Slater Returned For Second Year In Local Church

Popular Minister Is Re-appointed At Annual Conference

Rev. Eugene Slater, popular pastor of the Ozona Methodist Church, was returned to the local pastorate for another year at the conclusion of the annual West Texas Conference of the Methodist Church in San Antonio last week. Appointments were read at the conclusion of the three-day session of the conference Saturday afternoon.

Rev. and Mrs. Slater returned the first of the week from attending the conference to find their kitchen showered with gifts of edibles from members of the congregation in token of their welcomed return.

The conference voted 247 to 5 for unification of the north and south branches of the Methodist Church. The vote of Southern churches, expected to be overwhelmingly for unification, will be confirmed at the general conference in Birmingham, Ala., in May.

Rev. L. U. Spellman, presiding elder of this district, who was returned to that post, was among delegates elected by the conference to the general conference. Rev. Spellman, by the way, led the vote of delegates selected.

Only three changes were made in pastoral charges in the San Angelo district, it was announced. These were at Eola, Sterling City and Rochelle.

Rev. J. H. Meredith, who served the Ozona church eight years was appointed to Prospect Hill Methodist Church in San Antonio, transferred from Uvalde. Rev. Stanley Haver, another former Ozona minister, was returned to the McKinney Avenue church in San Antonio.

Club Selects Delegates To State Meeting

Woman's Club To Sponsor Book Reviews By Mrs. Bates

Electing its president, Miss Elizabeth Fussell, as delegate and Mrs. P. T. Robinson as alternate to the state convention of the Federated Woman's Clubs of Texas, the Ozona Woman's Club held its regular meeting Tuesday afternoon at the home of Mrs. Roger Dudley. Miss Elizabeth Fussell assisted Mrs. Dudley as hostess. The state convention will be in Austin next month.

The club also voted at the Tuesday meeting to sponsor three book reviews to be presented here by Mrs. Gladys de Silva Bates of San Angelo. The first review will be of "Northwest Passage" by Kenneth Roberts, date of the review to be announced later.

The English course, a series of study programs, was given at the meeting by Miss Fussell and Mrs. George Montgomery.

Members present included Mrs. George Montgomery, Mrs. George Bean, Mrs. J. W. Henderson, Mrs. A. C. Hoover, Mrs. A. E. Deland, Mrs. C. D. Colwick, Mrs. Roger Dudley, Mrs. Bert Couch, Mrs. Scott Peters, Mrs. P. T. Robinson, Miss Elizabeth Fussell, and Mrs. Ira Carson. Mrs. E. H. Chandler was a guest.

Mr. and Mrs. Jim Miller, accompanied by Miss Posey Baggett, spent the week-end in Austin, witnessing the Texas-Rice game there Saturday.

Pascal Northcutt, manager of Smith Drug Co., Inc., here, returned the first of the week from a two-weeks vacation trip to Oklahoma and Missouri, where he visited relatives and friends.

"Woman Hunt" Ends At County Line As 110 Pounds Of Feminine Determination Submits To Superior Force Of "Posse"

Sadie Foust Brushed Mere Man Aside To Get Her Car, But Fates Against Her

"Sadie Foust" from Tucson, Arizona, came to town last night and things began to happen.

Sadie is a delicate little frail of some 110 pounds but in her own words she's somewhat "tough." And she proceeded to demonstrate in her own way.

Sadie came all the way from Tucson, Arizona, to get her car. And, with nothing to back her up but 110 pounds of determination, she got the car in spite of the efforts of a big six-foot plus man and a half dozen helpers—even if she didn't get to keep it long.

It all dates back to more than a month ago when a 1935 Pontiac sedan was brought by two men to the Wilson Motor Co. here for repairs. The car needed radiator repairs, a new motor head and other repairs that hiked the bill to nearly \$50. The repairs were made but the men didn't call for the car. Finally a woman called by telephone from Tucson, inquired about the car and advised that she would be along in a day or so to get it. Three or four times these calls were repeated and time rocked on.

Finally, yesterday afternoon Sadie came to town. A little uncertain of her footing, she alighted from a car in which three men were riding, the trio unloading her belongings and

proceeding on their way. She had come for the car, she told Manager Lee Wilson, but she wouldn't pay for it until she had driven it herself and was sure it was in good condition.

Mr. Wilson started up the car and went for a ride with Sadie, but she wasn't satisfied unless she could drive it herself. And, that 110 pounds of determination—she drove it herself, with Lee as a passenger.

She drove a few blocks and refused to turn in as she passed the garage. As she barely missed a parked car at the Piggly Wiggly corner, Mr. Wilson lost his nerve, and slipping the car out of gear, pulled on the emergency. He ordered Sadie to relinquish the wheel and Sadie agreed to do so, but sat steadfastly under it. Wilson alighted, and as he started around the front of the car to take over the driving, Sadie's spark of determination flared into flame again and she shot the machine into gear and roared away, Mr. Wilson scrambling to safety by inches as the car swished past.

And then the chase was on. Sheriff Willis, Deputy Hamer and Watchman Hokit, to say nothing of the garage force and several additional volunteers, started in pursuit. To Sheffield, to Pandale, to Juno—they burned up the highways and byways. Word came from various sources that the woman and the car had been seen on this road and that—local motorists and (Continued on last page.)

Lions Engage Angelo Juniors Friday On Cemetery Grid; Buoyed With Hope After Shading Menard Saturday 14-13

Nose Jackets Into Cellular In Battle Of Tailenders

With high hopes of adding another victory to the all too few to their credit so far this season, the Ozona High School Lions invade the precinct of the San Angelo High School Crimson Tide on the Cemetery gridiron Friday afternoon at 3:30.

The game with the Tide was matched at the outset of the season to break the first half of a two-weeks pause in the district schedule. Next week the locals take on the Grand Falls team on the local lot before plunging into district competition again on Armistice Day with the Sonora Bronchos here. They will wind up the season November 21 in the nest of the district's leading contenders, the powerful Eldorado Eagles.

The Lions and the Crimson Tide should go into the fracas on about even terms, the San Angelo juniors having lost three of four starts and the locals dropping four out of six. Blondy Cross, San Angelo sports writer, however, given Ozona a shade advantage in the approaching contest.

The Lions were refreshed the past week-end when they experienced the novel thrill of a victory over the Menard Yellowjackets, a victory which pulled them out of the cellar position in District 41-B competition, the Jackets on the bottom with no wins in district combat.

The victory was by a one point margin, each team making two touchdowns, the locals converting after each touchdown while the Yellowjackets were able to make but one point after touchdown.

The Lions came from behind twice in the conflict, the Menard crew making the first tally early in the game when they recovered an Ozona fumble on the forty and on the next play, Zimmerman took the ball on an off-tackle drive and crossed the goal line standing up. The try for point was no good.

The locals came back in the second frame to take the lead when Perner skirted the end for a touchdown from the 20 yard line. Faking a place kick, Beecher Montgomery pitched the ball to Jim Dudley over the goal line for the extra point.

After the half, the Jackets again (Continued on last page.)

BONNEVILLE CHIEF

James D. Ross of Seattle, who has been appointed by President Roosevelt as administrator of the Bonneville dam project. Under the supervision of Secretary of the Interior Harold L. Ickes, Mr. Ross will administer the transmission and sale of hydroelectric power produced at the gigantic new dam on the Columbia river.

Seismograph Crew For Humble Co. To Be Located Here

12 To 15 Men Compose Crew For Geological Testing

A seismograph crew for Humble Oil and Refining Co., will arrive in Ozona about November 1 to make headquarters here while making seismograph tests in this and adjoining counties, it was announced here this week when a representative of the company spent a few days here seeking living quarters for crew members and their families.

The crew will be stationed here for an indefinite period, it was announced, estimated from three months to a year. With precision instruments, the crew will test geological formations on Humble leases in the territory, setting off charges of explosives and registering by seismograph the disturbance, calculating from these records the trend of various formations.

From twelve to fifteen men will compose the crew, it was stated, most of these with families. To assist these new residents in finding suitable living quarters, and local residents in securing desirable renters, the Stockman has volunteered to maintain a list of rooms, apartments and houses available for rent. Persons who have quarters to rent are asked to phone the Stockman.

Start Rehearsal On Armistice Program

Pupils of the history department of the Ozona High School are already at work on an Armistice Day program to be given at an assembly to be held the day before the holiday.

A patriotic play, entitled "Return," is to be presented as a feature of the program. Five characters compose the cast. Rehearsals have already started.

