O. E. S. Installs New Officers In Ceremony Tues.

Big Lake Visitors In Charge Of Installation Rites

New officers of the Ozona chapter of the Eastern Star took office for the coming year at installation ceremonies held in the lodge quarters Tuesday evening.

Mrs. Flora Miller of Big Lake acted as installing officer, Mrs. E. M. Foreman of Kerrville, a sister of Mrs. Arminda Runion, incoming Worthy Matron of the local order, acted as installing chaplain. Other installing officers were Mrs. Joe T. Davidson, marshal; Mrs. Joe Pierce, organist.

The ceremonies included the retiring march by the old officers after which Mrs. Ted White, retiring Worthy Matron, presented each one of her officers with a gift. The officers in turn presented their Worthy Matron with a gift. The incoming Worthy Matron Mrs. Runion, presented the installing officers with corsages and Mrs. Foreman, representing the group of installing officers, presented her sister with a corsage. Mrs. Joe Pierce sang "We Shall Not Pass This Way Again" in the course of the evening's program.

New officers who assumed their duties with the installation ceremonies include Mrs. Runion as Worthy Matron; R. L. Flowers, Worthy Patron; Miss Mildred North, Associate Matron; H. W. Baker, Associate Patron; Mrs. Gertrude Perry, secretary; Mrs. Eula Seerest, treasurer; Miss Dixie Davidson, conductress, and Mrs. J. A. Fussell, associate conductress.

Newly appointed officers were announced by the Worthy Matron as follows: Mrs. Mary Flowers, chaplain; Mrs. Joe T. Davidson, Marshal; Mrs. C. J. VanZandt, Adah; Mrs. Charley Coates, Ruth; Miss Elizabeth Fussell, Esther; Mrs. Charles Tyer, Electra; Miss Norine Allison, organist; Mrs. Ted White, Warder; and W. R. Baggett, sentinel.

The retiring officers are Mrs. Ted White, Worthy Matron; R. L. Flowers, Worthy Patron; Mrs. Arminda Runion, Associate Matron; W. R. Baggett, Associate Patron; Rachel Schrader, secretary; Mrs. Eula Seerest, treasurer; Miss Mildred North, conductress; Miss Dixie Davidson, associate conductress; Miss Norine Allison, organist; Mrs. Gertrude Perry, Adah; Mrs. Charley Coates, Ruth; Miss Elizabeth Fussell, Esther; Mrs. W. Y. Bengel, Martha; Mrs. George Bean, Electra; Mrs. W. R. Baggett, chaplain; Mrs. Joe T. Davidson, Marshal; Mrs. Minnie Crumley, Warder; and Mrs. Mary Flowers, Sentinel.

After the installation, Mrs. Ted White, retiring Worthy Matron, was presented with a Past Matron jewel. Refreshments were served by Mrs. Mary Flowers, Mrs. Minnie Crumley, Mrs. Monroe Baggett and Mrs. Ted White. Other out-of-town visitors besides the installing officers were Mr. and Mrs. R. Theis and a Mrs. Carter of Big Lake. About 25 were present for the evening's ceremonies.

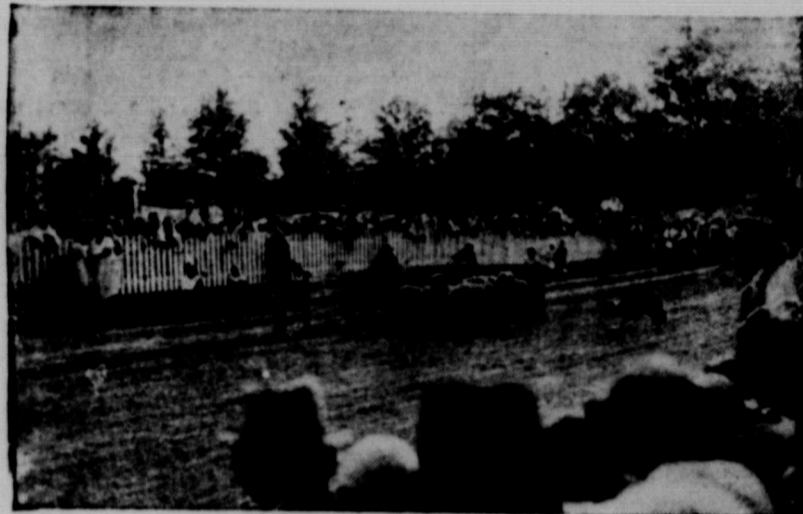

Joe Buzze To Play For Dances During Celebration Series

Joe Buzze and his orchestra, popular musical organization with dancers all over West Texas, will furnish the "swing" for the night-time dances which will feature the evening's entertainment program during Ozona's eleventh annual Rodeo, Race Meet, Stock Show and Sale, June 23, 24 and 25.

A new surface finish is to be applied to the concrete platform at the fair grounds before the show opening. Arrangements for the dance music for the celebration series were completed by Joe Oberkamp, music chairman.

Mrs. Hubert Baker underwent a major operation in a San Angelo hospital this week.

Champion Sheep Dog In Action

The "task completed" might be the title of the above picture which shows "Jean," American champion sheep dog penning a bunch of sheep in a small pen at the whistled command of her master, Luke J. Pasco, nationally known breeder, importer and trainer of the Border Collie sheep dogs. Mr. Pasco and his famous dogs, which have been exhibited at some of the nation's leading stock shows, in Madison Square Garden in New York, the International Livestock Exhibition and others, will exhibit his well trained canine herders each afternoon during the eleventh annual Crockett County Rodeo, Race Meet, Stock Show and Sale June 23, 24 and 25.

McMillan Again To Start Races For Ozona Card

Well Known Starter Has Officiated Here Every Year

C. H. McMillan, well known throughout the Southwest in racing circles, has again been secured as secretary and starter of races for the racing card during the eleventh annual Rodeo, Race Meet, Stock Show and Sale here June 23, 24 and 25, it was announced this week by Paul Perner, chairman of races.

Mr. McMillan, who has had the job of starting the races here since the second year of the local show's history, will be here in person to perform the job this year, he informed Mr. Perner. For the last several years, a crew of assistants has been sent here to handle the starting.

Mr. McMillan has complete starting equipment, starting from stalls. He is a favorite with race horse owners and trainers and will be influential in bringing some of the best stables in the state to the local meet.

Start Repairs On Grandstand Wind Damages

Structure To Be Ready In Ample Time For Show Opening

Repairs were begun this week on the north end of the grandstand at the Ozona fair grounds damaged by winds of storm proportion here last week.

Work of rebuilding the wrecked portion of the stand got under way the first of the week and will be completed and everything in readiness for the opening of the eleventh annual Rodeo, Race Meet, Stock Show and Sale here June 23, 24 and 25, according to Wayne West, president of the fair association.

Damage to the structure as a result of the high wind will reach nearly \$500, it was estimated. The roof of a considerable section of the stand was lifted and the supporting timbers snapped.

LEAVE FOR IOWA

Mr. and Mrs. Bryan McDonald and children will leave Friday morning for Winfield, Iowa, for a visit with Mrs. McDonald's sister, Mrs. W. J. Grimmer, and family. They will be away several weeks. Mrs. McDonald and Mrs. Grimmer will spend a part of the time visiting relatives in Kentucky and in Chicago.

Dunlap Family To Hold Sixth Annual Reunion In Comanche

Approximately 100 notices have been mailed out to members of the Dunlap family calling attention to the sixth annual reunion of descendants of Thomas Jefferson Dunlap to be held in Eanes Park in Comanche, Texas, next Monday, June 9.

Rev. E. D. Dunlap of Sweetwater is chairman of reunion arrangements for this year. Mrs. A. C. Hoover of Ozona is secretary. The family reunion will start at 10 o'clock in the morning and continue through the day. An interesting feature promised for this year's meeting of the family will be a description to be given by the Rev. Dunlap of his visit recently to the old Dunlap home in Alabama. It is probable that all local members of the Dunlap family will attend the meeting.

Fifth Producer Makes Heads In New Oil Field

Choate - Hogan Cleans After Shot; Black & Eubanks 1 Heads

Completion of a fifth producing well in Crockett County's new oil pool in extreme northwestern corner of the county was indicated early this week when Choate & Hogan's No. 1-H, University, made small oil heads when tools were run in cleaning out after a shot with 160 quarts from 1,373 to 1,425 feet, total depth.

The test struck the first oil in the top of Permian lime at 1,370 feet and had increased to 1,394 to an estimated bailer full an hour. Location is 330 feet from the west line of section 14-14, University, one mile east of the same operator's No. 1 J, which extended the pool more than a mile south and a quarter mile east.

Black and Eubanks Oil Co. No. 1 University was making two heads of oil daily as it cleaned out following a 130-quart shot from 1,330 to 1,370 feet. It had been plugged back to 1,390 from 1,420 feet where it pumped 40.56 barrels of oil in 24 hours, natural. Location is 2,310 from the north, 330 from the west line of section 13-14-U, a half mile east and half mile south of Choate & Hogan's No. 1 K University, the pool opener.

