## Lions To Face First Crucial Tilt Saturday

### To Open District Race Against Junction On Local Field

The warm-up period is over for Coach Ted White's Ozona Lions, and the 1936 High School gridiron crew will get down to business Saturday afternoon on the Jewell Field grid for the first district conference contest of the season, with the powerful Junction Eagles furnishing the competition.

So far this season, in three non-conference games, the Ozona gridiron warriors have broken even, with one loss, one win and a tie. Losing the first game 14-6 to the Iron Braves, the Lions nosed out the Big Lake Owls 14-6 on the Owl field a week later, and battled the San Angelo Kittens to a scoreless tie here last Saturday.

With a defensive team that has shown remarkable improvement during the past week, and some concentrated effort being made to perfect some new ground-gaining plays that will put tallies on the Lions side of the score board if worked effectively, Coach White is putting high hopes in his charges coming through for the first victory in district combat here next Saturday afternoon.

As the Junction team is always tough for Ozona squads, the local lads are looking forward to a hard fight through every minute of the game. But with improvement shown last week-end and a full week of pointing for the Kimble type of football, the Lions should be able to give the invaders plenty of entertainment.

The colorful Pep Squad, band and drum corps of the Ozona school is planning its sideline battle for the coming contest, with new yells, new songs and new between-half stunts that will add color to the afternoon's program. The biggest crowd of the season is expected by school officials for this first district conflict.

## Season's Second Norther Fails To Bring Rain Here

### Hail And Light Falls Moisture Reported In Area

The weather man gave Ozonans another taste of what is in store for the next few months when the second norther of the season rode in Tuesday afternoon to send temperatures sharply downward.

Rains which fell in some sections ahead of the temperature drop failed to materialize here, a light sprinkle being the extent of the moisture fall. Hail accompanied moisture in scattered sections of West Texas Tuesday night.

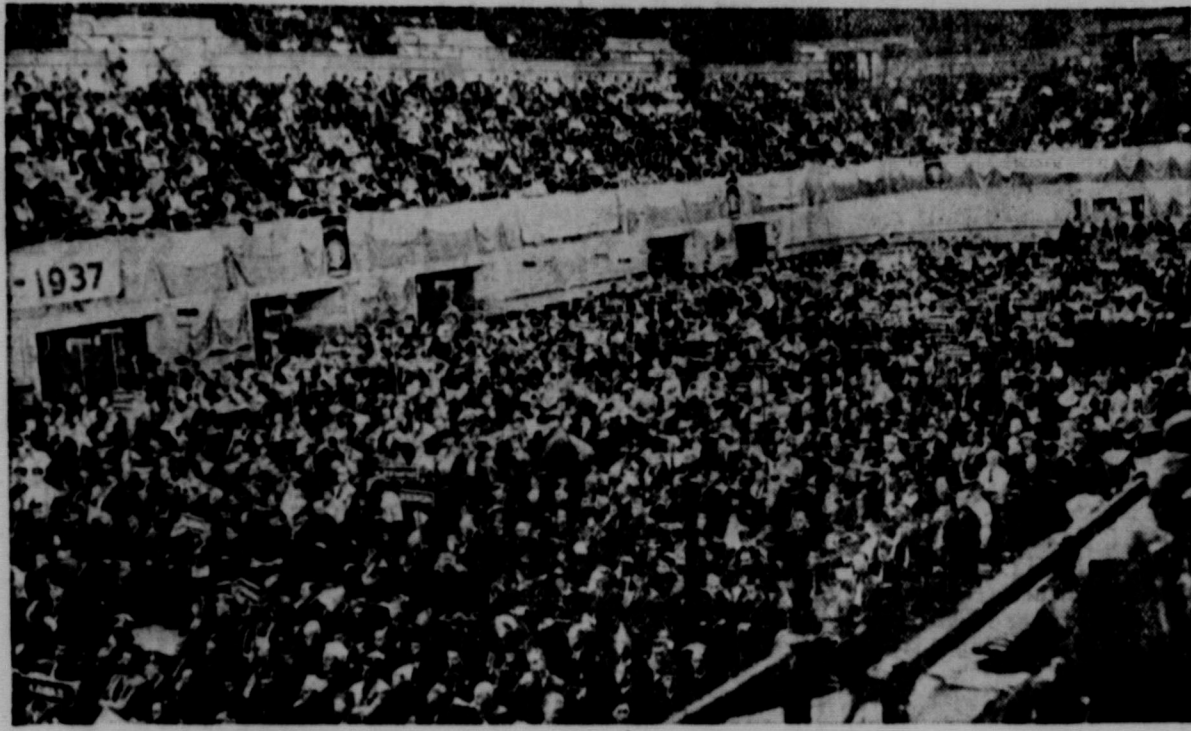

## Bode To Speak At Methodist Church Sunday

### San Angelo Probation Officer Fills Local Pulpit

E. W. Bode, city-county probation officer at San Angelo, will deliver the sermon at the Methodist Church service here Sunday morning, according to an announcement received by Dr. J. A. Fuschell, chairman of the pulpit committee of the church, from Rev. L. U. Spellman, presiding elder.

"Mr. Bode is a man with a rich and varied experience in the line of dealing with youth and its problems," the presiding elder wrote. "I think your people will enjoy

## American Legion Convention in Session

General view of the Cleveland auditorium with the American Legion annual convention in session. More than ten thousand veterans were present.

## Lions Deadlock With Kittens In Scoreless Draw

### Locals Battle Gamely But Lacked Scoring Punch

Coach Ted White's battling Lions fought the San Angelo High School Kittens, Coaches Coleman and Taylor's second string crew, to a standstill on the local gridiron last Saturday afternoon in the first exhibition of the 1936 edition of the Lions on home soil.

The Lions should have copped the contest by a touchdown margin but for one of those "breaks" that come as the lot of a football team. It was in the first quarter that the locals worked the ball deep into San Angelo territory. Then a pass was flipped over the goal line and sacked by an alert Lion receiver. The shout died in the throats of Ozona partisans when the head linesman called the play back—both sides off-side.

Four more attempts for the tally failed and that break proved the difference in a tie and victory for the Lions. In that first quarter the locals seemed to have an offensive punch that was destined for victory, but reinforcements sent in from the Kitten bench stiffened the invaders' defense and the last half of the game saw the Lions playing a superb defensive game to prevent a Kitten score.

