Lions Snatch 7-0 Victory From Big Menard Jackets

Locals Show Championship Form in Season's Toughest

In what fans generally agree as one of the best football games from the standpoint of both the winners and the losers, played anywhere in the area this season, Coach L. B. T. Sikes' championship squad Ozona Lions snatched a 7-0 victory over the Menard Yellow Jackets under the lights at Menard Friday night.

The winning touchdown for the locals was made in the last 30 second of play in the first half, so long passes which covered a total distance of approximately 80 yards accounting for the touchdown.

That 80-yard sortie which provided the necessary margin of victory for the Lions, began when the locals received a Menard punt in their own 20. Catching the Jacket defense flat footed, Bernard Lemmons heaved a long one which was sacked up by End Joe Ross Hufstедler for a 40-yard gain. On the next play, Hufstедler was covered by the jittery Menard defense, and Lemmons clipped a bullet pass to Quarterback Read in the flat and he sold out for the goal line which he crossed standing up, no Menard pursuer being able to get within ten yards of his flying heels in that 30-yard dash. End Don Cooke, one of the neatest place kickers Ozona has developed in many moons laid a toe in the leather, even after a 5-yard penalty had set him back from the usual kicking position, and lifted the oval square down the groove for the extra point.

To that point and through the second half to the final minute, the ball game was on more or less even terms, with Menard holding an edge in ground-gaining ability to pile up a total of 14 first downs to 8 for Ozona.

Ozona fans were chilled by a final-second threat by the Jackets who ploughed to the Ozona 3-yard line as the game ended. A fourth-down pass over the goal line was knocked down by the determined Lions as the gun sounded to end the thrilling contest.

Experience of three previous games this season, plus some earnest practice sessions each afternoon, put a different complexion on the team which took the field against the tough and big Menard crew Friday night. Heroic work by the Lion linemen and head-up ball carrying by the backfield proved the pay-off in that fracas, the locals turning in by far the finest performance of the season.

Rocksprings on Saturday Schedule For Ozona Lions

Game Will Not Count In District Standing Of Locals

Although their championship chances will not be jeopardized by reason of the fact that Rocksprings is not competing for the district title, the thrice champion Ozona Lions will use all their power next Saturday afternoon when they invade the Edwards county capital to meet the Bulldogs.

The game has been called for 2:30 Saturday afternoon on the Rocksprings gridiron.

A win or loss will have no effect on the standing of the Lions in District 4-B standing. The Rocksprings High School was admitted to membership in the Interscholastic League and will play under League rules. However, the school employed a coach too late to work out a full season schedule and for that reason is not a competitor this year for the district title.

Mr. and Mrs. James Baggett are adding a room and making other improvements on their home here.

Auto Supplies, Home Appliance Store to Be Opened Here Soon

A new business, offering merchandise which has been for the most part unavailable in Ozona heretofore, will be opened here within the next few days.

Cecil Laxson and his brother-in-law, Ross Dickey, formerly of El Paso, have secured the franchise of the Kenyon Auto Stores and will open an associate store in the Busby building which they recently purchased. The business is located next to the Methodist Center and adjoining the Miller Service Station.

The firm will carry a line of household appliances, automobile parts and accessories, sporting goods and fishing tackle, toys and novelties. A formal opening is planned as soon as all fixtures are installed and stock arranged.

County Agent, Vet Service Officer Named by County

Combined Duties to Be Performed by New Officer Here

A new officer qualified to fill the double post of county agent and service officer has been employed by Crockett county and will begin his duties here by November 1 if living quarters can be obtained.

Jimmy Stewart, a graduate of A & M College and a veteran of World War II, acting county agent for Menard county, has accepted the local dual purpose position and plans to move to Ozona as soon as he can locate living quarters, County Judge Houston S. Smith announced this week.