To the north of the University block on which Choate & Hogan opened the new pool, R. H. Hender son of Midland has secured lease from Standard Oil Co. of Texas on the south 440 acres of Section 18-14-U, on the Crockett-Upton county line for the drilling of a test. Location is expected to be made and operations begun soon.

Committees Shape Final Plans For Opening Of Show

Officials Look Forward To Successful Event June 23-24-25

With show dates now less than a month away, committees for the eleventh annual Crockett County Rodeo, Race Meet, Stock Show and Sale are pushing forward with final plans for a show destined to outstrip all former efforts of the local organization.

V. I. Pierce and J. W. Owens, joint managers of the annual Rambouillet sheep show and sale, have announced a capacity entry in both the show and sale divisions. Entries have been pouring in for several weeks, the sheep department managers announce, and the pick of the nation's flocks will be on display and in the sale ring here.

Committees named by President Wayne West are as follows: Sheep V. I. Pierce and J. W. Owens; horses, Rob Miller; wool, Jones Miller and Buster Miller; corral boss, Joe T. Davidson; arena director, J. C. Montgomery; riding, C. E. Davidson, Jr.; roping, J. C. Montgomery and Dock Lee; races, Paul Perner and W. E. Friend, Jr.; entrance fee clerks, Max Schneemann and Roy Parker; publicity, Mascomb Cox; tickets, Bascomb Cox and Massie West; grounds, Hugh Gray; judges, B. W. Hutcherson of Sonora, Ray Willoughby and Len Mertz of San Angelo; tie judges, Tom Smith and R. R. Dudley; dance, Lee Childress, T. A. Kincaid, Houston Smith, Stephen Perner, and Joe Oberkamp; music, Joe Oberkamp.

The 1938 issue of the rodeo catalogue and premium list is expected to be off the press and ready for distribution by the first of next week. The books are distributed free of charge from the Ozona Stockman office.

Puppy Establishes Himself Protector To Baby Jackrabbit

Tiny Bunny's Hopeless Search For Dinner Arouses Canine Sympathy

Newspapers at intervals record odd instances of unusual animal associations such as the hen that adopts the orphan kitten, or the cat that mothers a chick, but a half grown dog here has gone them all one better by establishing himself as protector over a baby jackrabbit.

The dog, a cross between a shepherd and a spitz, is owned by children of Mr. and Mrs. Bryan McDonald. The McDonald children recently brought in the baby rabbit for a pet. Mrs. McDonald placed the tiny rabbit on the lawn to see if it would nibble at the grass for its living.

Sometime later Mr. McDonald noticed the dog gazing intently at the tiny rabbit while the latter "prospected" through the dog's fur with the obvious hope of finding a square meal. Mr. McDonald relieved the dog of this obligation, which the latter could not fulfill, by providing a saucer of milk.

Since this gesture of friendly trust and infantile helplessness, the pup has been a devoted companion and protector to the little rabbit. A kitten on the place, another pet of the children, forms the third party to the strange companionship, the trio making merry as constant companions in perfect unanimity.

Mr. and Mrs. W. A. Adams are going to move to their ranch near Fort Stockton soon. They plan to leave Monday to effect the necessary repairs and preparations.

Kay Johnson, local building contractor, underwent a tonsil operation in a local physician's office this week.

JUDGE JOE G. MONTAGUE

Judge Montague Seeks New Term As Dist. Judge

Fort Stockton Jurist Has Served 9 Years On Bench

Judge Joe G. Montague of Fort Stockton this week announced himself a candidate for a third elective term as judge of the 112th judicial district court, of which Crockett is a part.

Judge Montague was appointed to the district judgeship in 1929, and successfully sought the office at the hands of the voters in the elections of 1930. He was re-elected for another four-year-term in 1934. He served two terms as district attorney, resigning that position to resume private practice of law about a year before receiving the appointment to the judgeship.

In his nine years as judge of district courts in this district, Judge Montague has made something of a record in conducting trials of lawsuits and criminal cases without reversible errors. In all his nine-year record there has not been a reversal by a higher court in a civil case and out of 147 criminal cases tried only two have been reversed by the higher courts.

Conduct of the court's economically has been a primary aim of Judge Montague's administration, he points out, and the saving to the various counties in the district through judicious administration will be disclosed by a comparison of administrative costs.

New Manager Of W. T. Utilities In New Job Here

Arthur Mitchell Succeed J. O. Lusby; Latter To Big Lake

J. O. Lusby, local manager for the West Texas Utilities Co. for the past three years, left yesterday to assume a similar position in the Big Lake office of the company. Mr. Lusby was one of a trio of managers affected in a triple shift made by the company.

Arthur Mitchell, who had been manager of the Cross Plains office of the utilities company for seven years, arrived here this morning to take over the post vacated by Mr. Lusby. Horace Kittrell, former manager at Big Lake, was shifted to Cross Plains.

Mr. and Mrs. Mitchell will move into the company residence occupied by Mr. and Mrs. Lusby. Mrs. Lusby, now on a trip with her parents to Corpus Christi, will join her husband in Big Lake upon her return.

Mr. and Mrs. J. W. North, Mr. and Mrs. Jimmie Blaylock, Mr. and Mrs. Boyd Clayton and Mr. and Mrs. Roy Henderson returned Monday from a few days fishing trip at Aransas Pass. Mr. Henderson was the only one of the party to catch a tarpon.

9 Defendants Parade Before Justice Court

Fighting, Drunkenness, Beer Charges Crowd Local Tribunal

Charges growing out of a couple of fights, drunkenness and possession of illegal beer brought a parade of nine defendants before the justice of the peace court here in one of the busiest week-ends in several months.

Paul McWhorter and L. C. Barrow, the latter a brother of the notorious Clyde Barrow, paid fines of 1 and costs on charges of an affray at the Little Kitchen Saturday night. Another fight at the same place Sunday night brought Buck Davis and D. L. Terry up on affray charges, with the resulting fine of \$1 and costs. Larkin Manley, whose claim that he had lost a considerable sum of money during the night was investigated by officers, paid a fine of \$1 and costs on a charge of drunkenness.

Alex Ross and J. C. Williams, negroes, were also fined on charges of drunkenness. Williams was arrested by Sheriff Willis after a car which he was driving crashed into the car of J. A. Brashear on a downtown street. Babe Phillips was fined on a charge of drunkenness.

Seizure of five cases of beer in possession of Jose Tobar, local Mexican, by Sheriff Willis, resulted in a fine of \$10 and costs on a misdemeanor charge filed in justice court. Tobar was arrested by Sheriff Willis after a chase by auto of several miles down the south road.

Roots, Trees Are Damaged By Hail At Dudley Ranch

Chicken Killed, Garden Stripped At Roger Dudley Place

A terrific hailstorm which accompanied a downpour of rain damaged roofs of the residence, barn and outbuildings, killed chickens, stripped leaves from pecan and other trees, and left bare stems in a vegetable garden at the ranch home of Roger Dudley, on the Crockett side of the Pecos River, Monday afternoon.

The hail storm apparently centered on the Dudley headquarters as reports from neighbors indicated some hail but no damage.

The hailstones bombarded the ranch house for several minutes, piling up to a depth of several inches. Rains of a half inch or more were reported to the south and southwest of Ozona Monday night.

First Outdoor Union Service Sunday Evening

Rev. Eugene Slater To Preach Opener In Summer Program

The first Sunday evening union services in the downtown park, in which the three churches of Ozona are combining for the three summer months, is scheduled for next Sunday evening. The services will start at 8:15.

Rev. Eugene Slater, pastor of the Methodist Church, has been nominated to preach the first Sunday evening sermon. Rev. Clyde Childers, pastor of the Baptist Church, and the Rev. A. C. Nance of the Church of Christ, will preach in turn.

Song services will be under the leadership of Ross Hufstetler. Adequate lighting and seating will be provided.

THURSDAY, MAY 26, 1938

UNCLE SAM'S LOTTERY

America stands sharply divided on the ethics of lotteries. Current and recent sessions of Congress testify to that.

Politicians have rooted for not a few measures which would put the Federal government into the lottery industry. Thus far all such easy-money schemes for lining Uncle Sam's frayed pocketbook with the profits of America's gambling spirit have died in their early youth.

But no such death-blow will strike down the new Federal lottery system which is today being rapidly brought to perfection thru out the nation.

This is the national lottery which will determine your entrance into the United States Army by conscription in the event of war. Thirteen million men between the ages of 21 and 31 will be called in the first draft. This potential fighting force will be divided into four groups: those ready to go, those with a reasonable reason for delay, those with dependents, and those unfit or holding office. At the outbreak of war, 6000 draft office will be set up for the registration and selection of men. Each registered man will be given a number. In Washington, typical lottery procedure will be followed in selecting the numbers calling men to the colors. Such is the significant information disclosed within the past two weeks at sessions of War Department officials and Army reserve specialists.

