## To Play Games In and Slate

### In San Angelo, Night, Big Lake, N. M. Mon.

Pecos League leaders have mapped a slate of ball games for the week-end.

Games will be played Friday night at beautiful homes of the San Angelo area, against the Cultivator Jockeys, and Saturday night at the Big Lake, N. M. The Veritas tied for first place in the basin league standing. The game is being played for a benefit for Blondy Red Hens, some female softball outfit that apparently needs financial support. The conference of the small San Angelo area should be supported. The game will be played Sunday afternoon, and will continue in Trans-Pecos against the entry managed by the Big Lake Conley. The Big Lake team is being coached by the University of Texas who composed the conference champion last season, are up there in the bracket with the Goodfellow in league standing. Expected to prove one of the highest entries in the summer wears on the Rebels take off on a jaunt so far this season. N. M., where they are for an afternoon game. The independent team entertainment feature of the July Fourth celebration will be called at the

Sunday afternoon league. Manager Stuart will be on the mound for the home and will have a pitcher the same team as was last week against the Skyhawks with the excellent D. L. Scott on first base. Frank Sheffel will be unable to make the first base slot— an injured hand, suffered when it was caught at a drilling rig, has efficiently. Sheffel manipulated the swollen hand to poke out a safe hit. The hitter in last Sunday's game, Goodfellow to drive in a run in the bottom of the ninth.

Games, who has been doing effective pitching for so far this season, and the pinch hitters who in last Sunday's wild game will start for the locals Friday night in N. M. Several of the team's players will be absent from the game and all hands on the roster will get a chance to play. The game will be 8:30 p.m.

## TSCW Dorm Torn Down

The oldest dormitory at Texas State College for Women, Smith-Carroll, now being torn down to make way for a new upperclass dormitory.

## Tax Take In Still Goes Up

Showing a 7 per cent increase July 1, 1948 through July 1, 1949 as compared to a year earlier, federal revenue collections in the state reached \$1,243,421,766, according to the Texas Bureau of Economic Research reported. The scheduled 1,500-foot operation will be 660 feet north of the same operators No. 1 Vaughan, a completed producer. It is due to start July 10th.

## World, Vaughan Pools Register Producers; Spot One In Couch

A producer each in the World (Grayburg) and the Vaughan (San Andres) pools has been completed and a location staked in the Clara Couch (Grayburg-San Andres) field in Crockett County.

Amerada No. 2-F Shannon pumped 85.35 barrels of 27.4 gravity oil plus 45 per cent water in 11 hours to establish a daily potential of 186 barrels. It topped the pay at 2,482 feet, drilled to 2,509 feet, and cemented 7-inch casing at 2,393 feet.

The section was acidized with 500 gallons. The well is 2,037 from the north, 330 feet from the west line of section 43-GG-TCRR; elevation is 2,621 feet.

Pumping 40 barrels of 38 gravity oil in 24 hours, T. S. Stanfield No. 1 Isabel Vaughan was at 1,275 feet from pay topped at 1,245 feet. The section was shot with 15 quarts of nitroglycerin. Seven-inch casing was cemented at 1,235 feet. Location is 330 feet from the south and west lines of the 80-acre lease in section 85-OP-GC&SF.

Bay Petroleum Corporation will drill No. 11 A. C. Hoover in the Clara Couch pool, 2,310 feet from the north and east lines of section 13-GG-GC&SF, to 2,200 feet with cable tools. Starting by June 28, the test will be 660 feet east of Bay No. 10 Hoover, a completed producer.

## 3 Deep Wildcat Tests Are Slated In Crockett County

### Cities Service, Weiner To Drill On Shannon, Owens & Vaughan

Ellenburger wildcats in northern and western Crockett county are planned by Cities Service Oil Co., starting at once.

In the northern part of the county, No. 1-B Margaret A. Shannon estate will be 660 feet from the south and west lines of section 40, block BB, Texas Central Ry. Co. survey. It will be 2 miles southwest of the World field. Drilling 3,000 feet with rotary is proposed. Cities Service's western Crockett wildcat, slated to drill 7,500 feet with rotary if necessary to explore the Ellenburger, will be No. 1-B J. W. Owens, 410 feet from the south, 810 feet from the east line of section 18, block GG. Some maps show Southland Royalty Co. has the lease on the southeast quarter of the southeast quarter of the section, expiring March, 1950.

The wildcat will be about 1 1/2 miles west-northwest of the Clara Couch (Grayburg-San Andres) pool and 1 1/2 miles southwest of Cities Service No. 1-B J. W. Owens, discovery in 1947 of the Clara Couch Wolfcamp field.

Ted Weiner and others and Jas. H. Snowden of Fort Worth have staked location for a slated 8,000-foot wildcat 1 1/2 miles south of the shallow Vaughan (San Andres) pool. Their No. 1-E Isabel Vaughan will be 1,980 feet from the north, 660 feet from the west line of section 88, block OP, GC&SF Ry. Co. survey. It will be 1 1/2 miles southwest of Weiner and others No. 1 Vaughan, which was credited with running high regionally and showed some gas in the Ellenburger, but was abandoned in that formation at 7,785 feet.

Snowden has acquired a quarter interest in the test and 400 acres. Pure Oil Co., and Malco Refineries of Roswell, N. M., will contribute bottom-hole money. Standard-Fruer Drilling Co. of Dallas has the contract.

Cummings, Berger & Smith of Fort Worth have applied for a permit to drill No. 2 Shannon estate in the Vaughan field, 990 feet from the south, 330 feet from the east line of the southwest quarter of the southeast quarter of section 5, GC&SF Ry. Co. survey. The scheduled 1,500-foot operation will be 660 feet north of the same operators No. 1 Vaughan, a completed producer. It is due to start July 10th.

## Rebels Win In Error Fest Over Goodfellow Field

### Locals Come From Behind Three Times To Cop Contest

Coming from behind three times, the Ozona Rebels successfully fended off the attempt of the Goodfellow Field Skyhawks to dislodge them from the Trans-Pecos League leadership in one of the wildest, erroriest baseball games ever played here last Sunday afternoon.

The Skyhawks jumped to the lead in the opening frame by scoring one run entirely by the error route—three in all. The Rebels tied it up in their half of the same inning and the teams remained in a knot until the fifth when the Hawks took advantage of two hits, a walk and an error to score two runs and go into the lead. They widened that lead in the first half of the seventh with four more runs to make the count 7 to 1 in favor of the visitors.

