## Here and There

By J. Troy Hickman

### God's Way With You And Me

God says in the truest of all books, "fret not yourself because of the wicked — for they will soon be like the grass." In the Thirty-ninth Psalm, He promises, "remain from anger and forsake wrath — for the wicked shall be cut off." The Psalmist says, "I have seen a wicked man overbearing, and towering like a tower of bannion. Again I passed by, and he was no more." However, the man may scheme, "God dies." This is His world, not ours. It is because it is His world, it is the world where only the good can end prevail.

A new example of this eternal truth was in the news recently. In East Berlin, the part ruled by the Communists, a peaceful demonstration suddenly erupted into an armed rebellion. The Kremlin had used tanks and guns to put it down. What did it mean?

We hope that it meant that some of the people behind the iron curtain are at last getting wise to the nature of the Communist oppressors. Not only are they getting wise, but they are generating the will to resist.

This may be the first streak in the dawn that the free world has been hoping for. It may well be the first gun in what will become a worldwide revolution against the oppression of the Russian masses.

Long ago the prophet told his people in Israel, "trust not in horses or chariots, but put your trust in the Lord."

God's ways are not always like our ways. Often they are subtle, and hard for you and me to understand. Once when the armies of Assyria were overrunning the land, their prophet said, "God is using Assyria to punish the sins of Israel. But when the iniquity of Assyria is full — when she has served her purpose as the instrument of God's will — then He will punish her with destruction for her own sins." On the eighty chessboard of international life, our God is the Master Player. The designs of men may capture a play now and then, but when the game is over, God is always the winner.

Some of us have feared that the Russians might extend their tyranny over all the earth. Or, failing to do this, a war might be started here atomic bombs would destroy civilization. These fears have very real basis.

But in our fears we have overlooked one thing — God. He is not dead. He is waiting his time. This is a moral world because it is His world. He wills that nothing but the Right ultimately can prevail.

God may be using Russia to punish the sins of the free peoples of the earth, including us. For we are sinners. But when God feels that our sins have been purged and the iniquity of the Russian sinners is full, He will act. And His action may take the form of an explosion within the Russian satellite countries that will reduce that system to rubble.

If that should happen, it will not necessarily save the free world, including us. We still have sins to answer for. Our sins, we cling to them, can ultimately bring upon our heads the same judgement of destruction from God that the Russians are bringing upon them. "God is no respecter of persons."

God's word says more. It promises a reward to the righteous, both individuals and nations. "Trust in the Lord and do good; you will dwell in the land, and enjoy security." This is the only security life has — the security of a righteous life. "Take delight in the Lord, and He will give you the desires of your heart."

But we have to do more than just trust in God. "Commit your way to the Lord." We have to obey and serve Him. We have to let Him lead and follow where He leads. "Not those who cry, Lord, shall enter the Kingdom of God." (Continued on Last Page)

## Mrs. S. B. Phillips, Pioneer Resident, Called By Death

### Widow of Early-Day Rancher Laid to Rest Wednesday

Funeral services were held at 5 o'clock Wednesday afternoon from the First Baptist Church in Ozona for Mrs. S. Byrd Phillips, 74, one of Crockett county's fast thinning pioneer residents, who died at 11:45 Monday night in the Crockett County Hospital after a long illness.

Mrs. Phillips, widow of one of Crockett County's most successful early-day ranchmen, had suffered a stroke some months ago but had been making progress toward recovery. A recent abdominal operation was found necessary and this, with other complications, proved too much for her and death came suddenly Monday evening.

Mrs. Phillips' body lay in state at the home of a daughter, Mrs. Clay Adams, until funeral time Wednesday afternoon. Services at the church were conducted by the Rev. Blake Woolbright, pastor, assisted by the Rev. J. Troy Hickman, pastor of the Ozona Methodist Church, with burial following in Cedar Hill Cemetery. Cody Funeral Home of Ozona was in charge of arrangements.

Pallbearers were James Baggett, Alvin Harrell, Sherman Taylor, Richard Flowers, Joe Tom Davidson, Lowell Littleton, Bill Seahorn, Wayne West, Evert White and Hilton North.

Mrs. Phillips was born Martha Lela Williams, daughter of the late Mr. and Mrs. W. C. Williams, in Kerr county on October 11, 1878. She moved with her family to Crockett county in 1896, five years after the county's organization. On December 5, 1899, she (Continued on Last Page)

## Community Financial Strength Reflected in Spite of Drouth, Prices

Crockett county is weathering the drouth, financially at least, remarkably well to date, judging from the June 30 financial statement of the Ozona National Bank.

A comparatively small drop in total deposits and a correspondingly small increase in total loans outstanding, reflect the declining financial resources but at the same time reflect a strength in community diversity and cautious management on the part of the area's ranching industry, in the face of drouth and depressed livestock prices.

Deposits on June 30 totalled \$5,593,957.31 against \$5,698,172.23 on April 20. Loans on June 30 totalled \$1,363,247.04, an increase from \$1,334,143.02 on April 20.

The Ozona bank paid its 75th semi-annual dividend of 10 per cent on its capital stock on July 2.

