Mission Study On China To Be Conducted Here

Mrs. Gordon Singleton, Mrs. Eugene Sallee To Be Here

BULLETIN!

Mrs. Eugene Sallee, scheduled to be here next week to assist in conducting a mission study course at the Baptist church, will sail Saturday from San Francisco to return to China in response to a cablegrammed request from the China Interior Mission Board, according to advice received by long distance telephone here last night by Rev. Clyde Childers, pastor.

Mrs. Singleton will come as scheduled, however, and will bring with her Miss Virginia Ely, who will take Mrs. Sallee's place to direct worship services.

An all-week mission study course will open next Monday night at the Baptist church, with Mrs. Gordon Singleton of Belton, wife of the president of Mary Hardin Baylor college, and Mrs. Eugene Sallee, missionary to China for 24 years, directing the study on China.

Mrs. Sallee and her husband served 24 years as missionaries in China. Dr. Sallee died in 1931. At the time of his death he was home secretary for the Foreign Missions Board. Mrs. Singleton and Mrs. Sallee are sisters.

Four classes will be held each evening, Monday through Friday, starting at 7 o'clock and continuing until 8:45. The evening schedules will be divided into a 45-minute class period, 30-minute lunch period and a 30-minute period in which Mrs. Sallee will bring an inspirational message each evening.

Mrs. Singleton will teach a class for adults and young people, teaching from the book, "W. Eugene Sallee, Christ's Ambassador." This book is a biography of Dr. Sallee and his work in China. Local teachers will direct the study course for the intermediate junior and primary departments, all on the subject of China.

Lions Hosts To Menard Jackets Here Saturday

Rocksprings Knocks Off Locals 34-12 Saturday

Labering under two successive defeats in district conflict, Coach Ted White's Ozona High school Lions will have a chance to salvage their collective pride next Saturday afternoon when they meet another district 41B underdog—the Menard Yellowjackets.

Last weekend the Rocksprings Bulldogs routed Coach White's proteges by the top heavy count of 34 to 12, with Beecher Montgomery again lugging the leather for Ozona's two markers.

The Menard crew, however, looms as anything but a setup for the Lions in Saturday's melee. Coach Con Isaac's lads last Saturday afternoon won a moral victory when they held the defending champion Eldorado Eagles to a 14 to 6 count at Menard.

NINE MEXICANS FINED

Nine Mexicans were fined in Justice court here Tuesday morning on charges of gaming filed following a raid by Sheriff W. S. Willis on a house in the Mexican quarter where a dice game was alleged to have been in operation.

WE LAMBS AT \$4

Mrs. Mae B. Gray of Ozona recently sold her ewe lambs from her Rankin ranch at \$4 per head while the mutton end went at 95 cents per pound.

On Trial In Espionage Case

NEW YORK CITY.—Three defendants who went on trial here Saturday, October 15 in Federal Court on a Federal Grand Jury indictment charging them with being part of a concerted plot, sponsored and financed by the German government, to steal from the United States, vital military defense, aviation, and commercial secrets. Left to right they are Eric Glaser, 28, U. S. Army private of German origin, who was attached to the Air Corps at Mitchel Field, L. I.; Otto Hermann Voss, 30, German-American mechanic at the DeSeversky Aircraft Corp. plant at Farmingdale, L. I.; and Guenther Gustave Rumrich, 32, former sergeant in the U. S. Army and a deserter, whose bungling revealed the ring, and who has now pleaded guilty.

Woman's Club Sponsors Clean Up Drive Here

City Urged To Dress Up For Music Club Convention

That Ozona might present its neatest appearance when it acts as host to delegates and visitors to the Sixth District Federated Music clubs convention here November 3 to 5, the Ozona Woman's club this week launched a city-wide clean-up campaign. Committees were named to canvass by telephone and in person all residents to urge them to clean up their own premises and owners of vacant lots to see that these are cleaned of unsightly weeds and rubbish.

The club has not planned the elaborate campaign usually sponsored in the spring, but has put it on a voluntary basis. No trucks are to be provided for hauling of trash, as is the practice in the spring clean-ups. Instead, the club will rely on the cooperative spirit of citizens to make the town neat and clean for the occasion of the influx of visitors.

Mr. and Mrs. Clay Adams have returned to their ranch near Pumpville after a visit here with Mrs. Adams' mother, Mrs. S. B. Phillips, and other relatives.

A REAL "COWBOY"

D. A. Parker, Ozona sophomore, who is playing end on the Hardin-Simmons University Cowboy eleven, is in Paducah, Ky., this week-end for the H-SU intersectional game with the Murray State Thoroughbreds, undefeated since the Cowboys walloped them 21 to 0, early last year. Parker, who kept in condition last summer breaking wild horses, 29 of them in all, is a Cowboy varsity basketball player, too. The Cowboys play their final home game of the season, with the East Texas State Lions, from Commerce, Saturday night, October 29.

Tiny Indian Arrow Head Is Found On Ranch Near Ozona

Paper-Thin Point Is Smaller Than Fingernail; Found By Ned Bishop

One of the smallest perfect arrow points ever found was being exhibited here the first of the week by Ned Bishop, foreman on the Roy Hudspeth ranch two miles west of Ozona. Mr. Bishop picked up the tiny arrow head on the reach quite by accident. He stooped to pick up a rock and his eye fell on the little point, scarcely as large as a man's little fin-nail.

Accurate measurements showed the tiny point to measure 1/4 of an inch across one way and 5/16 of an inch the other. It is of flint and almost as thin as a sheet of paper, perfect in every detail, and weighing less than a postage stamp.

Persons familiar with Indian lore declare that these tiny points were used by the Indians in tribal and religious ceremonies. Many of the small arrow-heads found are known to have been used for killing birds and small game, but one as tiny as that found by Mr. Bishop would have been useless as a weapon.

Fish Hunts Down Fisherman To Bite Hook Second Time

This is a fish story but not a story of the big one that got away. Rather it is a most unusual story of a small one that got away and then got on again.

The story is told by N. W. Graham, Ozona attorney. While fishing on the Pecos river recently, Mr. Graham pulled up a small catfish but just as the fish cleared the water, the hook came loose from the line and the little fellow dropped back into the water, free.

After eating dinner, and more than an hour later, Mr. Graham resumed his fishing nearly a mile downstream from the spot he had fished before dinner. Among the small cats caught in the afternoon was one with the hook he had lost an hour before. Proof it was the same hook and fish? The hook still had fragments of fresh bait on it—he was fishing with earth worms.

33 Millions To Texas Under Soil Act During 1937

Texas farmers and ranchmen received a total of \$33,105,407 in government benefits under the Soil Conservation Act during the year 1937, according to a report just issued from the Department of Agriculture at Washington. Of this amount, the range program received \$4,154,000, the report shows. Ranchmen of Crockett county received nearly \$100,000 in benefits from the range program

Ozona Woman On National Group To Combat Taxes

Women Form Organization to Study Tax Structure

Ozona homemakers today joined the "woman's first nation-wide crusade against unnecessary taxes which increase the cost of life's necessities" with the formation of a unit of the National Consumers Tax Commission.

Mrs. A. C. Hoover, whose appointment as Ozona chairman was announced from the organization's national headquarters at Chicago, said a drive would be started soon to "inform housewives of the raids made by hidden taxes on the family budget."

The commission's Texas campaign is led by Mrs. Kenneth C. Frazier of Dallas, the president of the commission, and Mrs. Volney W. Taylor of Brownsville, the Texas national committeewoman.

Mrs. Hoover explained that the commission is a non-profit, non-partisan organization "designed to arouse tax-consciousness among women who do approximately 85 per cent of the nation's retail buying, and to combat taxes which penalize the consumer."

"Invisible levies raise the cost of everything we buy, including food, clothing and other necessities," she declared. "Most of us are unaware we pay them, though the commission has found that they add 11 cents to a 29-cent meat purchase, \$10 to a \$30 rent bill, \$1.95 to a \$5 hat and \$1.56 to a \$4 pair of shoes."

The chairman said a recent commission survey showed that taxes are now equal to 23.6 per cent of the national income.

Plans call for appointment of an executive committee to assist the chairman and to arrange a tax study program.