The Lions made a spectacular goal-line stand at the end of the first half, gaining possession of the ball on their own goal line a few seconds before the half ended. Again in the fourth quarter the locals were backed against their goal posts only to replace the Kitten attack and work their way to enemy territory before the final whistle.

## BUDDING INTO A DOCTOR IS DECLARED "NO SNAP"

Difficulties of a first-year student in medical school are recounted by Marvin Rape, son of Mr. and Mrs. I. G. Rape, of Ozona, in a letter to his parents this week. Young Rape is a student at Tulane University School of Medicine in New Orleans. Medical school is by no means a snap, the Ozona lad writes, but he is "digging in" to master the mysteries of anatomy, histology and related subjects.

## Rider's Leg Broken When Horse Falls

Bill Chapman, employed on the Joe Davidson ranch in this county, suffered a broken bone in his right leg Monday when a horse fell with him on the ranch.

Chapman was brought here for treatment. X-Ray examination showed the small bone in the leg fractured.

## H. E. Department Gets New Electric Sewing Machine

Complete modernization of the Home Economics department of Ozona High School went a step nearer realization during the past week when two new Singer cabinet type electric sewing machines were added to the department equipment.

The two new machines replaced two old treadle type machines that have been in use in the department for several years. The department has four machines, two of the treadle type and the two new power driven machines. Miss Ada Moss is instructor in this department.

## Huge Man Ape Is Feature Harley Sadler's Circus

### 300-pound Beast Exhibited By Show Here October 19

Like a living counterpart of the movie make-believe ape-man of huge proportions, an arm reach of fourteen feet, ten-inch fingers with a hook at each fingertip, a flat face that resembles that of an old man, and a 300-pound body covered with short coarse fur, is the giant man-ape which is a featured attraction of the Harley Sadler Circus which comes to Ozona Monday, October 19, for an afternoon and evening showing.

John Ringling, acknowledged circus king, paid over twenty

thousand dollars for an animal such as described above about twenty years ago, and after exhibiting it in this country for six months, the beast died. Since then there has not been another such freak animal in America, not even in the metropolitan zoos or parks.

The owners of Harley Sadler

## Fire Prevention Week Is Observed In Local Schools

### Posters Made, Hazards Studied, Drills During Week

Fire Prevention Week, October 5-12, a state-wide observance, is being observed in the Ozona School system this week with a variety of activities, reports Supt. C. S. Denham.

Fire prevention posters, illustrating pictorially and by slogans, the various fire hazards and how to eliminate them, are being made in the various grades. The fire prevention posters are to be exhibited in the Spring and the winning posters of each participating grade selected and outstanding examples of student work sent to Austin for competition in a state-wide contest.

In addition to poster work, the schools are making a special study of fire hazards during Fire Prevention week, general rules pertaining to the handling of inflammables, such as gasoline, etc.

The first fire drill in the grade school will be held this week. The Mexican school is observing the same fire prevention program and will take part in a fire drill during the week.

## Junior High Pupils To Be Presented In Assembly Program

Pupils of the Junior High School will present the program at the assembly hour in the High School auditorium this afternoon. Principal Rex Johnston sponsoring and announcing the program.

The program will open with two numbers by the Junior High Girls Glee Club, directed by Miss Edith Tilory, public school music teacher. The Glee Club will sing "Wah Wah Tay Lee," an Indian melody and "Stars of the Summer Night."

Adele Keeton will play two themes from Beethoven at the piano, followed by violin ensemble numbers, "Long, Long Ago" and "Home Sweet Home" by a group composed of Charles McDonald, Billy Hannah, Donita Stahl, Louise Bean, Bill Carson and Stanley Lemmons. Mrs. Bryan McDonald will accompany at the piano.

A piano selection, "Cotton Pickers," by Lottie Jo Owens a guitar solo, "Home on the Range" by L. B. Cox, III, and a piano number, "Uncle Cy's Fiddle" by Margaret Russell will complete the program.

## SHOULDER FRACTURED

I. V. Garrison, Jr., son of Rev. and Mrs. I. V. Garrison, suffered a fracture of a bone in his left shoulder last Thursday afternoon in football practice.

## Doctor's Luck?

### Finding Of Rare Coin By Ballinger Physician Recalls Ozonan's Similar Find

Whether luck follows the profession or it is merely a coincidence is a matter of conjecture, but the fact remains that two West Texas physicians have been the "one in a million" to find the elusive and most sought after rare coin in these United States—the 1913 Liberty Head nickel.

It is to be hoped, however, that he has better luck with his find than had Dr. H. B. Tandy, Ozona physician and surgeon, who a few months ago, discovered one of the few coins of this date and design in circulation, among the coins in his possession. The coin the Ozona physician found had been badly worn and the final "3" in the date was indistinct. Examination under a magnifying glass, however, revealed the date unmistakably. The coin was sent to a Fort Worth dealer. In a letter to Dr. Tandy returning the coin, the numismatic expert declared the coin was of the 1913 date but advised it was valueless on account of its damaged and worn condition. And poof went the bubble of hope, but Dr. Tandy says the thrill was worth something.

Continuing its travel program, the Junior Woman's Club will meet this afternoon at the home of Miss Hester Bunger, with Mrs. M. Wilkinson as assisting hostess, and Mrs. J. O. Lusby as program leader.

France will be the study topic for the day, Mrs. Lusby discussing the city of Paris, Miss Myra Bishop the battle fields of France, Mrs. Ralph Jones, "Scenes from France" and Mrs. Lowell Littleton the Grand Duchy of Luxemburg.

Mr. and Mrs. J. W. North were Centennial visitors in Ft. Worth and Dallas last week.

Mr. and Mrs. W. A. Kay are making improvements in their ranch home including the addition of a porch and bathroom.

## Junior Woman's Club To Meet Today With Miss Hester Bunger

Continuing its travel program, the Junior Woman's Club will meet this afternoon at the home of Miss Hester Bunger, with Mrs. M. Wilkinson as assisting hostess, and Mrs. J. O. Lusby as program leader.