Then came the wildest one-inning local old time baseball followers ever remember seeing on the Ozona diamond. Manager Byron Stuart, who had evened the count with the Hawks in the opener by banging out a single to score Montgomery, who had walked, started off the seventh inning rally which produced eight runs for the Rebels to put them in the lead 9 to 7. Stuart struck out in the seventh but the catcher let the ball get away and Stuart was safe at first. A total of thirteen batters faced pitcher Carr and later a relief pitcher in that frame. Scott singled, Harrison drew a walk and Barton, also singled, Frank Sheffel, hitting for Stuart, singled and Frank James, hitting for Foster, did likewise. Hufstедler struck out and Montgomery rolled out to the pitcher. Then came a double by McChesney, a single by Stuart, Scott was on via an error at third, Harrison drew his second walk of the inning and after eight runs had been crossed in all that hitting, errors and walks, Barton was out on an infield roller. Stuart scored two runs in the inning, stealing home the second time around.

Exciting as it was, that inning was not the end of the ball game. Holding a two-run lead to the top of the ninth, the Rebels, who had been kicking the ball around all afternoon, started it again in the top of the ninth, with the result that the visitors chalked up four runs in that final frame to reverse the two-run lead. One hit by Phillips, first up in the inning, the fifth of the afternoon off the offerings of Barton, two errors, a walk and a hit batsman, and another hit, this time off Stuart, who relieved Barton, accounted for the four runs.

Ozona fans had given up when the Rebels trotted in for their last time at bat. McChesney was safe when the shortstop threw low to first, went to second on a wild pitch and scored on Stuart's single. Harrison singled to left and the left fielder fumbled the ball and Stuart was across with the tying run. Kyle was out short to first and Sheffel came through with a single to right which scored Harrison for the winning run.

## Ozona-Barnhart Lions Clubs Matched In Fri. Night Softball Game

It will be "Lion eat Lion" on the local softball field Friday night of this week.

The Ozona Lions have challenged the Barnhart Lions in a softball match starting at 8:00 o'clock Friday night on the local lighted field. And both organizations have assembled their best talent for the match.

Mr. and Mrs. Byron Williams have just returned from a two week's vacation through Arizona, Utah, Nevada, Wyoming, Montana, Colorado and the Yellowstone National Park.

## Humble Introduces New Esso Extra Premium Motor Oil

HOUSTON—At more than 2,000 retail stations in Texas, Humble Oil & Refining Company this week is introducing new Esso Extra Motor oil, companion product to premium Esso Extra gasoline.

The motoring public is hearing about this new detergent-type motor oil through one of the most aggressive advertising campaigns ever placed behind a product by Humble. Advertising is being carried in more than 400 Texas newspapers, and this effort is being supplemented by radio, poster board, point of sale, and direct mail programs.

Service stations in cities, towns, and hamlets over the state are decorated for the occasion. On the driveways of these stations are more than 4,000 salesmen who have learned about the new product in a series of 30 educational meetings held in recent weeks.

The new Esso Extra Motor oil is the result of several years of research and more than one million miles of test-driving under all kinds of conditions. Humble sales executives announced. It contains a detergent agent which enables the oil to clean as it lubricates. It also holds in suspension such impurities as accumulate in the oil. Humble technicians explain, and thus makes for a cleaner motor.

## Gar-Ter Completes Two Producers In Vaughan Field

### Sinclair Well In Midway Flows 339 Bbls. On Retest

Gar-Ter Drilling Corp. has completed two producers on the pump in the Vaughan (San Andres) field in Crockett County.

No. 6-B Vaughan made 40.56 barrels of 35 gravity oil in 24 hours. It topped the pay at 1,245 feet, drilled to 1,285 feet and cemented 7-inch casing.

This section was shot with 40 quarts of nitroglycerin. Location is 990 feet from the south, 330 feet from the west line of the 87.6 acre lease in section 6-UV-GC&SF.

No. 4 Gulf-Shannon made 46.25 barrels of 26 gravity oil plus 20 per cent water in 24 hours. Flow pay topped at 1,435 feet, with total depth 1,472 feet.

The section was shot with 45 quarts of nitroglycerin and acidized with 2,500 gallons. Location is 330 feet from the north and east lines of the 120-acre lease in section 5-UV-GC&SF.

Sinclair No. 6-C-67 in the Midway Lane field flowed naturally 339.16 barrels of 47.6 gravity oil on a 24-hour retest. Gas-oil ratio was 1,850-1. Flowing pressures were 1,800 pounds on the casing, 500 pounds on the tubing.

Production was through 16-64-inch tubing choke and 150 perforations from 7,533 to 7,558 feet in 5 1/2-inch casing cemented on bottom at 7,558 feet. Location is 660 feet from the north and east lines of the lease in section 30-46-U; elevation is 2,680 feet.

## Pageant To Observe 100th Anniversary Of Mohair Industry Aug. 4

AUSTIN—Goats will be in the spotlight at Kerrville August 4, during a pageant produced by University of Texas Radio House Director T. D. Rishworth.

The goat-actors will be Blue Ribbon angoras of the mohair country. The pageant will open a three-day celebration marking the 100th anniversary of the mohair industry.

At the request of Mrs. W. Scott Schreiner, wife of a former University regent, Rishworth and Radio House Staff Members Joe Murphy and Mrs. Ruth Hunicutt wrote the pageant.

Mr. and Mrs. J. M. Baggett will attend a reunion of Mrs. Baggett's family, the Boerner family, in Plainview this week.

## Lions Install New Officers At Annual Banquet

### John A. Guinn, President S. A. College, Is Speaker

Landmarks in the development of education was the topic of an address delivered by Dr. John A. Guinn, president of San Angelo College, at the Ozona Lions Club ladies night banquet for installation of new officers held Friday night in the social hall of the new Ozona Methodist Church.

Dr. Guinn pointed to the organizations of teachers and school administrators, development of new teaching techniques and systems, extending the use of educational plants to year-round basis and expanding educational services to younger and older groups of peoples than the former arbitrary age limits. The new role of education is to fit the people for better citizenship through accurate thinking, Dr. Guinn said.

Following the banquet and program, new officers who will pilot the Lions Club through its second year of existence in Ozona, were installed by the outgoing president, Bill Berfeld.

Gene Williams will take the helm as president of the club for the 1949-50 club year. Bill Hannah, L. J. Epperson and C. O. Walker will be the new vice presidents; Robert Cox, Tail Twister; Taylor Deaton, assistant Tail Twister; Hartley Johnigan, Lion Tamer; L. D. Kirby, treasurer; Roy Thompson, secretary, and Charles Ratliff, James Baggett, Doug Kirby and Bill Bergfeld, directors.

## Mohair Market Research Project Agreement Signed

### TS&GRA To Raise \$10,000 To Cooperate With USDA

SONORA—A cooperative agreement between the Texas Sheep and Goat Raisers' Association and the United States Department of Agriculture to carry out a Mohair Market Research project has been signed, Sayers Farmer, TS & GRA President told directors and other members at a quarterly meeting here last week.

"We have taken a very important step and now we need the financial backing of every mohair grower in raising our \$10,000 quota. This is the first of several attempts made by the Association to alleviate the mohair situation in which the grower can take an active part. I believe this project will do a great deal to stimulate the mohair market," Farmer added.

