### REPUBLICAN REVIVAL

It has been said that what this country needs is a good revival of morality. The National Convention of the Republican Party this July came pretty close to being a moral revival. This is the way it happened.

The Grand Old Party has been out of power now for twenty years. It was a comeback under such leaders as Wilkie, Ladd and Dewey have failed. But it has been building up a reputation against the party in power, and by such issues as corruption in government, our foreign policy, and civil rights. At last the GOP realizes that it is the year to win, if the party can win again. Many Republicans will tell you frankly, "We can't win this year, we may win in another national election and with another defeat the Republican party may pass off the political scene." Whether this prediction is true, no one can say for sure.

Republican ranks is one of the things that Bob Taft is a good example of. He is an able Senator with a long political record for hard work. It is in his favor whether the United States in it another man who has facts about the country than

## Over 100 Attend Annual McMullan Family Roping

### Ashby McMullans Are Hosts at Ranch Roping Honoring Sons

More than 100 persons gathered at the Ashby McMullan Ozona ranch Sunday for the fourth annual McMullan family roping party, staged by Mr. and Mrs. McMullan to honor their three sons, Jimmy, Ronnie and Joe, in lieu of the traditional birthday party. Previous events have been at the McMullan Big Lake ranch, a new arena at the Ozona ranch getting its baptism of fire Sunday from about 40 ropers who came from "all over" for the event.

The ropers were divided into junior and adult divisions. The jackpot and matched events started at 1 p. m. and lasted until dark, after which the McMullans were hosts at a barbecue supper. Because of Interscholastic League rules against boys in high school athletics competing for money in athletic events, the juniors roped against each other for the joy of the sport and the competition, no entry fees or prizes being divided.

In the first jackpot roping for boys, Eddie Stevenson was first with 19.2, Kenny McMullan taking second in 21 and Charlie Black was third with 24.9.

Tom Powers took top money in the men's jackpot. His time was 11.7 seconds. Second place went to Gene Newman in 12.6 and Riley Branch was third in 14.2.

Jody Jones was first in the second boys' jackpot. His winning time was 13.9 seconds. Kenny McMullan with 15.9 was in second place and Eddie Stevenson third with 17.6.

John Ray Powell, a junior, took on W. H. (Steve) Stevenson in a four-calf matched roping, and was winner of the match with a total time of 66.9 to 75.7 for Stevenson.

Jody Jones copped the third jackpot with 13.2 seconds. Second was Kenny McMullan with 14.8 and Charlie Black was third in 19.3.

Vic Montgomery won the next men's jackpot event in 12.8 seconds. Louis Powers copped second place in 13 flat and Tom Powers was a close third in 13.5.

In a matched event, Ronnie and Kenny McMullan bested Charlie Black and Jody Jones 71.6 to 87.4 on four calves.

## East-West Elkhorn Field Extensions Are Indicated

### Conoco 23-A Flows 495 Bbls. In 6 Hours, Field's Largest

A 1/4-mile extension to the Elkhorn (Ellenburger) field in Crockett county is indicated by Continental No. 23-A J. M. Shannon, which flowed at the rate of 23 barrels of oil hourly on a drillstem test between 7,375-7,428 feet in the Ellenburger. Gas surfaced in five minutes, oil in 51 minutes. Five-inch casing was being run to total depth. Location is 2,010 feet from the north and 2,069 feet from the west lines of section 21-UV-GC&SF.

Another well on the extreme east side of the Elkhorn field, Continental No. 23-A Shannon, flowed 494.94 barrels of oil in six hours to indicate possible top production for the field.

At total depth of 7,416 feet, in lime and chert, No. 23-A cemented 5 1/2-inch on bottom, drilled out to 7,371, perforated between 7,210-45 7,158-95 and 7,114-30 and treated with 1,000 gallons of acid.

The project flowed the 494.94 barrels through 24-64-inch choke. Tubing pressure was 650 pounds, gas-oil ratio 487-1. Operator was preparing to complete.

Southland Royalty Co. No. 1-3 Todd, wildcat in section 3-YZ-EL&RR, recovered 450 feet of heavy oil. (Continued on Last Page)

Rev. Clifton Brannon

## Rev. Brannon To Open Baptist Meet Here Mon. Night

### Daily Luncheons Planned By Ladies Classes of Sunday School

The fall evangelistic crusade of the First Baptist Church, to be led by Rev. Clifton W. Brannon of Longview, will begin next Monday evening at the tent supplied by the evangelist, the pastor, Rev. Blake Woolbright reminded this week. The tent will be located north of the Silver Spur Ranch Motel.

