## Absentee Voting For Run-Off To Start Next Week

### State Committee Expected to Certify List This Week

Absentee voting in the run-off primary, scheduled for Saturday, August 27, will be legal starting next Monday and Crockett County voters who contemplate trips that will take them away from the voting place on that date will be able to cast absentee votes starting Monday and up to within three days of the election.

This provided the State Democratic executive committee officially certifies the list of candidates whose names are to appear on the ballot in time for their printing before the time for starting of absentee voting.

Houston Smith, Crockett County Democratic chairman, has not yet received certification of names for the run-off ballot, but this was expected to be on hand in ample time for preparation of the ballots. Approximately fifty Crockett voters cast their ballots in absentee for the first primary.

Seven races remain for a final decision of voters in the run-off primary, six for state office and one for district office. The nomination of W. Lee O'Daniel for governor removed much of the color in the run-off campaign, but voters over the state will no doubt find enough interest in the other races to draw out a normal vote in the run-off despite the absence of a final contest for the governor's chair.

Coke Stevenson of Junction will run off with Pierce Brooks of Dallas for lieutenant governor. The race for attorney general will probably attract most attention, with Walter Woodul of Houston pitted against Gerald C. Mann of Dallas for the office. The race for railroad commissioner between C. V. Terrell and G. A. Sadler, and for Commissioner of the General Land Office between Bascomb Giles and William H. McDonald are other outstanding contests in the run-off.

Of considerable local interest is the run-off contest between Claude H. Gilmer of Rocksprings and Marvin E. Blackburn, Jr., of Junction for the post of representative from the 86th district to the state legislature.

Other races on the state ticket include that between W. H. Davidson of Jefferson County and Richard Critz of Williamson County for associate justice of the Supreme Court, and between Harry N. Graves of Williamson County and James A. Stephens of Knox County for judge of the court of criminal appeals.

## G. A. Girls Meet For Missionary Programs Monday

Mrs. J. S. Whately, counsellor, was hostess to members of the Girls Auxiliary of the Baptist Church at a regular meeting Monday afternoon at the Whately home. A missionary program on the topic "The Silver River and Its People" was presented by Mrs. Whately, Rozelle Pharr, Aleane Cooke, Berty Sue Brownrigg, Lila Lee Cooke, and Mildred Porter.

Others present were Betty Jean Lewis, Jo Nell Oden of Corpus Christi, and Texas Lucille Cooke of Fort Stockton.

Mr. and Mrs. Hugh Gray and daughter, Elizabeth, have returned from a vacation trip into New Mexico. Abundant rains in New Mexico have made that country as green as the proverbial wheat field, Mr. Gray said, and the weather was pleasant.

Mr. and Mrs. George Bean and children, Mary Frances, Doris, Louise and Joe, returned last week from a seven week's tour of the southern states and up the Atlantic seaboard to New York. They returned by boat to Galveston.

## Defends Seat

Sen. Alben W. Barclay of Kentucky, senator majority leader, who will fight for Democratic renomination Saturday, August 6, against Gov. A. B. "Happy" Chandler. Barclay has the blessing of President Roosevelt.

## Piggly Wiggly To Celebrate First Anniversary Here

### 2-Day Party And Bargain Event Announced For Fri.-Sat.

Plans for an elaborate birthday party Friday and Saturday of this week have been perfected by Hubert Baker and his staff of clerks at the local Piggly Wiggly store.

The event will mark the first anniversary of establishment of the Piggly Wiggly grocery in Ozona, and a blanket invitation has been extended the entire community to join with Mr. Baker and his employees in celebrating one year of business in Ozona.

The two-day event will be marked by an open-house at the store for both days. Refreshments consisting of sandwiches, coffee, tea and cakes will be served to all visitors during both days. Mr. Baker has announced. Other special events are being arranged and the management is hopeful that hundreds will call during the two-day party if for nothing more than to partake of the refreshments.

Mr. Baker held his formal opening Friday and Saturday, August 6 and 7, last year. He had purchased the business the week before from Richard Flowers, changing it over to the Piggly Wiggly system. The store remained closed through the week while new fixtures and new stock were being arranged. The store has enjoyed a splendid business in its first year here, and Mr. and Mrs. Baker have made many friends here who will wish them "many happy returns" on the occasion of their first business birthday this week.

Mr. Baker was a salesman for the Martin-Glover wholesale grocery of San Angelo for sixteen years before going into business for himself in Ozona.

## Ozona Man Weds Barnhart Girl In Ceremony Sunday

Miss Marcelle Chandler of Barnhart became the bride of Earl Langford of Ozona Sunday afternoon in San Angelo. The ceremony was performed by the Rev. Allen G. Roe, pastor of the Trinity Methodist Church of that city. Mr. and Mrs. H. T. Brooks of San Angelo were the only attendants.

The bride is a 1938 graduate of Barnhart High School, where she was voted the best all-around girl. The young couple will make their home in Ozona. Mr. Langford is a son of Sam Langford, local plaster contractor and is associated with his father in the business.

Ross Hufstetler of Ozona will direct song services during a revival meeting at the Church of Christ starting Friday of this week.

## Cutting Of Weeds Urged as Means of Mosquito Control

### County Making Effort To Get Oil To Coat Water Holes

Last week's torrential rains which flooded draws and filled all water holes in the area left a sense of satisfaction in the minds of the people, with water-soaked ranges and assured feed for livestock through the balance of the year, but it left one disagreeable aftermath—a horde of mosquitoes to plague residents of Ozona.

Water holes in the two draws traversing Ozona were left standing after the floods had subsided and within two days billions of hungry mosquitoes were on the buzz, putting Ozonans within doors with the first hint of twilight in the evenings.

Crockett County officials are in something of a dilemma with their source of oil supply temporarily cut off and citizens clamoring for something to be done to curb the mosquito horde. Efforts were being made this week to get a supply of oil sufficient to coat all water holes in the city, it was reported.

Abundant rains this year have made it necessary to oil standing holes three times since Spring, officials said, with a total of 500 gallons of oil being used each time. The waters had just been oiled shortly before the recent heavy rains.

Dr. H. B. Tandy, county health officer, this week urged residents to cut weeds on their property as a means of alleviating the mosquito nuisance.

"Destroying the means by which mosquitoes are able to secure protection during the heat of the day is nearly as important as destroying their breeding places," Dr. Tandy said. "Mosquitoes breed only in still water, but they do congregate in thick growth of weeds and underbrush and thus are protected from heat and wind. Cutting of all weeds, especially the rank growth apparent in some sections of the city, would go far toward relieving the present mosquito scourge."

## Mrs. Alvin Harrell Hostess To Meeting Missionary Society

Mrs. Alvin Harrell was hostess to members of the Methodist Woman's Missionary Society at an all-day program and business session at the Harrell ranch last Friday. The meeting had been postponed from Wednesday on account of bad weather.

Mrs. Scott Peters led the devotional program opening the session. At a business session in the afternoon discussion centered around plans for the inauguration of a settlement house project among the Mexican population of the town starting next month. Plans were also announced for a silver tea to be given early in September. The society also discussed plans for some refinishing work to be done on the parsonage.

Present for the session were Mesdames Bascomb Cox, Scott Peters, Bright Baggett, W. E. Smith, W. R. Baggett, B. B. Ingham, John Bailey, Mary Flowers, Floyd Henderson, Minnie Crumley, Charles Williams, George Harrell and Alvin Harrell.

The next meeting of the society will be at the ranch home of Mrs. Bascomb Cox. The meeting will be next Wednesday, August 10.

