## Crane Pushes Two Town Team Under With Double Win

### Sonora-Ozona Crew Is Bounced In Pair By Flag Defenders

Standings	G	W	L	Pct
Crane	4	3	1	.750
Ozona-Sonora	6	3	3	.500
Iraan	4	2	2	.500
Texas	4	2	2	.500
McCamy	6	2	4	.333

Schedule  
Saturday: Iraan at Crane; Texas at Ozona. Sunday reverse.

Nine old men from Crane tipped over the craft in which the Ozona-Sonora combined Station A team was riding the crest of the wave in Permian Basin League competition the week-end. The result was that the first half champs took a nose dive into a three-way tie for second place and the "nine old men" mounted to the top of the heap in the second-half chase. Saturday's game went to the Gulfers by a 3-2 count and Sunday's 2-2.

"General" Al Crostwaite, cross-fire artist who has been effective in three years of hurling against Permian Basin teams, was erratic in Saturday's game here, successfully passing of two men in two different innings followed by a single hit in each case accounted for Crane's three scores and the margin of victory of one lone rally.

In the second Moos walked after one was out, Anderson advanced him on a grounder to third and then Crittenden walked. Preslar got his only hit of the two-game series at that point, bouncing one off his bat to fall fair by inches inside the right field line to score both runners. The hit was good for three bases. Again in the sixth, Colvard and Moos walked, after two were out, and Anderson rapped out a single to score Colvard, Moos being cut off at the plate on the relayed throw from Paul McLeod to Heatherly to Stuart.

Locals Score In 8th  
The Ozona-Sonora crew did not count until the eighth, when Bob Weaver, first up, rapped out a double. Ratliff cracked another of Osborn's offerings far into centerfield. West slapped at the ball as the pellet cleared him and went through the fence. The game marked time, the grandstand roared itself hoarse and players, Mexican spectators lining the center-field fence and various and sundry other non-combatants were cross examined by Umpire Guss Leedy before he finally ruled as (Continued on last page.)

## Ozonans May Have Landed In Midst Of Sino-Jap War

### Mr., Mrs. W. E. West Scheduled At Peiping As Fight Broke

Mr. and Mrs. W. E. West of Ozona, who are making a trip around the world, were scheduled to land in Peiping the day hostilities began between China and Japan in that section. It requires about three weeks for a letter to arrive here from China and no word has been received from Mr. and Mrs. West since the incident, and since no news concerning the Asama Maru, the Japanese ship in which Mr. and Mrs. West sailed, has appeared in the papers, it is supposed that nothing untoward has occurred.

It is possible that because of the change-in-time in the passage from the western to the eastern hemisphere that the ship arrived the day before the outbreak occurred and that Mr. and Mrs. West continued their journey by air, as they planned, undisturbed by the war-like preparations.

## Kincaid Attending Meetings Of Soil Conservation Unit

T. A. Kincaid, regional director for the Texas Soil Conservation program, with Mrs. Kincaid, was in Amarillo the first of this week attending a meeting of Soil Conservation officials with C. A. Cobb, regional director of the Southern Division of the Soil Conservation organization.

From Amarillo, Mr. and Mrs. Kincaid went to College Station for a meeting of the state committee, to be in session at the college Wednesday, Thursday and Friday of this week.

## Wool And Lamb Buyers Combing Ranch Sections

### Offers Of \$5 Head For Lambs Being Turned Down; Some Sales

A number of lamb buyers who have been contacting growers here the past week, bidding \$5 a head for fall delivery, and making very few purchases, presages a strong market for lambs this season in the opinion of leading ranchmen of the area.

It is understood that most of the offers in this county of \$5 a head have been turned down, growers demanding \$5.25 to \$5.50. Some offers of 7½ cents are reported also turned down. A few sales have been made, according to reports, Massie West recently sold his choice lamb crop at \$5.50, and some few sales at a lower figure are reported.

Good rains over most of the ranch country, and Crockett County in particular, puts growers in an advantageous position with the rising demand for lambs. With good feed assured for the balance of the season, the lambs should go through the summer in good condition and with good weight at shipping time.

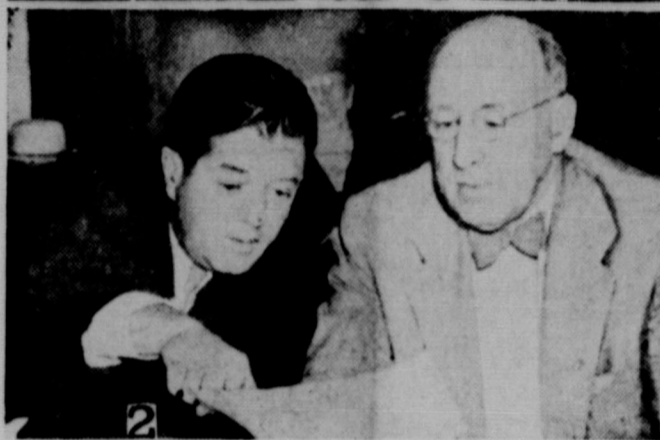

A new flurry of wool buying, with buyers in the area carrying orders, adds further to strengthen the sheep man's position this year. Several sales in the San Angelo country were reported yesterday at 35 cents for 12-month fleeces.