Mr. Stewart comes highly recommended by the A & M College Extension Service. Judge Smith said, and is described as an able and energetic worker. He will be employed as county agent, with half of his salary paid by the county and the other half by the Federal government.

In addition to his duties as county agent, Mr. Stewart will perform the duties of a county service officer in handling claims, securing employment and otherwise serving the needs of returning service men in this county.

One of the projects in which Mr. Stewart is interested is the forming of local 4-H Clubs to interest boys in livestock raising. He plans to survey the field soon after his arrival, and although it is too late in the present season to begin any organized projects, he plans to have a club by next Spring.

Lumber Firm Plans Expansion Of Plant Here

New and Larger Store Building, Warehouse Are Planned

An expansion program which will more than double the firm's store quarters and greatly enlarge its facilities for storing stocks of lumber and other building materials will be undertaken by the Foxworth-Galbraith Lumber Co. here as soon as materials and labor are available for building, it has been announced by T. C. Harris, local manager for the firm.

The lumber company plans to wreck the present store building and rebuild a much larger and more modern building, thus providing more space for a larger and more varied stock of merchandise. The lumber sheds adjoining the store building on the west will be left as at present for storing lumber stock.

On the south side of the company's yard, however, a new warehouse is to be built from street to street. In this section a new pipe shop will be set up with tools and facilities for all kinds of pipe work. Storage space for excess stock will also be available and space provided for carpenter work.

Company officials have no idea just when the contemplated improvements can be started, Mr. Harris said, but plans are ready and as soon as the necessary materials can be obtained and labor is available, the work will be undertaken.

Dr. and Mrs. H. B. Tandy have as their guests this week Mrs. Tandy's two sisters, Mrs. Jack Sayles and daughter, Frances, and Mrs. Herman Wright of Abilene, and also Miss Margie Hodges, also of Abilene. We need fully as much as last year to help make the soaps and other civilian goods you want and need so badly. So... If you want more soap and soap flakes... if you're dreaming of nylons, sheets, cotton fabrics and want them to hurry back to the store counters... you can help by saving those used kitchen fats as you never saved before! Save every drop, every day! These fats are vitally necessary to help speed greater supplies of soaps and hundreds of other things—like new cars, electric washers, irons, refrigerators and tires. Industry must have these fats... to help get to you more quickly the peacetime products you've been longing to have for years! So skim and scrape and scoop just as you did so faithfully before V-J Day. To prove how important it is, your government has increased the point bonus. So help meet this nation's need by continuing to save used fats. If you can't find a store that accepts used fats, call Home Demonstration or County Agent.

NDAL!!!

Menard makes two winning conference games and the kids are saying it be known!! But definitely...

What was the matter with Carl Thursday night? You might say B. H. and Mr. L. B. T. S. — the springs on a certain black tie seem to be sitting lower on Sunday night. Those football boys weigh a great deal. Bill W. as good a nurse maid as a certain ex? Ask Miss W. K.F. loads her car with boys girls but the boys are in the car. So M. F. has quit dancing. Is that the way you heard it? A. had better stop her "push-in" or K. T. is going to get it. About what? M. H. and A. W. stayed up til hours eating greasy french fries and what else was it you were doing? Why does Mr. Sikes say Ma Curie is such a good Geometry student. C. S. is taking Geometry again the way of D. C. The S. H. is an awful place to hang on rocks, isn't it B. M. D. C.?

By the way, A., telephone bills are high. M. D. couldn't seem to decide whether it would be C. S. or L. A. Sunday night. J. G. and A. H. seem to be enjoying the show Saturday night. S. M. looked lost. Where was the roustabout? Lillian loves to ride in a black

pick-up. Could be the driver. One of our students got married Sunday. Best wishes to you, Billy.

Billie Rose says there are interesting people in Villa Acuna. Now how would she know? E. G. has a new picture to put under her pillow at night. It is of, oh well, you all know who. By way of Lubbock. It seemed good to have Jimmy Read home for the Menard game. Hope to see you again soon.