Morning services are to be at the church at 10 o'clock while the evening services will be in the tent at 7:45.

In conjunction with the fall revival, the Adult Women's classes of the Sunday School are arranging for a luncheon each day at the church at 12 noon. The luncheons are to be for the entire families of the various class members and for the team members who are coming to conduct the revival emphasis.

Since the evangelist and his party will not be in Ozona by lunch time Monday, no luncheon is scheduled for that day. Tuesday the evangelistic team is to attend Rotary Club and Rev. Brannon is to be the featured speaker.

On Wednesday, the class luncheons begin with the Homemakers class in charge. Mrs. Jack Brewer is the teacher of this class.

On Tuesday, the Dorcas Class. (Continued on Last Page)

## 114 Lambs Ready For Selection By 4-H Clubbers For Feeding

One hundred fourteen mutton lambs have been selected and purchased and placed on group feeding program in the 4-H Club lamb feeding program so far, according to Pete Jacoby, county agent.

Choice lambs for the 4-H Club lamb feeding program have been difficult to find this year, not because of what one might think as the result of drought, but because of the heavy weight of the lambs inspected, Mr. Jacoby said.

Club lambs have been selected from the following flocks so far: Joe T. and Joe Tom Davidson, Early Chandler, Childress Bros., Dick Henderson, Bascomb and Bud Cox, and Maasie Ranch. More lambs will be selected from other breeders within the next two or three weeks.

Some 4-H Club boys have already selected their lambs while others will select them in the near future. A complete listing of all breeders and feeders will be made as soon as all selections have been made for the lamb feeding program.

## Hearst Laws Becomes Night Deputy Sept. 1

Hearst Laws, who resigned as deputy sheriff to accept a job as special Ranger in livestock protective work, will be back in the sheriff's department here September 1, Sheriff V. O. Earnest announced this week.

Mr. Laws will become night deputy on that date, and will share with Sheriff Earnest and Deputy Billy Mills the law enforcement chores of the county.

## Bill Seahorn Named To Head P.M.A. County Committee

### Caruthers And Young Chosen Members In Saturday Voting

Participating ranchmen voters last Saturday elected members of the Production and Marketing Administration county committee to supervise operation of the PMA program in the county during the coming year.

Named committee chairman was Bill Seahorn. Vice chairman will be Abe Caruthers and regular member, Jake Young. Marshall Montgomery was named first alternate and Bud Coates second alternate.

The new committee will assume its duties on September 3 the first regular meeting date.

Members of the PMA committee, working with the Soil Conservation Service, the PMA county administrative officer and the county agent, will form the mobilization committee which will meet monthly on the first Wednesday in each month, to coordinate and plan conservation work. Meeting time will be 9 a. m. in the PMA office.

In this county the mobilization committee will be composed of the three regular committee members, Mrs. Mary Dunlap, the administrative officer, Donald Fulton, Soil Conservation Service representative, and County Agent Pete Jacoby.

There will be a sub-district meeting in San Angelo on September 12, attended by county administrative officers and county committeemen, to discuss the 1953 PMA program, Mrs. Dunlap announced.

## Sheriff's Posse Host To Teachers, Football Squad

### Barbecue Supper Tuesday Night to Honor Faculty, Gridders

The annual supper and entertainment honoring members of the high school football squad, their fathers, men of the faculty and the school board, will be held Tuesday evening in the girls gym in the high school by the Crockett County Sheriff's Posse.

Curley Hays of Abilene, former San Angelo athlete and a well known official of football and basketball games in this area, will be the featured speaker of the evening. Hays is now with the West Texas Utilities Co. in Abilene.

Music by the high school band under the direction of Corbett Smith will provide music during the dinner, which will consist of barbecue and trimmings with a few home cooked side dishes.

Also invited will be members of the Ozona Lions Club and the Rotary Club.

## Only 18 Votes Cast In Run-Off Primary Election Here Saturday

Crockett county voters just weren't interested in who was elected to a Supreme Court position in the run-off primary Saturday.