## Approaching Marriage At Party This Morning Blanche Robison Told

### Ozona Girl To Wed Oklahoman At Ceremony Slated For July 31st

The approaching marriage of Miss Blanche Robison, daughter of Mr. and Mrs. P. T. Robison of Ozona, to Clifton Walker of Carter, Okla., was announced this morning at a bridge breakfast given by Mrs. Miller Robison. The wedding will take place July 31. The wedding date was written on little bags of (Continued On Last Page.)

## Scenes and Persons in the Current News

1—With a Russo-Jap dispute over the Amur river, crack battalions of the Red army have been held in readiness for possible trouble. 2—Senators Robert M. LaFollette, Jr., left, and Elbert Thomas of the senate civil liberties committee are shown studying photographs of the Memorial day riot at the Republic steel plant in South Chicago in which ten pickets were shot down. 3—President Roosevelt in a recent radio salute to Canada exchanged greetings with Governor-General Lord Tweedsmuir.

## Four Ozona Boys, Agent To Attend 4H Clubs Outing

### Hudspeth Ranch To Be Scene Of 5-County Encampment

The initiation of Four-H Club work in Crockett County will be marked by a three-day outing of club boys from five adjoining counties, to be held this week-end on the C. B. Hudspeth Devil's River ranch, today, Friday and Saturday.

County Agent C. J. Van Zandt, whose wide experience in agricultural club work qualifies him as a leader in this state-fostered boy activity, has volunteered to organize and direct a 4-H Club in this county, and is confident of the enrollment of a dozen or more boys before the end of the summer.

At least four boys will accompany the Crockett County agent to the Hudspeth ranch for the opening of the three-day encampment. The outing is a joint venture of clubs in five counties, Val Verde, Terrell, Crockett, Sutton and Schleicher, and large contingents of interested club workers from the other counties are expected to be on hand with their agents.

Ozona boys who had signed up yesterday to make the trip were Charles McDonald, Miles Pierce, Loraine Wyatt and Bland Tandy.

Vic Pierce this week sold two registered Rambouillet stud rams to Virgil Powell of Sonora. The price was not learned.

## Specimens Of West Texas Range Grass Made Into Display

An interesting display of West Texas range grasses, with legends giving the specie name and classification as to palatability and nourishment value, is being prepared in the office of C. J. Van Zandt, Crockett County agricultural agent.

Specimens of the different grasses are to be gathered and mounted on a board, with the descriptive matter under each specimen. The display is to be mounted in the agent's office in the courthouse.

## Ozona Baptists Plan To Attend Paisano Meeting

### 17th Annual Encampment Slated July 30 To Aug. 8

Several members of the Ozona Baptist Church are expected to attend the seventeenth annual Paisano Baptist Encampment, to be held July 30 to August 8, at the camp site between Alpine and Marfa in the mountain setting of Paisano Pass in the Davis mountains, Rev. I. V. Garrison, pastor, said here this week. Ozona annually sends a number of campers for all or part of the Paisano program.

This year's program at Paisano includes daily Sunday school hour training service programs, women's meetings, song services and preaching services twice daily. In addition periods are assigned for rest and recreation. Preachers who will be heard during the period are Rev. Perry Webb of San Antonio and Rev. F. B. Thorn of Houston. Rush McDonald of Memphis, Tenn., will direct song services.

Rev. M. M. Fulmer, former pastor of Ozona Baptist Church, now pastor at Alpine, is listed as one of the assisting workers in the Sunday school program.

## KITTLES HAVE VISITOR

Mrs. William Chilton, and her mother-in-law, Mrs. Clara Chilton, of Comanche, Mrs. Wallace Scott of Stephenville, Mr. and Mrs. Jim Mitchell of Sanderson and Mrs. Fred Hoey and daughter, Mary Ann, of San Antonio spent Sunday visiting Mr. and Mrs. L. J. Kittle and family here. Mrs. William Chilton and Mrs. Scott are daughters of the Kittles. Mrs. Hoey is a daughter of the Jim Mitchells and Mrs. Mitchell is Mrs. Kittles' sister.

## Zachry Co. Moves Out As Highway Work Completed

### Laredo Firm Worked Crew Here Nearly Five Months

Marking what may be the end of highway work in Crockett County, at least for some time to come, the H. B. Zachry Co. of Laredo this week made preparations to move its crew and equipment after having completed contracted paving jobs in this county.

The Zachry company had been working out of Ozona offices for the past five months. In that period its crews completed caliche base and asphalt surface treatment of 10.78 miles of Highway 27 from Ozona west, the job including installation of a number of additional drainage structures.

Upon completion of that job, the company was awarded contract for seal coating of 17.75 miles of Highway 163 from Barnhart to a point midway between Ozona and Barnhart. With the new type box spreader for spreading rock, this job was completed in five days, which time included production of the crushed rock.

Completion of the Highway 27 job west of Ozona, from a point nine miles out of Ozona to the big hill, marked the closing of the last major gap in the transcontinental Old Spanish Trail from Florida to California. The section west of the Zachry project was completed recently by R. W. McKinney Construction Co. The only remaining unpaved state highway in Crockett County now is the Comstock road from Ozona south toward Del Rio, recently designated by the state highway commission as an extension of Highway 163, the Ozona-Barnhart road.

