Second Panther Caught On John Mitchell Ranch

G. E. Potter and Dogs Bring In Mate To First Slain Cat

A game pack of dogs, a persistent hunter and a true aim with a rifle resulted in the death of a second sheep killing panther or mountain lion on the John Mitchell ranch about mid-morning Tuesday.

G. E. Potter, expert trapper and hunter, brought the big panther to Ozona Tuesday afternoon, a mate to the female killed by Mr. Potter and his dogs two weeks ago. It measured seven feet one inch from the nose to the tip of the tail, nine inches longer than the female which fell a victim to Mr. Potter's gun on the same ranch. The male was considerably fatter than the female, however, and appeared much larger.

Mr. Potter and his dogs trailed the big cat from daylight Tuesday to around 10:30 o'clock, nearly five hours before finally ending his sheep killing career with a well aimed rifle bullet. Mr. Potter fired four shots at the animal at a distance of about 400 yards, crossing him across the neck with one. About a mile further on, the animal, spent from his long trek ahead of the dogs and weakened by the shot, turned on the dogs for a finish fight. The dogs, having had experience with the panther's mate such a short time ago, stood their ground but kept well out of range of the flying paws. Mr. Potter ended the fight with his rifle.

One of the dogs used by Mr. Potter, a female hound, suffered an injured eye when she ventured too near the cave in which the pack had the female lion bayed. The eye ball was torn loose from the socket and now sets at an angle, the owner said. The other eye was injured by a shot fired a year ago but despite her poor vision, Mr. Potter values her as one of the best dogs in his pack. On a cat scent she still leads the pack, he said.

The big panther killed Tuesday by Mr. Potter had just killed and eaten a goat when he was scented by the dogs. The chase covered a distance of four miles, the animal being jumped a distance of about fifteen miles from the spot where the mate was killed two weeks ago. It is believed the pair have several young still ranging in the area.

ONE THING and THEN ANOTHER

By FRED GIPSON

CORPUS CHRISTI.—Slumgullion: A man finds some odd people in this world.

The morning I left here, a month ago, our neighbor who sits on an apple box in his back yard next to our garage and looks at his black and quackless ducks it's reported he imported from Belgium—well, he spoke to me for the first time.

He said: "Boy, I've been wondering about you. Do you sell something?"

I said no, I'm just a newspaper man. And he said oh, and turned and went to watching his ducks again.

Then the first morning after I got back, I went out to the garage, and he was still sitting on the same apple box and watching the same ducks. And he looked up at me, surprised, apparently.

"Morning!" he greeted. "See you're back again. Well, I've just been wondering about you. Do you sell something?"

And I said no, I'm just a newspaper man. And he said oh and turned and went to watching his ducks.

County Proposes To Sell Site For Livestock Scales

C. C. Luther Seeks To Buy 30-Foot Strip North of Town

In an attempt to solve a much discussed problem of the location of the set of scales whose location here was first sponsored by the O. B. Trap Co. as a convenience for ranchers in the area, the commissioners court in session this week ordered public auction sale of a strip of land 30 feet wide by 200 feet deep at the north edge of town on which it is proposed to locate the scales.

The sale order was passed when C. C. Luther proposed to buy the strip of land from the county at a price of \$142.85. The land adjoins Lot 4 in Block 56 which Mr. Luther owns and on which a business building is now in process of construction. Mr. Luther agreed that if the land were sold to him that he would locate the scales on the property and not on property he now owns, in deference to objections raised by nearby residents.

The sale is to be made at public auction the first Tuesday in June.

County Provides Extra Deputy To Curb Stock Theft

Sheriff Asks Help To Allow Him Time To Probe Thefts

Employment of an extra deputy to allow Sheriff W. S. Willis time in which to investigate recently reported livestock thefts in this county was authorized by the Commissioners Court in session here this week.

Mr. Willis advised the court that several reports of livestock thefts in this area had been received lately and he asked that a special deputy be provided to take care of matters in town so as to leave him free to investigate the theft reports.

The commissioners entered an order providing for the employment of a special deputy at a salary of \$75 a month for the next four months.

Appointment of Dan Willis, retired Crockett county rancher, to the newly created deputy's post was announced by Sheriff Willis. Mr. Willis will be assigned night duty to assist the sheriff and night watchman in keeping a closer watch over the town.

New Wildcat Test In Northwest Part Of County Planned

A scheduled 2,500-foot test for oil on land of Mrs. W. C. Corbett in northwestern Crockett county is to be started about June 1 by J. Silas Pittman of McCamey. The test is to be in the northwest quarter of section 15, block B-2, G. C. & S. F. Ry. Co. survey.

The wildcat will be about four miles northeast of the Crockett county pool on University lands and about one and one-half miles south of the Upton county line.

Mr. and Mrs. Pink Beal are the parents of a daughter born Saturday in a San Angelo hospital. The new daughter has been named Lou Nell Beal.

Death Claims Child Less Than 3 Hours After Injury

Death claimed Opal Oathout, 17-year-old Ozona High School junior, at 10:30 this morning as the result of a bullet wound in the chest just below the heart, suffered less than three hours before. The young girl was found mortally wounded shortly before 8 o'clock this morning in her room at her home.