France will be the study topic for the day, Mrs. Lusby discussing the city of Paris, Miss Myra Bishop the battle fields of France, Mrs. Ralph Jones, "Scenes from France" and Mrs. Lowell Littleton the Grand Duchy of Luxemburg.

## Mr. and Mrs. J. W. North were Centennial visitors in Ft. Worth and Dallas last week.

Mr. and Mrs. W. A. Kay are making improvements in their ranch home including the addition of a porch and bathroom.

## September Is Record Month For Rainfall

### 3.8 Inches For Month Brings Year's Total To 12.1 Inches

Although nothing to brag about in comparison with records piled up in certain sections of West Texas during the month, September was the wettest month of 1936 to date according to the rainfall record kept from the gauge at the Joe Oberkamp store here.

The month brought a total of 3.8 inches of rain, most of that total coming in an all-night rain two weeks ago. Sections of the country had several times that much fall, but the average for the county was generous, with no area slighted. The September rains brought the year's total to 12.1 inches.

Up to September, the month of May had held the year's record, with 2.7 inches, July a close second with 2.5, January and February produced only .3 and .4 respectively. March brought 1.3 inches and April 1.1. June and August were the dry months, no rains being recorded for these months.

## MEXICAN DIES IN CAR WRECK WEST OF CITY

### Atanacio Guevara Victim Of Crash; Driving Alone

#### THROWN 25 FEET

### Victim's Head Crushed Body Is Found In Bar Pit

Atanacio Guevara, about 40, Mexican sheep shearer and laborer, was almost instantly killed shortly after 5 o'clock Wednesday afternoon when the car which he was driving turned over on Highway 27 about 20 miles west of Ozona.

Guevara was alone in the car, a Ford pick-up, and was headed toward Ozona. The car turned three complete somersaults before coming to rest in the bar pit. Guevara was thrown more than 25 feet from the overturned car, landing in the ditch.

Mr. and Mrs. Tot Grimmer were the first on the scene after the accident. When they stopped, the injured man was still breathing, but died a few minutes later. Mr. Grimmer went to a nearby ranch and telephoned here for a doctor and ambulance. The Joe Oberkamp ambulance, Sheriff W. S. Willis, W. M. Johnigan and Dr. Sellers Moore went to the scene and brought the body back to Ozona. Head and internal injuries caused death.

Persons who examined the scene of the accident were unable to determine its cause. Tire marks on the highway indicated the car was weaving from side to side of the road for more than a hundred yards before it left the road. The pick-up, which belonged to Guevara, was badly damaged.

Guevara had \$37 in cash in his pocket, receipts from a shearing job, it was presumed.

## New Management Takes Over Two Ozona Theatres

### Dewitt Haley To Operate Show Houses Under Lease

Management of Ozona's two theatres, the Palace and Ozona Theatres, passed into the hands of Dewitt Haley with Sunday's program. It was announced this week by J. R. Kersey, owner of the local show houses.

Mr. Haley, who has been a resident of Ozona the past several months, is an experienced show man, having been in the business in Abilene several years and until recently was general manager of the Ritz and Royal Theatres in San Angelo, operated by the R. & R. string. While in San Angelo Mr. Haley conducted the Mickey Mouse Club, an organization with a membership of 2300 youngsters, sponsored by the theatres and other show houses.

## Mrs. Ben Robertson To Be Hostess To Woman's Club Tues.

Mrs. Ben Robertson will be hostess to members of the Ozona Woman's Club at the first October meeting of the group next Tuesday afternoon.

The subject for the day's travelogue study will be "The Riviera Into Italy." Mrs. A. C. Hoover will discuss the topic, "The Riviera, Geography, Beauties and Livelihood," and Mrs. I. G. Rape will describe the cities of Naples, Florence and Milan. A vocal solo by Mrs. Joe Pierce will feature the musical entertainment of the afternoon. The course in English usage will be directed by Mrs. George Bean, club president.

Scarlet Fever Is Serious Disease Health Head Says

AUSTIN, Oct. 7—Scarlet fever is prevalent in many parts of the State, according to reports sent in to the State Department of Health. "The most effective means of preventing the spread of scarlet fever rests with the parents," Dr. John W. Brown, State Health Officer, said. "In the majority of cases the infective agent which causes scarlet fever is transmitted in the discharges from the nose and throat."

"Contagion most usually occurs by direct contact through droplet infection or by handling of contaminated objects, such as toys or clothing infected by the patient. No one should be needlessly exposed to scarlet fever. You can protect the others in the family if you are careful."

"Scarlet fever is one of the most serious of children's diseases because of the damage it so often does to the heart, the kidneys, and the liver. If parents could be taught to realize that the after-effect of most so-called children's diseases often is more serious than the original illness, greater care would be taken to protect children from catching each others' diseases."

"Early signs of scarlet fever are sore-throat, restlessness, chills and vomiting. The child has fever and his skin is dry and hot. These early signs are followed in a day or two by a rash. At the first sign of illness, put the child in a room by himself and do not allow others to come near him. Call your family physician and follow his instructions as to food, clothing, and general care."

"The physician is required by law to report the case to the health department. Do your part by following carefully the quarantine instructions which the health officer will give you."

Stranger: "Will you please sit down in front so I can see this baseball game?"

Fan: "Sorry, sir, but I'm not built that way."

POSTED: All my lands in Crockett County, Hunting, wood hauling or any form of trespassing will be vigorously prosecuted. BERT COUCH. 8-1-37

TALMADGE ON SKIDS

(Ft. Worth Star-Telegram)

The setback administered to Governor Talmadge by his Georgia constituents indicates that the skids are under another of the noisy figures who make American politics interesting. The Georgian, like others of his ilk, could not be comfortable with somebody else heading the parade. He must organize a parade of his own, in which he would beat the drums to his own glory. The type is readily recognized and often encountered on the American political stage. Georgia, by voting more than 2 to 1 against him in Wednesday's senatorial primaries, indicates that State, as well as others, is rather tired of encountering this particular type.

Talmadge has patterned himself in most respects on the late Huey P. Long, who was probably the most successful national exponent of the type in recent years. Had he lived, Long might have become even more powerful. He had the Louisiana voters—or at least a majority of them—completely in his hands.