## DAUGHTER TO SLATERS

Rev. and Mrs. Eugene Slater are the parents of a daughter born last Friday in a San Angelo hospital. Rev. Slater is pastor of the Ozona Methodist Church.

Mrs. Ben Lemmons returned early this week from a buying trip to Dallas.

## Hoover at 64

Former President Herbert Hoover smiles for the cameraman as he rounds out his sixty-fourth year. The veteran Republican leader, who will celebrate his birthday anniversary Wednesday, August 10, was born in 1874 at West Branch, Iowa.

## First 7 Months Of 1938 Brings Record Rainfall

### 20.25 Inches Total Fall Recorded Here Since January First

Something of a record has been piled up by the rain gods in these parts for the first seven months of this year.

Since January 1, this year a total of 20.25 inches of rain have been recorded on the rain gauge at the Joe Oberkamp store in Ozona. The fall has been greater in some parts and less in other parts of the county, but the record will approximate the average fall over most of the county for the period.

The total for the first seven months of this year exceeds by slightly less than one inch the total for the entire year of 1937 and by more than four inches the total for 1936.

The mid-summer month of July holds the year's record to date with a total registered fall of 7.54 inches, most of which fell within less than a week to bring soaking moisture to range lands of this section while the San Saba, Brady and other areas were experiencing the most disastrous floods in history.

January was the next wettest month of the seven, with a total fall of 4.97 inches. May and June contributed nearly 2½ inches each. Some rainfall has fallen each month so far this year.

## LISTEN FOR THE WHISTLE—

The following opening paragraph in a short item appearing in this morning's San Angelo Times caused a ripple of excitement in Ozona, and ears were held cocked and ready for the train whistle. The paragraph read, "Mixed train service to Ozona will be resumed this morning by the Santa Fe Railway Co. after an 11-day interruption caused by flood damage to rail tracks and bridges south of here." The headline said "Sonora."

## Coaches, Players To Tech Coaching School

Coaches Ted White and Jake McCulley of the Ozona High School, and Beecher Montgomery and Howard Lemmons, two of the Ozona Lion veterans to be back in uniform at the opening of the 1938 football season this fall, are attending the football coaching school being held at Texas Tech in Lubbock this week.

Mr. and Mrs. James Baggett were San Angelo visitors early this week.

## Odessa Boy Scout Suffers Broken Leg; Given Treatment Here

John Mitchell, 13, Odessa Boy Scout, was given emergency treatment at a local physician's office late Tuesday afternoon when he was brought here suffering from a broken leg.

The boy, member of a party of Scouts from Odessa on their way to Camp Fawcett, near Barksdale, was injured a few miles west of Ozona when he fell under the wheels of a truck while the Scouts were attempting to push the stalled vehicle up a hill. He was sent back to Odessa while other members of the party, under the supervision of Scoutmaster N. H. Snelsey of Odessa, continued to the camp.

## Windows Again Open After Cremation Of Cow Victim Of Flood

Somebody in Crockett County is short one red and white cow, and all the information anybody can give the owner about her whereabouts is that she "went up in smoke."

And residents of the south side of Ozona, however much they might regret the loss to the owner, are glad that she finally went "up in smoke."

The cow was apparently a victim of recent flood waters in Gurley draw, the only casualty so far reported in the immediate area. A particularly pungent odor from the vicinity of the draw channel resulted in a search and discovery of the remains of the bovine Monday night and Sheriff W. S. Willis officiated at cremation ceremonies immediately. And residents of the south side opened their windows again to the cooling night breezes.

## Directors Of Loan Association Adopt New Set Of By-Laws

Officers and directors of the Ozona National Farm Loan Association in a called meeting Friday afternoon in the office of N. W. Graham, secretary-treasurer of the organization, adopted new by-laws suggested by the Federal Land Bank of Houston and submitted to the local body by Mr. Carruthers, field representative of the bank.

The Association directors also adopted a resolution accepting a grant of a reserve fund to be set aside by the Federal Reserve Bank for the benefit of the local association in discharging its obligations to the bank. The grant will amount to 1/8th of one percent of the total loans outstanding through the local association.

Judge Charles E. Davidson is president of the local loan group and N. W. Graham secretary-treasurer. Directors include W. R. and J. M. Baggett, George Harrell and Rob Miller. Evart White is acting secretary.

## Cuba And Mexico Topic Of Study At Baptist Missionary

Members of the Woman's Missionary Union of the Baptist Church met Wednesday at the church for a missionary program devoted to a study of Cuba and Mexico. Mrs. Charles Butler directed the day's program.

Mrs. Lowell Littleton discussed Cuba fifty years ago, Mrs. S. L. Butler told of the work of Southern Baptists in Cuba. A Mrs. Adams told of Mexico of fifty years ago and Mrs. M. R. Smith of the Mexico of tomorrow.

Others present were Mrs. Leslie Nance, Mrs. Hugh Gray, Mrs. R. F. Powell, Mrs. Harvey Collard, Mrs. A. W. Jones, and Mrs. J. S. Whately.

Mr. and Mrs. Ira Carson and children, Crystelle, Eloise, and Bill, are on a vacation trip to California and the northwestern states.

## Buyers Seeking Crockett Lambs On Bull Market

### More Than 20,000 Sold At Prices of 6 To 6¼ Cents

Lamb buyers have invaded the Crockett County country during the past week, bought an estimated 20,000 or more, bid on others and altogether found a decidedly bullish market on lambs in these parts.

The bulk of recent sales have gone at 6 cents a pound, with two sales reported at 6¼ cents. Most of the deliveries will be early in September. Abundant rains of the past few weeks have proved a decided stimulant to sheep and lamb prices and growers are confident of at least steady if not a rising price.

Jack and Fred Hagelstein upped the prevailing market to the 6¼ cent figure when they sold their mutton lambs to a Mr. Sloan of San Saba at that figure. Other recent sales include lambs from ranges of Joe T. Davidson, Mrs. C. E. Davidson, Charles E. Davidson, Jr., Monore Baggett, Paul Perner, Ele Hagelstein, J. W. Owens, Chandler Brothers, and others.

Sale of more than 3,000 head of yearling ewes by T. A. Kincaid of Ozona from his ranch in the Rankin country was also reported. P. L. Childress recently paid the year's new top price for 800 head of ewes from Mr. Kincaid at \$5.50. Mr. Kincaid recently sold 600 head to Lee and Cury of Iraan and about 2,000 head to W. E. Friend, Jr., of Ozona.

## Rains Bring New Bitterweed Growth To Barren Areas

Recent heavy rains have started growth of bitterweed on areas that have been practically barren of the noxious plant in recent weeks, reports W. J. Compton of Texon, oil supervisor and land agent for University of Texas lands. If the month of August remains dry, most of the bitterweed will disappear, Mr. Compton thinks.

Mr. Compton supervised establishment of the experiment station half way between Ozona and Barnhart which will direct its attention primarily to a study of bitterweed. The station is operated jointly by the University and A. & M. College.

Mr. and Mrs. Max Schneemann were in San Angelo the first of the week.

## Town Residents, Ranchers Asked Pull Cockleburr

### Rains Bring New Crop Burrs; Crew Cleaning Out Draws Here

An appeal to residents of Ozona to search their premises for cockle burr plants and to pull them up at once was issued this week by a group of ranchmen living south of Ozona in the course of the draw which runs through the town, headed by Jones Miller.