Patrick Sells Val Verde Ranch At \$11 Acre to Walter Babb

D. H. Patrick, former Ozonan now making his home at Frankston, Texas, recently sold his seven-section ranch at the mouth of Howard draw in Val Verde county to Walter Babb, whose present holdings adjoin the newly purchased country.

The consideration approximated \$11 an acre, it was reported, Tom Patrick, a brother of D. H. Patrick, has had the place stocked under lease. Mr. Babb will take possession October 25. The new acreage will make the Babb holdings about 17 section.

INFANT BURIED HERE

The infant of Mr. and Mrs. W. A. Friend of Big Lake was buried in Ozona cemetery Friday afternoon. The infant died at birth Friday.

Prowler Enters Home Of Ozonan Takes \$45 Cash

Bill Littleton Loses Sum From Trouser Pockets

Bill Littleton, deputy sheriff in charge of tax assessments in the office of Sheriff W. S. Willis, is short approximately \$45 in cash as a result of a visit from a prowling thief who entered the Littleton home sometime Monday night.

An estimated \$43.50 was taken from the pocket of a pair of Mr. Littleton's trousers left in the bedroom when he changed clothes to do his chores about the home. Another \$1.50 which Mrs. Littleton had in her purse on top of the piano was also lifted, the purse being replaced on the piano.

Mr. Littleton did not discover his loss until the following morning. Nothing else in the room was disturbed. It is thought, however, that the thief entered the home during a short time the family was away before supper. Mr. Littleton had changed his clothes to milk his cow and then had gone with Mrs. Littleton to deliver some milk. The thief left no definite clues but officers are investigating several theories.

KIN OF OZONAN WED

Miss Patsy Frances Ellis of Abilene, a niece of Dr. H. B. Tandy of Ozona, became the bride of Charles Lacy, Jr., of Abilene in a ceremony in that city last Saturday. Mrs. Lacy is well known to many of the Ozona younger set, having visited in the Tandy home on several occasions. The young couple will live in Abilene.

HONORED BY P-T. A.

Mrs. W. A. Kay

Mrs. Kay Honored By PTA For Long Service Record

Member Here 14 Years Soon To Leave For New Home

Mrs. W. A. Kay has been accorded special honors this week by the Ozona Parent-Teacher Association in recognition of her long record of service in behalf of the organization. Mrs. Kay has been a member of the Ozona association 14 years, has served as its president two terms, was treasurer two years, and served as vice president for four years.

She served as fourth vice president of the Sixth District, Texas Congress of Parents and Teachers four years, from 1932 to 1936, and as district recording secretary two years, 1936 and 1937. She was elected first vice president of the district in April, 1938, which office she now holds. The Ozona association last year recognized her unselfish service to the organization by according her a life membership.

Mrs. Kay attended her last meeting as a member of the local association Monday afternoon. (Continued On Last Page.)

Ozona Minister Off To Annual W. T. Conference

Slater Attends Last Session Of Southern Branch

Rev. Eugene Slater, pastor of the Ozona Methodist church, left Wednesday for San Antonio to attend the annual session of the West Texas conference of the Methodist Episcopal Church, South, which will be the last general conference of the southern branch of the church as such. The uniting conference of the three main bodies of the church will be held in April in Kansas City when the final union of the churches into one body, to be known simply as the Methodist church, will be effected.

The West Texas conference will hear reports of the year's work over the West Texas district, outline plans for the new conference year and make appointments of ministers to the various pastorates under its jurisdiction.

The conference preacher will be Bishop A. Frank Smith of Houston, presiding bishop over Texas, Louisiana and the West Texas conferences. Rev. M. D. Council of McAllen, will preach at the conference service Thursday evening. Rev. K. P. Barton of San Angelo Friday evening and the Rev. Edmund Heinsohn of the University church in Austin Sunday morning.

Special musical features for the conference include the choir of the University church Thursday, the music department of the University of San Antonio Friday and the Travis Park church choir of San Antonio Sunday.

The opening session of the conference will be at 7:30 Wednesday evening, closing with the reading of appointments Sunday evening. Radio station WOAI in San Antonio will broadcast the new appointments at 10:30 o'clock Sunday evening. All sessions of the conference will be open to visitors. Bascomb Cox of Ozona is lay delegate from Ozona church.

Trace Of Moisture Accompanies First Norther Of Winter

Winter descended on this section of West Texas Wednesday night, bringing with it a slight drizzle of rain for a short time early Thursday morning, the first moisture in this immediate area in more than a month.

The norther drove the temperature down from midsummer heat to around 45 degrees early this morning, with a brisk wind from the northeast. Ranchmen who are badly in need of moisture on range lands to insure winter feed were disappointed that the weather change did not bring a good soaking rain, but were encouraged by the fact that the first norther brought a trace of moisture.

Band Uniform Fund Nets \$215 Profit From PTA Carnival

A net profit of \$215.31 was realized by the Ozona Parent-Teacher Association as a result of the highly successful carnival staged last Thursday evening in the city park. The carnival features were well arranged and directed and one of the largest crowds ever assembled at a home-talent affair was on hand.

Proceeds from the evening's entertainment will go into a fund being raised under the direction of the P. T. A. for the purpose of purchasing uniforms for members of the high school band. Through contributions already received, plus the profit realized from the carnival, a total of nearly \$500 has already been raised toward the objective, it was indicated in reports from the organization treasury.

THURSDAY, OCTOBER 20, 1938

A PAT ON YOUR BACK

Every once in a while one experiences a glowing sense of satisfaction at being a resident of this community where any undertaking is done in grand fashion, and where every fellow puts his shoulder to the wheel when there's work to be done.

This thought is inspired by the splendid turn-out for the P. T. A. carnival last Thursday night. In the first place, our hats off to the corps of workers who planned and executed the evening's entertainment. Committees functioned smoothly and by opening time, tents and booths were in place, and the picture rivalled the gay-lighted midway of a big time carnival.

But what should have brought a real thrill to every resident who is proud of his community was the tremendous crowd which gathered on the grounds and spent freely at every stand, game and show. It was a grand show, to be sure, and no doubt many who came were confident of this fact and expected their money's worth. But many others were on hand simply because a worthy organization was sponsoring a worthy cause and if Ozona was doing something they wanted to be in on it. We happen to know that that was actually the spirit of many—as it always is in this community. But every feature of the carnival was well worth the price charged, and it is safe to predict that any time this group should see fit to launch a similar entertainment, it will be even more successful.

Trusting that those readers outside the county of Crockett will bear with us while we thus pat ourselves on the back, we feel that this double-barrelled compliment is in order—to the folk who put on such a grand show and to the splendid people of Ozona who turned out to support it so liberally.

Refrigerator freight cars were first used in 1877.

Phone your news to the Stockman.

ON HIS TRAIL

STRIKES COST MONEY

There is trouble again in the automobile industry. Coming at a time when business is on the upgrade, it is a serious threat to recovery. Disregarding the merits of the dispute, some facts are pertinent.

Last year's automobile strike cost employees in that industry the loss of about \$176 each in wages. They got a 5-cent-an-hour pay raise. On a 40-hour-week basis, it would have taken them 88 weeks of consecutive work to earn what they lost by the strike.

But a depression intervened. The public virtually stopped buying cars. Employees went on part time work with their wages correspondingly reduced. And now they are threatening another strike with its toll in wage losses. The trouble is that strikes hurt the general community as much as the workers directly involved. Workers have no money to spend. Some of them get federal relief in money collected in taxes from their neighbors. Real estate owners lose rent. Storekeepers' sales slump. Everybody feels the pinch. Strikes do cost money, and more than money too.

ROBBED OF FREEDOM

Nazis have warned that an "end must be put to the methods" of Theodore Cardinal Inntizer. The warning was published in a Nazi organ.

That's how the Nazis take criticism. That's all the Cardinal voiced.

His palace was subsequently stormed by a mob, windows were broken and there was much interior damage, and the Cardinal was wounded by a stone.

Nazis won't permit themselves to be in a state of continuous anger, they said. They'll just elim-

nate the Cardinal, probably, or anyone else who chooses to disagree with them.

Over in this country, we are free to criticize, to speak our opinion. It has been found the best means to an end, keeping all of us from going too far to the right or the left. Each person respects the freedom of opinion of others. Cardinal Inntizer would not have been harmed over here, and that is just another reason why all of us should appreciate America more, should be on guard against the encroachment of any of the isms that have robbed people of their freedom over in Europe.