TWO PONTIACS, BUICK SOLD

Delivery of two of the 1938 model Pontiacs and one new model Buick during the past week was announced by the Wilson Motor Co., local Buick and Pontiac distributors. New Pontiacs were driven out by W. E. Friend, Jr., and Charles Coates, both taking two-door touring sedans. A deluxe Model 61 Buick four-door sedan, was delivered yesterday to Mr. and Mrs. N. W. Graham.

Dr. Sellers Moore has returned from a business visit to Dallas.

Building Starts On Scout Cabin For Ozona Troop

Rustic Structure To Be Built Of Native Rock

Construction work got under way here Monday morning on the new Scout cabin to be erected for use of Ozona Troop No. 53, it was announced by Scout committee heads. The work is being done under contract by S. L. Butler, local builder.

The new cabin is being erected on a plot of ground donated by Dr. H. B. Tandy on the site of the hill east of the grade school building. It is to be of native rock with flagging finish, the interior of the walls to be only slightly smoother finish but left unplastered.

The cabin is to be 27 by 40 feet in dimensions over all, including a seven foot uncovered porch to run the entire length of the building. The interior is to be divided into a large assembly room with four patrol rooms, a Scoutmaster's office, and lavatory.

A rustic effect is to be attained inside and out, the inside to be left unsealed, with log beams and knotty pine wood work. Floors are to be of concrete.

It is estimated that three weeks will be required to build the cabin. The building is to cost approximately \$2,000 in cash, with some of the work and materials going into the structure to be donated. Funds for the construction were donated by local persons interested in the Boy Scout movement.

Area Visited By District Health Head

Regional Office To Aid In Solution Local Health Problems

Dr. Thomas L. Waggoner, district director of the Texas State Health Department District No. 6 with headquarters in San Angelo, was a visitor to Ozona the last of the week.

Dr. Waggoner is in charge of public health work in this district under the new set-up of the health department through which it hopes to take the department's activities closer to the people through district organizations throughout the state.

The sixth district comprises an area extending from Hays and Medina counties to El Paso and north to Ector and Midland counties. The San Angelo office has a personnel of eight, including a sanitary engineer, R. H. Weiss, Sanitarian Kenneth Lauderdale, Advisory Nurse Mrs. Zoe Austin Jones and the office force. The three officials named plan to pay a visit to Ozona and other sections of the territory in the near future to confer with local officials on health problems.

Three Chevrolets Of 1938 Line Are Delivered Here

Two town sedans and one coupe, included in the first shipment of the new 1938 model Chevrolets received by the North Motor Co., local distributors, have been delivered since the announcement date last Saturday, Joe North, manager reported yesterday.

These first deliveries went to Joe Friend, Bud Kincaid and Bascomb Cox, Friend and Kincaid, both taking two-door town sedans and Cox the coupe. Several additional orders are on file for delivery on arrival of the additional cars.

Mr. and Mrs. Doug Kirby are having the interior of their home repainted and papered.

BRIEF NEWS

KNEE INJURY KEEPS LOCAL BOY OFF GRID

Joe Thomas Davidson, son of Mr. and Mrs. Joe Davidson of Ozona, and a freshman student at Southern Methodist University, recently suffered a recurrence of an old knee injury and upon the advice of physicians has abandoned his hopes of participating in college football. He had been trying for a place on the Fresh squad when the weak knee began to give trouble. He underwent an operation in a Dallas hospital last summer in an effort to correct the difficulty, resulting from injuries suffered in high school football.

CLEVER WINDOW DISPLAY

One of the cleverest window displays of the month is that in the Hallowe'en spirit in Baker's Piggly Wiggly here. Fashioned in the orange and black of Hallowe'en the spirit of the spooks is attained by a hearth on which is mounted a lighted jack-o-lantern, articles of food being cleverly arranged to form teeth, eyes, nose, tongue and ears. The festive air of the harvest season is suggested in the surroundings of nuts, fruits, pumpkins, and cane stalks. The display was fashioned by Lorraine Robertson.

LOSES FOUNTAIN PEN

Tom Casbeer, county treasurer, is mourning the loss of an "old friend." A fountain pen he had carried 13 years has disappeared. A green Schaeffer pen, it has served faithfully and the treasurer would welcome it back to the fold.

RED CROSS MEET

The Red Cross Roll Call Committee will meet in the basement of the Methodist Church Monday afternoon at 3:00 o'clock. All members of this committee are urged to be present.

Eugene Slater, Chairman

Mrs. B. B. Ingham returned last week from a visit with her son, Dudley, a student at John Tarleton—in Stephenville, and a daughter, Betty Jane Ingham, who is attending school in Fort Worth.

THURSDAY, OCTOBER 28, 1937

BY "IFY THE DOPESTER"

From the Detroit Free Press

As between Henry Ford and John L. Lewis the average man in the street can ask himself one question: Which one of them has best served his fellow man? How much work and wealth has Ford created for the people and how much has Lewis provided? Also: Who did more to increase workers' wages, Ford or Lewis? Which one has done the most to raise the standard of American living? Which one is least ambitious for personal political power?

When the history of this period is written in the centuries to come which one will loom larger as the benefactor of mankind?

Both of them were born on the farm, neither with any advantage over the other. If only one of them could have lived, which would have been the greater loss to the world?

TODAYS TAXOGRAM

Taxes hidden behind the price tag on articles purchased in the grocery stores of the nation last year represented about one-sixth of the total food bill of the entire population. If your grocery bill averages \$43 per month, taxes extracted from you via the grocery store during the year would pay your food bill for nearly two months. The average family paid \$86.40 in hidden grocery taxes during the year.

Say "I saw it in the Stockman."

Scenes and Persons in the Current News

1—Miss Jeanette Rankin, former congresswoman from Montana and now associate secretary of the National Council for the Prevention of War, pictured as she addressed a meeting of the body recently and pleaded for American aloofness from foreign disputes. 2—Defenders of Shanghai repelling a Japanese attack on the city. 3—Herr Von Stohrer, newly appointed German ambassador to the insurgent government of Spain (left), shown as he acknowledged cheering crowds at Salamanca, Spain, with the Nazi salute. General Franco, who received the new envoy's credentials, is shown at his right.

Warns Of Dangers Of "Common Cold"

Austin, Oct. 27—"Beware of the common cold," Dr. Geo. W. Cox, State Health Officer, cautions the people of Texas. "This is the season of the year when colds are most prevalent, and their consequences more far reaching. The organism causing the disease is not known, but every individual is acquainted with its effects."

"Not a little of the susceptibility of catching colds can be overcome by a gradual acclimating to lowering temperatures and inclement outdoor weather. This hardening should begin now, and consist of regular exercise—walking is good—to be continued throughout the winter in weather of every kind. One should be careful to avoid wet stockings drying on the feet, over-heavy clothing and over heated rooms."

"There are two broad principles to observe in the treatment and prevention of colds. The first says: 'Let every person with a cold consider it seriously. Every cold should be regarded as the possible beginning of serious illness. That means seeking a physician's advice and explicitly following his directions. If he orders bed, then bed it should be. Complete rest is a fine way to overcome a cold in short order.'

"One's resistance to many diseases, including colds, can be

raised by increasing one's vitality through observing the fundamental rules of health: plenty of fresh air, good wholesome food, neither too much nor too little, sufficient rest and the avoidance of habitual over-indulgence of devitalizing stimulants, including alcohol, tobacco and the like.

"The cold is a common disease," Dr. Cox repeated, "but every cold is important enough to justify careful attention and treatment for its immediate cure. Death-dealing pneumonia and tuberculosis may begin with colds that do not receive care and attention."

September Shows Employment Hike

Austin, Oct. 27—Records from about 1,900 Texas establishments showed a total of more than 95,000 workers were employed during September, an increase of 7.2 per cent over the like month last year and an increase of 2.3 per cent over the preceding month, according to the University of Texas Bureau of Business Research. Weekly payrolls for these firms totaled \$2,364,000, an increase of 19.4 per cent over September last year but a fraction of 1 per cent below the preceding month.

Texas To Use Only U.S. Highway Markers To Avoid Confusion

Austin, Oct. 27—Motorists traveling United States designated highways in Texas no longer will be puzzled by a multitude of highway markers in thickly populated areas, according to instructions just issued by the Texas Highway Commission through Julian Montgomery, State Highway Engineer, ordering state markers taken down on such routes.