Mr. Miller has employed a crew or workers to work the course of both draws through the town to destroy all cockleburrs that have sprung up since the recent heavy rains. The burrs, washed down by the flood waters in the draws, quickly take root and mature the burrs rapidly. A few of the plants left to mature would be ample to seed banks and bed of the draw for miles along its course, it was pointed out. The dry burrs, becoming entangled in wool on sheep's backs, result in considerable loss to ranchers in reduced prices for the infested wool.

THURSDAY, AUGUST 4, 1938

THAT THIRD TERM

When Gov. Frank Murphy of Michigan a few days ago urged voters "to keep an open mind toward the third term question," he asked something that is rather difficult for many Americans. The advantages of an open mind are well accepted, but so are the merits of a precedent established by the first President and observed by ever Chief Executive since...

John Hamilton, Chairman of the Republican National Committee, charged Harry Hopkins was launching a third term movement when the relief administrator ventured that 90 per cent of the WPA employees were for Roosevelt. Some have read a similar implication into the radio comment of Harold L. Ickes, Secretary of Interior, that reactionaries will get a test of Mr. Roosevelt's popularity if they maneuver "a situation that will result in the people being given an opportunity to vote directly on the proposition of whether or not they are for President Roosevelt and his policies."

This is rather like Governor Murphy's argument that "it might be necessary for Roosevelt to run again to preserve the New Deal." Recalling some of those who have put a foot on this band wagon since Governor Sarle of Pennsylvania made a running leap for it more than a year ago, one is almost inclined to ask some of them Priscilla Mullens' question, "Why don't you speak for yourself, John?"

Probably some have thought this was the most diplomatic way of putting themselves in line for White House favor. Senator Claude Pepper of Florida is more astute in his assertion that "in 1940 the people will support what Roosevelt stands for, and whom he stands for." It would be extremely difficult for some older Senators in the Democratic or liberal ranks to explain a favorable attitude toward a third term for Mr. Roosevelt in view of their votes for a resolution in 1928 which said retirement after a second term had become "a part of our republican system of government," and that any departure from it would be "unwise, unpatriotic and fraught with peril to our free institutions."

Among the supporters of this resolution—aimed at President Coolidge—were Senators Alben W. Barkley, now majority floor leader; Key Pittman, Robert F. Wagner, Kenneth McKellar, Elmer Thomas, Robert La Follette and George W. Norris. Possibly the explanation would fall to another member of the group, Henry F. Ashurst, who so genially defended the virtues of inconsistency in the court packing campaign.

On fundamental considerations, however, it does seem that the American electorate would be wise in insisting—as they very likely would—upon observance of the anti-third term tradition. One of the most complimentary views it has been possible to take of the New Deal has been to assume that it does represent a new temper in a vast section of the American people, a temper capable of perpetuating itself and establishing its reforms. Such a movement, if it is long to survive, must be capable of generating new leaders. Is the New Deal then a continuing philosophy or a personal rule? For many years when the Democratic Party was out of power it complained that people would not believe it had men capable of filling the highest office. Does it wish to admit now that it

World Events Through the Camera's Lens

NOT EQUAL AND UNIFORM

Six counties of Texas assess property at full market value and a number of others place assessed value above 80 per cent. On the other hand, one county assessed at only 25 per cent and many others were under 35 per cent. Insofar as these assessments were for levying local taxes, of course, no inequality as among counties is shown. But these assessments are for State as well as local purposes which means that some counties in Texas paid four times as much ad valorem tax in proportion to actual amount of property as did some other counties.

If the Legislature should at its next session pass a law fixing the total State tax rate for the general revenue, available school and pension funds as high as 77 cents in some counties and as low as 19 cents in others, there would be a State-wide riot of protest and the law would be declared unconstitutional. That would be right; the State Constitution declares that taxes must be "equal and uniform." What is amazing about the whole situation is that people will stand for an injustice that is not a whit different in its ultimate effect on their pocketbooks from the hypothetical statute mentioned above.

The way out of the difficulty lies through either a State equalization board or separation of sources of tax revenue for State and local purposes. The report of State Auditor Tom C. King, which contained the figures given above, indicates that there are urgent reasons for a definite reform movement toward one of these ends. —Dallas News.

RELIEF BUMS

A news item tells of a Negro taxi driver who was unable to work for a time because of illness. He obtained \$50 from a government relief agency—to tide him

over. Now he is back at work, and is trying to return the money. When it was pointed out to him that he was not legally obligated to do this, he observed that "that was the way I was raised—and that's the way I'm raising my child."

A great many Americans can learn a lesson from this Negro taxi driver. One of the most ominous portents on the horizon is the fact that thousands of people have apparently come to look on relief as a "profession." They plan to make it their "life work." Productive jobs in private industry hold no attraction for them, when they can take it easy at the taxpayers' expense. They figure some one owes them a living.

This isn't a criticism of those people who have turned to relief only as a last resort, and are eager to get off the rolls as soon as opportunity for a real job comes along. Nor is it a criticism of relief per se. The hungry must be fed, the homeless sheltered, the clothesless clothed. Honest beneficiaries of relief aggressively seek real employment. Professional "relief bums" are a new menace to democratic government.

The Negro's statement was news because his attitude was so unusual today. It should be printed on every relief check and public grant.

THE SOURCE

In a single year—that which ended a short time ago—the taxpayers of the United States paid into the Federal Treasury a total of \$5,658,385,125, the greatest sum we are told, ever collected by the Government in time of peace or in time of war. It is, perhaps, the greatest sum ever levied upon any people in a twelve month period. This is not money which came out of the air. It is money which came straight from the earnings of men and women who enjoy the rare and glorious privilege of being American citizens. It is money which came from the pocketbooks of rich and poor alike—the mil-

lionaire and the charwoman, the man with a salary of \$1,000 a day and the other with a wage of \$10 a week.—Baltimore Sun.

How Does Your ADVERTISING INVESTMENT Compare With the Average?

The following percentage of gross sales are usual and correct for advertising expenditures for successful retail stores, according to figures compiled by the Harvard Bureau of Business Research and Northwestern University Bureau of Business Research.

Table with 2 columns: Department Stores (1.09 to 3.1), Grocery Stores (1.0), Haberdashers (3.3), Women's Wear Shops (3.1), Furniture (6.3), General Merchandise (1.5), Drug Stores (2.9), Electric Shops (2.7), Hardware (1.0), Cleaning and Dyeing (3.3), Jewelry (3.1), Meat Markets (1.0), Restaurants (3.1), Specialty Shops (3.8), Millinery (2.2), Other Businesses (2.0)

According to Bradstreet's report, 95 per cent of all business failures are non-advertisers.

While every line of business is not represented here you will be able to determine the amount that you should invest in advertising your business.

### Behind The Scenes In American Business

By John Craddock

New York, Aug. 3—BUSINESS The great unpredictability of business is being demonstrated once again. Customarily July and August are slow months. Plants in some industries, notably auto manufacturing, shut down for retooling. Factory schedules in other lines are curtailed as workers go on vacation. Not so this year. After an increase in industrial activity the first three weeks of July are noted by the Federal Reserve Board. America's plate glass industry in June, the Board said, nearly doubled its production over May. Iron ore output registered a similar gain. Production of textile mills and anthracite coal mines jumped about 12 per cent. Railroads had the best earnings for any month this year.