Only 18 voters took the trouble to cast a ballot in the courthouse box where the election was held. Twelve of the number favored the apparent winner of the lone statewide contested race, that between Frank P. Culver of Fort Worth and Spurgeon Bell of Houston for Place No. 1 on the Supreme Court. Culver was maintaining a narrow lead in the slow counting of ballots. He received 12 to 6 for Bell in the local balloting.

Get your car or truck inspected now. Deadline is Sept. 7. TROY WILLIAMS MOTOR CO. Official Inspection Station. 18-5c

## August Water Use Sets New Record; 4 1/2 Million Over July High

The month of August set another new water use record in Ozona, Bill Cooper, water district manager, reported at the conclusion of meter readings last week.

It was a jump of nearly 4 1/2 million gallons above the July all-time record consumption of 29,225,000 gallons. The August total reached the flood stage—33,654,000 gallons — enough water to spread one inch deep over two square miles of land (Check us on those figures sometime.)

The record daily consumption of water here during drought-seared, heat-parched August, lacked only a few hours daily of necessitating a 24-hour continuous run of the entire pumping capacity of the water works system. The load has been carried, however, with the two large pumps off for five or six hours daily from near midnight to early morning, Mr. Cooper said.

Meanwhile, the water district is making plans to acidize the disappoining new well completed to the water stratum last week. The well tested only about 100 gallons a minute on the pump, but since it is but a few feet from the heavy producers, the directors are hopeful they can make the hole produce as the other wells by breaking through the formation with acid.

## Shallow Strikes On Bean Ranch By Barron Kidd

### Grayburg and Queen Sand Producers; Locate 2 New Tests

Barron Kidd of Dallas has reported two indicated shallow discoveries in Crockett county.

The operator's No. 1-A Pure-Bean located three miles southeast of the shallow Vaughan field, is reported to have gauged approximately 20 barrels of oil daily, pumping from a Grayburg section between 1,364-1,370.

Location is 2,355 feet from the north and 1,031 feet from east lines of section 81-OP-GC&SF.

Barron Kidd No. 1-B Pure-Bean located 5/8 mile southeast of the Grayburg discovery, has indicated discovery production from the Queen sand between 1,136 feet, top of pay and 1,140 feet, the total depth. Casing (5 1/2-inch) was cemented at 1,136 feet.

Oil began rising in the hole while the project was drilling from 1,138 to 1,141 feet. It rose 300 feet in one hour and 600 feet in five hours. Gravity of the oil was 32 degrees, corrected.

Location is 330 feet from the south and 1,390 feet from the west lines of northwest quarter of section 65-OP-GC&SF.

Operators have staked locations for two more wildcats near the new producers.

Kidd No. 2-A Pure-Bean will be 1,000 feet from the south and 330 feet from the east lines of section 81-OP-GC&SF, on a 120-acre lease 1/2 miles northwest of Ozona.

It will be one location southeast of Kidd No. 1- Pure-Bean and a half mile west of Kidd No. 1-B Pure-Bean, both active.

Kidd No. 2-B Pure-Bean will be 1,000 feet from the north and 330 feet from the west lines of section 65 OP-GC&SF, on an 80-acre lease.

Drillsite is one location northeast of Kidd No. 2-A Pure-Bean, one location northwest of No. 1-B Pure-Bean and one location southeast of No. 1-A Pure-Bean.

Both are to drill to 1,600 feet with cable tools, starting immediately.

Continental Oil Co. No. 29-A J. M. Shannon, will be 667 feet from north and 804 feet from west lines of section 22-UV-GC&SF, one location west of production in the Elkhorn (Ellenburger) field.

Rotary drilling is to go to 7,600 feet, starting when permit is granted.

## Football Squad In First Work-Out At 6 a. m. Monday

### 31 Boys Participated In Spring Practice; 10 Lettermen

In spite of blistering summer heat, it will be football time again in just a few more days.

Monday morning, September 1, at 6 a. m. the season's first pigskin thump will be heard in the vicinity of Lions Field in Northwest Ozona.

Coach Larry Wilkins has issued a call for the 1952 aspirants for gridiron glory to report at that unearthly hour to begin the first workout of the new season.

And Coach Wilkins is expecting at least 31 boys out for that first practice session. That many showed up for Spring training this year, ten of them returning lettermen, seven squadmen from last year and fourteen boys out for the first time for high school competition. Several other boys may show up for the fall season, the coach believes.