The directors recommended to Farmer that he appoint a committee of 20 or more warehousemen and non-warehousemen whose responsibility would be to raise the \$10,000. Farmer stated that he had already talked to a number of growers who had expressed a willingness to donate one-half cent per pound on all of the mohair now in the warehouses. These donations should be turned over to warehousemen, he added, and if all growers took this action the quota would be quickly raised.

F. L. Thomsen, Director, Marketing Research Branch of the Production and Marketing Administration, U.S.D.A., wrote the Association that the mohair problem would be approached from identically the same view point, and with the same techniques, as would a single firm having a new textile raw material to develop and merchandise. He also inferred that this project would be handled in the same manner as others costing from \$75,000 to \$100,000 and should obtain the same results.

Mr. and Mrs. Oscar Kost and Shirley visited relatives in Oklahoma recently.

## OZONA ROTARY CLUB SUSPENDS AFTER 8 YEARS

### Charter To Be Held 30 Days For Possible Reorganization

After eight years of existence, which began on the eve of World War II, the Ozona Rotary Club held its last meeting Tuesday noon of this week.

The club, with a present membership of 24, voted recently to dissolve the organization effective at the end of the club year June 30. By vote at the final meeting of the club Tuesday, however, a way was left open for any member, group of members or former members to reorganize the club under its present charter, to elect new officers and to start off under a revived program. The present board of directors will remain intact for a period of 30 days and for that length of time will delay final action of surrendering the club charter to Rotary International. Thus the club technically will remain alive with its meetings suspended for the thirty-day period. If at the end of that time, no action has been taken by any individual or group to reorganize, the club will go out of existence and the charter will be surrendered by present officers.

The San Angelo Rotary Club, which sponsored organization of the Ozona club in 1941, was represented by a group of eight or ten members here for the final session, many of them members of the groups which handled the preliminary organization work, worked with the infant club for several weeks after its organization and who were here, with almost the entire membership of the sponsoring club, on the occasion of the charter night banquet on April 12, 1941.

Here also was Paul Poage of Del Rio, District Governor of the 129th Rotary District. Governor Poage and members of the San Angelo delegation, headed by President Dick Wagner, expressed regret at the local situation which forced dissolution of the club. All offered their help in its reorganization should any group decide to undertake it.

Scott Peters was the first president of the Ozona Rotary Club, serving two terms as head of the infant club. Other presidents of the organization were Lee Wilson, Royal Caswell, Hubert Baker, Will Baggett, Wayne West and T. J. Bailey. Bailey's term was drawing to a close with the end of this month and the club had elected Lowell Littleton as its next president in the annual election held several weeks ago.

## Williams Grocers Undefeated, Lead Softball League

### Three Wins Put Prune Peddlers Out; 3-Way Tie For Second

Undefeated in three starts so far, the Williams Grocers, with Eddie Bower as playing manager and Ben Williams head rooter, still lead the six-team city softball league.

Three teams are all knotted up for second place in standings, each with a 500 average in games won. The league standings:

	W	L	Pct.
Williams Grocery	3	0	1.000
Wilson Motor	2	2	.500
Ozona Butane	1	1	.500
Williams Magnolia	1	1	.500
Locker Plant	1	2	.333
Conoco	0	2	.000

Schedule of games:  
Thursday night—Williams Grocery vs Ozona Butane.  
Friday night—Ozona Lions vs Barnhart Lions. Exhibition game. League open date.  
Monday night—Open (July 4th holiday.)  
Tuesday night—Williams Magnolia vs... (Continued on Page Two)

THURSDAY, JUNE 30, 1949

**Cutting Two Ways**

According to Washington reports, Congress is looking at much proposed new legislation with a wary and critical eye. This is largely the result of the decline in business activity and national income, coupled with the attendant rise in unemployment. Most of the lawmakers seem more eager than in the past to refrain from passing measures which might further rock the economic boat.

One suggested law, which falls clearly into this category, would nearly double the present minimum wage, would eliminate certain exceptions to the law which have been in effect for years, and would place other restrictions on both employer and employee. Superficially, the measure would seem sure to improve the lot of the lowest-paid workers. Actually, there is good reason for believing that it would do just the opposite. For the most part, the minimum wage directly affects only the unskilled, the marginal worker, the beginner, and the part-time worker. The value of these workers to the employer is very limited. If the law required him to pay them more than their pro-

ductive worth, he would necessarily employ as few of them as possible. This would be particularly noticeable in enterprises such as retailing, which offer many opportunities for beginners and occasional workers. The typical retailer really has to watch the pennies now if he is to make both ends meet. The consensus of experts in the field is that too high a minimum wage, along with the other restrictions, would lead to widespread layoffs.

Unwise social legislation can be a two-edged sword, that will hurt those it is designed to help.

**Knowledge & Wisdom**

The New York Times recently printed a report on the findings of a distinguished chemist to the effect that the world can support a population of 15,000,000,000 if we make the most of our chemical knowledge. He further predicted that meat and eggs will disappear from the diet because a beef steer converts only about 12 percent of its food into meat. Chemistry, he went on, will enable us to convert wood into sugar for human consumption.

Shortly afterwards, The Times published a letter from a doctor emphatically disagreeing with this theory. His purpose, he wrote, was to point to the pitfall in taking knowledge obtained in the field of chemistry and applying it to human nutrition without considering facts obtained in clinical medicine. Then he said: "Research in human nutrition during recent years definitely indicates the superiority of animal protein foods, such as meat and eggs, over all other foods. Further, there is strong evidence indicating that sugars are not only inferior foods but may also be harmful to the human organism."

"The researcher in chemistry knows little or nothing of clinical medicine. It is not expected that he should. Clinical researchers are not expected to be chemists. Specialization is a necessity. However, the stores of knowledge gained from highly specialized fields of research must be applied with the wisdom that comes with broad

knowledge and understanding."

For many years, optimistic accounts of the possibilities of ersatz foods made from wood and other materials have appeared at intervals. None of these products have come anywhere near expectations. The animal protein foods occupy a dominant place in the American diet, and nothing has appeared to dislodge them.

**THE LOW DOWN FROM HICKORY GROVE**

You know, somebody, if they can, I wish they would let me know why it is that our U.S.A. must do the advising and worrying for the whole world. We are the champions on barging-in with free advice. We want to help everybody do their local chores. We tell 'em how—we furnish half the cash for the job. We are the wise guy—windy. We are the quick-rich to the rest of the world—a cinch for a touch. That is us.

For "horse sense" an IQ test would not show us as too stupendous. Horse sense you know is minding your own affairs and keeping your mouth closed, at least part

of the time and thus not expose too much of your ignorance. That is what a horse does—that is how the saying got started. Yep.