WASHINGTON—U. S. business men are applauding a decision of the Federal Export-Import Bank to aid American exporters to gain a larger share of the Latin American market which England, Germany, Italy and Japan have so actively cultivated. One pending deal is the sale of 1,000 railroad cars and 26 locomotives to Brazil with the bank handling the credit arrangements. More trade with Latin America is expected to benefit southern port cities such as Savannah, Miami, Mobile, New Orleans and Galveston. Miami, strategically located as the natural aerial gateway between the Americas, has prospects of becoming a major commercial city. Already it leads all American cities in air express shipments. A few weeks ago a federal loan grant of \$4,000,000 received by Miami enabled work to begin on enlargement of its harbor facilities in anticipation of long term growth of Pan American trade.

GRAIN NEWS—The sun never sets on the English flag so widely scattered is the British realm. And it is probably equally true that there is no season of the year when somewhere in the world men aren't busy harvesting wheat. To the far flung nature of this farming enterprise can be partly blamed a drop of about five cents in wheat prices the last two weeks. Traders, viewing reports from many countries, place the 1938 world crop at about one billion bushels in excess of normal world consumption. The U. S. alone may have an export surplus of 375,000,000 bushels. The winter wheat in North America is nearing completion and much progress has been made in Europe. The southern hemisphere will not harvest this year's crop until late fall, and harvesting will continue in Argentina all winter.

THINGS TO WATCH FOR — Combination comb and brush, so that the hair can be combed and brushed in one motion. Rubber flower pot; when the earth cakes around the plant, it can be broken up by merely squeezing the pot. Paper bag within the cloth bag of a vacuum cleaner; dirt collects directly in the paper bag, which is removed bodily and discarded without exposing contents. Photographic paper that can be developed into a picture merely by exposing it to steam.

#### MAKES GEESE PAY

Fay Jacques of Manchester, Maine, though only twelve years old is said to have the largest flock of geese in New England. She started six years ago with a small flock given her by her father, E. C. Jacques, and now hires a man to help her care for the 500 goslings she raises in a season. Her ambition is to educate herself, then buy a farm and go into business. She expects the money she makes from raising geese to pay the cost.

## King George Rides Through the Streets of Paris

King George and Queen Elizabeth on their first visit abroad since they ascended the throne, ride through the streets of Paris, which was elaborately decorated in honor of their state visit. In the background are the massed flags of the two nations on the pylons in the Place de L'Etoile. Social functions, diplomatic conferences and a review of France's armed might for the king at Versailles helped bind the alliance of the two nations.

tie after delivering an exact ounce of liquid; it fits any bottle and pours 16 measured drinks a minute. A fireplace that heats without smoking, gives a cheery glow for as long as 12 hours and can be used to heat several rooms at

once; coal is held in a basket grate and is ignited by a special kindler. Transparent cigarette paper, made of tobacco cellulose, stronger than ordinary paper and making less ash.

MARCH OF PROGRESS—De-

spite depression, high taxes and similar phenomena that give business men grey hair, scientists continue to turn out new products in America's 1,600 industrial research laboratories. It is reported that the B. F. Goodrich Co. has

developed a new synthetic rubber-like material, kerosol, which can be used for wall coverings, umbrellas and raincoats, and in many industrial applications. Since American climate is not adapted to growing real rubber, which therefore must be imported from far-away Africa, the East Indies and South America, the search for a good synthetic rubber has been a "must" for years. A battery-less telephone designed for use in lumber camps, coal mines and aboard ships has been announced by Western Electric Co. Conversations can be conducted for distances up to 200 miles, and the only outside source of power is vibration of the speaker's voice which generates the energy necessary to transmit the sound. Eastman Kodak Co. has added a chapter to progress in the photographic world with a new 2 1/4 x 3 3/4 inch amateur camera which automatically adjusts itself to light conditions.

AUGUST SALES — Stores from Maine to California will launch August sales this week. With temperatures near the 90's, women shoppers are taking advantage of low summer prices to buy winter furs. Clothing, furniture and housewares are also being offered at clearance prices. To the housewife, buying in the slack season means saving money. To the merchant, it means clearing his shelves and getting ready for the perennial autumn pick-up. Country-wide reports from retailers indicate that a good volume of business is going to be done this month.

HEADLINES IN NEW YORK—Paint sales hold at good levels; July running ahead of June. Inventories of tire manufacturers reduced sharply. First half motor company earnings: Chrysler \$1.31 a share against \$6.31 in 1937 period, General Motors 66 cents a share against \$2.47 a share in 1937 period. Auto makers, facing car shortage, speed 1939 model preparations. Record crop lambs (32,221,000 head) predicted this year. U. S. Exports exceed imports by \$631,074,000 in first half, largest margin since 1921.

Rev. R. A. Taylor, former pastor of Ozona Methodist Church, now professor of Bible at the University of San Antonio, visited briefly in Ozona Monday afternoon.

# HOME BUILDERS' PAGE

## Gutters, Downspouts Important to House

Thousands of gallons of water fall on the roof of your house each year. If this water is not conducted away from the building by gutters and downspouts, it may damage the masonry or woodwork and seep into the interior, necessitating expensive repairs. Gutters and downspouts, if properly installed, give protection as well to flower beds and lawns and help maintain a dry basement by directing roof water away from the foundations.

Work of this kind may now be financed by funds obtained from private financial institutions operating under the Property Improvement Credit Plan of the Federal Housing Administration.

### LIGHT WEIGHT TYPE CONCRETE FOR HOMES

Residence building operations have been invaded by a number of new materials over the course of the past two decades. One material that has achieved no little prominence in an even less time is concrete.

On the market today are several brands of what the trade calls "lightweight concrete." It is expressly prepared to reduce the weight of concrete and can be produced to weigh as little as 50 pounds per cubic foot.

A feature that is stressed in lightweight concrete is its resist-

ance to the passage of sound. It has also high insulating properties and, as is generally known, is one of the most efficient fireproofing materials used in construction.

### FITTING SCREENS

Window screens should be fitted before they are painted. If this is not done often when the paint planes away through raising and lowering there will be sufficient space between the bottom of the screen and the sill to allow moisture to enter.

Stradivarius made 200 violins and all have been located but one.

### APPLIANCE LOAD TAXES WIRING IN MANY HOMES

Most homes more than ten years old were wired for lighting purposes only. Today they are forced to carry an appliance load that is too much for efficiency. This extra load in the usual home is equivalent to an increase of approximately two-thirds the original load.

Overloaded wires leak, lack power, and run up costs. The lights dim, appliances do not function properly, and each task takes longer than it should.

Not only should the wires carry a load adequate for present needs, but they should be able to take care of reasonable expansion. The need for this is readily understood when a home owner reflects on present day household uses of electricity and compares them with those of 15 years ago. Not only are more appliances being used, but modern homes are planned for more light.

### USE OF GLASS BLOCKS MAKES ROOM BRIGHTER

A room, particularly a living room or study, may be made more cheerful and the lighting improved by the use of glass blocks around windows.

Three rows of blocks above the window and additional blocks at either end will allow plenty of light to penetrate.

### BAD BACKFILL OFTEN CAUSE OF WET CELLAR

Damp basements, a frequently encountered flaw in construction, are often due to improper back filling.

When a foundation is dug and later refilled, rubbish is sometimes used in the fill. Water running down the walls of the house collects in pools and seeps thru pores or cracks in the walls and into the basement. The remedy is to refill the trench with clean care fully packed dirt.

In extreme cases it will be necessary to install a tile drain at the bottom of the trench to carry off the water.

### LAUNDRY TUBS SERVE SEVERAL CAPACITIES

Stationary wash tubs can be made to work every day in the week by the installation of several handy adjuncts.

The wash tub can be enclosed on sides and at the bottom in a cabinet which will afford a storage space for little used kitchen appliances that the husband will bring home from time to time. A plain wooden top, which can be used for cutting, chopping, and preparing vegetables and meats, is also a worth-while addition.

