Churches in the Texas, Southwest Texas, North Texas, Central Texas and Rio Grande Conferences will observe October 17 as Texas Methodist College Day.

Members of churches in the Northwest Texas Conference will hold their College Day observance on November 14.

Bishop A. Frank Smith of Houston listed a three-fold purpose of the observance: to unite Texas Methodism in support of all Methodist higher educational institutions in the state; to inform Methodists of the importance of the church-related college; and to receive a free-will offering toward support of Methodist colleges in Texas.

"There is more to this movement and to this particular occasion than the taking of a collection or the welfare of denominational institutions," Bishop Smith said "Paramount emphasis in this observance will be upon the right and duty of the Christian Church to remain in the field of higher education for the sake of the so cial order and of education as whole.'

HIT OF THE YEAR ! Have you tried DYNAFLOW ?

O you want to know what the motorwise press has in mind when it talks about "the biggest advance since the self-starter"?

Do you want to know how it feels to command the smoothest flow of power to be found on land, on sea, or in air?

Then settle yourself behind the wheel of a Buick Roadmaster, and try out Dynaflow Drive.*

Here, you will find, is something vastly more than "no clutch" driving.

It's a brand-new way of transmitting the driving force from an engine to the rear wheels - without buck or bobble.

•You get Dynaflow Drive, at extra cost, on Roadmasters only

You have a drive that gets completely away from gears which have to shift.

You have a drive that takes you from a standing start - through every speed range with a steady, willing swoop of power.

You have in Dynaflow a built-in supercharging assembly that combines the smoothness of oil with an instant response to acceleration.

You have, in other words, eager starts, easystriding climbs, an unfettered pace on the straightaway - controlled by the gentle nudge of your toe on the gas treadle.

Except for parking or backing, there's nothing to do but steer the car, in a whole day's drive.

In ten wonderful minutes, you can check all these facts for yourself.

First step to this great adventure is to give us a call. Then we'll let nature take its course. But we might give you one hint: We'll be glad to book your order, whether or not you have a car to trade.

BUICK alone has all these features

- * DYNAFLOW DRIVE
- * TAPER-THRU STYLING
- * VIBRA-SHIELDED RIDE * SAFETY-RIDE RIMS
- * HI-POISED FIREBALL POWER
- * ROAD-RITE BALANCE * RIGID TORQUE-TUBE * QUADRUFLEX COIL SPRINGING