The bullet from a .38 calibre revolver, found near the wounded girl, had pierced the body, entering just below the heart and emerging under the shoulder blade. The bullet was found lodged in the wall of the room.

Members of the family, including the girl's two younger sisters, Elaine and Juanita Oathout, and her aunt, Mrs. Alma Escue and cousin, Walter Escue, the latter a member of the 1939 graduating class, were at breakfast when they heard a shot in the girl's room. They rushed in and found the girl wounded, her father's pistol by her side.

The father, Omer Oathout, employed in the gas division of Joe Oberkamp's, was in Comstock where he was notified and left immediately for Ozona. The girl died before he arrived, however.

The child made no statement regarding the shooting. She was described by school authorities as having one of the highest scholastic rankings in the junior class. Although officers had investigated the shooting, no announcement had been made regarding inquest proceedings. Funeral arrangements were also indefinite.

Foster Song Fest Feature of Music Week Observance

Many Enjoy Colorful Program Of Old Time Songs

Singing and hearing sung the beautiful nineteenth century plantation melodies of Stephen Collins Foster furnished one of the most delightful evenings in many months for a group of Ozonians at the high school auditorium Monday evening. The program opening the series of local programs, in observance of National Music Week, was sponsored and staged by the Ozona Music club.

"Hard Times Come Again No More," "Gwine to Run All Night," "Oh Susanna," "My Old Kentucky Home," "Old Black Joe," "Old Folks at Home," and "Massa's in de Cold, Cold Ground," and other old favorites from Foster's compositions were sung on the evening's program.

A choral group from the Ozona Music club, dressed in costumes of the Civil War period, led the evening's choral singing under the direction of Mrs. H. B. Tandy, the audience joining in the singing of several of the songs. Miss Mildred Morris played a violin number, a medley of Foster tunes, with Miss Ruth Graydon accompanying. A male quartet composed of L. B. Townsend, Neal Hannah, Bryan McDonald and Ross Hufstader made a big hit with the well known tunes, as did a tenor solo by Neal Hannah, "I Dream of Jeannie With the Light Brown Hair," with Miss Dorothy Hannah, in nineteenth century Southern costume, in tableau. The Hannahs, Mr. and Mrs. and Billy and Dorothy, were

80,000 Pounds Of Mohair, Fall Wool Move In Sale Here

37 and 47 Cent Price For Mohair, Average Near 18c On Wool

Sale of approximately 80,000 pounds of spring mohair and around 35,000 pounds residue of fall wool was reported during the past week by Melvin Brown, manager of the Ozona Wool and Mohair Co.

The 80,000 pounds of mohair, the entire accumulation in the local warehouse, was purchased by Clyde Young, buyer for Winslow & Co. of Boston, at prices of 37 cents for the grown hair and 47 cents for kid hair. The mohair was moved out early this week.

Red Buell, buyer for Beatty & Gorham, was the purchaser of the fall wool. This lot represented the quantity of slightly defective fall wool left over from last season. This purchase cleaned out, with the exception of one small lot, all the fall wool on storage here.

The local warehouse is receiving the spring wool clip from this area rapidly, additional clips being received daily as shearing progresses.

Woman's Club Winds Up Work In Final Meet

Officers Installed, Reports Heard at Session Tuesday

Installation of officers for the 1939-40 year, final reports of officers on the year's work, report from delegates to the Sixth District convention and a program on poetry occupied the Ozona Woman's club at its final meeting of the year Tuesday morning at the home of Mrs. A. C. Hoover.

Mrs. Hoover, assisted by Miss Elizabeth Fussell and Mrs. Carl Colwick, entertained members with a coffee at the Hoover home. Report of the district convention was made by Miss Fussell and Mrs. Colwick, the club being presented with a cash prize of \$2 won at the convention for the second best report of clubs in the district.

Mrs. Stephen Perner was in charge of the program on poetry. Miss Fussell read a group of poems of early youth, Mrs. Perner on romance, and Mrs. Perner substituted for Mrs. Evert White in illustrating poems of appreciation. Mrs. Perner read a poem written by her father, C. C. Doty, to her during her first year in college.

New officers of the club were installed as follows: President, Mrs. Joe Oberkamp; first vice president, Mrs. Carl Colwick; second vice president, Mrs. George Montgomery; recording secretary, Mrs. Stephen Perner; corresponding secretary, Mrs. Joe Pierce; historian, Mrs. W. E. West, and parliamentarian and critic, Mrs. P. T. Robison.

Present for the meeting were Mrs. W. E. West, Mrs. M. O. Volentine, Miss Elizabeth Fussell, Mrs. Joe Clayton, Mrs. P. T. Robison, Mrs. Carl Colwick, Mrs. A. C. Hoover, Mrs. A. E. Deland, Mrs. W. R. Baggett, Mrs. A. W. Jones, Mrs. Joe Pierce, Mrs. Joe Oberkamp, Mrs. V. I. Pierce, Mrs. Stephen Perner, Mrs. Hillery Phillips, Mrs. Ira Carson and Mrs. George Bean.

