NUMBER 29

Lions Breeze Thru 40-18 Win At Rocksprings

Reserves Do Most Of Playing In Easy Victory

Every man on the squad of the Ozona High School Lions saw service in Saturday's game at Rocksprings, but despite the efforts of Coaches Sikes and Parker to hold down the score, the final tally was a 40-18 victory for the Lions.

Nat Read took the Rocksprings opening kick-off and waltzed down the field for a touchdown, but the ball was called back to the Rocksprings 20 where the referee ruled that he stepped out of bounds. On the first play from scrimmage, Nat went the distance for the first touchdown. Don Cooke booted the conversion point.

The next time the Lions got possession of the ball, Bernard Lemmons galloped over for a touchdown. The try for point failed and the score was 13 to 0. At this point Coach Sikes ran in his second string for the balance of the quarter, the Bulldogs scoring a touchdown before the period's end, the try for point failing.

With the margin thus narrowed, Ozona coaches trotted in the first string for two more quick touchdowns, Jack Coates carrying for one and Read the other, one of the two tries for points being successful for a score of 26 to 6. Again the reserves were sent in and again Rocksprings pushed over a touchdown.

After the second Bulldog tally, the first stringers slipped in for another marker Read carrying this time and Cooke kicking the extra point to make the tally read Ozona 33, Rocksprings 12.

But from there to the end, it was the reserves, all of them going in at one time or another, and in the fourth period the Lions starters of the future rang up another tally for the Ozona crew, diminutive Frankie Chapman totting the ball on the final spurt for the touchdown. The try for the point was also good for a total score of 40. The Bulldogs kept everlastingly at it to score their third and last touchdown in the final frame, but again the try for point was unsuccessful.

The inexperienced but game Rocksprings lads exhibited plenty of determination and spirit and a passing attack that gives promise of placing them in the category of serious title contenders in another year.

The Lions will face a much stronger aggregation next Friday night when they go to Junction to tangle with the strong Junction Eagles under the lights. The game is set for 7:30 p.m. with the Lions standing no better than a 50-50 chance of bringing home the tall end of the score.

The High School Band and Pep Squad will accompany the team and perform in full regalia during the evening's hostilities starting with a band concert at 6:30.

Bake Sale Benefit Sunday School Class

A sale of baked goods, cakes, pies, etc. will be held next Wednesday, October 29, at the Ozona Butane Co. office, from 9 to 11 o'clock a.m.

The sale is sponsored by the Lillian Henderson Sunday School class for young adults of the Methodist Church, with proceeds to go into the class treasury.

Billy Womack, son of Mr. and Mrs. W. D. Womack of Ozona, now stationed in Japan attached to the famous 11th Airborne Division, was one of the victims of the recent typhoon which struck Japan. Womack was with a detachment of paratroopers on maneuvers in northern Japan when the troopers were cut off in the hills by the typhoon, along with 30,000 Japanese who fled to the hills for safety. The American soldiers and Japanese were marooned for ten days and were fed by the American Army, which dropped supplies from the air.

Former Prisoner of Japs Finds One Of Her Rescuers Here

"Next to my mother, the dearest thing to me is a paratrooper," commented Mrs. Bessie Sneed Dakin of Kerrville, who was rescued from a Japanese prison in the Philippines in the last stages of the war by a detachment of paratroopers from the 11th Airborne Division.

Mrs. Dakin, author of a book in which she relates her experiences as a prisoner of the Japs, together with her husband, spent 34 months in Japanese prisons. Her husband a mining engineer in the Philippines at the outbreak of the war, was broken in health as a result of the 34 months in the hands of the Japs, and the couple now live at Kerrville where they operate a small chicken farm. Mr. Dakin suffered from malaria fever and tuberculosis in both lungs. The tuberculosis is now arrested and progress is being made in recovering from the malaria.

Mrs. Dakin visited Ozona this week selling copies of her book and had the happy experience of meeting one of her paratrooper rescuers, Preston Hunnicutt, former member of the 11th Airborne, who was with the detachment making the jump to rescue 2,000 prisoners who were being threatened with death by the Japs on northern Luzon island.

Ozona Junior Cubs Drop 6-0 Game To Rocksprings Juniors

Ozona Junior High Cubs came out on the short end of a 6-0 score when they invaded the Rocksprings Junior precinct Wednesday afternoon.

Coaches Dean Chafin and D. A. Parker will pit their charges against the Rocksprings Juniors in a return match on the Ozona grid next Wednesday afternoon starting at 3:15.

Team members making the Rocksprings trip included Eddie Smith, Leon Dunkin, Bill Schneemann, Don Taylor, Charles Garlitz, Tom Piner, Wilburn Conklin, Darwin Parr, Bud Thompson, Billy West, Allen Haire, Phillip Childress, Graham Childress, Douglas Capps, Earl Berry, Larry Graves, Bill Gillett, Ben Burl Conklin, Farrar Hedges, Sellers Laxson, Norman Ballard, Gordon Sparks, Norman Hill and Lewis Robinson.

P. T. A. Carnival Set For Tonight In City Park

Every Man, Woman And Child In Crockett Expected

It's carnival night in Ozona! The Ozona Parent-Teachers annual carnival is to have first call on all entertainment seekers beginning about five this afternoon and continuing to near midnight. The event, a chance for the annual get-together of all Crockett county folk, is due to outstrip even the sensationally successful carnival a year ago and all those who recall the great fun of that event last fall will want to be on hand tonight for all the festivities.