Other contemporary examples of the type are also spiritual inheritors from the Huey Long estate. He was the originator of that which is the central idea of all such pranksters on the political stage as Coughlin, Townsend, the bucolic evangelist Smith, Upton Sinclair and others. The idea is that most people, to whom money is a mystery anyway, might be led to believe in money magic through political mumbo-jumbo. Long had his "share-the-wealth" plan. Townsend would make everybody rich by enthroneing velocity in the place of production as the core principle of money. The good radio priest would get our money out of the grip of the bankers by the simple procedure of printing additional greenbacks whenever cash was needed. Sinclair would establish prosperity in California and elsewhere by a quite complicated system of juggling with money, factories, farm and so on. Smith, ex-lieutenant of Long, is not quite sure now what he wants, his ownership of the share-the-wealth idea having been disputed.

The South has been a fertile field for the production of political leaders of the Talmadge type. There was, and is, Bilbo of Mississippi, there was, but no longer politically is, J. Thomas Heflin of Alabama. There was Cole Bleese and "Pitchfork Ben" Tillman of South Carolina. There was Tom Watson of Georgia. Texas had its share of the type, as has Oklahoma.

Watson was elected to Congress as a Populist in 1890, was the Populist candidate for Vice President in 1896, receiving 27 electoral votes and the Populist presidential candidate in 1904 and 1908. His Populist colleagues in Congress from the Middle West, including the delightful "Sockless Jerry" Simpson of Kansas, proved that the South did not enjoy a monopoly on statesmen of the type. The current trend seems toward definite ascendancy of other regions, notably California and Detroit.

Aside from its importance as indicating the passing of an aberration which has afflicted Georgia voters for some years, the Talmadge defeat delivers another blow to the fantastic notion that some Southern States might be on the point of deserting the Democratic ranks this year. The issue in Georgia was rather clear-cut, with Talmadge identified as anti-Roosevelt and Senator Russell as standing for full support of the President.

PUBLIC HEALTH WEEK

"During October state-wide attention will be called to two important matters. One is Fire Prevention, which will be emphasized the week of October 4 to 11, and the other will be Public Health, to be stressed the following week."

"Already attention has been called to Fire Prevention week and

to the type of program that will be followed. Due to the work that has been done along this line and the results achieved, the idea that fire prevention pays good dividends is pretty generally sold.

"But there is room for much work in selling the idea that public health should be of profound interest to every resident of Texas—that disease must be controlled as nearly as possible if the individual and the home is to be protected."

"One of the points for residents of Texas to consider is that the state is niggardly in its expenditures to protect the health of her citizens, in comparison to what she spends for the protection of the livestock industry, for example."

"Through the Livestock Sanitary Commission, the State Agricultural Commission, the United States Department of Agriculture and other agencies, such as the Texas Agricultural Experiment Station, a much greater amount of money is spent annually in Texas for the protection of the livestock industry than is spent for the protection of the citizenship of the state."

"Science has demonstrated that

For COAL — WOOD SAND & GRAVEL See W. C. BROCK 25-4tp

many diseases that take a heavy toll of treasure and life may be eliminated if proper steps are taken. In Texas some work along these lines is being done, but nothing like what should be and the citizenship of the state pays the penalty. It is important, of course, that the livestock industry be protected, but there is neither rhyme nor reason on protecting cattle from the fever tick, for example, and not making at least as great an effort to protect the owners of the cattle from malaria.

"Texas does not have an enviable record, so far as death losses from preventable diseases is concerned. This is due in large measure, to the lack of work that is

done to protect her citizens. Of the objectives of Health Week should be a New Deal that would seek at least as great a measure of protection from disease for women and children, as is given the beasts of the field."—Bryan Eagle.

# Liquor Amendment Makes State Sales Agent; Teacher Retirement Proposal Would Build Up Joint Pension Fund

EDITOR'S NOTE—Below is a discussion of the first two of six proposed amendments to the Texas constitution to be voted on by voters of this state at the general election November 3. The following interpretation of the meaning of the proposed amendments was prepared by B. P. Matocha, secretary of state, and is an impartial summary of the provisions of each proposal. The secretary's summary of the proposed amendments is published for the information of voters in casting an intelligent vote on the issues, and an argument for or against any of the proposals. Similar explanations of other amendments will be published in future issues.

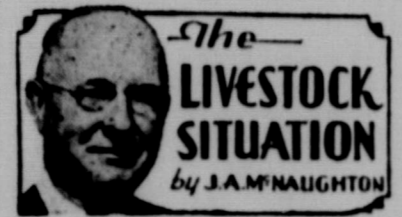

## S. J. R. No. 3-A Amendment No. 1 On Ballot

The first proposed Constitution Amendment to face the voter November 3rd is S. J. R. No. 3-A, which provides for a State dispensary system to have exclusive sale of distilled liquors and all profits from the sale of such liquors would go to the State. The sale of spirituous distilled liquors for private profit, as is now the case, is prohibited within this State by this Amendment, except for such sale is made to the State, according to B. P. Matocha, secretary of State. It is further provided that the State of Texas shall have the exclusive right to purchase at wholesale and to sell at retail such distilled spirituous liquors. Such sale shall be made in unbroken packages and no liquors shall be consumed on premises where sold. The difference between the proposed plan and that now in effect would simplify the ownership, i. e. by the State rather than the individual. The State would maintain various places of business for the purpose of the sale of such liquor directly to the consumer. These places of business would only be maintained in the counties, precincts or incorporated towns where by local election such sale has been made legal. Local option as now in effect could not be changed by adoption of the amendment. The sale of alcoholic beverages containing not more than 3.2 per cent alcohol which has been legalized in such political subdivisions shall not be prohibited by this section. This Amendment further provides that the open saloon shall be reestablished. It is also provided in this Amendment that the Legislature shall have the power to regulate the sale for private profit and possession of distilled liquors for medicinal, scientific and mechanical purposes.