DEFENSE PROGRAM

The hands across the seas nowadays are showing an armament bill at you. Europe's finger in our national defense is frankly admitted by the United States Government. The administration studies ways and means of increasing expenditure on army and navy, of securing better coordination between rival and military needs in the event of war, and simultaneously exposes Nazi interest in defense plans by putting on trial a group of German spies, one admitting guilt. Nicely timed propaganda may be involved in including in the espionage indictment high Reich officials who cannot be brought to trial but who may be convicted in absentia. The idea is to shake rudely the confidence of the isolationist who regards distance as an impassable barrier.

Mr. Roosevelt and his advisers seem right in the means adopted to shatter our egotistical self-confidence and in courageously facing the cost of the measures necessary to assure safety. But the whole armament program of the world is a monument to its own folly. Because strident dictators are on the march, committing their own nations to excess expenditure on armies and arms in plain effort to terrorize and conquer, the rest of the universe is forced to adopt means of halting them. The result is a bill of huge size for activities that are of no constructive value. The expense involved in providing defense serves too to halt science, invention and progress of peaceful initiative from which the funds are necessarily diverted. Disarmament was a sound policy. It failed because few nations would undertake it in good faith, not all in unison. Only uniform disarmament can save the foolish world from itself. It is a rescue which is not in sight in our day and time.

When a hotel manager of Omaha advertised that he wanted the most freckled boy in the state for a page, Paul Smith applied and got the job. He claimed 693 freckles.

Judge Provides Final Accident In Native Case

CAPE TOWN, S. Af.—A native was in the dock at Port Shepstone, South Africa, on the charge of stealing a goose from a neighbor's yard.

"What have you got to say about it?" asked the magistrate. "It was due to three accidents," said the native.

"First of all, there was an accident when the goose entered my kraal. Then an ox-yoke fell upon it.

"Then I accidentally upset a pot of boiling water over the bird. I knew my neighbor would say that I had killed the bird with the boiling water, so I threw it into a pile of brush.

"Then in the night I heard cats fighting for the goose. I didn't like the idea of good meat being wasted so I got up and cooked and ate it myself."

The magistrate then leaned forward: "Then here is another accident for you," he said. "One month in prison."

OZONA LODGE NO. 747 A. F. & A. M. Regular meetings first Monday night in each month. Next Meeting, Nov. 7, 1938

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912.

Of The Ozona Stockman, published weekly at Ozona, Texas for October 1, 1938.

COUNTY OF CROCKETT, ss. STATE OF TEXAS.

Before me, a notary public in and for the State and County aforesaid, personally appeared W. E. White, who, having been duly sworn according to law, deposes and says that he is the publisher of the Ozona Stockman and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc. of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411, Postal Laws and Regulations, printed on the reverse of this form, to wit:

- 1. That the name and address of the publisher, editor, managing editor, and business manager is W. E. White, Ozona Texas. 2. That the owner is W. E. White, Ozona, Texas. 3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: NONE.

W. E. WHITE.

Sworn to and subscribed before me this 18th day of October, 1938.

(SEAL) CORALIE MEINECKE. My commission expires June 1, 1938.

Behind The Scenes In American Business

By John Craddock

NEW YORK, Oct. 19.—BUSINESS—"Peace, it's wonderful." That is quite evidently America's reaction to the calmer international atmosphere, and to prove it, business and industry are chalking up some highly encouraging statistics. Almost 225,000 shining 1939 autos will roll off Detroit assembly lines this month, with orders for new models in some cases the best in 10 years. Enthusiastic buying last week boosted stock prices to new peaks for 1938. Activity in the nation's cotton mills is moving upward at a much faster pace than usual for this time of year. National income will rise \$5,200,000,000 in the second half of this year, the biggest jump in a decade, according to estimates.

WASHINGTON—With the general elections only three weeks away political interest now centers on the outcome of the contests for 45 House seats and 33 Senate seats. One survey, among newspaper correspondents and politicians, predicted Republicans will gain fifty seats in the House and four in the Senate. In regard to the general economic situation, many in government circles are keeping an eye on the price index—to see that prices don't soar too high and force a recession similar to the one just left behind. Insiders say, however, that no special legislation is in the wind to fix price levels.

ON THE FARM FRONT—Many dairy farms lacking satisfactory refrigeration have been confronted with the perplexing problem of how to cool milk in preparation for shipping. Several devices are on the market which give a solution, newest of which is a unit consisting of a pan-like aluminum cover which fits the top of the milk can and is equipped with a water motor and agitating shaft for stirring the milk. Water from the farm system operates the motor and then drains down over the outside of the can through perforations in the aluminum cover. Tests show that the milk temperature is lowered from 98 degrees to 58 degrees in 15 minutes with water of 52 degrees temperature.

Usher and Dancer Inherit a Fortune

William J. Reilly, former usher in a New York movie palace, and Mrs. Rosalie Spatcher Knishern, ballet dancer, were named principal beneficiaries in the will of Mrs. Edna Morss Allin Elliott, who died recently. In making the bequests Mrs. Elliott said the pair "contributed a great deal to my happiness by their kindly and courteous acts. Neither ever expected anything from me for their many courtesies." There were unconfirmed reports that the estate might reach \$1,000,000.

erature is lowered from 98 degrees to 58 degrees in 15 minutes with water of 52 degrees temperature.

SALES TRENDS—Recent reports of merchandising activity in department stores indicate the following: Jewelry—increasing demand for heavy costume jewelry; women's full-fashioned hosiery—sales featured by popularity of subtle beige shades keyed to blend with colorful accessories; furniture—sales of mirror paneling for interior decoration and full length mirrors for doors are moving up rapidly; lamps—steady gains in low and medium priced floor and table lamps; toys—business about 25 per cent above year ago.

THINGS TO WATCH FOR—Less scribbling on restaurant tablecloths, because of new paper napkins with tik-tak-toe and word puzzles already printed on them. . . . Another magazine for children, called "Jack and Jill" . . . One more "dated" food to insure freshness; this time it's mayonnaise. . . . Fewer misfits in men's suits following introduction of new photographic measuring unit. . . . Fewer unpressed men's trousers due to a recently perfected type of pants with a permanent stitched-in crease. . . . Innovation in the game of bridge, called par-bridge, which can be played four different ways and can even supply the often missing "fourth hand."

HEADLINES IN NEW YORK—Half of America's lawyers earn less than \$2,000. Bar Association estimates. . . . 100,000th ship passes through Panama Canal since it was opened in 1914. . . . Container Corporation of America shows profit in third quarter against loss in previous three months. . . . Home building boom under way, says FHA, predicting 350,000 new homes this year against 50,000 four years ago. . . . Price reduced on steel used in making autos followed by price cuts on several popular makes of cars.

51 University Leases Offered In Nov. Auction Land In Four Counties Owned By Institution On Sale

AUSTIN, Oct. 19.—Fifty-one blocks of land owned by the University of Texas, the oil and gas rights of which will be offered at public auction in Austin on November 4, are situated in and adjacent to proved oil producing areas in West Texas.

These periodical auctions are looked forward to with no little interest, not only by prospective purchasers but by other persons who attend them for the enjoyment they receive from the entertaining methods used by Col. E. Walters in inciting excitement among the bidders.

Colonel Walters is one of the most picturesque men of the Southwest. He lives at Skeedee, Okla., and for the last 50 years has followed the profession of auctioneer as the means of disposing of millions of acres of land owned by Indian tribes and others in Oklahoma, Kansas and other western states. He has been the auctioneer for the University of Texas ever since that method was adopted for selling the institution's oil and gas leases.

Most of the acreage which will be put on the block at the coming auction is divided into quarter sections. Some of the blocks, however, run as low as 152 acres, and as high as 168 acres.

Ten of the quarter sections are situated in Crane county, where the University already has pro-

duction. Two 165-acre tracts are in Ector county, where there are also wells upon University land.

The largest number of subdivisions upon which bids will be received at the coming sale are situated in Andrews county, with 29 tracts listed. These are a part of the block of 294,000 acres which the University owns in that county. Production has already been obtained within a mile of

this big body of land, and all of it is regarded as potential oil bearing.

In Ward county the oil and gas rights on nine quarter sections will be offered.