There will be sandwiches, hot dogs, drinks and eats of all kinds for those who want to be on hand early to make a night of it. There will be chunk stands, bingo games, fishing stands, fortune telling, roulette wheels and dozens of entertaining opportunities to help the PTA band uniform fund.

All proceeds above expenses go toward retiring the PTA debt for the beautiful new band and pep squad uniforms which are making such colorful displays at each of the football games this season.

A highlight of the evening will be the award of a \$125 hand-made saddle to be given away at the grounds. There may be auction sales of livestock, cakes or other articles—but anyway, the roll of Crockett county will be called and all but the lame and sick will be expected to answer.

Methodists Plan First Services Sun. In New Home

Barracks Buildings Ready For Use As Temporary Church

"We Are Building" will be the theme of the sermon to be preached Sunday morning by the Rev. Horace M. King on the occasion of the first service of the Methodist Church in its new barracks buildings, temporary quarters of the church until a new building can be erected.

The church purchased two large barracks buildings from Army surplus sales and has set them up on the rear of the church lot on the east side of town. Volunteer and hired workers have been busy the past two weeks refinishing and partitioning the buildings in readiness for use in Church School and worship services.

The Sunday School classes will meet in new locations. The Nursery group will meet in rooms which Mrs. Charles Williams has provided. The Kindergarten group will meet at the parsonage, while the primaries, juniors, intermediate and youth groups will meet in the "Educational Building," which has been cleaned, painted and arranged for them. The adult classes will have designated places in the building which will be used as a sanctuary.

At the noon hour there will be for all in attendance with their families and friends a covered dish spread. The special committee of the church is providing the meat and coffee so that family kets need not include these items.

In the afternoon there will be an informal Church Family Council, the first of its kind ever held in Ozona. It will feature singing and spontaneous discussion of plans ahead, the new church building and the program for enlarging the work of the church for the welfare of the community.

The evening service will be attended by all the group planning to hear the pastor's sermon on "The Warm Heart in the World Parish."

Every detail will not be completed Sunday but the new church site is in usable order and will be the new church home during the building program. For Sunday's services transportation will be furnished to those phoning the parsonage ahead of time. A young woman has been employed to care for the children during the services. All are welcome at these "opening" services, to see the equipment and hear the plans for the future growth and service of the Methodist Church in Ozona.

Attend Locker Plant Operators Convention

Mr. and Mrs. Hubert Baker, of Baker's Food Store and Locker Plant, attended the convention of the Texas Frozen Foods Locker Association held in Fort Worth October 16 through 18. Over 150 locker plants in Texas were represented at the education conclave at the Blackstone Hotel in Fort Worth.

Many of the nation's outstanding refrigeration, frozen foods and locker plant experts were on hand to lead the various discussions, Mr. Baker said. The convention keynote was "Team Work" maintaining high standards of quality foods through advanced methods, to increase services and improve facilities in processing foods.

HANNAH JOINS TROJAN CLUB

Billy L. Hannah, son of Mr. and Mrs. Neal Hannah of Ozona, has been selected as a new member of the Trojan Club, a men's social organization, of Abilene Christian College, Abilene.

He and five other new members were officially initiated recently at the home of A. B. Morris of the college physical education department, sponsor of the club.

He is a junior student at Abilene Christian College.

Byrd-Frost Sets Casing To Try For Wolfcamp Production

D. Harold Byrd and Jack Frost and Gulf Oil Corp. No. 1 J. B. Mayberry-J. H. Tippet wildcat in the panhandle of northwestern Crockett county has cemented 7-inch casing at 6,400 feet. It had plugged back to that point from 7,796 feet after finding the Ellenburger barren and encountering water in that formation on drillstem test from 7,732-96. The Ellenburger was entered at 7,694 feet below sea level.

Plugs will be drilled and the 7-inch will be perforated opposite a section in the Wolfcamp, basal Permian, that showed oil in streaks between 6,309 and 6,400 feet. Oil flowed on a drillstem test between 6,295 and 6,399 feet. The prospective discovery is 660 feet from the northeast and southeast lines of section 39-31-H&T, 11 miles east of McCamey.

Humble No. 1 Ethel Childress Smith estate, diagonal northeast offset to Humble No. 1 Mrs. Grady Mitcham, opener of the Childress (Ellenburger) pool in northwestern Crockett county, recovered 300 feet of oil and gas-cut mud and 120 feet of salt water on a two-hour drillstem test of the Ellenburger from 8,147-67 feet. It drilled to 8,192 feet set a packer at 8,167 feet and drillstem test two hours. There was a weak blow of air and recovery of 140 feet of drilling mud and 100 feet of gas-cut mud in the bottom. There was no mention of salt water. Drilling continued at 8,242 feet in the dolomite. Location is the C SW SW 1-B&F, half mile west of No. 1 Mitcham, was drilling at 7,179 feet in shale after being down 20 1/2 hrs. fishing.

Humble No. 1 Pleas L. Childress estate, C SW NE 5-CD&SE, 2 1/4 miles south and three-quarters of a mile east of No. 1 Mitcham, was fishing for bit cones at 4,010 feet in lime.