## Conoco Runs Casing To Test Strawn Prospect

### Indicated Producer On Harris Ranch In N. Crockett

Casing was being run Monday for completion attempt in the Strawn, where production was indicated on drillstem tests, in Continental Oil Company No. 2-C Harris, section 4, Block BB-2, Francis Boren survey, four miles west and slightly north of its Strawn discovery in the World pool of northern Crockett county.

Final one-hour drillstem test from 8,235 to 8,347 feet. Corrected total depth, recovered 180 feet of gas-cut mud, with a sulphur odor, 90 feet of oil and gas-cut mud, with a sulphur odor, and 180 feet of oil and gas-cut sulphur water. Initial test of the formation from 8,082 to 8,159 feet showed gas at the top, rated at 1,405,000 cubic feet daily, and recovered (Continued on Last Page)

## Two Ozona Scouts To Attend Jamboree In California July 17

Two Ozona Boy Scouts, Royal Caswell, Jr., and Roy Glenn Sutton, will leave July 11 to attend the Boy Scout Jamboree, to be held July 17-23 at Irvine Ranch, Newport Harbor, California. The Jamboree is held every four years with Boy Scouts from all over the world joining in the week-long gathering.

The Ozona boys will join a group of area Boy Scouts on a special train leaving San Angelo July 11. They will be accompanied by a group of adult leaders from the area. On the way to California, the group will visit Grand Canyon and other spots of interest and in California will visit Hollywood, the ship yards and many other interesting spots in California. Hollywood movie stars plan a special show for the boys July 21. Returning, the group will go to San Francisco for a visit, return by Salt Lake City, Ogden, Utah, take a swim in the salt lake and visit some copper mines.

The boys, about 70 from this area, will meet in San Angelo July 10 at Goodfellow AFB. The air base will provide meals and sleeping quarters for the boys, and entertainment thrown in, before departure the following morning.

## Conoco Completes Three Extensions To Elkhorn Field

### Productive Field Is Pushed Three Directions by Oilers

Continental Oil Co. has completed three extensions to the Elkhorn (Ellenburger) field of Crockett County.

The field was extended one location north and west on the north side with the completion of Conoco 1-27 University.

It was finished for a daily flowing potential of 962 barrels of 40-3 gravity oil, no water, with gas-oil ratio of 403-1.

Potential was based on actual six-hour flow through a 20-64-inch choke through perforations between 7,320-345 feet in 5 1/2-inch casing cemented at 7,432 feet, the total depth. Top of pay was picked at 6,997 feet on derrick floor elevation of 2,607 feet. Pay section was acidized with 500 gallons.

Tubing pressure was 525 pounds casing pressure was 150 pounds. Location is in 27-46-University.

The field was extended one location east and south with the completion of Conoco 6-D Shannon.

It was completed for a calculated daily flowing potential of 824 barrels of oil, based on an actual seven-hour flow of 240.42 barrels.

Production was through a 26-64-inch choke and perforations between 7,276-305 feet in 5 1/2-inch casing set at 7,445 feet, the total depth. Pay section was acidized with 500 gallons.

Location is 660 feet from the north and 4,517 feet from the west lines of 20-UV-GC&SF.

The field also was extended one location northwest and southwest with the completion of Conoco 34-A Shannon.

The well gauged 276 barrels of oil on the potential test. Completion was through perforations between 7,392-435 feet, in 5 1/2-inch casing set at 7,495 feet, the total depth. No other details were available.

Location is 2,010 feet from the north and 804 feet from the west lines of 21-UV-GC&SF.

## DAUGHTER TO HICKSES

Mr. and Mrs. Glen Hicks are parents of a daughter born Saturday in a Henderson, Texas, hospital. The baby weighed 7 pounds 14 ounces and has been named Marjolyne. Mr. and Mrs. Hicks have one other child, a son, Paul, 2 years old. Grandparents are Mr. and Mrs. R. A. Crawford of Henderson and Mrs. Isla Hicks of Comanche. Mr. Hicks is principal of the North Elementary School in Ozona, and this summer is acting as director of the youth program in the city.

## Little League Area Play-Off Set For August 3-4-5

### Six Leagues to Compete in San Angelo Meet of Area

Houston Smith and Charles Ratliff, commissioners of the Ozona area Little League office, holding of area Little League officials in San Angelo Monday night to work out details for the area play-off to be held in San Angelo August 3, 4 and 5.

The area schedule was drawn up at the meeting, with six teams representing four leagues in San Angelo and the Ozona and Big Lake leagues, competing. Ozona drew a bye in the opening round Monday, August 3, and will play the winner of the Big Lake-San Angelo South League at 5:30 p.m. on Tuesday, August 4. The winner of that game will play in the championship game Wednesday afternoon at 4:30. The area games will be played in the San Angelo Little League park in the Santa Fe public park.

League entries in the area play-off will be all-star selections with the age-limit distribution of regular Little League teams disregarded in selection of an all-star team of 14 players.

An all-star team is to be selected from the four Ozona League teams this week for a matched game with an all-star team from Big Lake. The first of a two-game series will be played in Big Lake Friday night, July 10, with the return game in Ozona the night of July 17. The all-star team which plays the Big Lake team may not be the same as that which plays in the San Angelo area competition.

## Little League Teams Deadlock In 2nd Half Race

### Four Games in New Series Leave All Four Teams Even

Ozona Little League second-half flag chase is four games old and everybody is even with everybody else.