"After an exhaustive study of this whole matter of highway markings we have found that by simple using U. S. route markers it is much easier for the traveling public to follow such highways," says Mr. Montgomery. "With the trend toward simplicity and elimination of confusion caused by duplicate markers some thirty-

five states are using U. S. markers exclusively to the satisfaction of all concerned.

"According to the present marking, many places in the state, and especially the business districts of cities, require so many markers on each post that the traveler is forced to stop traffic while studying these markings, thus creating a safety hazard."

According to Mr. Montgomery, the elimination of state markers from U. S. routes will result in a considerable saving to the department. He further said that state markers would remain in place on state highways which have not been designated as U. S. routes and which do not carry U. S. shield markers.

RETURNS FROM MEXICO

Mr. and Mrs. John R. Bailey and Mrs. Nora B. Gee, of El Paso, Mr. Bailey's sister, returned the first of the week from a two-weeks vacation trip to Mexico City. The Ozonans spent several days in the Mexican capital, taking in sights of the surrounding country while making Mexico City headquarters.

RAIN

The rush of rain upon the roof Is sent by God to soothe our cares; Its steady drip weaves in the wool Of muffled footfalls, murmured prayers; And its monotonous croon brings proof That Sleep takes Suffering un-awares.

—Bess Bartlett, Marlin, Texas

ONLY TODAY

Only today She passed this way— I wanted to call her But I could not! She had forgot. I saw her face Within the space And square of my door's Immediate frame. The sound of her name Rose in my throat, Departed, remote Like any silence, And she had gone.

—Bergman Vinci, Sweetwater.

SHOCK

Just now, there was the silent shriek That just precedes a death; And now, the shrieking silence That takes the place of death.

—Hope Bussey, Panhandle.

THE RUSTLER

The West Wind is a rustler. He dashes across the parched plain Twirling a gruff lasso— Shouting a gruff basso— As he rounds up the clouds and drives off the rain.

—Vada Hart Webb, Abilene.

POET'S PRIVILEGE

I can write away the grief That other hearts would curse. If moonlight brings me memories I write them in a verse.

—Princess Martin, Loraine.

LOVE CAME LATE Love came As summer fled. Vega glittered Above. My heart was stabbed With shafts of blue flame, Vega Shine once more. —Joy H. Michaux, Wichita Falls

"PERFECT WAITRESS"

Meet the nation's "perfect waitress," Miss Ruth Gierke, of Cleveland, Ohio, who received her title from the National Restaurant Association at its recent convention in Chicago. A twenty-two-year-old brunette, Miss Gierke is employed by a Cleveland restaurant.

Added Luxury in "Jubilee" Plymouth for 1938

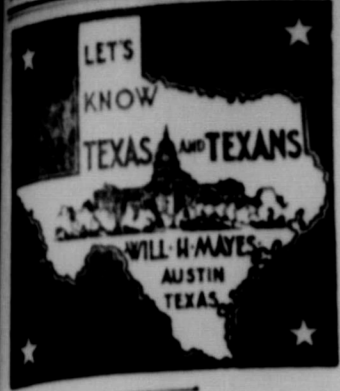

Easier steering, safer vision and a score of new luxury features for the lowest price field are introduced by Plymouth for 1938. Here's the newest Plymouth model, that marks the company's tenth anniversary "Jubilee." A new hood sweeps farther forward to meet the top of the radiator grille, and deeper fenders curve around to a new steel apron across the front (upper right). This year's safety-

styled instrument panel (upper left) again offers special protection in case of sudden stops, with control buttons lined up in a special recess at the rounded base of the board. Note the bigger windshield for safer vision. This is another standard feature throughout Plymouth's 1938 line, which includes eight "deluxe" and three "business" body types. All measure 194 inches from bumper to bumper.

City Service

Frank James, Prop. Sales DODGE - PLYMOUTH Service

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. Address inquiries to Will H. Mayes, Austin, Texas.

Q. By what name was the town of Palo Pinto first called?

A. It was first known as Golconda, a name that signified that all the riches of India could be found there.

Q. What three distinct kinds or classes of Indians lived in Texas before and at its discovery by White people?

A. (1) Pueblos, or village Indians, who lived in somewhat permanent homes like those found at Ysleta, Goliad and some other places, these probably being of Aztec descent. (2) Agriculturists, who lived in less permanent homes or tents, who tilled the soil, hunted and fished, and moved from place to place as conditions seemed to justify. (3) Nomads, who were constant wanderers and who intimidated and pillaged other tribes and were trouble makers of the pre-civilization period.

Q. What brought Gov. S. W. T. Lanham into political prominence in Texas?

A. He was the district attorney who prosecuted Santanta and Big Tree, Indian Chiefs, for their part in the murder, May 17, 1871, of six teamsters en route from Fort Richardson at Jacksboro, to Fort Griffin, 60 miles to the West. His ability and eloquence in this trial gave him state-wide reputation and doubtless resulted in his election to Congress, which was followed by the governorship of Texas.

Q. When was Haskell county created and organized and what was the first county seat?

A. Haskell County was created in 1858 from Fannin and Milam counties, but was not organized until 1886. The county seat was

first called Rice's Spring, but because of similarity of the name to that of another postoffice, it was changed to Haskell.

Q. What reason did Santa Anna give for the bean drawing decimation of the Texans who broke prison at Hacienda Salado?

A. Santa Anna said it was not for attempting to escape, but because they had broken open houses and robbed the inhabitants of Laredo after their submission to the invading army.

Q. Who was charged by members of the Mier expedition with leading in the raid upon the homes at Laredo?

A. President Houston, in a letter to Hamilton Stuart, dated Dec. 21, 1845, stated that Gen. Thomas Jefferson Green, according to assertions from many of the army, was the first to break open a house at Laredo and that he had incited others to perpetrate this outrage.

Q. Who was the oldest member of Dawson's company massacred at Salado Creek near San Antonio?

A. Zaddock Woods, aged 80, a veteran of the War of 1812, a member of Austin's first colony, and a resident of Fayette County.

Q. How many searching parties were sent by Spain to find La Salle's Texas colonists and with what results?

A. Between 1686 and 1689, nine expeditions were sent in search of La Salle, five by sea and four by land. The fourth land party under Capt. Alonzo de Leon, in 1689 found Fort St. Luis, in ruins and a number of dead bodies. It learned that a few Frenchmen were alive among the Indians of East Texas.

Q. How long after Capt. de Leon found the ruins of Fort St. Luis was it until he led another expedition into Texas?

A. Accompanied by Father Damian Massanet, who was with him when Fort St. Luis was established, de Leon led an expedition in 1690 into East Texas and established the mission near the present town of Crockett, leaving three priests and three soldiers there.

Q. What became known as the "Vasquez Raid" and how did it end?

A. In the winter of 1841-42, Mexican forces numbering about 1400

were assembled below the Rio Grande under Gen. Rafael Vasquez for a surprise invasion of Texas. A company was quickly organized at San Antonio under Capt. John C. (Jack) Hays to resist the invasion. It started to meet Vasquez, but being far outnumbered, withdrew, and Vasquez entered San Antonio, March 6, 1842. In a few days Texas reinforcements reached San Antonio, whereupon Vasquez retreated across the Rio Grande and the Texas volunteers disbanded without a fight.

Q. Give the main facts of the Woll invasion and execution of San Antonio.

A. On Sept. 11, 1842, Gen. Adrian Woll, with 1450 men, slipped into San Antonio and captured the court session there, along with a few other citizens. About 200 Texas volunteers rushed to San Antonio under command of Capt. Matthew (Old Paint) Caldwell, and on Sept. 18 surrounded a detachment of Woll's men on Salado Creek about six miles from San Antonio. In trying to reach Caldwell, Capt. Nicholas M. Dawson, with 53 men, met 400 Mexican cavalrymen sent out from San Antonio. In a fierce fight 35 of the Dawson men were killed, 15 were taken prisoners and 3 escaped. Woll evacuated San Antonio Sept. 26, taking with him the Dawson and court prisoners.

Q. How did Zaddock Woods, the oldest of the Dawson men, express the sentiment of the company?

A. When Capt. Dawson called his men together to discuss whether they should attempt to push forward to join Capt. Caldwell's forces, then two miles a-

way at Salado Creek, or retreat in the face of such great numbers, Zaddock Woods, aged 80, said: "We have marched a long way to meet the Mexicans, and I do not intend to return without meeting them. I had rather die than retreat." With that statement Dawson's men rushed ahead to almost certain death.

UNCLE SAM IS WORLD'S BIGGEST CHECK WRITER

Washington (IPS) — The Federal government is now the largest check-writing organization in the world, issuing nearly 80,000,000 checks annually, government statistics reveal.