Mrs. Elton Silliman of El Paso is the guest of her sister, Mrs. John R. Bailey, and Mr. Bailey, here this week.

### UNFINISHED CELLAR CEILING HAZARDOUS

Basements in many existing houses do not have covered ceilings. When such a condition exists the home owner can increase the safety of his house by finishing

the ceiling with a fire-resisting material such as plaster board. When the basement is used for recreational purposes as well as utilitarian purposes this improvement will be doubly appropriate.

### Worth Livestock Shipments Decline Slightly For June

Austin, Aug. 3.—Shipments of livestock to Fort Worth stockyards and interstate points for the month totaled 7,473 cars, compared with 8,184 cars during the like month last year, a decline of 9 per cent, according to the University of Texas Bureau of Business Research. Cattle shipments, 44,609 cars, declined 20 per cent; calves, 11 cars, increased 17 per cent; pigs, 490 cars, increased 19 per cent; and sheep, 1,563 cars, increased 28 per cent. During the first six months of the year shipments aggregated 40,645 cars, a decline of 13 per cent from the corresponding period last year.

### Slight Recession In June Texas Business Is Noted By Survey

Austin, Aug. 3.—A slight recession was seen in industry and trade in Texas during June in comparison with the preceding month and with June, 1937, Dr. F. A. Buechel, assistant director of the University of Texas Bureau of Business Research, said in his latest survey of Texas business. The Texas composite business index for June was 92.3 compared with 93.0 for May and 98.9 for June last year, he said.

"There are growing indications that the Texas business drive curve will soon reverse the downward trend which has prevailed since last September," Dr. Buechel said. "It is expected, however, that the upward trend of the composite index will be gradual, not sharp; but some of the factors in the combined index, such as retail sales, runs of crude oil to stills and electric power consumption, may register rapid improvement. Employment, pay rolls and miscellaneous freight car loadings are expected to increase more gradually. Since these latter items are given the greater weight in computing the index, the composite index is expected to show only a moderate gain during the next several months."

#### BARBECUE SUPPER, DANCE FOR VISITORS

Mr. and Mrs. J. M. Baggett and Mr. and Mrs. James Baggett entertained with a barbecue supper and dance at the Baggett ranch Wednesday night complimenting Miss Gloria Hammonds of Floydada, who has been the guest this week of Misses Lillian and Posey Baggett. Dancing furnished diversion for the thirty-four guests after the supper.

Mr. and Mrs. Boyd Clayton were San Angelo visitors this week.

### Off on South Polar Journey

Here are Mr. and Mrs. Lincoln Ellsworth, in command of an Antarctic exploration which will leave New York Wednesday, August 10 on the schooner Wyatt Earp to airmap parts of 750,000 miles of the Enderby Quadrangle. The Ellsworth will not accompany the boat, having sailed earlier for England. They will join the expedition about October 10 at Cape Town.

### Start Moving \$1,290,000,000 in Silver

In one of the biggest trucking jobs ever undertaken, \$1,290,000,000 worth of bar silver is being moved from Manhattan to the government's new storage vault at West Point. One truck will move out of Manhattan each day, five days a week, for about ten months before all of the silver is moved to the big reinforced vault. A company of 55 coast guardsmen are assigned to serve as a protective convoy on the 50-mile trips. Photograph shows one of the trucks being loaded with 350 bars of silver.

### Indian Lodge Hotel In Davis Mts. Park Opened August 1st

Fort Davis, Aug. 3.—Indian Lodge hotel in the Davis Mountains State park opened Monday, August 1, by W. S. Presley, who arrived in Fort Davis Monday of last week in company with W. L. Lawson, secretary of the state park board. With them was Jack Sheened, who will be in charge of the dining room.

Many improvements and finishing touches have given the adobe structure, including an abundant supply of hot water. Mr. Lawson remarked that the lack of plentiful hot water had been a drawback to the hostelry heretofore. The place has been painted inside and out, and more furniture has been added.

### FARM CASH INCOME FOR JUNE UP TWO MILLIONS

Austin, Aug. 3.—Farm cash income in Texas during June, as computed by the Bureau of Business Research, excluding government subsidies, was \$28,862,000, compared with \$26,060,000 during June last year, according to Dr. F. A. Buechel, assistant director of the Bureau of Business Research University of Texas. During the first six months of the year aggregate income for the state as a whole was \$12,328,000, compared with \$146,564,000 during the corresponding period last year, a decline of 12 per cent.

"The computed figures are estimated to be about 91 per cent of the actual farm cash income, so that by adding 10 per cent to the foregoing, a close approximation to the actual farm cash income is obtained," he said.

### Texas Highways Becoming Safer, Survey Reveals

#### 130 Lives Saved First Half 1938 Compared To That Of 1937

Austin, July 27—Texas streets and highways are definitely safer for the motoring public as shown by a steady decline in fatal traffic collisions, state police reported today.

Final tabulations of casualties in June revealed that 115 persons were killed in 1,026 accidents, a saving of 44 lives if compared with the same period last year. There was a sharp drop in the number of crashes recorded in June compared with 1,417 reported in that month last year, when Texas' final death toll reached the unprecedented high mark of 2,043 fatalities.

A selective enforcement program—the placing of state patrolmen at strategic points where surveys show the largest number of fatal collisions taking place—which was put into effect recently is the reason for the diminishing death rate, safety officials believe. With 300 mounted officers patrolling death stretches of high ways there are authoritative predictions that Texas will rank as a safe state of the nation by the end of the year.

Encouraging to the recorders was the continued decrease in the number of pedestrians who met death under the wheels of vehicles in most instances when pedestrians crossed streets at places other than intersections. The pedestrian death toll has steadily declined from 40 in January to 21 in June.