Ozona Oil Co. Red Sox copped the first half championship ending June 15 and after a brief rest, the teams took up the battle again last Thursday night. And the opening of the second half chase indicated the tempo of the coming battle when the Kyle Indians, cellar dwellers the first half, rose up to smite down the champion Red Sox. And in the second game of the opening series, the South Texas White Sox downed the Spencer-Stevens Yankees.

Monday night's games reversed the order, with the previous night's winners now losing and vice versa. The Spencer-Stevens crowd downed the Kyle team 13-8 and the Ozona Oil edged the South Texans 4-2. Now all teams remain deadlocked with one win and one loss each and the battle will be resumed tonight at Little League park, with South Texas and Kyle Kleaders mixing it in the opener and Spencer-Stevens and Ozona Oil going in the nightcap.

The Little League regular season ends July 23, after which the play-off for the championship will be arranged.

## Ozona Girl on TSCW Honor Roll

DENTON, Tex. — The Texas State College for Women Special Honor Roll for the second semester of the 1952-53 session contains 260 names, 31 of which made all A's.

Each girl received a letter of congratulations for her scholastic achievements from Dr. Vernon L. Wharton, TSCW dean.

On the Honor Roll from Ozona was Laura Jane Hatley. A June graduate majoring in music, Miss Hatley made all A's.

## Ozona Tenage Team Riding Top of Heap In West Texas League

Ozona's entry in the West Texas League managed by Byron Stuart and sponsored by the North Motor Co., is riding high at the top of the heap in league standings, with five games won and only one lost.

The Ozonians slapped down Irahan yesterday afternoon after taking McCamey on the McCamey diamond last Saturday. In their second meeting with Big Lake here last week, the Ozona teeners took the Big Lake squad 29 to 4 to avenge the early season loss by a narrow margin to the Big Lake team. The locals play the Big Lakers in Big Lake again Saturday of next week, July 11, after which they will be at home for the three following weeks.

McCamey has won three and lost two for second place in standings and Big Lake stands two and two and Irahan has lost five in a row.

## Spotted Rains In Area Bring Relief From Heat Blast

### Heavy Rains Skip Over Area South and To East of Ozona

Rains, strange but beautiful to behold, hopped and skipped over a limited area of Crockett county early Tuesday morning, bringing relief from the blistering heat of June and bringing promise of a small measure of drouth relief to fortunate areas which received falls up to two inches and more in some spots.

Ozona received a 1.73 inch fall in the early morning hours, while ranchmen to the south, in a checkerboard sort of pattern, reported falls up to two inches and more. The showers were erratic, as most of them have been in the last four years, spotting a heavy fall on one ranch or part of a ranch and tapering off to a mere sprinkle or light showers on adjoining land.

But what rain came was highly appreciated, by those who received the most generous falls and even their neighbors who missed, because the rain relieved, temporarily at least, the withering heat which has been beating down through most of the month of June.

## Ozona Girl Candidate For "Miss Goodfellow" Title at San Angelo

Miss Billie Chandler has been selected to compete for the honor of being chosen "Miss Goodfellow of 1953" to reign at the Goodfellow AFB in San Angelo during the base carnival this week-end. She will compete against candidates representing other West Texas towns.

Miss Chandler was chosen "Lioness Club Sweetheart of 1953" by the Ozona Lions Club and was presented at the inauguration May 8. She will be sponsored by that organization in the contests for "Miss Goodfellow" title.

A graduate of Ozona High High School, Miss Chandler will attend San Angelo College in the fall. She is the daughter of Mr. and Mrs. W. H. Chandler.

## Ozona Masonic Lodge Installs New Officers

Ozona Masonic Lodge installed new officers at a called meeting of the lodge last Wednesday evening.

The retiring Worshipful Master, W. E. Allieon, appointed E. B. Baggett, Jr., installing officer.

The new officers are Nip Blackstone, Worship Master; W. T. Stokes, Senior Warden; W. H. Whitaker, Junior Warden; W. A. Allison, Tiler; Lowell Littleton, Treasurer; W. D. Cooper, Secretary; L. B. T. Sikes, Senior Deacon; Vernon Ratliff, Junior Deacon; L. J. Wilkins, Steward; James Wallis, Steward.

## Govt. Feed Made Available For Drouth Region

### Stored Corn, Cottonseed Products Offered At Saving

First details of the federal government's program for aiding distressed livestock raisers in the vast area of West Texas and adjoining states, recently declared disaster areas because of the four-year searing drouth, were received here this week by the local Production & Marketing Administration office.

Details of the plan for releasing for sale to livestock raisers the stored grains and cottonseed meal products which the government has purchased and stored over the years in support program of farm products have not been completed but Mrs. Mary Dunlap, administrative officer of the local PMA, received quotations of the price at which the feeds will be sold.

Cottonseed cake will be sold by the government at \$35 a ton and corn in bulk will be sold a \$1 a bushel. In communication with the state P. M. A. office, Mrs. Dunlap learned that the program will be operated similarly to the recent hay buying program of the government and it was presumed that the above prices were delivered at rail point, although that detail is expected to be clarified as details are announced. Whether the cottonseed cake will be sheep or cow size, or both, and the plan of delivery, are other details to be announced. Buying is not to be restricted to present needs as was the case of hay, Mrs. Dunlap said.

