Art Exhibit And Sale To Be Held Here Next Tuesday

San Angelo Art Club Sponsoring Showing Beneficial Art Gallery

An art exhibit, featuring West Texas Artists, sponsored by the Ozona Woman's Club, will be shown at the High School building, room 10, Tuesday January 14, it was announced this week.

The exhibit, prepared by members of the San Angelo Art Club, consists of about forty pictures, most of them by the late Helene Kendall. The pictures will be offered for sale here after the exhibit, proceeds from such sale go to the fund being raised for the construction of the Helen Kendall Memorial Art Gallery in San Angelo on a lot given for that purpose by the late Mrs. Kendall's husband, J. Riley Kendall. The exhibit is cordially invited to view the exhibit.

The architect's drawing of the proposed building will be exhibited along with the pictures. Those attending the exhibit and members of the San Angelo Art Club to be included are Mrs. Arch Bengel, president of the club; Dwight Holmes, artist; Victor Drilea, ceramic artist; Mrs. Ruth Matlock, artist and teacher; Mrs. Joe Medders, artist and teacher and others whose names are not secured.

All of the San Angelo visitors will be guests of the Ozona Woman's Club at a meeting Tuesday afternoon at the home of Mrs. N. W. Ham, Victor Drilea, artist, will speak to the Woman's Club session on the subject of "Art Appreciation." Mrs. Joseph M. Perkins, chairman of the General Federation are Department will be a guest of the club and will speak during the afternoon session, beginning at 3 o'clock.

The San Angelo art enthusiasts will arrive here early Tuesday morning and the exhibit will be on display by 11 o'clock. All school children will be given an opportunity to view the exhibit during the day. Speakers for the occasion will be Dwight Holmes on "The Purpose of an Art Gallery in West Texas," and Mrs. Ruth Matlock on "The Art Spirit," a review of Helene Kendall's life and her influence in West Texas.

Plans for the Art Gallery in San Angelo have been completed and accepted by the sponsoring committee. The San Angelo Art Club now has \$1,536.50 in cash and \$5,036.50 in pledges toward building cost and a drive for additional donations is under way throughout West Texas toward completion of the project.

"This building will be a great cultural and social asset to West Texas and we want to see it built as soon as possible," declared Miss Emma Wilson, chairman of the building committee of the San Angelo Art Club. It is not an impossibility if the people of San Angelo and West Texas will help us and we know they will.

The building has been designed in three parts so that construction can proceed at a time can be undertaken. The back wing probably will be built first, it was indicated this wing to contain a large dining and class room, a wash room and kitchen. The side wing will include a gallery for the permanent collection of the club and library combined, an office, a storage room. The front wing, which will face north on First street, will be the largest section of the building and will include a large exhibition gallery and the Helene Kendall memorial where paintings by the late Mrs. Kendall will be placed on permanent exhibit.

Following is a partial list of donors aiding the club in raising the building fund, as announced by club officers: Mr. and Mrs. Howard Cox, Mr. and Mrs. R. G. King, Mr. and Mrs. Sol Mayer, Dr. Mrs. George Morgan, Mr. and Mrs. Mellick Tweedy, Dr. Elliot King, Mr. and Mrs. Lawrence King, Mr. and Mrs. Sid Mills. (Continued On Last Page)

Rev. Horace King To Give Lecture Series to W. S. C. S.

Rev. Horace M. King, pastor of the Ozona Methodist Church, will deliver a series of lectures on Stewardship from January 13 through January 17 at 7 p. m. at the Methodist Center, it was announced by Mrs. L. B. Cox, Jr., at the regular meeting of the Woman's Society of Christian Service Wednesday afternoon.

Rev. King's talk will be a combination of Bible study for the W. S. C. S. and the church's emphasis on Stewardship that is being observed by the Methodist Church around the world at this time. Rev. King shared in these studies at Sequoyah for the Jurisdictional Leadership Assembly and taught the course at the Kerrville Assembly and members of the Society feel fortunate in having him to lead in this inspirational study. A cordial invitation has been issued to the entire community to join in this study of basic Christianity.

