Yancy, who served as a technician in the Army, made 10 practice jumps in the service while in the Army. The jump was 3,000 feet, open parachute less than 1,000 feet from the ground. He landed in the airport area and was the highlight of the afternoon.

## Lions Tackle Alpine There Friday Night; Last Non-Dist. Tilt

Their scoring punch somewhat strengthened by virtue of three touchdowns scored against the strong Crane Cranes last Friday night, the Ozona High School Lions are hopeful of picking up their first victory against the Alpine high school in Alpine net Friday night.

This will be the last practice game for the Lions before launching the 1948 District 7-B campaign the following week against the Big Lake Owls in Big Lake.

The Lions last week played on even terms with the powerful Cranes through the first half but superior speed and reserves showed an effect and the Cranes surged out in front to win 45 to 19. Both teams scored early in the first quarter. Crane from the first play from scrimmage after receiving the kick-off on their own 40. The Lions in turn took the Crane kick-off after the touchdown and drove down the field for their first marker, scored by Huffstodler on a sneak. Both teams made the extra point good and the score was 7 all.

The Lions took the lead a moment later when Smith hurled a long pass downfield which was hauled in by right end Hoover, who bounced over for the second touchdown to put the Lions ahead 13 to 7, the try for point failing.

The strong Cranes then went to work and chalked up three more touchdowns before the half and two more in the third period. The locals scored their third and last touchdown in the fourth quarter but the Cranes took up the slack in the final minutes by scoring their seventh touchdown on a long pass.

## Election of ACA County Committee Set For This Fall

Farmers of Texas should begin thinking about the committee they want to administer the 1949 Agricultural and Price Support Programs, reminds the State Committee in a statement sent Miss Mary White, local A.C.A. secretary.

Now is the time for farmers and ranchers of the state to appraise the work of committeemen who are now administering the program. If they are doing a good job and are doing it as well or better than anyone else could do it, then the farmers and ranchers in the county should support them by turning out at election time and give them a vote of confidence. If the committee can be improved by electing someone else, then that should be done.

B. F. Vance, chairman of the State PMA Committee says, "One of the real pillars of strength in the farm program is the elected farmer-committees. The way to keep this strength is for farmers to participate in elections and see to it that the people best qualified to serve as committeemen are elected. The caliber of committeemen we elect this fall may have a lot to do with the future of the farm program. Conservation of our soil and water resources is vital to the well-being of the nation. We must have the best committeemen we can get to administer this program, the nation's direct effort to assure the future food supply."

## Judge Ordered To Put Johnson's Name On Ballot

Telegram Says Demo Party Certified Lyndon for U. S. Senate

Apparently based on the order of Supreme Court Justice Hugo Black's order staying the injunction granted by a Federal District Court against the placing of Lyndon B. Johnson's name on the official ballot of the general election as the Democratic nominee for U. S. Senate, Assistant Secretary of State Kirk R. Mallory sent out telegraphic orders to county judges over the state Wednesday certifying Johnson for the disputed place on the ballot.

The sample ballot form, which was prepared by the state printer some time ago, left blank the spot in the Democratic column for the Senate post. These forms were already in the mails to the county judges and the supplemental order will result in Johnson's name being inserted in the blank forms before they are finally turned over to printers for preparation of the local ballot forms.

County Judge Houston Smith of Crockett county Wednesday received the following telegram signed by the assistant Secretary of State:

"I certify that the Democratic Party has certified to the Secretary of State as its nominee for U. S. Senator Lyndon B. Johnson and you are hereby notified to have his name printed on official ballot for General Election to be held November 2, 1948."

That was the standing yesterday of the now contested closest race for public office in Texas history in which Coke R. Stevenson, trailing by 87 votes in the final count and recount, and amended counts from the various counties over the state, is seeking to prove election frauds in two south Texas counties and by court action to bar Johnson's name from the ballot as the Democratic nominee.

An injunction to prevent the secretary of state from certifying Johnson's name as the nominee pending investigation of the election fraud charges was granted by Federal Judge T. Whitfield Davidson at Fort Worth. This is the injunction which Justice Black ordered dissolved. Meanwhile, a commission named by Judge Davidson is engaged in investigating the vote fraud charges in Jim Wells and Zapata counties.

## 63rd Annual State Fair of Texas Opens In Dallas October 9

The thirty million dollar, sixty-third State Fair of Texas, which Lone Star Staters proudly call "The Show Window of the South-west," will get under way next week with probably more fanfare than ever attended any previous state fair. Dates are Oct. 9-24.

Officials say this is the largest fair, and the most costly to produce, they have ever attempted. It has required more people to put it together. More than 2,000 are expected to attend. Last year's attendance was 1,763,921.

Governor Beauford Jester will formally open the Fair and dedicate the new \$800,000 Automobile, Aviation and Recreation Building. Topping the list of opening day attractions will be the Texas-Oklahoma football classic. This will be the "coming out" party for the renovated Cotton Bowl, just rebuilt and enlarged at a cost of \$1,280,000.

