Darrene Thompson has been in Ozona four or five years. This is her second time to live in Ozona. She moved away and returned later. Darrene has one feature which all of the girls envy - her naturally curly hair. Here's to that blond Soph. Good luck, to you.

Take a look at your Ford's speed-ometer, today. If it's nearing a "5000" mile reading, bring it "home" to us for your Ford's "Physical" -- which includes a thorough engine, ignition, electrical; wheel and brake check . . . and a complete inspection of the body, inside and

Make it a habit to let us check your Ford regularly to keep the top performance that's built into your car. It's the right way to catch the "little things" that can develop to make driving unsafe. You'll be surprised how much money you'll save throughout the life of your Ford, with regular Ford care.