Records of these transactions are kept by the General Accounting Office, necessitating the employment of 5,000 persons to issue the checks and keep the records. The salaries of these employees cost the taxpayers \$8,000,000 a year.

Documents and papers in the custody of the General Accounting Office now fill several warehouses.

THIS MACHINE AGE

The modern printer, operating a linotype machine, can set more than five times as much type as a printer could by less mechanical methods in 1890. Yet, there are five times as many printers employed today.

The nudists were planning to masquerade and the ladies were worrying over what to imitate.

"Well," said one, "with my varicose veins I think I'll go as a road map."

The Most Powerful Driving Force

—in business is individual initiative

THERE is no substitute for the ambition and determination of men to achieve success for themselves and their families. From these personal qualities spring the steadfast purposes which have for generations kept the United States far out in front in the march of progress. They have created in America the greatest industrial and commercial systems in history.

Individual initiative has been the creative force in all successful enterprises that compose these systems, whether modest local concerns or large-scale corporations.

It is the primary function of banking to lend financial cooperation to sound, progressive business men. It is the obligation and pleasure of this bank to supply this cooperation in the business life of this Community.

All set? listen: HERE'S THE ENGINEERING MUST STORY OF THE YEAR!

Featuring the **DYNAFLASH ENGINE** and **TORQUE-FREE SPRINGING** — in the Most Modern Chassis in the World

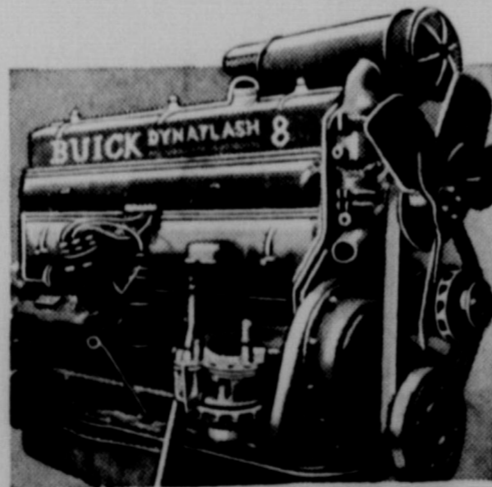

You won't drive a hundred yards in a new Buick without realizing that something marvelously new and different is happening here.

It's something that happens in no other car, in no other engine.

Speeding through the intake manifold, the fuel charge hurries into the cylinder at something like 250 miles an hour.

Leaping to meet it is the piston, with a unique device called a Turbulator built into its face.

Then occurs something more than

high compression—literally cyclompression—as swirling gasoline vapor is compacted about the spark plug.

The spark sets off a fist-size hurricane—and gasoline gives up more performance than it ever gave up in a commercial engine before!

This livelier, smarter power might seem enough for engineers to lavish on a car in a single year.

But matching DYNAFLASH power in importance is Buick TORQUE-FREE SPRINGING and its arrolite ride.

Take a Buick over a railroad crossing—around a curve—over bumps.

There's no thud and chatter, no tail-swing or roll; you cover rough going with the silk-smoothness of a panther on the prowl.

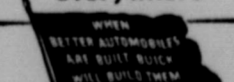

All because old-type leaf springs are gone! In their place, each wheel has a soft, shock-smothering cushion of stout coiled steel.

Skid risks are blessedly reduced. Rear tires last longer. The whole car handles more easily! That's TORQUE-FREE SPRINGING at work!

If it's power you're after, you'll want Buick's DYNAFLASH engine. If it's comfort, you'll choose the TORQUE-FREE SPRINGING ride.

With either you get the other—plus half a score of features your Buick dealer is waiting to describe. See him now—for the engineering "must" story of the year!

NOW ON DISPLAY at BUICK showrooms everywhere

"Buick carries the banner forward"

"Better buy Buick!"

THURSDAY, OCTOBER 28, 1937

BY "IFFY THE DOPESTER"

From the Detroit Free Press

As between Henry Ford and John L. Lewis the average man in the street can ask himself one question: Which one of them has best served his fellow man? How much work and wealth has Ford created for the people and how much has Lewis provided? Also: Who did more to increase workers' wages, Ford or Lewis? Which one has done the most to raise the standard of American living? Which one is least ambitious for personal political power?

When the history of this period is written in the centuries to come which one will loom larger as the benefactor of mankind?

Both of them were born on the farm, neither with any advantage over the other. If only one of them could have lived, which would have been the greater loss to the world?

TODAYS TAXOGRAM

Taxes hidden behind the price tag on articles purchased in the grocery stores of the nation last year represented about one-sixth of the total food bill of the entire population. If your grocery bill averages \$45 per month, taxes extracted from you via the grocery store during the year would pay your food bill for nearly two months. The average family paid \$86.40 in hidden grocery taxes during the year.

Say "I saw it in the Stockman."

Scenes and Persons in the Current News

1—Miss Jeanette Rankin, former congresswoman from Montana and now associate secretary of the National Council for the Prevention of War, pictured as she addressed a meeting of the body recently and pleaded for American aloofness from foreign disputes. 2—Defenders of Shanghai repelling a Japanese attack on the city. 3—Herr Von Stohrer, newly appointed German ambassador to the insurgent government of Spain (left), shown as he acknowledged cheering crowds at Salamanca, Spain, with the Nazi salute. General Franco, who received the new envoy's credentials, is shown at his right.

Warns Of Dangers Of "Common Cold"

Austin, Oct. 27—"Beware of the common cold," Dr. Geo. W. Cox, State Health Officer, cautions the people of Texas. "This is the season of the year when colds are most prevalent, and their consequences more far reaching. The organism causing the disease is not known, but every individual is acquainted with its effects."

"Not a little of the susceptibility of catching colds can be overcome by a gradual acclimating to lowering temperatures and a disinclination to outdoor weather. This hardening should begin now, and consist of regular exercise—walking is good—to be continued throughout the winter in weather of every kind. One should be careful to avoid wet stockings drying on the feet, over-heavy clothing and over heated rooms."

"There are two broad principles to observe in the treatment and prevention of colds. The first says: 'Let every person with a cold consider it seriously. Every cold should be regarded as the possible beginning of serious illness. That means seeking a physician's advice and explicitly following his directions. If he orders bed, then bed it should be. Complete rest is a fine way to overcome a cold in short order.'"

"One's resistance to many diseases, including colds, can be

raised by increasing one's vitality through observing the fundamental rules of health: plenty of fresh air, good wholesome food, neither too much nor too little, sufficient rest and the avoidance of habitual over-indulgence of devitalizing stimulants, including alcohol, tobacco and the like.

"The cold is a common disease," Dr. Cox repeated, "but every cold is important enough to justify careful attention and treatment for its immediate cure. Death-dealing pneumonia and tuberculosis may begin with colds that do not receive care and attention."

September Shows Employment Hike

Austin, Oct. 27—Records from about 1,900 Texas establishments showed a total of more than 95,000 workers were employed during September, an increase of 7.2 per cent over the like month last year and an increase of 2.3 per cent over the preceding month, according to the University of Texas Bureau of Business Research. Weekly payrolls for these firms totaled \$2,364,000, an increase of 19.4 per cent over September last year but a fraction of 1 per cent below the preceding month.

Texas To Use Only U.S. Highway Markers To Avoid Confusion

Austin, Oct. 27—Motorists traveling United States designated highways in Texas no longer will be puzzled by a multitude of highway markers in thickly populated areas, according to instructions just issued by the Texas Highway Commission through Julian Montgomery, State Highway Engineer, ordering state markers taken down on such routes.

"After an exhaustive study of this whole matter of highway markings we have found that by simple using U. S. route markers it is much easier for the traveling public to follow such highways," says Mr. Montgomery. "With the trend toward simplicity and elimination of confusion caused by duplicate markers some thirty-

five states are using U. S. markers exclusively to the satisfaction of all concerned.

"According to the present marking, many places in the state, and especially the business districts of cities, require so many markers on each post that the traveler is forced to stop traffic while studying these markings, thus creating a safety hazard."

According to Mr. Montgomery, the elimination of state markers from U. S. routes will result in a considerable saving to the department. He further said that state markers would remain in place on state highways which have not been designated as U. S. routes and which do not carry U. S. shield markers.

RETURNS FROM MEXICO

Mr. and Mrs. John R. Bailey and Mrs. Nora B. Gee, of El Paso, Mr. Bailey's sister, returned the first of the week from a two-weeks vacation trip to Mexico City. The Ozonans spent several days in the Mexican capital, taking in sights of the surrounding country while maying Mexico City headquarters.