Instead of supporting 600,000 or 700,000 on the Govt. payroll, to think up fancy thoughts and ways to impress the world we should be rummaging in our sock to see how near it is to the bottom. We should calm down. The atmosphere would clear up mightily if we would remove a flock of our heavy thinkers. Around 650,000 of 'em are costing us around 3,000,000,000 bucks per annum in cash—cold cash that is—yours and mine.

That Mr. Harry Byrd—that old Virginia democrat—he is doing his level best to remove some of this deadwood. A postcard to him would be a nice gesture—that is unless you think 3 billion is just chicken feed.

Yours With The Low Down,  
JO SERRA

**Canada Asks Help Of Texas Oil Drillers**

AUSTIN—Canada called on Texas recently for help in teaching oil

well drilling mud control, a specialty of the University of Texas Industrial and Business Training Bureau.

The University of Alberta, Edmonton, asked the Bureau for help and paid the expenses of a specialist to set up a training program. The Alberta oil discoveries caught Canadian drillers short of trained personnel.

Phone the news to The Stockman.

**From where I sit... by Joe Marsh**

**Now I'm Going Back To High School!**

When I saw lights burning in the High School auditorium last night, I looked in to see what went on. About twenty people were listening to Buzz Ellis, the electrician, talk about television.

I slipped into a back seat and asked Hap Thomas what was up. Hap told me it was the new Self-Improvement Club. I stayed to listen—and learned a lot. Buzz really knows his stuff.

Turns out this club meets every Friday night. Each member gives a talk on the subject he knows most about. I joined on the spot because

learning new things is one of my favorite hobbies.

From where I sit, it's willingness to learn from the other person that makes Americans tolerant towards so many different viewpoints and tastes in things. Just because Buzz Ellis goes for chocolate malteds, while I prefer a mellow glass of beer, doesn't mean I'm right and he's wrong. Incidentally, next week I'm going to talk on how to run a newspaper.

Joe Marsh

### Instance Jean Reeves Becomes Bride David Williams In Ceremony At Munday

Instance Jean Reeves, of Mr. and Mrs. James Munday, became the bride of David Williams, son of Charles Williams, in a ceremony at 6:30 Saturday evening in the Methodist Church in Munday.

Given in marriage by her father, the bride wore an imported white organdy over taffeta dress with peplum and sleeves of tiny ruffles. She wore organdy mitts and her finger tip veil was held by a beaded tiara. She carried a white Bible topped with orchids and a spray of stephanotis and satin streamers. Mrs. J. E. Reeves, Jr. of Lubbock was matron of honor and

the bride's other attendant was Mrs. Joe Clayton of Ozona, sister of the bridegroom. They wore identical colonial type dresses of blue and champagne and carried colonial nosegays of painted daisies, tulle and ribbon, and a garland of daisies in their hair. Cheryl Clayton, niece of the groom, flower girl, wore a copy of the bride's dress with yellow daisies in her hair.

Jack Williams of Ozona, attended his brother as best man. Ushers were Roy Henderson, Jr. and Jim Dudley of Ozona, J. E. Reeves, Jr., and Perry Reeves, brothers of the bride, both of Munday.

Arrangements of white gladiolus and daisies flanked the altar with a background of greenery. Mrs. Carolyn Hannah, pianist, played pre-nuptial music and accompanied Miss Frances Smith who sang, "I Love Thee," and "Because." "The Lord's Prayer" was sung as a part of the ceremony and the traditional wedding marches were used.

A reception at the home of the bride's parents followed the ceremony. Receiving the bridal couple were their parents and attendants, Mrs. M. L. Wiggins was at the bride's book.

The table was centered with a three-tiered wedding cake surrounded by stephanotis with white tapers in silver candelabra on each side. Serving the cake and frosted punch were Miss Dorothy Ann Perry of Washington, D. C., Mrs. Travis Martin of Seymour and Mrs. Marjorie Sweeney of Ft. Worth. Assisting in the gift rooms were Mrs. Lillian Little of Fort Worth, Mrs. J. W. Berry of Roperville and Mrs. W. C. Cox.

The couple left for a two-week wedding trip to Colorado Springs and Yellowstone National Park. For traveling, the bride wore a white Eisenburg suit with Navy accessories and an orchid corsage. After two weeks, the couple will be at home on the ranch west of Ozona.

Mrs. Williams is a graduate of

WANTS OUT . . . Looking like a man who has just bid on a new lease on life, Mayor William O'Dwyer of New York poses at city hall following his announcement that he would not seek re-election this year.

is a cut-out silhouette of Charles Austin, the only son.

Librarian Alexander Moffit pointed out that this Bible belonged to the wife of Moses Austin's brother, Stephen, and does not contain the Moses Austin family names. It was this brother in whose honor Stephen Fuller Austin was named, and the Charles Austin in the silhouette was the

cousin, Charles, that Stephen F. frequently mentioned in his writings. Charles, who was born February 22, 1778, according to the family Bible, was near the same age as his illustrious cousin.

The Bible is bound in a hand-tooled leather-covered cardboard back and Oxford printers stamped the date 1776 in the King James translation.

### FOXWORTH-GALBRAITH LUMBER COMPANY

TSCW at Denton and taught second grade in the Ozona Elementary Schools the past year.

Mr. Williams attended Southwestern University and served four years in the Army Air Corps. He has been ranching in Crockett county since 1946.

Attending the ceremony from Ozona were Mrs. Charles Williams, Sr., Mr. and Mrs. Gene Williams, Mr. and Mrs. Byron Williams, Mr. and Mrs. Joe Clayton, Cheryl, and Joe, Jr., Jim Dudley, Roy Henderson, Jack Williams, Mr. and Mrs. Lowell Littleton and Floyd Hokit.

### 173-Year-Old Bible Of Austin Family Is Gift To University

AUSTIN—The 173-year-old family Bible of Mrs. Stephen Austin, aunt of the Texas Republic statesman, Stephen F. Austin, has been added to the University of Texas Library.

A gift of Henry Meigs of New York, and Austin family descendant, the 8 1/4 by 10 1/2 inch Bible has been placed in the University Archives.

On the yellowed leaf at the back of the 2 1/2 inch thick Bible are listed the names of Stephen and Huldah Hopkins Austin's six children and in the front of the book

### New Product Meets Million-Mile Test

Engineers completed over a million miles of road tests before the new Humble Esso Extra Motor Oil was offered to motorists. The tests, scientists explained, duplicated every driving condition, and all makes of cars were used.

The testers reported that in every instance, the new Humble motor oil gave extra protection to automobile engines. Humble station salesmen are urging customers to drain dirty, diluted oil and refill with Esso Extra Motor Oil for extra protection. Adv.

## Before you make up your mind on any new car... do this!

**1** Take a demonstration drive in a new Golden Anniversary PACKARD. Judge for yourself how Packard sets the standards for soundproofed riding comfort and masterful roadability . . . finger-tip handling ease on street and highway . . . and spectacular performance, with gas economy that's the sensation of the fine car field!

