tric service-have nearly ended loneliness on the farm.

Low-cost, dependable, electric service turns dark into other chores-brings entertainment and market reports.

Who brought electric service to the farms?

The business-managed, self-supporting electric companies began the job some 60 years ago. They did the pioneering ... developed new methods and equipment ... learned to meet the problems of weather and distance ... and continued to bring better and cheaper electric service to more and more farms and ranches,

In 1936 the Rural Electrification Administration was born. With Rural co-operatives, it joined in the job.

Today, electric service is available to more than threequarters of American farms. The majority of those farms are being served by business-managed, tax-paying electric

It has been the policy of the West Texas Utilities Company, not only to supply the low-cost, dependable electric service which makes the farm a happier place in which to live... but also to help the farmer make the best possible use of electric service, to lessen the burden of farm work and to increase production and profits... and in turn the purchasing power of the area we serve.

Auto License Tags On Sale

BEGINNING NEXT WEEK

Due to a mix-up in shipping, we have not received. the new receipt blanks and, therefore, will be unable to issue new motor vehicle license plates until next week.

BRING YOUR LAST REGISTRATION RECEIPT AND CERTIFICATE OF TITLE

To avoid delay and to facilitate the registration of your car or truck, please bring your last year's registration receipt and your certificate of title with you when you come to get your new plates. It is necessary that you present these papers before new licenses can be issued.

The new numbers may be installed now but must be on all cars and trucks on and after April 1.