Humble No. 1-G J. W. Owens, south outpost of the Clara Couch Wolfcamp field in western Crockett, C SW SW 6-GG1H&OB, was making hole at 4,800 feet in lime and shale.

Two Intersection, Two Conference Tilts For Week-End Airing

Two top intersection matches and two battles between conference contenders highlight this Saturday's football broadcasts to be brought to radio listeners by the broadcasting crews of Humble Oil & Refining Company.

The Rice-Texas U. Conference tilt will be broadcast from Memorial Stadium in Austin, with Kern Tips at the play-by-play mike and Alec Chesser filling in on the color assignment. The program scheduled to go on the air at 2:20 p.m. will be heard over stations WOAL, San Antonio; KPRC, Houston; WFAA-WBAP, Dallas-Ft. Worth.

The T. C. U.-Oklahoma U. game, with Bill Michaels handling the play-by-play and Fred Kincaid, color, will be heard at 2:00 p. m. from Owen Stadium in Norman, Oklahoma. Scheduled to carry the broadcast are stations WFAA-WBAP, Dallas-Ft. Worth; KTSA, San Antonio; KTRH, Houston.

Humble's airing of the Baylor-Texas A & M contest, originating at Kyle Field in College Station, will be handled by Charlie Jordan on play-by-play, with Jerry Doggett assisting at the color mike. The broadcast will be heard at 2:20 over stations KFJZ, Fort Worth; WRR, Dallas; KGKL, San Angelo; KCRS, Midland; KOSA, Odessa; and KIUN, Pecos.

Veteran Humble announcer Ves Box will journey all the way to Los Angeles to describe the S. M. U. - U. C. L. A. game, due to go on the air at 4:20 p.m. Stations KRLD, Dallas; KATL, Houston; and KABC, San Antonio will broadcast the game.

Mrs. J. M. Baggett is in a San Angelo hospital where she is recuperating from a recent illness.

Mrs. Bill Carson was in San Angelo early this week for medical attention.

Two Completions, Two Locations In Crockett Reported

Producers Completed In Crockett Field; Tests Scheduled

Applications for permits to drill outposts to the Clara Couch Wolfcamp field and to shallow San Andres lime producing area opened by Gar-Ter Drilling Corporation and completion of two wells in the Crockett Grayburg field in Crockett County were filed with the Railroad Commission Tuesday.

Plymouth Oil Co. will drill No. 1-O Dora Schlomack 660 feet out of the southeast corner of section 9-GG-T&NO. The scheduled 7,000 foot rotary test, due to start at once, will be a diagonal northwest offset to Plymouth No. 2-O A J. W. Owens, producing north offset to the Clara Couch Wolfcamp discovery. The location is near a 2,041-foot dry hole drilled by Plymouth in 1944.

Gar-Ter Drilling Corp. applied for a permit to drill No. 2-A R. L. Vaughn 854 feet northwest of its No. 1 R. L. Vaughn, recently completed at 1,500 feet, 8 inches, from only eight inches of San Andres pay with a daily potential of 216 barrels of 19 gravity pipeline oil. No. 2-A Vaughn will be 1,673.1 from the south, 2,623.6 from the east line of section 86-OP-GC&SF. It is projected to 1,500 feet. Elevation is 2,608 feet.

In the Crockett field, J. W. Peery No. 2 University registered a daily flowing potential of 66.98 barrels of 27 gravity oil and a gas-oil ratio of 1,573-1. It topped the pay at 1,355 feet, drilled to 1,422 and was treated with 1,000 gallons of acid. Flowing pressures were 425 pounds on the casing and 160 pounds on the tubing. Location is 990 from the south, 1,022 feet from the east lines of the lease in section 9-14-U.

Peck & Hall No. 1-B University in the Crockett field, 330 feet from the south and east lines of the northwest quarter section of section 9-14-U, was finished on the pump for 24.84 barrels of 27 gravity, pipeline oil in 24 hours. It topped the pay at 1,455, drilled to 1,496 feet and was treated with 1,000 gallons of acid.

Cities Service applied for a permit to drill No. 3-T University in the Crockett field, 330 from the south, 990 feet from the east line of section 18-14-U. Drilling 1,550 feet with cable tool is planned, starting Oct. 30.

Schedule Changed By Kerrville Bus

A change in all Kerrville bus Co. schedules through Ozona went into effect Monday of this week.

Under the new schedule west bound busses will arrive and leave at 12:50 a.m., 8:45 p.m., and 1:35 p.m.

East bound busses will arrive and depart at 9:50 a. m., 4:25 p. m. and 12:35 a. m.

Woman's Club To Meet In Church Of Christ Center

Ozona Woman's Club will meet in the "Granny Miller Hall," the Church of Christ Community Center at its next regular meeting, October 28.

"Personality" will be the program topic for the day with Mrs. O. L. Sims as the leader. Hostesses will be Mrs. S. M. Harvick and Mrs. Lowell Littleton.

Mrs. Vernon Ratliff will discuss "Self Confidence." Mrs. E. B. Ingham will talk on "Psychological Analysis and Religion" and "Personality Aberrations" will be the topic to be discussed by Mrs. Ewart White. A business session will follow the program.