This column consists of Southwestern poetry. Contributions welcomed. Enclose return postage. Address: Wm. T. Tardy, publisher, Liberty Bank Building, Dallas.

RAIN

The rush of rain upon the roof is sent by God to soothe our cares; Its steady drip weaves in the wool Of muffled footfalls, murmured prayers; And its monotonous croon brings proof That Sleep takes Suffering un-awares.

—Bess Bartlett, Marlin, Texas

ONLY TODAY

Only today She passed this way—I wanted to call her But I could not! She had forgot. I saw her face Within the space And square of my door's Immediate frame. The sound of her name Rose in my throat, Departed, remote Like any silence, And she had gone.

—Bergman Vinci, Sweetwater.

SHOCK

Just now, there was the silent shriek That just precedes a death; And now, the shrieking silence That takes the place of death.

—Hope Bussey, Panhandle.

THE RUSTLER

The West Wind is a rustler. He dashes across the parched plain Twirling a gruff lasso— Shouting a gruff basso— As he rounds up the clouds and drives off the rain.

—Vada Hart Webb, Abilene.

POET'S PRIVILEGE

I can write away the grief That other hearts would curse, If moonlight brings me memories I write them in a verse.

—Princess Martin, Loraine.

LOVE CAME LATE Love came As summer fled. Vega glittered Above. My heart was stabbed With shafts of blue flame. Vega Shine once more. —Joy H. Michaux, Wichita Falls

"PERFECT WAITRESS"

Meet the nation's "perfect waitress," Miss Ruth Gierke, of Cleveland, Ohio, who received her title from the National Restaurant association at its recent convention in Chicago. A twenty-two-year-old brunette, Miss Gierke is employed by a Cleveland restaurant.

Added Luxury in "Jubilee" Plymouth for 1938

Easier steering, safer vision and a score of new luxury features for the lowest price field are introduced by Plymouth for 1938. Here's the newest Plymouth model, that marks the company's tenth anniversary "Jubilee." A new hood sweeps farther forward to meet the top of the radiator grille, and deeper fenders curve around to a new steel apron across the front (upper right). This year's safety-styled instrument panel (upper left) again offers special protection in case of sudden stops, with control buttons lined up in a special recess at the rounded base of the board. Note the bigger windshield for safer vision. This is another standard feature throughout Plymouth's 1938 line, which includes eight "deluxe" and three "business" body types. All measure 194 inches from bumper to bumper.

City Service

Frank James, Prop. Sales DODGE - PLYMOUTH Service

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. Address inquiries to Will H. Mayes, Austin, Texas.

Q. By what name was the town of Palo Pinto first called?

A. It was first known as Golconda, a name that signified that all the riches of India could be found there.

Q. What three distinct kinds or classes of Indians lived in Texas before and at its discovery by white people?

A. (1) Pueblos, or village Indians, who lived in somewhat permanent homes like those found at Isleta, Goliad and some other places, these probably being of Artec descent. (2) Agriculturists, who lived in less permanent homes or tents, who tilled the soil, hunted and fished, and moved from place to place as conditions seemed to justify. (3) Nomads, who were constant wanderers and who intimidated and pillaged other tribes and were trouble makers of the pre-civilization period.

Q. What brought Gov. S. W. T. Lanham into political prominence in Texas?

A. He was the district attorney who prosecuted Santana and Big Tree, Indian Chiefs, for their part in the murder, May 17, 1871, of six teamsters en route from Fort Richardson at Jacksboro, to Fort Griffin, 60 miles to the West. His ability and eloquence in this trial gave him state-wide reputation and doubtless resulted in his election to Congress, which was followed by the governorship of Texas.

Q. When was Haskell county created and organized and what was the first county seat?

A. Haskell County was created in 1858 from Fannin and Milam counties, but was not organized until 1886. The county seat was

first called Rice's Spring, but because of similarity of the name to that of another postoffice, it was changed to Haskell.

Q. What reason did Santa Anna give for the bean drawing decimation of the Texans who broke prison at Hacienda Salado?

A. Santa Anna said it was not for attempting to escape, but because they had broken open houses and robbed the inhabitants of Laredo after their submission to the invading army.

Q. Who was charged by members of the Mier expedition with leading in the raid upon the homes at Laredo?

A. President Houston, in a letter to Hamilton Stuart, dated Dec. 21, 1845, stated that Gen. Thomas Jefferson Green, according to ascriptions from many of the army, was the first to break open a house at Laredo and that he had incited others to perpetrate this outrage.

Q. Who was the oldest member of Dawson's company massacred at Salado Creek near San Antonio?

A. Zadock Woods, aged 80, a veteran of the War of 1812, a member of Austin's first colony, and a resident of Fayette County.

Q. How many searching parties were sent by Spain to find La Salle's Texas colonists and with what results?

A. Between 1686 and 1689, nine expeditions were sent in search of La Salle, five by sea and four by land. The fourth land party under Capt. Alonzo de Leon, in 1689 found Fort St. Luis, in ruins and a number of dead bodies. It learned that a few Frenchmen were alive among the Indians of East Texas.

Q. How long after Capt. de Leon found the ruins of Fort St. Luis was it until he led another expedition into Texas?

A. Accompanied by Father Damian Massanet, who was with him when Fort St. Luis was established, de Leon led an expedition in 1690 into East Texas and established the mission near the present town of Crockett, leaving three priests and three soldiers there.

Q. What became known as the "Vasquez Raid" and how did it end?

A. In the winter of 1841-42, Mexican forces numbering about 1400

were assembled below the Rio Grande under Gen. Rafael Vasquez for a surprise invasion of Texas. A company was quickly organized at San Antonio under Capt. John C. (Jack) Hays to resist the invasion. It started to meet Vasquez, but being far outnumbered, withdrew, and Vasquez entered San Antonio, March 6, 1842. In a few days Texas reinforcements reached San Antonio, whereupon Vasquez retreated across the Rio Grande and the Texas volunteers disbanded without a fight.

Q. Give the main facts of the Woll invasion and evacuation of San Antonio.

A. On Sept. 11, 1842, Gen. Adrian Woll, with 1450 men, slipped into San Antonio and captured the court session there, along with a few other citizens. About 200 Texas volunteers rushed to San Antonio under command of Capt. Matthew (Old Paint) Caldwell, and on Sept. 18 surrounded a detachment of Woll's men on Salado Creek about six miles from San Antonio. In trying to reach Caldwell, Capt. Nicholas M. Dawson, with 53 men, met 400 Mexican cavalrymen sent out from San Antonio. In a fierce fight 35 of the Dawson men were killed, 15 were taken prisoners and 3 escaped. Woll evacuated San Antonio Sept. 20, taking with him the Dawson and court prisoners.

Q. How did Zadock Woods, the oldest of the Dawson men, express the sentiment of the company?

A. When Capt. Dawson called his men together to discuss whether they should attempt to push forward to join Capt. Caldwell's forces, then two miles a-

way at Salado Creek, or retreat in the face of such great numbers, Zadock Woods, aged 80, said: "We have marched a long way to meet the Mexicans, and I do not intend to return without meeting them. I had rather die than retreat." With that statement Dawson's men rushed ahead to almost certain death.

UNCLE SAM IS WORLD'S BIGGEST CHECK WRITER

Washington (IPS) — The Federal government is now the largest check-writing organization in the world, issuing nearly 80,000,000 checks annually, government statistics reveal.

Records of these transactions are kept by the General Accounting Office, necessitating the employment of 5,000 persons to issue the checks and keep the records. The salaries of these employees cost the taxpayers \$8,000,000 a year.

Documents and papers in the custody of the General Accounting Office now fill several warehouses.

THIS MACHINE AGE

The modern printer, operating a linotype machine, can set more than five times as much type as a printer could by less mechanical methods in 1890. Yet, there are five times as many printers employed today.

The nudists were planning to masquerade and the ladies were worrying over what to imitate.

"Well," said one, "with my varicose veins I think I'll go as a road map."

The Most Powerful Driving Force

—in business is individual initiative

THERE is no substitute for the ambition and determination of men to achieve success for themselves and their families. From these personal qualities spring the steadfast purposes which have for generations kept the United States far out in front in the march of progress. They have created in America the greatest industrial and commercial systems in history.

Individual initiative has been the creative force in all successful enterprises that compose these systems, whether modest local concerns or large-scale corporations.