A committee from the County Agricultural Conservation Association, with specified additions, will dispense the government feed. The local committee will be composed of Bill Seahorn, Abe Caruthers and Marshall Montgomery of the county committee, County Agent Pete Jacoby and a local banker and another ranchman, Mrs. Dunlap announced.

## Vacation Bible School Open Mon. At Baptist Church

### Preparation Day, Parade at 9 O'Clock Friday Morning

With preparation day, or registration day, set for Friday of this week, workers lined up in all departments, the stage was set this week for opening of the annual Vacation Bible School at the First Baptist Church next Monday morning.

The Vacation School's opening event will be a downtown parade set for 9 o'clock Friday morning, July 3, from the church. This will be the preparation day opener and registration for the age group from nursery through 12 years. Registration for the young people will be 7 o'clock Friday evening.

The vacation school will be divided into morning and evening sessions, with the younger pupils attending the morning classes beginning at 9 o'clock and the young people the evening sessions beginning at 7 p.m. The young people will have classes in drama, handwork and other subjects plus recreational programs.

Dewey Fuglaar, youth director of the church, will serve as principal of the school. A staff of forty workers has been lined up to direct activities of the school, which will be open to children of ages from 3 through the Intermediate department.

Superintendents are Mrs. Clarence Oster of the Nursery department; Mrs. LeLo Bawcom of the Beginners and Primary; Mrs. Blake Woolbright of the Junior Department, and Mr. Fuglaar for the Intermediates.

The workers in the various departments will be as follows: Nursery: Jeannene Thompson, (Continued on Last Page)

THURSDAY, JULY 2, 1953

Floydine Moss, 8, is recovering satisfactorily following an emergency appendectomy Wednesday night at Hudspeth Memorial hospital. Floydine is the daughter of Mr. and Mrs. Floyd Moss of Ozona and is a cousin of Lee Patrick of Sonora. — News, Sonora.

**Ozonan's Nephew Shares Scholarship With Hi School Buddy**

Dick Hunkler, graduate of Reagan High School in Houston and state high school champion 100-yard swimmer and member of the Reagan relay swimming team, recently made headlines in Houston because he insisted on sharing a full athletic scholarship at A & M College with his high school buddy, is a grand nephew of Steve Welch of Ozona and grandson of the former Miss Willie Welch who attended schools in Ozona.

Hunkler took a half scholarship for himself and half for his swimming teammate and buddy, Keith Dodson of Reagan High, and thus was the subject of a lengthy write-up in Houston papers. A & M accepted both boys on that basis because they could not give both a full scholarship and the boys are out working this summer to make up the difference they will need to make it through the school year.

LOST—Small dog named Pandey. Reddish brown with white neck and face. One black eye. Resembles toy Collie. Call or return to Ted Lewis Texaco Station. Reward. — News, Sonora.

**All-Time High in Water Use Reached Here During June**

Ozona residents set a new all-time record for water use during the scorching month of June just ended, according to a compilation of figures for the month at the Crockett County Water Control and Improvement District office.

The local water system pumped 40,300 gallons of water through a total of 40,392,000 gallons of water through its mains as Ozonans poured out the fluid in an endless stream in their efforts to save grass, flowers and shrubs from the withering heat of record June temperatures.

The June total was approximately 7 million gallons above the previous high use record set up in August, 1952, when 33,654,000 gallons were used.

The June demand necessitated employment of the system's three largest pumping units at once for a period of about ten hours out of each day. These pumps, used simultaneously, deliver about 500 gallons per minute each and a fourth, a smaller unit, delivers 225 gallons. Heretofore it has been possible to leave only the smaller pump on at night, but in June it has been necessary to employ one of the larger pumps in the nighttime hours, the one pump delivering about 600 gallons per minute.

**Crockett 4-H Team Competing in Sonora Wool & Mohair Show**

Four members of the Crockett County 4-H Club judging team, with County Agent Pete W. Jacoby, left yesterday for Sonora to compete in the annual Sonora Wool & Mohair Show set for Wednesday and Thursday of this week.

The team, in competition with area teams, will judge wool and mohair, sheep and goats, range plants and range plots.

Local team members are Carl Conklin, Johnny Jones, Bobby Sutton and Tom Robison.

The Crockett County team won

**THE AMERICAN WAY**

Sound Flood Control

**Grass Judging Team From Crockett Placed Ninth In State Contest**

Crockett County's 4-H grass judging team, composed of Carl Conklin, Erbie Chandler, Johnny Jones and Bobby Sutton, placed ninth in the state grass judging contest at Texas A&M College last week.

Johnny Jones was high man on the local team and ranked 29th best grass judge among Texas 4-H Club members.

Young and inexperienced compared to teams in the state contest, the local team made a remarkable showing against strong competition at the state meet. County Agent Pete Jacoby, the team's coach, has high hopes for the future of his young team.

"If this same team can work together for a period of two or three years, gaining experience as they go, they will stand a good chance to win the state contest," Mr. Jacoby said.

The team members and their coach returned home Friday by way of Buchanan Lake where part of a day was spent fishing in the lake. The fish were not biting the boys reported.

**Our Momma—**

By Kenneth Phillips

Death — death is an odd thing. It can come in one brief instant, and take away one of the dearest things in a person's life.