Almost as popular with Fair visitors will be the hilarious Jimmy Durante-Harry James show in the Auditorium, the new "Ice Cycles" show, the "Flying L" Rodeo, Million Dollar Midway, and the most colorful array of displays ever seen in the Fair's huge exhibit halls. These will include shows devoted to automobiles, aviation, electrical industry, petroleum, foods, textiles, culinary and antiques, agriculture, livestock and poultry.

WEEKLY SWING OF  
SOUTHWEST FARM MARKETS  
(USDA)—Southwest farm mar-  
kets recorded many price declines  
during the past week, the U. S.  
Department of Agriculture's Pro-  
duction and Marketing Adminis-  
tration reports.

Heavier runs of cattle and cal-  
ves brought sharply lower prices

at most southwest markets. Stock-  
ers and feeders made up the ma-  
jority of offerings, but moved  
slowly in Monday's trade. San An-  
tonio took medium and good stock-  
er calves from \$23 to \$25.50 while  
Houston paid \$21.50 to \$24.50.  
Good and choice stocker steer cal-  
ves changed hands at \$23 to \$27.50  
at Fort Worth and \$25 to \$29.50 at  
Kansas City. Good grades made  
\$24 to \$26 at Oklahoma City. Wich-  
ita moved medium and good light  
stocker steers and yearlings at \$20  
to \$26. Denver sold common steers  
at \$18.50 to \$20.

Another week of heavy sheep  
marketings brought uneven price  
trends. Prices ruled steady to

strong Monday in active trade.  
Good and choice spring lambs sold  
\$25 at Denver and Kansas City  
and \$22.50 to \$23 at Wichita and  
Oklahoma City. Medium and good  
brought \$22 to \$23.50 at Fort  
Worth. Goats held firm at San An-  
tonio.

Most current shearings of Tex-  
as wool moved into storage. Some  
Texas mohair sold at 38 cents a  
pound for adult hair and 50 cents  
for kid, f.o.b. Texas.

White corn fell about 15 cents  
a bushel during the week, and most  
other grains lost 2 to 5 cents. Based  
on No. 2 grades at Texas com-  
mon points, white corn closed  
Monday at \$2.02 to \$2.07, and yel-  
low corn \$1.75 to \$1.80. No. 1  
wheat brought \$2.36 1/4. No. 2 milo  
sold at \$2.43 to \$2.48 per hundred  
pounds.

Cranes Defeat Lions By Score of 45-19

The Ozona Lions lost their third game of the season to the Crane Golden Cranes last Friday night by a score of 45 - 19 on Cranes home field.

The game opened with Ozona kicking to Crane. The Cranes were brought down on about their own 40 yard line after the kick. On the following play, Crane ran through the Lions all the way for a touchdown. The extra point was good making the score 7-0 in Crane's favor.

When the Lions gained possession of the ball, they drove all the way down the field to score on a quarterback sneak by Hufstедler. The extra point was good making the score 7-7. Ozona kicked to Crane after scoring. After Crane failed for a first down Ozona took over. Smith hurred a long pass to Ozona's right end, Hoover, who bounded over for Ozona's second 6 points. The extra point failed, making the score 13-7 in favor of Ozona. But Crane racked up three more touchdowns before the half.

The second half reopened with Ozona receiving the ball. After battling on mid-field, Crane racked up two more goals. In the last quarter Ozona scored again on the Crane 2-yard line with another quarterback sneak. In the remaining minutes another touchdown was scored by Crane on a long pass bringing the total score up to 45-19 in Crane's favor.

Only a few calves go to San Antonio. The last show for the boys and their calves will be in San Angelo on March 3rd through the 7th. The calves that have not been sold will be sold here.

These girls have worked hard, they are out there backing the Ozona Lions at every game, and they deserve a lot of credit.

Your Most Important Right

Now that the bandstand has been painted, and the park re-landscaped, we have about the nicest village green in the county.

And it's all because, at the last town election, folks got out and voted—85 per cent of them! That way, they passed the amendment calling for park improvements—over those opposing it.

Reminds you again how important the right to vote is in this country. And it's a right we can retain only by exercising it! ... like all the other individual liberties—

ties—from freedom to enjoy a glass of beer or ale, to a woman's right to vote along with men.

Folks can thank themselves that on summer evenings they'll be able to listen to band concerts in a well-kept park ... enjoying a bottle of beer or soda pop (whichever they prefer). Because from where I sit, that's a freedom they've earned by exercising a still more important freedom: Voting!

### Student Organizes Rights Club

Students of the University of Texas filed with the Student Life today an official petition for the organization of a University Students Club, for the purpose of supporting the candidacy of Thurmond and Field-Thurmond for the Presidential election for the United States. The petition is similar to those already filed at southern colleges and universities. It has affiliated with the National States Rights Colleges and Universities, of which Kenyon College is president of the student body and Louisiana State University is national chairman.

Students elected at the organization meeting are Thomas D. ... of Galveston, president; Sam R. Archer, of Houston, secretary; ... issued the following statement: "Despite the noisy protest of the radical minority, our campus news-paper, the Texas Student, as a whole believes in the rights of the individual. The States as guaranteed by the Bill of Rights. There have organized this club to represent the citizens of the State. The students of their State are supporting J. Strom Thurmond, the only candidate in the presidential race who believes in the rights of the individual. The repeated insults heaped upon the South by the administration of Truman has made the issue such a group acut and ..."