Following the devotional led by Mrs. Charlie Coates, the Woman's Society conducted installation services for its new officers, Rev. King presiding for the installation. Mrs. W. T. Stokes was reader and Mrs. Stephen Perner provided soft music during the service.

Installed were Mrs. Floyd Henderson, president; Mrs. R. A. Harrell, vice president; Mrs. J. M. Baggett, treasurer; Mrs. Bill Cooper, recording secretary; Mrs. Joe Pierce, corresponding secretary; and secretaries of Christian Social Relations and Church Activities, Mrs. B. E. Ingham; Missionary Education, Mrs. L. E. Cox, Jr.; Spiritual Life, Mrs. Charles Williams; Supplies, Mrs. V. I. Pierce; City Board of Missions, Mrs. Scott Peters; Literature and Publications, Mrs. Charlie Coates; Youth Work, Mrs. H. B. Tandy; Children's Work, Mrs. M. J. Read; and Student Work, Mrs. Eddie Bower. Mrs. Paul Perner was named chairman of the adult circle and Mrs. V. I. Pierce, chairman of music. The following committee chairmen were named: Membership, Mrs. N. W. Graham; fellowship, Mrs. W. R. Baggett; and publicity, Mrs. S. M. Harvick.

Conoco 36 Todd Completed For 1979 Bbl. Rating

Newest Deep Producer on Southeast Side of Todd Field

Flowing 329.79 barrels of 41.2 gravity, pipeline oil on a four-hour test, Continental and others' No. 36 J. S. Todd estate on the southeast side of the Todd Deep field in Crockett county has been finalized in the Ellenburger with a daily potential of 1,978.74 barrels. Gas-oil ratio was 541.1.

The gauge was through a one-half choke on 2-inch tubing set at 6,392 feet. Flowing tubing pressure was 275 pounds, flowing casing pressure 425 pounds. The well cemented 5 1/2-inch casing at 6,283 feet, topped the pay at 6,392 and drilled to 6,412 feet. Location is the C NE NE 30-WX-GC&SF, east offset to Continental and others' No. 33 Todd, south off-set to the same operators' No. 35 Todd and a west off-set to F. A. Callery and others' No. 3 Todd, all completed producers. Continental and others have started No. 38 Todd, a south off-set to No. 36 Todd.

4-H Club Boys Want To Buy Cows for Baby Beef Projects

Several Ozona 4-H Club boys are in the market for good dairy cows to be used as nurse cows for their baby beef projects, according to County Agent Joe Cowan.

"If you have a good, fresh cow that you will sell, please contact me," the agent requests. "Or if you have a cow to place out for her feed that may be used, I can assure you that she will have proper care and feeding under close supervision."

Rising Income And Rising Costs As Well Reflected In Farm Census Figures For Crockett County For Year 1945

Rising income of Crockett county ranch operators in the last five years has been largely offset by skyrocketing operating costs, with the cost of labor leading the inflation parade, according to a digest of comparative figures compiled by the Department of Commerce in a tentative report of results of the 1945 United States census of agriculture, released this week.

While the census may not be complete for this county, and some of the values and totals reported may be estimates only, it does record operating figures for 134 agricultural operators in this county, covers a land area of 1,788,160 acres, and whether accurate or complete in every detail, does reveal some interesting comparisons with figures in the last previous census, in 1940.

For instance, recent news reports have revealed the tremendous income of Texas farm and ranch operators during the past year and previous year, but the census report gives a peek at the opposite page in the ledger—the increased operating cost.

The census report for this county reveals that in 1940 there was available here a pool of 667 farm laborers who were paid a total of \$251,135 for their services in that year. In the year 1945, the pool of potential farm laborers had shrunk to a little over one-third of the former number, only 239, but with one-third as many helpers as five years before, ranch operators paid out nearly twice as much money for help, \$439,004.

Figures on the income of Crockett county ranch operators in the comparative years shows a rise of approximately 68 per cent, from \$1,928,217 in 1940 to \$3,258,704 in 1945. Against this rise of 68 per cent in income, the operators paid a 72 per cent larger labor bill. While no figures are available from the census report on other costs of ranch operators, such as feed, supplies, etc. it is likely that such costs showed a similar and perhaps greater percentage of increase.