Last Monday night at 11:45 p.m. she came and took away one of the people that I held close to my heart. That person was Momma — there are no words really, that could say that would express I or anyone else felt. There is nothing you could say when you think of her — that her heart was as big, and as great as the whole outdoors.

Momma led a full life. She raised her children, and raised them in a good mother should. There were also her grandchildren. There were twelve of us grandkids; you could say that she had a major part in raising us too. But sometimes she got a little peeved at the kids. And I can remember having her crutch swung in my direction when I wanted her a little much! I know all the other children remember too.

I felt very bad when they told me to come to the hospital, that Momma was gone. But now she is nothing can trouble, or worry her, and the rest of her days will be happy ones.

She will be with all of her old friends, and I know that her husband will be glad to see her after a long time. Death is hard, cruel, and bitter, yet it can be one of the most blessed things there is. And Momma was concerned, and she was merciful. Momma was sick, but I still expected to see her up, and around again. Why she seems like only yesterday that would find me, and I would see her, and get her mail. But Mom-

ma was here when there wasn't any post office hardly. She will always be remembered as one of Crockett County's best loved pioneers.

Yes, death came, and took out of many lives much love, and filled it with deep sorrow. Momma is gone now — but in the depths of everybody's heart there will always be the thought of our Momma.

Father time is moving on, and death will call many more times. But in years to come, when I, along with the rest of the grandkids have grown up, we'll tell them about one of the sweetest, kindest and most loveable Momma's that ever lived.

**THEY MAY AT THAT**

Garrison Dam, N. D. — President Eisenhower was shown the Garrison Dam today by Brig. Gen. W. E. Potter of the Army Corps of Engineers who is in charge of the \$300,000,000 project.

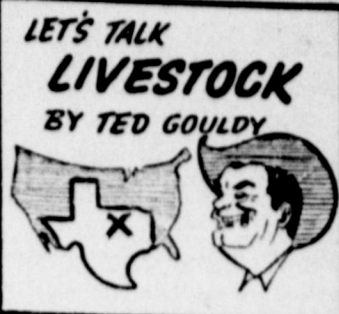

The dam, the world's largest rolled earth dam, was one of the largest river projects started under the 20-year Democratic administration.

Potter said a large paper mache model of the dam was being sent to nearby states "so the people can see how we're spending their money."

Mr. Eisenhower shot a quizzical look at the general, "Did you ever stop to think," Mr. Eisenhower asked, "that if they find out, they may stop you some day."

**GLAMORENE**, the Rug-Cleaning Miracle, on sale at Ratliff

Fort Worth — Lighter receipts of livestock and some clouds and showers in the territory gave the cattle trade a stimulus at Fort Worth Monday. Most cattle and calves were 50 cents to \$1 higher and some cows and some calves were \$1 to \$1.50 above the low time last week. Receipts at Fort Worth were 20 percent under a week earlier and the nation's 12 major markets reported 11 percent fewer cattle and calves.

Hog prices were firm with top hogs at \$26, and sows at \$20 to \$23. Pigs drew downward.

Most classes of sheep and lambs were steady, except feeder lambs were slow and some ewes weaker.

Good and choice fed steers and yearlings cashed at \$17 to \$22, and common and medium sorts sold from \$9 to \$16, with cull yearlings at \$6 to \$8.

Fat cows sold from \$8 to \$12.50, some heiferish kinds upwards to \$13 to \$14. Cannors and cutters drew mostly \$6 to \$8. Bulls sold from \$7 to \$13, odd head reaching \$13.50.

Good and choice slaughter calves cleared at \$13 to \$18.50, while common and medium butcher calves sold from \$9 to \$13, and culls sold for \$6 to \$9.

Good and choice stocker steer calves drew \$12 to \$16.00, and stocker steer yearlings moved at \$10 to \$15. Heifer calves and heifer yearlings sold generally \$2 to \$3 under comparable steers. Stocker cows were considerably more active at \$7 to \$10.

Good and choice fat lambs sold for \$17 to \$23, and common to medium sorts drew \$10 to \$14, with culls from \$5 to \$10. Stocker and feeder lambs bulked at \$10 to \$15. Stocker ewes drew \$5 to \$7 slaughter ewes sold from \$3.50 to \$4.50.

Fat yearlings wethers sold from \$10 to \$14, and feeder yearlings cashed at \$10 down. Old wethers sold from \$6 to \$8, and two-year-olds cashed at \$10 down.

**The Draft Law —**

(Editor's note: This is one of a series of 10 short articles on the draft law and its rules and regulations.)

On a local draft board is placed the responsibility, under applicable laws and regulations, of deciding which men should be deferred because of their civilian activities.

The three categories of men considered are: (1) farmers or farm workers, (2) college or university students, and (3) men in industrial and all other civilian activity.

In the case of students, deferment until the end of the school year is ordered by law, if the student is mailed an order to report for induction while he is in school satisfactorily taking a full-time course of instruction, provided he has never received such a statutory deferment before.

If the student has previously received such a deferment, then further deferment is up to the local board. The board can consider information outside the scholastic as well as scholastic information. The widely-publicized draft test for college students can be ignored by local boards under draft regulations if the board so desires. Score on the draft test and class standing of the student are provided as information for the board.