The Army had to look for men in the last war. It isn't going to do it if, and when the next one comes. And though a lottery may make draftees feel nervous, it won't at any rate, play favorites.

Although it's not the kind some of our politicians have been thumping for, Uncle Sam—at long last—has his lottery!

TIME FOR A CHECK-UP ON WPA

(From the Se/ma, Ala., Times) Alabamians who have read press

THE BEAN BALL

dispatches announcing formation of a state Federation of Alabama WPA workers will undoubtedly find much grounds for speculation in this new development.

Purpose of the group was explained as "creation of a better understanding between workers, sponsors and the administration in Washington." The only definite goal at present, it was said, is enrollment of all WPA workers in the state.

The chief purpose of the WPA program is employment of able-bodied men who want to work. It tasks which will assure them a livelihood. It is not likely that the people who pay for this program with increased taxes begrudging such men a livelihood, but if the WPA has made its clients prosperous enough to finance a state convention and organization dues, it is time to start checking up to see whether or not those who provide the funds may be relieved of at least part of their burden.

FASCISM BEGINS AT HOME

The display of home grown Fascism furnished by Jersey City and Mayor Hague should have the continued attention of Americans. Not that there is great hope that outside intervention will insure free speech and other constitutional liberties. Indeed, the attempted spectacular invasion of Hagedom by two congressmen actually boomeranged—arousing local sentiment and clouding the issue. The invoking of the kidnaping law by Norman Thomas or of the ancient conspiracy law by Attorney General Cummings is also of doubtful wisdom. Straining federal laws is a poor substitute for the local civic consciousness which is the most effective guardian of liberty.

There may be outside influences which will help. The right kind of word from Washington might convey to Mayor Hague a conviction that official hoodlumism does not

enhance his social standing or party prestige. Liberty Leaguers who publicly roiled the Wagner Act unconstitutional might lend a hand to the Constitution now by privately persuading the Jersey City Chamber of Commerce that Hagedom is bad business which it cannot afford to support. But all outside effort should recognize that really effective correction must come by a change in the thinking of citizens and officials who see nothing wrong in suppressing any opinion which disagrees with their own.

America is in much greater danger from home grown Fascism than from any dictatorial invasion. Fascism begins at home, in the thinking of local communities. That is also where liberty begins. That is where by eternal vigilance and habitual practice it is most surely preserved.—Christian Science Monitor.

EXPLODING THE MACHINE AGE MYTH AGAIN

At a time when government is dicker with the idea of curbing inventions and agitators are orating that technology has ruined opportunity for the worker in America, Mr. Justin Macklin, First Deputy Patent Commissioner in Washington, refreshes us somewhat.

Mr. Macklin helps explode the machine age myth by asserting that technological improvements, instead of creating unemployment actually create many new jobs. He points to the fact that the Federal Patent Office has issued approximately 16,000 patents on radio inventions alone, and that through these new inventions many men had been given employment.

The radio industry isn't alone in this field of creating new employment. Every day other industries are developing comfort creating gadgets that mean new jobs for more people. The inventive genius for man has given us many comforts—the airplane, telephone, automobile, electric refrigerator and other electric appliances, etc.

We wonder what those millions of men employed in those industries would be doing today if those things had not been invented.

HITLER'S FAVORITE

Leni Riefenstahl, who received the film prize for this year for her Olympic film of last year. This photograph was taken on the occasion of her recent visit to Vienna. Leni is said to be the film favorite of Reichsfuehrer Adolf Hitler and there is a persistent rumor that if the chancellor ever marries, she will be the bride.

WHAT TAX-EATERS COST

The cost of taxation is not only the amount of money which the taxpayer pays, but what he gets for his tax money. I nother words, how much of the tax money is eaten up in the cost of collecting and administering the taxes?

One of the objections put forward to all proposals to broaden the tax base by imposing income taxes on incomes much lower than those which are now covered by law, is that it would cost more to collect the taxes than the net revenue would justify. That is not always true, however. The most widely spread income tax is the tax which 30,000,000 workers pay on the Old Age Benefit Account under the Social Security Act. This is a straight income tax, so designated in the law. It costs the government practically nothing to collect it. Employers deduct it from their employee's pay and turn it over to the Federal collectors, and that is all there is to it.

The gasoline tax is one on which the cost of administration varies greatly from state to state. This, too, is a tax which is collected almost automatically; but as between states there is great divergence in the proportion of the gas tax which sticks to the fingers of tax eaters before the proceeds get into their state treasuries.

The Twentieth Century Fund, in a recent report on the administrative cost of gasoline taxes, report that the average is half of one per cent. In Arkansas, however, a full three per cent of the state gasoline tax is absorbed by tax eaters. That this is an excessive cost is indicated by the fact that North Carolina collects its gasoline taxes at a cost of only one tenth of one per cent. California absorbs only a fifth of one per cent of gasoline taxes in administrative costs, but on the other hand, spends seventeen and one half per cent of its motor vehicle license tax in collection and accounting costs.

The unnecessary and wasteful expense of tax administration, usually in the hands of state and local politicians, is one of the reasons why taxes throughout America are so high and why tax payers get so little for their money.

FEATHERS IN THE WIND

There are feathers in the wind these days!

Not only has fan dancer Sally Rand gotten into the news again with her timely speech at Harvard's freshman smoker on "How to be intelligent though educated," but even the ostrich himself has pulled his head out of the sand long enough to see where he's going.

If predictions hold true, that well-muscled bird with a digestion like a concrete mixer's, and a kick like a bronco's, is going to find his plumage coming into favor again.

Even Queen Elizabeth and King George of England have come out in favor of ostrich feathers as the crowning glory for milady's hat. And judging from what milady has been wearing recently in the way of hats, ostrich plumage marks neither a turn for the better nor for the worse.

Britain's queen, however, has long been partial to ostrich feathers. We suspect this is not because ostriches are handy to have around if you have any golf balls, doorknobs, or light globes to get rid of, but because England controls 99 per cent of the world's plumage production—a business that lagged in the doldrums for years until Sally Rand's first fan dance in 1933 made the ostrich look up and the industry do cartwheels.

At any rate, feathers in the wind and in the news should help cool the torrid temperatures of our coming summer!

A suggested new use for cotton by W. G. Hayden, Big Spring, Tex., editor: Cotton fabric such as used in road construction should prove ideal for roofs on flat top homes and business buildings. Combined with asphalt, it should make a weather tight, durable and economical roofing material, and create a new volume market for cotton, he says.

Salt Lake City forbids the wearing of opera hats or hats with ostrich feathers to public gatherings.

Acetylene gas was first made in 1892.

Evidence of the value to merchants of stimulating the auto-tourist trade is seen in statistics showing that, on the average, 25 cents of each tourist dollar goes to the retail merchants.

In 1937 the state of Texas collected \$18,245,000 in taxes (production taxes only—exclusive of ad valorem taxes by local units) on natural resources, a sum greater than was collected by all the other 47 states combined in such taxes (\$17,443,000) for 1936—latest year for which complete figures from other states are available.

POSTED—All lands owned by O-B Trap Co. are posted against woodhauling, trapping, hunting or any form of trespassing. Violators will be prosecuted.

Game Conservation Convention Topic For Wildlife Assn.

Austin, June 1—The first complete college course in Texas devoted to methods of increasing game and fish for sportsmen was secured for A. & M. College by the Texas Wildlife Federation, which will hold its annual convention at Galveston June 10 and 11.

Noted speakers, including Carl O. Shoemaker of Washington, D. C., secretary of the National Wildlife Federation, will address the convention, and all Texans interested in conservation were urged today by President Henry W. Flagg of Galveston to be on hand for the meeting.

"Education is necessary if there is to be conservation of wildlife resources," Flagg said. "The Texas Wildlife Federation made it possible for Texas to be one of the 30 states of the Union with a college offering complete courses in game management. With continued support the federation hopes to do other things for Texas wildlife."

The bill creating the Department of Wild Game at A. & M. college was passed by the legislature last year after the federation had vigorously backed it. Dr. H. B. Davis, game management specialist with a nation wide reputation, was placed in charge. The faculty includes Dr. Walter P. Taylor, senior biologist in charge of the Texas Cooperative Wildlife Unit.

Both Dr. Davis and Dr. Taylor will speak on the convention program.

Convention dates were set to coincide with Galveston's big Fishing Rodeo and other recreational pursuits that will assure de-

King Zog of Albania and His New Queen

King Zog of Albania and his queen, the twenty-two-year-old Countess Geraldine Apponyi of Hungary, after their recent wedding at a civil ceremony in the great hall of the royal palace. The wedding was one of the most brilliant functions in recent European history.

legates a real vacation. An attendance of over 1,000 sportsmen is expected, Flagg said.