A Kitchen Extension

SAVES STEPS IN SUMMER

On warm days, when there's kitchen work to be done, an extension telephone close at hand will save the steps you ordinarily take hurrying to another part of your home to answer or make telephone calls. This convenient extension saves time, too. It is a messenger always ready to run

your errands and order household supplies the moment you discover they are needed! Let a telephone in your kitchen help you keep cool this summer—the cost is moderate. Call our Business Office or any telephone employee will gladly help you place your order.

THE vast Buick factory is a grand place to visit, these days.

Down the roaring aisles, throughout the sprawling bays there's a sense of great things happening.

They're building something ultra, here at Buick, and they know it.

It looks like five years from now, they'll say of this dazzling 1939 Buick, and they're not talking of appearance only.

They're talking of "catwalk-cooling" that floods air under forced draft to ease the temperature of your engine.

They're talking of BuCoil springing and the soft shock-smothering spirals that give you the true "full float" ride.

They're talking of that Dynafash great eight engine, instant with life and wringing good from every drop of fuel.

They're talking of weight-balance and gravity-center that hold you to your line—of wheels that camber to let you take the curves more safely—of new visibility—up to 413 square inches more glass in SPECIAL and CENTURY models.

They're talking a thousand and one details of Buick that you'll never know nor need to know but that to their schooled eyes spell a better built automobile.

And they're thinking of now as they talk.

For they know that no car sells spectacularly when it's merely up-to-date. They know that for big years a car has to be ahead—that a car which looks like the future means better times for today.

You can see this car they're talking of at the nearest Buick showroom.

When you do see it, think of what the men who built it are saying, not boastfully, but with quiet sureness.

They know. And they're saying "Looks fine for '39!"

NO OTHER CAR IN THE WORLD HAS ALL THESE FEATURES

- ★ DYNAFASH VALVE-IN-HEAD STRAIGHT-EIGHT ENGINE

Missionary Entertains For Visiting Women

Members of the executive board of the Baptist Woman's Missionary society will be hostesses at a coffee next Wednesday morning at the home of Mrs. A. C. Hoover...

Mrs. Singleton and Mrs. Sallee will be here all next week for the purpose of conducting a study course at the church on the life of Missionary Sallee.

Mrs. George Bean was hostess to members of the local executive board at her home Wednesday afternoon when plans for the study course were outlined.

MRS. BROOKS IS HOSTESS AT BRIDGE

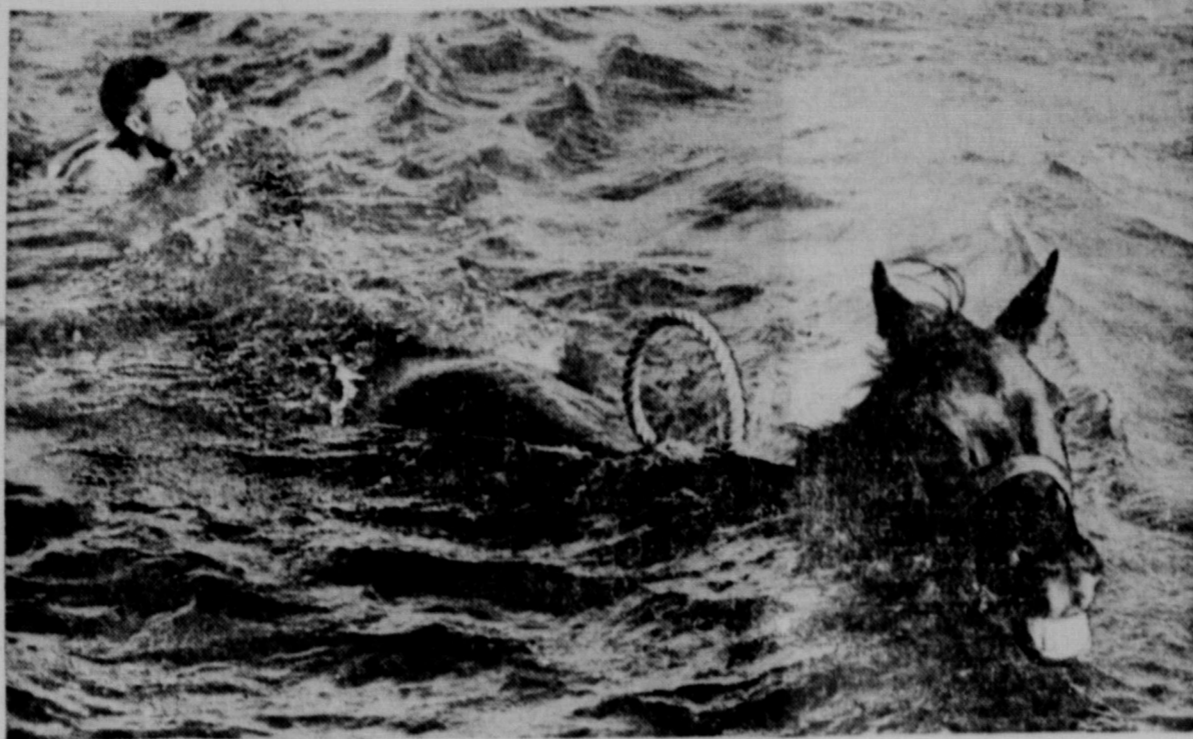

Mrs. Clifton Brooks entertained members of her bridge club and a few guests at her ranch home Friday afternoon, complimenting Mrs. Charles Black, Jr., a recent bride.

Other guests included Mrs. Charles Black, Sr., Mrs. Virgil Powell of San Angelo, Mrs. Hugo Manley, Mrs. Baker Henderson of Barnhart, Mrs. Sherman Taylor, Mrs. C. E. Davidson, Jr., Mrs. Doug Kirby, Mrs. Joe Sellers...

RECENT BRIDE IS HONORED AT SHOWER

Mrs. Milton Spurgers of Eldorado, the former Miss Ella Louise Casbeer of Ozona, was complimented at a miscellaneous shower last Saturday afternoon at the

Man and Horse Win Golden Gate Swim Wager

Blackie, equine swimming star, in company with his owner and trainer, Ritchie Roberts, swam treacherous waters of the Golden Gate to break existing records and win a bet with William Kyne, sportsman.

home of Mrs. C. C. Luther. Mrs. Griffin Miller and Misses Myrtice Luther and Crystelle Brock were hostesses.

Two hours of old fashioned visiting and the presenting of gifts and best wishes to the bride were enjoyed by the following: Mrs. L. A. Greer, Mrs. Ross Hufstetler, Mrs. Q. Ragsdale, Mrs. C. W. Taliaferro, Mrs. Preston Williams, Mrs. Sam Beasley, Mrs. Rob Miller, Mrs. W. C. Brock, Mrs. J. A. Sparks, Mrs. Eldridge Davidson, Miss Alberta Kay, Mrs. M. E. Smith, Miss Lee Smith, Mrs. Floyd Harrison, Mrs. Howard Graves, Miss Jamie Chapman, Miss Oleta Casbeer, Miss Etta Lee Harrison, Mrs. Harve Eastman, Mrs. Tom Casbeer, Mrs. Wilma Duncan of Eldorado, Mrs. V. C. Spurgers and Mrs. R. C. Spurgers of Eldorado and the honored guest.

Mr. and Mrs. N. W. Graham had as their weekend guests, Mrs. Graham's mother, Mrs. M. E. York of Van Court, here niece, Miss Mattie Ellen Norman, and Mr. and Mrs. Clinton Glover, Joanne Glover and Carolyn Cheatham of Ballinger.

ESKIMO BABY TRADED FOR TENT, SAYS WITNESS

EDMONTON, Alta.—A Winnipeg attorney returning from a trip through the wilds of North-western Canada, told of seeing an Eskimo baby traded for a \$8 tent.

"The baby was purchased by an Indian family, most of whose children had died," he said. "The little Eskimo seemed to be thriving on a diet of powdered milk and its parents-by-purchase seemed extremely fond of it."

Convict's Artificial Leg Broken; Blame Put On the County

VISALIA, Cal.—This is the true story of a leg—and it was an artificial leg.

Ohan K. Gedekian, 42, broke his artificial leg while working out a sentence in the industrial road house. Unable to work, he was returned to the jail, where the leg was placed in jail safe for safekeeping.