It's a long way up to the top of the hotel. Isn't it, boys? S. P. likes C. P.'s little red car but so does N. R. Oh, that triangle. Everybody is yelling. "Beat Rocksprings." Or is it "Up with Custer?"

Til it is decided, Beat Rocksprings!!!

AN APPLE PIE
by Chef Joe Perry

It is not difficult to make an apple pie. A delicacy fit for a king can be the product of your own oven. Just think of it. "The chef to the President of the United States today promoted universal good will when he served the delegates to the _____ conference some good old fashioned American home cooking in the form of that delicious apple pie which has made him famous."

Let's make an apple pie to see if we can be that chef. (Having never made any pies before I don't know but what I'm the best cook

in the nation.) First, if we're going to make an apple pie, we slice ten or fifteen apples. Then sift one and three fourths cups of flour together with one teaspoon of salt. Then, work in nine tablespoons of lard. Now — water to make a stiff dough for the crust. Line this in your deep pie dish. Now, "fill 'er up" with apples. Sprinkle on one cup sugar and one fourth teaspoon cinnamon. Lay on strips of the pie crust you made up. Set 'er in the oven and bake forty-five minutes at 375 degrees (F).

Feed a little to the cat and if he doesn't die within thirty-six hours — my name's Joe Perry, and apple pie is my favorite. If he does, feed it to someone who will cause society still to be indebted to you.

DOUBLE TROUBLE
by an Ex

Some people are always looking for trouble. Not me. I don't have to. Trouble is always looking for me; and, which is worse, finding me. He's quite an energetic little man who gets more fun than a kitten with the goldfish out of the misery of other people, especially me.

For instance, if at a game I start making remarks about some boy's playing a game called "grandstand" instead of basketball or that the only way you can tell his head from the basketball is that his head is bigger, look you no further than directly behind me; that is where Trouble put his mother.

No sooner am I peacefully on the road to dreamland than the same little man inflicts me with a burning thirst. No matter how hard I try to convince myself that if a camel can go eight days without a drink I can hold out for eight hours, I find my poor bare feet tripping across the ice-carpeted floor. Then, you know who puts a chair or two in my path for an extra laugh. Luckily, I can still manage to walk though only with an extremely bad limp. Oh, but he

doesn't stop there, oh no, for still more amusement, he hides the door. Groping around the wall I find a door. At last — Aaaaahh, something's got me, — I'm trapped, I can't breathe, it's smothering me. Help, help. — The dress falls to the floor and I manage to get out of the closet and start chasing the wall around and around the room again.

In a mere matter of hours I find the right door, go through the same thing in the next room until I reach the kitchen. Never was water so dearly won. Weakly I sit on the stool and sip my water, gathering strength for my trip back.

Five minutes before the alarm rings, I am once again on my original road, not looking for trouble but finding it.

FOOTBALL FROM THE INSIDE

Two down — three to go! The Menard Yellowjackets bowed down before the massed might of the Ozona Lions last Friday night. The Lions came out on top to the tune of 7-0. When the last whistle blew, however, there was still a ballgame being played — a ballgame not very easily forgotten.

The Lions struck pay dirt late in the second period on two passes which covered the total ground of around eighty yards. Bernard Lemmons was on the pitching end and Joe Ross Hufstelder on the receiving end of pass number one which took us from our own thirty to their thirty. Then, Lemmons tossed another to speed merchant Nat Read who zoomed across for the marker.

Next came one of the prettiest extra points in anyone's football season. The Lions drew a five yard penalty for delay of the game and this placed the ball farther back. Five yards didn't faze star end Don Cooke who placed the ball over the crossbar directly between the uprights for one more point.

At almost any point in the game the results could have been reversed. Once the Yellowjackets were on the Lion two yard stripe, but the line held firm and they failed to score.