B. A. Averitt, father of Mrs. J. R. Kersey is reported improved after a recent illness. Mr. Averitt's son, Watt Averitt of Lufkin, visited him here this week.

SGRA Executives To Be Invited To Meet In Ozona

Community Council To Sponsor Hospitality for Group

Members of the executive committee of the Texas Sheep and Goat Raisers Association will be invited to hold one of the committee's quarterly sessions in Ozona during the coming year.

The Sheep and Goat Raisers executives will be the guests of the community through its Community Council. Members of the latter body in session Monday evening voted unanimously to assume responsibility on behalf of the citizenship and to extend an invitation to the committee to hold one of its quarterly sessions in Ozona.

It is customary for some civic group in each city in which the committee holds its one-day session to entertain the visitors at a dinner, either a barbecue, or other form of meal and members of the Community Council felt that the citizens of Ozona would welcome the opportunity to entertain this group of men who are leaders in the association's objective to improve the livestock industry. It will be left up to the committee to designate which of the quarterly sessions will be held in Ozona.

Sweeping of Ozona streets in the business district, a new postoffice for Ozona, removal of the old Lions Club sign at the highway intersection in the business district, better street lighting, and a church for Ozona negroes were other topics discussed in the regular meeting of the Council at the courthouse Monday night.

Ozona has been included in the postoffice department plan for a new postoffice building, to cost an estimated \$75,000. But no appropriation has yet been made by Congress for the department's plans. Members of the Council voted to communicate with Congressmen Ken Regan on the subject and to urge action in the next session of Congress.

Callery Gets Pay On Southeast Side Todd Field

New Ellenburger Well Half Mile From Original Failure

F. A. Callery and associates' No. 8 J. S. Todd estate on the southeast side of the Todd Ellenburger field in western Crockett county was in the process of completion Thursday as an Ellenburger producer only one-half mile northwest of where Standlind drilled an Ellenburger failure early in 1933.

Topping the Ellenburger at 6,130 feet and entering the pay at 6,256 feet, the Callery well drilled to 6,345. It is in the C SE SW 66-UV-GC&SF.

Standlind No. 1 Todd, in the center of northeast quarter of section 67-UV-GC&SF, was credited with topping the Ellenburger at 7,006 feet, 4,246 feet below sea level. It showed some oil and gas but flowed sulphur water at 8,041 feet and was abandoned there May 19, 1933. Ellenburger production in the Todd field was not discovered until 1940.

Plymouth No. 1-O-A A. C. Hoover, two miles north of the Clara Couch Wolfcamp field in western Crockett, bottomed at 6,870 feet in the Ellenburger, showed no oil or gas before shooting with 970 quarts of nitroglycerine. No shows were reported after the shot but a drillstem test was to be made. In the event that production is not developed in the Ellenburger, considered unlikely, the hole will be plugged back for an attempt at completion as a producer from the Wolfcamp.

The outpost is 2,011 from the north, 660 feet from the west line of section 11-GG-H&OB.

Chevrolet - Oldsmobile Sales & Service Phone 172

"And I don't mean electric light bill, either. It's a service bill today!"

Because lights are only a small part of it. It's a cooking bill and a cleaning bill and a heating bill and a cooling bill and a hot-water bill, as well. It covers food preservation and entertainment washing and ironing and sewing and a lot of other things besides. It's the biggest bargain in your family budget. When the cost of practically everything else has gone UP, the price of your electric service has stayed modestly LOW. You are now getting twice as much electricity for your budget dollar as you did 20 years ago—electricity is doing many, many more jobs than it did then."

West Texas Utilities Company

Statement of the Ownership, Management, Circulation, etc. required by the Act of Congress of August 24, 1912.

The Ozona Stockman published weekly at Ozona, Texas for October 1, 1947.

Before me, a notary public in and for the State and county aforesaid, personally appeared W. E. White, who, having been duly sworn according to law, deposes and says that he is the owner of

the Ozona Stockman and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the publication), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: Publisher W. E. White,

Ozona, Texas. 2. That the owner is: W. E. White, Ozona, Texas. 3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: None. 4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the

books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or

indirect in the said stock, bonds, or other securities than as so stated by him.

5. That the average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the six months preceding the date shown above is 775.

W. E. White

Sworn to and subscribed before me this 10th day of October 1947. (SEAL) J. P. Pogue

BOYCE HOUSE GIVES YOU TEXAS

Upon what little things, great achievements sometimes depend. Many years ago, there came to the mining rush town of Virginia City, the most famous humorist of the day, Artemus Ward. After the lecture that night Ward and several newspaper men did a little celebrating which climaxed with Ward and a young and obscure reporter walking over the rooftops in the

business district. They were almost fired upon as burglars. The reporter was Mark Twain.

Did you ever hear the "rebel yell?" I. Hardin secretary of the Kentucky Historical Society wrote your columnist, asking for assistance in preserving the battle cry of the Confederacy for posterity. . . . The distinction of being the youngest member of a Chamber of Commerce goes to Vanessa Sharyl Bryan, one day old. Her father, Vance Bryan, a former Texan, is owner of the luxurious Jack Tar Courts in Hot Springs, Ark. . . . Neal Estes Chicago editor, stops his car at all railroad crossings. He said he once drove across soon after a train had passed and his brother, an attorney, remarked, "It's true that one train went by just a little-bit ago but the railroad owns the line and it reserves the right to run a train every minute." WHY long distance lines are so busy

Long distance telephones are carrying a heavier traffic load today than even in wartime. Business men in search of merchandise, manufacturers and builders in need of equipment, naturally use the telephone as the quickest way to reach suppliers. Our long distance lines are still overloaded, so telephone "traffic jams" occur. If you have a few minutes' wait when calling long distance, please be patient. Today, as always, telephones carry a lot of important business.