Many New Businesses Chartered In April

Austin, June 1—New corporations chartered in Texas during April increased substantially both in comparison with the preceding month and the corresponding month last year, the University of Texas Bureau of Business Research has reported.

Computations from the records of the Secretary of State show a

total of 160 new charters granted during April, an increase of 11.9 per cent over the preceding month and a gain of 13.5 per cent over the like month last year. Capitalization of the new corporations, \$1,889,000, was, however, 9.9 per cent under March and 17.8 per cent below April last year.

Groups showing gains over April last year were manufacturing, merchandising, oil, and transportation.

Livestock Shipping Does Toboggan On Fort Worth Market

Austin, June 1—Only 8,946 cars of livestock were forwarded from Texas to Fort Worth stockyards and interstate points during April, a decline of 28 per cent from April last year, according to the University of Texas Bureau of Business Research. Cattle shipments, 6,703 cars, declined 27.7 per cent; calves, 791 cars, increased 15 per cent; hogs, 597 cars, decreased 28.5 per cent; sheep, 855 cars, dropped 46 per cent.

"Shipments of cattle to the Flint Hills of Kansas, for summer pasturage and reshipment in the fall to the markets or feeding areas, were 45.6 per cent below April last year; but forwardings to the Osage country of Oklahoma, also for pasturage and later reshipment, declined only 6 per cent," the Bureau's report said. "These shipments to the Flint Hills and the Osage country which take place each spring usually reach their maximum in April."

"Receipts of all classes of livestock in the Fort Worth market were substantially below April last year."

Retail Sales Show Favorable Trend In Texas During April

Austin, June 1—Department stores, men's clothing stores, and women's specialty shops have reported that sales during April compared favorably with both the preceding month and the like month last year, the University of Texas Bureau of Business Research has announced.

"This situation resulted partly from the fact that Easter fell in April this year whereas last year it came in March," the Bureau's announcement said.

Reports to the Bureau from 104 representative Texas retail establishments showed total sales 3.7 per cent above March and 2.9 per cent above April last year. Aggregate sales in these establishments during the first four months were 3 per cent above those of the corresponding period last year."

Housefly Causes 40,000 Deaths In America Annually

Austin, June 1—"The common housefly possesses two, deceiving characteristics. As insects go, it is not offensive in appearance and it is so common that its presence is to a degree accepted. Nevertheless, the fly is a very real threat to good health. It is estimated that the fly is responsible for 40,000 deaths annually in America. Its efficiency as a spreader of typhoid fever, infant diarrheal infections and tuberculosis is well recognized by the medical profession," states Dr. Geo. W. Cox, State Health Officer.

"We have, even so, made much progress against the disease-spreading fly. The screening of homes and a sanitary consciousness both in urban and rural communities, have reduced the fly's disease-spreading ability. We all must realize, however, that in the rural areas of Texas there are still many properties lacking sanitary pit privies and adequate screening; and in cities and towns exposed garbage and filth are permitted inexcusably to exist as breeding spots for flies.

"It is such carelessness that still makes possible widespread fly havoc. There is no reason to tolerate fly-breeding conditions, especially in congested metropolitan areas. Even in the rural sections, adequate sanitary protection, household screening, and fly swatting will greatly neutralize the damaging potentialities of barnyards and cowlots.

"The fly must be recognized for what it is, despite its innocent appearance and lack of sting. It will then be appreciated that no effort

is too great to help destroy it. And this effort, when well directed, will not be so much against the fly itself, however commendable that may be, as against its breeding places," Dr. Cox continued.

"Filth is the fly's great and only ally; cleanliness its powerful enemy. If typhoid deaths and infant mortality from diarrheal conditions are to be reduced in Texas this spring, summer and autumn, as well as eventual deaths from tuberculosis, now is the time to wage effective warfare against one of their most powerful agents—the fly."

Increase In Power Consumption Noted In Texas For April

Austin, June 1—Reports to the University of Texas Bureau of

Business Research from fifteen power companies representing nearly 80 per cent of the state's production of electric power show an increase in electricity consumption of 5.7 per cent over March and 9.3 per cent over April last year. For commercial consumption the respective increases over March and April last year were 5.8 per cent and 14.3 per cent; for industrial consumption, 6.0 per cent and 7.6 per cent; and for residential consumption, 4.7 per cent and 14.5 per cent. Normally the increase in power consumption from March to April is less than 1 per cent. These figures contrast sharply with those for the nation as a whole where there has been a sharp drop in comparison with April last year, the Bureau's statement said.

HOME BUILDERS' PAGE

Home Building In 1938 Expected To Exceed Last Year

Sales of Residence Sites Reported Increasing Generally

Sales of home sites ready for building have been increasing very generally over the country in the past two months, are now on a level equal to or greater than last year in a majority of cities, according to representative realtor home builders and land developers of the country replying to a query made by the National Association of Real Estate Boards, results of which are reported in Freehold, magazine of real estate.

As these men see conditions in their own communities, the outlook in over two thirds of all cities covered by the inquiry is that home building during 1938 will equal or exceed that of 1937.

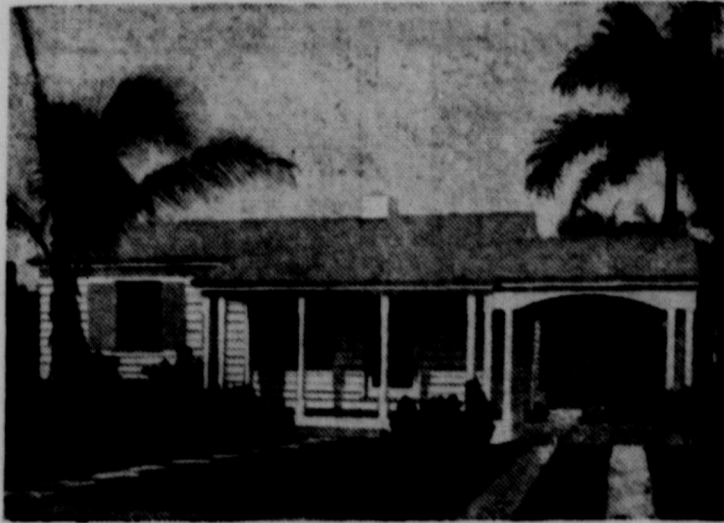

The inquiry was made by the Land Developers and Home Builders Division of the Association. Members of the division reported on: (1) vacant lot sales made during the early part of 1938; (2) number of homes built during 1938 on property owned, controlled or sold by them; and (3) each individual's appraisal of home building possibilities in his community for the balance of the year based upon activity during the first few months in 1938.

Building Standards Of FHA Brings New Public Confidence

Washington, D. C., June 1—The Federal Housing Administration's insistence on careful planning, sound building practices and the use of good materials in the homes offered as security for insured mortgages is playing an increasingly important part in the restoration of public confidence in the residential building field, Administrator Stewart McDonald said today.

In addition, the protective features which are part of the FHA regulations insure at least a minimum of protection for all classes of buyers in their home investments, Mr. McDonald pointed out. "Outmoded houses of the last speculative era serve as constant reminders that some of the practices of home building and home financing in effect at the time they were built lacked sufficient protection for both borrower and lender alike," Mr. McDonald said. "It is a fact that, in years past, a property involving substandard conditions or characteristics ad-

A Cottage Small

A simple Southern type cottage that has an inviting atmosphere is this low cost design. Its floor plan might be varied to meet individual desires and family needs. The Southern style porch makes it adaptable for fronting to the west without sacrificing comfort of the living room in hot weather. The covered drive suggests handy availability of the family car without undue exposure.

versely affecting surrounding properties was, when considered by itself, an acceptable mortgage security. We know, too, that in the late 20's due to the velocity of the real estate market the public was accepting planning and construction practices that were definitely substandard. Today's buyers of residential properties are, as the result of more widespread knowledge, demanding more intelligent planning and sound construction practices.

"The provisions of the Federal Housing Administration program contain protective measures against just such conditions as this. An individual property offered as security for a mortgage to be insured by FHA must be considered not solely by itself but also its suitability in relation to other properties in the same neighborhood.

"FHA standards provide that homes must be substantial and durable in structure, convenient and efficient in arrangement, attractive in appearance. Furthermore, such properties must be considered in relation to visible trends in housing development and that they be located in neighborhoods which have, in considerable degree, security from disintegrating influences.

LOWER INTEREST, LONGER TERM FOR LOANS DEVELOP

A noteworthy trend during the last year in the real estate field has been the "very satisfactory" readjustment of the real estate financing structure toward lower interest rates and longer periods of amortization, says Herbert U. Nelson, secretary of the National Association of Real Estate Boards.

