Only frigidaire has Live-Water Action!

Live-Water Action provides surging, penetrating currents of het, suchy water that gets clothes really clean -- gently! Clothes are in water all the time -- not half in, half out. Live-Water Action also russes twice, each time in clean, fresh water.

See how beautifully this new wather fits into kitchens—as well as utility rossus and laundries. Fits close to the wall— new high back-panel puts all controls in easy, safe reach.

Extra-High-Speed Drying

Frigidaire's Rapidry-Spin gets clothes for drive than most other washers. Many clothes are ready to iron at once. All are lighter, easier to lift and earry.

Percelain Finish Inside and Out!

Exchance with Frigiclaire! Beautiful lifetime porcelain on steel finish protects against rust, soap or bleaches. Cleans as quickly easily as a china plate!

We can deliver your new frigidaire Washer immediately - I'll be gled to take over your weshday cheres.

GET YOUR CAR READY NOW FOR

Winter Driving

Your car needs special attention to put it in good condition for winter driving.

Get Your ANTI-FREEZE Early

We have a good stock of PRESTONE and ZEREX. It's not too early to get your car ready for the first freeze.

FREE INSPECTION of your cooling system. Bring us your car now so that we will have time to give it a thorough check for leaks, faulty hose, etc., before filling the radiator with anti-freeze solution.

Also, let us change motor oil, grease and service your car for trouble free winter driving.

HERE'S GOOD NEWS! We have extended our

Some-where a Road is Call-ing

the purr of a great-powered engine is music to your ears

If command of two tons and more of nimble-footed and beautifully balanced automobile can step up your pulse beat-

You are just the man for whom a ROADMASTER was engineered.

Whatever it takes to give you a sense of complete and carefree freedom behind its wheel, you'll find in this proud master of the highways.

Added to the breadth and length that any

fine car can give you are four soft-action coil springs to cushion the wheels, and a torque-tube to banish rear-wheel wander.

Added to its high-compression, valve-inhead engine are eight exclusive Fireball combustion chambers that get extra power from each whirling charge of fuel.

Added to the convenience of clutch-free driving is the torque-converter principle of Dynaflow Drive - that feeds a steady flow of power without lag or falter ever.

Added to the light responsiveness of

its steering wheel is a Buick-engineered "front-end geometry" that gives this phenomenal performer a sense of direction straight and true.

But no roll call of engineering accomplishments can tell you the feel of a ROADMASTER out on the road.

That's something that only firsthand acquaintance can bring. Not just a trip around the block - but enough time and enough miles to let you discover what a joyous companion this great car can be.

That's something that is easily arranged. If you're truly interested, a phone call will bring a ROADMASTER to your door.

What's the fastest-growing line of trucks in America?

OOK around you - in cities, on farms, at terminals and loading dockswherever goods are moved on wheels.

More and more, the pay load's packed on a GMC.

You see those letters on medium and heavy Diesels, the most economical workers in their field. For GMC means first in Diesel power.

You see gasoline-powered GMC's front-running the highways of America - pace-setting delivery of the necessities of peace and war.

You see nimble bantamweights of the family - the highest-powered 5- to 2-tonners made-outpulling, outhauling every other truck in their class.

Ever wonder why GMC is gaining a greater percentage of the industry than any other truck-maker?

Ask the truck drivers themselves. See the confident way they talk of the power plants, the broad-shouldered chassis-the way a GMC handles.

Ask about the tons they've hauled the miles they've logged - the nip-md tuck schedules they've licked time

Ask these cost-wary haulers why the'n made GMC the fastest-growing feet is the land.

They'll tell you it's because GMC is the finest motor truck made.

If you'll come in, we'll show you why we think they're right.

TRAILERS FOR SALE

See Cecil Hubbard at

HUBBARD'S GARAGE

Highway 290 Ozona, Texas For the man or woman who wants a Cadillac, there is no satisfactory substitute in the whole wide world!

So, if your heart is set on sitting at the wheel of this great and distinguished motor car-let us talk with you frankly about the matter.

First of all, you should come in and place your orderjust as soon as circumstances will permit.

There is now—as there has been for many years—a waiting list of wonderful people who wish to own this wonderful car. And the sooner your name joins this distinguished list—the sooner your hope will be realized. And once your signature is on an order blank-hold

firm to your purpose. This may not be easy-for temptation is almost certain to assail you!

Cars without number may be had today—almost as soon as you agree to accept them. And, quite naturally,

people who sell these available cars may ask you to shift your preference from Cadillac.

But, again, we urge you to hold firm-for the sake of your own welfare and your own satisfaction. Remember-it's Cadillac you want.

Cadillac-with its universal and pride-inspiring recognition as the Standard of the World!

Cadillac-with such performance that owners actually think up excuses for taking to the highway! Cadillac-with such amazing endurance that its full

life-span has never yet been measured! Cadillac-with economy so extraordinary that fee cars, at any price, will run farther on a gallon of gasoline!

Yes-if you want a Cadillac, come in and order it. And then stand firm until you get it. It's far, far better to wait—than be sorry. Fer, remember, there is nothing that can take its place.

MOTOR COMPANY OZONA, TEXAS