WILSON MOTOR CO. Ozona Lee Wilson, Mgr. Texas

BOYCE HOUSE
(Continued from Page 3)

And that reminds me of the story of the young ranchman who was strolling along with a pretty girl when they saw a calf on one side of a fence thrust its head through the fence and rub its nose against its mother's face in the adjoining pasture. The rancher sighed romantically and said, "I wish I could do that." The girl said, "Well, why don't you. It's your cow, isn't it?"

Man has conquered the sea and air; he has harnessed the lightning and compelled it to work for him. Who shall say that he cannot evolve a means of bringing lasting peace to a world whose people want peace.

Believes Brahmans The Coming Breed

COLLEGE STATION. — O. J. Flowers, ranchman of Menard county, believes Brahman cattle, both registered and crossbred, will eventually become well-established on West Texas ranches.

Flowers has been raising Brahman since 1938, when he began with 10 registered cows and a bull. He now has 230 head of registered Brahman.

The stockman tells Menard County Agent William H. Lemburg that he finds the Brahman very hardy and disease-resistant. The crossbred stock, as well as the

registered, made last winter in better shape and have made quicker and greater gain than his other cattle, he says. They do very well on dressing percentage, also. Flowers estimates that his Brahman, crossedbred with Hereford and Angus dress out from 58 to 60 percent.

A DDT and rotenone spray is in operation on the Flowers ranch, where very little trouble is had with flies, and where cattle grubs have been cut down 50 per cent in the last two years.

Texans Continue To Shovel Huge Sums Into Uncle's Till

AUSTIN, Tex. — With no signs of relief in sight, Texas taxpayers kept feeding Uncle Sam's bill during September to the tune of \$109,097,551, the University of Texas Bureau of Business Research reported.

Total federal internal revenue collections for the state from July 1 through September 30 reached \$241,309,020 to exceed last year's

intake for the same period by 5 per cent.

Income taxes slid 4 per cent lower than during the three-month period in the 1946-47 fiscal year, but all other kinds of taxes shoveled money into government coffers. Employment taxes brought in 22 percent more revenue, withholding taxes were up 19, percent, and miscellaneous taxes advanced 7 percent.

Mimeograph supplies at the Stockman office.

Texas Stockmen Get Warning On Equine Sleeping Sickness

COLLEGE STATION.—A warning to stockmen about sleeping sickness among horses came from Texas A. & M. College Extension Service this week.

Dr. E. A. Grist, Extension veterinarian, warned that from now until the first frost, sleeping sickness is a threat to farmers and ranchmen. In Louisiana recently, the disease reached the epidemic

stage, with official reports showing, 3,713 cases in which horses were stricken.

While only 52 cases of the disease have been reported in Texas this year, Dr. Grist said, vaccination is still in order up until cold weather sets in.

A count on cases of sleeping sickness and other livestock dis-

eases reported in Texas is kept by Dr. Grist, making possible timely warning and recommendations for disease control. County agents and veterinarians report outbreaks to him monthly.

We've Come a Long Way from the Longhorns

Longhorns by the millions ranging the western grasslands from the Gulf Coast to Montana... building empires... making history and legend on the great cattle trails! That was sixty and more years ago. Then the railroads came, much of the range was fenced and the fate of the longhorn was sealed. Short-horn, Angus and Hereford bulls came in from the east. Gradually, the longhorns were bred out of existence, until today only a few isolated "museum" herds are left.

This is one story of continuing livestock progress, of better animals developed to meet changing conditions and needs. Who knows but that in another fifty years today's "best" may look as old fashioned as longhorns do now.

With hogs, one amazing change is in the increased speed and efficiency of producing pork. Three years once was needed to raise a hog to market weight. Today, pigs often weigh 200 to 250 pounds at six months or less. Straight line and cross-bred breeding experiments seek even more efficient hogs to make weight in the same short time, but produce more meat.

In lambs, development is directed toward "dual-purpose" breeds. Certain breeds have been best for wool but not best for meat. Others produced the meat but were lacking in wool. Researchers have made progress on breeds of lambs to produce both meat and good wool economically.

A first step in the improvement of any animals or any herd is to use proven sires on dams of known productive ability. The eye alone is not enough. To know production records and ancestry is vital. Bull grading programs offer greater certainty in choosing a sire. Weighing young animals at weaning time and marking them is important, especially in the selection of gilts. A "touch system" of sheep grading is proving helpful in culling large bands in little time.