It is the primary function of banking to lend financial cooperation to sound, progressive business men. It is the obligation and pleasure of this bank to supply this cooperation in the business life of this Community.

All set? listen: HERE'S THE ENGINEERING MUST STORY OF THE YEAR!

Featuring the **DYNAFLASH ENGINE** and **TORQUE-FREE SPRINGING** — in the Most Modern Chassis in the World

You won't drive a hundred yards in a new Buick without realizing that something marvelously new and different is happening here.

It's something that happens in no other car, in no other engine.

Speeding through the intake manifold, the fuel charge hurries into the cylinder at something like 250 miles an hour.

Leaping to meet it is the piston, with a unique device called a Turbulator built into its face.

Then occurs something more than

high compression—literally cyclompression—as swirling gasoline vapor is compacted about the spark plug.

The spark sets off a fist-size hurricane—and gasoline gives up more performance than it ever gave up in a commercial engine before!

This livelier, smarter power might seem enough for engineers to lavish on a car in a single year.

But matching DYNAFLASH power in importance is Buick TORQUE-FREE SPRINGING and its arrolite ride.

Take a Buick over a railroad crossing—around a curve—over bumps.

There's no thud and chatter, no tail-swing or roll; you cover rough going with the silk-smoothness of a panther on the prowl.

All because old-type leaf springs are gone! In their place, each wheel has a soft, shock-smothering cushion of stout coiled steel.

Skid risks are blessedly reduced. Rear tires last longer. The whole car handles more easily! That's TORQUE-FREE SPRINGING at work!

If it's power you're after, you'll want Buick's DYNAFLASH engine. If it's comfort, you'll choose the TORQUE-FREE SPRINGING ride.

With either you get the other—plus half a score of features your Buick dealer is waiting to describe. See him now—for the engineering "must" story of the year!

"Better buy Buick!"

Federation Day Is Observed By Ozona Music Club Monday

The Ozona Music Club observed its annual Federation Day at its regular Monday afternoon at the home of Mrs. Roger Dudley, with Mrs. L. B. Townsend, assisting pianist. A discussion of the benefits of federation to the individual club, presented by the president, Mrs. H. B. Tandy, and a program of guests from the Junior Music Club featured the day's program. The roll call was answered with a variety of musical nature. Miss Catherine Childress, a member of the Junior Music Club played a violin solo to the accompaniment of Mrs. M. Edwards. Miss Lurline Townsend presented the piano solo, "Tis Raining" by Homer G. Brown. Mrs. H. B. Tandy gave a paper, "What the Federation Does for a Club" and Mrs. S. M. Harvick discussed the progress of the federation.

The members present were Mrs. Charles Williams, Mrs. Hilary Phillips, Mrs. Jack Holt, Mrs. W. S. Willis, Mrs. S. M. Harvick, Mrs. L. B. Dudley, Mrs. L. B. Townsend, Mrs. H. B. Tandy, Mrs. L. Cox, Jr., Mrs. J. M. Dudley, Mrs. Neal Hannah, and Miss Nancy Dawes. The guests were Mrs. J. M. Edwards, Miss Catherine Childress, Miss Lurline Townsend and Miss Betty Dudley.

Sophomores Make Best Grades For First Six Weeks

Sophomores pupils of Ozona High School registered the highest grade averages among the four High School grades during the first six-weeks term according to grade averages announced this week from the office of Supt. C. S. Denham.

The ninth graders turned in a total of 20 A's, 24 per cent of total grades, with only four F's or 5 percent. The tenth grade had 18 A's for an average of 24 percent and 4 F's or 9 percent. The Senior class came up with 12 A's out of 17 grades, with 2 F's or 3 percent. The eighth grade had only 5 A's out of 77 grades for an average of 7 percent. F's numbered 9 for an average of 11 percent.

John Bull Cracks Down on Fascists

Police dispersing a crowd in London, where the recent attempt of Sir Oswald Mosley to lead a parade of 2,000 Fascist followers to a mass meeting provoked some of the worst street fighting involving Fascists and anti-Fascists since the general strike in 1926. Thirty persons were sent to hospitals suffering from head wounds and scores of others were treated for minor injuries in their homes.

In the Junior high grades, the 5th grade had 37 A's and 17 F's for percentages of 25 and 11 respectively. The sixth grade reported 29 A's for a 20 percent average and 15 F's or 10 percent. The seventh grade had 40 A's for 24 percent and 13 F's or 8 percent.

MRS. CLAYTON PARTY HONOREE

Mrs. Elie Hagelstein honored Mrs. Joe Clayton, a recent bride, Thursday when she entertained Las Amigas Club at the home of Mrs. Hugh Childress, Sr. The house was decorated with autumn flowers. Game accessories carried out the Halloween motif.

Mrs. Clayton was presented with a gift. Mrs. Joe Sellers Pierce, III, won high score prize, and cut prizes were given at each table. Other guests were Mrs. E. H. Chandler, Mrs. Bill Conklin, Mrs. Dempster Jones, Mrs. Bob Weaver, Mrs. Phillip Lee Childress, Mrs. James Baggett, and Mrs. Hugh Childress, Jr.

MUSIC CLUB MEMBERS ENTERTAIN HUSBANDS

Members of Ozona Music Club entertained their husbands for a campfire supper and a forty-two

party Thursday night on the lawn at the home of Dr. and Mrs. H. B. Tandy. Mrs. Hubert Baker and Lee Childress won high score prizes at forty-two.

Those present were Mr. and Mrs. Bryan McDonald, Mr. and Mrs. Lee Childress, Mr. and Mrs. Ira Carson, Mr. and Mrs. L. B. Cox, Jr., Mr. and Mrs. Stephen Perner, Mr. and Mrs. Hilary Phillips, Mr. and Mrs. S. M. Harvick, Mr. and Mrs. Neal Hannah, Mr. and Mrs. L. B. Townsend, Mr. and Mrs. Hubert Baker, Mr. and Mrs. J. M. Dudley, Mrs. Charles Williams, Mrs. Albert Kay and Mrs. W. S. Willis.

HARRELLS HOSTS AT CHICKEN DINNER BRIDGE

Mr. and Mrs. Alvin Harrell were hosts at a chicken dinner and bridge party at their ranch home Tuesday night. High score prize for the evening's games went to Mr. and Mrs. Bill Littleton.

Guests included Mr. and Mrs.

Littleton, Mr. and Mrs. Hugh Childress, Jr., Mr. and Mrs. Bob Weaver, Mr. and Mrs. Ted White, Mr. and Mrs. Norris Creath, Mr. and Mrs. Bill Conklin, Mr. and Mrs. Elie Hagelstein, Mr. and Mrs. Richard Flowers, Mr. and Mrs. James Baggett, Mr. and Mrs. Joe Sellers Pierce 3rd, Miss Mildred North and Fred Hagelstein.

LOCAL DEALER SECOND IN AUTO SALE AVERAGE

The Wilson Motor Co. of Ozona held second place in both Pontiac and Buick percentage of sales in their respective price classes among all dealers of the Dallas zone, an announcement of standings from the Dallas zone office for August revealed. In Buick price class average, the local dealer's percentage was 41.2, first place being taken with a 50 percent average. The zone average was 14 per cent. The local dealer stands in sixth place in national standings. Second place in Pontiac sales record for the month was

attained with an average of 40 percent.

CHURCH OF CHRIST A. C. Nance, Minister Lord's Day

10:00-10:45 a. m. Bible study, all classes.
10:55-11:55 a. m. Sermon and Communion.
7:30-8:30 p. m. Evening Services.

Wednesday 3-4 p. m. Ladies Bible study. 7:30 p. m. General Bible study.

Mr. and Mrs. Judge Montgomery returned early this week from a trip to Flint, Mich., where they went to take delivery of a new Buick at the factory. The car was purchased through the Wilson Motor Co., local Buick and Pontiac distributors.

Mr. and Mrs. A. W. Jones returned Tuesday from Corpus Christi, where they spent a few days visiting their son-in-law and daughter, Mr. and Mrs. Gilbert F. Noakes.

HOME BUILDERS' PAGE

An Economical Home for a Small Family

This frame cottage is ideal for a couple. The living room has rollaway bed to provide for guests. French doors open on a flagstone terrace at the rear. An airy kitchen with many built-in conveniences pleases the housewife.

Approximate cost is \$2,100. The siding is of wide colonial or could be equally effective in shingle. Asphalt composition shingles are used on the roof, blending in color with the color scheme. The design complies with the rigid inspection of the Federal Housing Administration, and can be financed by F. H. A. loans through the W. K. Ewing Co. of San Antonio.