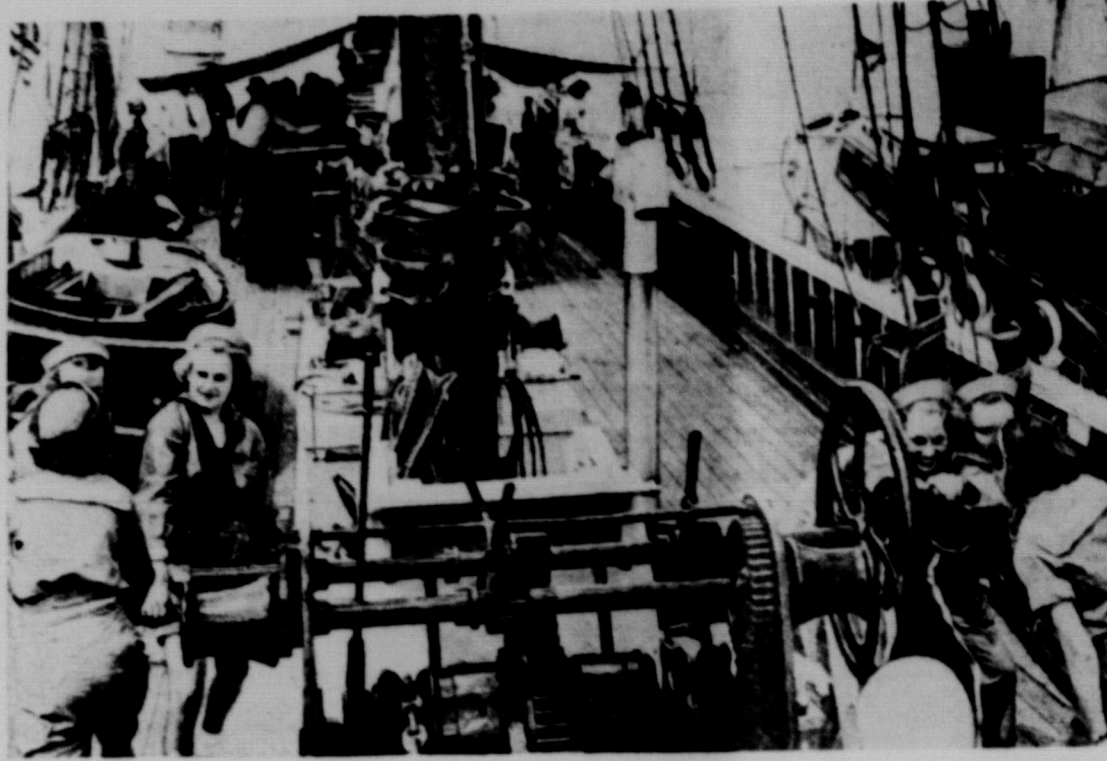

The fatal smash-ups involving bicycle riders brought a sharp warning from Captain Homer Garrison, Jr., assistant state police director, who pointed to the four death crashes of this type last month as examples of carelessness. He urged that riders of cycles carry lights and abide by traffic regulations that guide motorists. In addition to the four deaths there were 27 bicycle riders severely injured in collisions.

An analysis to determine the primary causes of 1,026 of the fatal and more serious crashes in June revealed that 99 involved drivers and pedestrians who had been drinking, 94 drivers ignored laws governing right-of-way, and 78 were driving too near the center of highways or on the wrong side. Speed ranked fourth as the principal contributing cause in 72 of the 1,026 collisions.

Regarding the 1938 traffic situation, Col. H. H. Carmichael, director of the safety department, commented:

"In urging Texans to bring to their state a national record for traffic safety, we would like for

### Girl Sailors Do Everything but Cook

The gaff-rigged schooner Yankee, manned by 14 Girl Scout mariners supervised by four experienced seamen, prepares to sail from New York on the first of eight one-week cruises. Here are six members of the group raising the anchor. The 102-ton schooner will be almost entirely in the hands of the Scouts, all of whom are in their teens, throughout the trip. The girl crew will stand watches, swab decks and assume all the shipboard duties except the preparation of meals.

every driver to take personal inventory of his driving faults, and correct them. None of us are perfect drivers, so there is an urgent need for individual responsibility." Police can prevent many collisions but too often they have to assist in inquests over dead traffic victims—all unnecessarily killed."

### Food Poisoning Often Results from Careless Handling and Storage

Austin, July 27—"Recent outbreaks of food poisoning show very strikingly the need for special care in handling and refrigerating any food that must be prepared some time in advance of serving," states Dr. Geo. W. Cox, State Health Officer.

"Prevention of food poisoning requires clean food handled as little as possible and consumed while it is fresh. Foods prepared hours before serving, and allowed to stand at warm temperatures become good culture media for bacteria. Cooked products of a perishable nature are readily subject to decomposition, and must be kept well refrigerated.

"Most food poisoning is caused by infection by certain types of bacteria which grow rapidly under favorable conditions, such as high temperature and high humidity. The infection may come from dirty hands, utensils, flies, rodents, contaminated water, infected food materials and in some cases in certain types of bacteria, which are rapidly spread and not necessarily associated with filthy conditions.

"Picnic food is particularly susceptible to transmitting food poisoning to the members of the picnic party. Be sure you have sound, fresh, foods clean, free from stagnant odors, slime, etc. Require all who prepare the food for use to wash their hands thoroughly before handling it. Avoid excessive hand contacts with the food. See that clean containers are used and that special care is exercised in wrapping foods and in protecting them from contamination.

"If food must be prepared much in advance of use cook it thoroughly, keep it refrigerated and otherwise protected at a temperature under 50 degrees F. until you are ready to use it. Avoid serving foods that are readily infected, such as certain salads, and cream-filled pastries. Any foods that are not to be served immediately should be from approved sources.

"Digestive upsets cannot always be blamed on the food served or eaten at an outing. Sometimes excessive heat and humidity combined with over exertion and over-heating, as well as over-eating, help to bring them about. Remember this, and don't indulge in too

strenuous exercise when the days are hot and muggy. Don't over-indulge, either, in unwise combinations of foods."

### LEGAL NOTICE H. J. R. No. 20 HOUSE JOINT RESOLUTION

proposing an Amendment to Article XVI, Section 1, of the Constitution of the State of Texas; changing the form of the oath of office for members of the Legislature and all offices of the State of Texas.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article XVI,

Section 1, of the Constitution of the State of Texas be amended to hereafter read as follows:

"Article XVI, Section 1. Official Oath. Members of the Legislature, and all officers, before they enter upon the duties of their offices, shall take the following Oath or Affirmation:

"I, \_\_\_\_\_, do solemnly swear (or affirm), that I will faithfully execute the duties of the office of \_\_\_\_\_ of the State of Texas, and will to the best of my ability preserve, protect, and defend the Constitution and laws of the United States and of this State; and I furthermore solemnly swear (or affirm), that I have not directly nor indirectly paid, offered, or promised to pay, contributed, nor promised to contribute any money, or valuable thing, or promised any public office or employment, as a reward for the giving or withholding a vote at the election at which I was elected. So help me God."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the electors of this State, qualified to vote on Constitutional Amendments, at an election to be held throughout the State on the first Tuesday after the first Monday in November, 1938, at which election each ballot shall have printed thereon the words:

"FOR the Amendment of Article XVI, Section 1, of the Constitution of the State of Texas, changing the form of the oath of office for members of the Legislature and all offices of the State of Texas."

"AGAINST the Amendment of Article XVI, Section 1, of the Constitution of the State of Texas, changing the form of the oath of office for members of the Legislature and all offices of the State of Texas."

Each voter shall scratch out with pen or pencil the clause which he desires to vote against so as to indicate whether he is voting for or against said proposed Amendment.

Sec. 3. The Governor of this

State is hereby directed to issue the necessary proclamation ordering an election in conformity with the proposed Constitutional Amendment set forth herein shall be adopted, and the Governor shall have the same published as required by the Constitution and laws of this State.

Sec. 4. The sum of Five Thousand Dollars (\$5,000), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury not otherwise appropriated, to pay the expense of such publication and election.

The above is a true and correct copy.

EDWARD CLARK  
Secretary of State.

- FREE**—With every Royal Portable a handsome carrying case is included at no extra cost; also Royal's exclusive Instant Typing Chart which shows you at a glance how to type properly.

## ROYAL PORTABLE WITH TOUCH CONTROL

## Simplified Rules For Dove Hunters Apply This Year

### Conflict In Laws Is Ironed Out In 1938 Regulations

Austin, Aug. 3—Dove hunters in Texas will not be subject to a series of conflicting regulations such as confused them last year, the Game Department announced. Compared to those of last year, the 1938 regulations are fairly uniform.

Combined state and federal laws governing both mourning and white-winged doves provide the following open seasons:

From Sept. 1 to Oct. 31 in the counties of Yoakum, Terry, Lynn, Garza, Kent, Stonewall, Haskell, Brockmorton, Young, Jack, Wise, Denton, Collin, and Hunt, and all counties north thereof, and the counties of Parker, Tarrant, Dallas, Rockwall, Kaufman, Johnson, Hopkins, Delta and Franklin.