## Deep Test Shows Formations Lower Than In Todd Well

Examination of cores from the Superior Oil Co. and others' No. 1 Massie unit, Ordovician test being drilled in this county, this week showed the Simpson, middle Ordovician stratum, to be 248 feet lower than in Stanolind and others No. 1 Todd, 1¼ miles to the northwest.

The Simpson was reported encountered at 7,131. Elevation is 2,537, making the Simpson top 4,594.

Mrs. Vera Baker is having her home repainted this week.

Mr. and Mrs. Clay Adams are spending the week here from their ranch near Pumpville.

## BRUCE DRAKE, 60 DIES IN CRASH ON RANCH ROAD

### Auto Overturns Tuesday Near Joe Montague Ranch

#### KILLED INSTANTLY

### Funeral Services Conducted Yesterday For Commission Buyer

Funeral services were held at 4 o'clock yesterday afternoon for Bruce Drake, 60, livestock commission dealer, and long-time resident of Crockett County, who was instantly killed about 10 o'clock Tuesday morning when his car overturned near the Joe Montague ranch house 35 miles northwest of Ozona.

Services were conducted from the Ozona Methodist Church, Rev. Eugene Slater, pastor, officiating, with the Rev. Ira V. Garrison, pastor of the Ozona Baptist Church, assisting. Burial followed in Cedar Hill Cemetery, Joe Oberkamp's mortuary in charge of arrangements. Pallbearers were Joe Pierce, Morris Dudley, Hugh Childress, Joe North, Sherman Taylor, Roy Henderson, Lee Childress and Stephens Perner.

Mr. Drake's body was found nearly an hour after the accident by Charles Black, Jr., nearby ranchman. A blow-out is believed to have caused the fatal accident. The car turned over several times and was practically demolished. Mr. Drake is thought to have died instantly. He suffered a crushed chest, head injuries and a broken left leg and arm.

Mr. Drake left his home here early Tuesday morning for a business trip to Barnhart, telling his family that he expected to be back by 8 o'clock. He had evidently changed his plan and detoured to the Montague ranch.

Surviving him are the widow, Mrs. Fay Kirby Drake, three daughters, Mrs. Sam Fowler of Junction, a recent bride, Dorothy Fay and Jean Drake of Ozona, one brother, Will Drake, San Angelo livestock commission dealer, and one sister, Mrs. John Young of Alpine.

Mr. Drake was born in Coryell County April 8, 1877, the son of F. M. Drake, scion of one of the earliest families to settle in Texas, and himself a large-scale rancher in the days of the open range in Texas. The family settled in McMullen County where (Continued on last page.)

## Ozona-Sonora To Meet Texon Here Saturday

### Week-End Struggle To Be Continued At Texon Sunday

The Sonora-Ozona combination, first-half Permian Basin champs, will meet a traditional enemy, at least from the standpoint of Ozona fans, on the Ozona diamond next Saturday afternoon when the Texon Oilers, perennial champs of West Texas baseballdom in days gone by, now piloted by hard-hitting First Baseman Roy Gardner, come to town.

Chafing under the sting of a double defeat handed them the past week by the Gulfmen from Crane, defending champions, the two-town crew is likely to be a bit hard to get along with the pending week-end, Sunday's game will be on the Texon lot.

Mr. and Mrs. Doug Kirby and small daughter, Kay, have returned from a visit in California with Mrs. Kirby's parents, Mr. and Mrs. L. B. Adams.

Mr. and Mrs. Bert McDowell, who ranch south of Ozona, were Ozona visitors Tuesday.

## Adjudged Most Attractive

The Taliaferro Garage and W. E. Thomas Filling Station, pictured above, was recently awarded a handsome plaque and designated as the most attractive filling station on a state highway in Crockett County. The award was made by the State Highway Department through the local Highway Beautification Committee headed by Mrs. Lee Childress as chairman. A disinterested committee, appointed by Mrs. Childress, judged the stations. The Taliaferro Garage is owned and operated by C. W. Taliaferro. W. E. Thomas operates the Humble service station under lease.

THURSDAY, JULY 22, 1936

UNUSUAL COURAGE

Fort Worth Press— Political courage is a thing so rare that the action of Governor Allred and Comptroller Sheppard has left us glassy-eyed with admiration.

Their pluck will save the taxpayers \$3,500,000.

They stepped right in before the schools — the most feared and most powerful political group in Texas — and announced that, as majority members of the state automatic tax board, they would not levy a \$3,500,000 property tax to pay the biggest increase in school aid levied since 1920.

If they stick to their guns, the state ad valorem tax bill will be reduced 12 cents on the \$100, a decrease from 20 to 8 cents. The 8 cents must be levied to pay for state text books.

Everybody is in sympathy with the cause of education, but when you consider that the taxpayers have:

Given the public school fund so much income that this year they paid the highest school aid in history and still had \$3,000,000 cash left over.

Pledged the record-breaking amount of \$5,500,000 a year for the next two years for rural aid.

Made the biggest appropriation in history for higher education.

And been called upon to pay hundreds of thousands of dollars for teachers' retirement benefits.

All in face of the fact that the general fund is \$10,000,000 in the red, the Confederate pension fund almost \$5,000,000 behind and present revenues insufficient to pay old age pensions. . . it seems inconsiderate of the schools to call on the taxpayers for an increase of \$4,680,000.

The schools have pressed for more and more revenue for years, and once they gain it they hold it with the grip of the dead.