Mrs. Virginia Gray, daughter of Mr. and Mrs. Will Gray, former Ozona residents, is reported in a critical condition in a San Angelo hospital. She recently underwent an operation, and little hope is held for her recovery, according to word received by friends here.

Funeral Here Today For 5-Year-Old Son Of Charley Dorans

Funeral services are to be held here at 4 o'clock this afternoon for Jimmy Lowery Doran, 5-year-old son of Mr. and Mrs. Charley Doran of Junction, who died in a San Angelo hospital at 1:30 o'clock this morning. The child had been ill about a week. He was taken from Del Rio, where the family was visiting, to the San Angelo hospital last week.

Surviving are the parents. Mr. Doran is a brother of Mrs. J. A. Sparks, Mrs. Frankie Jones and Elmer Doran, all of Ozona, and a son of J. L. Doran of this city. Services are to be at the graveside, Rev. Eugene Slater, pastor of the Methodist church, officiating. Joe Oberkamp, funeral directors will be in charge.

SENIORS NEAR LAST WEEK OF SCHOOL LIFE

Baccalaureate Sunday Morning, Commencement Thursday

22 CANDIDATES

Dr. R. N. Richardson of Hardin-Simmons Commencement Speaker

Next Thursday evening, May 18, 22 Seniors of Ozona High School will file across the stage in the auditorium to receive their diplomas at the hands of Judge Charles E. Davidson, signalling the close of the 1938-39 school term.

Baccalaureate services will be held in the auditorium next Sunday morning, with the Rev. Eugene Slater, pastor of the Ozona Methodist church, delivering the baccalaureate sermon. Programs for the baccalaureate and commencement exercises were announced this week by school authorities.

Mrs. Neal Hannal will play the processional at the Sunday morning service, to be followed by singing of the hymn, "Come Thou Almighty King" and the invocation by the Rev. Clyde Childers, pastors of the Baptist church. After the scripture reading by Rev. Slater, the Junior High school choir, directed by Miss Mildred Morris, will sing "I Shall Not Pass This Way Again" and "The Lord's Prayer," and Misses Mildred Morris and Ruth Graydon will play a violin duet, Mrs. H. B. Tandy accompanying.

"The Future Belongs to You" will be the subject of the sermon to be delivered by Rev. Slater.

Dr. R. N. Richardson, professor of history and executive vice president of Hardin-Simmons University at Abilene, will deliver the commencement address to the graduates of 1939 at exercises in the auditorium Thursday evening of next week.

The program for this event, the highlight of the school year, opens with the processional by Miss

A Much Needed Weapon

A bill to provide for deportation of aliens who advocate an overthrow of the United States government, has been under consideration in Congress.

This should provide a much needed weapon at a time when there are a great many agitators beating the drum of Communism, Fascism or some other "ism" and advocating that Americanism be discarded.

It is to be hoped that the bill will finally be approved by the senate and signed by the President, even though the CIO is opposing it.

While such a new law would greatly strengthen the powers of officials charged with deportation of undesirable aliens, there are similar laws now on the statute books. It might be well for enforcement agencies to start a rigid application of these existing laws at once.

The Little Nations

The sword-rattler's remark that England cannot actually protect Rumania or any other country of Eastern Europe against sudden attack is quite true, it would still be true if the British army were three times its present size. But, as Hitler well knows, immediate physical protection of their small allies is not part of the war strategy of the Anglo-French entente.

HONEST WEIGHT????

Pass, turning the flank of the Siegfried line garrison and probably forcing its abandonment. Such a move would open the whole Rhine Valley to invasion direct from France and would leave Hitler's forces very little time or strength to devote to operations eastward.

IT MAY BE FOREVER

A movement is on in Washington to make PWA a permanent affliction. Paying for it is practically in that category already.

These Fascist-Nazi fraternities are mischievous. They are not content with wooden swords and make-believe regalia, but yearn for swords that cut heads and regalia that spells power.

From Washington comes the news that the Federal Government is doing more than ever in the fight against erosion.

Soviet lieutenant has been tried by a military court on charges of having married eight times in one year. It would seem clear that he felt he wasn't getting enough fighting in the army.

Small Potatoes

What has happened to the much ballyhooed "economy drive" that was supposed to be gaining momentum in congress a month or two ago? Late news from Washington indicates that the urge to spend is still dominant—and that the urge to retrench and eliminate some of the waste in government is pretty small potatoes right now.

Worst of all is the apparent public indifference toward spending. It wasn't so long ago that the nation was genuinely aghast when a congress appropriated two billion dollars. Now congresses appropriate eight or ten billion, blandly oblivious of where the money is to come from, and we take it for granted.

However, the American people won't be able to continue this indifference indefinitely. The problem of financing the deficit becomes steadily more difficult. So much of our money has gone into government bonds, that the ordinary sources of productive capital have steadily dried up.

We have been told time and again, by men of unquestioned authority, that we are surely on the road to bankruptcy.

Several new horses, including a Pinto Pete 2nd and a big brown bronc that promises to develop, have been added to the bucking horse string belonging to Earl Sellers of Del Rio. Sellers has signed contracts for the Rock-springs show on June 15, 16 and 17 and for the Comfort and Kerrville rodeos on July 2, 3 and 4. Past masters in his string of brones include Spike, Sunbow, Barraga, and Charro, a lineup of names familiar to most of the rodeo hands throughout West Texas.