A pre-practice meeting of the boys will be held at the field house at 4 o'clock Sunday afternoon for the purpose of issuing instructions and outlining practice schedules of the coming week. Coach Wilkins announced. All boys are urged to report at 4 o'clock Sunday afternoon at the field house.

The 6 a. m. practice will be held the first two days of the new school year opening Tuesday, as well as on Monday morning, the coach announced. Dismissal will be at 7:15 on school mornings to give boys time to get breakfast and to school on time. Afternoon workouts will begin at 5 o'clock. Efforts are being made to arrange a scrimmage game with Ft. Stockton Friday or Saturday night of next week.

The 1952 Lions will be headed by Tom Piner and Charles Garlitz as co-captains. Piner, a Senior and 3-year letterman, weighs 145 pounds and plays halfback. Garlitz, 160-pound Junior, has lettered two years and plays at fullback.

Other two-year lettermen ready for this year's line-up include Baldomero Ramon, guard, 135 pounds and a Senior; Bill Schneemann, tackle, a Senior and weighing 165 pounds; and End Bill Maness, a 155-pound Senior.

Returning one-year lettermen are 155-pound Ronnie McMullan, a Sophomore, at center; Jimmy McMullan, 135 pounds, a Senior, at guard; Scott Hickman, rangy 155-pounder for the end, a Senior; Charles Hale, a 130-pound Sophomore expected to furnish some speed from a halfback slot; and Don Cooper, 165-pound Senior for an end position.

Back from last year's squad are Wilburn Conklin, Senior, weighing 155 pounds, quarterback; Kenneth Phillips, 175-pound tackle, a Junior; Jodie Jones, 165 pounds, a Sophomore, at guard; Graham Childress, 165 pounds, a Junior, at a tackle slot; Donald Taylor, 135 pounds, a Junior for quarterbacking chores; Sammy Martinez, 130-pound Sophomore, halfback; and Antonio Rodriguez, 135 pounds a Sophomore, at end.

The Freshman class of 1952 brings an even dozen recruits to the Lions football squad. That many from the incoming class were out for the Spring training. (Continued on Last Page)

## Mrs. R. A. Harrell Named To Head Ike Forces In Crockett

Mrs. R. A. Harrell of Ozona has been named as campaign manager for the Republican presidential campaign in Crockett county.

Hobart McDowell of San Angelo, GOP campaign manager for the 25th Senatorial district, made the appointment.

The local campaign for Dwight D. Eisenhower and Sen. Richard B. Nixon, GOP presidential and vice presidential nominees, will get under way around Sept. 1.

### Ike Would Fight To Resore Tidelands To Texas, Say Backers

FORT WORTH — Texas-born Dwight D. Eisenhower, a "fighter all his life," will fight, as President of the United States, to restore to Texas her precious tidelands. He will also fight unceasingly and with all his heart to stamp out Socialism and Communism in this country.

This was the message that Texas-born Governor Dan Thornton, of Colorado, brought to the Lone Star State Thursday when he officially opened the State Eisenhower Headquarters atop the Continental Life Building in Fort Worth.

Speaking to a large and enthusiastic crowd of "Ike" supporters in Will Rogers Auditorium, the tall and rangy Governor, son of a West Texas sharecropper, charged Adlai Stevenson, the Democratic nominee, of being the personal candidate of President Harry Truman. He said that there can be no hope for a change in Washington when only the faces of the nominees are changed, but the powerful Administration forces remain in control of the Federal government.

"The Democrats have nothing to fear but fear," Thornton declared. "And I mean mink. Now is our opportunity to throw the rascals out who would destroy America. We need a more decent type of man in the White House than we have now."

Thornton characterized the campaign as: "not a struggle between two political parties, but a struggle between two philosophies. One believes in freedom of the individual and the other that the state is all-powerful."

Appearing with Thornton on the program were Jack Porter, Houston, GOP National Committeeman from Texas, and Ben Guill, Porter's appointee as campaign manager for Eisenhower in Texas.

## It Means So Much — To So Many!

In all the history of the world's commerce, it is doubtful whether another manufactured product has ever had such a hold on the affections of its owners as the Cadillac car.

There is a well-to-do gentleman in a southern state, for instance, who will permit no one to minister to his Cadillac except himself—other than for its mechanical needs. He washes it, polishes it and cleans it . . . himself.