Many other interesting figures are contained in the census report for this county. "Farms" as listed in the report in this county average in size, 11,583.3 acres, with an average value per farm, land and buildings, of \$122,344, and a total value for the county of \$16,394,040 or average of \$10.56 per acre.

Average age of agricultural operators in this county is given as 45.6 years, with age of owners averaging 49.9 years and tenants 42.4 years. Five ranch operators in this county reported having been in the business less than one year, 29 from one to four years, 34 from five to nine years and 60 for ten years and over. All reported of the white race with no non-white operators. Dwellings on ranches in the county number 238 housing a total of 541 persons living on the ranches.

First Official Act, Sheriff Scrapes Ice From Courthouse Steps

When Bruce Harp, Crockett county's newly elected sheriff was sworn in the morning of January 1, his first official act was not to make an arrest or serve a citation—it was to scrape the ice laden courthouse steps down to rock and a safe footing. The new sheriff hustled a shovel and went to work as soon as the swearing-in ceremony was completed and soon had the steps peeled down to bedrock again.

Sheriff Harp and other county officials, including County Judge Houston Smith, County and District Clerk George Russell, Commissioners J. W. Owens and E. R. Kinser were sworn in by Mrs. Coralie Meinecke, notary public, in the clerk's office in an early-morning ceremony January 1, other officials delayed by the bad weather being sworn in later in the day.

Mrs. T. A. Kincaid, Jr., left the first of the week to visit her sister, Mrs. C. B. Baxter and family in Comanche for a couple of

Northeastern Crockett Wildcat Flows Distillate

Stanolind 1-TT Rates 6,640,000 Feet Gas From 8,013-65 Ft.

Northwestern Crockett county returned to the limelight Monday as the result of the flowing of distillate by gas rating 6,640,000 cubic feet daily from Stanolind No. 1-TT University on a drillstem test of the detrital from 8,013 - 8,065 feet. On the east side of the Permian Basin the detrital normal immediately overlies the Ordovician.

No. 1-TT University is in the C SWNW 12-39-U, only one-half mile north of Stanolind No. 1-GG University, which for awhile indicated discovery production from the Ellenburger, lower Ordovician, and is awaiting information from nearby operations before testing further.

No. 1-TT University showed gas in two minutes and drilling mud in 17 minutes on the 25-minute drillstem test Sunday night from 8,013-8,065 feet. The gas gauged 6,640,000 cubic feet daily at the end of 15 minutes. Distillate flowed 21 minutes after the tool was opened and continued until the tool was closed four minutes later. No estimate on the amount of the flow was given.

When the drillpipe was broken down a recovery was 270 feet of distillate of unreported gravity. The wildcat was coring ahead Monday.

Deepening, the wildcat unloaded oil on a drillstem test from 8,330-55 feet. Sulphur water was encountered on a test from 8,355-85 feet. Seven-inch casing was cemented at 8,371 feet and the hole was plugged back a few feet. The pipe was perforated opposite several zones, some of which were acidized, and one section also was shot, without developing commercial production.

Both Stanolind No. 1-GG and No. 1-TT, now drilling, are on a seismicograph high, on a block of 2,607 acres for which Stanolind paid a cash bonus of \$265,000 at the University Lands lease auction in November, 1945. The company has other extensive holdings in the area. Its No. 1-GG is 18 miles north-northeast of Ozona, 12 miles southeast of the Barnhart (Ellenburger) field in southeastern Reagan county and 24 miles north of the Todd Deep field in Crockett, which has both crinoidal and Ellenburger wells.

Shell No. 1 University, wildcat C NW NW 21-39-U, 1 1/4 miles south and one-half mile west of Stanolind No. 1-GG University was drilling Monday at 6,695 feet in lime and shale.

4H Adult Advisory Committee Named At Parent's Meet

Club Objects Explained by County Agent at Meet Mon.

Appointment of an adult advisory committee to work with boys of the Crockett county 4-H Clubs resulted from a meeting of parents of 4-H Club boys and other interested adults held at the high school Monday afternoon.