## S. J. R. No. 18 Amendment No. 2 On Ballot

Proposal No. 2 effecting a change in the State Constitution S. J. R. No. 18 providing that the Legislature shall have the right to levy taxes to provide a retirement fund for school teachers and persons employed in public schools, colleges and universities supported wholly or partly by the State. According to the interpretation Secretary of State, B. P. Matocha, it is provided that the State shall contribute to such Retirement Fund an amount equal to that paid for the same purpose from the income of each such person. It is a matching plan. Each person so employed in such State schools, colleges and universities is likely to be required to set aside a portion of their salary and the State will set aside a like amount. The Amendment further provides that the amount contributed to the Retirement Fund by the State shall not exceed at any time 10 per cent of the compensation paid to each such person by the State or school district, and shall not be more than One Hundred Fifty Dollars for any one person in one year. No person shall be eligible for pension under this Amendment who has not taught twenty years in the State of Texas, but those who retire before they have taught a period of twenty years in this State and who have been contributing to the Retirement Fund shall be entitled to a refund of the money paid into the fund. All funds provided from the compensation of said persons, or the State, for such Retirement Fund, as are received by the Treasury of the State of Texas, shall be invested in bonds of the United States, the State of Texas, counties or cities of this State, or bonds issued by any agency of the United States Government. The principal of the investment on which is guaranteed by the United States Government. Persons who are the recipients of pensions from such Retirement

Fund shall not be eligible for any other pension retirement funds or direct aid from the State.

LOS ANGELES, Calif.—This is the season of the year when range cattle are coming off pastures and ranges throughout the great cattle country in the western states. A large proportion of these cattle are not suitable for immediate slaughter and therefore are normally purchased by cattle finishers, who carry the cattle along on various feeds until they are ready for slaughter. The better quality cattle usually go into dry lots where they are developed into choice and prime beef on grain rations. Many thousands go onto irrigated pastures in Arizona and California, with another great contingent purchased for development on range feed.

Due to the drought in the great corn belt area this year, many of the middle western cattle feeders are unable to feed out normal numbers this season. It is generally estimated that the corn crop is about 50 to 60% normal with the result that such feed is relatively scarce and rather high in price. It is certain that there will be a reduction in demand for middle western feed lots; just what the reduction may be, nobody actually knows.

A good many cattlemen do not believe that the demand for feeder cattle is as restricted as might be assumed when it is stated that the nation's corn crop is virtually cut in half. For it must be remembered that the nation's hog supply is greatly under normal; therefore a great quantity of corn that normally would be needed for pork production may be used for cattle feeding. Besides, the middle west has a considerable amount of forage suitable only for cattle feeding. Another important factor is that high corn prices in the United States permit Argentine corn to come into this country despite a high tariff wall.

Considering all of these things, it is barely possible that the industry has underestimated the ability of the country to feed cattle. Range cattlemen sincerely hope that this is so for the present level of range cattle prices is none too satisfactory.

Mr. and Mrs. Babe Phillips left Monday for Dallas, where Mr. Phillips will enter a hospital for further treatments for his injured foot.

Mrs. Phillip Lee Childress returned early this week from a visit with her parents, Mr. and Mrs. H. P. Vaughn near Coleman.

## Famed Characters Will Greet Pupils

Two famous characters from history and fiction will greet Texas school children who visit the Centennial Exposition in Dallas this fall. They are Alice In Wonderland and Queen Elizabeth. Alice, from the Tony Sarg Marionette Theatre, is seen here lighting Queen Elizabeth's pipe. Her Majesty rules over Merrie England where the Globe Theatre and Falstaff Tavern are located. Both Queen Bess and Alice have made special preparations to welcome Texas pupils from this district to the world's fair.

## JEFFERSONIAN DEMOCRATS

### Offer Proof Of Anti-New Deal Charges

We recently made charges in this paper that Mr. Roosevelt and his administration were not Democrats, and had no claim to Democratic loyalty. We charged that continuation of his administration would undermine the economy of the nation, and threaten its institutions. We charged that he had opened the sluice-gates of the federal treasury, and, through Boss Farley, had Tammanized the nation. We charged that he had surrounded himself with radicals, and had more nearly discharged their radical platforms than his own. We are offering the proof of our charges through our paper, the Jeffersonian Democrat.

We reassert that we are regular Democrats. We would prefer to vote the regular ticket. But we refuse to put party loyalty above our loyalty to America. In scratching Roosevelt we violate no party pledge, for the primary ballot contained a pledge to vote for the nominees of that primary. Mr. Roosevelt's name was not on that ballot. Furthermore, the Texas law instructs the voter how to cast a mixed ballot, and the Supreme Court has upheld that right.

We ask all true Democrats to weigh the proof before voting for a continuation of government by irresponsible radicals. Unlike the New Deal we have no ready made organization to spread our propaganda and raise money for our campaign. We will appreciate your support and whatever donations you can make us.

Write us for copies of The Jeffersonian Democrat, and help us distribute it throughout your county. J. EVETTS HALEY, Chairman Jeffersonian Democrats of Texas, Austin, Texas. (Advertisement)

## 'Thorn' In Heart Of Log Credited To 1896 Cyclone

SHERMAN, Oct. 6.—Many freaks were reported in the Sherman tornado of May 15, 1896, and a phenomenon discovered last week may have originated in that storm.

At least, there is no other logical explanation of a locust tree thorn buried in the heart of a locust tree trunk.

Park Department workers cut down a locust tree in Houston Park. When the trunk, 18 inches in diameter, was split open, a perfect forked thorn, one prong an inch and a half long, was found imbedded in the heart.

The thorn did not break when the wood was split, the formation

around the thorn being similar to that around a knot.

Workers counted the rings in the trunk and estimated the tree was 35 years old. They guess the thorn was blown into a locust sapling 40 years ago during the cyclone.

V. I. Pierce is attending the stock show in Fort Worth this week.

Rev. and Mrs. Ira V. Garrison were San Angelo visitors Tuesday.

Miss Louise Crowder has accepted a position as clerk at the C. G. Morrison Co. store here. Miss Crowder rejoined her father, W. E. Crowder, who recently returned after making their home in San Angelo for the past year.

A healthy man must feel unhappy when he listens to the medical ballyhoo on the radio and realizes how easily, surely and pleasantly he could be cured of many interesting ailments, if he only had them.

# For Your Protection

## A REGISTERED PHARMACIST

Your druggist stands between your doctor and your loved one when sick. We know this is no time to guess and we now, as always, will not permit any chance to be taken on your prescriptions.