State school executives were amazed when the governor and Mr. Sheppard announced their decision to stick to the law which says they shall levy a tax sufficient to produce \$17.50 per capita, and refuse to levy a tax sufficient to pay \$22.

To remind these officials of the political power of the schools, Ghent Sanderford, head of the State Education Board, in a newspaper release thundered:

"The Board did fix the per capita at \$22, and that is where it is going to stay — to the satisfaction of 48,000 school teachers, 30,000 trustees, 900,000 parents,

and 1,560,000 school children." Somehow we believe Allred and Sheppard are not going to be bluffed. They will stick by their decision saving the taxpayers \$3,500,000.

We know the schools can use the money, but they could have obtained a record-breaking per capita of \$20 and still have given the taxpayers the benefit of the saving that Allred and Sheppard now will have to fight to obtain.

Even with the school tax at 8 cents, the schools still will have enough revenue to pay \$20 per capita.

If the Legislature levies additional taxes this Fall to try to get some less fortunate departments of the state on their feet, the schools with their 25-per-cent-of-almost-all-taxes may gain enough to be able to pay their \$22 in cash.

So if you have any sympathy to spare, give it to Allred and Sheppard.

Chances are they will catch it good and plenty from the school body for daring to think of giving the taxpayers a break.

69 Cases Infantile Paralysis Reported in Texas For 1937

Austin, July 14 — Dr. Geo. W. Cox, State Health Officer, states that infantile paralysis, like typhoid fever, is largely a summer disease. Although cases may occur during any month of the year, over half the total number come in July, August, September and October. To date, 69 cases of poliomyelitis have been reported to the State Health Department in 1937.

Direct contact between persons is regarded as being the chief factor in the spread of infantile paralysis. Because of the seasonal prevalence of the disease, flies and other insects have been suspected of conveying the virus or germ

Insect transmission has not, however, been demonstrated. Although animals are subject to paralysis, they are seemingly not susceptible to the human type of this paralytic disease. Carriers are difficult to determine; this fact makes advisable the reduction to a minimum of human contact during an outbreak.

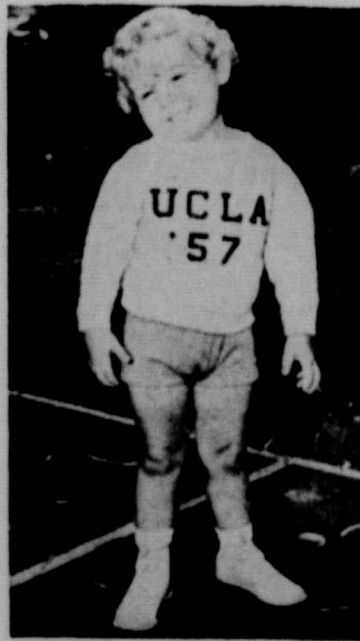

Early symptoms of infantile paralysis comprise headache, fever, vomiting, bowel disorder, drowsiness and irritability, followed by neck or back stiffness. Prompt medical care, early recognition and reporting of cases make possible the use of valuable preventive and control measures.

After the acute state of the disease has passed and walking is finally permitted the patient, under no circumstances must the affected part be fatigued. It is thus observed that the secret of successful rehabilitation lies in continuance of professional guidance and large doses of patience.

Children under five are more susceptible to the disease and all children under 12 should be watched for suspicious symptoms. There are important things to do when a child shows symptoms. Your family physician should be called at once and physicians should report all cases to the health authorities immediately. When the disease occurs all cases should be isolated for 21 days. All milk should be boiled unless it is pasteurized.

Children should not visit homes where the disease exists or there are symptoms of it. Flies should be killed and their breeding places destroyed. Promptness in diagnosis of poliomyelitis is important in preventing spread of the disease.

LOOKS FAR AHEAD

Emblazoned on the front of his sweat shirt are the letters of the future alma mater of two and one-half year old Norman Scott Barnes, son of Joan Blondell, screen star, by her former husband. When Norman reaches college age, the University of California, Los Angeles, is to be favored with his patronage.

BUSINESS FAILURES UP

Austin, July 21—Seventeen business houses failed in Texas during June, which represents an increase over the preceding month and over the corresponding month last year, it is shown by compilations of the University of Texas Bureau of Business Research. Reports from Dun and Bradstreet, Inc., show a total of seventeen failures in June, against eight in May and fourteen in June, 1936—increases of 112.5 per cent and 21.4 per cent respectively, the Bureau's analysis stated.

Liabilities of \$89,000 were up 287.0 per cent from May but down 4.3 per cent from June last year.

During the first six months failures totaled 76, a decrease of 29 per cent from the like period last year.

METHODIST CHURCH

Eugene Slater, Minister Calendar of Services

Sunday School 9:45 a. m. Morning Worship 11:00 a. m. Evening Worship 8:30 p. m. Mid-Week Service, Wednesday, 8:30 p. m.

Dr. L. U. Spellmann, Presiding Elder of the San Angelo District, will preach for us this Sunday morning. He will also hold our Third Quarterly Conference in connection with the service. Please invite your friends to this and all other services at this church. We want to be a friendly people who recognize that friendliness is one of the ministries of God to which we are all called. We welcome all who will to worship with us in all of our services.

Mrs. Walter Cook and son, Randal Cook, of Elgin spent the past week visiting Mrs. Cook's son-in-law and daughter, Mr. and Mrs. Babe Phillips, on the ranch.