In the remainder of the state the open season on both species is from Sept. 15 to Nov. 15. Below the Texas-Mexican Railway in the Rio Grande Valley, however, only four days of shooting each week during the open season will be allowed—on Tuesdays, Thursdays, Saturdays, and Sundays—but this exception is not applicable to Webb and Zapata counties.

The hours for shooting mourning and white-winged doves during the open seasons are from 7 a. m. to sunset.

Neither species may be shot with a weapon other than a shotgun, and it shall not be larger than No. 10 gauge. If it is a repeating or automatic shotgun it must be permanently plugged to a three-shell capacity.

The daily bag limit is 15 in the aggregate of both mourning doves and white-wings. The possession limit is 15 in the aggregate of both species.

Baiting of doves of either species is prohibited by federal regulations.

Under new federal migratory waterfowl regulations announced recently Texas duck hunters will have a 45-day open season this year compared to a 30-day open season in 1937; and in addition

## New Rapid-Firing Rifles for U. S. Army

Army privates at Fort Hamilton, N. Y., test the new Garand model, 30-caliber semi-automatic rifles which will replace the Springfield rifles they are now using. The new rifles are capable of firing 60 rounds per minute. The Springfields are capable of firing a maximum of 15 rounds per minute.

may shoot a limited number of species hitherto protected.

The open season on ducks and geese, Wilson's snipe or jacksnipe and coot, is from Nov. 15 to Dec. 29.

The open season on rails and gallinules, except coot, is from Sept. 1 to Nov. 30.

Not only has the open season on ducks and geese been lengthened, but the possession limits have been doubled.

The bag limit on ducks, except the wood duck, is 10 in the aggregate of all kinds, the same as last season, but the possession limit has been increased to 20 in the aggregate.

This season hunters may take three canvasbacks, redheads, buffleheads or ruddy ducks in their daily bag, or an aggregate of three birds of the different species. The possession limit for these ducks is six of any single species, or six in the aggregate.

The daily bag limit on geese and brant is five in the aggregate of all kinds, and the possession limit has been increased to 10 in the aggregate.

The daily bag limit on rails and gallinules, except sora and coot, is continued at 15 in the aggregate of all kinds. The possession limit is the same.

Bag limits for some of the other migratory game birds are: sora, 15; coot, 25; Wilson's snipe or

jacksnipe, 15. In each case the possession limit may not exceed the daily bag limit. A new federal regulation added this year forbids the rallying of coot for hunting.

As was the case last year, water fowl and coot may be hunted in season from 7 a. m. to 4 p. m.

Not more than two days' bag limit of lawfully taken and lawfully possessed ducks and geese may be transported in one calendar week. Transportation last season was limited to one day's bag.

Chief restrictions in this year's federal regulations that have been continued from last year are:

Baiting of waterfowl and doves and the use of live duck and goose decoys in hunting waterfowl are not authorized regardless of the distance between the bait or decoys and the shooter.

Three-shell limit on repeating or automatic shotguns, in effect the last three seasons, is continued. Hunters may shoot waterfowl with shotguns only, not larger than No. 10 gauge.

Ross' geese, wood ducks and swans are still protected.

### Seven Head Cattle From Spain Start Of American Breed

The cow is not a native of North America and the vast herds of today—there are a million cattle in this region of West Texas, alone—came from Spanish importations into Mexico, some historians claiming that six cows and one bull comprised the first shipment to the new world.

Columbus found no cattle when he discovered America in 1492. In stead, Indians were eating buffalo and deer meat. The practice of the Indians was adopted by the colonists and beef as it is known today was not to be found on the menu.

The first Spanish cattle are believed to have been shipped into Mexico in 1525, about six years after Cortez explored that portion of the continent.

The first shipment of cattle did well in Mexico, due to abundant grass, water and favorable climatic conditions and other importations increased rapidly, according to historians.

Enterprising Spanish settlers crossed the Rio Grande in 1580-83, into what is now Texas but then known as the State of Coahuila, Mexico, and with them came

the first cattle to set foot on Texas soil.

History does not give authentic information as to the breed or character of the cattle brought into Texas by the Spaniards, other than that they possessed graceful long horns, had a long neck, long legs, and thin round bodies—long-horns.

Today, the longhorn would be an inferior animal in comparison with the Hereford, but it was this stock that gave the nation its first cattle and started the Southwest towards its attained rank as the world's greatest cattle producing area.

From the importation of the seven Spanish cattle into Old Mexico, as well as their descendants and, likewise, the subsequent importations—from which the Texas longhorn had its origin—the accumulation was of slow growth. No wonder, when one recalls the Indians of that period, not to mention panthers, lions, wolves and other predatory animals that destroyed calves and even the older animals. Traps, dogs and bullets served but little purpose.

Within the two-century period, however, to 1800, the Longhorn had made considerable progress in its transplanted environment and fair-sized herds were to be found along the Rio Grande and Gulf coast, the cattle country of Texas at that time including a strip of some 100 miles wide. Developments since that time is rather well known history.

#### METHODIST CHURCH

Eugene Slater, Minister  
Calendar of Services

Sunday School 9:45 a. m.  
Morning Worship 11:00 a. m.  
Evening Park Service 8:30 p. m.

The Sacrament of the Lord's Supper will be observed at the morning service. Please prepare yourself for this service that you may derive the largest possible good from it.

We are entering the last month of our summer park services. Let's work together to make this month's services the finest of the summer! You and your friends will find a cordial welcome to the park services.

Joe T. Davidson was dismissed from a San Angelo hospital last week after a three-weeks stay for treatment and an operation.

#### SALES HODLING UP

Austin, Aug. 3—Reports to the University of Texas Bureau of Business Research from 108 Texas department stores showed a decline in sales during June of 12.4 per cent from the preceding month and 3 per cent from June, 1937. Normally the decline from May to

June is nearly 15 per cent, it was stated. Aggregate sales during the first six months of 1938 were nearly 1 per cent greater than for the corresponding period last year.

A new Buick sedan was delivered early this week to Mrs. John Mitchell by the Wilson Motor Co., local Buick and Pontiac dealers.

# GIDDY-UP—NEW STYLE

● The gently rolling character of most Texas farm land lends itself admirably to tractor farming, and the number of tractors on Texas farms and ranches is growing by leaps and bounds. The chug-chug of an internal combustion engine is the modern giddy-up on Texas farms.

In keeping with its policy to provide Texans with the petroleum products they need, the Humble Company supplies motor fuels for every type of tractor. Most farmers, however, are buying their new tractors equipped with high compression motors; others are converting old-type tractors by installing high compression heads.

For these tractors, the Humble Company recommends Humble Motor Fuel. It is economical to buy, economical to use. It delivers full performance in everyday hard use. Try it. Judge its merits on the job. We're confident that you'll agree with other users who say—second to none.

### Roosevelt Sham Dams Is Charge In Flood Probe

#### Flood Control Or Power But Not Both Is Expert's Opinion

Abilene, Aug. 3—An interested alleged mishandling of Buchanan Dam, scheduled at Austin this week, is the West Texas Utilities Company whose interest centers around both flood control and the generation of power.

The company, which expressed itself as being "heartily in favor of flood control," long has maintained that the dam could not serve two purposes. "To control flood waters," an officer recently said, "Buchanan Dam must be drained during dry periods in order to catch sudden downpours. Use of the dam for electric power generation requires that it be kept full, or nearly full, at all times. It is self evident that it can not successfully perform both services."