On any matter pertaining to livestock breeds or breeding, Swift & Company has no favorites. We serve the interests of producers of all breeds, in all parts of the country. We urge you to watch carefully

Martha Logan's Recipe for UPSIDE DOWN CHILI PIE
(Yields 6 servings)

1 pound ground beef	1/4 teaspoon chili powder
1/2 cup chopped onion	1/2 teaspoon salt
1 tablespoon shortening	1 teaspoon Worcestershire Sauce
1 cup cooked kidney beans	1 cup cooked tomatoes

Sauté meat and onion in melted shortening. Add beans, seasonings, and tomatoes. Cover. Simmer gently about 15 minutes. Pour into a greased 9-inch pie plate. Top with corn bread batter. Bake in a hot oven (425 degrees F.) for 20 minutes.

Corn bread

1/2 cup sifted flour	1 tablespoon sugar
3/4 cup yellow corn meal	1 beaten egg
2 teaspoons baking powder	1/2 cup milk
1 teaspoon salt	2 tablespoons melted shortening

Mix and sift dry ingredients. Combine egg and milk. Add to flour mixture, stirring until well mixed. Stir in shortening. Pour over chili in pie plate.

Will It Pay Me to Specialize?
by M. T. Buchanan
State College of Washington

"Should I specialize in some crop or enterprise, or should I diversify my operations?" Many farmers and ranchers have to find the answer to this question. For instance, in the state of Washington there are 63 distinct types of farming in this one state alone. And they should consider that the types of products which come from farms in different areas of the United States are not accidental. They are caused by the inter-action of physical and economic factors. The operation of these two forces has been hastened by mechanization, development of better crop varieties, breeds and disease-resistant strains.

Specialization, of course, leads to increased efficiency in the use of labor, equipment, capital and buildings. Marketing is an easier task and more time is available for maintenance of equipment and for planning new and better methods. A great deal of the increase in production of agricultural products has resulted from specialization. Farms have increased in size. Proportionately, the amount of labor needed has decreased, allowing more labor for use in other ways.

Specialize or diversify? There's plenty of "real life" evidence to help you in reaching a decision. Go visiting. See how your neighbor does it. It's your problem and even if you decide to make no changes from your present plan, you'll get a lot of ideas on how you can do your work better.

Packers do not make livestock prices

In their day, the hardy, self-sufficient longhorns were the best breed for the open, unfenced ranges. In a land without transportation they actually took themselves to market. But the tough longhorns couldn't match newer breeds in beef production.

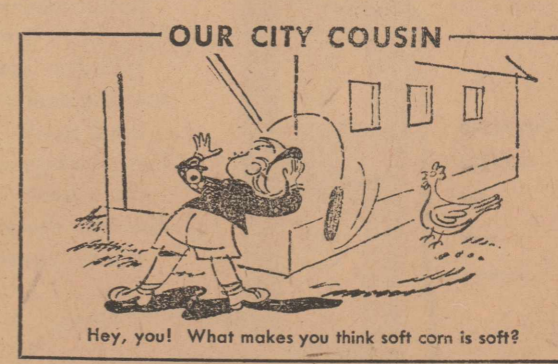

Calves from Hereford, Shorthorn and Angus bulls and from thrifty longhorn dams grew faster. They produced more and better meat from less feed. Blockier and of heavier frame, they yielded more of the more popular meat cuts. They were better money makers for farmers and ranchers. Such results encouraged selection of better foundation stock.

Each improvement in meat production has been met by increased demand for popular cuts on America's dinner tables. Livestock producers and meat packers have worked hand-in-hand to encourage greater demand for meat. But Swift & Company plays no favorites among breeds of beef producing animals. We do not make markets... we find them. In our buying of livestock we transmit to producers the knowledge of the kinds of meat that are preferred in various sections of the country.

The price producers receive for their livestock is governed by what the packer can get for the meat and by-products.

F.M. Simpson,
Agricultural Research Department

OUR CITY COUSIN

Hey, you! What makes you think soft corn is soft?

Soda Bill Sez: ... the man who gets what he wants is successful. The man who wants what he gets is happy.

Track Down the Facts

These are the tracks of the coyote. They look like dog tracks, but there are differences which the expert tracker can see. In the livestock business, too, sometimes things are not as they seem to be.

For example, some people say we waste our grain by feeding it to animals. Instead, they think we should eat the grain ourselves. They do not realize that the millions of head of cattle and lambs that are marketed every year are little more than grass turned into meat. It is true that many of these animals are fed a certain amount of grain and other concentrates to turn them into finished meat animals. However, if it were not for cattle and lambs, 779,000,000 acres of land in the United States would produce little, if any, food for humans. To put it another way, about 51% of the total land of our nation consists of grazing land which cannot be used for producing other feeds and food.

IRAAN JUNIOR HIGH DOWNS CUBS

The Junior High Cubs were defeated by the Iraan Junior High football team 20-0 here Thursday. The Cubs held their own for the first quarter, but were shoved back to the goal line for a safety early in the first quarter and going over for a touchdown shortly before the half to make it 8-0. The Iraan team went over for one touchdown in each of the last two quarters, making the final score 20-0.

P. T. A. CARNIVAL

On Thursday afternoon, October 23, the Parent-Teachers Association is having a big Carnival. There will be a cake sale, cat stand, penny pitching, fortune-telling, Bingo, fishing, juvenile picture show and other features for every one to enjoy. The saddle which has been in the B and B Barber shop will be given to the person holding the lucky number. Hot dogs, hamburgers and other refreshments will also be served. The profits will contribute to the payment of the High School Band uniforms.

The band will play a concert during the afternoon's entertainment. Come and enjoy the fun.