### Know Texas

News Bureau  
Texas State College for Women

#### Crossing Bridges

Denton, July 21 — As Texans whisk by the cement posts of modern highway bridges they seldom realize what a great number of these structures have been built to fill the needs of the state's widespread highway system. On January 1 of this year there were a total of 7,127 bridges maintained on state highways and by far the largest amount of these were concrete. This figure does not include underpasses and overpasses, of which there are 311.

#### Largest Cities

Even with the friendly rivalry between several Texas cities as to population totals, surprisingly few people know the ranking of the ten largest cities in the state. According to the 1930 census, Houston heads the list with 292,322. Dallas and San Antonio are second and third places, and Fort Worth, El Paso, Beaumont, Austin, Galveston, Waco and Port Arthur follow in order.

#### Topping Them All

Highest mountain in Texas is Guadalupe Peak, located near El Paso in the extreme western section of the state and rising 9,000 feet above sea level. Forming the southern end of the Guadalupe mountains in Culbertson County, it is quite a hill, even though not comparing with the 29,140 feet of Mount Everest, the world's highest mountain.

### Practical Cookery

Dept. Home of Economics  
Texas State College for Women

Denton, July 21— Even though the weather is not exactly ideal for canning, preserves and jellies on the breakfast table next winter are worth suffering through a little heat for now. Peaches and berries are the most common fruit available now.

**TO CAN BERRIES:** There are three different methods which work successfully, but the open-kettle way is simplest and quickest. Sterilize jars and leave them in hot water until time to use. Sort the berries, which have been picked into shallow pans to prevent crushing, and retain only the sound fruit. Wash in a colander and remove the hulls.

Put 5 or 6 quarts of berries into a 10-quart kettle, add 1 c. of water, and add 1/2 c. of sugar for each quart of berries. Do not allow sugar to settle in the bottom of the kettle. Cook from 10 to 20 minutes, until sugar is dissolved

## Soviets Establish Post on Top of the World

This photograph, brought back by returning members of the Soviet aerial expedition to the North pole, shows the camp established at the pole by the expedition. Parts of the planes, first to land on top of the world, may be seen in background. Four members of the expedition will remain at the pole for a year, studying conditions and atmospheric phenomena. It is planned to establish a base there for a regular Soviet air service between Moscow and the United States.

and fruit is heated throughout.

Fill the sterilized jars with hot fruit, remove any air bubbles by running a knife down side of jar, add liquid to fill jar to overflowing, and place the top on quickly, making sure the rubber is flat and evenly placed. Turn jar upside down to test air-tightness. Sudden chilling will break the jar, so cool it gradually, label and store in a cool dark place.

**TO PRESERVE PEACHES:** This fruit may be preserved by five or six different processes, but canning is by far the least trouble. Sterilize jars. Make a syrup using 3 1/2 lb. of sugar to a gallon of liquid. Use 1 pint for a lb when no scales are available. Allow one c. water for each quart jar. Boil the syrup from 5 to 10 minutes and strain to remove impurities and secure a clear product.

Using ripe but firm peaches, peel by dipping into boiling water for 1 minute; plunge into cold water immediately and skins will slip off easily if fruit is not too green. Cut peaches into halves, removing stones. Pack in jars in overlapping layers. Fill each jar with syrup, remove air bubbles, place the rubber and adjust the cap loosely.

Arrange jars in processor so they will not touch each other. Use wooden or wire rack in bottom of vessel. Have enough water in the processor to cover jars. Heat to boiling and boil 15 minutes for pint cans, 20 minutes for quart cans, 35 minutes for half-gallon cans. Remove from fire, fill cans to overflowing, seal, cool and label for storage.

## Toward Community Improvement

**Taliaferro Wins Filling Station Highway Award**  
**Plaque Awarded For Most Attractive Station**

The Taliaferro Garage and Filling Station was awarded a handsome plaque as being the most attractive independently owned filling station and garage in Crockett County yesterday afternoon. The presentation being made by Mrs. Lee Childress, chairman of the Highway Beautification committee for this county. The Taliaferro Garage, owned by C. W. Taliaferro, and the filling station, operated by W. E. Thomas, was selected by a distinguished committee named by Mrs. Childress to select the filling station to receive the award, offered by the State Highway Department. Two such awards are made in each county annually, one to independently operated stations and one to company owned stations. There being no company owned stations in this county, the one plaque was all that was awarded here.

The Station of Beauty — And Friendly Service

We are proud of the recent award made to this Garage and Service Station by the Highway Beautification Committee designating ours as the most attractive in Crockett County. We consider it an honor to display the plaque awarded us and it shall be our aim to maintain our standards by constant improvements in both appearance and quality of service offered our customers.

## We Invite Your Patronage

Beauty of exterior alone does not necessarily assure one of satisfactory service from a business institution. But we have undertaken to make our service and the products we sell as attractive as the exterior of our station.

In dealing with either the filling station or garage you are assured of guaranteed satisfaction. Our growing volume of business is an indication of the type of service we offer. We invite you to try this service that brings them back again and again.

Texas

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. Address inquiries to Will H. Mayes, Austin, Texas.