More and more private lenders, including the great insurance companies, are going to the long term

loan. The readjustment is accompanied by a healthy discussion not only within financing and real estate circles but in terms of general public policy as to what, under today's conditions, constitutes sound practice in the borrowing and the lending of real estate mortgage money; that is to say, what is sound practice on the one hand for the future safety of the borrower, and on the other hand for the future safety of the lender.

HOUSING REMAINS IN BUILDING LEAD

The busy port city of Houston added \$454,940 in building permits, swelling its total for the year to \$10,185,820, last week in maintaining a wide margin of construction leadership over other reporting Texas cities.

Dallas, with \$130,666 for the week, and \$8,736,167 for the year, was third with \$98,269 for the week and \$2,515,168 for the year.

Amarillo had \$85,214 for the week, fourth highest reported, but its \$1,027,373 for the year was less than figures from some of the other cities.

"DREAM HOUSES" WILL REMEDY THE DEPRESSION, SAYS NOTED EDITOR

"THERE are too many little dream houses in this land of ours," says William Frederick Bigelow, editor of Good Housekeeping in the June issue of the magazine.

Editor Bigelow

"Their number has increased by two or three millions in the last half dozen years and there is no let-up in their building," he adds. "But these dream houses are only dreams. Mr. Bigelow points out.

"The statisticians will tell you how many houses short we are. Their figures will be startling, but they will be cold, impersonal figures; they will not tell how many times a dream house tumbled into ruins, became a heartbreak house instead of a home," he says.

The article states that the housing shortage is one of the most serious phases of the depression and that meeting the shortage would aid greatly in ending the slump in business.

But the cost of building stands in the way, Mr. Bigelow says. "To know that giving every bride a chance to have a home of her own would give millions a chance to become prosperous again is a challenge to the ingenuity of America."

Our Work Speaks For Itself

S. L. BUTLER

Building Contractor

Any Job—Large or Small Done Right

A WALL PAPER WHICH PUTS MOTHS ON RUN

When the clever housewife thinks of summer she also thinks of moths, and their predatory tendencies toward clothing.

A new cedar treated wallpaper, which has an odor that is repulsive to moths, for all bedroom closets will solve the problem.

This wallpaper, which is not more expensive than the higher class of the ordinary wallpaper, is made of cedar pulp. This is its first year on the market.

Manufacture of citrus meal as a livestock feed, from formerly waste fruit peels by dehydration process is a growing by-product industry of Texas' lower Rio Grande Valley's citrus industry.

Residents of many Texas rural areas not served by gas or electric lines now enjoy the convenience of gas ranges, lights and heaters through "canned" butane gas, which is delivered in liquid form but expands, forms its own pressure and is piped into the various gas appliances in the form of dry natural gas.

Prompt results from advertising are reported from Prince Albert, Canada, when William Kernaghan went to the local newspaper to insert an ad for his dog, which had been missing a week. As he left the newspaper office he found the dog awaiting him outside.

Must Submit Plans To FHA Before Start Of New Construction

Washington, D. C., June 1—Home builders contemplating use of ninety per cent mortgage financing must submit their plans to the Federal Housing Administration for approval prior to the beginning of construction, Stewart McDonald, Federal Housing Administrator, explained in a statement.

The mortgagor must be the owner and occupant of the property at the time of the insurance, and the dwelling must be designed principally for single family use, and a down payment of at least 10 per cent of the appraised value in cash or its equivalent must be made.

The mortgage must contain complete amortization provisions requiring periodic payments by the home buyer not in excess of his reasonable ability to pay.

The Federal Housing Administration must be satisfied that the project is economically sound.

Congressman Josh Lee of Oklahoma doesn't seem to think much of his state's university. Comparing it with the state insane asylum, both institutions being located in his home town of Norman, Lee said: "You have to show mental improvement to get out of the asylum."

Ethyl gasoline came into use in 1923.

Former Ozona Girl Weds In New Mexico

Word was received here this week of the marriage March 22 at Silver City, N. M., of Miss Edna Phillips, daughter of Mrs. W. R. Phillips of Ozona, to T. W. Dendy of Santa Rita, N. M.

Mrs. Dendy, who is a graduate of Ozona High School, was doing graduate nursing in a government hospital at Bayard, N. M. before her marriage. She received her nurses training at Hotel Dieu in El Paso and was for a time night supervisor of nurses at that hospital after her graduation. Later she nursed for a time in St. Vincent's Hospital in California.

Mr. Dendy is connected with an oil company operating in New Mexico. The couple will make their home in Santa Rita, N. M.

BRIDGE LUNCHEON

Mrs. Tom Smith entertained at her ranch home Saturday with an all-day party. Bridge and luncheon were enjoyed by all. High score went to Mrs. Joe Pierce. Bingo prize was won by Mrs. Lee Childress and low fell to Mrs. Floyd Henderson. Others present were Mrs. Early Baggett, Mrs. Wayne Vest, Mrs. George Harrell, Mrs. Sherman Taylor, Mrs. S. M. Harlick, Mrs. Johnny Henderson, Mrs. Scott Peters, Mrs. George Montgomery, Mrs. Alvin Harrell, Mrs. Joe Sellers Pierce, Mrs. Dempster Jones, Mrs. Jake Miller, Mrs. Earle Chandler, Miss Mary Louise Harvick, Miss Mary Alice Smith, and Atr Harvick.

Brazil Is Studied By Baptist Women Missionary Session

A study of Brazil furnished the program topic at a joint meeting of both circles of the society held Wednesday afternoon at the church. The Lottie Moon circle was in charge of the program, with Mrs. Charlie Butler as leader. Mrs. A. C. Hoover led the devotional, whose subject was "Judge Not, lest ye be judged."

Mrs. Lowell Littleton discussed "Brazil Fifty Years Ago." Mrs. S. L. Butler took the topic "Brazil Today" and Mrs. Charley Butler, "Brazil, Tomorrow."

A linen shower was prepared for shipment to the Baptist Memorial Hospital in Houston. Refreshments were served by the Nelson Circle. Present were Mrs. Lowell Littleton, Mrs. Hugh Gray, Mrs. Leslie Nance, Mrs. S. L. Butler, Mrs. A. C. Hoover, Mrs. Charley Butler, Miss Maybelle Taylor, Mrs. John Patrick, Mrs. Hartley Johnson, Mrs. Clyde Childers, Mrs. J. T. Patrick, Mrs. Will Miller, and Mrs. J. S. Whatley.

Morning Worship - 11:00 a. m.
Evening Worship (In Park) - 8:15 p. m.

Our Presiding Elder, Dr. L. U. Spellmann, will be our preacher at the morning hour this Sunday. He will hold our Third Quarterly Conference at 2 o'clock Sunday afternoon. Members and friends of the Church are cordially invited to hear Dr. Spellmann Sunday morning.

The service this Sunday evening marks the beginning of our Sunday evening Union services in the park. We hope that everyone in town will want to enjoy these periods of fellowship. Adequate lighting and seating facilities are being provided. Make your plans to attend every one of these union meetings.

Student Enterprise Swells Chapel Fund

Denton, June 1—"Drops of water make an ocean," and two enterprising young ladies from Texas State College for Women can prove it. Small sums earned thru soda pop sales, rummage clean-ups, waffle breakfasts and various other mercenary ideas have pushed their hopes for a campus Chapel almost \$2,000 nearer reality.

The two crusading students, Patsy Shilders, Tyler, and Nita Hinds, Abilene, have worked thru out the year as managers of the Chapel Fund, and are now crowing over the \$1,904 bank balance. In addition to the profits from almost every known kind of benefit sole, the fund has been increased by gifts of individuals and organizations. Managers for 1938-39 predict that another boom year or so will practically open the doors of the chapel.

Texas

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. Address inquiries to Will H. Mayes, Austin, Texas.

Q. How many goats are there in Texas and what is the mohair production of the state?

A. Approximately 3,000,000, the mohair production for 1936 being 13,400,000 pounds valued at \$20,000,000, which was 85 per cent of the nation's total.

Q. What is the meaning of "Palo Pinto"?

A. It is Spanish and means interpreted into English, spotted or painted pole or tree. The name was given the stream, the county and the town because of the highly colored timbers of the section.

Q. How did Paducah get its name?

A. Early settlers from Paducah, Ky., named it for their former home town, which was named by the Chickasaw Indians and in their language means "where the grapes hang down."

Q. When was the Jefferson Jimplecute, which has recently been revived as a daily paper, established and by whom?

A. In 1865, by Col. Ward Taylor, who published it as a weekly news paper for many years.

Q. Where do geologists believe that a cavern exists, as yet unexplored, that will prove larger than any that has been discovered in this country?

A. Based on drillings in Howard county near Big Spring, geologists contend that there is a vast vacuum produced by a fault in the

New Camouflage Makes Planes Invisible

Maj. Emil C. Kiel, squadron commander of the Ninety-fifth attack group, United States air corps, showing Brig. Gen. Frank Martin the progress on camouflaging the A17A warplanes stationed at Hartford, Conn., for air maneuvers in the northeastern section of the United States. The camouflaging makes the planes practically invisible at a short distance.

earth, in that locality beneath which an immense stream flows, and that future explorations will reveal the largest cavern yet discovered in this country.

