## Record Crowds, **And Entry List** For Horse Show

#### Total of 108 Horses Show in Third Annual Event

Ozona's third annual Registered Quarter Horse show broke all previous records in the matter of the number of entries in the various halter and performances classes of the show and in the attendance at the Friday evening and Saturday and Saturday evening sessions.

A total of 62 horses were entered in the seven halter classes, ten in the reining contest and 36 animals, a record for most any show, in the cutting horse contest.

The show was sponsored by the Crockett County Sheriff's Posse and the Posse considered for a time calling off this year's show on account of the drouth, as did many other shows in the area. But the decision to take a chance paid off with the finest show yet and a fine attendance at all of its ses-

Picture of a Pair who just waked up

TERE in the driveway is a Buick. It has just arrived. It belongs to this proud young couple. They've just "arrived" too.

They've arrived at a discovery-the discovery that owning a Buick instead of a "low-priced car" isn't so much a matter of money.

It's a matter of knowing the facts of life. Buick prices are closer to the prices of smaller, less powerful, less distinguished cars than most people think.

Why don't you check into this?

You'll find you could pay \$300 to \$400 more and still not match the horsepower of this nimble beauty.

You could pay hundreds of dollars more-and still not get any more interior room, or richer fabrics.

But that's only part of the story.

The big thing about any car is the way it goes.

So you ought to find out how this car rides the road-the freedom from bobble and sway that cost a million real dollars to develop.

You ought to sample the way Dynaflow Drive\*

feeds the power - with a steady swoop and unbroken smoothness in city traffic, on hills, or out on the open road.

And you ought to know how it feels to touch off that Fireball 8 Engine. With all its might, this high-compression valve-in-head; is a lot of miles from a gallon of gas.

We'll tell you this-because a lot of folks have told us this: No matter what car you're driving now-no matter what cars you've looked atthey'll never seem the same after you try this

Just give us a chance to prove it - and you'll have a lot of fun.

Equipment, accessories, mim and models are subject to change without notice. Standard on Roadmaster, optional at extra cost on other Series.

Sure is true for '52

# Somebody's Going to be Surprised!

Well, it's Junetime—and the top is down—and his heart is filled with memories . . . and where do you think he's going?

He's going halfway up the hill, to a spot where a lane strays into the wildwood and he can glimpse the top of a fieldstone chimney above the trees. That's his lane-and he's going home!

It has been a well-guarded secret. Just two people have known about it all these months—himself and his Cadillac dealer.

To make doubly sure, he has hinted at everything under the sun as a fitting tribute to this wedding anniversary - except a Cadillac!

Well, it won't be long now. He's getting closer and closer. And now the stones in the driveway crunch under the wheels...he gives the familiar three "toots" on the horn ... and then she sees him, with his cap in his hand, bowing and pointing to the driver's seat.

Surprised? Never so much in all her life. And never more thrilled-for it's the "car of cars" for the 'day of days"!

And is he happy!

Maybe it has taken him ten years-or fifteen-or even twenty . . . to make his dream come true.

But during all this time he never wavered in what he wanted. He wanted to make one anniversary mean something special above all the rest . . . by the gift of