**Q. How old is the town of Matamoros, Mexico?**

**A.** Matamoros, the Mexican town across the Rio Grande from Brownsville, was founded in 1824.

**Q. Where is the Texas State Juvenile Training School?**

**A.** Near Gatesville, Coryell County.

**Q. What sculptor has designed and will erect the memorial to pioneer women at the Texas Woman's College, Denton?**

**A.** Leo Friedlander of New York whose design is a woman standing fully clothed except for bare feet the Centennial commission having rejected the design of a nude group by Zorach, which was recommended by its art committee. The monument is to be of bronze or marble and will cost \$25,000.

**Q. What other \$25,000 monument than the one at Denton is to be erected as a Centennial project and by what sculptor?**

**A.** A monument to cost \$25,000 commemorating Fannin and his men, who were shot while held as prisoners at La Bahia (Goliad), is to be placed at Goliad. A. P. Proctor, a Seattle, Wash., sculptor, has been awarded this commission. The work to be completed in about nine months.

**Q. What are the traditions as to the origin of the name Wichita?**

**A.** One is that Wichita is a Comanche word meaning "fond of corn." Another is that a Comanche squaw, who waded into the waters of the Big Wichita River to find its depth, called out "wee-chee-taw", meaning waist deep. Another is that it is a Wichita Indian name meaning "much tattooed," and still another is that the meaning of the word is "white." When Wichita Falls was founded in 1882, there were water falls there, but a dam that was built later was washed away, destroying the falls.

**Q. Did "Billy" Dixon hold any offices in Texas?**

**A.** He was a land commissioner for Hutchison County for a time was justice of the peace, and was elected sheriff of the county, but resigned and went back to Old Adobe Walls, because of his dislike of politics. He afterward stated that "when a man gets mixed up in politics he is soon traveling a rocky road."

**Q. Where was Fort Elliott?**

**A.** Fort Elliott was established in 1876 about the present site of Mobeetie, Wheeler County.

**Q. Was there ever a fort in Texas known as "Fort Spunky"?**

**A.** There was an early Indian outpost of that name in Hood

**HOW NEW YORK FAIR MOVES BIG TREES BY HUNDREDS**

**NEW YORK (Special).—As the housewife repots geraniums or the gardener moves berry bushes, so does the New York World's Fair 1939 Corporation transplant stately trees from five states to the 1216 1/2-acre exposition site. The Fair's landscape engineers explain that the moving of the big trees differs from the replanting of small shrubs only in the matter of size, and that modern mechanical aids make possible the creation of a mature-looking park on the newly made land of Flushing Meadow.**  
 Shown at the top of accompanying photographs is a grown maple that has just been restored to upright position after a 120-mile ride on a specially-built truck. Note truck's winch and the secure balling of earth about the tree roots. In the centre is a 35-foot Norway maple, 12 tons weight, moving the last few yards to its new home by means of the forward gear of a modern tree mover. All trees shown, a number of the 474 veterans moved this spring, are new to the great expanse of filled land. The Fair will move 10,000 trees and 250,000 shrubs.

County, but it was never occupied regularly by U. S. troops.

**Q. What creek in Hutchison County was named for "Billy" Dixon?**

**A.** Dixon Creek was named for him by Jim and Bob Cator, early English settlers of Hansford county, in recognition of the fact that Dixon built the first dugout there in 1874 and was the first white man to live in the county.

**Q. When and by whom was the original "Old Adobe Walls" constructed?**

**A.** While it is not positively known, it is probable that the first "Adobe Walls," about a mile and a half from the place of the same name where the noted Indian battle was fought, was built in the early 1840's, by Col. William Bent as a post for trading with the Comanche, Kiowa and Prairie Apache Indians.

**Q. Where is Chinati Peak and what is its height?**

**A.** Chinati Peak is in the Chinati Mountain Range in the lower Big Bend. It rises to a height of 7,730 feet above sea level, being the sixth highest peak in Texas.

**Q. What two villages have been moved as a result of the building of Buchanan Dam?**

**A.** Bluffton and Tow have been moved from the bed of the newly created Lake Buchanan. The new Bluffton is now on highway 29, about 5 miles west of the old town. Tow, a few miles from Bluffton, is being rebuilt about a half mile northwest of the old site.