Q. What is meant by the term "hot oil"?

A. "Hot oil" is oil produced in excess of that allowed under the proration orders of the Railroad Commission, the body that has control of oil production and marketing in Texas.

Q. What was the "Peters Colony" and in what part of the Republic was it located?

A. "The Texian Land and Emigration Company," better known as the "Peters Colony," was organized at Louisville, Ky. by W. S. Peters and others, and in 1841 secured a charter and grant from the Republic of Texas, much like the former Mexican emprasario grants. Under this charter many colonists were settled in what afterward became about 18 counties

in the Dallas section. The first settlement under this grant was made in 1845 at what is now Farmers Branch, Dallas County.

Q. Who organized the 200 volunteers that routed about 1,000 Indians at Plum Creek in August, 1840, after the Indians had invaded Victoria, Linnville, and other places?

A. When they learned that Indians to the number of 1,000 or more had murdered families in the Victoria and Linnville communities and were escaping north with much plunder, Ed Burleson, James Byrd, Matt (Old Paint) Caldwell, and Ben McCulloch gathered about 200 volunteers and hur-

ried to Plum Creek, 27 miles east of Austin to intercept them. Gen. Felix Huston was chosen commander-in-chief, and in the fight that followed when the Indians approached, the Texans completely routed the Indians, killing about 140, wounding twice that number and retaking much of the plunder. Only a few Texans were wounded, one of whom died afterward from wounds.

Q. When did the first steamboat reach Houston?

A. In January, 1837, soon after the townsite had been laid off and a few tents and cabins erected. It is said that the town was then so new that the captain of the boat had much difficulty in finding it and locating a landing place.

Q. How did the Texas municipalities generally regard the Anahuac attack?

A. They did not approve it, but held meetings, pladged anew their

loyalty to the Mexican government, and condemned Travis for organizing and leading the attack on the Anahuac garrison.

Q. Who was Luis Aury?

A. He was a noted pirate who occupied Galveston Island in 1816 under a commission as "commodore" from the former revolutionary government of Morelos, which was then extinct. He established a base on the island and from there indiscriminately plundered Spanish vessels and engaged in smuggling slaves into the United States.

Q. What put an end to Aury's career on Galveston Island?

A. Javier Mina, a Spanish adventurer, came to Galveston Island late in 1816, or early in 1817, with him in a revolutionary expedition against Mexico, which proved a failure. Aury then returned to Galveston Island to resume operations and sailed for Florida to continue his piratical methods.

Q. What steps did Long take to take Texas from Spain?

A. Long formally declared Texas an independent republic, organized a provisional government to be administered by an elective council and announced a program for disposing of land to settlers at attractive prices. A fort was built on the Brazos River near old Washington and trading posts were established on the Brazos and Trinity Rivers.

Q. What alliance did Long seek in his revolution and what were his first reverses?

A. He learned that Lafitte was occupying Galveston Island and sought an alliance with him, which Lafitte refused. Returning to Nacogdoches, he found that the Spaniards had destroyed his post there and had killed or scattered his men. He fled to Louisiana, but returned later and pointed a remnant of his men who had built a small fort at Bolivar Point on Galveston Bay.

Q. What temporary victory did Long gain and what followed?

A. With a small force he captured Goliad in October, ostensibly

ly for the Mexican revolutionists against Spain, but after a short time was forced to surrender. He and his men were taken to Mexico as prisoners and were paroled, but he was assassinated by one of his own men in the City of Mexico in 1822.

Q. Where was there once a Texas town of much promise known as San Luis?

A. About 1840, San Luis was a thriving seaport town on San Luis Island off the west end of Galveston Island. For a time it led Galveston in cotton shipments, had a bridge to the mainland, and there was a strong rivalry as to which would be the most important coast city. When it became clear that Galveston would win, San Luis was abandoned and every building in the town was moved to Galveston.

Q. What early paper was published at San Luis and by whom?

A. Publication of the San Luis Advocate was begun in August, 1840, with Samuel J. Burnett, publisher and Tod Robinson and Matthew Hopkins, editors. It contained much editorial and literary matter and was the best printed newspaper at that time in Texas. Its Washington hand press was acquired later by the Galveston News and is still in the News office.

Just think, a single Morning would have as many as ten wives. My goodness! How many would a married one have?

EDUCATOR POINTS WAY TO HAPPY MARRIAGES

"...every man a successful man" - Phelps

THERE are two fundamental rules for a happy and successful life, according to William Lyon Phelps, America's best known and best loved college professor. They are, according to Dr. Phelps, to marry young and to develop character through religion in the home.

"The highest happiness known on earth is in marriage," says Dr. Phelps in an article in the June issue of Good Housekeeping magazine. "Every man who is

happily married is a successful man even if he has failed in every other thing. And every man whose marriage is a failure is not a successful man even if he has succeeded in everything else.

But successful marriages, according to Dr. Phelps, are made and not born. "From childhood boys and girls find out how children come, but the secret of a good character, temperament, and disposition is not so readily found."

The reason why character is the most important requisite for success in marriage is not merely that it happens to be the chief cause of happiness, but that those who have character can turn an unsuccessful marriage into a successful one, instead of taking the easy way out, and acknowledging failure. No man or woman is to blame for making a foolish marriage, it might happen to anyone. The test of character is not what we one has or has not made after the foolish marriage has been made. What a triumph then to turn that failure into a success, as the statesman turns a minority into a majority!"

"I am in favor of early marriages," says the Professor. "I am delighted when either the boy's parents or those of the girl have money enough so that the young pair can be married at twenty-two, before they begin professional study or work. And when there is little money but either or both have a job, then by all means they should be married. When young people marry, they take difficulties of housekeeping and privations as a lark, even as young people do

camping out in the summer. "The late President Harper of the University of Chicago was married at sixteen. He told me that during the first five or six years there were times when neither he nor his wife could mail a letter, because they did not have enough cash to buy one postage stamp. He laughed aloud as he recounted this, and added, 'There was never one moment when either of us regretted our marriage.'"

"Marriage can be wonderful from every point of view," says Dr. Phelps, "when it is a combination of the highest physical delight with the highest spiritual development."

Dr. Phelps gives several rules for keeping marriages happy. The first is this: After you are married never leave the house, even if only to post a letter at the corner, without kissing your wife. Second, during the first twenty years of marriage, occupy the same bedroom and never go to sleep with resentment in your hearts. The third, since the greatest of all the arts is the art of living together, and since the highest and most permanent happiness depends on it, and since the way to practice this art successfully lies through character, the all-important question is how to obtain character, and the surest way is through religion—religion in the home.

According to Professor Phelps' article in Good Housekeeping, religion is the foundation upon which character is built. He gives a list of seven recent and classical books in which is a guide to religious education—particularly in its relation to married life.

MICKY MOUSE

MR. Mickey Mouse, he of the movies and scores of strange and mad adventures, has a new pet. A huge green parrot, almost as large as Mickey, has joined our little playfellow.

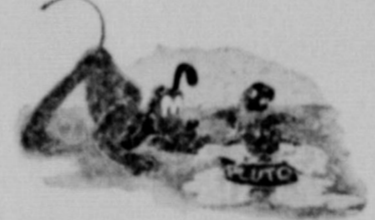

The editor of Good Housekeeping has given us permission to reproduce a portion of the full color page Mickey Mouse display his magazine has in the June issue.

We should not be greatly surprised to see Mickey, Pluto and Polly have a boisterous time for a spell.

Here they are:

When Mickey brought his new pet home, Poor Pol could only squawk. So Mickey got his schoolbooks out to teach her how to talk.

Then Pluto came to get a drink—He was a bit abashed. To find that in his special dish. A strange bird bathed and splashed.

But Pol had learned her lesson well. And when she saw him there, She called politely as could be, "Come in, the water's fair!"

Poor Pluto stayed to hear no more. He disappeared from sight. A bird that talked! Was he awake? His hair stood up from fright!

But Polly, bound that they'd be friends. Had Mickey there to back her. And soon she coaxed him out to play. With "Pluto want a cracker!"

Texas' Quota In the World War
Texas furnished 198,238 men and women for service in the army, navy, marine corps, and army nurse corps, during the world war.

Five thousand of these noble Texans gave their all upon the altar of liberty during the war, and more than ten thousand have died since the war, as a result of their service.

One hundred and sixty five Texas veterans were decorated by congress, the war department and allied nations for their exceptional bravery. Fifty five, or exactly one third of the Texas veterans so honored were members of the immortal Thirty Sixth and Ninetieth Divisions.

Twenty five men of the Thirty Sixth and 30 men of the Ninetieth are so honored—and a grateful nation will treasure their name and fame "while memory clings to the past."