Here are three things the board considers when it is looking at a case of possible deferment for farming or other civilian activity: (1) Is the man engaged, except for seasonal or temporary interruption, in the activity? (2) Can he be replaced by persons with his qualifications or skills? (3) Would his removal cause a material loss of effectiveness in the activity?

In the case of farmers or farm workers, the chief question asked is: Is he employed in the production for market of a substantial quantity of agricultural commodities necessary to maintenance of public health, safety or interest? All such deferments are for limited periods.

**Freedom from Drudgery!**

These automatic electric appliances are symbols of a new freedom for American homemakers — just as the Liberty Bell symbolizes the Freedoms of American life.

§ Automatic electric home appliances turn West Texas homes into small factories producing a variety of products from frozen desserts to clean shirts.

§ They provide a healthy, comfortable, pleasant atmosphere for family living... recreation and entertainment for fuller enjoyment of family life.

§ Research engineering and dependable electric service provide means of eliminating the time-consuming drudgery of housework. Electric service and electric servants together have created a new way of living — a new freedom.

**WORLD'S LARGEST OIL TANK**, located in Monahans, Texas, is surveyed by officials who plan to make a recreational area and tourist attraction of the 25 year old concrete structure. The tank was built by Shell Oil Company during the flush production days of the Hendricks pool in Winkler County. O. G. Rudy, President of the Chamber of Commerce, Wayne Long, Chamber of Commerce Tourist Promotion Committee Chairman and Fred P. Snelson Mayor, above left to right, discuss future plans.

### Monahans Acquires World's Largest Oil Tank For Use As Recreational Center for Citizens

MONAHANS, Texas. — "The world's largest square dance" could easily be held in a giant concrete arena located amid the drifting sand dunes and mesquite bushes of West Texas. City officials of Monahans have reached an agreement with Shell Oil Company in Midland to lease a 25 year old, 45 million gallon storage tank near the city for \$1.90 per year.

Although the huge concrete tub has been empty since 1931, it was not until recent months that Wayne Long, chairman of the Monahans Chamber of Commerce Tourist Promotion Committee, re-

cognized the potential recreational values to be realized through use of the structure. Since making the original contacts with Shell officials in Midland, his committee and the Monahans City Council have completed ambitious plans for future use of the facilities.

First, a new hardsurfaced road will be built from the city to the tank where a large, fenced parking area will be available for tourists and local citizens. A sign on Highway 80 pointing to the "Largest Man Made Oil Tank in the World" will be erected to let tourists know that the unusual attrac-

tion is just a few hundred yards from the highway.

Long said that they hope to begin clean-up work inside the structure immediately and plan to provide picnic tables and other recreational facilities for visitors to enjoy. In the past the tub has been used numerous times for meetings, square dances and athletic contests, and in 1950 the Southeast Square Dance Festival was held there, attracting more than 5000 visitors from all over the southwest. The structure is so enormous, however, that a crowd of 100,000 persons would be just as cozy inside its semi-circular walls.

A visitor's first impression when gazing into the tub is "Why, it's the biggest thing I've ever seen!" Its staggering dimensions, 620 feet long, 510 feet wide and walls over 20 feet high, would accommodate an area equivalent to seven football fields. Its capacity of 1,084,000 barrels or over 45,000,000 gallons is about 9 times the size of ordinary steel storage tanks used today.

During the days of flush production from the famous Hendricks Pool near Wink, Shell engineers were faced with the problem of providing quick, economical and adequate storage for the oil which sold for 75¢ a barrel in 1928. Their calculations proved that one filling of the tank would pay for the structure since it could be built for 23¢ a barrel or \$256,000.

Mule-skinners, concrete, lumber, engineers and pipe started pouring in from all over the country and 90 days later, March 30, 1928, the structure was completed. Many designs and calculations were made on the job site. A young Chinese Engineer, Dapng Young, calculat-

From where I sit... by Joe Marsh

### Bad Case of the "Zutters"

Our copyboy is out sick. So the editor (me) is taking over some of his chores—which include running the addressing machine on "mailing-out night."

Last week I didn't have the usual number of papers left over for sale at the office. Could it be that what had happened—until Chub Zimmer called to ask why he'd gotten 54 copies.

Then I realized—"Zimmer" is the last name the machine prints. Guess I forgot to turn it off... and it just kept grinding out Chub's name on all the remain-

ing copies. That machine just didn't know when to stop.

From where I sit, people are like that sometimes. They often don't know when to stop. Like those who are prejudiced against someone with an accent, perhaps... or against someone who likes a cool bottle of beer with his supper. So, in these columns I try to persuade everyone to "throw the switch" on prejudice so it won't get repeated.

Joe Marsh

## So the People May Know

The clerk of each county must publish annually a financial report showing how much money has been spent out of each of the county's funds and the balance in each fund. It must reveal the county's indebtedness and give other details outlined by state law as follows:

"Art. 1609. County Finances — publication of financial report of county by county clerk.