The buck was raised by Pat Rose, Jr., of Del Rio. He was presented to Col. Charles F. H. Johnson, president of the Botany Worsted Mills, on the 50th anniversary of the mills. "Miss Botany," representing the mills, played Bo-Peep to the Texas sheep on his arrival at the Newark airport. G. W. Cunningham, secretary of the Texas Sheep & Goat Raisers' Association, took the Rambouillet to Amarillo to catch a TWA plane there Tuesday. Botany is one of the largest

users of Texas fine wools. Earl Sellers, rodeo stock owner and ranchman of Del Rio, has been given the contract for rodeo stock for the Rocksprings rodeo and race meet on June 15, 16 and 17. Sellers is to have charge of the arena at the Rocksprings show and with Tom Taylor of Spofford and W. P. Rudasill of Rocksprings will serve as judge. F. A. Moody is president of the Edwards County Fair Association, sponsor of the three-day celebration at Rock-springs.

Utilities Company Promotes Soil And Water Conservation

Farm and ranch leaders have been invited to call on the West Texas Utilities Company for any cooperation and assistance the concern can render to make the soil water conservation program more effective, it was announced by Arthur Mitchell, local manager.

Price Campbell, president of the company, called attention to the value of the soil and water utilization work last week and said that the organization's manpower in 166 communities served by WTU would be "happy to join in this movement."

"The thought is inspiring that a program of this character will have the result of passing on the land to the next generation in actually better condition than it is in this generation," he said. "That surely constitutes a due regard for posterity."

The program will be climaxed by a "March of Conservation" during the West Texas Chamber of Commerce convention in Abilene on May 15, 16 and 17 at which time prizes totalling \$1,000 will be awarded to counties entered in the soil and water conservation contest.

Mr Campbell announced that the West Texas Utilities Company will provide the prize money in addition to joining forces with agricultural leaders to continue the work.

"Anything that benefits the communities in the areas we serve and increases the purchasing power of the citizenship, also benefits our company as well as every other type of business," he stated. "This contest should do much to guarantee the permanency of our West Texas region, supporting firmly and enhancing its claims to being the 'Raw Materials Capital of the World' by increasing the spendable income and in furthering the welfare of agricultural and livestock producers."

STUART TO PLAY WITH CLOVIS BASEBALL CLUB

Byron (Tex) Stuart, catcher on the Ozona Giants in the heyday of the local baseball club, left early in the week for Clovis, N. M., where he will play the season with the Clovis team in the Texas-New Mexico league, a berth he held last year. Stuart played for a time with the Dallas Steers in the Texas League. Mrs. Stuart left Wednesday for Clovis to join her husband. She was accompanied by her mother, Mrs. Ray Dunlap, and Mrs. Ernest Dunlap, who will return after a few days visit with the couple.

School Exhibits Show Advancement Of Pupils In Unit Method Of Teaching

Concentrated Study Of Selected Topics Is Made In Grades

Learning by seeing and doing might aptly describe the method of teaching being followed for the second year in the Ozona grade school, the classroom visual teaching unit method by which children create their own setting for the study of a given subject and pursue that study by actually seeing in picture or object material relating to the study.

An exhibit of these teaching units was viewed by members of the Parent-Teachers' Association and patrons of the school Monday afternoon, the children themselves being delegated to explain the various exhibits to the visitors.

In the kindergarten, the unit was on transportation, and the children built their own bus and bus station, made safety posters of warning against traffic accidents, depicted a highway with its roadside park on their sand table. Also included in the kindergarten exhibit were work books of pupils, the garden they have planted and tended and Mother Goose cuts outs adorning the classroom. Mrs. Arthur Kyle is kindergarten teacher.

The first grade's unit of study directed by Miss Jo Demmer, was on nature, its objective being to gain more knowledge of nature facts, to develop a greater sense of responsibility in the care of pets, to develop a keener sense of appreciation for the things around us and to develop a sense of appreciation for favors and social obligations, as explained by Miss Demmer.

Definite periods are set aside each day for work on the unit. The first graders are taken on excursions around the town and stories are made of the things seen on the walks. The children have assembled a number of pets, including fish, rabbits and caterpillars and silk worms.

In the second grade, Miss Dorothy Spain is directing a study of textiles and clothing by the unit method. The children have made paper dolls dressed in different textiles. Pictures and charts show the uses of the five important fib-

ers as well as leather, rubber and fur. Cotton and flax are growing in trays and silk worms cocoons spun in the room this spring were on display.

The third grade with Miss Norine Allison directing, has worked on a health unit, its main objectives being to teach good health habits, pertaining particularly to eating habits and good nutrition, proper physical development, proper habits of sleep and caring for the body. In the study of foods the pupils have built a cafe, practiced correct table manners, serving and being served. In the field of physical development, a record of growth is kept for each pupil, and cleanliness of the body is stressed by a morning inspection each day.