There is a family in New York which has owned a long series of Cadillacs to which have been given the names of people—because they regard their cars as all but members of the household.

There is a professional man in a mid-western state who insists that his whole life changed for the better when he got his Cadillac.

These are but typical of innumerable instances of the deep regard in which Cadillac owners hold their cars. The loyalty and respect a Cadillac engenders are extraordinary indeed.

You might well ask what there could be about

a motor car to make it mean so much to so many.

The answer is not far to seek.

Because of its world-wide standing as one of life's better things, it reflects credit upon its owner and indicates that he is a person of substance and good taste.

Because it performs so well and so dependably, it is conducive to his desire to travel and to see the world—an inspiring companion for his daily movements among his fellows.

Because it is beautiful and luxurious, it is a joy to own and a pleasure to contemplate.

Standing in his driveway, rolling down the streets of his favorite city, or parked at the entrance to a distinguished club or hotel—it is a credit to his judgment and a testimonial to his work.

No wonder he cherishes it, and thinks of it as all but a part of his own personality.

Don't you think that a car which can mean so much to so many could mean a great deal to you?

Better come in today—and talk it over.

### N. W. Graham Recounts Highlights Of His Experiences in Serving Crockett County AS Its Prosecutor For Forty-Six Years

N. W. Graham, who will retire next January 1 from the office of county attorney after some forty-six years of service to the county in one way or another, as district attorney and for most of these years as county attorney, has prepared the following brief account of some of his experiences and observations during those forty-six years in the courthouse.

Crockett county's record of a minimum of lawlessness which has persisted from the pioneer days to now; the give and take attitude of its public officials, and the minimum of disagreements among its citizens to result in lawsuits, are highlights of this report from a veteran official who has witnessed Crockett county's history in the making through most of its years.

With a word of thanks and a word of caution to the people of Crockett county, Mr. Graham concludes the brief accounting of his stewardship of public office for nearly a half century. His personally prepared accounting of forty-six years in the courthouse follows:

It is now more than 46 years since I located here and during most of that time I have, in a way, served as county attorney.

When I visited the courthouse for the first time to arrange for an office, the members of the Commissioners Court were Judge Chas. E. Davidson, Commissioners S. E. Couch, Uncle Bose Coates, Geo. Harrell and Arthur Hoover. The other county officials were Jeff Moore, Sheriff; Roy Huds-peth, Clerk; Pleas Childress, tax assessor; Joe Nance, treasurer, and W. C. Easterling, Justice of the Peace. Mr. Easterling after finding himself the second time, resigned. These officers, most of whom were younger than myself, have all, except Arthur Hoover, answered the final roll call.

When I came to Ozona, a joke was going the rounds (it may have been true, I don't know) that a lawyer from Coke County was here making the race for district attorney and approached the late George Thompson to solicit his vote. After he had made his talk, George asked what office did he say he was running for? "District Attorney," said the lawyer. "You know, I don't care whether we have a district attorney or not," George said. Then the would-be D. A. said, "If you elect me you will have about as near no district attorney as you can get." George's views on the district attorney was about what I ran into regarding a county attorney. No one cared whether they had a county attorney or not, but they refused to be appeased by the fact that they had about as near no county attorney as they could get.

In the early days, I qualified one time as county attorney and served less than a year; then by agreement with the sheriff and justice of the peace, I prosecuted all misdemeanor cases in the justice court but was allowed to defend criminal cases in the district court. These arrangements with the justice court continued until I left the district attorney's office.

On some special occasion shortly after my arrival here, Berry Ketchum and his crowd showed up. Before the celebration was over, there were complaints against most of them. Berry asked me what I was going to do with their cases. I suggested pleas of

guilty. He did not think the boys cared to plead guilty but said, "I'll tell you what we'll do—if you won't get a lawyer, we won't and we'll just see how we come out." I do not recall much about the results of the trials. Guess the score was in Berry's favor. If I had gotten a high percent of convictions, that probably would be clear in my mind.

Almost everyone brought into court, like some of those early day characters, did not care to plead guilty and seemed curious to see how they would come out in the trial of their cases. I should have developed into an able trial lawyer.