**2** Study the hidden values—the vital 60% you don't see when you first look at a car. Find out about the hidden values that keep Packards looking and feeling new for years after many other cars are worn out. Quality note: Of all the Packards built—in the last 50 years—over 50% are still in service!

**3** And then compare prices! At our new lower Golden Anniversary prices, you can now buy a Packard for less than you'd pay for many lighter-built, lower-powered eights—less, even, than they're asking for some of today's sixes!

Come in this week for your Packard ride!

A water-color painting of the Sid Peterson Memorial Hospital in Kerrville by Artist E. M. Schiwetz is shown above. The hospital,

now nearing completion, will be formally opened at 2:00 p.m. on Sunday, July 3. Thousands of Hill Country residents and other per-

sons from all over the state are expected to attend the opening ceremonies and tour the hospital.

### Thousands Of Visitors Expected For Formal Opening Of Ultra Modern Sid Peterson Memorial Hospital In Kerrville Sunday, July 3

KERRVILLE—Thousands of Hill Country residents, state officials, and other persons from all over Texas are expected to gather in Kerrville on Sunday, July 3, for the formal opening of the 55-bed Sid Peterson Memorial Hospital.

All residents of Kerr and surrounding counties have been invited to attend. A brief opening ceremony will be held in the service station on one corner of the hospital building at 2:00 p.m., after which guests will make guided tours of the new hospital's facilities.

W. A. Fawcett, chairman of the Board of Trustees, will act as master of ceremonies of the program. Hal and Charlie Peterson, who gave the hospital to their community as a memorial to their father, will be introduced along with other members of the Peterson family, the Board of Trustees, the Board of Advisors, medical staff, and hospital staff. Among those on the speaker's platform will be Mrs. Sid Peterson, wife of the pioneer Hill Country rancher for whom the hospital is

named, who now lives at the Bluebonnet Hotel in Kerrville.

Hal and Charlie Peterson, acting through a non-profit foundation set up by them, built the hospital as a means of returning something to the community where they have been successful.

Through a unique plan devised by them, the Sid Peterson Memorial Hospital will be able to operate on a non-profit basis for all time. The building is situated in downtown Kerrville, where office space for businesses and doctors on the first three floors will be rented. The rental income from this space will enable the 55-bed hospital on the top three floors to keep operating without profit and without outside help.

Opening-day visitors who tour the hospital will see the newest and most modern hospital equipment available. On the fourth floor, where operating and delivery rooms are located, there is

even a sterile corridor which permits doctors and nurses to go about their duties without contacting any outside personnel or visitors.

All rooms for patients are decorated in bright, cheerful colors and are furnished with satinwood furniture. Traditional "hospital white" has been done away with, and all rooms have extra large windows which afford views of the surrounding hills.

In addition, each room has been fitted with an inter-communications system which enables patients to talk directly with the nurse in charge rather than ringing a bell for attention.

The hospital will remain open for inspection by the public until 6:00 p.m. Sunday. Patients will be admitted beginning about a week later.

### Weekly Swing of SOUTHWEST FARM MARKETS

(USDA)—Only occasional strong spots appeared in mostly steady to lower southwest farm markets for the past week, the U. S. Department of Agriculture's Production and Marketing Administration reports.

Fewer cattle and calves arrived at southwest and midwest markets last week than the week before. Most markets showed slight gains for the week ending Monday on slaughter steers, heifers, and yearlings, but most cows, calves and stockers sold 50 cents to \$100 lower. However, calves gained 50 cents to \$3 at Houston. Steer beef advanced \$2 to \$4 for the week at New York, but cow beef and veal remained unchanged. Good calves sold from \$26 to \$27.50 at Houston and up to \$26.50 at San Antonio. Good and choice brought \$22 to \$25 at Fort Worth and to \$26 at Denver.

Lighter hog receipts last week brought steady to higher prices at most markets. However, butch-

ers lost 25 cents and sows 50 cents to \$1 at Denver.

Smaller sheep marketings brought little change in prices the past week, although some classes saw slight gains or losses here or there. Dressed spring lamb gained \$4 to \$8 for the week at New York, and mutton held steady. Larger goat sales at San Antonio followed similar price trends as the sheep markets.

Little wool of mohair sold in the southwest. Some 12-months Texas wool brought \$1.70 per clean pound in Boston. Adult mohair sold at 38 and kid 58 cents.

### Cancer Death Toll Mounting; Society Urges Drive Support

HOUSTON—In Texas, as in every other state, cancer's death toll is mounting, while that of most other diseases is falling off, J. Louis Neff, Executive Director, said today.

"Last year 6,913 Texans died of cancer," Mr. Neff said. "This was 413 more than in 1947.

"Several reasons have been given for this rise. Statisticians

point out that, with health conditions generally better, people are living longer. The cancer takes its heaviest toll in the period of life after middle age. "However, it may be the increase reflects simply the increase in the number of people covered and reported on certificates.

"Whatever the reason, it is plain, they do clearly point out that the educational, research work of the American Cancer Society must continue unabated," the cancer control officer said. "We cannot continue our fight against cancer in Texas without the funds contributed by the people of Texas. We are \$100,000 short of our fund-raising goal of \$450,000.

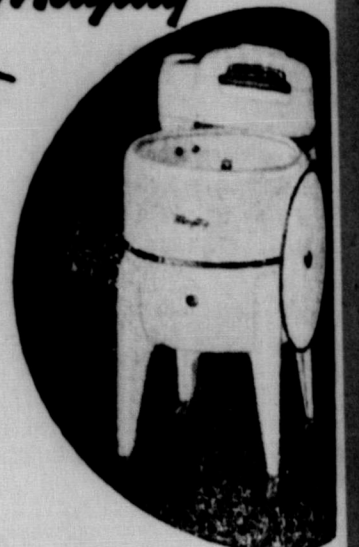

Mr. Neff urged all Texans to send contributions to the cancer control fight. Address donations to: Cancer, Care Postmaster, to your local office. Postmasters are instructed to forward such contributions to the American Cancer Society, its fight against the disease.

Mr. and Mrs. P. T. Robinson having their home repaired.

You'll like their power, stamina and giant-size load capacity. You'll like their sturdy quality and their comfort and convenience. And you'll also prefer them for their prize-winning economy, for these trucks have 3-WAY THRIFT—lower operating costs, lower upkeep costs and the lowest list prices in the entire truck field! Come in and let us discuss your delivery and hauling needs.

NORTH MOTOR COMPANY Phone 172 Ozona, Texas

**And Local WTU Force Subject Of Up In "Electric Times," Magazine**

A series of articles on "WTU Towns," a illustrated article about the local West Texas Company branch and appeared in the June issue "Electric Times," a monthly published at Abilene for employees in the 166 towns of West Texas counties served by the company.

The article gives a brief history of the county, the article gives a summary of progress in the county.