The fourth grade, taught by Mrs. C. S. Denham, has completed a unit of study on "Living in a Temperate Land—Holland." The children in this grade have gained a vivid picture of Holland through this study of a thrifty and diligent people. Drawings have been made to illustrate the different stories, poems and things learned, and tulips, wooden shoes, windmills, children skating on the canals, and Dutch boys and girls have been made and pictured by the pupils. The class has learned 40 new Dutch words and seven Dutch songs and have read a number of library books on the Netherlands.

The fifth grade unit is on knight hood in a study of ancient times. The drawings and cut-outs illustrate different phases of medieval life, knights in armor, castles, etc. The fifth grade also had on display a unit of Mexico, illustrating transportation, handicraft, market scenes, etc.

Sixth graders exhibited handwriting and trays painted by art class, while the seventh grade exhibited work booklets used in social studies. In addition to the grade school exhibit a fine collection of their work in the halls of the elementary building.

Mrs. Walter Cook of Elgin is here for a visit with her daughter, Mrs. Babe Phillips, and Mr. Phillips. Mr. and Mrs. Phillips had as their recent guest her brother, T. I. Cook of San Antonio.

Junior Woman's Club To Hold Final Meet

Ozona Junior Woman's club will hold its final meeting of the current year this afternoon in the home of Mrs. C. J. Van Zandt.

The club met last week at the home of Mrs. Jake Young, with Mrs. Charles E. Davidson, Jr., as assisting hostess. At that meeting the club voted to adopt a study course on social origin for next year. Miss Wanda Watson, president of the club, gave a report on the district convention in San Angelo. The program recommendation was made by a committee composed of Mrs. Sherman Taylor, Mrs. Hubert Baker, Mrs. Boyd Clayton and Miss Wayne Augustine.

Others present were Mrs. Ele Hagelstein, Mrs. Ed Bean, Mrs. W. E. Friend, Jr., Mrs. Jake Young and Miss Wayne Augustine.

DANCE HONORS SEVENTH GRADE GRADS

Joy and Roy Coates and Lottie Jo Owens, seventh grade graduates, were complimented with a dance given Friday evening at the rodeo platform by Mrs. Fleet Coates and Mrs. Tom Owens. Attending were Mary Louise Perner, Gene Tyer, Lorain Wyatt, George Frochl, Leslie Nance, Jr., Lloyd Coates, Mary Faye Lucas, Patti Jean Tyer, Bland Tandy, Dick Henderson, Tom Ed Montgomery, Margaret Russell, Florence Luther, Gem Ella Dudley, Billy Hannah, Dorothy Capps, Vera McCalieb, Zella Lee Thurman, Henry Patrick, Jim Ad Harvick, Charles McDonald, Mary Elizabeth Gray, Priscilla Jean Baker, Louise Bean, Bill Colquitt and Elton Smith, Jr.

ducks again. Sometime, when I've got something, I'm going to try to sell it to that old apple-box sitter. Bet I could sell him a black duck. But I don't know where a man would get one, unless he swiped it out of the neighbor's pen.

Sometimes I wonder what life would be like, just sitting on an apple box and looking at black and quackless Belgium ducks.

I come back here and find that nobody's killed that fool mocking bird that sings all night long outside my window.

I wrote an editorial about him before I left, but seems like editorials don't carry the weight they once did. Haven't heard of an editor getting horsewhipped in the longest.

I bought me a mighty swanky beach suit the other day. The shirt part hangs out over the britches, just like the corn-topping jumpers Mama used to make for us, so we wouldn't get so hot in fodder-making time.

And I wore it and lounged around on the beach, and I guess lots of people couldn't tell me from the filthy rich playboy tourists that infest these shores this time of the year.

On the other hand, I noticed the crane-legged widow on the make for a rich husband didn't give me much play. Guess she's one that could see through my disguise.

"Walls rise up to protect the pure in heart," claims the pious Watermelon Sam Davis, colored shine boy, whose Sliding Horn Yella Gal burst into tears and refused to testify against him in corporation court here the other day, after she'd had him jailed for breaking a beer bottle over her head and "razoring" a warehouse buck that had been shining up to her on the nights that Watermelon Sam slipped off from home to drink beer and carouse with Big Farina in the joint across the tracks.

Times make some mighty changes. A mother I know promised her 8-year-old son \$1 every time he brought in a straight 'A' report card. Lately, she's been out a \$1 every month. And she got to inquiring around and found out that the grandmother had been talked into giving \$1 for a straight 'A' report card, and one uncle and a grandfather and two aunts and a neighbor woman. And now, the mother's beginning to wonder how much "cut" the teacher's getting out of the racket her young son's built up.

When I was a kid, I got paid off only on bad report cards. Papa did it with a razor strop.

FAREWELL PARTY GIVEN FOR TWO HERE

Mrs. Ted White and Mrs. C. J. Van Zandt entertained with a breakfast last Saturday morning in the White home as a farewell compliment to Mrs. Clarence Nelson and Miss Mildred Morris. Mr. and Mrs. Nelson will move to Rochelle at the close of the present school term where Mr. Nelson will take up his duties as superintendent of schools. Miss Morris has resigned her position in the local schools to pursue her studies in S. M. U. next year.