Then he was offered a probation, but refused to accept it unless the county had done something to his leg.

He served out his full five months to jail hospitality, was forced to leave.

He preferred, however, to leave the jail on a crutch, insisting that his leg be kept in the jail safe until the county does something about it.

Most Unique Type Of Bridge

PRairie du Chien, Wis.—One of the most unique type of bridges in the world is the pontoon bridge of the Milwaukee railroad over the Mississippi river at Prairie du Chien. Only two of its kind are known to exist in the world. Above is a view of the 230 foot floating pontoon of the bridge as it was hauled up on the banks of the Mississippi river at Prairie du Chien for repairs. Boats on the river will be forced to use the west channel of the river since an immovable piling has been installed across the river where the pontoon originally stood.

Wrong Animal Caught; Nudist Group Trogedy

LOS GATOS, Cal.—Here is one of the stark tragedies of life in a nudist camp. Mrs. X (officials of the Elysium Nudist Colony refused to reveal her real name), was awakened by the pattering of feet by her tent. She decided it must be a raccoon and set a trap to catch it.

Shortly afterward she heard the trap snap and went out to see what she had caught. The rest of the night she passed standing in the breeze. The stark tragedy of it was she couldn't change her clothes because, being a member of a nudist colony, she had none on when she went outside to investigate the animal.

CAPTURE BIG SNAKE

JACKSON, Minn. (Special CFI Photo to The Stockman, by H. B. Johnson, Jackson, Minn.)—This 9-foot unidentified species snake captured by Harry Jones of Jackson while devouring a one and one-half pound chicken is believed to have escaped from a visiting circus a few weeks ago. The snake is a coal black color and has large scales which along with its lustrous skin indicate it has been in captivity.

Brother, 4, Risks Life To Rescue Sister of 2

AUBURN, Me.—A brother and sister with the help of a 42-year-old neighbor, proved the old adage that heroism knows no age limits.

When Betty Lou Murphy, 2 years old, fell into a well near her home, her brother, Clayton, Jr., 4, jumped in to save her. But he failed.

Sister Ann, five years old, went to the rescue. She pulled Clayton to safety. Then she screamed for help when she could not find Betty Lou.

Horace Williams came on the scene and located the unconscious baby. He revived her in 15 minutes.

Cross-word puzzles were made 2000 years ago. The modern variety started in 1913.

YOUTH LOST IN LAKE, MERELY WADES OUT

PORT ARTHUR.—John Rainey, 2, dived overboard to swim in Lake Sabine while sailing with his father, John Rainey, and his mother, Mrs. Rainey. This resulted in the fright of his life.

Hammond brought the sailboat about to pick up the youth, but the foot-high waves concealed the swimmer. Hammond returned to Port Arthur to organize a search party.

Meanwhile, almost exhausted, Rainey discovered that he could reach the bottom of the lake with his feet. He waded half a mile to shore, hailed a tug boat, and was brought home after being lost ten hours.

Scout Notes

BOLT TURNS SAND TO GLASS

TAMPA, Fla.—Lightning as a glass maker was exhibited here during a thunder storm. A bolt of lightning struck a tree, ran down the tree and jumped from the tree roots to an underground telephone cable. Along the underground path heat fused sand into an irregular tube of glass.

England printed its first medical book in 1480.

WARDEN FINES JUDGE 6 EARS OF SWEET CORN

TOWNSEND, Vt.—Judge John H. Ware caught a raccoon in a trap he set in his garden for the vandal that was destroying his early sweet corn.

Because the law was on coon hunting the judge reported his act to the local game warden and was ordered either kill the animal or free it.

When the judge demurred against the alternative, the warden imposed a fine of six ears of corn—when it ripens.

POLICEMAN WHO SOLVED KIDNAPING REMARRIES AT 81

CLEVELAND, O.—Three decades ago, Norman A. Shattuck, Cleveland policeman, made headlines by solving the Billy Whitla kidnaping case. Now, at 81 years of age, he is on his second honeymoon. His bride is Mrs. Olive Crosby, 68 years old.

In March, 1909, 4-year-old Billy Whitla was abducted as he left the school in Sharon, Pa., was brought to Cleveland and hidden in a hotel. Shattuck, receiving a tip that the kidnapers were in a saloon, surprised and captured them as they planned the collection of \$10,000 in ransom. The case made Shattuck famous.

Shattuck retired from the force in 1917. His first wife died 2 years ago.

By MILES PIERCE

The meeting of October 18 was opened with the Scout Oath. The roll was called and 27 were present. This is not as many Scouts as should be at the meetings. All Scouts are asked to bring more members into the troop.

The plan of last year has been adopted for the coming year. Each Scout brings five cents at every meeting and this goes into our Scout fund.

On the November 5, the Scouts will give a "chuck wagon" dinner for the Music club convention.

Because of the dinner, the annual Father and Son banquet will be in the latter part of November.

Bud Cox and his patrol went on a hike last weekend. At the meeting he told about the hike. The Scouts entered some caves and found a few arrow heads and a snake. The arrow heads are in their patrol room.

Because of the numerous activities for the school students, the Scouts have moved very slowly this year. We are planning to really get to work and show lots of improvement in the patrol meetings, in advancement and behavior.

"And now come the dismal days when mankind feverishly wishes that life's two certainties, death and taxes, come in exactly that order."

Triplets

NASHVILLE, Ill.—Jerry, Jane and Jen, the two weeks old triplet calves belong to Mr. and Mrs. George Zapp of Beaucoup. It is a rarity anywhere, for triplet calves to live. They average 80 pounds apiece and are different colors—one brown, one black, and the third white. The mother, who is named "Topsy" is 10 years old and she has had 11 calves including these in eight years.

EDITOR'S MUSINGS

—SIX WEEKS' EXAMS
 —OZONA-ROCKSPRINGS GAME
 —DIGNIFIED SENIORS

Aren't we all glad that our "six weeks' tests are over and done with?" It seems that there is an unusual amount of confusion during the sixth week period, for all the students are either trying to see teachers about their daily grades or are "cramming" for their exams; therefore, there is quite a bit of mental strain among the student body. I heard one Junior boy say, "That darned chemistry exam! Two days to take it! Ridiculous!" And I also heard a Senior girl say, "Woe is me! How I dread that history test! You know, she never knows what to expect from Mr. Denham!" Even a Freshman, worrying over his English exam, said, "Those punctuation rules are enough to drive a saint crazy!" But now they're over, and we can all sit back and take things easy another six weeks' drag!

I saw the Rocksprings-Ozona game last Saturday and was certainly proud of the fine sportsmanship displayed by our football squad. The Lions were "beaten down" on poco; but, oh, how hard they fought! Their line plays were fairly successful, but their passing was more or less what we say, "phooey." Did they ever give up? I should say not! Why, Byron Williams even forgot to stop "blocking" after the play was over and the whistle was blown. That's the spirit, Mustard! Stay right in there.

Isn't it great to be a mighty Senior? Last Friday our dignified class members met in order to select our graduation invitations. Naturally, we are proud of our selection and are very anxious to see them "made up"; but, of course, only time can manage that. With our Senior rings here and our graduation invitations under way, we are certainly feeling our "importance."
 (No cracks, you under-classmen.)

THE UPKEEP OF THE BUILDING AND GROUNDS

One of the purposes of school is to teach students appreciation for what they have. One notices an excellent example of splendid upkeep on the grounds and building of Ozona high. The appearance of the school and grounds has a great effect upon the neatness of the students, just as a simple algebra problem helps one to understand how to work that type.

Before we really can appreciate our excellent school system we should visit a small country school where the teacher is also the janitor. The old building with a rotten floor is heated by a wood stove, and the students use all textbooks.

Our school spends an average of \$100 a month on water, and \$600 a year for upkeep material.

The original cost of trees and shrubs was \$300. The grounds are to be improved further by a billy pond, a gift of the class of '38.

Our campus is the most attractive one in Southwest Texas.

In return for this well kept plant, the student is obligated to do his part by preserving it and urging others to do likewise.

—:Odds & Oddities:—

By Elton Smith

ASK ME ANOTHER

1. How many school buildings in Ozona?
2. What is a jabberwack?
- 3.3 What is a cornet?
4. What is a clarinet?
5. What is the official song of Texas?