County Agent Joe Cowan spoke to the group on the 4-H Club work, explaining the objects of the club and outlining the program for boys in club work in this county.

Charlie Coates and Mrs. Frank Jones were selected by the group to choose three other members to form a five-member adult advisory committee. Others selected were Charlie Davidson, Phillip Lee Childress and Lindsey Hicks. Mr. Davidson was elected chairman of the committee.

ON TOP AGAIN... Leon Blum, new premier-president of France, who recently was elected to France's highest office. The 74-year-old Socialist succeeded in forming a cabinet. He is credited with arranging loan to France from U. S.

Local 4-H Boys To Exhibit Calves In City Park Jan. 25

Three 4-H Club calves being fed by two boys of the Crockett County 4-H Club will be exhibited in the downtown city park Saturday morning, January 25, before being taken to 4-H Club shows in San Angelo and Houston, County Agent Joe Cowan, 4-H Club sponsor, announced this week.

Two of the calves fed by Charlie Boy Davidson will leave immediately after the local showing to be exhibited in the Houston Fat Stock Show. The other calf, fed by Max Word, will be shown at the San Angelo show. The Davidson calves are both milk fed while young Word's is of the dry lot class.

Making the trip to Houston with Charlie Boy and the County Agent will be Max Word who will serve as alternate showman.

"Come by and see these calves, guess at their weight," invites the county agent. Mr. Cowan prophesies that next year, Crockett county 4-H boys will have several calves for each of the major shows.

Improved Sugar Supply Is Seen

COLLEGE STATION. — Texas homemakers can now look with renewed hope toward an improved sugar supply.

Miss Gwendolyn Jones, food preservation specialist of the Texas A. and M. College Extension Service, calls the attention of housewives to a recent statement by Secretary of Agriculture Clinton P. Anderson concerning possibilities of increased home sugar supplies.

"Barring unpredictable disasters, sugar will be available to increase rations in the United States by one 5-pound consumer sugar stamp by April 1, 1947. . . It is believed that the sugar supply situation will warrant further increases later in the year, but at this time it is too early to specify amounts."

A step toward a better sugar supply was taken January 1, says Miss Jones, when a spare stamp for five pounds of sugar was made good by the OPA. The spare stamp will be valid until April 30.

Judging from reports from the U. S. Department of Agriculture, it is likely that the second consumer stamp for 1947 will be made good before the spare stamp expires, predicts Miss Jones. When this happens, the present ration of five pounds of sugar every four months will be increased.

Negro Jailed Here On Car Theft Charge

Herbert Grimes, negro, was jail this week on a charge of car theft after his arrest in San Angelo late last week. Grimes is charged with theft here of a car belonging to I. B. Harper.

Sheriff Bruce Harp, who took office January 1, went to San Angelo to bring back the stolen car, which was recovered in San Angelo, and the negro charged with the theft.

Southwest Gets Respite From Record Cold

Week-Long 'Spell' Is Declared Most Frigid In History

Although the Southwest received a welcome respite from the record cold weather of last week, the weather still continued to be the uppermost topic of conversation as the bitter cold moderated, record snowfall was partly melted, and then followed up rain with snow flurries mixed in for the most novel display of unusual weather this section has ever experienced.

A record for persistent cold, last week's snow and bitter cold drove the thermometer to below the zero level, with temperatures of zero to four below being reported in different sections of the county. A solid week without a minute's let-up from below freezing temperatures, with from six to ten inches of snow covering the ground, constituted a record for continued bad weather in this area and relief in the form of rising thermometers the first of this week was welcomed by the populace.

Livestock was badly drawn by the continued cold and snow in pastures, but few losses were reported and on the whole, stock are believed to have weathered the cold in good condition. Moisture furnished by the snow, estimated at from three-fourth to an inch, plus the follow-up rain will put pasture land in fine shape for winter weeds, if warmer weather does become a reality, and for early spring green feed.

Brock To Drill Wildcat Northeast Of Shannon Field

L. E. Brock of Iran has started a proposed 2,500-foot cable tool wildcat in Crockett county three miles northeast of the Shannon field, 660 feet out of the north west corner of section 24-GC&SF.