The intersection of U. S. 290 and State Highway 290—modern, progressive Texas town known for its beautiful homes, public schools and Ozona is growing and population has almost doubled the last census, and more than 100 new homes have been built in the past five years.

A building for a new hospital has been completed and for the furnishings and it have been donated by the city and its citizens. The building has been equipped by the Texas Utilities Company, the new business institu-

tions are the Silver Spur Ranch Motel, consisting of 12 units; and new buildings have been built for the South Texas Lumber Co., Melton Motor Co., Ranch Theater and James Motor Company.

"Ozona's public school system is one of the best in West Texas; it consists of a high school building, junior high school building and two elementary school buildings; two 4-unit teacherages; two residence teacherages; and a new gymnasium is under construction. A new stadium and football field was included in last year's \$475,000 school building program.

"There are three churches, including the First Baptist Church, Church of Christ and Church of Methodist Church, and the First Methodist Church, a new \$200,000 edifice. Plans are now pending for the building of a modern swimming pool, community recreation center and fire station. The residential district was paved in 1948."

The article included pictures of the local WTU office and personnel, including T. J. Bailey, local manager; Wayne Snader and Ed Cranfill, service men, and Ancel Clark, bookkeeper. Pictures were also published of the dismantling of the old ice tank built 22 years ago when WTU came to Ozona. The tank and fixtures were removed to turn the space into a warehouse

and workshop.

Manager T. J. Bailey has been with the company since 1925 when he went to Abilene as a student at Hardin-Simmons University, working part-time in the accounting office of the WTU while attending school. Two years later he was given a full time job and continued with the accounting department in Abilene until transferred to Ozona in 1944 as local manager.

Any write-up of T. J. Bailey naturally would include reference to his baseball, softball and golf playing. The WTU publication reviews his prowess in baseball as a student at Hardin-Simmons "where he made quite a record as a baseball player and turned down a major league contract to stay with the company." Bailey became manager of a company sponsored softball team in the Abilene city League and his team won the championship in 1937 and 1938. He was also noted for his ability on the links, holding the company tournament championship every year except one from 1937 through 1944. "His 63 was the course record at Willow Crest until the course was altered several years ago," the writer declared.

"The Ozona local manager was born in San Saba, Texas, and when he was 20 years old he was working as a supply clerk at the U. S. Helium Plant at Fort Worth. He attended Draughon's Business College in Fort Worth for one year, where he studied accounting and business administration. Bailey moved to Abilene in the fall of 1925 to enter college, and called Abilene his home until he moved to Ozona to assume his present duties."

"But when you speak of the Baileys you must include the other three—" the article continued. "Mrs. Bailey, the former Jewel Roach of Eldorado, and the son and daughter, Joe Allen, 15, and Martha Pearl, 10. Mrs. Bailey is a graduate of Hardin-Simmons University and is a teacher in the Ozona Public Schools. She is also

a member of the first Baptist day School, and member of the Ozona Woman's Forum."

Accurate and Complete

**RANCH RECORDS**

Are More Important  
Today Than Ever

Government regulations and heavy tax programs are destined to be a part of the American way of doing business for a long time. For that reason, it is more important today that every business keep accurate records of its operations.

The ranch business is no exception. With the stiff federal taxes, you will want to take advantage of every saving item in your expense account and at the same time have clear and convincing records available for inspection by tax agents to prove up any item on your income tax return.

Start now to keep a complete record covering all operations in your business with the Stockman's RANCH RECORD BOOK. Your cancelled checks or your present records can be transcribed to this handy record book, together with your income and inventory records and you can have your entire record in a simplified form contained in one volume.

Easy To Keep - Complete Record - In 1 Volume

**THE STOCKMAN  
RANCH RECORD BOOK**

A PAINFUL VISIT FROM FATHER... William J. Kropysko, navy chief storekeeper, who was flown to Long Beach, Calif., from Guam because of his wife Marian's critical illness with polio, is shown peering wistfully at his children through the window pane of his quarantined home in Long Beach. A few hours after this photo was taken, however, the quarantine, which had been in effect many months, was lifted. Kropysko saw his son, Rickie, 9 months old, in high chair at left, and his daughter, Sally Jo, 3, who flew into a great state of rejoicing at seeing her father again. Mrs. Kropysko is forced to live in an iron lung at Los Angeles general hospital.

Cody-McLean Vows Read In McCamey; Couple At Home Here

The country home of Mr. and Mrs. A. H. McCamey, near McCamey, was the scene of the marriage of their daughter, Jane, to Kenneth Trawn Cody of Ozona, June 15.

The Rev. Wayne Smith, pastor of the Dilley Methodist Church, performed the double-ring ceremony. The bridegroom is a son of J. M. Cody of Clyde.

Given in marriage by her father, the bride wore a white embroidered organza dress.

Attending the couple were Mrs. Frank Coyne, Jr. and D. M. Clark, McCamey. R. A. Busby lighted candles, and wedding music was furnished by Mrs. Myrtle Willman and Mrs. Roy Busby. Bob and Stephanie Miller carried white satin ribbons forming an aisle for the wedding party.

Following the ceremony, a reception was held. Included in the house party were Mrs. Earnest Mabon, Jr., Mrs. Leo Plumlee, Miss Marilyn Whiting and Miss Eleanor Voigt.

WILL YOU BE AMONG THEM? Holiday Week-End Will Bring Death Or Injury To 1,000 Texans

AUSTIN—The Fourth of July celebration will bring death or injury to a thousand Texans.

Nine hundred will be hurt in traffic accidents during the long week-end from Saturday through Monday. Twenty-seven will be killed in auto accidents. A dozen will be drowned. Twenty-five will die as suicides or murder victims. Fifteen more will die in plane crashes, fires and other accidents. That's a total of 79 violent deaths.

These predictions were announced today by Charles A. Miller, President of the Texas Safety Association, following a holiday accident-prevention conference with officials of the Texas Department of Public Safety.

"Speed, more than anything else, will account for the traffic fatalities," Miller said. Emphasizing that extra caution is needed to overcome holiday hazards created by heavy traffic, Miller pointed out that speed control is the personal responsibility of each driver.

"Safe speeds," he declared, "have little if any relationship to legal speed limits. You are permitted to drive 60 miles an hour on an open highway in the daytime, but only if the road is in good condition, and so on. When a hazard occurs, the smart driver compensates for it. The stupid driver doesn't. And that's why we have so many stupid drivers."

Since traffic law violations will be involved in virtually all the fatal accidents occurring during the holiday period, Miller said, the Texas Highway Patrol and local traffic officers are expected to be out in full force in an effort to hold down on accidents with strict enforcement.

Rat Control Is Keeping Down Outbreak Of Typhus In Texas

AUSTIN—The people of Texas have been fortunate in escaping any serious outbreaks of typhus fever this year, the total number of reported cases so far being 133. This is a gratifying decrease in the incidence of this disease, but at the same time, it is well to warn that only continued stringent rodent-control measures will hold this disease in check.