We have never permitted any soda or front man to fill prescriptions at our store, allowing only REGISTERED, GRADUATE PHARMACISTS to work behind our case.

Let us fill your prescriptions with the assurance that the work will be done by Experienced, GRADUATE PHARMACISTS ONLY.

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. As evidence of good faith inquiries must give their names and addresses, but only their initials will be printed. Address inquiries to Will H. Mayes, Austin, Texas.

Q. Which was the first railroad built into Dallas and when? O. H. A. The Houston and Texas Central was the first to reach there, in 1872.

Q. What were the first schools of note established in San Marcos? J. K. N.

A. Coronal Institute was built in 1874 and Mary Henry Academy for girls in 1886.

Q. When did Lampasas attain its greatest reputation as a health resort and to what was it attributed? H. G. D.

A. In the early 1880's immediately following the building of the Santa Fe road there, when its fine sulphur waters were extensively publicized and a resort hotel was built overlooking Hanna Springs Park, which attracted visitors from all over Texas. The hotel later burned and was not rebuilt.

Q. There are several legends as to the origin of the Texas Bluebonnet. Please relate the one as to the Jerusalem origin. C. O. K.

A. This tradition is that the seeds were brought from Jerusalem to Mexico and planted on grounds of the first Spanish missions, from where they soon spread to Texas and became a richer, deeper blue on Texas soil, rioting in colors that even excelled the native Texas phlox in beauty.

Q. When was Stephen F. Austin elected from Texas to the Texas-Cochilla Legislature and where was he at the time? R. G.

A. On Sept. 7, 1834, he was elected, while in prison in Mexico, to represent the newly-created Department of the Brazos.

Q. When was the telephone first used in Texas for commercial purposes? G. R.

A. Sept. 10, 1877, in a telephone conversation between the Western Union telegraph office at Galveston and the Galveston News.

Q. Will you give the exact dates of the destructive storms at Indianola, Calhoun county? A. S.

A. The first, which left most of the town of 2,000 in ruins, was on Sept. 15, 1875. The town was rebuilt, and the second storm more violent than the first, completed the work of destruction, Aug. 20, 1886, resulting in the abandonment of the place.

Q. What was the first county seat of Shelby county, and when and how was it removed to Center? T. T. B.

A. When the county was organized in 1837, Shelbyville was made the county seat. In 1866, R. T. Parker, then county clerk, drove a stake in the pine forest seven miles from Shelbyville, contending that as this was the center of the county it should be the county seat. He secured the holding of an election to move the county seat to the stake. The stake won. A local war was almost precipitated, but Parker slipped the county records to the new location at night, and opened his office next morning in a tent. The place became known as Center.

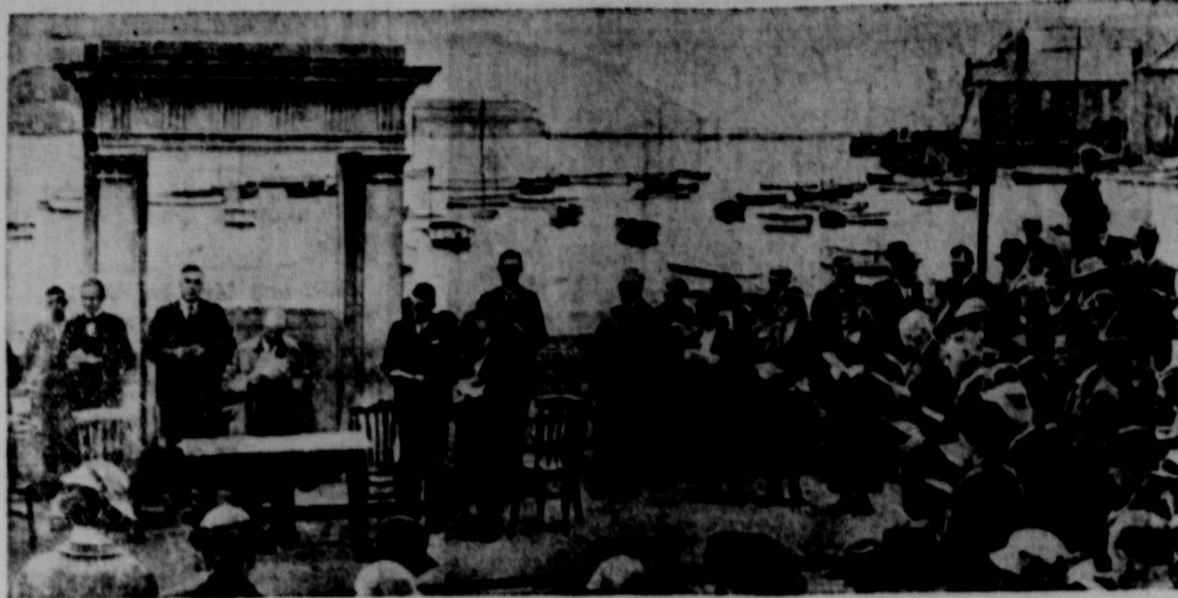

Q. When was Marion County organized, from what territory, and for whom was it named? N. N.

A. Marion county, the area of which was once in Red River county, was organized in 1860 from Cass and Harrison counties, though Jefferson, the county seat, was founded as early as 1836. It was named for Gen. Francis Marion, known as the "Swamp Fox" of the American Revolution.

