Top Quality General Tires

And Air Seal Tubes

Now you can get off those risky wartime tires and get rolling on new, rugged Top Quality rubber

GENERAL'S SQUEEGEE TREAD **STOPS FASTER – SAFER – SURER**

Gives you real non-skid safety in Wet Weather

and extra blow-out Protection for the hot days ahead.

For 30 years the name GENERAL has been synonimous with Top Quality in passenger car and truck tires. The chief reason for General's Superiority is the Company's policy of "Not How Many but How Good" Quantity production has never interfered with its aim of making the best tire possible regardless of cost.

GENERAL DUAL "8" SQUEEGEE PASSENGER TIRES

Sizes 6.00 - 16; 6.50 - 16; 7.00 - 15 (4 ply) now in stock

Also 6.50 - 16 and 7.00 - 16 Heavy duty pick-up tires.

HOUSE TRAILERS

Owners of House Trailers are advised that it is now necessary to secure a Certificate of Title on these vehicles the same as for motor vehicles. Uunder H. B. No. 286 recently passed by the Legislature the term "House Trailer" means a vehicle without automotive power designed for human habitation and for carrying persons and property upon its own structure and for being drawn by a motor vehicle.

The same type of Title will be issued on House Trailers as is now issued on motor vehicles except that the words "House Trailer" will appear under the Title number.

The 1 percent tax, collected on motor vehicles, will not be collected on House Trailers.

House Trailers MUST BE REGISTERED at the time application for Title is filed, and House Trailers now registered should apply for Title.

To register and secure Certificate of Title to a House Trailer owner must present manufacturer's certificate or bill of sale, serial number of the trailer, its weight and make On homemade House Trailers the owner should execute an Affidavit of Ownership for Homemade House Trailers.

If House Trailer does not have serial number an appli-cation for assignment of a serial number must be made for which a charge of \$1 will be made.

Where Do Managers Come From?

DOZEN MEN operate turret lathes. A dozen clerks stand behind hardware counters. A dozen stevedores hoist dockyard freight.

Sooner or later, one operator, clerk, stevedore is going to reach out and do the work more competently than those alongside him.

This is a real beginning. But it is not enough for a man who hopes to manage.

A manager must have demonstrated that he can take orders, before he gives orders. He must know how to impart information. He must have character, courage, and the ability to administer.

" If he has all these, he is ready to go on up. Some managers stay on the first, eighth,

West Texas Utilities

Company

tenth steps, and do an important job. They are the foremen, superintendents, department heads, buyers. Some still keep going. The most farsighted and imaginative climb to the top.

This constant movement of men upward is one reason why American business has an ever-fresh point of view. Someone is always bringing a new idea on up with him.

Neither the men and women in industry nor the money in industry can be effective without good business-management. Nothing else is so important to the workers' welfare, the investors' welfare or the public welfare.