The test is on a farmout by Magnolia of the west half of section 24. It had drilled past 498 feet in sand, encountering a hole full of water at 415.

Shell No. 1 University, north-eastern Crockett county wildcat near the C NW NW 21-39-U, recovered 240 feet of slightly gas-cut mud, with no shows of oil, on a one-hour drillstem test from 6,340-6,669 feet. It drilled ahead below 6,715 feet in shale. The wildcat is 1 1/4 miles south and one-half mile west of Stanolind No. 1-GG University, which for a while indicated discovery Ellenburger production.

Stanolind No. 1-TT University, near the C SW NW 12-39-U, half mile north of Stanolind No. 1-GG University, prepared to resume drilling at 7,969 feet in shale after being shutdown on account of the holidays and bad weather.

Humble No. 6-C fee and others in the Todd Deep field, C NE SW 65-UV-GS&SF, was drilling in shale.

Livestock Shipments Sag in November after Soaring in October

AUSTIN. — Texas livestock shipments took a downward turn in November after soaring in October with the removal of OPA control over meat prices, according to figures released by the Bureau of Business Research of the University of Texas.

The total 10,262 cars shipped were 17 per cent below October's 12,388 and were 13 per cent less than shipments made in November 1945.

Shipments of hogs showed the only increase over October, 62 per cent, and rose 133 per cent over November 1945. Shipments of cattle fell 15 per cent from October.

Mr. and Mrs. George Harrell leave this week for Brownsville where they will spend several weeks.

CITATION BY PUBLICATION THE STATE OF TEXAS

TO: Richard A. Kalasky
GREETING
You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 24th day of February, A. D. 1947, at or before 10 o'clock A. M., before the Honorable District Court of Crockett County, at the Court House in Ozona, Texas.
Said plaintiff's petition was filed on the 30 day of Dec. 1946.
The file number of said suit being No. 891.
The names of the parties in said suit are:
Maxine McFadin Kalasky as Plaintiff, and Richard A. Kalasky as Defendant.
The nature of said suit being substantially as follows, to wit:
Suit for Divorce to dissolve the bonds of matrimony, that now exist between Plaintiff and Defendant.
Plaintiff alleges that because of the conduct of the Defendant toward this Plaintiff she was compelled to abandon him about November 15, 1946 since which time

they have not lived together as husband and wife, and that one child was born as a result of said bonds of matrimony and upon trial hereof Plaintiff be granted a divorce from Defendant and that she have judgment for costs of suit and for \$40.00 per month for support of said child and that she be given care and custody of said child.
Issued this 8th day of January, 1947.
Given under my hand and seal of said Court, at office in Ozona, Texas, this the 8th day of January A. D. 1947.
(SEAL) Geo. Russell Clerk District Court, Crockett County, Texas. 40-4c

SWING OF SOUTHWEST FARM MARKETS

Cold weather late last week damaged some crops and curtailed receipts of most farm products at southwest markets, according to USDA's Production and Marketing Administration. Year-end dullness prevailed and prices were generally unchanged from a week earlier.
Vegetables sold at generally steady prices under fair to good demand at southwest shipping points last week. Oklahoma and

Arkansas reported serious damage to spinach. Lower Rio Grande Valley fields escaped frost damage through Friday, but sleet or snow sharply curtailed late-week shipments in Texas and Colorado.
Improved demand for grain late last week tempered holiday dullness early in the period. Relatively large receipts at terminals reflected efforts to move grain before January 1 freight increase. Most cash prices were slightly lower than a week earlier.
Cold weather improved demand for feed and hay. Millfeeds advanced slightly late in the week. Year-end hay prices were 03 to \$9.50 per ton higher than a year ago under OPA ceilings.
Wool advances of 1 to 3 cents per pound, clean basis, were provided in the new Commodity Credit Corporation schedule for graded wools. Bag wools were advanced a fraction. Foreign wools were easier.
Cattle were generally steady to 50 cents and \$1.00 higher than a week earlier. Medium grass fat and short fed steers brought \$17 to \$20.25 at San Antonio. The bulk of medium to good slaughter steers brought \$18 to \$23 at Fort Worth and Wichita, and \$19 to \$24.50 at Denver. Medium grass fat and short fed steers realized \$17 to \$20.25 at San Antonio and medium and good short fed steers

and yearlings sold freely from \$18 to \$22 at Oklahoma City.
Hogs were uneven to higher and sheep and lambs steady to strong at S. W. markets last week.