Wooden Steps Need Attention
Outside wooden steps are subject to rapid deterioration because of constant exposure to the alternating action of rain and sun. As soon as any softness or excessive spring in the steps is noticed they should be examined and any wood showing signs of decay should be removed and replaced. If the steps have been there for any length of time it might be well to replace the whole flight.

Over 14,000,000 Home Owners
Over 14,000,000 American families own the homes in which they live; and there are more than 44,000,000 savings accounts and more than 121,000,000 insurance policies in effect.

Plans Must Accompany FHA Loan Application

Before the Federal Housing Administration will issue a commitment to insure a mortgage on a home that is to be constructed, plans and specifications must accompany the application.

Specifications should amplify the plans and should describe fully the quality of the materials and the quality of workmanship. Subjects to be described in the contractor's specifications include clearing of site, excavation, backfill and grading, footings, foundation walls, cellar floors, chimneys, outside steps, porches, terraces and walls, walks and driveways, framing, exterior walls, roof, sheet metal, ornamental and structural iron, and steel, interior wall and ceiling finishes, trim, windows and doors, rough hardware, screens and storm sash, closets, built-in accessories, finish of floors, painting, glazing, finish hardware, plumbing, heating, electric work and equipment.

Miscellaneous items such as weatherstripping, insulation, waterproofing, etc., should be described; and if there is to be a garage, all items of work and special equipment should be fully described.

Avoid Sills When You Can

Saddles, or sills, should not be used between two rooms except when the floors are of different materials, as they are dust catchers and might cause falls.

Consider Using Terrace

Wide covered porches cut off a great deal of light and air from rooms. They may often be removed and open terraces built to take their place.

Q. How do I take a latch from a door to examine it?

A. If it is a mortised lock, unscrew one handle and pull out the spindle to which the handles are fastened. Then unscrew the screws in the face of the lock on the edge of the door.

Q. How can we brace our chimney, which stands up alone for about 12 feet?

A. Anchor it with an iron tie rod, fastening one end to the chimney and the other to the rafters of the roof. If it is not possible to pierce the chimney, put an iron band around it, to which the rod may be attached.

Mimeograph paper, mimeograph ink at The Stockman.

Careful Concrete Work Pays

Care should be taken when concrete sidewalks are being laid. Before the concrete is placed, a drainage bed of gravel, broken stone, or coarse cinders, should be prepared. There should be expansion joints about every four feet.

Book Contains Helpful Hints

Home builders and owners of existing property find helpful suggestions and guidance in the problems of purchase and installation of home mechanical equipment in the Federal Housing Administration's Technical Bulletin No. 6, titled "Mechanical Equipment for the Home."

Published some months ago, the bulletin aims to show how the home may be equipped at reasonable first cost and that when properly equipped the result will be a maximum of comfort and convenience with a minimum cost of operation and slow depreciation over the years.

If Tommy "Just Will Draw"

The mother whose child is given to drawing pictures on the walls and who wants to save the walls but does not wish to repress the child's talents might try a wainscoting of building board around the nursery. This can be nailed to the wall or be movable and treated with a picture molding.

Stair Lights May Save Bones

Low-wattage lights placed near the top or bottom of stairs prevent many accidents. As these lamps burn very little electricity they may be left on all night.

TRUCKERS, ATTENTION

LIVESTOCK PERMIT blank books for truckers at the Stockman office.

Books For Mirror Frame

A modern apartment had a mirror over the fireplace. There was no mantel. Bookshelves formed a frame around the mirror, and glass backing reflected the corners of the books and art objects placed there.

WEST TEXAS LUMBER CO.

Serving West Texans

The LIVESTOCK SITUATION

Los Angeles, Calif., Oct. 27 — This is the time of year that hundreds of western sheep men sustain heavy losses through failure to supplement failing range feed with concentrates and roughages.

The feeding of ewes during the winter months includes the latter portion of the gestation period, and the suckling period prior to the pasture season. These two periods determine the lambing percentage, ewe mortality, and grade and weight of the lambs at six months of age.

As protein is generally lacking in range grasses and stubble in the fall and winter, a protein supplement is essential. The cheapest source of protein at present is condensed cake. It is also necessary that the ewes receive a leguminous roughage to assure an adequate milk supply.

In West Texas 4-H club boys are busy selecting, buying and feeding sheep for show and profit, according to reports from county agricultural agents in that section.

H. T. Espy and Jack Shurley of Sutton county, with the assistance of their county agricultural agent, recently selected 25 and 30 ewes respectively for their breeding flock demonstrations.

Starting supplemental feeding before the ewes have lost weight has proven most economical, as it requires less feed to keep them

Chinatown Demonstrates Against Japs

Chinese boy scouts marching along Mott street in an anti-Japanese demonstration in which the inhabitants of New York's Chinatown participated, in a drive for funds to aid war refugees. The boys are carrying a huge banner which relates: "Japan is like a monster and a cold-blooded murderer." Another rallying cry for donations was "Every penny kills a Jap."

in good flesh than to build them up after they have lost flesh. Early feeding also conserves range feed and increases the carrying capacity of a given amount of range.

West Texas Club Boys Feed Sheep For Show-Profit

H. T. Espy and Jack Shurley of Sutton county, with the assistance of their county agricultural agent, recently selected 25 and 30 ewes respectively for their breeding flock demonstrations.

County agricultural agent H. C. Atchison Jr., of Sutton County selected and purchased four registered rambouillet rams from

George Williams of Schleicher county for the 4-H club flock of Robert and Dock Simmons, Billy Shurley and Robert Kelley. The rams were carrying 13½ months fleeces and sheared from 19 to 24 pounds of good staple wool.

Several 4-H club boys of Reagan county have begun their lamb feeding demonstrations, and they are proud to have a large new 4-H feeding barn for their own use this year. E. J. Martin is feeding two buck lambs and two ewes from the Bob Ferguson flock. J. A. Roach, Jr. has selected 6 lambs from Reginald Atkinson's flock. Rolf Miller also received 5 lambs from the Atkinson flock. John Harold Holt is feeding 10 lambs, 5 of which he chose from his father's flock and the other 5 were from the Gordon Roach flock. The boys all plan to attend the San Angelo spring show and various other shows during the year.

\$26 To \$34 Hike In Prices 1938 Models Chevrolet Announced

New York, Oct. 27—Simultaneously with the announcement of its new 1938 passenger cars, now being displayed in 9,600 dealer showrooms throughout the United States, Chevrolet made public its new prices. They represent an increase ranging from 3.4 per cent to 5 per cent, or in dollars, of \$26 to \$34 per model.

The popular sedan in the Master DeLuxe series shows an increase of \$26, from \$770 to \$796. The increase in the case of seven models is less than \$30, and in the case of the other five is between \$30 and \$34, the latter figure applying to the Master Sport Sedan.

The increase bears out the statement made by M. E. Coyle, General Manager of the Chevrolet Division of General Motors, before the company's National Sales Convention last month. Addressing the field wholesale organization, Mr. Coyle asserted that the forthcoming

Forsaking his usual American flag, George M. Cohan waves a microphone as he portrays a typical Preside address while burlesquing President Roosevelt in what is called one of the most daring satirical performances ever presented on the stage—"I'd Rather Be Right." The play opened in Boston recently.

189 Texans Died In Sept. Car Accidents; 1,392 To Hospitals

Austin, Oct. 27—September highway crashes hurtled 189 Texas people to their deaths and sent 1,392 to hospitals where more are destined to die, according to the Department of Public Safety.

Although there were only 27 more traffic accidents in September than in August, the death toll rose two and the injury list showed an increase of 446 persons. Nearly seven per cent of the 1,106 accidents in September resulted fatally. Forty-two of the dead were pedestrians.

Traffic experts of the Safety Department pointed to an increase in the flow of highway traffic as a possible reason for the rise in accidents, but warned that many drivers are exceeding speeds allowed by highway and traffic conditions.

With the mended driver's license law in operation early in November, and the graduation last week of 138 additional Highway Patrolmen from the Department's training school, safety officials are looking forward to better control of careless drivers and mechanical defective vehicles.

The new patrolmen and driver's license examiners have been assigned to cover the entire state network of highways in an effort to minimize the number of accidents.

SUTTON RANCHER VISITS

Theo Savell, Sutton County ranchman and old timer of the industry in this area, was a business visitor to Ozona yesterday. Mr. Savell called at the Stockman office and ordered the paper sent to him at Sonora.