Bouquets of spring flowers were used in decorations. May baskets with pink sweet peas marked places for the guests. Present besides the honored guests were Mrs. Minnie Crumley, Mrs. Bryan McDonald, Mrs. Stephen Perner, Mrs. Neal Hannah, Mrs. P. T. Robison, Mrs. Arthur Kyle, Miss Mildred North, Miss Ada Moss, Miss Bess

Terry, Miss Ruth Graydon, Miss Connor Maddox, Miss Merle Draper, Miss Elizabeth Kuykendall, Miss Jo Demmer, Miss Dorothy Spain, Miss Norine Allison, Miss

Elizabeth Fussell, Miss Margaret Martin, and Miss Kathleen Crawford of Sterling City.

NOBODY has to tell you, skimming along at that brisk Buick pace, that plenty of eyes are turning your direction! What you're discovering is how much more there is to this beauty than a look or two will uncover!

You're feeling the eager power that a straight-eight can pour — when it's a Dynaflex eight with a cyclone in each cylinder to give life, lift—and thrust—to every smooth-flowing mile!

You're finding out that bumps can be tamed—when all four wheels, not just the front, ride on stout coiled springs of soft and cushiony steel!

You're discovering how pleasant it is to look out through windows enlarged as much as 412 square inches. And you're enjoying that very special Buick "feel," firm and taut and steady, nowhere any skittery looseness, or wind wander, or hunt!

In a word, you're beginning to realize that, smart as it is to see, this Buick's even smarter to buy—even if you had to pay a premium to get it.

But you don't have to pay a premium! Instead, this great-eight beauty is today priced lower than some sixes. Costs are below those of a year ago. Total outlay — counting included equipment you'd pay extra for elsewhere—is often less than for some cars with lower advertised prices.

So what to do? Easy! Simply turn around, head for the showroom, get down to the buying details.

You'll find your Buick dealer eager to serve—just like the car he sells!

"Better buy Buick!"

EDITOR'S MUSINGS

Summer Soon— Welcome to the Seventh Grade—

Well, at long last the end is near. No more shall we "cram" for exams nor worry all day about our lessons. For three long months we shall not have a care in the world, at least none to compare with what we have had for the last nine months. Some of us may think that we shall never want to go to school again, but after three months pass, many will have changed their minds.

The many events that have interested us will make us want to come back to school next September. A new football team with pep and vigor to go forth and "bring back the bacon," a completely uniformed band, typing contests, one-act plays, band contests, H. E. clubs, Press clubs, and many other things will "put pep in our step." Among the interests of the Press club will be new things next year. We shall have two pictures every week in the Lion's Roar that are to be taken of the activities, clubs, sports, etc., of our school!

Yes sir, we certainly want to welcome the seventh grade students into high school, in more than one way.

Dear children, you have had fun in grade school, or at least you ought to have had, because when you enter high school there is so much work and so many activities, that you see your home only at night and meal time. Well, anyhow, that's a good time to see home! Oh! but it's not always that bad. Why, who can tell, you may enjoy high school, because, well, er—"life's like that!"

THE VALUE OF TIME

Of all the inatural gifts in the world, time is the most valuable one. All other gifts depend upon time. Many minutes may be wasted by a person, and yet, if he had applied himself in those minutes, he might have become famous. A person might save money a lifetime, yet he wastes many minutes each day.

When a person grows older, he looks back at all the minutes that he wasted in his youth, and he regrets that he did not use those minutes in some profitable way. A person will never forget the time that he gave to his books, and the attention that he gave to his teacher.

Nothing will pay so much in later life as the time spent at school with books. That time should be used well, because it is the time that he is making his name in the world.

Stick to your work and keep fighting, because some day a great idea will come that will benefit someone.

Think of a minute, and all it may mean. You might make yourself famous or discover something to benefit the world in one small minute. If a person wastes this time in his youth, he will regret it very much later in life.

The value of time to the students of O. H. S. is indescribable this next week, because exams are almost here.

Band Presented Final Concert

The band has played its last concert this year. It played for chapel Wednesday, May 3. The program started with a march entitled "At Sight." The other pieces played were "The Veteran," "Carnival Capers," and "Spanish Melodies." The band ended its program with "Our Director," a very peppy march, with the chorus being the Ozona high school song. The band uniforms were checked in Friday morning in the regular class time at 8 o'clock. The band will not play as much as usual, but it will learn theory and get ready for the final examination.

Grade School News

Seventh Grade

The Seventh grade pupils are going on their school picnic next Monday. They hope to go swimming. Every one is looking forward to it.

Fifth Grade

The fifth grade in language arts is studying about Crusades and knights. We were given a question sheet of 33 questions and a word list. So far we have enjoyed the study of the Middle Ages.

First Grade

Dr. Ben H. Moore, executive secretary of Daniel Baker college visited the first grade on Thursday. He talked to the children about bees and their habits. After Dr. Moore's visit the children made the following story about bees to add to their nature unit scrapbook:

"All of the bee eggs for one hive are laid by the Queen Bee of the hive. There is only one Queen Bee in each hive. If there should be more than one, the strongest Queen will fight until she kills the other Queens.

