Elizabeth Ake of Taylor were guests Tuesday of Mrs. Sherman Taylor.

A STORY WITH A MORAL

Doubtless you know of a story such as this will be, but there can be no harm in calling it to your attention again. There is a small town in the farming district of another State which was prosperous for many years and which amply supported a small local bank. The other day the directors of that bank decided to pay off all depositors, liquidate the bank, and close it up. The reason behind this move was that for the past six or seven years the bank could not, regardless of how economically and carefully it was operated, show even a small profit. One reason it could not make a profit was that it had difficulty obtaining sound loans at profitable rates and the chief reason it could not was because of numerous and various governmental lending agencies, situated in nearby, larger centers. The result was that this town lost the essential services rendered by a well-run bank, and one of the large taxpayers which had for years contributed a considerable amount of the taxes necessary to the town and county in which it was situated. The town is perceptibly on the down grade; all property values are less, and the town has lost a considerable amount of independence. Of course another bank, after considerable effort and expense, could be started, but under the circumstances will it be an asset? This sad little story, while true, is not cheerful reading. The only moral is to think before you support Government in banking in any form—or for that matter Government in any kind of business.—Bank Notes, In Kerrville Mountain Sun.

The LIVESTOCK SITUATION by J.A. McNAUGHTON

LOS ANGELES, Calif., Aug. 12.—Recently the head of a large industrial organization in the East made the statement that the livestock industry was passing out of the picture. He said that substitutes would be manufactured to take the place of meat. In his statement he said that by chemical process it would be possible to make a product which would be palatable and nutritious and in the same statement he said that the consumption of meat was rapidly declining.

I sometimes feel that people do not realize the importance of the livestock industry in our country. At this time the revenue from livestock and dairy products exceeds that of the automotive industry and the steel industry which generally are supposed to be the largest industries in the United States. There was a slight decline in the per capita consumption of meat during the depression because of curtailed buying power on the part of people who were out of employment.

The per capita consumption of meat averages around 140 pounds. The five year average from 1900 to 1905 was 133 pounds and this fell to 126 pounds from 1915 to 1920. During the post-war period this was increased to 141 pounds and in the past five years the average was 134 pounds. Taking an average since 1900 the per capita consumption of meat has maintained a fairly level balance.

Americans are descended from meat eating ancestors and when they have the money to buy meat they will buy it. There is no substitute for meat. None of us would care to have compound or something for breakfast instead of ham and eggs.

Naturally the head of a large industrial enterprise feels that industry is the most important element in American life. However, we in the West where we have eleven states that are adapted to livestock raising, feel that livestock is just as important as the production of automobiles or steel.

The figures show that two thirds of the livestock produced in the United States is produced West of the Mississippi River and two thirds of the meat consumed is consumed east of the

Texas Dental Health Program Is Planned

AUSTIN, Aug. 5.—Mouth care is an integral part of the nation wide public health program and the dentists of America are keenly aware that strong teeth of the citizens of tomorrow are dependent upon health education of today. Dr. Edward Taylor, director of the dental health division of the State Department of Health said recently upon his return from San Francisco where he was among ten thousand dentists from Canada, Mexico, and the United States attending the annual meeting of the American Dental Association.

Dr. Taylor heads a division of the Texas Health Department that was established in March and he has formulated a program to be launched at the beginning of the school year.

"We are beginning our work in Texas at an opportune time," Dr. Taylor said, "for there is universal recognition just now that no public health program is well balanced that does not include dentistry. Strong emphasis was placed by the association president, Dr. George W. Winters, on dental education in his address and it was urged that more attention be paid to dentistry for children, a field which has been neglected in the past."

Plans for a dental health program in Texas contemplate work in the public schools and free examination of the mouths of school children.

"It will be our aim," Dr. Taylor said, "to give every school child in Texas a reasonable knowledge of the part a healthy mouth plays in the growth, advancement, and general health of the individual. We will encourage early correction of whatever mouth defects are found. The Texas school survey likewise will include children who will enter school next year. Along with our school program will go a plan of education for the general public through the use of newspapers, radios, motion pictures, and public addresses. We bespeak the cooperation of the public in this work."

Mississippi River. The creation of large industrial centers has been a splendid thing for furnishing employment and payrolls but we should not forget that those industrial centers must be supplied with food and the Western states are the sources of supply for the industry consuming centers.