Cottonseed Stocks Decline in Texas

AUSTIN. — Cottonseed crushed in Texas during November rose to 122,861 tons, an increase of 19 per cent, while cottonseed received at the mills fell 39 per cent, leaving stocks at the end of the month 3 per cent less than October, according to Bureau of the Census figures analyzed by The University of Texas Bureau of Business Research.
Activity in cottonseed production declined from November of 1945. Cottonseed received at the mills showed a 35 per cent loss; cottonseed crushed fell of 4 per cent; and stocks at the end of the month reflected a 13 per cent decrease.

BAND NEWS

Everyone is working hard getting ready to go to Big Lake on the February 15th. This will be the first in a series of programs. The band is going to give a par-tial jazz concert around the first of February. Everyone is working hard on this one.

We are having our mid-term test over different musical terms and composers.

to school spirit last week except Lillian and Kerry. What happened? Huh?

Mr. Sikes invited the Geometry Class down to Mary K.'s house. We've heard that just eighteen pupils went. Mr. Sikes, you should have been there. They might have studied Geometry instead of making snow ice cream and dancing.

Nat, where were you Saturday night? Are you going to try it again?

Jane, which Barnhart boy were you with?

Sam, Jo Lou, Chris, Joan, Lin and June seemed to have quite a time of it Sunday night at Joan's.

How did you hurt your knee, Don? Did you chase that certain sophomore again? Did you catch her?

Have you heard? Buddy Phillips quit basketball.

Ann H. has been hit by the love dart. Namely a fish called Kenneth.

Jo Nell O. and Jerry L. must like Eddie C.'s pickup. They've been in it quite a few times.

Jo Lou gets around. Sam, have you anything to say?

Sue, what's this we hear about you and Tom M. talking so much?

Mr. Brown, why don't you tell all you know?

Raymond A. why do you keep your hat on in the show when you sit in front of certain girls?

Why does Charles C. always blush when he passes Betty C.?

Boots, have you missed Tony? You couldn't see him while you had the mumps.

Mr. Archer, did you finally learn to shovel snow? Miss McWilliams was a very patient teacher.

Welcome to a new fish, Robert Haynes

Joan, why do you take a small bottle to school?

Betty Jane, did C. G. call you from Sonora?

having a "swell" time and will be back with us soon.

We have also missed Marian Dryden who has been at home with the mumps.

M. M. NEWS

The H. M. II is just completing a unit on kitchen planning and housekeeping. Convenience and saving the housekeeper's time were among the chief considerations.

Among the housekeeping chores studied were the use and care of the vacuum cleaner for upholstered furniture. Frequent use of these cleaners will keep rugs and furniture in good condition. Another chore is to rewire plugs, sockets, iron plugs or repair worn wires.

Mr. and Mrs. Kelly Anthor have moved to San Saba where Mr. Anthor will be associated with his brother in the operation of an auto agency.

GOOD MANNERS FOR HIGH SCHOOL STUDENTS

As one passes down the hall on second floor, he often notices the clever ditties concerning this thing called etiquette on the bulletin board. Most of these cartoons and bits of verse come from the Good Housekeeping Magazine.

The H. M. I class has been studying these clippings with great amusement and occasional embarrassment upon finding a verse applying to some particular person.

The following rhymes were written by Billie White and Mary Ann North.

Get up when you're called
And don't miss your bus;
Then you'll save
Quite a bit of fuss.

Do your share of work
As other people do —
And they will think
100% more of you.

Be loyal to your parents
And they'll be glad.
But if you mistreat
They'll be sad.

Respect property of others
Never be a borrowing pest.
If you must beg to lend,
Return it at its best.

STUDENT OF THE WEEK

She hit O. H. S. like a never forgotten storm. She's described as the blonde headed, dimpled cheeked, sweetest girl in school. She's never been in the groove. Her name is Jo Lou Brewer who hails from Del Rio. She fitted in our town like a lost piece to a puzzle.