Just before the bee eggs hatch the old bees swarm and go to another hive to make their home. They leave the old hive for the young bees with a supply of honey to feed on.

Bees have two stomachs. One stomach is larger and is called a "carrying stomach." The bees use their smaller stomach to digest their own food.

The Queen Bee stings the honey and seals it up in the comb to keep it from spoiling.

Bees are hard workers. They use their wings so much that they wear them out. When a bee cannot work, he leaves the hive."

ORCHIDS AND ONION

By Kirby-West

Orchids to Johnny for being able to keep three boys from putting her over the fence.

Onions to all shoe swipers.

Orchids to Jean for giving such able advice at such inappropriate times.

Onions to Roy and Doris for having such verbal "food fight" at suppers given for the Juniors and Seniors.

Orchids to Eloise for her ability to drive in the mud.

Onions to Margaret for not helping the rest of the girls duck Howard.

Orchids to Helen for taking a late entrance so well.

Onions to "Agitator Bob" for being such a quote: "cutup"—unquote.

Orchids to the seniors for their help with the senior edition of the paper.

Onions to Miles for not being able to keep a jack in his car to fix his numerous and colossal flats.

Orchids to Bess and Bette for being able to lead (?) the "Grand March."

Onions to Phillip for having a date with one girl and moving to sit by another.

Orchids to Doris for being able to hold so much food—as much as you got, anyway—at suppers.

Onions to W. B. for being such a "typewriter" pest.

Orchids to people who hide red, and I do mean red, handkerchiefs from other people.

Onions to whoever gave Eloise her "shiner."

Annual Exhibit Work Is Held Of Semester's

Fine Showing Made By Grade School

Last Monday afternoon the public schools of Ozona held their annual exhibit. Each grade had many interesting attractions.

The most outstanding feature of the first grade was the borders of the typical nature unit out of colored construction paper cut by the pupils. Paper plaques with pictures, cloth pictures of the gingham dog and calico cat, free hand pictures, and two white rabbits were also seen.

Almost the entire exhibit of the second grade was devoted to the study of textiles. The object was to show the pupils how many people they are dependent on getting their clothes. Around the borders were the names of each textile made out of the material named. They were cotton, linen, rubber, wool, silk, and rayon.

Featured in the third grade was the health unit. The third graders built a cafe called the "Healthland Inn." On the outside were miniature tables with the menus. The object was to study foods. Notebooks based on the signs seen on the "Road of Health to Grown-Up Town" were seen on a table. There were also notebooks on the communication unit.

The fourth grade based their whole exhibit on Holland. Seen on the walls and borders of the room were colored paper pictures, painted pictures, and free hand pictures of Dutch scenes, Dutch notebooks, and wooden shoe notebooks containing the spelling papers. Also there was a Dutch library. Complete notebooks of all art work done during the year were on the back table.

In the junior high school department the exhibits were fairly well mixed. All three of the language arts classes were studying the middle ages. There were shield notebooks, posters showing the life of common people, and free hand drawings of weapons.

The music room featured music scrapbooks. Included in these is the scrapbook that won first place at the state meet. The junior high school glee club made this scrapbook. As a prize they received a book "Stories of the Great Operas and Their Composers," Ernest Newman.

Each social studies class had a different unit. The fifth grade studied a Mexican unit. Plaques with pictures of Mexican life, Mexican hats, booklets, pottery, and Mexican totem poles were made. The sixth grade studied Europe. They planned a trip there and made maps of this continent. The seventh grade made booklets entitled "National Government" which included executive, legislative and judicial branches and the duties of each.

Other exhibits of the junior high were the health unit notebooks of the fifth grade and the writing exhibit of the seventh grade.

In the halls were many beautiful problems of the manual training classes. Especially pretty was the set of furniture made of walnut by Mr. Caruthers. Other problems seen were tables of all sorts, cedar chests, magazine racks, chairs and stools.

On a table in the hall upstairs were the Spanish notebooks made by students of Spanish I.

THE VOICE OF EXPERIENCE

By A. SENIOR

Is it good etiquette to stand a girl up?

No man, who is a gentleman, would be so rude as to make an engagement with a girl and then break it or forget about it. However, it does happen every once in a while, and when it happens to you don't let him know that you are bothered, annoyed or looking for an explanation. Act not differently toward him except to be busy when he asks for another date, and by no means ever mention the subject.

Eight teachers of the Ozona public school faculty were asked to write a certain article for the Lion's Roar. Every teacher except one, Mrs. Ted M. White, forgot the request until reminded of it several days later.

FASHIONS

Skirts, sweaters, and knit suits seem to be what the well dressed girls are wearing to luncheons and suppers.

Betty Lou Coates was seen proudly showing off her suit, with a skirt of yellow knit and a smart sport jacket of all colors. Among these colors were dots of royal blue, and a scarf of the same color was seen tied around her throat.

Mary Harvick has also seemed to take a liking to sport sweaters and skirts. One day she and Betty Coates came to school with the same style and colors on. Now, girls, which one of you is copying?

"Toots" Smith has a smart pink suit with a pleated skirt, sport shirt, and, she says, there are some shorts that go with this suit, but I don't believe it. Say! "Toots", why don't you ever wear them?