This is the advice of Dr. George W. Cox, State Health Officer, who says that "typhus is one of the most debilitating of all diseases, and the long drawn out illness

results in such loss of time that this factor is usually a even more expensive to the victim, than his doctor and hospital bills."

Inasmuch as typhus fever is transmitted to man by the rat flea, the control of typhus depends almost entirely upon ridding ourselves of rats. No garbage should be left exposed where they can get to it to feed. Granaries and feed houses should be rat-proofed so that rats are starved out. All rat harborage such as trash piles, piles of old lumber, accessible quarters in the walls and foundations of buildings and other suitable living quarters should be denied them. Houses and business buildings can be effectively rat-proofed at a comparatively low cost, and the expense is always much less than the damage that can be done by rats, and the sickness they can spread.

"When the rat is gone, typhus fever will go, also," Dr. Cox said. "Keep building out, starving out, and killing all rats, and typhus fever will no longer menace the health of our people."

Mr. and Mrs. Ed Reynolds and children, Ned and Judy, of Dallas are here for a visit with Mrs. Reynolds' parents, Mr. and Mrs. L. B. Cox, Jr.

Pantex Plant To Be Used To Store Surplus Wheat In Lubbock

LUBBOCK—First shipment of wheat for storage in the Pantex plant near Amarillo are expected to arrive early next week, officials of Texas Technological College have announced.

Contracts have been signed with several organizations and in some instances top preference is being given members of cooperative organizations. President D. M. Wiggins said that Space in warehouses and in the Pantex will be used to store about 6,500,000 bushels of wheat.

Tech moved to aid farmers in the Panhandle several weeks ago when it became apparent that storage space was short for crop estimated to be up to 60,000,000 bushels. Officials of War Assets Administration, who recently gave the 17,000-acre Pantex property to Tech, speedily proved the program.

Workmen speeded renovation of storage buildings, and the Santa Fe Railroad cooperated by repairing Pantex trackage to facilitate wheat movement.

A grasshopper can jump 30 times its own length.

"AMBASSADOR OF FAIR PLAY" . . . Well qualified to do the job, John B. Kelly, Jr., America's top solo oarsman, left the U. S. on June 24 to spread the gospel of American fair play up and down the sports lanes of Europe. He plans to take part in every national regatta abroad before returning in the fall to start his final year at the University of Pennsylvania.

You ought to be driving a '49 PONTIAC

A Very Fine Car at a Very Low Price!

When the 1949 Pontiac was introduced, its public reception made Pontiac history. Yet today, some six months later, it still continues to grow in public popularity and demand! For this extraordinary situation, there is a very simple and obvious reason. This big, distinctively styled beauty enables people to enjoy fine car ownership at a very low price.

Powered by the world's sweetest engine, it provides fine car performance wherever you drive. Its handsomely appointed Fisher body affords fine car spaciousness and fine car atmosphere. Because of

the exclusive Travelax Ride, Pontiac comfort over every road is fine car comfort. Its fine car steering and general handling ease are the happy result of fine car engineering and design. As you have the right to expect of a fine car, Pontiac ownership carries with it the definite promise of satisfactory, dependable performance over the years.

Yet for all its fine car quality, Pontiac is not expensive. Few cars undersell it. In fact, it is America's lowest-priced straight eight. Buy this fine car at its very low price and you'll be very, very happy for a long, long time!

JOHN L. LEWIS WALKS AGAIN... No year would be complete without a scene like this. John L. Lewis, president of the United Mine workers union, gave the Southern Coal Producers association a vigorous and staccato tongue lashing before walking out on the soft coal wage talks. Here he is standing to speak his mind before a room full of miners who gathered from the surrounding coal pits to sit in on the talks at Coalfield, W. Va. Lewis is thought to be waiting for an industry-wide coal wage bargaining conference—the traditional bargaining of former years. And indications at present are that a summer strike will be called.

### Highway Patrol Force Texas Highways July 4th Week-End

The Texas Highway Patrol expects to set a couple of this holiday week-end. No. 1 will be a new high speed issued for speeding and hazardous driving. No. 2 will be a new high speed drivers jailed. No. 3 will be the first big holiday patrol recently issued in its maximum strength of 1,000 men, and every man will be on the job "from can to can't". Concentrated effort to hold down deaths to less than the 27 per cent. Director Homer Garrison, Department of Public Safety, Highway Patrol and State Police Divisions have mapped out a plan that covers everything from the names of the people to be killed," Garrison said. "Some inside information things that Patrol Chief

W. J. Elliott is giving special attention to: Twenty-two of the 27 persons killed from Saturday through Monday are expected to be victims of accidents on rural roads and highways. Many of these accidents will involve only one car which runs off the road or hits a bridgehead or other fixed object. Many of the fatal drivers will be driving too fast for common sense. Several of them will have been drinking. A few of the victims will be pedestrians who, either drunk or sober, stagger out into the path of traffic. Others may take their last ride in a hearse just because too many people crowded into a car or rode on running boards or fenders. The periods of greatest congestion, and hence the most dangerous times to travel, will be; Saturday, from 2:00 p.m. to midnight; Monday, from noon til midnight. "Start earlier," Garrison urged. "drive slower, and live longer." Office Supplies—Stockman Office

Mr. and Mrs. Jim Ad Harvick, who were married last Saturday in Clinton, Texas, have returned from their wedding trip to make their home here.

WANTED—Experienced book-keeper. Must be able to type. Permanent position. Apply at Lemmons Dry Goods Co. 1c

FOR RENT—Unfurnished house. Has two large rooms with bath. \$35 per month. Gordon Aikman at Ozona Drug. 1c

FOR SALE—Good apartment size gas range. Inquire at the Stockman Office. 1c

### Information Sought By Parents Of Missing Ft. Stockton Teenagers

FORT STOCKTON—Co-operation of citizens of the Southwestern states is being asked by parents of two fifteen-year-old Fort Stockton boys, missing from home since June 22.

Fred Dees, about 5 feet 6 inches tall, has light brown hair, brown eyes and two front teeth missing. His cousin, Joe Dees, is about an inch taller, but not as heavy, weighing about 125 pounds, and Joe has light brown hair, blue eyes, and has one gold tooth in front.

The boys left home, presumably in search of work or adventure, wearing western type clothing—blue jeans or khakis, and palm straw work hats. They would be interested in some type of construction work.

Mr. and Mrs. Everts Dees are parents of Fred, and Mr. and Mrs. Marvin Dees are Joe's parents. They want to be reassured as to the safety of the boys, and request that anyone who has seen them, given them a ride, or employed them, call the parents collect in Fort Stockton.

Mr. and Mrs. Ashby McMullan are adding a room for their boys and a breezeway at their home here.