The mumps finally caught up with Max. Max, we hope you are

SCALP TROUBLE!

You must find Durham's Resorcin Tonic the best ever used for itching scalp, dandruff, falling hair — or your money back. Large bottle only 75c at

SORE THROAT—TONSILITIS YOU WANT QUICK RELIEF!

A good throat mop is hard to find and DURHAM'S ANATHESIA-MOP is a Doctor's prescription which gives prompt relief from pain and discomfort. It is a powerful germicidal stain, pleasant to use. Safe for children. Purchase price refunded if you do not find ANATHESIA-MOP superior. Generous bottle with applicators only 50c at your Druggist or at

SMITH DRUG CO.

OZONA LODGE NO. 747 A. F. & A. M.

Regular meetings second Thursday in each month.
Next Meeting Jan. 9

DAUGHTER BEATS MOTHER

In relieving the discomfort of children's simple chest colds by using Durham's Nu-Mo-Rub, the modern Guaiacol-Camphor chest rub. Doctors agree that its 29% Guaiacol-Camphor formula is a decided improvement over Mother's old-fashioned Eucalyptus style salves. Try Nu-Mo-Rub for croupy coughs. Double the purchase price refunded if you do not find Nu-Mo-Rub more effective. In 25c and 60c jars at your Druggist or

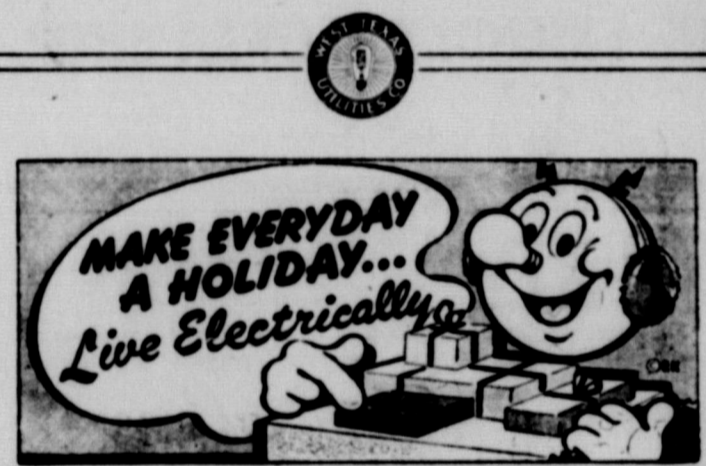

SMITH DRUG CO.

NOTICE OF REWARD

I am offering
\$500 Reward

for apprehension and conviction of guilty parties to every theft of livestock in Crockett County — except that no officer of Crockett County may claim the reward.

BRUCE HARP
Sheriff, Crockett County

Now that the Holiday season is over, let us pause to reflect on the value of these and other pleasant holidays to civilization. Holidays—you know—were originally, and still remain, days to be set apart for exemption from hard labor.

And there is where Reddy Kilowatt shines—freeing housewives everywhere from many hard tasks. A few of Reddy's holiday contributions to the homemaker are:

- Washing machines instead of the wash board
- Refrigerators replacing window milk boxes
- Ranges in the place of smoking hot cook stoves
- Air conditioners supplanting palmetto fans
- Blankets superseding the mountains of fatigue producing bed covering

Reddy Kilowatt's electric service is available to make every day a holiday—by lessening the housewife's hard tasks.

Office Supplies—Stockman office

More than 100 University of Texas students, including some girls, have applied for admission in the new flight - training program which will begin early in January. The program will be expanded to include training for flight instructors and commercial pilots, as well as instrument flying. Clarence G. Odell of San Antonio is director of the new program.

According to painstaking estimate by the Dutch astronomer, Kapteyn, there are about 40 billion stars in the single galactic system of which the earth is a part.

DISPLACED JAPANESE . . . Among the war orphans back from Mukden and Hsinking area pictured arriving at Shinagawa station is Ishiko Hosoda, 10, right, carrying the ashes of her mother in a white bag around her neck.