Answers

1. Five.
2. A contest of acts, plays, or scenes.
- 3.3 A cornet is a wind instrument, and is classed in a band as a brass horn.
4. A clarinet is a reed instrument, classed as a wood wind.
5. "Texas, Our Texas."

Rocksprings Routs Ozona In District Game There

Bulldog Passes Beat Ozona In 34-12 Battle

The Rocksprings Bulldogs capitalized on a weak Ozona passing defense to score 24 points on passes alone and sack up a 34-12 victory. It was the first conference game for the Bulldogs, and the victory shoved them into a tie with Junction and Eldorado for first place.

Rocksprings' first counter came early in the second period when Owens, quarterback, on a spinner, faked to Sherril and literally dove through a hole between guard and tackle. It climaxed a 63-yard march. Sherril's dropkick for extra point was low. The Rocksprings juggernaut again drew blood in the second quarter when Sherril passed to Bershy on the three and Bershy galloped over. Sherril's kick for extra point was good. Bershy had set the Rocksprings' team up for the tally by recovering a costly fumble. Before the half was over, Rocksprings had again passed to a touchdown, Sherril heaving the ball to a receiver through a maze of Lion defenders. His try for extra point was squared between the uprights. Half time score was Rocksprings 20, Ozona 0.

Montgomery returned a punt in the third quarter to score for Ozona. H. Lemmons try for extra point failed. Rocksprings countered with a devastating aerial attack. Sherril whipping the ball to Owens for the touchdown, his try for extra point was perfect. Fighting desperately, Ozona slipped to the Bulldog 40, where Montgomery took the ball over center, cut to the left, and outran the Rocksprings secondary. H. Lemmons' plunge for extra point stopped.

Early in the fourth quarter Rocksprings again countered on a pass. Sherril's dropkick was good.

Montgomery, H. Lemmons and Dudley were standouts for Ozona, while Owens, Sherril and Weaver shone for Rocksprings.

Seniors Select Graduation Invitations

The Seniors met in their home room on Thursday, October 13, to decide about their graduation invitations. They decided upon an invitation which was put together like a book and which will be fastened with gold leather throngs. The front of the invitation will be ornamented by a lion over on "O" with the date 1939 just below it. Orders for the invitations will be placed in December or January.

Phone your news to the Stockman.

GRADE SCHOOL NEWS

KINDERGARTEN

The kindergarten has just completed a four-room house which has a bedroom, dining room, living room and kitchen. They have made furniture to go in each room. Outside of the house they have built a corral in which they plan to keep their stick horse, sheep, cow and horse.

When, the next day after the carnival, they were asked what feature of the carnival they liked best, they all decided that the puppet show of "Little Red Riding Hood" was best.

The kindergarten visited the third grade October 14 and saw an interesting farm program.

FOURTH GRADE

The fourth grade has made some drawings of large pumpkins that were made into jack-o-lanterns. We used tempera paints to color them. This is the first time we have used them this year.

We have completed our art work on our study of the Indians. We made free hand drawings of their tepees, pottery, rugs, tools and designs.

Mr. Denham visited the fourth grade Monday. He brought some

Sophomore Flash Is Fordham Hope

This is Stanley Lewczyk, halfback of Fordham university football squad, and any coach's pride. Stan is a nifty runner and reminds the spectator of the great Joe Graniski. His nickname is Lefty and he specializes in the "Big Apple," especially in the open field.

The Football Squad Of 1938

The first game of the season was with the Iraan Juniors to test all the boys. Every boy in a football uniform played. This included Captain Montgomery, Phillip Schneemann, Shorthy Colquitt, J. K. Colquitt, Bobby Lemmons, Howard Lemmons, Floyd Hokit, Lloyd Coates, Wayne West, Willie West, Willie Joe Hubbard, Joe B. Chapman, Jessie Hancock, Lewis J. Wardlow, Billy Hannah, Elton Smith, Carl Thurman, Troy Langford, Vernon Wilson, W. C. Brock, Jim Dudley, Joe Williams, Byron Williams, Joe Couch, Roy Henderson and Walter Escue. The average weight of the whole team is 136 1/2 pounds. The average for the starting lineup is 148 pounds, including the mammoth Thurman.

The Lions played another practice game with San Angelo September 23, the final score 25 to 6. The Ozona lads showed the home folks that they had an enthusiastic but poorly conditioned team in the game with Junction when the score was 6 to 45 in their favor.

October 7, Ozona went to Big Lake. The Lions fought a good battle with the owls, but the final score was 6 to 8. In the first quarter, Montgomery received one of their passes and ran to pay dirt. At the half the score was 6 to 2, but in the last half the Owls made a touchdown. The Lions fought with all their might until the last bell said "tis done."

Noma: Eloise, stick a knife in the cake. If it comes out clean, the cake is done.
 Eloise: If it comes out clean, I'll stick them all in.

—:—

Assembly Program Presented by Band

The assembly program on October 20, was presented by the band under the direction of James E. Nevins. The first numbers were two simple pieces, "Mary Had a Little Lamb" and "Updee," so that every one in the band could play. Next the band played two chorals, "God, the Mighty God" by Beethoven and "Rejoice, O My Soul" by Schumann. These were played in order to demonstrate the different choirs of the band. "Dark Eyes," a gypsy folk tune and "Lullaby," by Brahms, were played.

There were two quartets, a reed quartet and a brass quartet, which gave one number each.

The band then played two numbers of a more difficult type. They were "Pilgrim's Chorus," from Tannhauser by Wagner, and "Military Escort."

—:—

FIFTH GRADE
 The carnival last night was very much fun; 20 people out of the fifth grade went. They all enjoyed it.

—:—

THIRD GRADE
 The third grade pupils have finished their "Billy Boy On the Farm" reader. We dramatized stories found in them for the Kindergarten and for the fourth grade on Friday, Oct. 14. We also had a picture show of farm scenes and farm life. We are reading our new geography, "Neighborhood Stories, now, and we are making a booklet on the new farm words we have learned.

An Orchid To You

By Billie Jo West

To you Seniors, we dedicate this week's orchid. Your dignity is colossal. May you be as vital and interesting this last year as you have been since your "fish" year.

Some Instruments Are Still Lacking In School Band

The carnival, which was given October 13, in order to raise money to buy band uniforms, was a huge success. Two hundred and fifty dollars was cleared off the different booths. That will buy 16 or less band uniforms. Thanks to you.

Although our band is progressing rapidly, we still lack a few instruments. Those which are needed worse are tympani, bass horn, bass clarinet and bell lyra. However, we are grateful to Naomi Collard who has decided to play a bell lyra. Our newest band members are W. B. Cox and Dim Patrick.

The band, pep squad, and drum corps will be at the game with Menard on the home ground in fine style. Between halves, the march which will be done will be a large cogwheel. From this formation, any letter or letters can be formed. We should like for the public to turn out and come to the game if you please.

The band will give its first public concert at chapel on Oct. 20, at 3 o'clock. The whole band will play about six numbers, and there will be two quartets, a brass quartet and a reed quartet.

Should the boys go down the hall "hitting" on girls?—Doris Bunger.

Hint-Hint-Boys, this is for you. I think it is very rude and ill-mannered—besides it just isn't to be

P.-T. A. Carnival For Ozona Band Is Huge Success

The P.-T. A. carnival, which was held last October 13 in the city park in order to buy band uniforms, was certainly a success. The people of Ozona forgot their worries and troubles for a few hours and lapsed into "second childhood." The bingo stand and the marionette show were the most patronized. The fortune tellers surprised and astounded patrons with their unusual and unique prophecies of the future and their revelations of the past. The booth which Mr. Jake McCulley ably attended was also a high success. Everyone who visited the fishing pond was very much pleased with his catch. All in all, we can honestly say that said carnival was a "howling success."

SUGGESTIONS ON LIBRARY BOOKS For Girls

WIFE: A GIRL OF DUBLIN—By Katherine Adam.

Heroine is a little Irish girl of fourteen who, while dwelling in a dingy tenement, really lives in a beautiful world of make-believe. Two American girls and their cousins from India, all living in Dublin during the war learn to feel the charms of poetry of the land through warm hearted, romantic Wisp.

—:—

YOU MAKE YOUR OWN LUCK—By Elsie Singmaster.

An excellent story of the Virginian mountain people, and a 16-year-old girl from the Shenandoah valley who's taught for a year in one of the mountain schools. Interesting plot, good characterization and enough romance to appeal to older girls.