Mike Clayton, son of Mr. and Mrs. Boyd Clayton, left Sunday to attend a boy's camp, Camp St. John, in Wisconsin.

Jane Adams, daughter of Mr. and Mrs. Clay Adams, left Sunday for Wisconsin to attend summer camp for girls at Camp Naga-wicka.

An irresistible force can never meet an immovable object since the terms are mutually exclusive.

Mr. and Mrs. Neal Hannah are having their home renovated, including painting and enclosing a porch to enlarge one bedroom.

Seven presidents of the United States reached the high office Remington adding machines at the Stockman office.

## Tip about that trip..

For fun-on-the-run, as you've already discovered, there's no travel mate like that Buick of yours—especially if it's really in the pink.

So while you're readying yourself for vacation tours, how about doing the same for your car—with a little of that special Buick care that does so much to make trips top-notch? For instance—

**Got plenty of pep?** Our engine tune-up is just the ticket to bring back flashing, new-car liveliness on hills and straight-aways.

**Can you "stop on a dime"?** The answer's yes—when our experts get through truing up worn drums, mounting new linings to replace old worn ones.

**How's your view?** It'll be good, night and day, when you let our experts check your lights, windshield wipers, and windows.

**Want a good steer?** That's just what you've got, after our front-end experts get through adjusting your steering mechanism to give it new-car lightness.

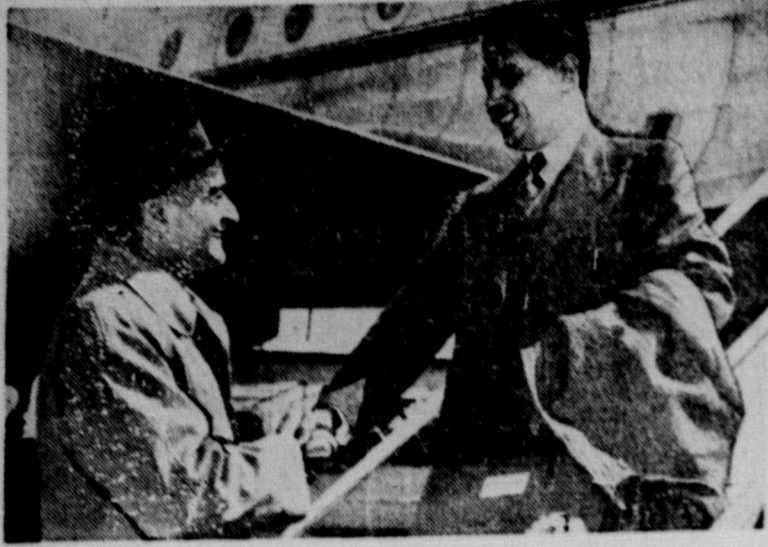

**Chassis sassy?**  
Does it ride roughly—squeal and squeak at you?  
Drive in—we'll "shoot the works" with our grease guns and oilcans to take the noise and stiffness out of your ride—give you easier steering.  
And a Buick-trained mechanic will give your car a conscientious trouble-preventing inspection as well—without charge!

In short, start your trip in our shop and you'll find it free of car worries all the way. Drop in—see our facilities—talk to our experts—and see for yourself it's the best insurance of a good time that you can buy.

**Buick care keeps Buicks best**

ANOTHER GANDHI ARRIVES IN U. S. . . . Devadas Gandhi, youngest son of the late Mohandas Gandhi, India's beloved spiritual leader who was assassinated last year, is met by J. J. Singh (left), president of the India league, as he steps off the plane which brought him to New York's La Guardia field. Although the younger Gandhi does not purport to be a major religious force, as was his father, he is following the Mahatma's footsteps in working for his people's good.

Jeff Fussell of Mobile, Alabama is here for a visit with his parents, Dr. and Mrs. J. A. Fussell. Mr. and Mrs. Jack Holt have returned after a vacation trip up the Eastern seaboard.

### Levelland To Stage Annual Rodeo July 2-4

LEVELLAND—This thriving West Texas City is getting into its best Western bib and tucker in preparation for the annual Levelland Rodeo, Saturday, July 2, Sunday, July 3, and Monday, July 4. All the trappings of a genuine western thriller are being unfurled for display at these three rodeo heydays, by the hospitable citizens of Levelland. Sponsoring the Levelland Rodeo is the Levelland Rodeo Association, a non-profit organization of businessmen, cowboys, ranchers, and farmers. . . . one of the oldest community rodeos in the Southwest. The Levelland Rodeo boasts one of the biggest and best rodeo arenas in West Texas, and features new facilities. Tim Holt, famous movie star and son of a star, will head the great parade to begin on the Fourth of July. The procession of horses, riders, and floats is scheduled to get underway at noon. The Lubbock County Sheriff's posse and other riding groups have been invited to participate. Immediately following this impressive spectacle, the final two performances of the Levelland Rodeo will swing into action one mile southwest of Levelland, in the new Rodeo Association arena.

Chevrolet Motor Division as it turned out its 22,000,000th vehicle. The milestone model was reached, W. F. Armstrong, general manager, announced, within 10 months of the 21,000,000th, despite the fact that the period included a plant shutdown for extended new passenger car model improvements.

The latest production feat brought Chevrolet's output in the postwar years to well over 3,000,000 passenger cars and trucks. The 19,000,000th car was built on November 13, 1947 and the 21,000,000th on August 30, 1948. Thirteen plants located in important automobile markets contributed to the 22,000,000 figure, said Armstrong. With the St. Louis plant leading the way with 3,350,000 units, the officials gave the following approximate cumulative totals for other plants: Atlanta 1,100,000; Baltimore 1,100,000; Bloomfield, N. J., 1,500,000; Buffalo (prewar) 1,300,000; Flint 2,150,000; Janesville, Wis., 2,100,000; Kansas City 1,500,000; Los Angeles (newest assembly

plant, opened February, 1948, 1,000; Norwood, Ohio, 1,000; Oakland, California, 1,000; Tarrytown, N. Y., 3,000,000; Canada 1,300,000.

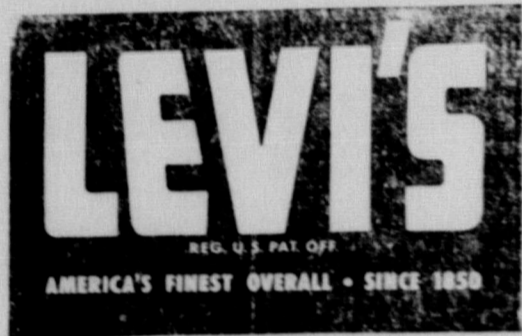

Card Of Thanks We wish to express our appreciation to all our friends for their many acts of kindness and expressions of sympathy on the occasion of the illness and death of our mother. . . . For many beautiful flowers and thoughtful acts of kindness, all, we will be grateful always. The North (City)