HAPPY BIRTHDAY!!!

By Ann Harvick

About seventeen years ago a

great event occurred! Buddy Phillips was born. So Sunday, October 19, Buddy celebrated his seventeenth birthday with a humdinger of a birthday party.

At 7:00 Sunday night the few kids that gathered at Buddy's house for a wonderful supper were: Lillian, Jane, Mary K. Rosalie, Kerry, Ann, Bob and Buddy.

For cocktail we had grape juice and then came the main course! It consisted of fried chicken, green peas, baked potatoes, rolls, tea, fruit salad and olives. For the dessert we had ice cream and, of course, Buddy's birthday cake which was a delicious chocolate cake.

We all had a wonderful time thanks to Buddy's mother. So, Buddy, we all hope you have another — HAPPY BIRTHDAY!!!

BAND REHEARSAL

Ah, it is only five minutes until 8:00. Everyone is getting his instrument and music out. Above all the noise and confusion one may hear the bell, but if he doesn't, he will hear Mr. Rhoads. Now everyone is quiet and ready to play; it is only three minutes after 8:00.

Oh, oh, here comes someone sneaking in; they are late. Now everyone is here and ready to play. The baton is up. One, two, ready, play. Ah, that is very pretty, oh, oh, what was that noise? Oh, just someone playing out of key or he

has lost his place. The inevitable has happened again. There goes a piece of baton which broke off in the process of getting everyone's attention. Now all the attention is on Mr. Rhoads. Oh, oh, not quite all right, trombones, get off the noise. Now, everyone, lets start on the trio. Take the pick up and play it soft the first time though, and loud the second time. Play! Get up the next number and let's hear the cornets on the first strain. In the meantime the saxes are playing some boogie woogie which is not in the piece. Now everyone start at the beginning. At last the bell rings to go to home room. That is the way it goes. But one can really learn something.

MEET THE FACULTY

She's tall, brunette, very pretty, and the teacher of the Ozona Elementary First Grade. Of course, she is Miss Janice Coonrod!

This is her first year of teaching the 22, six and seven year olds their 'readin', 'ritin', and 'rithmatic. For two years she attended John Tarleton College and then two more years at Texas Tech.

She was born in Fife, Texas and is the only child in the family. She had always thought about and wanted to be a teacher. She likes the first grade very much and all of the children like her.

In their room, the children are now making decorations for border designs. Next, they will take up a short unit on the home and home life.

Ozona is very glad to have such a wonderful teacher and hopes she will stay with us for a long time to come.

GOSSIP

Bob looks at Rosalie and croons "Did You Ever Get That Feeling in the Moonlight?" and Rosalie seriously answers "It Had To Be You."

Bill whistles "Some Sunday Morning" and Lillian happily answers

wers. "Dream."

Joan sighs "You Are Temptation" while Jack answers with, "Who Told You That Lie?" Red gives out with "Tonight We Love" while Sue coyly hums "Tomorrow's Another Day."

Nat, "She's (Jo Lou) the Lady from Twenty-Nine Palms," but don't worry, she's been singing, "You Can't Break My Heart."

Last year Mary K's theme song was "My Fickle Eye," but this year she has changed her tune to "I Want a Sunday Kind of Love," Don???

THE NEW GIRL

Don't dislike a girl until you know her. Which is our own peculiar left-handed way of asking you to let that "New Girl" in. See that your gang is open to new ideas and people. When a girl or boy moves into your town, starts to school, he or she is bound to be lonely. Hold out a friendly hand.

THE FIRST GRADE

By Eda

The First Grade boys and girls have been very busy making black cats, witches, jack-o-lanterns and small black bats for their border decorations. They also made invitations to P. T. A. for each child's mother.

THE FOURTH GRADE

The Fourth Grade received ten new library books this week. We also have decorated our room in true Halloween style, with jack-o-lanterns, black cats, bats and witches.

GOOD INTENTIONS

I dashed into study hall just as the bell rang. Trying to avoid Mr. Parker's glare, I slipped into my seat with the perfectly good intention of studying.

Getting my English out, I happened to remember that the new "Saturday Evening Post" was out. I just have to read the cartoons and finish that serial!

Goodness, look at the time! I have just fifteen minutes left in the period. I didn't know that I had read that long.

Being that shorthand class is the next period, I'll hurry and get it now. I must have left the shorthand book in my locker. Well, I'll just have to go and get it. Now at last I'm ready to study.

Golly, there goes the bell! I wonder what goes with all my time? Well, I had god intentions.

MEET THE FACULTY

The new first grade teacher of Ozona Elementary School is Mrs. Jean Rutledge. She was born in St. James, Missouri, and has attended the Junior College in St. James, Springfield State Teachers College and Tulane University. She has taught several years before this.

The nineteen first graders have their classes in the basement and are now painting Halloween decoration with tempa paints to decorate their room. They will have a Halloween party at school.

Also they have been studying a unit on pets and were greatly excited to have a little kitten visit them. To learn more about keeping their desk and papers neat and in order, they have made booklets to keep them in.

We are glad to welcome Mrs. Rutledge and hope she will continue to teach here in Ozona for some time to come.

THE PEPPER BOX

Nat: "What's the name of the book you are reading?"

Jo Lou: "It's entitled "What Twenty Million Women Want."