—:—

SCARLET SHEATH—By Katherine Adam.

This is an English story of two sisters and an American friend. It is slightly mysterious. It holds your interest and does not "let you down" in the end.

—:—

WHITE FANG—By Jack London.

This is a story of a wolf-dog whose experiences in the wilds, by the campfire, and finally in the habitation of the white man, mold him into a loyal ally.

—:—

SCORPION—By Will James.

Scorpion earned his name by the splotch determination the first cowboy who roped and secured him off the range. And he continued this single-minded pursuit with his next owner, Tim, an outlaw. A cheerful romance accompanies the story in the happy conclusion of which the perverse and spirited Scorpion plays his boisterous part.

—:—

THE TIGER WALKS ALONE—By Constance Skinner.

This is a story of a South American general who was a soldier of fortune. It tells of his activities and followers. It is mysterious and very interesting.

—:—

THE LIONS' IDEAL GIRL SHOULD HAVE: Tommye Kirby's personality. Gladys Jean's peaches and cream complexion. Tincy's alluring red hair. Crystelle's ability as pep leader. Mary Alice's smart looking clothes. Doris' neat appearance. Ora Louise's oboe. Bette Lou's ability to play the snare drum. Mary Faye's sunny disposition. Mary Frances W.'s school spirit. Billie Jean's big brown eyes. Effie's way of getting the senior girls told. Mary Frances B.'s popularity with the boys. Jayme's attractive black hair. Lela Mae's new ring. Mary Louise's adaptability. Noma V.'s refinement. Billie Jo's knowledge. Eloise's figure. Jean's dancing feet.

—:—

THE OMNIBUS OF SPORT—By Rice and Powell.

This is a book of short stories on all kinds of games and sports played with any kind of a ball.

—: The Prowler —:

By Drake and Lemmons

Effie seems to be an early bird or she doesn't go to bed which is it, Effie?

Toots, you seemed to be thrilled Thursday night? What was the thrill over?

Tommye, how is the candy you got Thursday night? Wasn't it too sweet?

Miles, it seems that you are being left out with all of those freshmen girls. Can't you find one or shall I say can't you get one?

Till and J. K. were hanging around Hancock's cafe Saturday night. Won't some one please tell me why?

Toots seemed to be unhappy Friday. It couldn't have been because a certain boy had to go to College Station, could it, Toots?

Margaret, who were the two boys you were seen with at the show Thursday?

Dorothy H. you surely must be having a rush lately. (Saturday night while one friend was visiting Dorothy, another was at the drug store phoning her.)

Billie Jean, did your trip come up to expectations?

I wonder why J. K. makes so many trips to San Angelo?

Jim, why didn't you wave back at our girl friends in Rocksprings?

Each time we passed through Sonora on the way to the ball game Saturday, Jessie Hancock wanted to get off.

Beecher, who was your waiting friends Saturday night at the dance?

It's tough luck that "Our Gang" can't hold a group of boys after they get them "hooked."

Willie found a sweetheart in Rocksprings. Willie can she pick cotton?

—:—

HAVE YOU READ THIS? "Scribner's Examiners; the airline's campaign to make America air-minded . . . the publicity it over come fear . . . the facts and fallacies of air travel.

"Airline stress; air conditioned planes, passenger insurance, grand meals on the house, the second-weather information. TP Airline agents: Use pretty models for advertisements, stage weddings and ceremonies in the sky, Ballyhoo fancy airplane baggage, and photographs celebrities in flight?"

—:—

"Air traffic stimulates; Free rides for wives, half-fare for children, homelike hospitality in the sky."

"Air safety: Dramatized by children, evidence by First Lady, promoted by United Airlines' Helen Stansbury." Says who? Says C. Furnas in "Mr. Milquetoast in the Sky," from Scribner's for September, 1938.

—:—

INQUISITIVE REPORTER
 This week I interviewed the boys on their likes and dislikes of girls. Here's their opinions:

Phillip doesn't like a girl who lies or gossips. He likes a good cook.

Till doesn't like gold-diggers. He doesn't like for them to gossip or exaggerate. A girl who is "nutty" is his choice.

Howard likes a girl who doesn't talk much, is a good sport and cute. He doesn't like one who tries to show off, smokes, or uses profane language.

Joe Couch likes a good sport. He likes quiet and agreeable girls, the ones who won't talk when in trouble. A good dancer and brunettes appeal to him, also. He doesn't like a gossip, gold-digger or liar.

The ones who use profane language and can't keep their mouths shut do not appeal to him.

Roy Jr. likes a quiet, pretty, and neat girl. He likes for them to have a good personality, but not a loud one. He does not like a gold-digger.

W. B. does not like red fingernails and too much makeup. He likes a good dancer. He does not like gossipers.

Jeff likes girls who talk, but are not too loud. He likes for them to be smart and original. He doesn't like girls who are too dependent on others. Last but not least, he likes them to be active in school organizations.

Girls, a hint to the wise is sufficient.

Next week I'll interview the girls and give them their chance to talk.

—:—

Dorothy: They came in pairs.
 Roy: What?
 Dorothy: Pear seeds.

—:—

"Do you suffer from the heat in summer?"
 "Yes, more than at any other season."

HOME BUILDERS' PAGE

Knowledge of Water System Function Aid To Home Owners

A home buyer or builder should have at least a basic knowledge of the functions of the water system in his house and the usual causes of trouble in the system.

It is not necessary to become a plumbing expert and know all about installation and operation in order to do this. Just a few facts constitute all the information necessary, according to the Federal Housing Administration's technical division.

It is important that the property owner should know what happens when a water system fails to give service. Usually the trouble can be traced to one of two causes: pipes of insufficient capacity to meet the household demand or pipes that have deteriorated or become clogged.

In order to assure an ample supply of water in a new home, the plumbing contractor should be informed as to the probable maximum need. This means the amount of water required when a number of faucets or valves are open at the same time. The owner should have allowances for an additional bath or lavatory if he believes there is even a remote chance of such an addition being made in the future.

In a majority of cases where the water supply in a house has become unsatisfactory after being in operation for any length of time, the cause of this failure has been traced directly to the presence of rust in the piping. The rust forms in the inside, and the owner of the home is not aware of it until the damage is done. This danger may be eliminated by the use of noncorrosive piping. It may eat its way through the piping and cause leaks or it may merely clog the pipes.

ALL HOME NEEDS BRANCH WIRE CIRCUITS

An electric wiring system with branch circuits should be efficient for the needs of a small dwelling containing two bedrooms, a bath, and a single other room that accommodates the remaining portions of the house.

There should be exercised that care which is not overloaded. In a house where electric cooking facilities are used, or where other similar heavy loading may occur, the owner should assure himself that service entrance wires are of suitable size and that a special circuit of suitable capacity is run to the range or other appliances.

Q. Are weatherstrips worth installing?
A. They prevent the loss of heat, and thus reduce fuel bills.

Q. A girl who doesn't like good sport and like one who tries to make a good sport of it, or uses profane language, or uses profane language, or uses profane language...