It was good, clean, hard, rough and tough — the best breed known. It was the kind of football game I enjoy from any point of view. High schoolers playing with everything they had in them and then digging a little deeper. Both teams played football no one would have suspected them capable of.

GOV'T RELEASES 800,000 TELEPHONES FOR CIVILIAN USE

The War Production Board has authorized the manufacture of 800,000 telephone sets for civilian use. Production of the new standard of telephones is expected to begin June 1. It is estimated that orders for 1,200,000 telephones have piled up on the books of operating companies, which have been unable to install instruments because of shortage of parts.

YES...IT'S TRUE
But Our Share

Was 0

Those of you on our waiting list for new telephones probably had your hopes raised considerably by the recent news item shown above. Unfortunately, the quantity of telephones released was small compared with the total number needed throughout the country.

The tremendous quantities of communications material required by our armed forces has drastically reduced reserves of telephone equipment for farm and city. If your name is on our waiting list for telephone installations, you can be sure your needs will be handled as soon as new equipment is released to us.

LION'S ROAR—

(Continued from Page 3)
ble of playing. Big Bill Wilkins, Bernard Lemmons, Nat Read, Max Gordon, Carlton, Charley, Tandy, Bill and Bud Hoover, Joe Ross, Corbell, Don Cooke — all played better football than they ever played in their young lives — as good a game as they can ever hope to turn in. It was tops in football by both teams; the best kind known to man.

Next Saturday the Lions take on Rocksprings in a non-conference tilt. What will happen? Nobody knows.

Beat Rocksprings.

GIFT BOOKS IN LIBRARY

J. Frank Dobie's book, A Texas in England, was the apt selection of Mr. and Mrs. Sid Millspaugh, Jr., to be presented to the school library in memory of Lee Henderson.

Dobie, a professor at Texas University was chosen to take as he expressed it "the white man's burden," as a professor in American History. His business at Cambridge University was to present the United States of America historically to about twenty young men and women — deferred civilians — in one class, and to two hundred "short course" cadets of the Royal Air Force and the Royal Navy in another. The cadets interested him more as a cross section of British life, but the civilians worked him harder for they were all specializing in history.

The Wine of San Lorenzo, by Herbert Gorman, was presented by Mr. and Mrs. Lee Childress in memory of Mrs. Chris Meinecke

who died June 8, 1945. Against the background of the war with Mexico, Gorman has told the story of two lovers: an American boy, one of the few survivors of the massacre at the Alamo, and Dona Maria Catalina.

Juan Diego was the name by which he came to be known. Had not Santa Anna found him crouching behind the battered masonry of the ruined church and taken him to his home, the boy would never have thought of himself as a Mexican at all.

There is drama of high order in this book — the drama of two peoples locked in conflict; the drama of personal courage and sacrifice and the devotion of men to men under fire.

Yes, he does ride cheap!
Riding the rods or running a business, it's easy enough when you don't have to pay the freight. You simply get a free ride at somebody else's expense.
Maybe you run a store or service station or dress shop. Would you like to have a next-door competitor who has little or no rent, or taxes, or interest to pay, and who is kept in business partly by your tax money?
Yet this is what happens with government and political electric power systems. They ride free, contribute no federal taxes, often get your money from the public treasury at little or no interest and make up losses out of other departmental tax funds from pocket of taxpayers.
Meanwhile, on the average, America's business-managed government regulated electric companies help the people turn in taxes—about 2% out of every dollar collected to help support our government. And these companies—owned and operated by millions of folks like you—meet through proper management all other obligations without benefit of special government privileges and subsidies.
Today, these tax-paying, self-supporting companies supply over 80% of the tremendous amount of electric power produced in America... more than all the enemy countries put together ever had... and enough to have met the gigantic demands of war and still take care of all civilian needs without rationing.
Better yet—at a time when most things cost more—business-managed companies still deliver electricity at low pre-war prices. This is your assurance that cheap, plentiful, dependable electric power will be yours in the post-war era ahead.