**Q. When was the town of Marble Falls founded?**

**A.** July 12, 1887, in recognition of which a Golden Anniversary celebration has recently been held there.

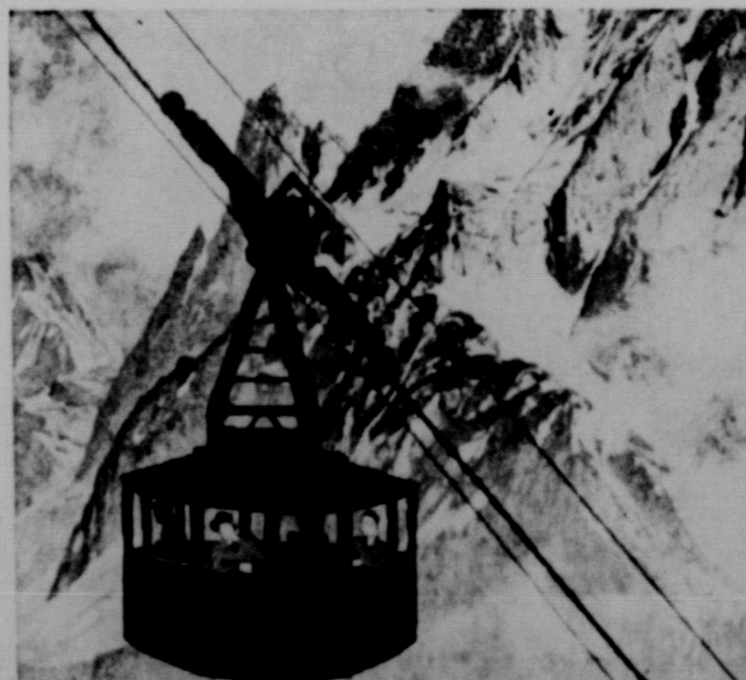

**Q. What is the organization known as the East Texas Big Thicket Association?**

**A.** Its purpose is to secure a National Park and game preserve of some 450,000 acres of the "Big Thicket" of East Texas, which includes about 2,350,000 acres of densely wooded land north of Beaumont lying in several counties. The area provides excellent cover for many kinds of game and wild life that will soon be lost unless protected. The section lies west of the Trinity River and north of Highways 45 and 190.

**Q. Please make the following correction in your "Let's Know Texas and Texans" feature in the Houston Post:**

**A.** Thomas J. Hardeman married Eliza DeWitt Davis, daughter of Green DeWitt, founder of DeWitt's colony and of Gonzales, its capitol. The daughter of Thomas J. Hardeman was married to Joseph Burleson.

**America's First Aerial Tramway**

A diagram showing one of the cars of the type which will be in use over the first aerial tramway in North America, which will be constructed up the side of Cannon mountain, about a mile and a quarter from the famous "Old Man of the Mountain," in New Hampshire. Cars like the one shown will carry 25 passengers at a time up the side of the mountain in six minutes. The tramway is expected to be completed about July 1, 1938.

**Your Telephone**

**Will Make Money For You**

Sometimes, in the ranch business as well as any other business, delay means loss of money. A trade may fall through if it is necessary to wait for an exchange of letters. The smart business man prefers to put his proposition and get his answer without delay. The telephone is the cheapest, quickest and most satisfactory.

**The San Angelo Telephone Company**

**Q. Is Texas Spanish moss a commercial product?**

**A.** The first carload of Spanish moss, after being refined for upholstery, was shipped from Edna, Jackson County, recently, consigned to a Brooklyn firm. This is thought to be the beginning of a profitable business.

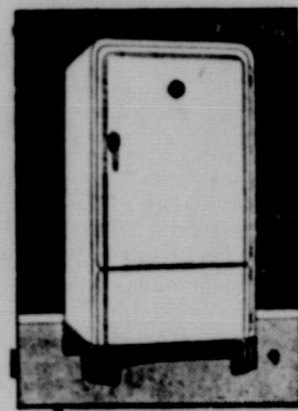

Save on every item during Smith Drug Co.'s week-end sale of Drug and Toilet articles. See the bargain list in our ad on the back page of this issue of The Stockman.

Pat Lee and son, Dock, Dr. R. B. Tandy, "Hop" Hoover and W. E. Friend, Jr., spent last week on a fishing trip to rivers in the state of Coahuila, Mexico. Dr. and Mrs. J. A. Sherburne spent the week-end in Brady, where they visited Dr. and Mrs. C. L. Cox.

Miss Wilma Milligan of Eldorado and E. H. Topliff of Houston were guests of Mr. and Mrs. Stephens Perner over the week-end. Say "I saw it in the Stockman."

That has ever been the command for Texans! And as a Texas institution, the entire Humble organization marches forward with the times. Continuous improvement is Humble's basic policy, and efforts based on it are never ceasing. Humble products are improved from year to year, from season to season, even from day to day; Humble station men are continuously seeking in every possible way to improve the service they render Texas motorists. Texas moves forward; Humble marches with the state!

**FORT WORTH LIVESTOCK MARKET REVIEW**

**By Livestock News Service**  
Hogs held the spot light at Fort Worth on the first two days this week. Advances of 30 to 40 cents placed sales Tuesday at \$12.00 to packers and \$12.10 to small killers and shippers for the first time in five years. Receipts in the cattle yards were curtailed and salesmen were able to stop the sharp declines of last week. Closing sales last Friday on grades were 25 cents lower than a week earlier, with spots \$1.00 more. Cows ranged from 25 cents to \$1.00 lower—the better grades showed the most loss.

The market for feeder lambs Tuesday was weak, but other classes of lambs and aged sheep were not so unchanged. Steer supplies Monday consisted of a few medium grade South Texas offerings selling at \$8.00 to \$9.00 and plain steers from \$5.00 to \$6.00. Odd lots sold Tuesday at \$6.00 down. A string of country purchased feeders were weighed at Fort Worth at a price of \$10.00. Most of the other supplies of better grade steer and heifer yearlings were the kinds that cashed around \$9.00 to \$9.50, with odd head around \$10.00. Plain grades cashed at \$7.00 down, with common better sorts from \$3.75 to \$5.00. Most of the fat weighty bulls sold from \$5.00 to \$5.50, with lightweights around \$4.25 to \$5.00. Odd head of good fat weighty bulls sold upward to \$7.00 and \$7.25, but the bulk of the supplies

**Windsor's Parson on Lecture Tour**

Rev. and Mrs. Robert Anderson Jardine, who sprang into the international spotlight when he defied the Church of England's highest dignitaries to perform the wedding ceremony at the Duke of Windsor and the former Wallis Warfield, shown as he arrived in New York recently for a lecture tour of the United States, the proceeds of which will be donated to charity.

were marketed at or below \$6.50. Fair quality fat cows from \$5.00 to \$5.50. Butcher cows ranged from \$3.75 to \$4.50, with canners and cutters at \$2.50 to \$3.50. Weighty fat calves brought \$8 and \$8.25. Lightweights sold around \$7.50 to \$8.00. Inbetween grades cashed from \$7.25 downward. Plain calves crossed the scales at \$6.00 to \$6.50, with common and cull calves from \$3.50 to \$5.00.