Q. When was the town of Bowie incorporated and for whom was it named? E. B.

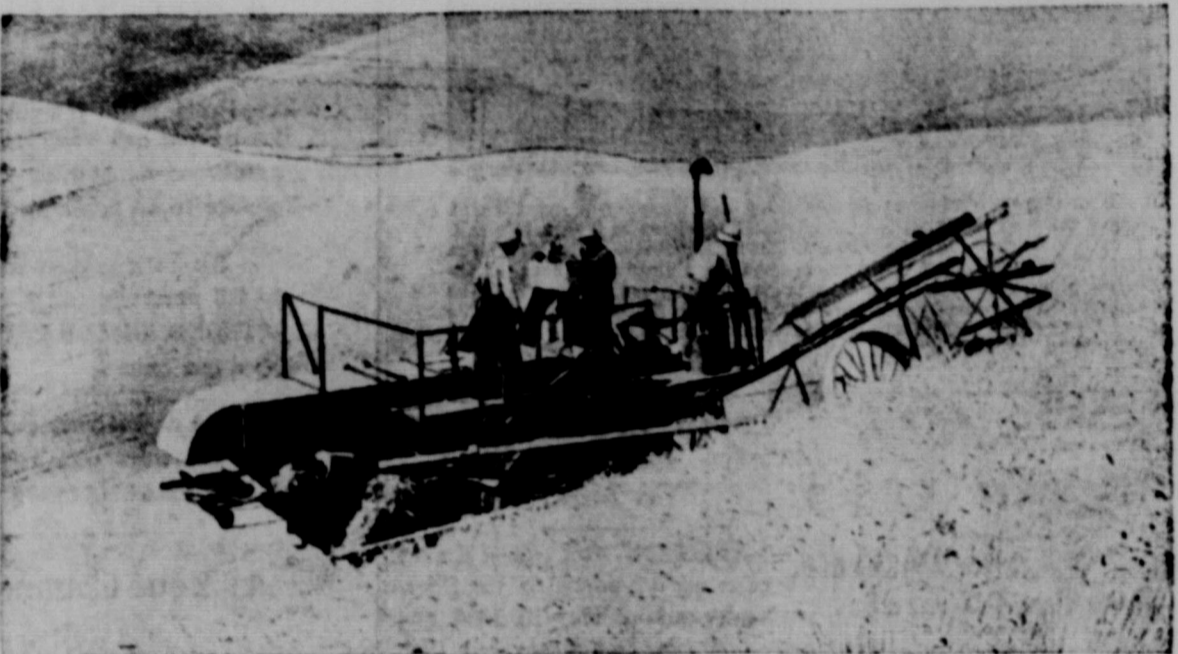

A. Incorporated in November, 1883, and named for James Bowie, hero of the Alamo, who had previously distinguished himself in the

### In Memory of the Sailing of the Mayflower

Representatives of American and British societies celebrated the anniversary of the sailing of the Mayflower in 1620 at the actual spot of the ship's departure at Plymouth, Devonshire, England, from which the historic craft set sail.

### Bumper Crops in the Pacific Northwest

While North Central states recount their drouth losses, the Pacific Northwest harvests bumper crops. In this picture, made near Walla Walla, Wash., a combined harvester-thresher is seen clinging to the steep hillside as it moves in narrowing circles around the field.

Indian fight on the San Saba, in the battle of Concepcion and on other occasions.

Q. What official position does Alvin M. Owsley, of Denton, hold? V. E. S.

A. He is U. S. Minister to the Irish Free State.

Q. How did Vice President John Garner come to be known as "Cactus Jack"? O. H.

A. He was a member of the Texas Legislature in 1901 when the Colonial Dames of Texas had a bill introduced to designate the Bluebonnet the Texas flower. Garner moved to substitute the cactus for the bluebonnet and a lively debate ensued; resulting in the nickname of which he is still proud, regarding it as a symbol of hardihood.

Q. What two Texas brothers were noted generals in the War Between the States? O. G.

A. Gens. Ben and Henry McCulloch, sons of Alexander and Francis McCulloch, who came to Texas from Tennessee. Gen. Ben McCulloch, for whom McCulloch county was named, fought as a private at San Jacinto, represented Gonzales in Congress in 1840; was United States Marshal of Texas in 1853. He was killed at the battle of Pea Ridge, Ark., March 24, 1862; was buried first at Waxahachie, and his remains were later moved to Austin. The parents moved from Gonzales to Ellis county about 1854.

Q. What is the story of the two

iron posts, once linked together by an iron chain, in Oakwood cemetery, at Jefferson? R. T.

A. A blacksmith named Rose and a gambler named Robertson killed each other in a fight over a woman both loved. They were buried side by side and the two posts, chained together, marked their graves. The chain has either fallen away or been removed, but the posts still stand.

#### CENTENNIAL SONG BOOK

In the homes, in the schools, in public gatherings of all kinds, Texans are singing the best known typical songs of Texas—songs of the range, songs of the Texas home, patriotic songs—songs every Texan should know and delight in singing.

Twenty-eight of the best songs sung in Texas have been carefully selected by competent musicians, set to music, and published in a 36 page, 6 by 9, booklet on heavy coated paper with covers in colors. Mailed postpaid for 25 cents.

Will H. Mayes, 2610 Salado Street, Austin, Texas.

I enclose 25 cents in coin, for a copy of the "Centennial Song Book" Name \_\_\_\_\_

### They Lost Everything

Every minute of the hour, every day of the year, there is a home burning somewhere in the United States. These fires are causing heavy losses both in property and life. Mothers, fathers, children, babies and even entire families have been wiped out by this great menace—fire. Homes, schools, churches and autos are lost every year because of fire. Over 75 per cent of these fires are preventable, but preventable or not, you'll want to be fully protected. You may think everything is fire-proof around your home, but remember the 25 per cent that were unpreventable. DON'T TAKE THE CHANCE AND LOSE EVERYTHING. HAVE FIRE INSURANCE! IT COSTS SO LITTLE, BUT MEANS SO MUCH.

**Spellbinder**  
**Went To Savage**  
**And His War Whoop**

CHICAGO—The shouts of political spellbinders and the war whoops of savages were placed in the same "noise" category by Dr. A. Neymann, professor of psychiatry at Northwestern University.

Dr. Neymann, who served the same sentence as the orators and barbarians who stirred their fellows, said that the shouting of present-day politicians, which he said, served the same purpose as the war whoops of savages, is as old as civilization. The cries and martial music of the City Club, "This noise is as old as civilization," he added. "A great deal of this kind of disturbance is due to the fact that a man has of expressing his internal discord and hatred of his fellow men."

Further Gains By Texas Dept. Stores In August Business

AUSTIN, Texas, Oct. 7.—Texas department stores during August showed substantial gains in their dollar sales over the corresponding month last year and a moderate seasonal increase over the preceding month, the University of Texas Bureau of Business Research has announced. Reports from 87 representative Texas establishments indicate an increase in sales of 16.8 per cent over August, 1935, and 7.6 per cent over July of the current year. Sales for the year to date were 16.1 per cent greater than for the like period last year.