"Immediately after the first regular term of said court in each year said clerk shall publish once in some weekly newspaper published in his county, or if there be no paper published herein, then by posting four copies of such exhibit one in each commissioner's precinct, one of which shall be at the courthouse door, the other three at public places in such precincts, an exhibit showing the ag-

gregate amount paid out of each fund for the four preceding quarters, and the balance to the credit or debit of each fund; also the amount of indebtedness of said county, with their respective dates of accrual, and to whom and for what due; also the amount to the debit or credit of each officer or other persons with whom an account is kept. The cost for publishing the same shall be paid by order of said court out of the general fund of the county."

Another provision of the law is that the county treasurer must publish a financial report after it has been inspected by the commissioners. The law says: "Art. 1636. County finances — publication of notice of county treasurer's reports after inspection by the commissioners' court. . . . Prior to the adjournment of each regular term of the court, the county judge and each commissioner shall make affidavit that the requirements of this article have been in all things fully complied with by them at said term of said court, and that the cash and other assets mentioned in said

ed all volumes and gauge table with a Chinese abacus, and his work proved amazingly accurate.

Mule teams did all of the grading and plowing, pulled two tractors used in excavating and tamping, and hauled dirt in rustic dump wagons. Work continued around the clock in two twelve-hour shifts, seven days a week to complete the job on schedule. Much dirt was cut out of the center, and then piled and graded into a high, 60 degree wall around the edges. After the concrete had been poured, the construction of the huge wooden roof began. Tall eight by eight columns supported the structure and slowly the thousands of pieces of one inch lumber were bolted and nailed across the open expanse of the 8-acre structure. Strangely enough, all nails and bolts used in the roof were made of aluminum usually thought to be a recent development.

When production from Hendricks and other fields declined with the beginning of state supervised proration in 1931, the big tub had served its usefulness. Shell Oil and Shell Pipe Line were able to provide adequate, permanent storage at tank farms in McCamey from which the oil was dispatched through Shell's 10-inch line to Cushing, Oklahoma. The wooden roof was sold in 1933, and the large hole knocked in the side at that time is used for the entrance to the structure today.

Adding Machines at the Stockman.

county treasurer's quarterly report made by said treasurer to said court, and held by him for the county, have been fully inspected and counted by them giving the amount of said money and other assets in his hands. Such affidavits shall be filed with the county clerk and recorded in the minutes of said court the term at which the same were filed; and the same shall be published in some newspaper published in the county, for one time."

Publication of county financial reports is required to give the citizens information as to how their county government is being operated and how their tax money is being spent.

*Accurate and Complete*  
**RANCH RECORDS**  
*Are More Important*  
*Today Than Ever*

Government regulation and heavy tax programs are destined to be a part of the American way of doing business for a long time. For that reason, it is more important today than ever that every business keep accurate records of its operations.

The ranch business is no exception. With the stiff federal taxes, you will want to take advantage of every saving item in your expense account and at the same time have clear and convincing records available for inspection by tax agents to prove up any item on your income tax return.

Start now to keep a complete record covering all operations in your business with the Stockman's RANCH RECORD BOOK. Your cancelled checks or your present records can be transcribed to this handy record book, together with your income and inventory records and you can have your entire record in a simplified form contained in one volume.

**Easy To Keep - Complete Record - In 1 Volume**

**THE STOCKMAN RANCH RECORD BOOK**

**Here and There**  
By J. Troy Nickman

heaven," said Jesus, "but they that do the will of my Father who is in heaven."

Patience is important. God will not jump when we speak. We have to wait for him to act in His way and in His own time. "Be still before the Lord, and wait patiently before Him — for those that wait for the Lord shall possess the land."

There are times when veil makes the better show, for the moment. "The wicked plots against the righteousness." Because he is aggressive and takes the initiative, the wicked seems to have the better start. "—but the Lord laughs at the wicked, for He sees that his day is coming."

So it has ever been. Many a tyranny has risen in the history of man. Not one has endured.

So it will always be. For this is God's world. He will never turn it over to any sinner to exploit. He holds the world in trust for his loyal and obedient children. "The meek shall possess the land, and delight themselves in abundant prosperity."

Much is said about foreign policy. The best foreign policy is outlined in the 37th Psalm of your Bible. Read it now.

It is also the best personal policy for the individual, and it works at home and abroad. Try it, and see.

**Mrs. S. B. Phillips**

(Continued from Page One)

married S. Byrd Phillips, a young ranchman who had recently arrived from his birthplace in Hillsboro. The wedding took place in the old Methodist Church in Ozona.

Nine children were born to Mr. and Mrs. Phillips, five of them surviving. The surviving children are three sons, Arthur B. Phillips, Hillery M. Phillips and William C. Phillips, all of Ozona, and two daughters, Mrs. Clay Adams of Ozona and Mrs. Joe Nussbaumer, whose husband, Air Force Captain Nussbaumer, is stationed in the Panama Canal Zone. Twelve grandchildren, one sister, Mrs. Tom Petry of San Antonio, and two brothers also survive.

Mr. Phillips died here in 1924 and Mrs. Phillips took on the job of heading the family and continuing operation of the vast ranch and business holdings which the couple had acquired from a start made in 1901 when Mr. Phillips, in partnership with the late Roy Hudspeth, acquired his first land holdings, a 16-section ranch south of Ozona which they purchased from Eli Schwalbe. In 1905 Mr. Phillips bought the interest of Mr. Hudspeth and made this his headquarters ranch until his death March 19, 1924. In the interim he continued to expand his land holdings with purchase of the 17-section Glasscock ranch and the 14-section Williamson ranch, and another 42-section place in Terrell and Val Verde counties.