Nat "Let me see if they spelled my name right."

Marilyn: "Why do you wear one, black shoe and one brown shoe?"

Patsy M.: "I can't help it. My other pair is the same."

Mother: "Why did you spank Frank?"

Father: "He gets his report card tomorrow and I'll be out of town."

The modern girl's hair set looks like a mop, but that doesn't worry her — she doesn't know what a mop looks like.

A man driving a car got caught between two street cars. Know anybody who wants to buy a tall, thin Buick?

There are to me two kinds of guys

And only two that I despise. The first I'd really like to slam. The guy who copies my exam. The other is a dirty skunk. Who covers his and lets me flunk.

Government To Aid In Eradication Of Noxious Range Plants

COLLEGE STATION — A project timed at control and practical methods of eradication of noxious range plants has been set up under the Research and Marketing Act, according to word received at Texas A & M College from E. A. Meyer, administrator of the new act. The project has been assigned to the U. S. Forest Service. It is estimated here that loss to

Texas ranchmen from such plants is around \$20 million a year.

The Forest Service, according to the Washington announcement, will set up "a study of the ecology and physiology of certain noxious range plants. The work, which will be conducted in the southwest, will be aimed at finding better control or eradication methods based on fundamental principles."

Pioneer work on eradication of such plants, both by mechanical and chemical means, has been done in Texas by R. R. Lancaster,

extension pasture specialist, and M. R. Bently, extension agricultural engineer, in cooperation with Virgil Parr of the Soil Conservation Service's range studies in research division, ranchmen and county agents; H. P. Smith, agricultural engineer of the Texas Agricultural Experiment Station; D. A. Anderson, Texas Forest Service; R. E. Dickson and C. E. Fisher of the Spur substation; R. A. Hall, Beeville substation; and W. H. Dameron and I. B. Boughton of the Souora substation.

GIRL SCOUT NEWS

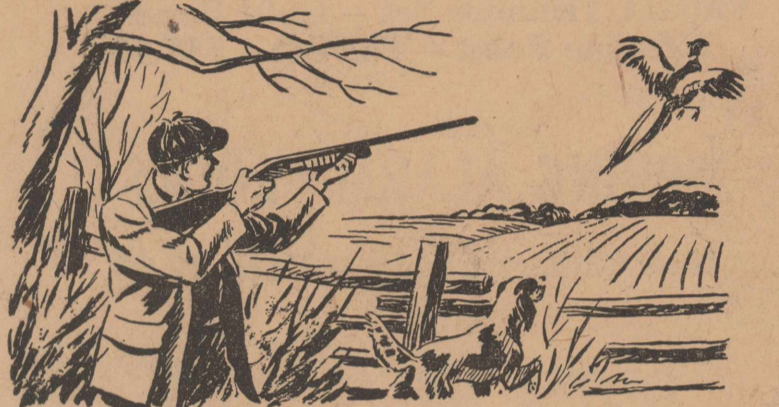

Ozona Girl Scouts met Tuesday afternoon at the Baptist Church. The lanyards were completed and were all very pretty. Nineteen members were present, including LaJean Word, Nancy and Geraldine May, Gwen Upshaw, Ellen Jayne Maris, Janell Parr, Wanda Carden, Sandra Guidroz, Gretchen Krause, Patsy Lamun, Barbara Fields, Sandra Brewer, Ann Raliff, Marilyn Cooke, Jerry Harshaw, Nancy Ann Perdue, Betty Cunningham, Jo Ann Allen, and

Carolyn Mankin.

From where I sit... by Joe Marsh

"Take Pen in Hand"

This column has been running for so long that its readers, in towns like ours all over the country, are beginning to "take pen in hand" and write us what they think.

Some of them take me over the coals for what I say—like the column I ran on planting alfalfa. Others write, "I liked your column yesterday, but..." All of them have different points of view.

From where I sit, that's the way it should be. Everybody's entitled to an opinion—and it's those very differences, and friendly criticism,

that make for tolerance and better understanding—whether it's ideas on planting alfalfa or choosing between beer and cider.

The more folks air their differences right out in public, with a neighborly respect for the other person's liberties and point of view, the closer we are to the American principle of individual freedom—whether it's in a choice of crops or beverages.

Joe Marsh

"Out of this world.... into your heart"

THREE GREAT NEW PACKARD EIGHTS FOR '48

The news is out!
The news of Packard's introduction of America's first full line of all new postwar cars!

And already, a motor-wise nation is agreeing: "Those '48 Packards are 'out of this world!'"

New Free-flow styling!
Stunning new beauty that steals right into your heart! The breeze-molded beauty of Packard Free-flow styling . . . with its proud Packard identity not only preserved but enhanced!

Comfort-aire ventilation!
The year's "idea" interior is tops in refreshing year-around comfort. Tops in convenience, too—with such features as the new Console-Key instrument panel, with convenience of push-button switches, and "black-lighted" Flite-Glo dials!

"Safety-sprint" performance!
The smooth, thrifty power of three new straight-eight engines—all packed with a lightning-fast brand of reserve power that spells real safety! Power line-up for '48: 130-HP Packard Eight... 145-HP Super Eight . . . 160-HP Custom Eight.

Hurry to see these stunning new Packards—America's first full line of all-new postwar cars!