Health Education Important Program

AUSTIN, Oct. 7.—Assembling of students in the schools of the State this month calls to public attention the definite health responsibility of parents and teachers, as well as health workers, and is the subject of an address from the State Department of Health to the citizenship.

"A public health education program is an outstanding factor in the development of the physical, mental, and social welfare of the school children of today," said Dr. John W. Brown, State Health Officer. "Health teaching should be a basic part of every educational program."

"Practically every phase of the school system is related to health. Housing, screening, diet, disposal of waters, exercise, rest, even the manner of daily contact with others, all have a direct bearing on health. Schools must treat the child as a whole—with his physical condition related definitely to his mental and emotional capacities.

"Prevention is the all important factor in the control of communicable disease. 'Communicable'—as we all know—describes that kind of disease which may be imparted or transmitted from one person to another, either by personal contact or through some other method. One by one, the communicable diseases, such as smallpox, diphtheria, whooping cough, and typhoid fever, are being controlled by preventive or immunizing agents. It is much better for all concerned that the child should be protected from ever taking these diseases, which often leave some condition that will cause trouble later in life.

"Assume your responsibility in the community and work for the development of health education which will pave the way to a better health for the future."

"That last little thing of yours was charming," said the gushing hostess. "I loved its wild abandon. Was it your own composition?"

"No, madam," scowled the lion of the evening. "I was putting a new string on my violin."

Mr. and Mrs. Lowell Littleton spent the week-end in Lubbock where they visited relatives.

Long-suffering Father: "Look here, you young good-for-nothing. I'm fed up. Either you go to work tomorrow, or you tell me how you manage to slip this out-all-night stuff over on your mother!"

Newlywed: "Nothing like it, my boy! You just marry a sweet girl, like my wife, for instance, one that isn't afraid to share your lot for better or worse."

Confirmed Bachelor (unconvinced): "Sounds nice, but some of these share-holders blossom into directors."

Dancing Teacher To Open Classes Here

Miss Merle Draper, dancing teacher at Sonora the past three years, a graduate of the Coker School of Expression in Dallas, will open classes in dancing in Ozona next week. Miss Draper was here early this week making plans for opening in Ozona.

Miss Draper will register prospective pupils all day Saturday. She will be at the Hotel Ozona that day and will be glad to see prospective students during the day.

HELD BY NAZI

Arrested in Hamburg more than a year ago on a charge of possessing anti-Nazi documents, Lawrence Simpson, seaman of the U. S. S. Manhattan, has been placed on trial by a secret Nazi court. The charge, however, has been changed to that of "illegally export of money."

Improvements Being Made To Campus Of College Of Mines

EL PASO, Texas, Oct. 7.—Extensive improvements are being made to the campus of the College of Mines and Metallurgy, a branch of The University of Texas, according to Forrest J. Agee, registrar. Located as the College is, on the side of a mountain, the work of planting grass, trees, and shrubs has been done at much expense in blasting out the solid rock to make room for buildings and for greenery, Agee explained.

The buildings, including the two new dormitories and the Museum, number twelve. The athletic field, an oval, well sodded and grassed, with a native stone wall, was built by filling in a canyon and blasting part of a solid rock hill. The stadium now has a seating capacity of well over five thousand. All of the roads through the campus have been paved, Agee pointed out.

A POLICY

It is a policy of this store to maintain conservative, low prices on every item in our store, every day in the week. This feature of our operating plan is meeting with our customers' approval. It is greatly to their advantage to be able to secure low prices at any time they may be in need of groceries and meats. If we offered specials once or twice a week on a few items below cost, only those customers who could shop on those days could benefit.

Other Days

Then to make up for the "below cost" specials we would be compelled to charge our customers too much profit on all other days of the week. Everyone knows the poor grocer can't afford to lose money and that he must make up "below cost" losses somehow.

We do occasionally make an advantageous purchase of merchandise. And when we do, we pass the savings along to our customers. The prices we post in our store and on our window are not posted there to meet competition. They are taken from our bona fide price lists, day-to-day prices—bargains in good, fresh groceries we know will interest you. Visit our store, see how clean and fresh it is and how attractive the prices are.

The son lives in Springfield, Mass.

Folk Music Study Topic For Music Club Meet Oct. 15

Folk music of all nations will be the topic of study at the next meeting of the Ozona Music Club, Thursday, October 15. Hostesses will be Mrs. Hillery Phillips, Mrs. H. B. Tandy, Mrs. J. M. Baggett, Mrs. C. S. Denham will be the program leader.

Folk music of the Welsh, Irish, Gypsy, Spanish, Norwegian, Russian and German will be illustrated on the program. A quartet composed of Mrs. Lee Childress, Mrs. Ira Carson, Mrs. L. B. Cox and Mrs. B. B. Ingham will sing a Welsh folk song. Miss Tommy Smith will illustrate the Irish folk song with a Londonderry air, "Would God I Were the Tender Apple Blossom" and Mrs. George Bean and Mrs. J. P. Pogue will play "Hungarian Dance No. 5" from Brahms for the Gypsy number. "La Cachucha" will be the Spanish number sung by Mrs. L. B. Townsend, Mrs. Joe Oberkamp, Mrs. E. B. Baggett, and Mrs. John Bailey. Mrs. J. M. Dudley will play Grieg's "Norwegian Bridal Procession" and the Russian song will be illustrated by Mrs. Joe Pierce singing "Cossack Love

Sherwood Appeals From Verdict In County Seat Case

MERTZON, Oct. 7.—Citizens of Sherwood, represented by Judge W. A. Wright of San Angelo, in another effort to regain the Irion County courthouse Saturday posted an appeal bond, which carries the case from the Fifty-first District Court to the Court of Civil Appeals.

In the district court here two weeks ago Sherwood brought suit against Mertzton, holding as its basis for the suit the 10-year law, which permits a county to hold an election for the removal of a county seat only once in 10 years. In 1927 there was an election in Irion County in which the citizens voted to retain Sherwood as the county seat.

Judge John F. Sutton decided that Mertzton should retain the county seat, in that over a two-thirds majority of the people had voted for the change, and in that the 10-year law was unconstitutional.

Mrs. D. B. Dunlap is ill at her home here this week.