His interests extended to civic enterprises in the West Texas area, becoming a stockholder in the Ozona National Bank, in the original telephone company in Ozona, in the Mertzon wool warehouse and Mertzon bank and other enterprises.

As her children grew up, the burden of business was gradually shifted to their shoulders and in late years Mrs. Phillips enjoyed the rewards of the pioneer hardships which she endured in common with other pioneer families, and her home, friends and family, along with her flowers and lawn, were her consuming interest. She was a lifetime member of the Baptist Church.

**Conoco Runs**

(Continued from Page One)

heavily oil and gas-cut mud, free oil and oil and gas-cut mud. Oil flowed by heads on a subsequent test from 8,152 to 8,199 feet. Intervals tested were corrected after electrical logs changed total depth from 8,235 to 8,347 feet. Corrected tops of the Strawn is 8,179 feet minus datum point of 5,233 feet.

Four and a half miles northwest of the Todd Deep sector, Conoco's No. 1-E Shannon, section 15, Block BB, ELL&RR survey, was drilling below 8,726 feet, in lime and shale.

Ninety-minute drillstem test from 8,541 to 8,640 feet recovered 210 feet of drilling mud, 1,620 feet of heavily gas-cut and salt water-cut mud and 870 feet of black sulphur water.

Six miles east of the shallow Vaughan pool, E. H. Shaw No. 1 Mrs. Nettie Holt-Sinclair, section 14, Block OP, GC&SF survey, was abandoned at 1,350 feet, in sand showing salt water.

George Barnes No. 1 Childress-Superior, section 82, Block GH, GC&SF survey three miles east and slightly south of the Shaw failure was quit at 1,502 in sand.

**The OASIS on your route**

The traveler of ancient times sought rest and refreshment at an oasis on his route.

So does the traveler of modern times... he stops at an oasis that prepares his automobile for another hundred miles or more of driving... at an oasis that provides ice water and a chance to stretch... at an oasis that offers clean and sanitary rest rooms... at an oasis where our traveler can give and get a friendly greeting.

Today's oasis is the service station on the American highway.

It makes your trip. It provides your contact with the country through which you're driving. On its driveway you feel at home; you get the impression wherever you stop, that this is your America.

Not one service station, but thousands of them. All along the highways you'll find them staffed and equipped to give your car the expert care it requires, to make your brief visits on their driveways comfortable and pleasant.

The service station where you buy gasoline and motor oil is your chief contact with the American oil industry. It is probably an individual enterprise; and it competes to give you better service and better products than another station down the street or on the other side of town. No small part of the oil industry's progress in the service of the motorist finds final expression on service station driveways.

**HUMBLE**

An added service to vacationers

Let Humble Touring Service map your trip. Secure a Touring Service request card at the Humble sign in your neighborhood, and use it to tell Humble Touring Service where you want to go. Soon you receive clearly marked road maps to and from your destination, a trip log and other helpful information. Use this service for travel anywhere in the U. S., Canada or Mexico. Humble Touring Service, P. O. Box 2180, Houston, Texas. No cost, no obligation.

**NOTICE OF REWARD**

I am offering \$500 Reward

for apprehension and conviction of guilty parties to every theft of livestock in Crockett County — except that no officer of Crockett County may claim the reward.

V. O. Earnest  
Sheriff, Crockett County

**Stop Taking Harsh Drugs for Constipation**

Avoid Intestinal Upset! Get Relief This Gentle Vegetable Laxative Way!

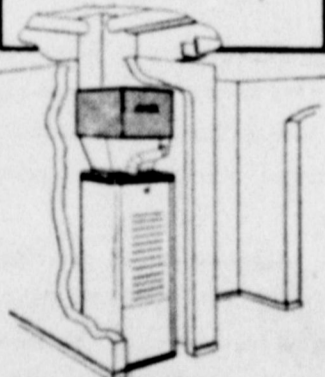

For constipation, never take harsh drugs. They cause brutal cramps and griping, disrupt normal bowel action, make repeated doses seem needed.

Get ease but gentle relief when you are temporarily constipated. Take Dr. Caldwell's Senna Laxative contained in Srup Pepsin. No salts, no harsh drugs. Dr. Caldwell's contains an extract of Senna, one of the finest natural vegetable laxatives known to medicine.

Dr. Caldwell's Senna Laxative tastes good, gives gentle, comfortable, satisfying relief for every member of the family. Helps you get "on schedule" without repeated doses. Even relieves stomach sourness that constipation often brings.

Buy Dr. Caldwell's 30¢ size today. Money back if not satisfied. Mail bottle to Box 280, New York 18, N. Y.

With **LENNOX** you can have air conditioning at reasonable cost!

The LENNOX "Flat-Top" air conditioner is installed directly over the furnace in your closet. Or it can be placed underneath a reverse flow furnace in a slab floor or "crawl space". Available in 2 and 3 ton sizes. Refrigeration unit carries a 5 year guarantee.

LENNOX builds refrigerated air conditioning systems with an experience background of 58 years as home comfort specialists. Let us show you how you can have a Lennox Air Conditioner in your home... old or new... big or small. For free estimate, call—