Often after occasions like the Juneteenth or a rodeo and races, we would have justice court for two or three days. In acquittals, I received nothing. On convictions, \$10 came in, to be applied on the grocery bill. It was only natural under these conditions for me to do all I could to get convictions, but all too often there was nothing for L. B. Cox to credit on my account.

Along in the evening of about the third day of one of those long court terms, there was a hung jury in what I thought was a good case. I asked for another trial, which also resulted in a hung jury. The defendant then said if we wanted to try him again, we would have to give him time to go to the ranch and water his stud horse. His thinking of the horse saved my face. I told him to go ahead and water the horse and when we wanted him the sheriff would call him. That case is still on the docket. This person in later years seemed to be a good friend to me and I thought highly of him.

In the early days here, all livestock was allowed to run at large in the town. Eventually at an election, a stock law carried. Those who opposed it were very unhappy about the results. They attributed their defeat to corrupt politics. With them it involved a matter of principle. Their inherent rights were being invaded. They thought less of the stock law than Pres. Truman thinks of the Taft-Hartley law. Their cows continued to be at large in the town. Those who came into court charged with violations of the stock law demanded jury trials and to get convictions, all six of the jurors had to be from the right side of the draw. This disturbing condition continued for years. It caused me more grief and gray hairs than everything else in the justice court.

Then in the Spring of the year when the grass was getting fine, some one forgot to close the cow pen gate one night. Next morning, they chased the pound man back across the draw, tore down the pound and drove the cows home. It seemed they had failed to remember something, however, and before they had finished milking the cows, the late Sheriff W. S. Willis bobbed into the picture. Among other very pointed statements, he told them that from there on, he was the pound man and that the "next time" he was going to put them in the damned pound with the cows. As he was leaving he said "that goes for all the rest of you too." The word got around and no one seemed to want in the pound with the cows so there just wasn't any "next time." That was the end of the free graz-

ing. I might still be worrying with them if it had been left up to me.

When I left the district attorney's office, I thought my work as a public prosecutor was finished. I took office down in town and terminated my agreement with the justice court. Then in a short time, I was given the management of the abstract plant and moved back into the courthouse. I paid office rent and took no part in criminal prosecutions.

After oil was discovered in this county, Judge Davidson asked me to qualify as county attorney in order to hold space in the courthouse for the abstract plant which I did and have continued in the office since then.

I was hardly aware of it, but by this time I found myself more interested in the accused persons than I had been before. This inclination to leniency seems to have grown on me. Most of the complaints in justice court are filed against a very small number of people who are repeaters or chronic offenders. This few, their families and the juvenile delinquents constitute the most grave responsibility of the courts.

Shall a fine be assessed against a man whose family is destitute, or a juvenile delinquent committed to custody when kindness and consideration might guide him into the path of a happy and useful life?

In trying to do justice to the accused and the public as well, I sometimes feel there is scarcely anything that I have handled in a commendable way. My efforts look like a series of blunders. My greatest trouble has been in making my motives understood. The sheriff has said that he could not tell whether I was trying to prosecute or defend. Often I did not know either.

For instance, a mother whose son was brought into the district court as a Juvenile Delinquent, came to me for assistance. The district attorney, when approached, suggested procedure he hoped would avoid a trial of the case. The lady and her family lost confidence and declined to comply with the recommendations of the district attorney until after a conviction had been procured. It seems that to handle such matters requires the wisdom of a Solomon. I guess we just have to live our lives to gain confidence. It can't be done by declarations of good intentions.

There has been no outstanding accomplishments but by showing sympathy and an interest in those appearing in court; by tempering justice with mercy, and at times extending a little material aid, a more understanding, frank and friendly relation has been established. We usually find the statements of most accused persons to be true. Very little distrust is shown by them. They appear to be confident that they are going to get a square deal. They do not

appear in court as often as they once did. Fewer disturbances are being reported to the sheriff's office. The docket is light. The duties of the county attorney requires is so trivial that it is scarcely missed. This is all very encouraging. These changes in the attitude of the defendants toward the officials of the courts have come about very slowly. We do not know just when they occurred but find that they do exist nowadays. I hope that this improvement will continue and that the policies which brought it about will be continued. I do not think there has been a trial of a criminal case in the justice court in the last ten years. In the last one the defendant was a lawyer from a neighboring town. He made no effort to conceal his disappointment at the verdict of the jury.