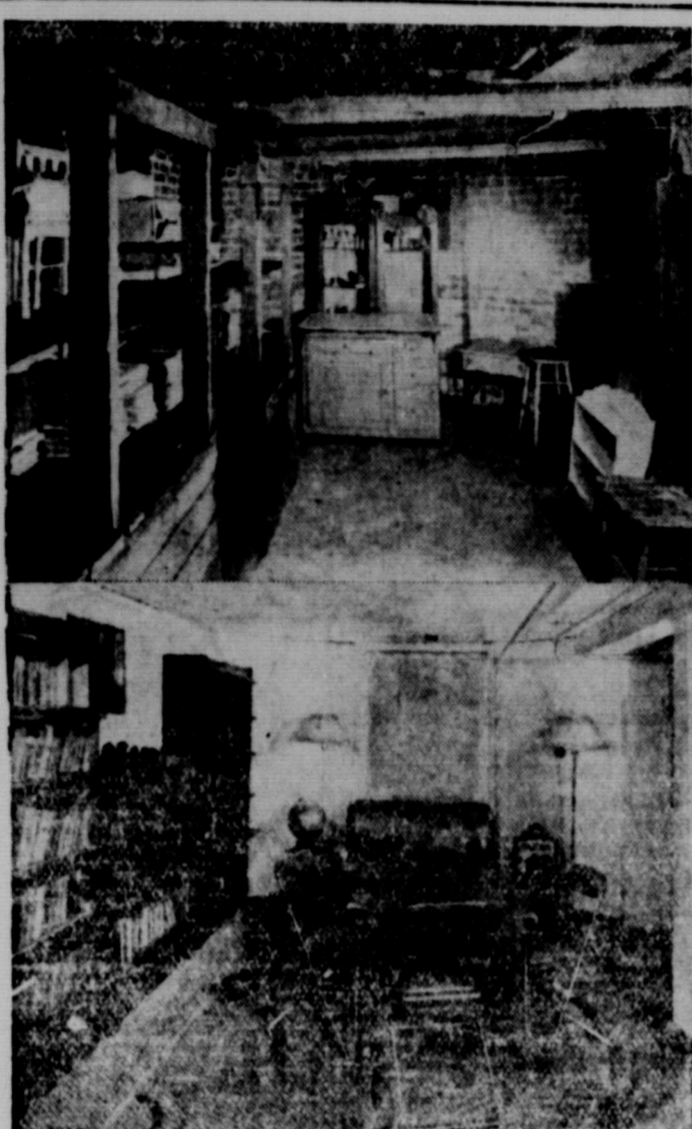

Are You Protected Against Fire Loss?

When you need fire insurance and haven't got it, you may never need it again. But with insurance protection, your business may be replaced or your home rebuilt and you may go on living as before. Compared to your possible loss, insurance protection costs little.

Before, After Modernization

The first scene depicted above shows an unfinished basement room that is serving as a storage room for discarded odds and ends of furniture, magazines, and assorted bits of unwanted glass and china-ware. It is typical of the basement rooms in many homes today.

The second illustrates what can be done to salvage this space by the expenditure of a slight amount of money for modernization. The walls have been treated with plaster board, as has been the ceiling, a new flooring laid, and a pleasant, serviceable game room created. Funds for this type of modernization may be obtained under the FHA Property Improvement Credit Plan.

ROOM DOORS SMALLER THAN OLDER TYPES

Even so prosaic a thing as a room door reacts to the dictates of style. This may be seen by a comparison of the prevailing dimensions of room doors of today and those of earlier periods.

In colonial times the doors were frequently three feet or more in width and less than 6x6 inches high. The doors in Victorian homes were lofty things and were often more than three feet in width.

Today the doors of a room are usually not over two feet eight inches in width, and most are about six feet eight inches high. Doors to main rooms should not be less than two feet six inches.

Phone your news to the Stockman.

Well Designed Shelves Add To Home Comfort

Shelves may be either a joy forever or an unending nuisance to a housewife. It is a matter of construction.

If a book shelf is located in a dark corner of a room, or if it is too high above the floor, or if it is too deep, it fails to be a convenience. The same holds true for closet and kitchen shelves.

Book shelves to be efficient should be a little over six inches deep. The average book is about five inches deep, and any extra room on the shelf is valueless. Kitchen shelves designed to hold condiments, cans, or boxes that are used frequently should be no deeper than actually necessary. Plate shelves should have a minimum depth of 11 inches. This permits double stacks of plates. Dish shelves should be provided with doors to keep out dust.

A young clergyman who, after his first funeral sermon, wished to invite the mourners to view the remains, became confused and said: "We will now pass around the bier."

Interior Effect Depends Upon Wall Covering

Decorators have ascertained that two-thirds of the interior of a home is wall space. The importance of appropriate and pleasing treatment of walls deserves the serious consideration of every home owner.

The wide range of materials and patterns that may be utilized in decoration offers an opportunity for every home owner to achieve the effects he wants within the range of his purse.

In modernizing interiors, new paint, paper, wallboard, and other wall coverings play a prominent part.

QUESTIONS AND ANSWERS

Q. Last winter we were troubled by air that came in around the woodwork of our windows. Can this be remedied?
A. To a large extent it can be corrected. If the walls are masonry, the joints between the masonry walls and the window frames should be thoroughly caulked. If the walls are of wood, shrinkage has probably taken place, and the joints in the wood must be caulked. Tow or cotton candle wick may be used as the packing, and this should be mixed with white lead and packed in tightly. A commercial caulking compound may be used. If there are gaps back of the trim or woodwork around the win-

dows, these should be filled either with candle wick or with plaster of paris. It is better to stop the leaks on the outside of the wall. By all means have a contractor do this work if it is financially possible.

Q. The sills of the windows in our house require constant painting. Why?
A. The sills are subjected to rain and sun. A wax finish similar to that used on automobile bodies will protect the sills and save the paint.

Crockett Rancher Buys 16,000-Acre Ranch in Brewster

Victor Pierce, Crockett county rancher, recently purchased 16,000 acres of Brewster county ranch land at \$6.50 an acre. The property is from two ranches, and joins. Half of the acreage is from the McCullom ranch and the balance from the south half of the Edwards ranch, about 16 miles southeast of Alpine. The land is fenced with net wire and is under lease. Mr. Pierce not planning to stock it himself.

Mrs. Kay—

(Continued from Page 1.)

The family will move some time early next month to Fort Stockton where Mr. Kay has leased the 16-section ranch purchased recently by Early Baggett from Judge Montgomery.

FIRST BAPTIST CHURCH
Clyde Childers, Pastor

Sunday School, 9:45.
Morning worship, 11 o'clock.
B. T. U., 6:30 p. m.
Evening worship, 7:30 o'clock.

Next week is one of the most important weeks in our church life for this year. We are rejoicing that it is possible for Mrs. Eugene Sallee and Mrs. Singleton to be with us for the Mission study course. We urge you to make your plans to enjoy these fine people. We are trying to make it possible for the majority of our people to come by serving each night. The class period will open at 7 o'clock and close by 8:45.

No Refugees Across This Border

COLLINS LANDING, N. Y.—No refugees here. Just some of the 55,000 cars that paid \$69,000 to cross new Thousand Islands International bridge on friendly missions between this point and Ivy Lea, Ont., during first thirty days of operation. President Roosevelt and Prime Minister Mackenzie King dedicated this series of five spans across St. Lawrence river and Thousand Islands last month. Financial interests and bridge builders see in initial success of this project, showing revenue more than 100 per cent greater than experts estimates, spur that will revive many like projects now dormant resulting in employment for steel makers and fabricators.

Plan WPA Aid to Rebuild Charleston

Harry Hopkins, WPA administrator, and Mayor Burnet R. Maybank are shown viewing the damage done to Charleston by the two tornadoes that struck the historic South Carolina city. The federal government will help to restore damaged public buildings. Total damage from the storms was estimated at more than \$1,000,000.

TEA HONORS NEW MEMBERS OF MISSIONARY SOCIETY

A tea honoring new members of the Woman's Missionary society of the Methodist church will be given next Wednesday afternoon at the home of Mrs. Roy Henderson. The tea hour has been set for 3 o'clock.

Thadd E. Tabb underwent an emergency operation for appendicitis in a San Angelo hospital Friday morning. He is reported doing well.

Music Club Study Of Schoenberg Is Monday Meet Topic

The life and works of Arnold Schoenberg will be presented at the meeting of the Ozona Music club next Monday afternoon at the home of Mrs. T. A. Kincaid Sr., with Mrs. Strick Harvick and Mrs. W. S. Willis as hostesses.

The program will be under the leadership of Mrs. Lowell Littleton. The day's program will be as follows:

- Life and Characteristics—Mrs. C. J. Van Zandt.
- Recording: Verklaerte Nacht—Mrs. Lowell Littleton, Mrs. Hillery Phillips, Mrs. Joe Oberkamp, Mrs. Eugene Slater, Mrs. R. R. Dudley, Mrs. W. S. Willis, Mrs. Pon Seaborn and Mrs. Paul Perner.
- Analysis of Pierrot Lalande—Mrs. Elton Smith.
- Voice: Traumleben—Mrs. H. B. Tandy.
- Influence and Pupils—Mrs. Pleas Childress, Jr.
- Story of Gluckliche Hand—Mrs. Eugene Miller.
- The Gurre Lieder—Mrs. Lowell Littleton.
- Piano: Selected—Miss Ruth Graydon.