An article in a recent issue of the Dallas News, written by Lynn Landrum, was cited as revealing the status on which the government has sought to operate the \$22,000,000 dam. It reads:

"The whole trouble in the matter of the Colorado Dams, as with the TVA system and many other similar projects, is that they are sham dams. They pretend to be one thing when they are another. That pretense is not born in the Tennessee Valley Authority or in the Lower Colorado River Authority. It is born in the mind and heart of Franklin D. Roosevelt himself. He is trying to put something by."

"Mr. Roosevelt is trying to put something by the Constitution. He is pretending that a high dam, specially designed to produce power, is the best type of dam for flood prevention, for navigation and irrigation. The high dam is best for power. The high dam brimful of water at all times is best for power. But the whole

### Trotters Compete at Goshen

Goshen, N. Y., historic racing village will again be host to the trotters at Grand Circuit races opening in famous Good Time park Monday August 8. The famous Hambletonian, lineal grandfather of the trotting horse strain, ran over the same track around 1850.

point is that Mr. Roosevelt hasn't any right to build a power dam—unless that is incident to something else he has a right to build. Nor has he the right to put the state of Texas into the power business.

"Trickiness is an essential element in the Roosevelt power formula. Any way to get by—that is the idea. That is the rule of the improviser, the extemporiser, the opportunist. But it is a poor rule for statecraft."

"You can rest assured that the men in charge of the dam were named to run a power dam and they know it. They did what they ought to do if a power dam is what Texas wants. A power dam that is empty of water is no good for power—there is no waterfall to run the turbines. So they let the dam fill up. They would have been fired if they hadn't."

"The damage of the lower Colorado is attributed primarily to the flood, of course, and secondarily to the fact that when the flood came, the last flood was already stored up in the dam to join it. Another phase of the more abundant life, mah frands!"

### He'd Be 6 Now

James Bailey Cash, kidnap and murder victim snatched from his parents' home in Princeton, Fla., May 28, would have been six years old last Tuesday, August 2. Meanwhile his confessed abductor, is in jail awaiting the outcome of an appeal to higher courts.

Mr. and Mrs. Boyd Cox of Rankin and Mrs. Mary Perner spent Sunday visiting Mr. and Mrs. W. R. Baggett on the ranch north of Ozona.

Mrs. N. W. Graham, Mrs. Hugh Childress, Jr., and Mrs. Ewart White were San Antonio visitors last week.

N. E. Rendall underwent an operation for appendicitis in the government hospital at Legion, Texas, last Friday.

### SCOUTS TOUR BIG BEND

Fort Stockton—The Chisos mountains in the Big Bend Park is the Mecca for Scouts throughout the State of Texas during August. Three tours have been scheduled. First, the Explorers Troop 7, San Angelo, left July 29. The Senior Scouts from Explorer Troops 6, 40, 50, 51, and 55 together with others throughout the Concho Valley Council will leave August 6.

The Scouts from the northern and southern parts of the council will meet Troop 7 on their return trip at Fort Stockton. The third Scout excursion will be conducted by the East Texas council arriving at the Big Bend Park on August 17.

This tour will be composed of Scouts from Houston, Fort Worth, Abilene, Tyler, and many other cities in East Texas. The purpose of the tours is to acquaint the coming generation with the wonders of the great Southwestern proposed national park. Frank Barney is chairman of the Senior Scout Explorations from the Concho Valley Council, Judge T. L. Beauchamp of the East Texas tour. James A. Montgomery, Jr., was in charge of the first tour. L. Malcolm R. Rogers, field executive, accompanying Frank Swift, assistant Scoutmaster, Troop 2, and J. B. Morris, Scoutmaster Troop 55 at Texon are in charge of the second exploration trip. Officials of Sul Ross College headed by President H. W. Moreland, Professor Victor Smith, and Dr. H. E. Sperry are arranging for the scientific and exploration routes.

Mr. and Mrs. Virgil Oden and children are here from Corpus Christi for a visit with Mrs. Oden's father, R. J. Cooke, and other members of the family.

### SUPPER AND DANCE COMPLIMENTS INGHAMS

Mr. and Mrs. W. R. Baggett and Mr. and Mrs. R. L. Flowers were hosts at a dance and midnight supper Saturday night complimenting Mr. and Mrs. B. B. Ingham, who were married in June.

Guests included Mr. and Mrs. Ingham, Misses Catherine Childress, Billie Gene Linthicum, Maggie Seahorn, Betty Lou Coates, Ora Louise Cox, Carolyn Montgomery, Lillian Baggett, L'Jean McIntire of Sterling City, Christine Ratliff of Oklahoma City, Lurline Townsend, Gloria Hammonds of Floydada, Doris Bunker, Posey Baggett, Lela Mae Phillips, Mary Louise Harvick, Mr. and Mrs. Hugh Childress, Mr. and Mrs. Alvin Harrell, Mr. and Mrs. Bill Littleton, Mrs. Monroe Baggett, Mr. and Mrs. Bright Baggett, Jack and Ele Bright Baggett, Martin Harlick, Buddy Moore, Joe Thomas Davidson, Ray Boyd, Phil Sheridan, Bill Friend, Beecher Montgomery, Joe Friend, Hop Hoover, Howard Lemmons, Max Schneemann, Phillip Schneemann, Richard Miller, Billy Baggett, John Herdner, L. O. Kirby, Charles Williams and Joe Glenn Rape.

### VIRGIL POWELL PLACES SHEEP ON SUTTON RANCH

Delayed several days by high water, Virgil Powell, Sutton county ranchman, Tuesday brought eighteen bucks and four ewes here from San Angelo.

Seventeen of the bucks are Hansen animals from Utah, one is an Owens buck from Ozona which Mr. Powell bought recently for \$300. Three of the four ewes are Hansen sheep and the other one an Owens animal. The price paid for the ewes was \$60 per head.

The stock was put on Mr. Powell's Sutton ranch.—News, Sonora.

### TO BE SEEN

Governor Chandler says that the President "didn't knock him out." In other words, the O.K. for Barkley is no K.O. for Happy.—Dallas News.

Mrs. A. J. Clark of Dallas is visiting Mrs. Alfred A. Cooke for several weeks. Mrs. Cooke, who underwent a minor operation at a local physician's office Monday, is resting well.

# Piggly Wiggly's 1st Anniversary

This week we greet you on our FIRST ANNIVERSARY in the service of Crockett County folk. One year ago this week, we established PIGGLY WIGGLY as successors to Flowers Grocery.

# SALE

It has been the most enjoyable year in our lives. The friendships and associations that have grown up in that short time have been a source of real inspiration to us and we look forward with a great deal of pleasure to serving you many more years.

For the splendid patronage we have enjoyed during our first year in Ozona, we are sincerely grateful. We have set our goal toward a constant expansion of service to you—a bigger and better store, a more varied stock of merchandise, a COMPLETE FOOD MART, and a staff of efficient, courteous clerks. We have made progress in this direction and we believe our friends appreciate our effort. That we might continue to improve our service, we earnestly solicit your cooperation, your criticism and suggestions to the end that we might serve you always to your complete satisfaction.

## We Invite You To Our BIRTHDAY PARTY Friday and Saturday

Every man, woman and child in Ozona is cordially invited to our birthday party Friday and Saturday. REFRESHMENTS will be served both days. Come any time of the day, stay as long as you like—we'll be happy to see you.

And in further celebration of our first birthday, we are also staging, for your benefit, a CARNIVAL OF VALUES for the week-end. Bargains are going to be store-wide. Below you will find a few of the BIRTHDAY SPECIALS we offer for the two days. Here's your opportunity to enjoy the party and save money on your grocery bill. We'd suggest you STOCK UP for the month at these prices.