Over the nation, our World War veterans are dying at the rate of one an hour, 120 per day, or 3,600 per year.

State Capitol Is Now 50 Years Old

Our magnificent state capitol has completed 50 years service to the people of this imperial commonwealth. When formally opened in 1888 it was the seventh largest building in the world.

Before actual construction was started, a 60-mile railroad was built by the contractors to haul the native granite from the quarries at Burnet, and stone masons were imported from France to set the granite in place.

The largest, most beautiful and palatial state house in the entire nation has 250 rooms, 900 windows, and 500 doors and is still the pride of all Texas.

The massive cornerstone, weighing 18,000 pounds, was hauled 15 miles from the quarries to the railroad at Burnet by 15 yoke of oxen and was set in place with appropriate ceremonies on March 2, 1885—the 49th anniversary of Texas independence.

A complete list of the things placed in that cornerstone will be sent to any reader of this paper upon receipt of a self addressed stamped envelope, and we'll be delighted to hear from you. Our address: Box 923, Austin, Texas.

BACK FROM TOUR

Judge and Mrs. Charles E. Davidson have returned from a vacation tour through the eastern states and a visit in Idaho with their son-in-law and daughter, Mr. and Mrs. W. J. Grimmer and children. They were accompanied by a daughter, Mrs. Mark Garver of Baton Rouge, La., and a niece, Miss Marion Campbell of California. Miss Campbell stopped off in Chicago for a visit with a brother, and Mrs. Garver left Ozona Sunday for her home in Baton Rouge. Mrs. Charles E. Davidson, Jr., and two children took Mrs. Garver by auto to her home and will visit here a few days before returning home.

Population Not Dense In Texas Despite Growth

Wide Open Spaces Of State Could Accommodate More

Dallas, June 1—Texas has more than doubled her population since the turn of the century—a greater proportionate increase than any other section of the country save the Rocky Mountain and Pacific Coast regions.

However, although its gain to the 6,172,000 mark in 1937 made it second only to California in speed of growth that year, its "population density" ranking of 36th among the states indicates that it still needs "more people," says a report of the All-South Development Council.

When its present ratio of 22.2 persons per square mile is compared to such figures as 131.8 for New England, 262.2 for the Middle Atlantic states of New York, New Jersey and Pennsylvania, 103 for the Ohio-Indiana-Illinois-Michigan areas and, finally, 55.1 for the Kentucky-Alabama-Mississippi-Tennessee section, Texas' capacity for populating its wide open spaces is especially impressive.

"The need for still greater population density is part of the magic circle involving production, wealth, consequent growth of buying power, more population, and back to more production and still more buying power," the report explains "and this circle will widen and strengthen rapidly with the awakening of Texas to its yet largely untried potentialities as a producer not only of raw materials, but of consumer goods."

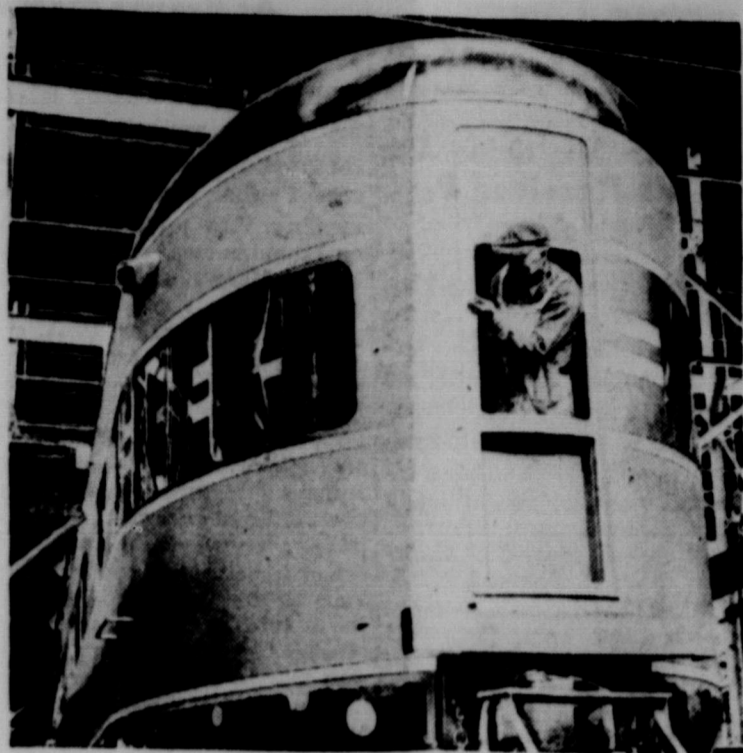

The so called "heavy industries" whose decentralization naturally will be a very deliberate process, are not as vitally concerned as are the consumer goods producing and distributing industries with the actual proximity of an active consuming public. Nevertheless these industries—including glass, rubber, chemicals, building materials—also are keenly interested in Texas as a prospective locale, the report said.

Proximity of raw materials of all kinds, availability of good, cheap fuel and water, and the Texas climate all are favorable to the Lone Star state in bidding for consideration by industries of this kind. Still lacking is a state policy giving formal assurance to industry of a friendly official reception and treatment in Texas—as has been done, with success, in many other states. However, the report notes that one of the most hopeful signs for a completely inviting front is the fact that determination to pursue this policy is being increasingly keynoted by political and business leaders of the state.

Boat-tail Cars for Crack Train

Work is nearly complete, at the Pullman company's shops, near Chicago, on the cars that will inaugurate new, faster service on the Broadway Limited and Twentieth Century Limited between Chicago and New York in June. This boat-tailed car will be at the rear end of a train, remodeled outside for speed and inside for comfort.

Charlie McCarthy Learns Swedish

That gabby wooden Irishman, Charlie McCarthy, had to learn Swedish as a result of his selection as "chief spokesman" at a celebration in Hollywood, Calif., marking the three-hundredth anniversary of the arrival of the first Swedish settlers in America. Charlie is shown getting some tips on the language from boss Edgar Bergen, whose mother, Mrs. Nellie Bergen, was born at Hassleholm, Sweden.

Mr. and Mrs. W. R. Baggett and Mr. and Mrs. J. M. Baggett and daughters, Lillian and Posey, will attend commencement exercises at A. & M. College Friday. W. R. Baggett, Jr., will receive his degree from A. & M. at the Friday exercises.

Miss Christine Currie and little brother, Happy, are spending the next three weeks visiting their grandmother in Eldorado.

Shave for less than 1¢ A MONTH

THERE'S no soap, no blades, no lotions to buy when you own a Remington Rand Close-Shaver. Less than a penny a month pays for electricity if you shave every day!

AC or DC In just a short time your Close-Shaver will have paid for itself and you will profit—not only in cash, but in getting the smoothest, fastest, most comfortable shaves of your life. The cost of a Close-Shaver is only \$15.75 complete, with case.

Domestic Servants Possible Source Of Disease; Urge Care

Austin, June — "Servants in the home can be a potent source of disease transmission," states Dr. Geo. W. Cox, state health officer, "unless they are examined periodically by a physician so they can be rendered non-infectious of the communicable disease should such disease exist."

"There is a state law requiring food handlers in public places to have health certificates but this law exempts domestics. So the responsibility falls upon the employer."

Persons of all races are employed in Texas as cooks, maids, nurses and laundresses. As such they come in intimate contact with the grown ups and children in the family. If the servant harbors any communicable disease the health of the employing family is endangered.

Diseases transmittable in this manner are: tuberculosis, syphilis, typhoid fever, dysentery, diphtheria and other acute contagious diseases. A typhoid carrier can easily infect an entire family. A syphilitic cook or nursemaid is able to transmit the venereal disease through contact with food, unsterilized dishes and in playing with children. Tuberculosis is very easy of transmission.

"The Texas State Department of Health recommends that all employers have their family physician examine their house servants from time to time to eliminate any danger of contracting these diseases. Treatment should be instituted promptly when the servants are diseased. The cost is negligible when compared to the cost of illness and family death," said Dr. Cox.

Mrs. Ned Bishop and her sister, Miss Sawyer of Dallas, who is visiting here, are spending a few days this week with relatives in Kerrville. Mr. Bishop is manager of the Roy Hudspeth ranch two miles west of Ozona.

New Jersey, Nebraska and Massachusetts are among states which have recently set up official industrial commissions to merchandise their advantages of resources, markets, tax policies and labor supply to industry, reports the All-South Development Council.

WINS BAND MEDAL

Through an oversight, the name of Miss Crystelle Carson was omitted from the list of Ozona band students who received medals in the state band contest in San Angelo recently. She won the medal in the sextette contest.

TWO NEW CARS SOLD

Two new Buick coupes were delivered during the past week by the Wilson Motor Co., local Buick and Pontiac dealers. One went to Roy Westbrook, with Station B near Junction, and another to Hillery Phillips of Ozona.