The best stocker steer calves were reported at \$8.25. Plain steers sold from \$5.00 to \$6.50. A few good steer yearlings cleared around \$7.50, with plain grades from \$6.00 down.

Most of the fat lambs sold from \$8.00 to \$8.50, with a few good sorts at \$8.75. Fat yearlings drew prices from \$6.50 to \$7.00. Aged fat wethers ranged from \$4.50 to \$5.25. Feeder lambs sold at \$6.00 to \$7.00. Feeder yearlings were purchased at \$6.00.

**810 New Business Firms Incorporated In Texas This Year**

Austin, July 21—New corporation charters granted in Texas in June numbered 98 and capitalization totaled \$1,573,000, according to a report of the University of Texas Bureau of Business Research. Reports from the office of Secretary of State show a decline in number of charters of 40.6 per cent from May and 33.3 per cent from June last year, the bureau's statement said. Capitalization declined 43.1 per cent from the preceding month and 27.2 per cent from June last year.

During the first six months of the year 810 new corporations were chartered, a decline of 11.5 per cent from the 915 chartered during the corresponding period a year ago. Aggregate capitalization of these firms was \$12,826,000, an increase of 4 per cent over the first half of 1935.

Miss Mildred North came home Monday after completing a term of study at the University of Texas.

### Over 300 Children Die In Texas Each Year Of Diphtheria

Texas loses more than three hundred of its children each year from one preventable cause, according to State Health Officer Geo. W. Cox. Diphtheria, that ever present menace to children, was responsible in 1936 for 351 deaths.

No parent would allow his child to run in front of trains or automobiles, but many allow them to run the danger of contracting diphtheria. Prevention of diphtheria in children is a simple matter of inoculation with toxoid.

If you have a child six months old or more, take him to your family physician and ask to have a Shick test made to determine whether the child is susceptible or immune to diphtheria—for 75 to 90 per cent of children under twelve years of age are susceptible.

Information that as high as ninety per cent of all children under twelve are susceptible was gained from Shick tests carried out on thousands of children during the past decade, and indicates that young children should receive immunizing treatment against diphtheria without a preliminary Shick test. Such a test should, however, be carried out six months after preventive treatment, to make certain that immunity has been established. In older children and adults, a preliminary Shick test is advisable, since immunity may already be present.

Diphtheria immunization is accomplished by the injection of toxoid. Your doctor can tell if the immunization was successful by giving you the Shick test four to six months after the last treat-

ment of toxoid. It takes that long for protection to develop.

There is no guess work about toxoid, it is a safe and proven preventive. The wise and cautious parent will take his child to the family doctor now, before school opens, and have him protected against the danger of contracting diphtheria, by immunization with toxoid.

One of the new type attic ventilator systems is being installed in the home of Mrs. W. E. Smith this week.

While bow legs are not few, they really are far between.

### Russ Airmen in Epic Flight to U. S.

### Crane Pushes Two-

(Continued from page 1.)

the thundering herd from Crane vociferously demanded—that the ball went through the fence and was not bounced over it by the outfielder. All was forgiven a few plays later, however, when Ratliff scored on Heatherly ground ball as a play was made for him at home.

With the Ozona-Sonora aggregation leading 2-1 at the end of the first half of the fourth, the locals having pushed over two in that frame, the Gulfmen gathered four runs in the fourth with but one hit, and it misjudged and allowed to fall to the ground. In that frame Davis started off with a walk, Smith was safe on Ratliff's error, Colvard laid down a bunt which died in the sand at the plate. Ratliff had come in for the bunt and could not get back in time to take Stuart's throw to force Davis at the third sack and a possible double play. Then Moos lifted one to left field. Teammates, thinking the ball was foul, called to Marvin McLeod to let it drop, fearing that the runner on third could score on the throw-in should he catch the foul fly. But the ball dropped fair by a few inches and three runners crossed the plate. Moos scored from third on a high one to center field.

The Gulfers rung up another in the sixth, Colvard being safe on Mangold's error to score on Anderson's double.

Texon and McCamey divided the week-end series while Iran remained idle. Next Saturday will see the Texon crew under the management of Roy Gardner in action on the Ozona field Sunday's game to be in Texon.

### 13 Millionth Chevrolet Off Assembly Line

Another milestone in industry was reached Wednesday, when the 13-millionth Chevrolet rolled off the assembly line in the Flint plant of the Chevrolet Division, General Motors Corporation.

In spite of interrupted production, Chevrolet's 13th millionth car was produced in a period of just two days more than 11 months, the second shortest million-unit period in the company's history. Officials stated that the demand for the 1937 models has exceeded anything heretofore known, and that, but for the frequent interruptions of output since Jan. 1, production and workers' wages would have shattered