A prosecuting attorney can't do his best work on the fee system. If he is able to rise to the point

where the question of collecting or not collecting a fee has no bearing on his official conduct, the defendant can't always know that, and may think a fee is all that prompts the prosecution. This naturally will leave him without respect for the county attorney. I approached one of the county commissioners and suggested a salary of \$100 per month. I told him I thought that was about what the service was worth, but got no response.

When I came to San Angelo looking for a location to get into the legal business, there was only one lawyer in Ozona. The attorneys up there did not recommend Ozona. They said that when matters arose that would usually develop into profitable suits, they were settled out of court and no fees were collected. I was advised to go to Sonora where there was a group of able lawyers. The dockets of the courts in this county have at all times remained very

light in comparison with other counties. I hear it is a possibility for law to be true, you should not only see to it that you are enabled to do so, but also harmony with you. I trust that the future relations between you and me. In recent years thought and the provisions have been made. On further thought that it is you, the Crockett county people, kindly with me and appreciate the attention extended to me. I have to hope my transportation such that they are before too long.

**Farewell Party For**  
**Bill Childress**

Neighbors, family and friends  
of Mr. and Mrs. Bill Childress  
staged a farewell supper honoring  
the couple Saturday night in the  
backyard garden of the Ted White  
home. Mr. and Mrs. Childress and  
children left the first of this  
week for Roswell, N. M. where  
they will make their home on a  
ranch owned by Mrs. Childress'  
father, Jess Koy of Eldorado. The  
ranch is located 18 miles from  
Roswell and the Childress chil-  
dren will attend school in Roswell.  
A sterling silver steak knife  
set was presented to the honored  
pair. Members of Mrs. Childress'  
Sunday School class at the Meth-  
odist church presented her with  
a gift as did men of the Men's  
class to Mr. Childress.

James Isbell, District Manager

Do you believe in <sup>Dollar</sup> signs?

THERE are a lot of signs to guide you  
to the best buy in automobiles.

Popularity is a good sign.

It means that a lot of people have tried  
a car and found it good. So it's important  
to know that Buick is today — and has  
been since 1938 — the most popular car  
outside the "low-priced three."

Room, comfort, power, ride are good  
signs.

So it's important to know that you can  
pay hundreds of dollars more and not

beat the room and comfort you get in a  
Buick SPECIAL.

Nor, at the price, can you match its  
power. And only Buick gives you a real  
million dollar ride.

Doesn't all this give you a hint?

Doesn't it suggest that you ought to try  
out a Buick — sample its Fireball 8  
Engine—find out how it takes you over  
the road — feel the sure control that is  
yours on curves—discover its "big car"  
room and smoothness?

Do that—and look at the dollars on the  
price tag—and we know what you'll find  
out:

If you can afford a new car, you can own  
a Buick—and boy, what fun that will be!

Equipment, accessories, trim and models are subject to  
change without notice.

Sure is  
true  
for '52

When better automobiles are built  
**BUICK**  
will build them

**Here and There**  
By J. Troy Hickman  
(Continued From Page One)

hands were not exactly spotless. Moral issues have to be joined in the form of political issues. Somebody introduced a rule that no delegate whose seat was contested could vote for another delegate whose seat was contested. Hot and angry debate raged all day and all night. They threw the book at each other. Angry voices flowed out of the mike and into every kitchen and living room radio in the U. S. A. It was a famous battle. No holds were barred. Both sides played every note on the organ and appealed to every possible prejudice and instinct.

The balloting on the rule was turbulent and drawn out. Many states demanded that their delegations be polled, vote by vote. Although this was supposed to be only a preliminary skirmish to set the stage for the real battle between the candidates, everyone felt that this was in fact the real battle. So it proved to be. When the vote was finally counted, the convention was really over. Everything after that was anti-climax.

As everyone knows, the Ike forces won the fight over the rules, and so won the nomination. And they won it on a moral issue which was also a political issue. Feeling that Ike was a stronger candidate than Taft, they pressed the moral issue against the Taft candidacy, and beat him.

To be sure, this was no Sunday School picnic. These were realistic and determined warriors. They wanted first of all to win. And yet—and here is my point—they

realized that they could not win if they went into the election campaign with a cloud hanging over their candidate and party cause. To that degree, and no more, they had a revival meeting and got gloriously converted.