It is as true now as it was two thousand years ago that the prosperity of nations is in their flocks and herds.

WINS HONORS

Besides his bright prospects of being a member of the Army football squad during the coming season, Woodrow Wilson, son of Lee Wilson, former Ozona Buick dealer, has been the recipient of unusual honors as a cadet in United States Military Academy at West Point recently. Cadet Wilson was recently named among 45 other cadets of his class for advancement to the rank of corporal for the coming year. He was also one of five cadets chosen as commanding officers of the corps during the absence of the upperclassmen in special summer training in Georgia. During this month's period the former Ozona lad and star gridiron performer here, in Stanton and in El Paso, held the privileges and responsibilities of a commissioned officer in the corps. "Trench Mouth" Is Highly Infectious

AUSTIN, August 5.—"Trench Mouth," known scientifically as "Vincent's infection" of the mouth is a germ disease and highly infectious. It became so common during the World War and incapacitated so many soldiers as to have earned the name "Trench Mouth."

"This disease is transmitted in the same manner as a cold; that is, by direct contact with the mouth of an infected person or indirectly through the use of insufficiently cleaned eating utensils, dishes, glasses, and other articles that have been used by persons who have the disease," said Dr. John W. Brown, State Health Officer. "While 'trench mouth' may occur as a mild infection, it can, and often does, develop into serious illness. It occasionally ends fatally. Neglect of the hygiene of the mouth and teeth makes the mucous membranes of the gums and throat a favorite breeding ground for the organisms causing this disease. It can be prevented by keeping the mouth and teeth clean and in a healthy condition and avoiding the use of articles that may carry the disease germs."

"The early symptoms of 'trench mouth' usually include dryness and burning of the gums and throat. Later symptoms include bleeding and sore gums, bad breath, and mouth ulcers. As any of these conditions may be due to some other cause, a dentist or the family physician should be consulted promptly. If diagnosis is made and treatment started early, it is possible to check this infection before it develops into a severe form."

### Weed Growth Health Menace

AUSTIN, August 12—Texas has been fortunate this year in having beneficial rains in many parts of the State during the hot summer months. The rains, however, have made the weeds grow faster and left water standing in secluded places and has created an unsightly and insanitary condition in many communities.

"While many places are well kept, there are some individuals who do not realize the necessity of keeping the weeds down and eliminating the standing water so that mosquitoes cannot breed," said Dr. John W. Brown, State Health Officer.

"An appeal to the civic pride of the citizens in a community will often result in a clean-up campaign with astonishing results. Each individual can help by inspecting his premises to see that all nuisances are eliminated.

"The inspection for conditions which might need correction should include:

1. Weeds and long grass which spring up almost overnight this time of year.
2. Cans and other rubbish which might furnish a sufficient amount of water for mosquitoes to breed. Inspection of fish ponds.
3. Garbage should be disposed of in such a manner that flies will not be attracted.
4. Out-door toilets should be made sanitary.
5. Wells and cisterns should be

### Parole System At Conference

### Officials Of Other States To Attend Galveston Meet

STIN, August 12—The eyes of the nation have been turned on the parole system and Governor James V. Allred's novel experiment in setting interstate county parole boards for paroled convicts, it was announced today by W. W. Halcomb, chief of the State Department, in charge of the parole work in handling the parole boards.

As a result of this interest Governor Allred, at the insistence of the parole board leaders, has called the Southwest States Parole Conference which will be held in Galveston, September 2nd and 3rd. The conference will discuss state laws governing parole and will also discuss interstate supervision and uniform procedures for the parole of men from penal institutions. The theme of the conference will be "Breaking the Vicious Circle of Crime." It is expected that as a result of the conference the delegates will be in a position to suggest helpful legislation in their respective states.

Governors, other than Governor Allred, have either expressed their intention of attending or are representatives. ### Why Gulf is the Gas for August

WHY NOT BEAT AUGUST HEAT by driving someplace for a swim? And if you want to keep your gas bills down, don't forget you need a fuel with a formula that fits hot weather. Otherwise your gas doesn't burn completely—part of it escapes through the exhaust unburned, wasted. Stick to That Good Gulf in August—it's "Kept in Step with the Calendar"—specially refined for summer driving. All of it goes to work, none of it goes to waste. Try Gulf and see!