Drake and Lemmons

Tommye, why were you in such a high state of temper Sunday afternoon. Some reactions, all we had to do was to link a girl's name with Beecher's.

Phillip has acquired a new nickname, "Pudin"; my goodness, Jean, where did you think that one up?

A certain junior girl can't think up a very good excuse. When asked for a date Sunday night, she said that she had to study. That's gettin' old don't you think, Phillip? Can't you take a hint?

Bettie Lou because a certain junior boy was absent from the supper, and I do mean supper, at Carson's, was in a nervous state of mind all afternoon. Jakee, you shouldn't run away from the poor girl that way.

"Toots" was having trouble at the supper at Carson's also. While yawning and eating, "Toots" was also doing a great deal of talking. How do you do it, "Toots"?

WHAT ONE SHOULD EXPECT TO GAIN BY GOING TO COLLEGE

By Ora Louise Cox

Gaining a college education and participating in campus activities should be a wonderful experience to every person who is fortunate enough to take advantage of the privilege.

By going to college one should expect to become a well-rounded individual, capable of taking his place in society and of carrying on the affairs of the world. He should expect to gain a scientific point of view, an understanding of the world and a broader outlook upon life. He should expect to develop the ability to apply himself to his tasks and to control his emotions. He should anticipate gaining the knowledge and experiences that make it possible for a person to become a self-supporting, useful, and happy citizen, able to meet and deal with trying situations. A person going to college should expect to acquire such assets as character development, vocational or professional training, preparation for political and social service, and practice in the worthy use of leisure time. He should expect to form noble ideals, useful habits, and proper attitudes, also to learn to take advantage of his individual talents and abilities.

Along with character and mental development comes a student's social life. This factor should play an important part in a person's life; for one does not live alone, but among many people of many different types. He must learn to meet and deal with people, to win friends and to influence his fellow man. One going to college should expect to make beneficial social contacts and should learn to adjust himself to the people and life about him.

Score 22-6 Baffles Eager Sophomore Junior Team

Freshman-Senior Team Is Winner

The team made up of the Seniors and Freshmen won the inter-school series by crushing the Juniors and Sophomores in two games. The score of the first game was 22-6, while the second ended with hits and 26 enemy errors the Senior-Freshman team scored in every inning in the two games except one. In the meanwhile, the Juniors and Sophomores were striking vainly at the offerings of the softball pitcher, Floyd Hokit. He scattered 13 hits through the first and allowed the small total of seven in the last game. H. Lemmons was the only man who could solve his mixture of fast and slow balls getting five hits out of 10 trips to the plate. Included in these five hits were two triples and a double. W. Escue and E. Schneemann led the victors with six hits apiece in 12 tries.

HOW TO BECOME A BORE

Just why anyone should want to be a bore, we can't imagine, but there's no accounting for tastes, as the girl said when she kissed the goat. In case any misguided reader yearns to become an accomplished bore, here are some rules guaranteed to turn the trick, composed by one who claims to be an expert at it. But we think the "sonovagun" is lying, because no genuine bore is ever aware of being one:

Cherish some fond obsession, hug it to your bosom, and insist on others joining your petting party.

Have an opinion on every subject under the sun, and never fail to express it.

Take 30 minutes of someone's valuable time to tell something that could be told in three minutes, and which he already knows more about than you do.

By all means relate the greatest details of the time you spent "under the knife."

If your friend looks a bit under the weather, impress upon him that he may be nearly dead from some fatal malady without realizing it. And by all means, let every one know that you know every thing.

Home of Unusual Design

There is little that is conventional about this attractive Georgia home, but its most refreshing note is its unusual approach. The stairs lead to an entrance hall, which opens into the large living room. Besides the screened-in porch, the house contains three ample bedrooms, dining room, breakfast nook, kitchen, and bath. Taking advantage of the natural slope, the garage is located beneath the porch. The Federal Housing Administration insured a mortgage of \$5,700 on this home after officials had assigned it a value of \$7,125.

Old Ministers' Relief Topic At Missionary Meet

Old ministers relief was the topic for discussion at the meeting of the Woman's Missionary Union of the Baptist church Wednesday afternoon at the church.

Mrs. George Bean led the discussion. She was assisted by Mrs. J. S. Whatley, Mrs. J. E. Powell, Mrs. A. C. Hoover, Mrs. S. L. Butler and Mrs. Lowell Littleton. Others present were Mrs. J. T. Patrick, Mrs. Charlie Butler, Mrs. R. J. Adams and Mrs. H. L. Holt.

The society will meet in circles next week for Bible study programs. The Lottie Moon circle will meet with Mrs. Whatley, the E. A. Nelson circle with Mrs. W. S. Willis and the Annie Sallee circle with Mrs. George Bean.

Good Crowds Attend Gas Cooking School

Good crowds attended both sessions of the two-day cooking school staged here this week under auspices of Joe Oberkamp. Cooking school sessions, held at the Oberkamp store, were directed by Miss Zella Allen, well known home economist.

Miss Allen demonstrated the use of Butane gas in Roper and Dutch Oven ranges, and the Electrolux gas burning refrigerator.