Max Schneemann and daughter, Mrs. Miller Robison, were in Lubbock last week for a visit with Max Schneemann, Jr., who is a student at Texas Tech this year.

Ford Offers Two Cars, New Truck In 1938 Showing

Advance Exhibition Of Line In New York Yesterday

New York, Oct. 27—An advance showing of 1938 Ford V-8 cars and trucks opened this afternoon at the Ford Metropolitan show-rooms at 1710 Broadway.

Two distinct Ford V-8 cars, differing in appearance, appointments and price, were presented.

One was the de luxe Ford V-8, the other the standard Ford V-8.

The standard car is designed for owners to whom economy in first cost and operating cost is paramount. The de luxe car provides added luxury and style for those who desire them.

Both cars have the same V-8 chassis. The eight de luxe types are available only with the 85 horsepower V-8 engine, the three standard types with either the 85 horsepower or the 60 horsepower engine.

The de luxe car is a stylish sister of the standard. It is entirely new in appearance. The radiator grille is of new design. Appearance of the hood is longer and more sweeping. Fenders are mas-

sive. Interior appointments are in keeping with the styling of the exterior. Substantially more room in the closed sedans, greater passenger comfort and much larger luggage space are provided.

The standard V-8 cars reveal new styling, with a different radiator grille design, long hood and flowing contours. The spacious interiors are roomy and attractively upholstered and appointed.

In addition to the two passenger cars, Ford is to present an expanded line of V-8 trucks and commercial cars. Both are newly styled to lend added "eye appeal" in commercial transportation.

A new group of "one-tonner" trucks also is offered, in addition to the 112-inch commercial cars and the 134-inch and 157-inch wheelbase trucks.

The new "one-tonner" is designed specifically to bridge the gap between the commercial cars and the truck groups. Available with either 85 horsepower or 60 horsepower engine, it is expected to make the economies of the latter engine more widely available in commercial transportation.

Other advances for 1938 are the new 134-inch wheelbase truck, replacing the 131 1/2-inch wheelbase in the big truck line, a new frame width for the 134-inch and 157-inch wheelbase units, improved brakes and easier steering and stronger construction throughout.

MRS. P. L. CHILDRESS COMPLIMENTED AT PARTY

Mrs. Phillip Lee Childress entertained for Mrs. Pleas Childress Jr., with three tables of bridge Friday afternoon at the home of Mrs. Lee Childress. Mrs. Pleas Childress was given a gift while Mrs. Doug Kirby, Mrs. Clifton Brooks and Mrs. E. H. Chandler won table scores. Others present

were Mrs. James Baggett, Mrs. R. L. Flowers, Mrs. Bob Weaver, Mrs. Bill Conklin, Mrs. Joe Sellers Pierce, III, Miss Louise Henderson, Miss Wanda Watson and Miss Wayne Augustine.

WMU Circles Hold Bible Studies In Sessions Wednesday

Both circles of the Baptist Woman's Missionary Society held Bible study programs in regular session yesterday afternoon. Mrs. W. S. Willis directed the study program of the Lottie Moon Circle meeting at the home of Mrs. Roy Parker. Present were Mrs. Ira Carson, Mrs. Hartley Johnigan, Mrs. Charles Butler, Mrs. R. F. Powell, Mrs. A. C. Hoover, Mrs. O. W. Smith, Mrs. M. R. Smith, Miss Maybelle Taylor and Mrs. Willis.

The Nelson Circle met at the home of Mrs. Ray Dunlap, with Mrs. George Bean directing the Bible study. Others present were Mrs. J. M. Edwards, Mrs. J. S. Whately and Mrs. S. L. Butler.

Next Wednesday afternoon the two circles will meet at the church for a joint business session.

METHODIST CHURCH

Eugene Slater, Minister
Calendar of Services

Sunday School . . . 9:45 a. m.
Morning Worship . . . 11:00 a. m.
Young People's Meeting 7 p. m.
Evening Worship . . . 7:45 p. m.
Woman's Missionary Society, Wednesday, 3:00 p. m.
Mid-Week Service, Wednesday, 7:30 p. m.
Choir Rehearsal, Wednesday, 8:00 p. m.

Annual Conference has come and gone, the preacher for the new conference year has been appointed, and we are all ready to continue our labors for God's kingdom in the church that our fathers have handed down to us. Let us resolve to be faithful to our tasks and to unite our hearts and hands with our fellow-Christians around the world as we go forward in our work. The Slaters deeply appreciate the countless expressions of love and confidence that have been coming from the

members and friends of the church. They hope to be worthy of these many kindnesses.

"Go to Church on Sunday" is the challenge that is coming from many areas of life today. The source of many of our troubles can be traced to our lack of vision and courage and to a confusion as to the value of life. Christian worship helps to overcome these deficiencies. This church joins with the other churches of Ozona in urging you to attend the services of the church of your choice every Sunday.

HAGELSTEINS HOSTS AT MEXICAN DINNER

Mr. and Mrs. Ele Hagelstein entertained the members of Las Amigas Club and their husbands with a Mexican dinner at the home of Mr. and Mrs. Hugh Childress, Sr., Thursday evening. Mexican colors were used in the decorations and party effects. Mr. and Mrs. Alvin Harrell held high score. Covers were laid for Mr. and Mrs. Bob Weaver, Mr. and Mrs. Sidney Millsbaugh, Jr., Mr. and Mrs. Hugh Childress, Jr., Mr. and Mrs. Alvin Harrell, Mr. and Mrs. Joe Sellers Pierce, III, Mr. and Mrs. Dempster Jones, Mr. and Mrs. James Baggett, Mr. and Mrs. Richard Flowers and Mr. and Mrs. Bill Littleton, and Miss Mildred North.

MRS. HARRELL IS BRIDGE HOSTESS

Mrs. Alvin Harrell entertained with five tables of contract at her ranch home Monday afternoon. Michaelmas daises, orange cosmos and Hallowe'en decorations were used.

Table prizes were given to Mrs. Melvin Brown, Mrs. Scott Peters, Mrs. Nadine Bernays, Mrs. Joe Pierce and Mrs. Early Baggett.

Other guests were Mrs. B. B. Ingham, Mrs. George Harrell, Mrs. Joe Sellers Pierce, III, Mrs. Ele Hagelstein, Mrs. Doug Kirby, Mrs. James Baggett, Mrs. J. A. Brasher, Mrs. Bill Conklin, Mrs. Walter Augustine, Mrs. Sherman Taylor, Mrs. Chas. E. Davidson, Jr., Mrs. Boyd Clayton, Mrs. J. M. Baggett, Mrs. Wayne West, and Mrs. Tom Smith.

Lions Engage—

(Continued from page 1.)

took command and marched half the field for another man. "Big Boy" Matthews doing most of the ball toting. This time try for the point was good and was 13 to 7.

In the final quarter, the Lions revived and combining a run and passing attack again advanced the ball to the Menard two. From which point Captain Per again darted around the end another touchdown, and then the game by plunging the line the extra point.

"Woman Hunt"—

(Continued from page 1.)

tourists had helped her start. A couple of hours later came a call from Ernest Sparkman County Line Inn, 15 miles from the Sonora road, that the woman and car were there. Then for big husky men went out to bring Sadie and the car back to town.

With resignation, 110-pound Sadie meekly submitted to the superior force and spent the balance of the night in the county jail—calling a cheer "Goodnight, darlings," to Sheriff Willis and Deputy Hamer as they left her to the comforts of her night's lodging. And the car is back in the garage—hostage for the repair bill against it.

Eye Strain

The first warning of eye strain should be taken very seriously. It is nature's way of warning you that your eyes need attention. You should consult with us.

OTIS L. PARRIS

OPTOMETRIST & OPTICIAN
5 W. Beauregard Dial 6006

Thank You--

Just a word to express my personal feeling of satisfaction and gratitude as I look back over the three years I have spent in the service of the people of Crockett County as manager of the Ozona Hardware Co.

It has been a genuine pleasure to me to have had the opportunity to live and serve in this community. The splendid firm which I represented in the business here is withdrawing from the field, but I have learned to love the community and its people, and am genuinely proud to announce my further opportunity to remain among you.

After the first of november, I shall become connected with JOE OBERKAMPF'S in charge of the hardware section. I shall be happy to have all my friends and customers call on me there.

And no wI would add a personal word of thanks to all for their patronage and for the many kindnesses and the consideration extended me during my tenure.

M. (Shorty) Wilkinson