Now, converts have been known to lapse back into the old life, even after dramatic conversions. We are under no illusions about Republican politicians. They have a way of killing each other off. This trait has beaten the party before and could do it again. When the revival fervor is over, no one knows whether the Republicans will revert to form and kill each other off again.

Ike has a good running start over Stevenson. For one thing, he is the man on the white horse. A crusader for national righteousness. He can make the woods ring with demands for reform in Washington. For another thing, there is a wide and strong public yearning for a change, just as there was at the end of the last 16-year Republican reign. In 1932, Franklin Roosevelt was smart enough to consolidate all brands of dissatisfaction into one grand coalition which has hung on for, lo, these many years. Whether Ike can do the same thing remains to be seen.

On the other hand, Ike has a hard fight ahead. The Democrats are in power. Thousands of noses now immersed in the public feed troughs will hear their master's voice on election day. Every voter who is now over thirty remembers with some pain the depression, and who was at the wheel when it happened.

Stevenson, the Democratic candidate, is a gifted man. My estimate of the situation is that he is definitely the more convincing speaker of the two. Ike is a great campaigner in war, but Stevenson has spent his life in the tortuous paths of politics, and he knows every turn in the road. Around his neck hangs the albatross of Harry Truman. He cannot renounce Truman, neither can he afford to let him plant the fatal kiss on his cheek. Will he be able to maneuver this situation?

Election day is a long way off. Anything may happen. The biggest group of independent voters in the country's history are waiting and watching. Many of them will not make up their minds until the morning of November 4 about how they are going to vote. However the election comes out, one thing is sure. Some changes have been made. Something basic is happening on the American political scene.

Mr. and Mrs. J. B. Miller and children, Michael, Van and Linda, have returned from a vacation spent at their summer home near Creede, Colorado. They had as guests there Mr. and Mrs. M. S. Decker and children, Barbara Jean and Keith, of Odessa.

**North Installs New Paint And Body Shop**

North Motor Co. is just completing a new paint and body shop in the shed section of the plant north of the display room. The paint room is outfitted with an exhaust fan which will draw air through filters to insure against dust and lint settling on cars being painted. An adjoining room is being equipped for the metal work, straightening, smoothing,

and welding.

A master body and paint man, Byron Barton, is already on the job in the new department, renovating wrecked vehicles, while finishing touches are being put on the new shop quarters.

North also has recently completed a covered used and new car lot between the garage and the Crockett hotel. The cars are protected from the weather with a metal awning and from pilferers by means of locked gates and a flood light.

BECAUSE laboratory workers and medical scientists originated inoculations which prevent such deadly diseases as smallpox and diphtheria.

BECAUSE research men and women have toiled ceaselessly to bring forth wonder drugs that control such killer diseases as pneumonia.

BECAUSE master surgeons—with new, extraordinary techniques—now routinely and successfully perform operations which not long ago took a fearful toll of lives.

BECAUSE the newer knowledge of nutrition used by physicians, together with wonderful vitamin and mineral dietary supplements, have tremendously improved the health and vigor of the nation's children and adults.

WE PHARMACISTS are proud to be a part of this mighty effort which has done so much for the welfare of Mr. and Mrs. Young America.

**Switches to Dodge... lowers hauling costs**

- ▶ Whatever you haul, there's a Dodge truck—½-ton through 4-ton—that's "Job-Rated" to fit your job and save you money.
- ▶ Full crankcase ventilation saves oil, lengthens engine life, and lowers upkeep costs.
- ▶ Two fuel filters—instead of only one—keep fuel clean to help prevent carburetor clogging and fouled cylinders.
- ▶ For smooth power that saves wear and tear, Gyrol Fluid Drive—a Dodge "exclusive"—is available on ½-, ¾-, 1-ton, and Route-Van models.
- ▶ Come in today for a demonstration and a real good deal.

Company,  
Chicago, Ill.

**"My Dodge has proved to be a real saver on gas!"**

"We are getting several more miles per gallon with our Dodge 'Job-Rated' truck—and in a small business like mine, economy is important."

"My Dodge has not only proved to be a real saver on gas—but we are real pleased with Dodge dependability. Hauling pipes, fixtures, plumbing tools and other heavy equipment has broken down several trucks for us. But our Dodge has taken heavy-duty use over bumpy roads for a long time now and we haven't had to have a single mechanical repair."

See us today for the best buy in low-cost transportation...