Dean Frank C. Whitmore of Pennsylvania State college says the South will be the "chemical frontier" of the nation during the next 25 years, citing the region's ability of supply, in proximity to each other, such basic chemical materials as sugar, petroleum, sulphur, natural gas, cellulose, starch and vegetable oils.

YOU CAN STOP 4 to 223 FEET QUICKER

PROVE IT YOURSELF IN ONE MINUTE

STOPS QUICKER
When brakes are applied, the "de-skidded" cross cuts go into action—hundreds of sharp gripping edges bite through the slippery surface film...enable the flexible tread units to solidly grip the pavement.

CONTROLS SIDE SKIDS
When the weight of the car suddenly shifts to the side, in turning corners, passing cars, etc., the sharp lateral edges of the seven continuous ribs go into action, instantly bite through the film and gain a direct positive foothold on the road.

HERE'S WHY YOU'RE SAFER WHEREVER YOU DRIVE...

<p>OILED GRAVEL ROAD No. 11 DRY</p> <p>4 FEET QUICKER</p>	<p>OILED GRAVEL ROAD No. 11 WET</p> <p>71 FEET QUICKER</p>	<p>ASPHALT COMPOSITION ROAD No. 6 WET</p> <p>46 FEET QUICKER</p>
<p>SLOSH ON HARD PAVEMENT No. 31</p> <p>75 FEET QUICKER</p>	<p>SMOOTH HIGH CROWN ROAD No. 26 WET</p> <p>111 FEET QUICKER</p>	<p>WET CLAY ON HARD PAVEMENT No. 15</p> <p>223 FEET QUICKER</p>

See for yourself how these great De-Skidded tires stop a car quicker on curves or straight-aways...uphill or down...on wet or dry pavement. Drop in! Try our amazing one-minute test. Learn about this new Skid Control.

Of Ozona, Inc. Lee Wilson, Mgr.

"Lonesome? NOT AT ALL!"

Convalescence is much less tiresome when you have an extension telephone in the bedroom, for you can then talk with many more friends than could possibly come to see you.

Convenience is another reason you'll want one... an extension telephone saves many steps each day. And privacy... so you can have personal conversations without the embarrassment of having others overhear.

And a bedroom telephone gives a reassuring sense of security at night, should emergencies of any kind arise.

Ozona Girl Sings In Regular Radio Weekly Broadcast

Miss Adelia Willis To Be Heard Saturdays From KGKL

An Ozona girl, Miss Adelia Willis, daughter of Sheriff and Mrs. W. S. Willis, will be heard each Saturday afternoon in a radio broadcast from Station KGKL in San Angelo, in a 15-minute program of songs.

Miss Willis made her first broadcast over the San Angelo station last Saturday afternoon following an audition the previous day. She will sing each Saturday afternoon from 3:30 to 3:45 in a studio program, under a contract just signed. She may later appear three times a week, studio officials indicated.

Mrs. Morris Tally joined her husband here early this week to make their home here. Mr. Tally recently accepted a position as a teller in the Ozona National Bank.

Miss Mary Louise Harvick, daughter of Mr. and Mrs. S. M. Harvick, will leave this week-end for summer camp near Kerrville. This will be Miss Harvick's second summer at the camp.

Andy Trull accepted a position starting Wednesday as mechanic at the Wilson Motor Co. Mr. Trull who has been employed until recently at the Tallafiero Garage, replaces W. T. Stokes, who left early in the week for San Angelo.

CAMPAIGNS HERE

C. H. Gilmer, Rocksprings attorney and rancher, former county judge of Edwards County, and now a candidate for state representative from the 86th district, which includes this county, visited Ozona last week in the interest of his campaign. Mr. Gilmer served three terms as county judge of Edwards County, owns a small ranch near Rocksprings and has been a resident of this section all of his life.

The new residence of Lee Snyder was completed last week. It is on a lot adjoining the present Snyder home. It is to be occupied by Mr. and Mrs. W. J. Stevens.

Another scourge of mosquitoes following recent showers struck Ozona Wednesday night. Another round of oil on water holes would be in order.

Mrs. C. W. Tallafiero is convalescing at her home here after a minor operation.

OST Publicity Brings Queries From Over U. S.

Over 25 Inquiries On Ozona Received By Trail Assn.

More than twenty-five inquiries, seeking information of various kinds about Ozona and Crockett County, have been received by the National Old Spanish Trail Association as a result of the Old Spanish Trail publicity campaign inaugurated recently, according to a letter received here this week by Scott Peters, local OST chairman, from W. L. Rammel, secretary of the association.

The inquiries came from all parts of the country, from Idaho Falls, Idaho; Centerville, Iowa; Rockland, Maine; Granada, Colorado; Yakima, Washington; Marshfield, Missouri; Astoria, Oregon; Bristol, Colorado; Madison, Florida; Crown City, Ohio; Washington, Mo.; Dothan, Alabama; Waycross, Georgia; Redlands, California; Pacific Grove, California; Avery, Idaho; Baton, N. M.; Lynden, Washington; Lake City, Florida; and many other towns and cities in Texas.

\$400 Prize Money To Be Awarded 4-H Boys In Sonora Wool Show

Sonora, June 1— Between \$300 and \$400 in prize money will be distributed to 4-H Club boys here during the Wool Show, June 10-11, according to W. J. Fields, Jr., president Sonora Lions Club.

Combined with the Wool Show, the first of its kind in this section, will be the first annual Livestock Auction Sale sponsored by the Lions Club, and the first Trades Day in which Sonora merchants offer special inducements to Sutton county citizens as well as out-of-county people.

The club's entertainment committee, headed by Dr. Joel Shelton, president-elect, has prepared special entertainment for visitors in Sonora during the two-day event. On Saturday night a dance will be given at the Scout Hall, with a San Antonio orchestra engaged for the occasion.

Over one hundred head of livestock has been donated by ranchmen of Sutton county. Included in this number are many registered animals—tops of some of the best flocks in this section, which will be sold on the auction block.

Citizens of every section of the Hill Country have been invited to come, bring their families and help Sonora celebrate this big 2-day affair.

Word has been received here by A. W. Jones of an improvement in the condition of his daughter, Mrs. Gilbert Noakes of Corpus Christi, who has been seriously ill for several weeks. Mrs. Jones is with her daughter.

G. A. Girls Lead Special Program At Prayer Meeting

Members of the Girls Auxiliary of the Baptist Woman's Missionary Society presented a special program at prayer meeting services of the church Wednesday evening. The program topic was on Japan and was under the direction of Mary Elizabeth Gray, program leader.

Mrs. J. S. Whatley, G. A. sponsor, opened the program with prayer following the devotional, "Seed Sowing" led by Mary Elizabeth Gray. A group of questions on Japan and the missionary field formed a feature of the program, the children answering the questions. Doris Bean discussed the religion of Japan, describing a visit to the great Buddha and to the Shinto Shrines. A story, "Out of the Life of Seinan Gakuin," was told by Lila Lee Cooke. Louise Bean told of the Baptist churches in Japan and the group sang the hymn, "Bringing In the Sheaves." The program closed with a prayer for Christianity in Japan by Mrs. Clyde Childers.

Safety Workers To Convene In Ft. Worth Convention June 15

Austin, June 1—Officials of the Governor's Traffic Safety Committee busily engaged in shaping final preparations for the state-wide highway safety conference at Fort Worth June 15, were enthusiastically revising their attendance estimates rapidly upward this week as each incoming mail brought information of additional delegations planning the trip to the North Texas city.

"Present indications point conclusively to the fact that this meeting called for the purpose of mapping a far flung attack on the grim hitch-hiker of the highways, will prove to be the largest assembly of safety advocates ever held in the Southwest," George Clark, secretary, said today after checking over the rapidly growing list of cities, towns and communities naming delegations to the conference.

"A comprehensive and definitely defined program with specific objectives appropriately and concisely outlined, highlighted by tried and proven methods, will be placed before the convention," Carl Rutland, chairman, pointed out.

While a majority of the time of the delegates will necessarily be devoted to consideration of the greatest problem confronting this state today, including talks by some of the nation's foremost leaders in traffic safety work, there will be other features on the program as well, including one of the largest safety parades ever held in this state scheduled for high noon. Five hundred motorcycle officers will compose one unit of

the parade. Numerous bands representing every section of the state will take part. Governor George Earle of Pennsylvania has received an invitation from Governor James V. Allred to address the conference as its principal speaker. Several other outstanding safety leaders are also on the program.

Mrs. B. B. Ingham left Tuesday for Fort Worth to bring back her daughter, Betty Jane, who has been attending school there the past year. Miss Betty Dudley, daughter of Mr. and Mrs. Roger Dudley, accompanied Mrs. Ingham.

An addition is being made this week to the Moore Coffee Shop next door to the West Texas Lumber Co.

Mr. and Mrs. Collins Coates were here from their ranch near Fort Stockton this week visiting relatives.