### Book-of-Month Club Chooses Novel by Former West Texan

DALLAS, Tex.—Fred Gipson of Mason, is enjoying the thrill of news from New York that his first novel has been selected months in advance of publication as reserve choice of the Book-of-the-Month Club. Harper will publish the book, which is an exciting story of rural life in Texas as seen through the eyes of an active teen-age boy. Title and publication date are to be announced later.

Readers in the Southwest have already had an opportunity to judge the quality of Mr. Gipson's latest work because one chapter from the book, giving an account of a moonlight coon hunt, was published as a short story last winter in Southwest Review, issued quarterly by SMU's University Press in Dallas.

Mr. Gipson's stories first started appearing in 1936 in Southwest Review, which he states "has done more to help me along in the writing game than any other magazine published." No fewer than four of them—"My Kind of Man," "The Melon Patch Killin'," "Sad Sam," and "Hound Dog Men Are Born"—have been reprinted in Reader's Digest.

Mr. Gipson has lived in Texas all his life and, according to him, his earlier efforts included "seven years working as a farmer, soda jerker, ranch hand, caterpillar tractor operator, fence builder, bookkeeper, and mule skinner for a dirt moving contractor. Also picked cotton and swung a sledge hammer on construction jobs."

He entered the University of Texas in 1933 to study journalism served later as a reporter on several Texas papers, and wrote for the pulps. Since 1940 a number of leading national magazines, including Collier's and Liberty, have published his writings. He has one earlier book to his credit, "Fabulous Empire," published in 1946, which told the story of Zack Miller and the 101 Ranch.

**'Flu' Incidence in Texas up 37 Per Cent Over 7-Year Median**

AUSTIN. — The 414 cases of influenza reported in Texas last week, bring the incidence of this disease up to forty per cent more than the seven year median, as shown from the figures submitted by the 181 counties sending in reports to the State Health Department.

Influenza without complications may be a fairly mild ailment, according to Dr. Geo. W. Cox, State Health Officer, but, he pointed

out, complications can turn this disease into a dangerous condition very quickly.

"Many cases of influenza are mild," Dr. Cox said. "Often they lend themselves to treatment readily. However, two important factors enter into the treatment of influenza, and they are, calling the family physician as soon as the first symptoms appear, and taking life very easy for a reasonable length of time after the acute stage has subsided."

"Dr. Cox declared that influenza is not mass-controllable. He emphasized that maintaining the highest possible health level at all

times affords an individual the best protection from contracting this disease.

"Getting plenty of sleep and rest, daily exercise in the open, nourishing foods, and strict personal hygiene are our best known defenses against influenza," Dr. Cox said. "This applies to all respiratory diseases. A person who avoids all habits and practices detrimental to a maximum well-being and thus builds up a strong resistance to disease, is much less likely to contract influenza than is the individual who does not guard his health in this manner."

Mr. and Mrs. Oscar Kost and Miss Dollye Coates witnessed the A & M College-Texas Tech football game in San Antonio Saturday.

**Federal Tax Take In Texas Increases**

AUSTIN.—Federal revenue collections in Texas totaled \$83,334,485 in August, rising 15 per cent from a year earlier, the University of Texas Bureau of Business Research reported.

Employment taxes jumped 37 per cent from August 1947; income, 18 per cent; and withholding, 14 per cent.

Dr. Royce W. Pruett left Saturday for New York City where he will enroll in the New York Polytechnic Postgraduate School of Medicine for a six-weeks intensive course in general practice. Dr. Pruett will return to resume his practice in Ozona the end of November.

**U. of T. Hospital for Cancer Research to Be Built Next Year**

HOUSTON, Texas. — Construction of the University of Texas M. D. Anderson Hospital for Cancer Research may begin next year, Dr. R. Lee Clark, Jr., director, says.

At \$500,000 allocation of federal funds will be supplemented with approximately \$3,000,000 which was authorized by the State Board of Health under the federal Hospital Survey and Construction Act. Through this legislation Texas has received about \$4,800,000 for each year of a five-year period, which began in 1947-48 to assist in financing hospital construction.

Nat Read, who furnished many a touchdown thrill for Ozona High School Lions followers, suffered a knee injury in practice which will keep him out of the lineup at North Texas Agricultural College in Arlington for the rest of the season. Nat had made the NTAC squad as half back. He is a son of Mr. and Mrs. Madden Read of Ozona.

L. B. Hoover, Crockett county ranchman, was taken to a San Angelo hospital Tuesday for an operation. His condition was reported as serious here yesterday.

When you, your children or any member of your family has a cold, it pays to go to bed immediately, and call your doctor. He may discover the cold is very unimportant in consideration of the thing which caused the physical "let-down" — which in turn made progress easy for the cold germ.

On the other hand, he may decide that with a little medicine and rest it will all be gone tomorrow. In either case, you have done the wise and safe thing by not taking chances with the "common cold."
